**FEDERAL REGISTER** Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for \$340.00 per year, or \$170.00 for 6 months, payable in advance. The charge for individual copies is \$1.50 for each issue, or \$1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

**How To Cite This Publication:** Use the volume number and the page number. Example: 51 FR 12345.

Title 3—

The President

Proclamation 5592 of December 18, 1986

National Burn Awareness Week, 1987

By the President of the United States of America

## A Proclamation

Burns continue to be one of the leading causes of accidental death and injury in our Nation. Each year, burns kill approximately 12,000 Americans and injure more than two million, of whom 70,000 need hospitalization. Tragically, children, the elderly, and the disabled are especially vulnerable to burn injuries, and almost one-third of all burn victims are under age 15. Further, survivors may experience serious scarring, loss of muscle tissue over joints, and accompanying physical disabilities and adjustment difficulties.

Thankfully, significant research advances have improved burn surgery and treatment, aided rehabilitation, shortened hospital stays, and much increased the burn survival rate. Among the most important therapeutic advances are techniques for early burn excision and wound closure, the development of artificial skin to cover large burn areas, better ways to prevent and control infection, and improved ways to restore fluid balance and provide adequate nutrition.

Much remains to be learned, however, about the body's underlying responses to burn injury—for instance, the body's infection-fighting system, factors leading to tissue breakdown and energy loss, hormonal changes, and the life-threatening effects of shock.

The best approach to burn injury, of course, is prevention. Because a great number of burns could be prevented, there is a great need for national attention to all aspects of burn prevention.

We can all be truly grateful to the many Americans who devote themselves to treating, caring for, and rehabilitating burn victims; to all those involved in the vital work of burn research; to the dedicated fire fighters who risk their own lives daily to protect others; and to everyone who promotes burn awareness and prevention.

The Congress, by Public Law 99-538, has designated the week of February 9 through February 15, 1987, as "National Burn Awareness Week" and authorized and requested the President to issue a proclamation in observance of this event.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the week of February 9 through February 15, 1987, as National Burn Awareness Week. I call upon all government agencies, health organizations, communications media, and the people of the United States to observe this week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of December, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and eleventh.

Ronald Reagan

# Rules and Regulations

Federal Register

Vol. 51, No. 246

Tuesday, December 23, 1986

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

#### 9 CFR Part 92

[Docket No. 86-080]

#### Deletion of Certain Canadian Border Ports

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** We are amending the animal import regulations by removing Ogdensburg and Rooseveltown, New York, from the list of ports designated for the importation of animals from Canada. The limited use of these two ports makes their continued operation impractical. Therefore, because we cannot justify the expense of inspecting animals entering this country at either Ogdensburg or Rooseveltown, we are closing these ports.

**EFFECTIVE DATE:** January 22, 1987.

**FOR FURTHER INFORMATION CONTACT:** Dr. Harvey A. Kryder, Jr., Senior Staff Veterinarian, Import-Export and Emergency Planning Staff, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 806, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782; (301) 436-8695.

#### SUPPLEMENTARY INFORMATION:

##### Background

In a document published in the *Federal Register* on July 2, 1986 (51 FR 24154-24155), we proposed to amend the regulations in 9 CFR Part 92 (referred to below as the regulations) by deleting Ogdensburg and Rooseveltown, New York, from the list of border ports designated for animals entering the United States from Canada. During fiscal year 1985, animal inspections took place on 68 days at the Ogdensburg port;

at Rooseveltown, on 4 days. Periods of inactivity clearly outnumbered those requiring the services of a Veterinary Services-approved inspector. This ratio was reversed at Alexandria Bay and Champlain, where animal importers made use of the border inspection services most days of the year. Alexandria Bay and Champlain will remain on the list of border ports in § 92.3(b), and are expected to provide the inspection services previously available at Ogdensburg and Rooseveltown for animals entering New York State from Canada.

During the 60-day public comment period that ended September 2, 1986, one party responded. The commenter, a private individual, objected to the closing of the port at Ogdensburg, citing the inconvenience of traveling to Alexandria Bay or Champlain to transact routine business.

We agree that the removal of locally available services could cause some inconvenience, but the low volume of animal traffic entering from Canada at Ogdensburg does not justify the expense of our maintaining personnel to inspect animals there.

We are therefore amending the regulations as proposed.

On August 12, 1986, a final rule published in the *Federal Register* amended the regulations by relieving restrictions on the importation of cattle from brucellosis certified free provinces of Canada. The amended § 92.20(c)(2) revised the list of approved ports of entry for cattle from Canada. Included on that list were Ogdensburg and Rooseveltown, New York. Because Ogdensburg and Rooseveltown are now being deleted from the list of border ports for the importation of animals, we are simultaneously deleting them from the list of ports of entry for cattle from brucellosis certified free provinces of Canada.

This document also introduces nonsubstantive editorial changes not addressed in this supplementary information.

#### Executive Order 12291 and Regulatory Flexibility Act

This rule is issued in conformance with Executive Order 12291 and has been determined to be not a "major rule." Based on information compiled by the Department, it has been determined that this final rule will have an effect on

the economy of less than \$100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this rulemaking action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

Deletion of Ogdensburg and Rooseveltown, New York, from the list of animal importation ports should change neither the number of animals entering the United States from Canada nor the number of persons importing them. Animal importers previously accommodated at Ogdensburg and Rooseveltown will find veterinary inspection services available at the Canadian border ports of Alexandria Bay and Champlain, New York. Personnel now at the Alexandria Bay and Champlain ports should have no difficulty responding to the increased demand for their services.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

#### Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

#### Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR Part 3015, Subpart V.)

#### List of Subjects in 9 CFR Part 92

Animal diseases, Canada, Imports, Livestock and livestock products, Mexico, Poultry and poultry products, Quarantine, Transportation, Wildlife.

**PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCE AND SHIPPING CONTAINERS THEREON**

Accordingly, 9 CFR Part 92 is amended as follows:

1. The authority citation for Part 92 continues to read:

Authority: 7 U.S.C. 1622; 19 U.S.C. 1306; 21 U.S.C. 102-105, 111, 134a, 134b, 134c, 134d, 134f, and 135; 7 CFR 2.17, 2.51, and 371.2(d).

2. Paragraph (b)(1) of § 92.3 is revised to read as follows:

**§ 92.3 Ports designated for the importation of animals and birds.**

(b) *Canadian border ports.* (1) The following land border ports are designated as having the necessary inspection facilities for the entry of animals from Canada: Eastport, Idaho; Houlton and Jackman, Maine; Detroit, Port Huron, and Sault Ste. Marie, Michigan; Opheim, Raymond, and Sweetgrass, Montana; Alexandria Bay, Buffalo, and Champlain, New York; Dunseith, Pembina, and Portal, North Dakota; Derby Line and Highgate Springs, Vermont; Blaine, Lynden, Oroville, and Sumas, Washington.

**§ 92.20 [Amended]**

3. In § 92.20, the sixth sentence of paragraph (c)(2), "Ogdensburg, and Rooseveltown," is removed.

Done in Washington, DC, this 17th day of December 1986.

J.K. Atwell,

Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc. 86-28664 Filed 12-22-86; 8:45 am]

BILLING CODE 3410-34-M

**9 CFR Parts 161 and 162**

[Docket No. 86-072]

**Standards for Accredited Veterinarians**

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** This document amends the regulations concerning accreditation of veterinarians and the suspension or revocation of such accreditation to: (1) Add a "Statement of Purpose"; (2) clarify that accreditation of veterinarians is on a State-by-State basis; (3) require, as a condition for being accredited or reaccredited, that a

veterinarian must be licensed to practice without supervision in the State in which he or she wishes to be accredited; and (4) require, as a condition for obtaining accreditation, that a veterinarian pass an examination administered by the Animal and Plant Health Inspection Service within 5 years prior to applying for accreditation in the State in which he or she wishes to be accredited. These amendments appear to be necessary to clarify the regulations, and to help ensure that veterinarians acting as accredited veterinarians are qualified to perform their duties.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:**

Dr. William A. Ketter, Regulatory Communications and Compliance Policy Staff, VS, APHIS, USDA, Room 829, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8565.

**SUPPLEMENTARY INFORMATION:** The regulations in 9 CFR, Subchapter I (referred to below as the regulations), contain provisions concerning the accreditation of veterinarians and the suspension or revocation of such accreditation.

A document published in the *Federal Register* on April 29, 1986 (51 FR 15913-15915), proposed to amend the regulations to: (1) Add a "Statement of Purpose"; (2) clarify that accreditation of veterinarians is on a State-by-State basis; (3) require, as a condition for being accredited or reaccredited, that a veterinarian be licensed to practice without supervision in the State in which he or she wishes to be accredited; and (4) require, as a condition of obtaining accreditation, that a veterinarian pass an examination administered by the Animal and Plant Health Inspection Service within 5 years prior to applying for accreditation in the State in which he or she wishes to be accredited.

Comments were solicited in response to the proposal for a 60-day period ending June 30, 1986. Nine comments were received. They were from State governments, veterinary medical associations, and other interested persons.

One comment was positive, six comments suggested changes in the proposed regulations, and two comments did not address the proposed amendments.

All of the comments were carefully considered. Except for the comment indicating unqualified approval and those which did not address the proposed amendments, all the comments are discussed below. Based on the rationale set forth in the proposal and in

this document, the provisions of the proposal are adopted as a Final Rule.

**Accreditation**

Section 161.1(a) of the regulations sets forth criteria for the accreditation of veterinarians. Section 161.1(b) of the regulations sets forth corresponding criteria for the reaccreditation of veterinarians whose accreditation has been revoked.

Prior to the date of this document, 161.1(a) of the regulations provided as follows:

(a) The Deputy Administrator is hereby authorized to accredit a veterinarian when he determines that such veterinarian (1) is a graduate of a college of veterinary medicine; (2) is licensed to practice veterinary medicine in the State in which he wishes to be accredited; (3) has made formal application for accreditation on Form 1-36A, "Application for Veterinary Accreditation"; (4) has passed an examination administered by the Service; and (5) has been jointly recommended by the State Animal Health Official and the Veterinarian-in-Charge for the State in which the veterinarian is licensed and wishes to be accredited.

In the document of April 29, 1986, it was proposed to amend these provisions in several ways.

One amendment was proposed to clarify the intent of the regulations that an accredited veterinarian perform official duties as an accredited veterinarian only in the State or States in which the veterinarian is accredited. Three comments were received on this issue. One suggested that Federal accreditation should be transferable from State to State if the veterinarian performed satisfactorily in the first State. Another suggested that accreditation should be transferable from State to State after the veterinarian has been practicing as an accredited veterinarian for 5 years. The third comment stated that Federal accreditation should be granted on a national basis only, not a State basis, and that federally accredited veterinarians should merely be required to "register" with State officials when they move to a new State.

No changes are made in the proposal based on these comments. Federal accreditation is granted on a State-by-State basis because the knowledge and skills needed by accredited veterinarians are different in different States. Different livestock diseases and pests are prevalent in different parts of the country. Different species of livestock and other animals dominate the animal population in different parts of the country. In addition, different aspects of agriculture are dominant in different parts of the country. For

example, a large volume of import and export business is conducted in some States, while very little is conducted in other States. Finally, acceptable procedures vary from State to State. These differences mean that an accredited veterinarian in one State needs different knowledge and skills than an accredited veterinarian in another State. Therefore, in order to help ensure that accredited veterinarians have the knowledge and skills needed to perform satisfactorily as accredited veterinarians in the State or States in which they wish to be accredited, it appears to be necessary to grant Federal accreditation on a State-by-State basis. For these same reasons, Federal accreditation cannot simply be transferred to another State if the accredited veterinarian moves, even if the veterinarian has been satisfactorily practicing as an accredited veterinarian for some period of time. Only a new qualifying examination can demonstrate that the veterinarian is prepared to practice successfully as an accredited veterinarian in his or her new State.

Another amendment in the document of April 29, 1986, proposed to require, as a condition of being accredited or reaccredited, that a veterinarian must be licensed to practice without supervision in the State in which he or she wishes to be accredited. Three comments were received on this issue. One comment stated that "[t]here should be no Federal requirement to be licensed by the States." The other two comments expressed concern that veterinarians holding temporary State licenses could not receive accreditation under the proposed rule.

No changes are made in the regulations based on these comments. Veterinarians who perform the functions of accredited veterinarians are practicing veterinary medicine. However, the accreditation examination conducted by the Service does not test the medical skills and knowledge of practitioners, but only their knowledge of applicable Federal regulations and policies. Instead, the Service relies on State licensing requirements to ensure that veterinarians who apply for accreditation possess the requisite medical skills and knowledge. For this reason, it is necessary to require that applicants for accreditation be licensed to practice veterinary medicine in the State in which they wish to be accredited. However, any veterinarian who applies for accreditation and meets the requirements for accreditation, including the requirement that he or she be licensed to practice veterinary medicine without supervision in the

State in which he or she wishes to be accredited, will be accredited by the Service. Receipt of accreditation does not depend on whether the veterinarian's license is temporary or permanent, but on whether it allows the veterinarian to practice without supervision.

Finally, an amendment was proposed to require that an applicant for accreditation must have passed an examination administered by the Service within 5 years prior to applying for accreditation in the State in which he or she wishes to be accredited. Two comments addressed this issue. One apparently misunderstood the proposal to mean that retesting would be required every 5 years. This commenter suggested that an "accreditation seminar" dealing with the day-to-day problems facing accredited veterinarians would be more valuable than an examination to "the livestock industry and to the veterinary profession". The other commenter stated that the examination should be no more than 2-3 years prior to the date the veterinarian applies for accreditation.

No changes are made based on these comments. The Service agrees that an "accreditation seminar" would be a valuable experience for veterinarians applying for accreditation. However, a seminar would not provide the Service with any concrete information as to the skills and knowledge of the veterinarians applying for accreditation. The Service needs this information to determine whether a veterinarian is qualified to be accredited. Only an examination can provide this information. An examination administered more recently than 5 years prior to application for accreditation might provide more accurate information to the Service concerning the applicant's skills and knowledge. However, as stated in the document of April 29, 1986 (51 FR 15914), this period of time appears to be adequate "to ensure that the test is relevant concerning the applicant's current skills and knowledge of procedures" necessary to practice as an accredited veterinarian. In addition, this period of time is consistent with the length of time most State veterinary medical boards accept other test results, such as those from the National Examinations in veterinary medicine, to be accurate and relevant.

Three of the comments received did not address the proposed amendments directly, but instead addressed related issues.

One of these comments asked why federally employed veterinarians are not

required to be accredited, yet are allowed to perform the functions of accredited veterinarians. Under the accreditation program, veterinarians in private practice who are accredited are authorized to perform certain activities on behalf of the Service (see the document of April 29, 1986, 51 FR 15913).

These accredited veterinarians represent the Federal government, though they are not Federal employees. They perform various functions on behalf of the Service without, under most circumstances, the direct supervision of any Federal personnel. It is therefore important that accredited veterinarians be carefully selected for the greatest possible skill, knowledge, and integrity. The only method available to the Service to make this selection is to require that veterinarians meet certain standards in order to be accredited. Federally employed veterinarians also need to be carefully selected. However, a different method is used to select them. They must meet requirements for Federal employment designed by the Office of Personnel Management to ensure that veterinarians hired by the government are knowledgeable and competent. These two systems, one for accrediting veterinarians in private practice and one for hiring Federal veterinarians, are different because of the basically different circumstances under which each group must be selected and must perform. However, both systems are designed to ensure that the veterinarians are competent and knowledgeable.

The other two comments which raised an issue related to the proposed amendments both suggested that accredited veterinarians should be periodically retested to maintain their accreditation. One of these comments also suggested that accredited veterinarians should be divided into two groups—those serving "export and interstate market functions" and those serving "on-the-farm functions"—and that the two groups should be separately accredited.

No changes are made in the regulations based on these comments. At this time the Service believes that periodic retesting of accredited veterinarians is unnecessary. Consistent, effective practice should maintain a veterinarian's knowledge and skills. Veterinarians who do not fulfill their responsibilities may have their accreditation revoked or suspended, and are then subject to reaccreditation procedures. Also, at this time, the Service does not believe that dividing accredited veterinarians into

two separately accredited groups, as suggested by the commenter, is necessary or desirable, given the tremendous overlap in functions for the two suggested groups. However, if it appears in the future that periodic retesting would better serve the needs of the Service, or that accredited veterinarians should be tested and accredited based on specialized areas of practice, amendments to the existing regulations can be proposed.

#### Executive Order and Regulatory Flexibility Act

This rule is issued in conformance with Executive Order 12291 and has been determined to be not a "major rule." The Department has determined that this rule will not have a significant annual effect on the economy; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will have no significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

It appears that the requirements contained in this document are consistent with the current practices of the vast majority of accredited veterinarians and applicants for accreditation.

Under the circumstances explained above, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

#### Paperwork Reduction Act

In accordance with section 3507 of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), the information collection provisions that are included in this rule have been approved by the Office of Management and Budget (OMB) and have been given the OMB control number 0579-0032.

#### Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR Part 3015, Subpart V).

#### List of Subjects in 9 CFR Parts 161 and 162

Administrative practice and procedures, Veterinarians.

### PART 161—REQUIREMENTS AND STANDARDS FOR ACCREDITED VETERINARIANS AND SUSPENSION OR REVOCATION OF SUCH ACCREDITATION

1. The authority citation for Part 161 continues to read as follows:

Authority: 15 U.S.C. 1828; 21 U.S.C. 105, 111-114, 114a, 114a-1, 116, 120, 121, 125, 134b and 134f; 7 CFR 2.17, 2.51, and 371.2(d).

§§ 161.2, 161.3 and 161.4 [Redesignated from §§ 161.1, 161.2 and 161.3]

2. Sections 161.1, 161.2, and 161.3 are redesignated as §§ 161.2, 161.3, and 161.4, and a new § 161.1 is added to read as follows:

#### § 161.1 Statement of purpose.

This subchapter concerns a program administered by the Service to accredit veterinarians and thereby authorize them to perform, on behalf of the Service, certain activities specified in this chapter. This program is intended to ensure that an adequate number of qualified veterinarians are available in the United States to perform such activities.

3. In redesignated § 161.2, paragraphs (a) and (b) are revised to read as follows:

#### § 161.2 Requirements for accreditation.

(a) The Deputy Administrator is hereby authorized to accredit a veterinarian in a given State when he or she determines that such veterinarian:

(1) Is a graduate of a college of veterinary medicine;

(2) Is licensed to practice veterinary medicine without supervision in the State in which he or she wishes to be accredited;

(3) Has made formal application for accreditation on Form 1-36A, "Application for Veterinary Accreditation";

(4) Within five years prior to applying for accreditation, has passed an examination administered by the Service for the State in which he or she wishes to be accredited; and

(5) Has been jointly recommended by the State Animal Health Official and Veterinarian in Charge for the State in which the veterinarian is licensed and wishes to be accredited.

(b) The Deputy Administrator is hereby authorized to reaccredit a veterinarian whose accreditation has been revoked when the revocation has been in effect for not less than two years and he or she determines that such veterinarian:

(1) Is licensed to practice veterinary medicine without supervision in the

State in which he or she wishes to be accredited;

(2) Has made formal application for accreditation on Form I-36A, "Application for Veterinary Accreditation";

(3) Has been jointly recommended by the State Animal Health Official and the Veterinarian-in-Charge for the State in which the veterinarian is licensed and wishes to be accredited;

(4) Has furnished adequate assurance that he or she will faithfully fulfill the duties of an accredited veterinarian in the future; and

(5) Has passed an examination administered by the Service for the State in which he or she wishes to be accredited.

4. In redesignated § 161.3, the introductory text revised to read as follows:

#### § 161.3 [Amended]

An accredited veterinarian shall perform the functions of an accredited veterinarian only in the State or States in which such veterinarian is accredited. An accredited veterinarian shall perform the functions of an accredited veterinarian subject to the supervision and direction of the Veterinarian-in-Charge and the State Animal Health Official and shall observe the following specific standards: \* \* \*

#### § 161.4 [Amended]

5. In paragraph (a) of redesignated § 161.4, the reference to "§ 161.2" is changed to "§ 161.3".

### PART 162—RULES OF PRACTICE GOVERNING REVOCATION OR SUSPENSION OF VETERINARIANS' ACCREDITATION

6. The authority for Part 162 continues to read as follows:

Authority: 15 U.S.C. 1828; 21 U.S.C. 105, 111, 114a-1, 115, 116, 120, 121, 125, and 134f; 7 CFR 2.17, 2.51, and 371.2(d).

#### § 162.10 [Amended]

7. In § 162.10, the reference to "9 CFR 161.2" is changed to "§ 161.3 of this chapter".

#### § 162.11 [Amended]

8. In § 162.11, the reference to "9 CFR 161.2" is changed to "§ 161.3 of this chapter".

Done at Washington, DC, this 17th day of December 1986.

J.K. Atwell,  
Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

## FEDERAL RESERVE SYSTEM

### 12 CFR Part 265

[Docket No. R-0593]

#### Rules for Delegation of Authority; Change in Bank Control Act

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule.

**SUMMARY:** The Board is amending its Rules Regarding Delegation of Authority, 12 CFR Part 265, to delegate authority to the Director of the Division of Banking Supervision and Regulation with the concurrence of the Board's General Counsel, and to the Reserve Banks, with the concurrence of the Director of the Division of Banking Supervision and Regulation and the Board's General Counsel, to waive the publication and solicitation of public comment requirements of the Change in Bank Control Act, 12 U.S.C. 1817(j), as amended by the Anti-Drug Abuse Act of 1986, No. 99-750 (October 27, 1986), where it is determined in writing that such disclosure or solicitation would seriously threaten the safety or soundness of a bank. The Board has delegated similar authority to waive, dispense with or modify the procedural requirements, including publication requirements, of the Bank Holding Company Act, 12 U.S.C. 1841 *et seq.*, where expeditious action is required. 12 CFR 262.3(k)(1); 265.2(c)(30).

**EFFECTIVE DATE:** December 15, 1986.

#### FOR FURTHER INFORMATION CONTACT:

J. Virgil Mattingly, Deputy General Counsel (202/452-3430) or Scott G. Alvarez, Senior Counsel (202/452-3583), Legal Division, Board of Governors of the Federal Reserve System, Washington, DC 20551. For the hearing impaired *only*, Earnestine Hill or Dorothea Thompson, Telecommunication Device for the Deaf (202/452-3544).

**SUPPLEMENTARY INFORMATION:** The Anti-Drug Abuse Act of 1986 ("Act"), which was signed into law on October 27, 1986, included certain provisions amending the Change in Bank Control Act ("CBC Act") to require that the federal banking agencies publish notice of any filing under the CBC Act,

including the name of the parties seeking control and the name of the target bank, and solicit public comment on the proposed acquisition, in particular from persons in the geographic area in which the bank to be acquired is located. The CBC Act did not previously contain any requirement for public notice or solicitation of comment from the public regarding a proposed acquisition.

The Act authorizes the federal banking agencies to dispense with publication and solicitation of public comments if "the agency determines in writing that such disclosure or solicitation would seriously threaten the safety or soundness" of a bank.

The amendment to the Board's Delegation Rules would allow for expeditious processing of notices where public notice would otherwise threaten the safety or soundness of a bank.

#### Regulatory Flexibility Act Analysis

Pursuant to section 605(b) of the Regulatory Flexibility Act (Pub. L. No. 96-354, 5 U.S.C. 601 *et seq.*), the Board certifies that the proposed amendment will not have a significant economic impact on a substantial number of small entities. The proposed amendment is a change to agency procedures and practice and does not have a particular effect on small entities.

#### Public Comment

The provisions of 5 U.S.C. § 553 relating to notice, public participation, and deferred effective date, have not been followed in connection with the adoption of this amendment because the change affects the Board's internal procedures and practices and does not constitute a substantive rule subject to the requirements of that section. The Board's expanded rulemaking procedures have not been followed for the same reason.

#### List of Subjects in 12 CFR Part 265

Authority, Delegations (Government agencies), Banks, banking, Federal Reserve System.

For the reasons set forth above, 12 CFR Part 265 is amended as follows:

#### PART 265—RULES REGARDING DELEGATION OF AUTHORITY

1. The authority citation for 12 CFR Part 265 continues to read as follows:

**Authority:** Section 11(k), 38 Stat. 261 and 80 Stat. 1314; 12 U.S.C. 248(k).

2. Section 265.2 is amended by adding new paragraphs (c)(35) and (f)(48) to read as follows:

#### § 265.2 Specific functions delegated to Board employees and to Federal Reserve Banks.

(c) \* \* \*

(35) Under section 1817(j)(2) of the Change in Bank Control Act (12 U.S.C. 1817(j)), and with the concurrence of the Board's General Counsel, to waive, dispense with, modify, or excuse the failure to comply with the requirement for publication and solicitation of public comment regarding a notice filed under the Change in Bank Control Act provided that a written finding is made that such disclosure or solicitation would seriously threaten the safety or soundness of a bank holding company or bank."

(f) \* \* \*

(48) Under section 1817(j)(2) of the Change in Bank Control Act (12 U.S.C. 1817(j)) and with the concurrence of the Board's Director of Banking Supervision and Regulation and the Board's General Counsel or their designees, to waive, dispense with, modify, or excuse the failure to comply with the requirement for publication and solicitation of public comment regarding a notice filed under the Change in Bank Control Act provided that a written finding is made that such disclosure or solicitation would seriously threaten the safety or soundness of a bank holding company or bank."

By order of the Board of Governors of the Federal Reserve System, December 15, 1986.  
William W. Wiles,

Secretary of the Board.

[FR Doc. 86-28692 Filed 12-22-86; 8:45 am]

BILLING CODE 6210-01-M

## FEDERAL HOME LOAN BANK BOARD

### 12 CFR Part 505a

[No. 86-1240]

#### Privacy Act of 1974; New System of Records

December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Final rule.

**SUMMARY:** Pursuant to the provisions of the Privacy Act of 1974 ("Privacy Act") (5 U.S.C. 552a) (1982 & Supp. II 1984), the Federal Home Loan Bank Board ("Board") is exempting a new system of records that will contain information concerning enforcement actions, crimes, and suspected crimes from meeting certain requirements of the Privacy Act.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:** John Downing, Attorney, (202) 653-2604 or Rosemary Stewart, Director, (202) 653-2626, Office of Enforcement, Federal Home Loan Bank Board, 1700 G Street NW., Washington, DC 20552.

**SUPPLEMENTARY INFORMATION:** On February 21, 1986, the Board published a notice of a proposed new system of records that would contain information concerning enforcement actions, crimes and suspected crimes involving financial institutions, and change of control applications filed by, and other significant business transactions with, individuals concerning institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation ("FSLIC"). On the same date the Board published a proposed rule that would provide for an exemption under 5 U.S.C. 552a(k)(2) (1982) from certain requirements of the Privacy Act.<sup>1</sup> Because the notice of the proposed system and the proposed rule deal with the same subject matter, they are both discussed herein.

Three comments were submitted, one each by a savings and loan association, a federal savings bank, and a state agency regulating savings and loans. Two of the three commenters offered a strong endorsement for the proposals, stating that their personal experience demonstrates that the system and the exemption are necessary to prevent a criminal or suspected criminal from moving from one financial institution to another after he is detected. The third commenter also recognized the need to maintain records concerning individuals that have been convicted of crimes or have been subject to enforcement or other civil actions, but had concerns about maintaining records of persons who have not been convicted or against whom final civil action has not been taken. The same commenter asked how an individual could have his name removed from the system.

Both these concerns are addressed in the Privacy Act itself. The Privacy Act allows records of law enforcement investigatory material to be maintained. 5 U.S.C. 552a(k)(2)(1982). Thus it is not limited to records of final adjudications or convictions. However, the Privacy Act requires that all records used in

making a determination be as accurate, relevant, timely and complete as is reasonably necessary to assure fairness to the individual in the determination and provides a civil remedy in some circumstances in which an adverse determination is made based on information that does not comply. 5 U.S.C. 552a(e)(5) and (g)(1)(C)(1982). Thus the system of records will reflect any final action on a criminal referral or enforcement matters that were not yet complete when entered into the system. Consistent with the Privacy Act, all efforts reasonably necessary to confirm the contents of records to assure fairness to the individual will be taken before any adverse determination based on the records is made. Moreover, agency personnel having access to the records will be instructed that the mere institution of an enforcement action or referral of a possible criminal action by itself is insufficient grounds for the Board to make an adverse determination on an individual. Personnel would be required to review the underlying facts giving rise to a referral or initiation of an enforcement action before basing an adverse determination on such action.

Although the Privacy Act does not contain specific provisions for the removal of an individual's name or records from the system, it does require that each agency have procedures in place by which an individual can request amendment of records pertaining to him. An individual whose request is not granted is permitted to file a statement of his reasons for disagreeing with the agency's refusal, which statement must be provided when any disclosure of the disputed portion of the record is disclosed. 5 U.S.C. 552a(b) (1982). The Board has formulated such procedures, which are contained in 12 CFR Part 505a (1986). Although the proposed rule would provide an exemption to these provisions when appropriate under 5 U.S.C.

552a(k)(2)(1982), that exemption would not apply to any individual who is denied any right, privilege or benefit to which he is entitled by Federal law, or for which he would otherwise be eligible, except to the extent necessary to protect the identity of a confidential source. Thus, the Privacy Act balances the right of the individual to object to inclusion of data pertaining to him in a system with the need of the agency to maintain confidential files of investigatory materials for law enforcement purposes, affording the individual greater protection when his interests are most directly affected.

Having considered the comments, the Board has determined to adopt the

proposed rule providing for an exemption from certain requirements of the Privacy Act without change. For these same reasons the Board is establishing the system of records by republishing the system notice without change in the Notice Section of this Federal Register.

#### Final Regulatory Flexibility Analysis

Pursuant to Section 3 of the Regulatory Flexibility Act, 5 U.S.C. 604, the Board is providing the following regulatory flexibility analysis:

1. *Need for and objectives of the rule.* These elements are incorporated above in **SUPPLEMENTARY INFORMATION**.

2. *Issues raised by comments and agency assessment and response.* These elements are incorporated above in **SUPPLEMENTARY INFORMATION**.

3. *Significant alternatives minimizing small-entity impact and agency response.* The Small Business Administration defines a small financial institution as "a commercial bank or savings and loan association, the assets of which, for the preceding fiscal year, do not exceed \$100 million." 13 CFR 121.13(a) Therefore, small entities to which the final rule applies are the 1,742 insured institutions that had assets totaling \$100 million or less as of December 31, 1985.

The only alternative to the rule would be not to establish the system of records, or not to exempt the system of records from certain provisions of the Privacy Act. Such an alternative would impede the gathering of material for law enforcement purposes, as described in the proposed rule. Moreover, because the rule governs internal agency procedures, and so does not require action by small entities, the alternative would not lessen any burden on small entities.

Pursuant to 12 CFR 508.11 and 508.14, the Board finds that, because the final rule is a matter of internal agency procedure and because the Board believes that the information is critical to the performance of its examination, supervisory, and enforcement functions, the Board has determined that there is good cause to make the rule effective upon publication in the Federal Register and to waive the 30-day delay of the effective date.

#### List of Subjects in 12 CFR Part 505a

##### Privacy.

Accordingly, the Board hereby amends Part 505a, Subchapter A, Chapter V, Title 12, Code of Federal Regulations, as set forth below.

<sup>1</sup> As described in the proposed rule, the system contains law enforcement investigatory records and would be exempt from certain provisions of the Privacy Act relating to accountings and disclosure of records, the right to be notified of and examine records, the publication of sources of records in each system, and the limitation of the records to those that are relevant and necessary to accomplish a purpose of the agency required by statute or Executive Order.

## SUBCHAPTER A—GENERAL

## PART 505A—RECORDS MAINTAINED ON INDIVIDUALS

1. The authority citation for Part 505a is revised to read as follows:

Authority: 5 U.S.C. 552a; Section 17, Stat. 736, as amended (12 U.S.C. 1437); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 402, 48 Stat. 1256, as amended (12 U.S.C. 1725); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–1948 Comp., p. 1071.

2. Add new § 505a.13 to read as follows:

**§ 505a.13 Exemptions of records containing investigatory material compiled for law enforcement purposes.**

(a) *Scope.* The Board has established a new system of records, entitled the "Confidential Individual Information System." The purpose of this system is to assist the Board in the accomplishment of its statutory and regulatory responsibilities in connection with the supervision of financial institutions. This system will be exempt from certain provisions of the Privacy Act of 1974 for the reasons set forth in paragraph (c) of this section.

(b) *Exemptions Under 5 U.S.C. 552a(k)(2).* (1) Under 5 U.S.C. 552a(k)(2), the head of an agency may issue rules to exempt any system of records within the agency from certain provisions of the Privacy Act of 1974 if the system contains investigatory material compiled for law enforcement purposes.

(2) Provisions of the Privacy Act of 1974 from which exemptions will be made under 5 U.S.C. 552a(k)(2) are as follows:

- (i) 5 U.S.C. 552a(c)(3);
- (ii) 5 U.S.C. 552a(d)(1), (2), (3), and (4);
- (iii) 5 U.S.C. 552a(e)(1);
- (iv) 5 U.S.C. 552a(e)(4) (G), (H), and (I);

and

- (v) 5 U.S.C. 552a(f).

(c) *Reasons for exemptions under 5 U.S.C. 552a(k)(2).* (1) 5 U.S.C. 552a(c)(3) requires that an agency make accountings of disclosures of records available to individuals named in the records at their request. These accountings must state the date, nature, and purpose of each disclosure of the record and the name and address of the recipient. The application of this provision would make known to subjects of an investigation that an investigation is taking place and that they are the subjects of it. Release of such information could result in the alteration or destruction of documentary evidence, improper influencing of witnesses, and reluctance of witnesses to offer information, and could

otherwise impede or compromise an investigation.

(2) 5 U.S.C. 552a (c)(4), (d)(1), (2), (3), and (4), (e)(4)(G) and (H), and (f), relate to an individual's right to be notified of the existence of, and the right to examine, records pertaining to such individual. Notifying an individual at the individual's request of the existence of records and allowing the individual to examine an investigative file pertaining to such individual, or granting access to an investigative file, could: (i) Interfere with investigations an enforcement proceedings; (ii) constitute an unwarranted invasion of the personal privacy of others; (iii) disclose the identity of confidential sources and reveal confidential information supplied by those sources; or (iv) disclose investigative techniques and procedures.

(3) 5 U.S.C. 552a(e)(4)(I) requires the publication of the categories of sources of records in each system. Application of this provision could disclose investigative techniques and procedures and cause sources to refrain from giving such information because of fear of reprisal, or fear of breach of promises of anonymity and confidentiality, thus compromising the agency's ability to conduct investigations and to identify, detect, and apprehend violators.

(4) 5 U.S.C. 552a(e)(1) requires each agency to maintain in its records only information about an individual that is relevant and necessary to accomplish a purpose of the agency required by statute or Executive Order. Limiting the system as described would impede enforcement activities because:

(i) It is not always possible to determine the relevance or necessity of specific information in the early stages of an investigation; and

(ii) In any investigation the Board may obtain information concerning violations of laws other than those within the scope of its jurisdiction. In the interest of effective law enforcement, the Board should retain this information to aid in establishing patterns of criminal activity, and to provide leads for those law enforcement agencies charged with enforcing criminal or civil laws.

(d) *Documents exempted.* Exemptions will be applied only when appropriate under 5 U.S.C. 552a(k).

By the Federal Home Loan Bank Board.

Nadine Y. Washington,

Acting Secretary.

BILLING CODE 6720-01-M

## 12 CFR Part 535

[No. 86-12499]

**Prohibited Consumer Credit Practices; Request for Exemption by State of Wisconsin**

Dated: December 16, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Exemption from consumer credit regulation.

**SUMMARY:** The Federal Home Loan Bank Board ("Board") hereby publishes its decision to grant the State of Wisconsin and exemption from the Board's consumer credit regulation on Prohibited Consumer Credit Practices, 12 CFR 535 ("Credit Practices Rule" or "Rule"), as to transactions subject to the Wisconsin Consumer Act.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:** Stephen D. Johnson, Attorney/Advisor, Division of Consumer and Civil Rights, Office of Community Investment, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552. (202) 653-2692.

**SUPPLEMENTARY INFORMATION:** The Board's Credit Practices Rule provides that, with respect to the extension of credit to consumers after January 1, 1986, it is an unfair act or practice for an institution subject to the Rule to include in a consumer credit contract any of the following clauses: a confession of judgment, a waiver or limitation of exemption from attachment or execution, an assignment of wages (with specified exceptions), or a clause granting a nonpossessory security interest in household goods other than a purchase money security interest.<sup>1</sup> The Rule also prohibits a lender from engaging in any practice which results in the pyramiding of late charges in connection with the collection of consumer credit debt. Lastly, the Rule prohibits lenders from directly or indirectly misrepresenting the nature or extent of a cosigner's liability, and requires that a cosigner be provided a written cosigner disclosure statement

<sup>1</sup> The Credit Practices Rule promulgated by the Federal Home Loan Bank Board applies to member institutions, which by definition are those engaged in the business of providing credit to consumers and which are members of a Federal Home Loan Bank (including service corporations specified in the Rule). This rule became effective January 1, 1986. The Federal Reserve Board and the Federal Trade Commission have adopted substantially similar rules which apply to banks, lenders, and retail installment sellers within their respective jurisdictions. See 12 CFR Part 227 and 16 CFR Part 444.

which outlines the cosigner's potential liability.

The Credit Practices Rule provides, at 12 CFR 535.5, that if a state applies on behalf of insured institutions in that state for an exemption from a provision of the Rule, such exemption will be granted if it is determined by the Director of the Office of Community Investment, in consultation with the General Counsel, that: (1) There is in effect a state requirement or prohibition that applies to any transactions to which a provision of the Rule applies; and (2) the state requirement or prohibition affords a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by the Rule. If such an exemption is granted, the exempted provision of the Rule is not in effect in that state, and the exemption will continue as long as the state effectively administers and enforces its law.

The requirement set forth at 12 CFR 535.5(a)(2) that the state requirement or prohibition be "substantially equivalent" to the Board's Rule does not require that a state's rule mirror the Rule's provisions exactly. Any differences that exist, however, should be so minor as to ensure that consumers are afforded a level of protection equal to or greater than that guaranteed by the Rule without significantly complicating compliance by interstate creditors.

In its petition for exemption, the State of Wisconsin asserted that the Wisconsin Consumer Act ("Act") and the State's enforcement procedure for the Act afford a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by the Rule. Therefore, the State of Wisconsin requested that its state-chartered savings and loan associations be exempt from the operation of the Rule, and that the Board consider that an exemption be applied to federally chartered associations located in Wisconsin as well.

Wisconsin provided a copy of the relevant state statutes and a narrative statement comparing state law with the corresponding provisions of the Rule. The statement also explained how state law and the Rule would apply to the same transaction. The Annual Reports of the Commissioner of Banking for each of the past three years were also provided. They contained summaries of cases brought under the Act and showed what the Commissioner of Banking has done to enforce the Act during the last three years. The petition was signed by the Commissioner of Savings and Loan. Although the Administrator of the Act is the Commissioner of Banking, the

Administrator is required by Wisconsin statute to consult and assist any state official having supervisory authority over a supervised financial organization in maintaining compliance with the Act. The State of Wisconsin also submitted information regarding the number and types of complaints received by the Commissioner of Savings and Loan for the last three years which are relevant to practices covered by the Rule. This latter submission also included background information on the state's procedures for handling consumer complaints.

The Board published in the *Federal Register* an announcement of the Wisconsin request for exemption, an analysis of Wisconsin law, and a request for public comment on April 16, 1986, in 51 FR 12865. No comments were received perhaps because this request is the third in a series of requests by the State of Wisconsin to federal agencies responsible for the enforcement of the Credit Practices Rule. The Board did have access to the analysis and commentary of the Federal Trade Commission and the Federal Reserve Board in preparing its response to the exemption request.

Based on the uncontradicted analysis published on April 16, 1986, additional staff analysis, and concurrence by the Board's Office of General Counsel, the Board believes that the State of Wisconsin has in place a comprehensive consumer credit regulatory scheme containing protections against the specific abuses that the Board's Rule is intended to eliminate. The scheme provides effective enforcement mechanisms including compliance audits and litigation. The Board is further of the opinion that the Wisconsin consumer protection scheme is substantially equivalent to the Board's Rule.

The Board does not have the authority, pursuant to 12 CFR 535.5, to grant an exemption for consumer credit transactions that exceed \$25,000, because Wisconsin does not have a consumer protection provision applicable to such transactions which it administers and enforces effectively. However, if Wisconsin examiners conclude that such transactions meet the requirements set forth in the Wisconsin Act for transactions involving \$25,000 or less, these transactions will be deemed to satisfy the requirements of the Board's Rule.

The second exception to the grant of exemption concerns federally chartered associations. The Board's grant of the exemption request may be extended with respect to state-chartered savings and loan associations in Wisconsin, but

it may not be extended with respect to federally chartered associations located in the state. It is well established that the Board has exclusive authority to regulate all aspects of the operations of federally chartered associations under section 5 of the Home Owner's Loan Act of 1933, 12 U.S.C. 1464. *See, e.g.,* 12 CFR 545.2. Federally chartered associations will therefore continue to be subject to the rule rather than the Wisconsin Act, and the Board will continue to examine them for compliance with the Rule.

Therefore, pursuant to the authority delegated to the Director of the Office of Community Investment by 12 CFR 535.5(c) and pursuant to the requirements of 12 CFR 535.5, the Director, with the concurrence of the General Counsel, hereby finds and determines with the exceptions noted below: (1) That there is a State of Wisconsin requirement or prohibition in effect that applies to any transactions of \$25,000 or less to which a provision of the Board's Rule applies; and (2) the State of Wisconsin requirements and provisions afford a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by the Board's Rule. This finding does not and shall not apply to: (1) Federally chartered associations under section 5 of the Home Owner Loan Act of 1933, 12 U.S.C. 1464; and (2) consumer credit transactions that exceed \$25,000; however, if Wisconsin examiners conclude that such transactions meet the requirements set forth in the Wisconsin Act for transactions involving \$25,000 or less, these transactions shall be deemed to satisfy the requirements of the Board's Rule.

The exemption will continue only for so long as the State of Wisconsin effectively administers and enforces its law. To ensure that the conditions for an exemption continue to be met, the State of Wisconsin shall provide notice to the Board of any change in its law, policies or procedures, including court decisions, that would significantly affect whether the state law continues to afford substantially equivalent protection and whether the state is effectively enforcing the Act. The Board reserves the right to revise this reporting requirement at a later date if circumstances warrant or to request additional information if the Board determines that this is needed.

By the Federal Home Loan Bank Board.  
Nadine Y. Washington,  
*Acting Secretary.*

BILLING CODE 6720-01-M

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

## Food and Drug Administration

## 21 CFR Part 178

[Docket No. 86F-0151]

## Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

**SUMMARY:** The Food and Drug Administration (FDA) is amending the food additive regulations to permit the use of hydrogen peroxide solution to sterilize ethylene-acrylic acid copolymer food-contact surfaces. This action responds to a petition filed by the Dow Chemical Co.

**DATES:** Effective December 23, 1986; objections by January 22, 1987.

**ADDRESS:** Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** Leonard C. Gosule, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202-472-5690.

**SUPPLEMENTARY INFORMATION:** In a notice published in the *Federal Register* of May 7, 1986 (51 FR 16896), FDA announced that a petition (FAP 6B3928) had been filed by the Dow Chemical Co., Midland, MI 48674, proposing that § 178.1005 *Hydrogen peroxide solution* (21 CFR 178.1005) be amended to provide for the safe use of hydrogen peroxide solution to sterilize food-contact surfaces prepared from ethylene-acrylic acid copolymers complying with § 177.1310 (21 CFR 177.1310).

FDA has evaluated data in the petition and other relevant material. The agency concludes that the proposed use of the food additive is safe, and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for

public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. This action was considered under FDA's final rule implementing the National Environmental Policy Act (21 CFR Part 25).

Any person who will be adversely affected by this regulation may at any time on or before January 22, 1987, file with the Dockets Management Branch (address above) written objections thereto. Each objection shall be separately numbered, and each numbered objection shall specify with particularity the provisions of the regulation to which objection is made and the grounds for the objection. Each numbered objection on which a hearing is requested shall specifically so state. Failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held. Failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this document. Any objections received in response to the regulation may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

## List of Subjects in 21 CFR Part 178

Food additives, Food packaging.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director of the Center for Food Safety and Applied Nutrition, Part 178 is amended as follows:

## PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

1. The authority citation for 21 CFR Part 178 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

2. In § 178.1005 by revising paragraph (e)(1) to read as follows:

## § 178.1005 Hydrogen peroxide solution.

(e) *Conditions of use.* (1) Hydrogen peroxide solution identified in and complying with the specification in this section may be used by itself or in combination with other processes to treat food-contact surfaces prepared from ethylene-acrylic acid copolymers complying with § 177.1310 of this chapter, ionomeric resins complying with § 177.1330 of this chapter, ethylene-methyl acrylate copolymer resins complying with § 177.1340 of this chapter, ethylene-vinyl acetate copolymers complying with § 177.1350 of this chapter, olefin polymers complying with § 177.1520 of this chapter, polyethylene terephthalate polymers complying with § 177.1630 of this chapter (excluding polymers described in § 177.1630(c)), and polystyrene and rubber-modified polystyrene polymers complying with § 177.1640 to attain commercial sterility at least equivalent to that attainable by thermal processing for metal containers as provided for in Part 113 of this chapter.

Dated: December 15, 1986.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 86-28717 Filed 12-22-86; 8:45 am]

BILLING CODE 4160-01-M

## DEPARTMENT OF THE INTERIOR

## Minerals Management Service

## 30 CFR Parts 210 and 216

## Royalty Management; Forms and Reports

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Final rule.

**SUMMARY:** The Minerals Management Service (MMS) is amending 30 CFR Parts 210 and 216 to add references to three informational handbooks. These

handbooks provide royalty payors or production reporters on Federal and Indian leases with specific guidelines on how to prepare and submit required forms and reports to MMS.

**EFFECTIVE DATE:** December 23, 1986.

**ADDRESS:** Handbooks may be obtained from: Dennis C. Whitcomb, Chief, Rules and Procedures Branch, Minerals Management Service, P.O. Box 25165, MS 628, Denver Federal Center, Denver, Colorado 80225.

**FOR FURTHER INFORMATION CONTACT:** Dennis Whitcomb, (303) 231-3432.

**SUPPLEMENTARY INFORMATION:**

**I. Description of Handbooks**

These amendments to 30 CFR add references to three informational handbooks that provide specific guidance to payors or reporters on how to prepare and submit reports or forms required by MMS to meet congressionally mandated accounting and audit responsibilities relating to Federal and Indian mineral royalty management.

A new section is added to Part 210, Subpart B—Oil and Gas, General, to reference an *Auditing and Financial System (AFS) Oil and Gas Payor Handbook* and a *Production Accounting and Auditing System (PAAS) Reporter Handbook* which are available from MMS. The AFS Oil and Gas Payor Handbook consists of two volumes and is distributed to all oil and gas lease payors. Volume I contains an overview of the AFS reporting structure and detailed instructions for completing a required Payor Information Form MMS-4025. Volume II contains detailed instructions, by transaction code, on how to complete a required Report of Sales and Royalty Remittance Form MMS-2014. Both volumes of this handbook contain numerous examples to assist payors in their preparation of the two required AFS forms.

The *PAAS Reporter Handbook* consists of four volumes and is distributed to reporters who are subject to production reporting requirements as appropriate. The volumes contain detailed instructions and examples on how to complete various required PAAS forms and reports.

A new section is added to Part 210, Subpart E—Solid Minerals, General, to reference an *Auditing and Financial System (AFS) Solid Minerals Payor Handbook* and the *PAAS Reporter Handbook*, described above. The *AFS Solid Minerals Payor Handbook* consists of one volume and is distributed to all solid minerals lease payors. The handbook provides detailed instructions for completing a required

Payor Information Form MMS-4030 and a required Report of Sales and Royalty Remittance Form MMS-4014. The handbook contains numerous examples to assist solid minerals payors in their preparation of the required AFS forms and reports.

A new section is also added to Part 216, Subpart A—General Provisions, to reference the *PAAS Reporter Handbook*, described above.

A copy of any of the above referenced handbooks will be provided to interested persons upon request. If a handbook is desired, contact Dennis Whitcomb at the address shown in the "ADDRESS" section of this preamble. Only one copy of any individual handbook will be provided to a requestor.

**II. Procedural Matters**

*Administrative Procedure Act*

The changes included in this rulemaking are additions to reference supplemental information available from MMS and not substantive changes. Accordingly, pursuant to 5 U.S.C. 553(b), it has been determined that it is unnecessary to issue proposed regulations before the issuance of this final regulation. For the same reason, it has been determined that in accordance with 5 U.S.C. 553(d), there is good cause to make this regulation effective upon publication in the **Federal Register**.

*Executive Order 12291 and Regulatory Flexibility Act*

Because the amendments merely reference supplemental information available from MMS, the Department of the Interior has determined that this document is not a major rule under E.O. 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

*Paperwork Reduction Act of 1980*

The information collection requirements contained in the three Handbooks have been approved by the Office of Management and Budget under 44 U.S.C. 3504(h) and assigned clearance numbers 1010-0022, 0033, 0040, 0063, and 0064.

*National Environmental Policy Act of 1969*

The Department of the Interior has determined that this action does not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, an environmental impact statement is not required under the National

Environmental Policy Act of 1969 [42 U.S.C. 4332(2)(C)].

**List of Subjects**

*30 CFR Part 210*

Continental shelf, Geothermal energy, Government contracts, Mineral royalties, Oil and gas exploration, Public lands—mineral resources, Reporting and recordkeeping requirements.

*30 CFR Part 216*

Mineral production, Mineral royalties, Reporting and recordkeeping requirements, Oil and gas, Solid minerals.

Dated: November 20, 1986.

J. Steven Griles,

Assistant Secretary—Land and Minerals Management.

For the reasons set out in the preamble, 30 CFR Parts 210 and 216 are amended as follows:

**SUBCHAPTER A—ROYALTY MANAGEMENT**

**PART 210—[AMENDED]**

1. The authority citation for Part 210 is revised to read as follows:

**Authority:** 25 U.S.C. 396 *et seq.*; 25 U.S.C. 396a *et seq.*; 25 U.S.C. 2101 *et seq.*; 30 U.S.C. 181 *et seq.*; 30 U.S.C. 351 *et seq.*; 30 U.S.C. 1001 *et seq.*; 30 U.S.C. 1701 *et seq.*; 43 U.S.C. 1301 *et seq.*; 43 U.S.C. 1331 *et seq.*; and 43 U.S.C. 1801 *et seq.*

**§ 210.54 [Redesignated from § 210.53]**

2. Section 210.53 is redesignated as § 210.54.

3. A new § 210.53 is added to Subpart B to read as follows:

**§ 210.53 Reporting instructions.**

(a) Specific guidance on how to prepare and submit required information collection reports and forms to MMS is contained in an *Auditing and Financial System (AFS) Oil and Gas Payor Handbook* and a *Production Accounting and Auditing System (PAAS) Reporter Handbook* which are available from: Minerals Management Service, Attention: Lessee (or Reporter) Contact Branch, P.O. Box 5760, TA, Denver, Colorado 80217.

(b) Royalty payors or production reporters should refer to these handbooks for specific guidance with respect to oil and gas reporting requirements. If additional information is required, the payor or reporter should contact the MMS Lessee Contact Branch with respect to royalty reporting, or the MMS Reporter Contact Branch with respect to production reporting at the above address. The appropriate

telephone numbers are listed in the handbooks.

4. A new § 210.204 is added to Subpart E to read as follows:

**§ 210.204 Reporting instructions.**

(a) Specific guidance on how to prepare and submit required information collection reports and forms to MMS is contained in an *Auditing and Financial System (AFS) Solid Minerals Payor Handbook* and a *Production Accounting and Auditing System (PAAS) Reporter Handbook* which are available from: Minerals Management Service, Attention: Lessee (or Reporter) Contact Branch, P.O. Box 5760, TA, Denver, Colorado 80217.

(b) Royalty payors or production reporters should refer to these handbooks for specific guidance with respect to solid minerals reporting requirements. If additional information is required, the payor or reporter should contact the MMS Lessee Contact Branch with respect to royalty reporting, or the MMS Reporter Contact Branch with respect to production reporting at the above address. The appropriate telephone numbers are listed in the handbooks.

**PART 216—[AMENDED]**

1. The authority citation for Part 216 is revised to read as follows:

**Authority:** 25 U.S.C. 396 *et seq.*; 25 U.S.C. 396a *et seq.*; 25 U.S.C. 2101 *et seq.*; 30 U.S.C. 181 *et seq.*; 30 U.S.C. 351 *et seq.*; 30 U.S.C. 1001 *et seq.*; 30 U.S.C. 1701 *et seq.*; 43 U.S.C. 1301 *et seq.*; 43 U.S.C. 1331 *et seq.*; and 43 U.S.C. 1801 *et seq.*

2. A new § 216.15 is added to Subpart A to read as follows:

**§ 216.15 Reporting instructions.**

(a) Specific guidance on how to prepare and submit required information collection reports and forms to MMS is contained in a *Production Accounting and Auditing System [PAAS] Reporter Handbook*, which is available from: Minerals Management Service, Attention: Reporter Contact Branch, P.O. Box 17110, Denver, Colorado 80217.

(b) Production reporters should refer to this handbook for specific guidance with respect to production reporting requirements. If additional information is required, the reporter should contact the MMS Reporter Contact Branch at the above address. The telephone number is listed in the handbook.

[FR Doc. 86-28706 Filed 12-22-86; 8:45 am]

BILLING CODE 4310-MR-M

**PANAMA CANAL COMMISSION**

**35 CFR Part 103**

**General Provisions Governing Vessels**

**AGENCY:** Panama Canal Commission.

**ACTION:** Final rule.

**SUMMARY:** The Panama Canal Commission is today adopting an interim final rule amending 35 CFR 103.8, concerning preference in transit schedulings and order of transiting vessels. These changes take into account the agency's experience with the Panama Canal Transit Booking System over the preceding three years and the needs of the shipping community.

**FOR FURTHER INFORMATION CONTACT:** Mr. Michael Rhode, Jr., Secretary, Panama Canal Commission, telephone: (202) 634-6441, or Mr. John L. Haines, Jr., General Counsel, telephone in Balboa Heights, Republic of Panama, 011-507-52-7511.

**SUPPLEMENTARY INFORMATION:** On July 30, 1986, an interim rule was published in the *Federal Register* (51 FR 27174) setting forth several changes to the booking system regulations based on numerous requests from Canal users that the Canal Commission revise the arrival time requirements in the prior rules. The revisions take into account the need to better serve our customers, without adversely affecting Canal operations. Interested parties were given the opportunity to submit written comments by August 29, 1986. During that time period, the agency received a single comment relating to the decision to clarify the term *force majeure* by rephrasing the grounds to be considered in waiving a forfeiture of the booking fee. The writer expressed a preference for the term *force majeure* as a generally accepted marine term. Since, however, the change was initiated in response to customer confusion with the term, the Commission believes that clarification better serves Canal users.

Following is a summary of how the rules published today modify the rules which have been in effect concerning preference in the transit schedule and order of transiting vessels:

The Commission's regulations, in § 103.8(f)(1), require that booked vessels which are subject to transit restrictions arrive at a terminus of the Canal by midnight (2400 hours) of the day prior to the intended transit. Booked vessels which are not subject to transit restrictions must arrive prior to noon of the day of the intended transit. This section is revised to allow both classes of vessels to arrive at a Canal terminus

one hour later. Under this revision, restricted vessels must arrive not later than 0100 hours of the day of the transit, and non-restricted vessels must arrive not later than 1300 of the day of the transit.

In addition to the arrival time changes, the agency has revised the rules concerning forfeiture of the booking fee. The present rules provide that a vessel which does not arrive by the specified arrival time forfeits the booking fee unless its arrival has been delayed by *force majeure*. As stated above, the term *force majeure* has caused some confusion in the past, and accordingly, the grounds for waiving a forfeiture have been rephrased. Under the revised rule no forfeiture will occur, if the vessel's arrival is delayed by a natural event of major proportions, not caused by the intervention of man, which could not reasonably be predicted in advance. Heavy seas are not considered such a major natural event.

The amendment concerning the arrival times is a *de minimis* change that liberalizes current rules for booked vessels. The revision of the *force majeure* rule is not substantive, but is intended to clarify the rule.

The Commission has determined that this rule does not constitute a major rule within the meaning of Executive Order 12291 dated February 17, 1982 (47 FR 13193). The bases for that determination are, first, that the rule, when implemented would not have an effect on the economy of \$100 million or more per year, and secondly, that the rule would not result in a major increase in costs or prices for consumers, individual industries, local governmental agencies or geographic regions. Further, the agency has determined that implementation of the rule will have no adverse effect on competition, employment, investment, productivity, innovation or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Finally, the Commission has determined that this rule is not subject to the requirements of sections 603 and 604 of Title 5, United States Code, in that its promulgation will not have a significant impact on a substantial number of small entities, and the Administrator of the Commission so certifies pursuant to 5 U.S.C. 605(b).

**List of Subjects in 35 CFR Section 103.8**

Panama Canal, Vessels, Booking system, Navigation (Water).

**PART 103—[AMENDED]**

Accordingly, the interim rule amending 35 CFR Part 103 which was published at 51 FR 27174 on July 30, 1986, is adopted as a final rule without change.

Authority: 22 U.S.C. 3811, E.O. 12215, 45 FR 36043 and 44 U.S.C. 3501.

Dated: December 3, 1986.

D.P. McAuliffe,

Administrator, Panama Canal Commission.

[FR Doc. 86-28755 Filed 12-22-86; 8:45 am]

BILLING CODE 3640-04-M

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[A-5-FRL-3131-3]

**Approval and Promulgation of Implementation Plans; Wisconsin**

**AGENCY:** U.S. Environmental Protection Agency.

**ACTION:** Notice of final rulemaking.

**SUMMARY:** USEPA announces final approval of a revision to the Wisconsin State Implementation Plan (SIP) that was enacted in Wisconsin by means of Natural Resources Board Order Number A-33-84, and that took effect on May 1, 1985. The revision creates a new section of the Wisconsin Administrative Code, section NR 154.015, entitled "Department Review Times." This revision also establishes time limits for review and action by the Wisconsin Department of Natural Resources on three types of air permit applications. A public hearing was held on Board Order A-33-84 on August 31, 1984. USEPA's action is based on a SIP revision request that was submitted by the State of Wisconsin on June 14, 1985. A notice of proposed rulemaking on this revision appeared in the April 16, 1986 (51 FR 12884), *Federal Register*.

**EFFECTIVE DATE:** This final rulemaking becomes effective on January 22, 1987.

**ADDRESSES:** Copies of the SIP revision and other materials related to this rulemaking are available for review at the following addresses: (It is recommended that you telephone Colleen W. Comerford, at (312) 886-6034, before visiting the Region V office.) U.S. Environmental Protection Agency, Region V, Air and Radiation Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

Copies of this revision to the

Wisconsin SIP are available for inspection at:

The Office of the Federal Register, 1100 L Street, NW., Room 8301, Washington, DC

U.S. Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, DC 20460  
Wisconsin Department of Natural Resources, Bureau of Air Management (AIR/3), 101 South Webster, Madison, Wisconsin 53707

**FOR FURTHER INFORMATION CONTACT:**

Colleen W. Comerford, (312) 886-6034.

**SUPPLEMENTARY INFORMATION:** On June 14, 1985, the State of Wisconsin submitted a SIP revision request to USEPA. The SIP revision was identified as Natural Resources Board Order Number A-33-84, which creates a new section of the Wisconsin Administrative Code, section NR 154.015, entitled "Department Review Times." The revision establishes time limits for review and action by the Wisconsin Department of Natural Resources (WDNR) on three types of air permit applications, as specified below:

(1) Alternate fuel variances under section NR 154.02(4)—10 business days;  
(2) Temporary excess emissions plans under section NR 154.09(1)(b)—65 business days; and

(3) Use of emergency or reserve equipment under section NR 154.09(1)(c)—65 business days.

Unless another time period is specified by law, the WDNR is required to complete its review and make a determination on the permit applications specified above within the number of business days indicated, based on the date of receipt of the application. If the WDNR does not meet the specified deadlines, then the Department has to file a report with the Wisconsin Department of Development stating why the deadline was missed, and what future action will take place concerning the permit in question. The WDNR is required to do this under the provisions of 227.0105, Statutes, as created by 1983 Wisconsin Act 91. This clarifies the State's intent that failure to meet the provision's deadline does not result in the automatic issuance of a permit.

**Conclusion**

On April 16, 1986 (51 FR 12884), USEPA published a notice proposing to approve this SIP revision in the *Federal Register*. No public comments were received on this action. Based on this proposal, USEPA is taking final action to approve this revision to the Wisconsin Administrative Code, section NR 154.015, Department Review Times, as a part of the Wisconsin SIP.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Under section 337(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 23, 1987. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2)).

**List of Subjects in 40 CFR Part 52**

Intergovernmental relations, Air pollution control, Incorporated by reference.

**Note.**—Incorporation by reference of the State Implementation Plan for the State of Wisconsin was approved by the Director of the Federal Register on July 1, 1982.

Dated: November 28, 1986.

Lee M. Thomas,

Administrator.

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS****Subpart YY—Wisconsin**

Title 40 of the Code of Federal Regulations, Chapter I, Part 52 is amended as follows:

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7642.

2. Section 52.2570 is amended by adding new paragraph (c)(49) as follows:

**§ 52.2570 Identification of plan.**

\* \* \* \* \*

(c) \* \* \*

(49) Submittal from the State of Wisconsin, dated June 14, 1985, revising the Wisconsin Administrative Code to include section NR 154.015, Department Review Times.

(i) *Incorporation by reference.* (A) Letter from the Wisconsin Department of Natural Resources, dated June 14, 1985, and section NR 154.015 of the Wisconsin Administrative Code as a revision to the Wisconsin SIP, effective on May 1, 1985. Section NR 154.015 is entitled "Department Review Times", and it establishes time limits for review and action by the Wisconsin Department of Natural Resources on three types of air permit applications.

BILLING CODE 6560-50-M

## 40 CFR Parts 52 and 81

[A-1-FRL-3113-5]

**Approval and Promulgation of Implementation Plans; Designation of Areas for Air Quality Planning Purposes; Maine; Thomaston Attainment Status Designation****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

**SUMMARY:** EPA is approving a request by the State of Maine to redesignate the Town of Thomaston from secondary nonattainment to attainment of the National Ambient Air Quality Standards (NAAQS) for total suspended particulates (TSP). Under section 107 of the Clean Air Act, the designation of attainment status may be changed where warranted by the available data. In conjunction with the redesignation, EPA is deleting the listing of Thomaston from the section in Maine's state implementation plan (SIP) regulating growth offsets in nonattainment areas. These actions acknowledge an improvement in air quality in the town of Thomaston due to an implemented control strategy at the Dragon Products Company, Inc., a cement manufacturer.

This action also corrects an error in listing the State of Maine in a July 12, 1985, notice at 50 FR 28544.

**EFFECTIVE DATE:** This action will be effective February 23, 1987, unless notice is received within 30 days from publication, that adverse or critical comments will be submitted.

**ADDRESSES:** Comments may be mailed to Louis F. Gitto, Director, Air Management Division, Rm. 2311, JFK Federal Bldg., Boston, MA 02203. Copies of the submittal and EPA's evaluation are available for public inspection during normal business hours at the Environmental Protection Agency, Room 2311, JFK Federal Building, Boston, MA 02203; and the Main Department of Environmental Protection, Ray Building, Hospital Street, Augusta, ME 04333.

**FOR FURTHER INFORMATION CONTACT:** Susan Kulstad (617) 565-3226; FTS 835-3226.

**SUPPLEMENTARY INFORMATION:** On February 20, 1986, the Commissioner of the Maine Department of Environmental Protection (DEP) submitted a request to redesignate the Town of Thomaston. The redesignation formally acknowledges the attainment of the secondary NAAQS for TSP in Thomaston.

**Background**

On March 3, 1978, EPA designated Thomaston as nonattainment for secondary TSP (43 FR 8964). A cement manufacturing facility then owned by Martin Marietta Cement and now owned and operated by Dragon Products Company, Inc. (Dragon Products) is the single significant source of TSP emissions in the designated area.

On February 19, 1980, EPA published approval of a plan for the attainment of the secondary TSP standards (45 FR 10766) that required controls on fugitive sources of particulate emissions at Dragon Products. This control plan employed the roll-back method to estimate a needed reduction in TSP emissions of 28%, and planned for an estimated 40% reduction (951 TPY) by requiring the following controls:

(1) Chemical stabilization of the quarry haul roads; (2) recycling and reclamation of dust in the kiln dust waste storage area; and (3) reclamation in the waste rock storage area.

In conjunction with the redesignation of Thomaston to attainment, Maine has revised its growth offsets regulation, 29 M.R.S.A. Chapter 113, by deleting Thomaston from Section 1.A. which lists the municipalities to which the regulation applies.

On July 12, 1985, at 50 FR 28544, EPA promulgated Federal visibility monitoring and new source review requirements for the State of Maine. These requirements were incorrectly listed in revisions to the Code of Federal Regulations for Maine. Today's notice corrects this error.

**Redesignation**

Upon a State's request for the redesignation of an area, EPA reviews all available information relative to the attainment status of the area. EPA will approve TSP redesignations where: (1) Eight consecutive quarters of the most recent, quality assured ambient air quality data reveal no violations of the TSP NAAQS; (2) an EPA-approved control strategy has been implemented; (3) emissions reductions are not temporary or merely the result of economic downturn; and (4) unallowable dispersion techniques are not responsible for the improvement in air quality.

The State's request addresses all of the EPA requirements, including: (A) Eleven consecutive quarters (January, 1983-September, 1985) of ambient air quality data from four TSP monitoring sites in Thomaston that show no violations of the secondary standards. Monitoring was conducted on a daily basis over this period.

(B) The control strategy for the area, which EPA approved on February 19, 1980, was required under the terms of an air emissions license issued by the Maine Department of Environmental Protection on March 28, 1979. The controls were implemented on significant fugitive emission sources at Dragon Products by early 1983. The State's submission contains a memorandum documenting that Dragon Products is complying with the control strategy.

A trend analysis of monitored air quality data in Thomaston performed by EPA clearly shows decreasing trends and supports the reduction estimate made in the attainment plan.

EPA's revised stack height regulations (50 FR 27892) are not an issue here since no stack heights at Dragon Products exceed the *de minimis* height of 65 meters and the attainment plan addresses only fugitive (non-stack) emissions.

EPA has reviewed the Maine DEP's request with its supporting data and has determined that the redesignation should be approved. For more details on EPA's review, see the technical support document available at the locations listed in the **ADDRESSES** section of this notice.

**Associated SIP Action**

EPA is approving the associated SIP revision to Maine's growth offsets regulation by deleting Thomaston from the list of the municipalities to which the regulation applies. Federal approval of this regulation that included the listing of Thomaston was published on February 19, 1980 (45 FR 10766).

The submission contains certification that opportunity for a public hearing was provided and includes a copy of the public notice inviting comment, as well as evidence that the hearing was held and no adverse comments were received.

**Final Action**

EPA is approving this redesignation to attainment of the secondary NAAQS for TSP in the Town of Thomaston, Maine, submitted on February 20, 1986.

Additionally, EPA is approving the associated SIP revisions to Maine's growth offsets regulation, 29 M.R.S.A. Chapter 113, by deleting Thomaston from the list in section 1.A. of the municipalities to which the regulation applies.

Since EPA views the redesignation and associated SIP action as noncontroversial, we are taking this action without prior proposal. This action will be effective February 23,

1987. However, if EPA is notified within 30 days of publication that adverse or critical comments will be submitted, we will withdraw this action and publish a new rulemaking proposing the action and establishing a comment period.

Under 5 U.S.C. 605(b), I certify that this SIP revision will not have a significant economic impact on a substantial number of small entities (see 46 FR 8709).

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 23, 1987. This action may not be challenged later in proceedings to enforce its requirements.

(See section 307(b)(2).)

#### List of Subjects

##### 40 CFR Part 52

Air pollution control, Particulate matter.

##### 40 CFR Part 81

Air pollution control.

Dated: October 5, 1986.

Lee M. Thomas,  
Administrator.

#### PART 52—[AMENDED]

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

##### Subpart U—Maine

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7642.

Section 52.1020 is amended by adding paragraph (c)(21) to read as follows:

#### § 52.1020 Identification of plan.

(c) \* \* \*

(21) A revision to approve the deletion of Thomaston from the list of applicable municipalities in Maine regulation 29 M.R.S.A. Chapter 113, submitted by the Commissioner on February 20, 1986.

3. Section 52.1031 is amended by adding the entry to the table in numerical order to read as follows:

#### § 52.1031 EPA-approved Maine regulations.

TABLE 52.1031.—EPA-APPROVED REGULATIONS

State citation	Title and subject	Date adopted by State	Date approved by EPA	FEDERAL REGISTER citation	Section 52.1020	Comments and unapproved sections
113	Growth Offset Regulation.	12/18/85	12/23/86	51 FR	(c)(21)	Deletes Thomaston.

4. Section 52.1032 is added to read as follows:

#### § 52.1032 Visibility protection.

(a) The requirements of section 169A of the Clean Air Act are not met because the plan does not include approvable procedures meeting the requirements of 40 CFR 51.305 and 51.307 for protection of visibility in mandatory Class I Federal areas.

(b) Regulations for visibility monitoring and new source review. The provisions of §§ 52.26 and 52.27 are hereby incorporated and made part of the applicable plan for the State of Maine.

#### § 52.1031 [Duplicate section removed]

5. Part 52 is amended by removing the second § 52.1031 entitled "Visibility protection."

#### PART 81—[AMENDED]

Part 81 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. The authority citation for Part 81 continues to read as follows:

Authority: 42 U.S.C. 7401-7642.

2. In § 81.320 the TSP table for Maine is amended by revising the entry for "AQCR 107 (Central ME)" to read as follows:

#### § 81.320 Maine.

##### MAINE—TSP

Designated areas	Does not meet primary standards	Does not meet secondary standards	Cannot be classified	Better than national standards
AQCR 107 (Central ME):				
Augusta		X		
Lewiston/Auburn			X	
Rockland			X	
Remainder of AQCR				X

BILLING CODE 6560-50-M

## GENERAL SERVICES ADMINISTRATION

### 41 CFR Parts 201-1, 201-2, 201-23, and 201-24

[FIRM Temp. Reg. 13]

#### Temporary Implementation of Title VIII, Paperwork Reduction Reauthorization Act of 1986, Pub. L. 99-500 Regarding Automatic Data Processing Equipment

**AGENCY:** Information Resources Management Service, GSA.

**ACTION:** Temporary regulation.

**SUMMARY:** This Temporary regulation implements applicable portions of the Paperwork Reduction Reauthorization Act of 1986. The statute provides a new definition of automatic data processing equipment under Pub. L. 89-306 (Brooks Act). The intent of this regulation is to implement the statute.

**DATES:** Effective date: December 23, 1986.

Expiration date: December 23, 1987.  
Comments are due: March 23, 1987.

**ADDRESS:** Comments should be addressed to: General Services Administration (KMPR), Project 87.09T, Washington, DC 20405.

**FOR FURTHER INFORMATION CONTACT:** Roger W. Walker, William R. Loy, or Phillip R. Patton, Regulations Branch (KMPR), Office of Information Resources Management Policy, telephone (202) 566-0194 or FTS 566-0194.

**SUPPLEMENTARY INFORMATION:** 1. Concerns have been expressed as to whether the Brooks Act now requires Federal contractors acquiring ADP resources to obtain delegations of procurement authority ("DPAs") from the General Services Administration. As discussed in the conference report accompanying the new definition, contractors and vendors are not required as a result of the new definition to seek authorities from GSA before they acquire ADPE goods and services (Congressional Record H 10897, October 15, 1986). Rather, under the new definition, as under previous definitions, Federal agencies must have GSA authority to enter into contracts for ADP services.

2. The General Services Administration has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981. GSA decisions are based on adequate information concerning the need for, and the consequences of the rule. The rule is written to ensure maximum benefits to Federal agencies. This is a Governmentwide management regulation that will have little or no cost effect on society. The temporary rule is therefore not likely to have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

3. Pursuant to 41 U.S.C. 418b(d), the publication of a proposed rule has been waived because of urgent and compelling circumstances requiring the issuance of a temporary regulation to immediately implement applicable portions of Title VIII of Pub. L. 99-500, which was effective as of October 18, 1986.

#### List of Subjects in 41 CFR Parts 201-1, 201-2, 201-23 and 201-24

Computer technology, Government procurement, Government property management, Information resources activities, Competition.

In 41 CFR Chapter 201, the following temporary regulation is added to Appendix A at the end of the chapter. [FIRM Temporary Regulation 13] November 28, 1986.

To: Heads of Federal agencies.

Subject: FIRM Implementation of the "Paperwork Reduction Reauthorization Act of 1986" (Title VIII, Public Law 99-500).

1. *Purpose.* This regulation implements certain provisions of Title VIII—The Paperwork Reduction Reauthorization Act of 1986, Pub. L. 99-500 signed October 18, 1986.

2. *Effective date.* This temporary regulation is effective December 23, 1986. The provisions shall be applied to solicitations for the acquisition of certain automatic data processing equipment issued on and after the effective date. The delegations of authority provision addressed in paragraph 5c. applies retroactively to the enactment of Pub. L. 99-500; i.e., October 18, 1986.

3. *Expiration date.* This temporary regulation expires December 23, 1987.

4. *Background.* Among other purposes, Title VIII of Pub. L. 99-500 provides a

statutory definition of automatic data processing equipment under Public Law 89-306 (Brooks Act), as amended (40 U.S.C. 759). (See Congressional Record, Part II, H 10701, October 15, 1986.) Pending a more comprehensive rulemaking, the intent of this temporary regulation is to promptly implement this legislation.

#### 5. Explanation of changes.

### PART 201-1—[AMENDED]

a. The following changes are made in Part 201-1.

(1) Section 201-1.000-1 is amended by revising paragraph (c) to read as follows:

#### § 201-1.000-1 Information resources management.

(c) The Paperwork Reduction Reauthorization Act of 1986, Pub. L. 99-500 [44 U.S.C. 3502(13)] defines the term "information resources management" to mean "... the planning, budgeting, organizing, directing, training, promoting, controlling, and management activities associated with the burden, collection, creation, use, and dissemination of information by agencies, and includes the management of information and related resources such as automatic data processing equipment (as such term is defined in section 111(a) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 759(a))." The Office of Management and Budget has broad Governmentwide authorities and functions [44 U.S.C. 3504] for accomplishing all purposes of the Act.

(2) Section 201-1.102-3 is amended by removing and reserving the text to read as follows:

#### § 201-1.102-3 Exclusions [Reserved]

(3) Section 201-1.103 is amended by revising paragraph (b) to read as follows (current 201-1.103(b)(2) is redesignated as 201-24.202(a) in the amendment in paragraph 5b of this temporary regulation):

#### § 201-1.103 Applicability.

(b) *ADP activities.* (1) The FIRM applies to the management, acquisition, and use of automatic data processing equipment as the term is defined in Pub. L. 99-500 (40 U.S.C. 759(a)(1)). For the purpose of this § 201-1.103(b), the term "automatic data processing equipment" means any equipment or interconnected system or subsystems of equipment that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching interchange, transmission, or reception of data or information—

(i) By a Federal agency, or  
(ii) Under a contract with a Federal agency which—

(A) Requires the use of such equipment, or  
(B) Requires the performance of a service or the furnishing of a product which is performed or produced making significant use of such equipment.

(2) The term automatic data processing equipment includes—

(i) Computers;  
(ii) Ancillary equipment;  
(iii) Software, firmware, and similar procedures;  
(iv) Services, including support services; and

(v) Related resources as defined by regulations issued by the Administrator of General Services.

(3) The term automatic data processing equipment does not apply to—

(i) Automatic data processing equipment acquired by a Federal contractor which is incidental to the performance of a Federal contract;

(ii) Radar, sonar, radio, or television equipment;

(iii) The procurement by the Department of Defense of automatic data processing equipment or services if the function, operation, or use of which—

(A) Involves intelligence activities;  
(B) Involves cryptologic activities related to national security;

(C) Involves the command and control of military forces;

(D) Involves equipment which is an integral part of a weapon or weapons system; or

(E) Is critical to the direct fulfillment of military or intelligence missions, provided that this exclusion shall not include automatic data processing equipment used for routine administrative and business applications such as payroll, finance, logistics, and personnel management; or

(iv) The procurement of automatic data processing equipment or services by the Central Intelligence Agency.

(4) Automatic data processing equipment as described in paragraph (b) of this § 201-1.103 is subject to GSA's exclusive procurement authority under 40 U.S.C. 759.

## PART 201-204—[AMENDED]

### § 201-24.2.2 [Amended]

b. The following change is made in Subpart 201-24.2. Section 201-24.202 is amended by redesignating existing paragraphs (a) and (b) as paragraphs (b) and (c), respectively, and by redesignating the existing codified paragraph (b)(2) of § 201-1.103 as paragraph (a) of § 201-24-202.

c. *Delegations of authority.* Paragraph 5a(3). of this temporary regulation (new FIRM § 201-1.103(b)) makes the FIRM applicable to "automatic data processing equipment" as defined in Pub. L. 99-500. Agencies shall continue to follow existing FIRM provisions to the extent that the FIRM, prior to the enactment of Pub. L. 99-500, required a specific acquisition delegation of procurement authority (see FIRM Part

201-23). In all other cases where the Brooks Act, as amended, is now applicable to the acquisition, agencies are hereby granted a blanket regulatory delegation of procurement authority.

6. *Agency actions.* Pending the issuance of an amendment of the FIRM, agencies shall follow the policies and procedures in this temporary regulation.

7. *GSA actions.* GSA will initiate rulemaking activity to amend the FIRM to implement, on a comprehensive basis, applicable portions of Title VIII of Pub. L. 99-500.

8. *Information and assistance.* Inquiries regarding this regulation should be directed to Roger W. Walker, William R. Loy, or Phillip R. Patton, Regulations Branch, Office of Information Resources Management Policy, Telephone (202) 566-0194 or FTS, 566-0194.

9. *Submission of comments.* The views of agencies and other interested parties are invited regarding the effect or impact of this regulation and the policy and procedures that should be adopted in the future. All comments received within 90 days of the publication of this regulation in the *Federal Register* will be considered. Comments should be addressed to the General Services Administration (KMPR), Project 87.09T, Washington, DC 20405.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c) and Sec. 101(f), 100 Stat. 2128; 40 U.S.C. 751(f))

T.C. Golden,

Administrator of General Services.

BILLING CODE 6820-25-M

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Parts 0 and 1

[FCC 86-516]

### Practice and Procedure; FCC Record

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This action amends the Commission's rules by replacing the FCC Reports with the FCC Record as the official source of FCC decisions. This document will serve as the archival source of the Commission's actions in conformance with section 4(m) of the Communications Act of 1934. The action also amends the Commission's rules to indicate that only adjudicatory decisions and orders are mailed directly to the parties.

**EFFECTIVE DATE:** December 23, 1986.

**ADDRESS:** Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Brent Weingardt, tele: 202-632-3906.

### SUPPLEMENTARY INFORMATION: Order

Adopted: November 14, 1986.

Released: December 9, 1986.

By the Commission.

1. By this Order we amend our rules to change the name of the Commission's official published record of decisions, the *FCC Reports*, to the *FCC Record*. In addition, we expand the contents of this document to reflect its increased role in our public information program. Finally, we amend 0.445(a) of the rules to indicate that only adjudicatory opinions and orders are mailed to the parties.<sup>1</sup>

2. Certain decisions of the FCC are currently published in the *FCC Reports*. This document now serves as the official citable source to Commission decisions. See 47 CFR 1.14. This publication is intended to serve as an archival source of the Commission's actions in conformance with the section 4(m) mandate of the Communications Act of 1934.<sup>2</sup> The *FCC Reports* also complements the mandatory publication of certain Commission actions in the *Federal Register* as required by the Administrative Procedure Act. See 5 U.S.C. 552(a) and 553(b).

3. Because of budgetary constraints, in recent years the *FCC Reports* has contained only documents with precedential or historical significance. Today, many decisions of the Commission are available only in the *Federal Register* or private sector publications. In response to the recent Gramm-Rudman-Hollings budget cuts, the Commission further limited the *FCC Reports* to documents published in summary form in the *Federal Register* and not published in a "nationally distributed, comprehensive reporter of FCC decisions."<sup>3</sup>

<sup>1</sup> By a separate decision we will be acting on Petitions for Reconsideration to our decision to publish summaries of rule making documents and policy statements in the *Federal Register*. See note 3 *infra*. To the extent that the rules discussed herein impact on the issue of *Federal Register* summaries, our Memorandum Opinion and Order on that subject should be reviewed.

<sup>2</sup> Section 4(m) reads: "The Commission shall provide for the publication of its reports and decisions in such form and manner as may be best adapted for public information and use, and such authorized publications shall be competent evidence of the reports and decisions of the Commission therein contained in all courts of the United States and of the several states without further proof or authentication thereof." 47 U.S.C. 154(m).

<sup>3</sup> See Commission Order of February 21, 1986, FCC 86-86, 51 FR 7443 (March 4, 1986).

4. The new official source of Commission decisions—the *FCC Record*—will provide the public with a comprehensive, timely, and cost effective source of FCC actions.<sup>4</sup> The *FCC Record* will contain all texts released to the public on a daily basis through the Office of Congressional and Public Affairs. In addition, it will contain certain public notices, speeches, and staff papers. The publication will be mailed to subscribers every two weeks in soft cover form.<sup>5</sup> Each biweekly edition will also contain a table of contents and an index based on the Commission's rules as set out in the Code of Federal Regulations (a consolidated index will be published on a periodic basis).

5. Because of the expense of mailing opinions and decisions directly to the parties, we are amending 0.445(a) of the rules to state that only adjudicatory opinions and orders are mailed to the parties. Parties and other interested members of the public will continue to have access to Commission opinions and orders through several sources. The "Daily Releases" from OCPA, which include all documents made available to the public, are available for purchase from private contractors or for viewing and copying in the FCC library or our field offices. Decisions may also be viewed in the Public Reference Room at our Washington headquarters. Documents are also available in the *Federal Register* (in summary form), and, in the near future, in the new *FCC Record*.

6. Prior notice and public comment procedures are not required because this action pertains to procedure and practice. See 5 U.S.C. 553(b)(3)(A).

7. Because a notice of proposed rule making is not required, an initial and final regulatory flexibility analysis is not required. See the Regulatory Flexibility Act of 1980, 5 U.S.C. 603 and 604.

8. Accordingly, it is ordered, pursuant to authority provided by sections 4(i), 4(j), 4(m), and 303(r) of the Communications Act, 47 U.S.C. 154(i), 154(j), 154(m), and 303(r), Parts 0 and 1 of the Commission's Rules are amended as shown below.

9. It is further ordered that this Order is effective upon publication in the

*Federal Register* in order to allow the Commission to immediately provide the public with a more timely and cost effective source of its decisions.

#### List of Subjects

##### 47 CFR Part 0

Commission organization.

##### 47 CFR Part 1

Practice and procedure.

#### Rule Changes

Parts 0 and 1 of the Code of Federal Regulations are amended as follows:

#### PART 0—COMMISSION ORGANIZATION

1. The authority citation for Part 0 continues to read.

**Authority:** 47 U.S.C. 154, 303, unless otherwise noted. Implement; 5 U.S.C. 552, unless otherwise noted.

2. Section 0.416 is revised in its entirety to read as follows:

##### § 0.416 The Federal Communications Commission Record.

Texts adopted by the Commission or a member of its staff on delegated authority and made available to the public through the Office of Congressional and Public Affairs are published in the *FCC Record*. The *FCC Record* is published biweekly in pamphlet form. The pamphlets are available on a subscription basis from the Superintendent of Documents. Each biweekly pamphlet contains a table of contents and current index. A consolidated index is published on a periodic basis.

3. Section 0.445 is amended by revising paragraphs (a), (b), (d), (e), and (f), to read as follows:

##### § 0.445 Publication, availability and use of opinions, orders, policy statements, interpretations, administrative manuals, and staff instructions.

(a) Adjudicatory opinions and orders of the Commission, or its staff acting on delegated authority, are mailed to the parties, and as part of the record, are available for inspection in accordance with § 0.453 and § 0.455.

(b) Texts adopted by the Commission or a member of its staff on delegated authority and made available to the public through the Office of Congressional and Public Affairs are published in the *FCC Record*. Older materials of this nature are available in the *FCC Reports*. In the event that such older materials are not published in the *FCC Reports*, reference should be made

to the *Federal Register* or Pike and Fischer Radio Regulation.

(d) Formal policy statements and interpretations designed to have general applicability and legal effect are published in the *Federal Register*, the *FCC Record*, *FCC Reports*, or Pike and Fischer. Commission decisions and other Commission documents not entitled formal policy statements or interpretations may contain substantive interpretations and statements regarding policy, and these are published as part of the document in the *FCC Record*, *FCC Reports* or Pike and Fischer. General statements regarding policy and interpretations furnished to individuals, in correspondence or otherwise, are not ordinarily published.

(e) If the documents described in paragraphs (a) through (d) of this section are published in the *Federal Register*, the *FCC Record*, *FCC Reports*, or Pike and Fischer Radio Regulation, they may be relied upon, used or cited as precedent by the Commission or private parties in any manner. If they are not so published, they may not be relied upon, used or cited as precedent, except against persons who have actual notice of the document in question or by such persons against the Commission. No person is expected to comply with any requirement or policy of the Commission unless he has actual notice of that requirement or policy or a document stating it has been published as provided in this paragraph. Nothing in this paragraph, however, shall be construed as precluding a reference to the rationale set forth in a recent document that is pending publication if the requirement or policy to which the rationale relates is contained in a published document or if actual notice of that requirement or policy has been given.

(f) The *Federal Register*, the *FCC Record*, *FCC Reports* and Pike and Fischer Radio Regulation are indexed. If the documents described in paragraphs (a)–(d) of this section are not published, they are neither indexed nor relied upon, except as provided in paragraph (e) of this section.

#### PART 1—PRACTICE AND PROCEDURE

4. The authority citation for Part 1 continues to read:

**Authority:** Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 145, 303; Implement, 5 U.S.C. 552, unless otherwise noted.

5. Section 1.14 is revised to read as follows:

<sup>4</sup> Documents released to the public prior to October 1, 1986 may be cited to the *FCC Reports*, first or second series.

<sup>5</sup> The *FCC Record* will be available by subscription from the Superintendent of Documents for \$173. New subscribers should direct inquiries to the Government Printing Office, Superintendent of Documents, Washington, DC 20402-9371b (202) 783-3238. Current subscribers to the *FCC Reports* have been or will be contacted with details on how to switch to the *FCC Record*.

**§ 1.14 Citation of Commission documents.**

The appropriate reference to the FCC Record shall be included as part of the citation to any document that has been printed in the Record. The citation should provide the volume, page number and year, in that order (e.g., 1 FCC Rcd. 1 (1986)). Older documents may continue to be cited to the FCC Reports, first or second series, if they were printed in the Reports (e.g., 1 FCC 2d 1 (1965)).

BILLING CODE 6712-01-M

**47 CFR Part 43**

[CC Docket No. 85-346; FCC 86-512]

**Reports of Communication; Common Carriers and Certain Affiliates; Reduction in Reporting Requirements**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The FCC has reduced or eliminated certain carrier reporting requirements no longer necessary for regulatory purposes. These rule revisions eliminate the requirement that non-dominant carriers subject to forbearance file with the FCC contracts and agreements and reports of negotiations regarding foreign communication matters, reports regarding services not covered by a tariff, and reports of services rendered free or at reduced rates.

**EFFECTIVE DATE:** February 9, 1987.

**ADDRESS:** Federal Communications Commission, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Jacqueline Holmes or Thomas Elcan, Common Carrier Bureau, (202) 632-6917 or 632-6550.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission Report and Order, CC Docket No. 85-346, adopted November 12, 1986, and released December 4, 1986. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

**Summary of Report and Order**

On November 21, 1986, the FCC released a Notice of Proposed

Rulemaking (*Notice*) in CC Docket 85-346, 102 FCC 2d 531 (1985), proposing to revise Part 43 of the Rules, 47 CFR Part 43, to eliminate the requirement that contracts be filed by non-dominant carriers treated with forbearance and that reports of negotiations regarding foreign communications matters, reports regarding services not covered by a tariff, and reports of services rendered free or at reduced rates be filed by all carriers. By this Report and Order, the FCC adopts the proposals with certain modifications.

The text of the *Notice* proposes to eliminate contract filing requirements for non-dominant carriers treated with forbearance so as to limit the routine filing of contracts not useful to us in the performance of monitoring. Because the material filed by carriers subject to streamlined regulations may be useful in the performance of our monitoring duties, we revise proposed § 43.51 to clarify that only non-dominant carriers treated with forbearance are not required to file contracts described in that section. With respect to contracts between telephone carriers and connecting carriers, since our intent is to reduce unnecessary routine reporting requirements and administrative burdens, we modify proposed § 43.51(a)(1) to continue the filing exemption now allowed by existing § 43.51(a)(2). The proposed revisions also retain the requirement that carriers file contracts resulting from negotiations involving foreign communications matters and, within 30 days, reports on international toll arrangements, but eliminate the filing requirement for reports of negotiations regarding foreign communications matters. In addition, this Order eliminates the filing requirements of §§ 43.74 and 43.54 related to reports of services not covered by a tariff, services rendered free or at reduced rates and services performed by telegraph carriers.

**Ordering Clauses**

Accordingly, it is ordered, in accord with sections 2(a), 4(i), 4(j), 201-105, 211, 218, and 220 of the Communications Act of 1934, 47 U.S.C. 152(a), 152(i), 154(j), 201-205, 211, 218, and 220, that Part 43 of the Commission's Rules and Regulations, 47 CFR Part 43, is amended as specified below.

It is further ordered that CC Docket No. 85-346 is terminated.

**List of Subjects****47 CFR Part 43**

Communication common carriers, Reporting and recordkeeping requirements, Telephone.

**47 CFR Part 69**

Communication common carriers, Reporting and recordkeeping requirements, Telephone.

William J. Tricarico,

Secretary.

**PART 43—[AMENDED]**

Part 43, Title 47, Chapter I of the Code of Federal Regulations is amended as follows:

1. The authority citation for Part 43 continues to read as follows:

**Authority:** Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154, unless otherwise noted.

2. Section 43.51 is revised to read:

**§ 43.51 Contracts and concessions.**

(a) Any communications common carrier engaged in domestic or foreign communication, or both, which has not been classified as non-dominant pursuant to § 61.21(e) of the Commission's Rules, 47 CFR 61.12(e), is not treated under the regulatory forbearance policies established by the Commission, and which enters into a contract with another carrier must file with the Commission, within thirty (30) days of execution, a copy of each contract, agreement, concession, license, authorization or other arrangement to which it is a party and amendments thereto with respect to the following: (1) The exchange of services; (2) except as provided in paragraph (c) of this section, the interchange or routing of traffic and matters concerning rates, division of tolls, or the basis of settlement of traffic balances; and (3) the rights granted to the carrier by any foreign government for the landing, connection, installation, or operation of cables, land lines, radio stations, offices, or for otherwise engaging in communication operations.

(b) If the agreement referred to in this section is made other than in writing, a certified statement covering all details thereof must be filed by at least one of the parties to the agreement. Each other party to the agreement which is also subject to these provisions may, in lieu of also filing a copy of the agreement, file a certified statement referencing the filed document. The Commission may, at any time and upon reasonable request, require any communication common carrier classified as non-dominant and treated with forbearance, and therefore not subject to the provisions of this section, to submit the documents referenced herein.

(c) With respect to contracts coming within the scope of paragraph (a)(2) of this section between subject telephone

carriers and connecting carriers, except those contracts related to communications with foreign or overseas points, such documents shall not be filed with the Commission; but each subject telephone carrier shall maintain a copy of such contracts to which it is a party in appropriate files at a central location upon its premises, copies of which shall be readily accessible to Commission staff and members of the public upon reasonable request therefor; and upon request by the Commission, a subject telephone carrier shall promptly forward individual contracts to the Commission.

**§ 43.52 [Removed]**

3. Section 43.52 is removed.

4. Section 43.53 is revised to read:

**§ 43.53 Reports regarding division of international toll communication charges.**

(a) Each communication common carrier engaged directly in the transmission or reception of communications between the United States and any foreign jurisdiction must file a report with the Commission within thirty (30) days of the date of any arrangement concerning the division of the total toll charges, including accounting rate, settlement rate and currency data, on such communications other than transiting. A carrier first becoming subject to the provisions of this section must, within thirty (30) days thereafter, file with the Commission a report covering any such existing arrangements.

(b) In the event that any change is made which affects data previously filed, a revised page incorporating such change or changes must be filed with the Commission not later than thirty (30) days from the date the change is made, provided, however, that any change in the amount of foreign participation in charges for outbound communications or in the respondent's participation in charges for inbound communications must be filed not later than thirty (30) days from the date the change is agreed upon.

(c) A single copy of each such report must be filed in a format that contains a clear, concise and definite statement of the arrangements.

**§ 43.54 [Removed]**

5. Section 43.54 is removed.

**§ 43.74 [Removed]**

6. Section 43.74 is removed.

BILLING CODE 6712-01-M

**47 CFR Part 73**

**AM Groundwave Curves**

**AGENCY:** Federal Communications Commission.

**ACTION:** Order deferring effective date.

**SUMMARY:** By this action, the Commission defers, to February 1, 1987, the effective date of the new metric AM groundwave curves found in 47 CFR 73.184. Because of unexpected delays in making those curves and associated materials available, there is insufficient time for interested station licensees and applicants to prepare to begin using the new curves by the previously established effective date of January 1, 1987. All studies filed with the FCC on or after February 1, 1987 must use the new curves.

**EFFECTIVE DATE:** February 1, 1987.

**ADDRESS:** Federal Communications Commission, Washington, DC, 20554.

BILLING CODE 6712-01-M

**47 CFR Part 97**

**Radio Services, Special; Announcement of the 1987 Maximum Reimbursement Allowed for an Amateur Operator Examination**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice announcing reimbursement fee.

**SUMMARY:** The public notice announces the maximum allowable reimbursement fee that may be paid by an examinee to volunteer examiners and volunteer-examiner coordinators for out-of-pocket expenses in preparing, processing or administering an examination for an Amateur service license above Novice operator. This action is necessary to comply with section 4(f), 4(j), of the Communications Act of 1934, as amended which requires that the reimbursement fee be adjusted annually for changes in the Department of Labor Consumer Price Index. The effect of the action is to establish the maximum

reimbursement for the calendar year 1987.

**EFFECTIVE DATE:** January 1, 1987.

**FOR FURTHER INFORMATION CONTACT:** John Small, Private Radio Bureau, (202) 632-4964.

William J. Tricarico,  
Secretary, Federal Communications  
Commission.

#### Maximum Fee for Amateur Operator Examination

Effective January 1, 1987 the maximum allowable reimbursement for out-of-pocket costs for an amateur operator examination will be \$4.37. This amount is based on a 1.87% increase in the Department of Labor Consumer Price Index between October 1, 1985 and September 30, 1986.

Volunteer examiners and volunteer-examiner coordinators may be reimbursed by examinees for out-of-pocket expenses incurred in preparing, processing or administering examinations for Technician, General, Advanced, or Amateur Extra operator licenses. The reimbursement fee from any examinee for any one examination at a particular examination session, regardless of the number of examination elements taken, must not exceed \$4.37.

This announcement is made pursuant to § 97.36 of the FCC rules for the Amateur service.

## GENERAL SERVICES ADMINISTRATION

### 48 CFR Parts 501, 513, 552 and 553

[APD 2800.12 CHGE 35]

#### General Services Administration Acquisition Regulation; Miscellaneous Changes

**AGENCY:** Office of Acquisition Policy, GSA.

**ACTION:** Final rule.

**SUMMARY:** The General Services Administration Acquisition Regulation (GSAR), Chapter 5, is amended (1) to revise Part 501 to limit the dollar value of purchases that can be paid through the imprest fund and made by individuals who are not warranted contracting officers, to delete references to the National Archives which is no longer part of GSA, to reflect current organizational titles and to make minor editorial changes for clarity; (2) to revise Part 513 to clarify the requirement for obtaining approval of a warranted contracting officer before placing orders of \$150 or more under Blanket Purchase Agreements (BPA's), to authorize contracting officers to deviate from the FAR requirements for invoicing under

BPA's under certain circumstances, to provide guidance on processing invoices under BPA's, to establish a per transaction limitation of \$500 for imprest fund payments charged to the Federal Buildings Fund and to provide a per transaction limitation of \$150 (\$300 under emergency conditions) for all other imprest fund payments, to provide for use of the Standard Form 1164, Claim for Reimbursement for Expenditures on Official Business or the Standard Form 1165, Receipt for Cash—Subvoucher, as the authorized purchase requisition under FAR 13.405(a), to increase the dollar limitation for use of the certified invoice procedures to \$2,000, to emphasize the need for soliciting competition when making purchases over \$1,000 using certified invoice procedures and to emphasize the need to time-stamp invoices upon receipt and to forward the invoices for payment within 5 workdays; (3) to revise Part 552 to amend the text of the clauses at 552.212-72, Availability for Inspection and Testing, and Shipment/Delivery, to delete references to the Quality Approved Manufacturers Agreement and substitute a reference to the Contractor Inspection Requirements clause; and (4) to revise Part 553 to illustrate the November 1986 edition of the GSA Form 3504, Service Contract Clauses, to illustrate the May 1986 edition of the GSA Form 300, Order for Supplies and Services, to add instructions for completing the GSA Form 300, to illustrate the August 1986 edition of the GSA Form 2010, Small Purchase Tabulation Source List/Abstract and to illustrate the November 1986 edition of the GSA Form 3521, Blanket Purchase Agreement. Acquisition Circulars AC-86-1 and AC-86-4 are canceled. The intended effect is to improve the regulatory coverage and provide uniform procedures for contracting under the regulatory system.

**EFFECTIVE DATE:** December 15, 1986.

**FOR FURTHER INFORMATION CONTACT:** Ms. Ida M. Ustad, Office of GSA Acquisition Policy and Regulations (VP), (202) 566-1224.

#### SUPPLEMENTARY INFORMATION:

##### Background

On August 14, 1986, the General Services Administration (GSA) published in the *Federal Register* (51 FR 29131) GSAR Notice No. 5-147 inviting comments from interested parties on these changes to the regulation. No public comments were received. Comments from various GSA offices have been reconciled and incorporated, when appropriate, in the final rule.

#### Impact

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain procurement regulations from Executive Order 12291. The exemption applies to this rule. The GSA certifies that this document will not have a significant impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule primarily relates to the internal operations of the agency and will not have a significant impact on contractors and offerors. Therefore, no flexibility analysis has been prepared. The rule does not contain information collection requirements that require the approval of OMB under the Paperwork Reduction Act (44 U.S.C. 3501 et seq.).

#### List of Subjects in 48 CFR Parts 501, 513, 552 and 553

Government procurement.

1. The authority citation for 48 CFR Parts 501, 513, 552 and 553 continues to read as follows:

Authority: 40 U.S.C. 486(c).

#### PART 501—GENERAL SERVICES ADMINISTRATION ACQUISITION REGULATION SYSTEM

2. Section 501.602-1 is amended by revising the GSAR section referenced in the paragraph to read as follows:

##### 501.602-1 Authority.

Contracting officers designated by name on Standard Form 1402, Certificates of Appointment, are authorized to exercise contracting officer authority, subject to all requirements and limitations set forth in the certificate of appointment (501.603-3(b)) and existing delegations of authority. Contracting officers shall exercise reasonable care, skill and judgement in all actions.

3. Section 501.603 is amended by revising paragraphs (a), (b)(1), (b)(2) (i) and (ii), by deleting paragraph (b)(2)(viii), by renumbering paragraphs (b)(2) (ix) thru (xiii) as (b)(2) (viii) thru (xii), and by revising paragraphs (c)(2), (c)(4) and (c)(6) to read as follows:

##### 501.603 Selection, appointment, and termination of appointment.

(a) *General.* This section establishes the uniform policy and procedures for warranting contracting officers (CO). The objective of the COWP is to appoint as contracting officers only those officials who are fully qualified to obligate the Government to the expenditure of public funds for the acquisition of property or services,

based on a valid organizational need and appropriate workload. In order to provide for signatures on obligating documents to be checked by the appropriate Finance Division, a GSA Form 19, Designation of Authorized Representative, must be submitted to the appropriate Finance Division upon receipt of a Standard Form 1402, Certificate of Appointment. In the event of a change, suspension, or termination of a contracting officer's appointment, the appropriate Finance Division must be promptly notified. No obligation or authorization for the expenditure of funds will be accepted by the Finance Division unless a GSA Form 19 is on file.

(b) *Applicability.* (1) The GSA Contracting Officer Warrant Program applies to all services, staff offices, and regions, except for those contracting officers appointed pursuant to the Inspector General Act (Pub. L. 95-452).

(2) A warrant is not required for:

(i) Individual purchases under \$150, regardless of the method of procurement;

(ii) Any imprest fund transactions less than \$150 (purchases of \$150 or more must be approved in advance by a contracting officer unless the transaction is otherwise exempt from the warrant program by this GSAR 501.603(b)(2));

(viii) The processing/procuring of a telephone service authorization or a communication service authorization issued to regulated/public utility common carriers. Emergency communications coordinators shall be authorized in their warrants to procure emergency communications equipment and services during Presidentially declared emergency or disasters;

(ix) The ordering by inventory managers of stock replenishment under established source contracts that are machine loaded. Current GSA Form 19 signature cards must be on file in the appropriate Finance Division;

(x) Delivery orders (machine generated) for motor vehicle procurements that are written against definite quantity contracts need not be signed as the contract is the obligating document in this case;

(xi) Entering into a Memorandum of Agreement with another Federal agency and to authorize the transfer of funds to that agency for services rendered; and

(xii) The authorization of interagency transfers of funds via a GSA 2957, Work Authorization.

(c) *Definitions.*

(2) "Designating official" means the Administrator or Associate

Administrator for Acquisition Policy, who is authorized to appoint contracting officers in GSA.

(3) \* \* \*

(4) "Delivery order" means placing an order for supplies and/or services against an already established contract under the terms and conditions of the established contract.

(5) \* \* \*

(6) "GSA established source contracts" means contracts established by GSA and other Federal agencies when GSA is required by regulation to use those contracts as Government supply sources. (See Part 8 of the FAR.)

4. Section 501.603-1 is revised to read as follows:

#### 501.603-1 General.

The authority to appoint contracting officers is delegated to the Associate Administrator for Acquisition Policy. See the Delegation of Authority Manual (ADM P 5450.39B).

5. Section 501.603-2 is amended by revising paragraph (c) to make the last sentence a separate paragraph designated as paragraph (d) to read as follows:

#### 501.603-2 Selection.

(c) Warrant boards will evaluate candidates for CO warrants based on supervisory recommendations, experience, education, training, business acumen, judgement, character, ethics, and reputation. Warrant boards may establish additional qualification requirements, as appropriate. Minimum qualifications of contracting officers (purchasing contracting officers (PCO's) and administrative contracting officers (ACO's)) are based on a combination of training and experience with consideration of relevant academic credit or degrees earned.

(d) The following warrant levels are equated with dollar value of individual transactions (e.g., contract, modification, supplemental agreement, etc.) and not the aggregate contract value.

\* \* \* \* \*

6. The table of contents for Part 513 is amended by adding two new entries to read as follows:

### PART 513—SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE AGREEMENTS

#### Subpart 513.4—Imprest Fund

Sec.

513.404 Conditions for use.

513.405 Procedures.

7. Section 513.203-1 is revised to read as follows:

#### 513.203-1 General.

(a) *Provisions required.* Blanket purchase agreements (BPA's) must be documented on a purchase order form or on a GSA 3521, Blanket Purchase Agreement. In addition to the requirements of FAR 13.203-1(j), each blanket purchase agreement should when appropriate, specify the geographic area to be served under the BPA.

(b) *Requesting deliveries.* Only the contracting officer (CO) and officials authorized by a CO and designated in the BPA are permitted to request deliveries. Employees designated in the BPA to place orders, who are not warranted contracting officers, may not place orders of \$150 or more without first obtaining the approval of a warranted contracting officer. Delivery (call) orders will be made by telephone or in person. Before placing calls against the BPA, each requirement must be screened for availability from mandatory sources of supply. Necessary controls must be maintained by the person placing call orders under the BPA to ensure that any limitation stated therein is not exceeded. The BPA identification and requisition number, if any, should be specified each time a delivery is requested.

(c) *Delivery or service tickets.* Each delivery ticket, in addition to the requirements of FAR 13.203-1(j)(6), must contain the requisition number, if any, and the name of the person placing the call. Upon receipt of items or services ordered, the delivery ticket must be signed and dated by the individual receiving them, and one copy of the delivery ticket provided to the supplier, and one copy retained by the receiving office.

(d) *Invoicing.* One of the invoicing statements outlined in FAR 13.203(j)(7) must be included in the BPA. If a supplier will not accept a BPA with any of the FAR invoicing statements, the contracting officer is authorized to deviate from FAR 13.203(j)(7) in order to permit the submission and payment of invoices for each delivery under the BPA. Before including such a statement in a BPA, the contracting officer must make every effort to get the supplier to accept one of the FAR invoicing statements. The BPA file should document the contracting officer's efforts and the suppliers refusal to accept the FAR invoicing statements when the BPA is written to authorize submission and payment of invoices for individual deliveries.

(e) *Processing invoices.* Invoices must be time-stamped by the ordering office to indicate the date of receipt. Unless

the BPA provides for the accumulation of invoices as outlined in FAR 13.203(j)(7)(iii), the ordering office must forward the invoice to the appropriate Finance Division for payment within 5 workdays of receipt of the invoice or acceptance of the supplies or services, whichever is later. If the BPA provides for accumulation of invoices by the ordering office for a specified period, the ordering office must forward the accumulated invoices to the appropriate Finance Division for payment within 5 workdays after the specified period for accumulation. All invoices should be marked to indicate that purchases were made under a BPA.

8. Section 513.403 is revised to read as follows:

**513.403 Agency responsibilities.**

Imprest fund cashiers must be designated and will function in accordance with HB, Accounting Users Guide—Imprest Fund and Travelers Checks (COM P 4268.1) and the requirements of FAR Subpart 13.4.

9. Section 513.404 is added to read as follows:

**513.404 Conditions for use.**

The per transaction spending limitation for cash payments made through imprest funds for purchases charged to the Federal Buildings Fund (192X) is \$500. The per transaction limitation for all other payments made through the imprest funds is \$150 (\$300 under emergency conditions). In addition, the conditions for use of imprest funds outlined in FAR 13.404 (b) and (c) apply.

10. Section 513.405 is added to read as follows:

**513.405 Procedures.**

The SF 1164, Claim for Reimbursement for Expenditures on Official Business, or SF 1165, Receipt for Cash—Subvoucher, will serve as the authorized purchase requisition referred to in FAR 13.405(a) for purchases made by offices maintaining their own imprest funds, e.g., Public Building Service Field Offices. Purchase requisitions such as the GSA Form 49, Requisition for Equipment, Supplies or Services, may be used if required by contracting activity directives. If the GSA Form 49 is used, it must be endorsed "Payment to be made from imprest fund."

11. Section 513.501 is revised to read as follows:

**513.501 General.**

The Finance Divisions will not accept facsimile signatures on machine-produced purchase orders to obligate funds. An original (carbon copy but not

photocopied) handwritten signature is required for obligation purposes on individual purchase orders or an original handwritten signature on a listing that references individual machine-produced purchase orders and dollar amounts.

12. Section 513.505-2 is amended by revising paragraphs (a) and (b) to read as follows:

**513.505-2 Agency order forms in lieu of Optional Forms 347 and 348.**

(a) Unless another form is prescribed, the GSA Form 300, Order for Supplies and Services, must be used instead of the OF 347, Order for Supplies or Services, when making purchases payable through the National Electronic Accounting and Reporting (NEAR) System. The GSA Form 300 must be prepared and processed in accordance with the instructions at GSAR 553.370-300-I.

(b) The GSA Form 1458, Motor Vehicle Shop Work Order, Repair and Purchase Order, shall be used instead of the OF 347, Order for Supplies or Services, when making purchases in connection with the maintenance, servicing or repair of GSA fleet management vehicles.

13. Section 513.505-3 is amended by revising paragraph (b) to read as follows:

**513.505-3 Standard Form 44, Purchase Order-Invoice-Voucher.**

(a) \* \* \*

(b) *Authorization for using the form.* Where necessary, designated employees may be authorized to make small purchases under \$150 using Standard Form 44 in accordance with this subpart. Purchases of \$150 or more using SF 44 may be made only by contracting officers.

14. Section 513.7001 is amended by revising paragraph (a) and subparagraph (b)(1), by renumbering subparagraphs (d) (2) and (3) as (3) and (4), by adding a new paragraph (d)(2), and by amending paragraph (g) to read as follows:

**513.7001 Certified invoice procedure.**

(a) When advantageous to the Government, supplies or services may be acquired on the open market from local suppliers at the site of the work or use point using vendors' invoices instead of purchase orders. Certified invoice procedures may not be used to place orders under established contracts unless specific authorization of their use is included in the contract document.

(b) \* \* \*

(1) The amount of any one purchase is \$2,000 or less.

(d) \* \* \*

(1) \* \* \*

(2) Solicit competitive quotations in accordance with FAR 13.106(a);

(3) Certify that the quality and quantity of items/services furnished are in accordance with the verbal agreement made with the vendor;

(4) Document the record in accordance with FAR 13.106(c) and GSAR 513.106(e).

(g) Upon receiving the invoice, the contracting officer shall time-stamp the invoice to indicate the date of receipt, verify the arithmetic accuracy of the invoiced amount, and verify that the supplies and/or services have been received and accepted. The contracting officer shall obtain a certification of receipt and acceptance from the individual that actually inspected and accepted the supplies and/or services before certifying the invoice and forwarding to the appropriate Finance Division for payment. Supplies and/or services should be inspected and accepted or rejected within 5 workdays of delivery. The invoice must be forwarded to the appropriate Finance Division for payment within 5 workdays after receipt of the invoice or acceptance of the supplies and/or services, whichever is later. Before forwarding the invoice to Finance, the contracting officer shall place the following statement on the invoice along with the gummed ACT label and accounting information:

"I certify that these goods and/or services were received on \_\_\_\_\_ (date) and accepted on \_\_\_\_\_ (date). Oral purchase was authorized and no confirming order has been issued."

Signature of Contracting Officer

Print the Contracting Officer's name

Date Approved

**PART 552—SOLICITATION PROVISIONS AND CONTRACT CLAUSES**

15. Section 552.212-72 is amended by revising the dates of the clauses, by revising paragraph (a) of the clause contained in paragraph (a) of the section, and by revising paragraph (a) of the clause contained in paragraph (b) of the section to read as follows:

**552.212-72 Availability for Inspection and Testing, and Shipment/Delivery.**

(a) \* \* \*

**Availability for Inspection and Testing, and Shipment (Sept. 1986)**

(a) The Government requires that the supplies listed herein be made available for inspection and testing within \_\_\_\_\_ calendar days after receipt of order, and be shipped within \_\_\_\_\_ calendar days after notice of approval and release by the appropriate Government inspection representative. If the point of inspection is changed to destination, or shipment is made under the Contractor Inspection Requirements clause, shipment is required within \_\_\_\_\_ days after receipt of order.

(b) \* \* \*

**Availability for Inspection and Testing, and Delivery\* (Sept. 1986)**

(a) The Government requires that the supplies listed herein be made available for inspection and testing within \_\_\_\_\_ calendar days after receipt of order, and be shipped within \_\_\_\_\_ calendar days after notice of approval and release by the appropriate Government inspection representative. If the point of inspection is changed to destination, or shipment is made under the Contractor Inspection Requirements clause, shipment is required within \_\_\_\_\_ days after receipt of order.

16. The table of contents for Part 553 is amended by adding a new entry for § 553.370-300-I to read as follows:

**PART 553—FORMS**

Sec.

**Subpart 553.3—Illustration of Forms**

553.370-300-I Instructions for using the GSA Form 300, Order for Supplies and Services.

**Editorial Note.**—The forms listed above are illustrated in and made a part of the regulation. However, the forms are not illustrated in the *Federal Register* or the Code of Federal Regulations. Individual copies may be obtained from any GSA contracting activity or the Director of the Office of GSA Acquisition Policy and Regulations (VP), 18th and F Streets, NW., Washington, DC 20405.

17. Section 553.270-3 is amended by revising paragraph (b) to read as follows:

**553.270-3 Contract clauses.**

(a) \* \* \*

(b) GSA Form 3504, Service Contract Clauses, is for use in connection with sealed bid and negotiated contracts for services, except small purchases.

18. Section 553.272 is amended by revising paragraphs (a), (b) and (d) to read as follows:

**553.272 Purchase/Delivery orders.**

(a) The GSA Form 300, Order for Supplies and Services, is used in accordance with the instructions at GSAR 553.370-300-I for making purchases payable through the National Electronic Accounting and Reporting (NEAR) System. This form may also be used in other situations, unless a specific form is prescribed for use. GSA Form 300-A, Order for Supplies or Services (Continuation), is available for use with GSA Form 300.

(b) The GSA Form 1458, Motor Vehicle Shop Work Order, Repair and Purchase Order, is used to procure services and/or repairs of GSA fleet management vehicles.

(c) \* \* \*

(d) The GSA Form 8002, Motor Vehicle Delivery Order, is used to order fleet management vehicles. This form is not intended for use as a purchase order for small purchases and does not include provisions and clauses on the reverse.

19. Section 553.273 is revised to read as follows:

**553.273 Receiving reports.**

GSA Form 3025, Receiving Reports, must be used in conjunction with the GSA Form 300, Order for Supplies and Services, when required by the instructions for use of the GSA-300 at GSAR 553.370-300-1. The GSA Form 3025 may also be used when prescribed in GSA handbooks or other directives.

20. Section 553.275 is amended by revising paragraph (a) to read as follows:

**553.275 Contract summaries.**

(a) To provide an abstract of pricing and other pertinent information applicable to requirements contracts for stock replenishment, contracting officers shall prepare GSA Form 1584, Contract Summary, in accordance with instructions in GSAR 553.370-1584-I. GSA Form 1584-A, Contract Summary—Continuation, shall be used as necessary. The completed form shall be duplicated and distributed as soon as possible after award to inventory managers, paying offices, quality assurance specialists, and other interested personnel, in accordance with distribution instructions established by the Federal Supply Service.

Dated: December 15, 1986.

Patricia A. Szervo,

Associate Administrator for Acquisition Policy.

[FR Doc. 86-28687 Filed 12-22-86; 8:45 am]

BILLING CODE 6820-61-M

**48 CFR Parts 509, 513, 514, and 553**

[APD 2800.12 CHGE 36]

**General Services Administration Acquisition Regulation, Miscellaneous Forms**

**AGENCY:** Office of Acquisition Policy, GSA.

**ACTION:** Final rule.

**SUMMARY:** The General Services Administration Acquisition Regulation (GSAR), Chapter 5, is amended to revise § 509.105-1 to clarify when the GSA Form 527, Contractor's Qualifications and Financial Information, may be used and to provide for the use of GSA Form 353, Plant Facilities Report by the Federal Supply Service for preaward surveys; to revise § 513.203-1 to provide for the use of GSA Form 2877, Non-Depot Item Requisition/Order/Receiving/Payment Record; to revise § 514.403 to require that aggregate totals be recorded on the Abstract of Bids when the solicitation specifies aggregate awards, and to provide for the use of GSA Form 3471, Abstract of Offers, by the Public Buildings Service to record offers for building service contracts; to revise § 553.173 to include the GSA Forms 353, 2877 and 3471, and to change the responsible office for the GSA Form 3521; to revise § 553.273 to provide for use of the GSA Form 2877; to illustrate the GSA Form 353 and instructions, and to illustrate GSA Forms 2877 and 3471.

**EFFECTIVE DATE:** December 16, 1986.

**FOR FURTHER INFORMATION CONTACT:** Ms. Shirley Scott, Office of GSA Acquisition Policy and Regulations on (202) 523-4765.

**SUPPLEMENTARY INFORMATION:** This rule will not have a significant cost or administrative impact on contractors or offerors. Therefore, it was not published for public comment in the *Federal Register*.

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies to this rule. The General Services Administration (GSA) certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et. seq.). The rule primarily provides for the use of new and updated GSA forms which pertain to the internal operations of the agency and will not have a significant impact on contractors and offerors. Therefore, no regulatory flexibility analysis has been prepared.

This rule does not contain any information collection requirements which are subject to OMB approval under the Paperwork Reduction Act (44 U.S.C. 3501 et. seq.).

#### List of Subjects in 48 CFR Parts 509, 513, 514, and 553

Government procurement.

1. The authority citation for 48 CFR Parts 509, 513, 514, and 553 continues to read as follows:

Authority: 40 U.S.C. 486(c).

#### PART 509—CONTRACTOR QUALIFICATIONS

2. Section 509.105-1 is amended by revising paragraphs (a) and (c) to read as follows:

##### 509.105-1 Obtaining information.

(a) In making a determination of responsibility, the contracting officer may use the GSA Form 527, Contractor's Qualifications and Financial Information, to obtain information regarding financial capability from a prospective contractor. A preaward survey should be requested when the conditions in FAR 9.106-1 apply.

(c) Preaward surveys shall be conducted in accordance with FAR 9.105 and 9.106 and this subpart. The contracting officer or his/her designee shall forward a preaward survey request to the surveying activity(ies) using Standard Form 1403, Preaward Survey of Prospective Contractor (General), accompanied by the appropriate subparts of the preaward survey (Standard Forms 1404 through 1408). The Federal Supply Service is authorized to use GSA Form 353, Plant Facilities Report, for preaward surveys instead of Standard Forms 1403 through 1406. The contracting officer shall complete Section I of the GSA Form 353 in accordance with instructions in section 553.370-353.

#### PART 513—SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

3. Section 513.203-1 is amended by revising paragraph (b) to read as follows:

##### 513.203-1 General.

(b) *Requesting deliveries.* Only the contracting officer (CO) and officials authorized by a CO and designated in the BPA are permitted to request deliveries. Employees designated in the BPA to place orders, who are not warranted contracting officers, may not

place orders of \$150 or more without first obtaining the approval of a warranted contracting officer. Delivery (call) orders will be made by telephone or in person. The GSA Form 2877, Non-Depot Item Requisition/Order/Receiving/Payment Record, is authorized for use by the Federal Supply Service in placing orders against BPA's for customer supply center items that are not available from Government supply depots. Before placing calls against the BPA, each requirement must be screened for availability from mandatory sources of supply. Necessary controls must be maintained by the person placing call orders under the BPA to ensure that any limitation stated therein is not exceeded. The BPA identification and requisition number, if any, should be specified each time a delivery is requested.

#### PART 514—SEALED BIDDING

4. Section 514.403 is revised to read as follows:

##### 514.403 Recording of bids.

(a) The abstracting and tabulating of bids normally are completed within 24 hours after bid opening, and a copy delivered immediately to the appropriate Business Service Center where it is made available for public examination for a minimum period of 30 calendar days. Late bids determined eligible for consideration must be included on the bid abstract form. However, if eligibility is established after delivery of the original tabulation, the bids are recorded separately, identified as an amendment to the original tabulation, and delivered to the Business Service Center.

(b) Abstracts involving aggregate awards must record unit prices, weight factors and aggregate totals for each aggregate group in addition to any other information required for bid evaluation.

(c) The GSA Form 3471, Abstract of Offers, is authorized for use by contracting activities in the Public Buildings Service (PBS) instead of the Standard Form 1409, Abstract of Offers, when recording offers for building services.

5. The table of contents for Part 553 is amended to add new entries for §§ 553.370-353, 553.370-353-I, 553.370-2877 and 553.370-3471 as set forth below:

#### PART 553—FORMS

Sec.

##### Subpart 553.3—Illustrations of Forms

553.370-353 GSA Form 353, Plant Facilities Report.

553.370-353-I Instructions for completing Section I, GSA Form 353, Plant Facilities Report.

\* \* \* \* \*

553.370-2877 GSA Form 2877, Non-Depot Item Requisition/Order Receiving/Payment Record.

\* \* \* \* \*

553.370-3471 GSA Form 3471, Abstract of Offers.

\* \* \* \* \*

**Editorial Note.**—The forms listed above are illustrated and made a part of the regulation. However, the forms are not illustrated in the *Federal Register* or the Code of Federal Regulations. Individual copies may be obtained from any GSA contracting activity or the Director of the Office of GSA Acquisition Policy and Regulations (VP), 18th and F Street, NW., Washington, DC 20405.

6. Section 553.173 is amended by adding or revising the following entries to the table in paragraph (c) to read as follows:

##### 553.173 Responsibility for the maintenance of forms.

(c) \* \* \*

	GSA Form Number	Responsible Office
353	.....	F
2877	.....	F
3471	.....	P
3521	.....	V

7. Section 553.273 is revised to read as follows:

##### 553.273 Receiving Reports.

(a) GSA Form 3025, Receiving Report, must be used in conjunction with GSA Form 300, Order for Supplies and Services, when required by the instructions for use of the GSA-300 at 553.370-300-I. The GSA Form 3025 may also be used when prescribed in GSA handbooks and other directives.

(b) GSA Form 2877, Non-Depot Item Requisition/Order/Receiving Payment Record, is used to receive customer supply center items from sources other than Government supply depots.

Dated: December 16, 1986.

Richard H. Hopf III,

Deputy Associate Administrator for  
Acquisition Policy.

[FR Doc. 86-28688 Filed 12-22-86; 8:45 am]

BILLING CODE 6820-61-M

#### 48 CFR Parts 514 and 552

[APD 2800.12 CHGE 37]

#### General Services Administration Acquisition Regulation; Bid Acceptance Time

AGENCY: Office of Acquisition Policy,  
GSA.

ACTION: Final rule.

**SUMMARY:** The General Services Administration Acquisition Regulation (GSAR), Chapter 5, is amended to revise Parts 514 and 552 to incorporate the substance of an approved class deviation which provides for the use of a Minimum Bid Acceptance Period provision that deviates from the Provision at FAR 52.214-16. The intended effect is to improve the regulatory coverage and provide uniform procedures for contracting under the regulatory system.

**EFFECTIVE DATE:** December 16, 1986.

**FOR FURTHER INFORMATION CONTACT:** Mr. Richard Sanders, Office of GSA Acquisition Policy and Regulations on (202) 523-4740.

#### SUPPLEMENTARY INFORMATION:

##### Background

On August 28, 1986, the General Services Administration (GSA) published in the *Federal Register* (51 FR 30681) GSAR Notice No. 5-139 inviting comments from interested parties on these proposed changes to the regulation and provided a 30-day comment period. No comments were received from the public. Comments received from various GSA offices have been reviewed, reconciled, and incorporated, when appropriate, in this final rule.

##### Impact

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain procurement regulations from Executive Order 12291. The exemption applies to this rule. The GSA certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule

incorporates an approved deviation to the FAR provision which is designed to eliminate a problem with nonresponsive bids that resulted when bidders misinterpreted the language in the FAR provision at 52.214.16, Minimum Bid Acceptance Period. Therefore, no regulatory flexibility analysis has been prepared. The rule does not contain information collection requirements which require the approval of OMB under 44 U.S.C. 3501 et seq.

#### List of Subjects in 48 CFR Parts 514 and 552

Government procurement.

1. The authority citation for 48 CFR Parts 514 and 552 continues to read as follows:

Authority: 40 U.S.C. 486(c).

#### PART 514—SEALED BIDDING

2. Section 514.270-1 is revised to read as follows:

##### 514.270-1 Standard Form 33.

(a) The Standard Form 33, Solicitation, Offer and Award, provides for the insertion by bidders of a number of calendar days after bid opening by which their bids must be accepted by the Government. However, FAR 14.201-6(j) authorizes contracting officers to specify a minimum bid acceptance period by including in the solicitation the provision at FAR 52.214-16. A class deviation has been approved for the use of the provision at 552.214-16, Minimum Bid Acceptance period, instead of the provision at FAR 52.214-16.

(b) When the provision at 552.214-16 is used, paragraph (b) of the provision supersedes Item 12 of the SF 33. However, a problem would result if a bidder overlooked the fact that the provision was included in the solicitation, and inserted in Item 12 a figure that was less than that stipulated by the Government in paragraph (c) of the provision. To avoid such problems, the contracting officer shall insert in Item 12 of SF 33 the entries shown below when the provision at 552.214-16 is included in the solicitation.

**Note.**—Item 12 does not apply if the solicitation includes the provisions at 52.214.16, Minimum Bid Acceptance Period.

12. In compliance with the above, the undersigned agrees, if this offer is accepted within \_\_\_\_\_ N/A\* calendar days (60 calendar days unless a different period is inserted by the offeror) from the date for receipt of offers specified above, to furnish any or all items upon which prices are offered at the price set opposite each item,

delivered at the designated point(s), within the time specified in the schedule.

\*SEE PROVISION 552.214-16.

3. Section 514.270-2 is amended by revising paragraphs (b), (c)(1)(ii), (c)(2), (c)(2)(iv) and (c)(2)(v) to read as follows:

#### 514.270-2 Specifying a required bid acceptance period.

(a) \* \* \*

(b) *Use of the provision in 552.214-16.*

The 60-day period stipulated in the parenthetical statement in Item 12 of SF 33 is neither a "standard" nor a request to bidders to allow such period. However, most bidders customarily offer a 60-day bid acceptance time, although they rarely offer more than 60 days, and sometimes offer less than that period. Consequently, the provision in 552.214-16 should be used whenever the contracting officer determines (1) that a period of more than 60 days will be needed to finalize award(s), or (2) that a period of 60 days or less will be adequate to complete the award process, but that one or more bidders may specify an acceptance period which is less than the projected time needed to finalize award(s).

(c) \* \* \*

(1) \* \* \*

(ii) Contingencies such as late bids, mistakes in bids, protests, SBA Certificate of Competency requirements, and Walsh-Healy eligibility requirements should not be anticipated in projecting an appropriate bid acceptance period. The procedure of requesting extensions of bid acceptance time (see 514.407-72) is to provide for unexpected delays which may arise during the award process.

(2) The stipulated bid acceptance period should usually be a minimum of 30 days, should be stated in increments of 15 calendar days, and normally should not exceed 90 calendar days.

\* \* \* \* \*

(iv) A period of 75 or 90 days may be reasonable when the determination of the apparent low bidder(s) involves a complex evaluation process (e.g., evaluating f.o.b. origin bids to overseas ports of debarkation), and actions or reports of the type described in the preceding paragraph are also required.

(v) A period exceeding 90 days may be necessary in cases involving security clearances or cost comparisons under OMB Circular A-76.

4. The table of contents for Part 552 is amended to add a new entry as set forth below:

## PART 552—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

Sec.

### Subpart 552.2—Text of Provisions and Clauses

552.214-16 Minimum bid acceptance period.

5. Section 552.214-16 is added to read as follows:

#### 552.214-16 Minimum bid acceptance period.

(a) As prescribed in § 514.270-1(a), insert the following provision:

#### Minimum Bid Acceptance Period (Oct 1985) (Deviation FAR 52.214-16)

(a) "Acceptance period," as used in this provision, means the number of calendar days available to the Government for awarding a contract from the date specified in this solicitation for receipt of bids.

(b) This provision supersedes any language pertaining to the acceptance period that may appear elsewhere in this solicitation.

(c) The Government requires a minimum acceptance period of \_\_\_\_\_ calendar days.

(d) In the space provided immediately below, bidders may specify a longer acceptance period than the Government's minimum requirement. (Insert any number equal to or greater than the minimum requirement stated in paragraph (c) of this provision. Failure to insert any number means the offeror accepts the minimum in paragraph (c)).

The bidder allows the following total acceptance period: \_\_\_\_\_ calendar days.

(e) A bid allowing less than the Government's minimum acceptance period will be rejected.

(f) The bidder agrees to execute all that it has undertaken to do, in compliance with its bid, if that bid is accepted in writing within (1) the acceptance period stated in paragraph (c) above, or (2) any longer acceptance period stated in paragraph (d) above, or (3) any extension of the offered acceptance period as may be subsequently agreed to by the bidder.

(End of provision)

\*The contracting officer shall insert an appropriate number of days. See guidelines in 514.270-2(c).

Dated: December 16, 1986.

Patricia A. Szervo,

Associate Administrator for Acquisition Policy.

BILLING CODE 6820-61-M

## INTERSTATE COMMERCE COMMISSION

### 49 CFR Parts 1039, 1312, and 1313

[Ex Parte No. 387]

### Railroad Transportation Contracts

AGENCY: Interstate Commerce Commission.

**ACTION:** Notice of new interim rules for railroad transportation contracts made under 49 U.S.C. 10713 and request for comments.

**SUMMARY:** The Commission is issuing new, consolidated interim rules under 49 CFR 1313.1 *et seq.* for railroad transportation contracts made under 49 U.S.C. 10713. These rules replace and modify those at 49 CFR 1039.1 through 1039.6 and 1039.19; 1312.41; and former 1300.310.<sup>1</sup> This is necessitated by new legislation [section 4051 of the Conrail Privatization Act, embraced in Omnibus Budget Reconciliation Act, Public Law 99-509, enacted October 21, 1986] and by experience with the prior interim rules issued July 13, 1984, implementing 1300.31(b)(1)-(4).

The new interim rules modify: (1) The information required in the contract summary to afford the public additional disclosure of essential rail contract terms; and (2) Commission standards for discovery of contract terms beyond those released in the contract summary. The rules are attached, as are derivation and redesignation tables.

**DATES:** Effective date: January 22, 1987. Notices of intent to participate must be filed by January 12, 1987. A service list will then be issued. An original and 15 copies of comments will be due 20 days after that date. Replies will be due 20 days thereafter. Both comments and replies must be served on the parties to the service list.

**ADDRESS:** Send an original and 15 copies of comments to: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

**FOR FURTHER INFORMATION CONTACT:** Thomas Dahl, (202) 275-6448 or 275-7246.

#### SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC metropolitan area) or toll free (800) 424-5403.

#### Regulatory Flexibility Act Analysis

New interim rules are being issued because of legislative changes adding new provisions in 49 U.S.C. 10713(b)(2) (A) and (B). These changes affect Commission regulations at 49 CFR 1039, 1312.42, and 1300.310(b). (The latter regulations were not renumbered and

published at 1312.42.) Further, other existing rules for contract discovery, issued July 13, 1984, in this proceeding pursuant to the remand in *Water Transport Ass'n. v. ICC*, 722 F.2d 1025 (2d Cir. 1983), need to be revised. The new interim rules address these issues.

The rules update and make more comprehensive the standards and procedures for filing contracts, contract summaries, contract complaints and contract discovery. We are also consolidating the various CFR sections into one section for easier use of the rules. Small entities that may be affected by these rules include railroads, governmental bodies, small businesses purchasing transportation.

These rules do not duplicate, overlap or conflict with other federal rules.

Except as noted below, the Regulatory Flexibility Act Analysis is unchanged from our prior decision at 367 I.C.C. 9, 36-37.

There are slight additional reporting requirements for the publicly-available contract summaries. These additional reporting requirements have been imposed by both new legislation and by our concern that the rules assist small shippers as well as other parties.

As stated in the prior decision, 367 I.C.C. at 36, as with any contract, specialized assistance from the legal and accounting professions may be required. While that decision stated that little additional professional assistance for instituting complaints against rail contracts was needed, the 1984 interim complaint and discovery rules apparently created additional expenses because of the requirement for simultaneous filing of complaints and discovery petitions. The expense of compiling an adequate formal complaint was incurred even if discovery was not granted, or, if granted, the shipper determined that it should not continue prosecution of the complaint. The new rules reduce this expense.

This action should not significantly affect the quality of the human environment or energy conservation. Comments on this matter are also invited.

#### List of Subjects in 49 CFR Part 1313

Agricultural commodities, Forests and forest products, Railroads.

Decided: December 15, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Vice Chairman Simmons and Commissioner Andre dissented in part with separate expressions. Commissioner Lamboley dissented in part.

<sup>1</sup> In the revision of Part 1300 of 49 CFR as new Part 1312(49 FR 38615, October 1, 1984), § 1300.310(b)(1)-(4) was inadvertently removed, although the rules still apply.

and will submit a separate expression at a later date.

Noreta R. McGee,  
Secretary.

#### Appendix

- A. Railroad Contract Rules
- B. Redesignation Table
- C. Derivation Table

#### A. Railroad Contract Table

Title 49 of the CFR is amended as follows:

1. The authority citation for 49 CFR Part 1039 is revised to read as follows:

Authority: 49 U.S.C. 10321, 10505, 10708, 10762, and 11105; and 5 U.S.C. 553.

2. The heading for Part 1039 is revised to read:

#### PART 1039—EXEMPTIONS

3. Sections 1039.1 through 1039.6 and § 1039.19 are removed.

#### PART 1312—REGULATIONS FOR THE PUBLICATION, POSTING AND FILING OF TARIFFS, SCHEDULES, AND RELATED DOCUMENTS

4. The authority citation for 49 CFR Part 1312 continues to read as follows:

Authority: 49 U.S.C. 10762; and 5 U.S.C. 553.

#### § 1312.41 [Removed]

5. Section 1312.41 is removed.
6. A new Part 1313 is added to read as follows:

#### PART 1313—RAILROAD CONTRACTS ENTERED INTO PURSUANT TO 49 U.S.C. 10713

Sec.

- 1313.1 Definitions of the terms "contract" and "amendment."
- 1313.2 Jurisdiction; contract approval/disapproval.
- 1313.3 Contract implementation date.
- 1313.4 Common carrier responsibility; limitations on future contracts.
- 1313.5 Remedies for breach of approved contracts.
- 1313.6 Limitation on equipment; and relief.
- 1313.7 Contract filing, title pages, and numbering.
- 1313.8 Contract and contract summary availability.
- 1313.9 Formats for initial and amended contract summaries.
- 1313.10 Contract summary content—agricultural commodities.
- 1313.11 Contract summary content—forest products and paper.
- 1313.12 Contract summary content—port traffic (other than agricultural commodities, forest products, and paper.)
- 1313.13 Contract summary content—other commodities or services not involving a port.
- 1313.14 Informal discovery.
- 1313.15 Contract discovery.

Sec.

- 1313.16 Procedures for contract discovery and complaints.
  - 1313.17 Grounds for contract review and complaints.
- Authority: 49 U.S.C. 10321 and 10713; and 5 U.S.C. 553.

#### § 1313.1 Definitions of the terms "contract" and "amendment."

(a) A contract made pursuant to 49 U.S.C. 10713 is a written agreement, including any amendment, entered into by one or more rail carriers with one or more purchasers of rail service, to provide specified services under specified rates, charges and conditions.

(b) A contract filed under these rules must:

- (1) Specify that the contract is made pursuant to 49 U.S.C. 10713, and
  - (2) Be signed by duly authorized parties.
- (c) The term "amendment" includes written contract modifications signed by the parties.

(d) An amendment is deemed to be a separate and new contract. To the extent contract extensions or amendments change any term of the contract, remedies are revived and review is again available. An amendment is lawful only if it is filed and approved in the same manner as the original contract and is consistent with these rules, including the filing of a complete contract summary.

#### § 1313.2 Jurisdiction; contract approval/disapproval.

(a) *Jurisdiction.* The contract or amendment and transportation are subject to Commission jurisdiction until Commission approval under 49 U.S.C. 10713 and applicable regulations.

(b) *Contract approval date.* Except as provided in § 1313.7(a)(2):

(1) The contract is approved on the 30th day after the filing of the contract if the Commission does not institute a proceeding to review the contract.

(2) If the Commission institutes a proceeding to review a contract, it has jurisdiction for 60 days after the contract is filed. Under these circumstances the contract will be approved:

- (i) On the date the Commission approves the contract, if the date of approval is 31 or more days after the filing date of the contract;
- (ii) On the 31st day after the contract filing date if the Commission denies the complaint against the contract by the 30th day after the contract filing date; or
- (iii) On the 60th day after the contract filing date, if the Commission fails to disapprove the contract.

(c) *Contract disapproval.* If the Commission finds that the contract

violates the provisions of 49 U.S.C. 10713, it will:

- (1) Disapprove the contract; or
- (2) In the case of agricultural contracts (including forest products and paper) where the Commission finds unreasonable discrimination by a carrier in accordance with 49 U.S.C. 10713 and § 1313.8, allow the carriers the option to:

(i) Provide rates and services substantially similar to the contract at issue, with such differences in terms and conditions as are justified by the evidence; or

(ii) Cancel the contract.

(d) *Applicable rates/charges if contract disapproved.* If the Commission disapproves or rejects the contract or amendment, the appropriate non-contract tariffs or the contract provisions otherwise in effect under previously approved contracts will be applicable.

#### § 1313.3 Contract implementation date.

(a) Transportation or service performed under a contract or amendment may begin, without specific Commission authorization, on or after the date the contract (or amendment) and contract summary or (amended contract summary) are filed and before Commission approval as defined in 49 CFR 1313.2, subject to the following conditions:

(1) The contract or contract amendment shall specifically state that the transportation or service may begin on the date of filing.

(2) The contract summary shall separately reflect the date of commencement of service.

(b) Except as provided under subparagraph (c) of this section, transportation or service may not begin under a contract or an amendment to a contract before the filing date of either the contract or the amendment, respectively.

(c) Railroad transportation or service is exempt from the requirements of 49 U.S.C. 10761, 11902, 11903, and 11904 to the extent that a railroad may apply a contract or amended contract rate rather than an otherwise applicable tariff rate and pay reparations or waive undercharges under the following conditions:

(1) A transportation contract under 49 U.S.C. 10713 has been filed with the Commission and has been approved by the Commission or by operation of law;

(2) The shipment at issue falls within the terms of the contract; and

(3) The shipment was transported before the contract was approved but:

- (i) After the contract was signed; or

(ii) After the parties agreed on the rate to be charged and they either agreed to be bound by the contract or intended the movement to be covered by it.

(d) Except as provided elsewhere in this section, all transportation under the contract may begin only in accordance with 49 CFR 1313.2.

**§ 1313.4 Common carrier responsibility; limitations on future contracts.**

(a) The terms of a contract approved by the Commission determine completely the obligations of the parties to the contract with respect to the services provided under the contract. The contract does not affect the parties' responsibilities for any services which are not included in the contract.

(b) Service under a contract approved by the Commission is deemed a separate and distinct class of service and the equipment used to fulfill the contract shall not be subject to car service limitations under 49 U.S.C. 11123.

(c) *Limitation of rail carrier rights to enter future contracts.* The Commission may limit the right of a rail carrier to enter into future contracts if the Commission determines that additional contracts would impair the ability of the rail carrier to fulfill its common carrier obligations under 49 U.S.C. 11101. The Commission will handle these determinations on a case-by-case basis and may investigate, either on its own initiative or upon the filing of a verified complaint by a shipper which demonstrates that it individually had been or will be harmed by a carrier's inability to fulfill its common carrier obligations as a result of existing contracts.

**§ 1313.5 Remedies for breach of approved contracts.**

(a) The exclusive remedy for an alleged breach of a contract approved by the Commission shall be an action in the appropriate State Court or United States District Court, unless the parties otherwise agree in the contract.

(b) The Commission may not require a rail carrier to violate the terms of a contract that has been approved under 49 CFR 1313.2, except to the extent necessary to comply with 49 U.S.C. 11128.

**§ 1313.6 Limitation on equipment; and relief.**

(a) A rail carrier may enter into contract for the transportation of agricultural commodities (including forest products but not including wood pulp, wood chips, pulpwood, or paper) that involve the use of carrier owned or leased equipment not in excess of 40 percent of the total number of the

carrier's owned or leased equipment, by major car type, except as provided in paragraph (b) of this section.

(b) In the case of a proposed contract between a class I carrier and a shipper originating an average of 1,000 cars or more per year during the prior 3-year period by major car type on a particular carrier, not more than 40 percent of carrier owned or leased equipment used on the average during the prior 3-year period may be used for the contract without prior Commission authorization.

(c) If the rail equipment standards of 49 U.S.C. 10713(k) are exceeded, prior relief must be obtained from the Commission and must be specifically identified in the contract summary.

(d) The Commission may grant relief from the limitations of paragraphs (a) and (b) of this section if:

(1) A rail carrier or other party requests such relief; or the Commission on its own initiative considers granting such relief; and

(2) The Commission determines that making additional equipment available does not impair the rail carrier's ability to meet its common carrier obligations under 49 U.S.C. 11101.

**§ 1313.7 Contract filing, title pages, and numbering.**

(a) *Filing of Rail Contracts.* (1) Rail carriers providing transportation subject to Subchapter I of Chapter 105 of Title 49, United States Code, must file with the Commission an original contract (or amendment) entered into with one or more purchasers of rail service. The contract (or amendment) must be accompanied by three copies of a contract summary (or amended contract summary) of the non-confidential elements of the contract as specified in §§ 1313.10, 1313.11, 1313.12, or 1313.13.

(2) A contract (or amendment) and contract summary (or amended contract summary) may be rejected for noncompliance with applicable statutes and regulations.

(3) Contracts and contract summaries must not be filed in the same package with standard tariff filings.

(4) The confidential contract shall not be attached to the contract summary.

(5) The outside envelope or wrapper containing the contract and summary must be prominently marked "Confidential, Rail Contract."

(6) A contract and summary must be accompanied by a transmittal letter identifying the submitted documents, and the name and telephone number of a contact person.

(b) *Contract and contract summary title pages.* (1) The title page of every contract and amendment must contain only the following information:

(i) In the upper right corner, the contract number (see paragraph (c) of this section).

(ii) In the center of the page, the issuing carrier's name, followed by the word "CONTRACT" in large print.

(iii) Amendments to the contract must also show in the upper right corner, the amendment number (see paragraph (c) of this section).

(iv) A solid one inch black border down the right side of the title page.

(vi) Date of issue and date to be effective.

(2) The title page of every contract summary and amended contract summary must contain only the following information:

(i) (A) If contract summary, in the upper right corner, the contract summary number (see paragraph (c) of this section).

(B) If amended contract summary, in the upper right corner, the contract summary number, followed by the corresponding contract amendment number.

(ii) (A) In the center of the page, the issuing carrier's name, followed by the words "CONTRACT SUMMARY" in large print.

(B) If a contract summary for an amendment to a contract: in the center of the page, the issuing carrier's name, followed by the words "AMENDED CONTRACT SUMMARY"

(iii) Date of issue and date to be effective.

(iv) In the center lower portion, the issuing individual's name and address. The name of the individual for service of complaints and petitions for discovery must also appear, if different from the issuing individual. If not otherwise noted, a complainant/petitioner may rely on service to the issuing individual.

(c) *Contract and contract summary numbering system.* (1) Each issuing carrier shall sequentially number each contract and contract summary (and amendment and amended contract summary) it issues. The contract and contract summary identification number must include the word "ICC," the industry standard alphabet code for the issuing railroad (limited to four letters), the letter "C," and the sequential number, with each separated by a hyphen. The following is an example: the 357th contract filed by Conrail would have the following identification number: "ICC-CR-C-0357."

(2) Amendments to contracts shall be reflected in a corresponding amended contract summary.

(3) At the carrier's option, it may issue contracts with nonconsecutive numbers if it assigns blocks of numbers to

different departments. An index to the blocks of reserved numbers shall be filed with the Commission.

(4) Contract amendments and amended contract summaries must be sequentially numbered.

**§ 1313.8 Contract and contract summary availability.**

(a) (1) Except as provided in paragraph (2) of this section, the contract filed under these rules shall not be available to persons other than the parties to the contract and authorized Commission personnel, except by informal discovery under 49 CFR 1313.14 and/or by Commission decision.

(2) A contract and its summary filed under 49 U.S.C. 10713 may be labeled "nonconfidential." Such a designation will permit the general public to inspect the entire contract.

(b) (1) The contract summary filed under these rules shall be available from the Commission's Bureau of Traffic and Contract Advisory Service.

(2) The contract summary filed under these rules shall not be required to be posted in any stations, but shall be made available upon reasonable request from the carriers participating in the contract.

**§ 1313.9 Formats for initial and amended contract summaries.**

(a) The contract summary must enumerate and have each item completed. When the item does not pertain to the contract, the term "Not Applicable" ("NA") shall be used.

(b) (1) Changes in prior contract summaries must be underscored and must be followed by the words "addition," "deletion," "extension," "cancellation," or other appropriate descriptive phrase in parentheses. If the change to the contract is only in confidential matter, a statement to that effect must be made in the amended contract summary and must indicate the particular feature to which the change applies (i.e., rate, special feature, etc.).

(2) Amended contract summaries filed under this provision may not substitute phrases such as "not applicable" or "no change" where disclosure was required in the original contract (such as in the commodity description); amended contract summaries must set forth *all* non-confidential terms in the contract, whether amended or not.

**§ 1313.10 Contract summary content—agricultural commodities.**

(a) Contract summaries for agricultural commodities (excluding forest products and paper) must contain the following information which includes that required to be disclosed under 49 U.S.C. 10713(b)(2)(A). These

requirements also apply to amended contract summaries.

(b) (1) *Carrier names.* A list, alphabetically arranged, of the corporate names of all carriers that are parties to the contract plus the addresses for service of complaints must be provided.

(2) *Specific commodity.* The specific commodity or commodities to be transported under the contract must be identified. Vague commodity descriptions such as "grain" are not permitted, even if that is the commodity description in the contract.

(3) *Shipper identity.* The specific identity of the shipper must be disclosed. A shipper acting on behalf of another party must identify the other party.

(4) *Specific origins, destinations, transit points, and other shipper facilities.* (i) Each specific origin and destination point to and from which the contract applies must be shown. References to tariffs for identification of origins and destinations are not permitted; neither are overly broad descriptions such as "various [or all] points in Kansas."

(ii) Each port must be identified.

(iii) Each transit point must be identified.

(iv) Each shipper facility used for contract origins, destinations, transit points, or otherwise subject to the contract must be identified. "Shipper facility" also includes a reference to shipper equipment to be used in the contract for storage, for example, although the details of the arrangement need not be in the summary.

(5) *Contract duration.* (i) If applicable, the date on which the transportation service has begun under a contract before the date such contract is filed with or approved by the Commission.

(ii) The date on which the contract became applicable to the transportation services provided under the contract.

(iii) Termination date of the contract.

(iv) Provisions for optional extension.

(6) *Rail car data* provide, by number of dedicated cars, or, at the carrier's option, car days:

(i) By major car type used to fulfill the contract or contract options:

(A) Available and owned by the carrier(s) listed in paragraph (b)(1) of this section;

(B) Available and lease by the carrier(s) with average number of bad-order cars identified;

(C) (Optional) On order (for ownership or lease) along with delivery dates; and

(D) In the event a complaint is filed involving common carrier obligation and carrier furnished cars, the carrier(s)

shall immediately submit to the Commission and the complainant additional data on cars used to fulfill the challenged contract. Data shall include (by major car type used to fulfill the contract):

(A) Total bad-car orders;

(B) Assigned car obligations; and

(C) Free-running cars.

(ii) In addition to subparagraph (b)(6)(i) of this subsection if agricultural commodities (including forest products but not including woodpulp, wood chips, pulpwood or paper) the carrier must submit a certified statement:

(A) That the cumulative equipment total for all contracts does not exceed 40 percent of the capacity of carrier owned and leased cars by applicable major car type; and

(B) In the case of an agricultural shipper which originated an average 1,000 cars or more per year during the prior 3-year period by major car type, that the equipment used does not exceed 40 percent of the carrier owned or leased cars used on the average by that shipper during the previous 3 years.

(iii) Rail car data need not be furnished if:

(A) The shipper furnishes the rail cars, unless the rail cars are leased from the carrier; or,

(B) The contract is restricted to certain services which do not entail car supply.

(7) *Base rates and charges.* (i) Identify the specific base rates and/or charges. This is satisfied by identifying the specific tariff provisions which would apply without the contract.

(ii) Summarize escalation provisions.

(8) *Volume.* Identify all volume, car and/or train size requirements as set forth in the contract including:

(i) Movement type (single car, multiple car, unit train).

(ii) Minimum and actual volume requirements under the contract for the applicable period(s) (annual, quarterly, etc.).

(iii) Volume breakpoints affecting the contract.

(iv) Amount of guaranteed percentage, if any.

(9) *Special features.* Identify existence (but not the terms or amount) of special features such as transit time commitments, credit terms, discounts.

**§ 1313.11 Contract summary content—forest products and paper.**

(a) Contract summaries for forest products and paper must contain the following terms in the order named. These requirements also apply to amended contract summaries.

(b) (1) *Carrier names.* A list, alphabetically arranged, of the corporate names of all carriers that are parties to the contract plus the addresses for service of complaints must be submitted.

(2) *Specific commodity.* The specific commodities to be transported under the contract must be identified. Vague commodity descriptions such as "forest products" are not permitted, even if that is the commodity description in the contract.

(3) *Specific origins and destinations.*

(i) Each specific origin and destination point to and from which the contract applies must be shown. References to tariffs for identification of origins and destinations are not permitted; neither are vague or overly broad descriptions such as "various [or all] points in Oregon."

(ii) Each port must be identified.

(4) *Contract duration.* (i) If applicable, the date on which the transportation service has begun under a contract before the date such contract is filed with or approved by the Commission.

(ii) The date on which the contract services became applicable to the transportation services provided under the contract.

(iii) Termination date of the contract.

(iv) Provisions for optional extension.

(5) *Rail car data.* The information required under § 1313.10(b)(6) must be provided.

(6) *Base rates and charges.* (i) Identify the specific base rates and/or charges. This is satisfied by identifying the specific tariff provisions which would apply without the contract.

(ii) Summarize escalation provisions.

(iii) Identify minimum volume requirements and movement type (e.g., single car, multiple car, unit train) as required by the contract.

(7) *Special features.* Identify existence (but not the terms or amount) of special features such as transit time commitments, guaranteed car supply, minimum percentage of traffic requirements, credit terms, discounts.

**§ 1313.12 Contract summary content—port traffic (other than agricultural commodities, forest products, and paper).**

Contract summaries for other commodities or services involving a port must contain the information required in § 1313.11(b) (1), (2), (4), (6), and (7) and 1313.10(b)(6). In addition, the port shall be named and the tariff mileage rounded to the nearest 50 miles shall be disclosed (or, at the contracting parties' option, the origin and destination shall be specified). The required information shall be disclosed for each movement involving multiple origins and

destinations. These requirements also apply to amended contract summaries.

**§ 1313.13 Contract summary content—other commodities or services not involving a port.**

Contract summaries for other commodities not involving a port must contain the information required in § 1313.11(b)(1), (2), (4), and 1313.10(b)(6). Paragraph (b)(7) of § 1313.11 is applicable only to the extent that service requirements are placed in the contract. These requirements also apply to amended contract summaries.

**§ 1313.14 Informal discovery.**

(a) Prior to filing a petition for formal discovery under 49 CFR 1313.15, a petitioner shall request discovery from the carrier in the same manner and with the same data as would be presented to the Commission under § 1313.15.

(b)(1) The carrier must promptly grant or deny the request.

(2) The carrier must act in good faith in determining whether a petitioner has standing and is an affected party, defined as an actual or potential participant in the relevant market.

**§ 1313.15 Contract discovery.**

(a) *Petition.* A petition to discover contract provisions must show that petitioner is a shipper or port, has standing to file a complaint under 49 U.S.C. 10713(d)(2) (A) or (B), and that petitioner is affected by the contract. The following information will be considered in making a determination on whether to permit discovery.

(1) *Standing.* Identify the provision(s) in 49 U.S.C. 10713(d) under which petitioner has standing to file a complaint.

(2) *Affected party.* An affected party is one which is an actual or potential participant in the relevant market. The following information is relevant to making that determination.

(i) Nature and size of petitioner's business;

(ii) Relevant commodities petitioner ships or receives;

(iii) Comparisons between petitioner's commodities, actual or potential traffic patterns and serving carrier(s), with the traffic patterns and serving carrier(s) identified in the contract summary.

(iv) Showing of an ability to ship the commodity in question at a time generally simultaneous with the contract at issue.

(v) Any additional information petitioner considers appropriate to support its request.

(vi) A showing of injury is not required to satisfy this rule.

(3) *Demonstrated need.* (i) With regard to the grounds for complaint

under 49 U.S.C. 10713(d)(2)(B), the demonstrated need test does not apply to agricultural commodity contracts (excluding forest products and paper).

(ii) A petitioner seeking disclosure of non-agricultural contract information must show that the contract terms it seeks are relevant to its potential challenge to the contract.

(iii) As car data is published in the contract summary, a petition for further disclosure on the basis that the contract may impair the contracting carrier's common carrier obligation must establish a nexus between the information sought and the common carrier obligation. Before information regarding special features will be disclosed, a petitioner must show how the special feature or certain forms of that special feature could impair the contracting carrier's common carrier obligation. On receiving such a petition, the carrier must furnish to the petitioner and the Commission the data required by § 1313.10(b)(6)(i)(D).

**§ 1313.16 Procedures for contract discovery and complaints.**

(a) *Complaints, discovery petitions, replies, and appeals.* (1) Discovery petitions and/or skeletal complaints must be filed no later than the 18th day after the contract and summary are properly filed.

(2) Petitions must note on the front page "Petition for Discovery of Rail Contract" and note the contract and amendment numbers.

(3) A skeletal complaint as required under subparagraph (b) of this section must accompany the petition.

(4) Petitioner must certify that copies of the petition and complaint have been sent to the contracting carrier(s) either by hand, express mail, or other overnight delivery service the same day as filed at the Commission. Replies shall be served in the same manner on complainant/petitioner.

(5) Replies to the petition are due within 5 days from the date of filing of the petition and in no event later than noon on the 23rd day following filing of the contract.

(6) An original and 6 copies of the petition, skeletal complaint and replies plus 2 transmittal letters must be filed with the Commission in an envelope labeled "Suspension/Special Permission Board—Confidential Contract Material."

(7) An appeal of a Suspension/Special Permission Board's decision must be made in accordance with 49 CFR 1132.2, subject to the following:

(i) An appeal must be received within 2 days of the Board's decision (anticipated by day 26 after the contract

filing date), but in no event later than the 28th day after the contract filing date.

(ii) The appeal shall be filed with the Suspension/Special Permission Board for handling and will be considered by the entire Commission.

(iii) Telegraphic notice or its equivalent must be given to the opposing party.

(iv) Replies to the appeal must be received within one day after the appeal is filed.

(8) *Protective order*—If confidential contract data or data disclosed pursuant to § 1313.15, 1313.16, or 1313.17 are filed with the Commission in a complaint, petition, reply or other pleading, the party filing these data should submit them as a separate package, clearly marked on the outside "Confidential Material Subject to Protective Order." The order in paragraph (a)(9) of this section applies to the parties specified in the order who receive confidential information through proceedings before the Commission or through informal discovery.

(9) *Order*. Petitioner and carriers, and their duly authorized agents agree to limit to the discovery/complaint proceeding involving the contract, the use of contract information or other confidential commercial information which may be revealed in the contract, the complaint, reply, or any other pleading relating to the contract. This agreement shall be a condition to release of any contract term by a petitioner/complainant and shall operate similarly on a carrier in possession of confidential information which may be contained in a complaint, petition for discovery, or request for informal disclosure. Any information pertaining to parties to the contract, or subject to the contract (including consignors, consignees and carriers), or pertaining to the terms of the contract, or relating to the petitioner's/complainant's confidential commercial information, must be kept confidential. Neither the information nor the existence of the information shall be disclosed to third parties, except for: (a) Consultants or agents who agree, in writing, to be bound by this regulation; (b) information which is publicly available; (c) information which, after receipt, becomes publicly available through no fault of the party seeking to disclose the information after it has become publicly available, or is acquired from a third party free of any restriction as to its disclosure. The petitioner/complainant or carrier must take all necessary steps to assure that the information will be kept confidential by its employees and agents. No copies

of the contract terms or other confidential information are to be retained by the parties not originally privy to the data subsequent to the termination of the proceeding or the expiration of Commission jurisdiction under 49 CFR 1313.2.

(b) (1) *Complaint proceedings, complainants and replies*. On receipt of a skeletal complaint by the 18th day after the contract filing date, a complaint proceeding will be instituted to extend this Commission's jurisdiction to 60 days after the contract filing date regardless whether a petition for discovery is filed or approved. The decision will provide for automatic dismissal of the proceeding and approval of the contract if complainant(s) fail to submit the case-in-chief by the due date established in subparagraph (b)(5) of this section.

(2) The skeletal complaint must contain the correct, unabbreviated names and addresses of the complainant(s) and defendant. The complainant must set out the statutory provisions under which it has standing to file a complaint.

(3) If discovery is granted, the carrier must furnish the required information by the 1st working day after the Commission issues a final decision.

(4) Upon institution of a complaint proceeding, approval of the contract is postponed to 60 days after the contract filing date or until the Commission issues a decision approving the contract, if earlier.

(5) The amended complaint and case-in-chief are due 39 days after the filing of the contract.

(6) Replies of the carrier defendant(s) are due 46 days after the filing of the contract.

#### § 1313.17 Grounds for contract review and complaints.

(a) Within 30 days of the contract filing date, the Commission may, on its own motion or on complaint, begin a proceeding to review the contract. Review can be based only on allegation of violations as described in paragraph (b) of this section.

(b) A contract may be reviewed only on the following grounds:

(1) In the case of a contract, other than a contract for the transportation of agricultural commodities (including forest products and paper), a complaint may be filed:

(i) By a shipper only on the grounds that the shipper individually will be harmed because the proposed contract unduly impairs the ability of the contracting carrier to meet common carrier obligations under 49 U.S.C. 11101; or

(ii) By a port on the grounds that the port individually will be harmed because the proposed contract will result in unreasonable discrimination against the port.

(2) In the case of a contract for the transportation of agricultural commodities (including forest products and paper), in addition to the grounds for a complaint described in paragraph (b)(1)(i) of this section, a complaint may be filed on the grounds that the shipper individually will be harmed because:

(i) the rail carrier(s) unreasonably discriminated by refusing to enter into a similar contract with the shipper for rates and services for the transportation of the same type of commodity under similar conditions to the contract at issue and that the shipper was ready, willing, and able to enter into a such a contract at a time essentially contemporaneous with the period during which the contract was offered; or

(ii) The proposed contract constitutes a destructive competitive practice.

(3) "Unreasonable discrimination" as used in these rules means, when applied to shippers of agricultural commodities (including forest products and paper), that the railroad has refused to enter into a contract with the shipper for rates and services for the transportation of the same type of commodity under similar conditions to the contract at issue, and that the shipper was ready, willing, and able to enter into such a contract at a time essentially contemporaneous with the period during which the contract at issue was offered; and, when applied to a port, has the same meaning as the term has under 49 U.S.C. 10741.

(4) The definitions for "agricultural commodities," "forest products," and "paper" will be decided on a case-by-case basis.

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### 50 CFR Part 17

#### Endangered and Threatened Wildlife and Plants; Determination of Endangered Status for *Eryngium constancei* (Loch Lomond Coyote-Thistle)

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule.

**SUMMARY:** The Service determines *Eryngium constancei* (Loch Lomond coyote-thistle) to be an endangered species. This plant is restricted to the bed of a 7-acre vernal lake near the mountain community of Loch Lomond in southern Lake County, California.

Potential dredging and filling of this seasonal wetland threatens the species with extinction. To a lesser extent, off-road vehicle (ORV) use and trash dumping threaten the species. Moreover, routine highway maintenance adjacent to the vernal lake and trampling of the lake bed by hikers impact the plant and its habitat. This final rule will implement the full protection provided by the Endangered Species Act of 1973, as amended.

**DATE:** The effective date of this rule is January 22, 1987.

**ADDRESS:** The complete file for this rule is available for inspection, by appointment, during normal business hours at the Regional Office, U.S. Fish and Wildlife Service, Lloyd 500 Building, 500 NE Multnomah Street, Suite 1692, Portland, Oregon 97232.

**FOR FURTHER INFORMATION CONTACT:** Mr. Wayne S. White, Chief, Division of Endangered Species, at the above address [503/231-6131 or FTS 429-6131].

#### SUPPLEMENTARY INFORMATION:

##### Background

*Eryngium constancei* (Loch Lomond coyote-thistle), a perennial herb of the parsley family, annually produces slender, weak scapes (leafless flowering stalks) up to 30 centimeters (12 inches) in height from its over-wintering rootstock (Sheikh 1978 and 1983). The basal leaves, divided by septa (internal partitions), range from 10 to 20 centimeters (4 to 8 inches) in length. Slender petioles, 8 to 12 centimeters (3 to 5 inches) in length and usually longer than the leaf blade, bear diminutive spines. A dense "down" of minute hairs, unique to *Eryngium constancei*, covers the leaves and especially the scapes. This character together with the species' sparse flowers distinguish *Eryngium constancei* from its closest relative, *Eryngium aristulatum* var. *aristulatum*, and all other species of western North American *Eryngium* (Sheikh 1978 and 1983).

This species was first collected by Robert Hoover in 1941. M. Yusuf Sheikh and Lincoln Constance recollected *Eryngium constancei* from the vernal lake near the community of Loch Lomond in southern Lake County, California in 1973. Later Sheikh (1983) described *Eryngium constancei* along with two other *Eryngium* taxa. Sheikh, as part of his doctoral study completed in 1978, intensively searched for and failed to discover additional populations of the plant at other localities. Subsequent searches made in 1984 by two botanists employed by the State of California did not reveal any new populations of the plant.

*Eryngium constancei* grows abundantly within the borders of the meadow-like bed of the Loch Lomond lake at an elevation of 2,800 feet (853 meters). Cabins and a paved road (State Route 175) largely encircle the southern and eastern sides of the lake bed. A forest of ponderosa pine (*Pinus ponderosa*) and California black oak (*Quercus kelloggii*) surrounds the periphery of the lake. Plants associated with the coyote-thistle on the vernal lake bed include *Cuscuta howelliana* (Boggs Lake dodder), *Eleocharis* (spikerush), *Downingia* (downingia), *Gratiola ebracteata* (hedge hyssop), *Lilaea scilloides* (flowering quillwort), *Minulus tricolor* (three-colored monkeyflower), *Plagiobothrys* (alloarya), and two Federal candidate species, *Navarretia pauciflora* (few-flowered navarretia) and *Navarretia plieantha* (many-flowered navarretia). The latter species is listed as endangered by the State of California Department of Fish and Game (CDFG). The soil of the lake bed consists of a fine, powdery, volcanic, silty clay. The terrain about the lake to the south and west generally faces the northeast and attains an elevation of 3,300 feet (990 meters). The unusual combination of edaphic (soil-related), topographic, and hydrologic features of the vernal lake and its watershed may explain the unique presence of the species at Loch Lomond.

On December 15, 1980, the Service published a revised notice of review for plants in the *Federal Register* (45 FR 82508). *Eryngium constancei*, an unpublished new species (see Sheikh 1978), was included in this notice as a category-1 species. Category 1 includes taxa for which the Service has sufficient biological information to support proposing to list as endangered or threatened. After Sheikh (1983) published the description of this plant, the Service reevaluated the biological information supporting the listing of *Eryngium constancei*. The species was moved into category 2 (includes species for which information indicates that listing is possibly appropriate, but for which further information is required to support a proposal) in 1983 (48 FR 53650) due to the absence of any perceived threat to the species at the time and because data from outside sources had not yet been fully analyzed. In the *Federal Register* of August 1, 1985 (50 FR 31187), the Service published an emergency rule listing *Eryngium constancei* as an endangered species because: (1) Significant portions (15 percent) of this species' only known habitat had been adversely modified, (2)

protection provided under laws and regulations did not not preclude modification of the remainder of the vernal lake, and (3) field searches in 1984 confirmed no new populations of this plant at other sites in the area. On March 26, 1986, the Service proposed the Loch Lomond coyote-thistle as an endangered species (51 FR 10412) prior to the expiration of the emergency rule on March 29, 1986. The Service now determines this plant to be endangered with the publication of this final rule.

#### Summary of Comments and Recommendations

In the March 26, 1986, proposed rule (51 FR 10412) and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final decision on the proposed rule. Appropriate State agencies, county governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. Newspaper notices were published in the *Oakland Tribune* and *Santa Rosa Press-Democrat* on April 17, 1986, and the *San Francisco Examiner* on April 18, 1986.

Eight comments were received during the open comment period: one from a private individual, two from conservation organizations, two from other Federal agencies, and three from State and local government agencies. Five comments expressed support for listing and three offered no position. CDFG, one of the five commenters voicing support for listing, concurred with the Service regarding the desirability of not designating critical habitat at this time. In its comment letter, CDFG noted that shortly the plant will be proposed for listing as an endangered species by the California Fish and Game Commission. In June 1986, the California Fish and Game Commission did propose *Eryngium constancei* for addition to the State list.

In 1984, the owner of the species' habitat dredged and filled about 15 percent of the lake bed. One commenter claimed that *Eryngium constancei* no longer grew in this portion of the lake bed. The Service responds that a survey by Lake County biologists in late May revealed the presence of small, widely scattered plants in the disturbed area.

The California Department of Transportation (Caltrans), although supporting listing, commented that occasional culvert replacement and associated routine road maintenance for State Route 175 will impact a few individuals of *Eryngium constancei*. Because such activities would necessitate formal section 7 consultation

with the Federal Highway Administration, Caltrans recommended the final rule acknowledge the need for highway maintenance. The Service recognizes that listings and subsequent section 7 consultations may affect activities planned by State agencies via the authorities and funding provided by other Federal agencies. Nevertheless, the Service has found that modifications or alternative designs typically allow projects to proceed while providing adequate protection for the species. Specific procedures for conflict resolution are provided in sections 7 and 10(a) of the Act.

One comment from an owner of property within the watershed of the vernal lake near Loch Lomond expressed neither support nor opposition to the listing. The commenter indicated, however, that no actions should be undertaken favoring *Eryngium constancei* that limit the landowner's use of the property. The commenter further noted that the lake bed property, which includes a resort, has had a long history of recreational use and that the community of Loch Lomond is part of a rapidly growing area providing urban services and homesites. The Service responds that a recovery plan will be prepared specifying all actions necessary to preserve, enhance, and eventually recover the Loch Lomond coyote-thistle. These tasks must be based on the best available biological data. The Service will seek comments from all affected parties during the development of the recovery plan for *Eryngium constancei* and will incorporate pertinent comments in the final plan. The Service recognizes that under certain circumstances the presence of an endangered plant species may affect a private landowner's planned activities, if such actions require Federal funding or approval. Under the section 7 process, however, planned activities can proceed as long as plans or alternative designs provide sufficient protection for the species.

Although the Service acknowledges that impacts may result to certain activities as a result of listing a species as endangered, the Service cannot consider such impacts in making a decision on a listing proposal. The Service may base its final listing decision solely on "the best available scientific and commercial information regarding a species' status without reference to possible economic or other impacts of such determination" (50 CFR 424.11(b) (1985)). Therefore, the potential impacts raised by Caltrans and the private property owner were not considered by the Service in reaching a final decision on this listing.

#### Summary of Factors Affecting the Species

After a thorough review and consideration of the best scientific and commercial information available, the Service has determined that *Eryngium constancei* should be classified as an endangered species. Procedures found at section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR Part 424) promulgated to implement the listing provisions of the Act were followed. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in section 4(a)(1). These factors and their application to *Eryngium constancei* Sheikh (Loch Lomond coyote-thistle) are as follows:

##### A. The Present or Threatened Destruction, Modification, or Curtailment of Its Habitat or Range

The predominant threat facing *Eryngium constancei* is the action planned by the landowner of the species' habitat to dredge and fill Loch Lomond lake, the only known habitat for this species. The portion of the lake bed dredged and filled in 1984 contained only a few individuals of *Eryngium constancei* in the summer of 1985. After the landowner graded the disturbed portion of the bed to restore its original topography, the area was reseeded with the coyote-thistle in late 1985. Lake County biologists observed small, widely scattered individuals in the rehabilitated area in late May 1986. The species, which abundantly covers the undisturbed portion of the lake bed, flourished in the disturbed area prior to the dredge and fill action in 1984. Consequently, any additional dredging and filling of the vernal lake basin would fill part of the lake, deepen the remaining portion, and would likely result in the extinction of the species.

Although in the emergency rule the Service noted that approximately 85 percent of the lake bed remains habitat for the plant, an inspection of the vernal lake on September 16, 1985, revealed that ORV use has impacted nearly all of this portion of the lake bed. Moreover, hikers walking on the lake bed and routine highway maintenance adjacent to the lake impact the plant and its habitat. Trash dumped on the lake basin further threatens the species.

A shallow manmade ditch dug from the approximate center of the lake empties through the outflow of the lake, Cole Creek, to the north. This ditch may reduce the potential storage of the Loch Lomond lake, resulting in a more

ephemeral, shallow body of water, which would otherwise flood the cabins and road surrounding the lake in the winter and spring. Although it is unknown whether the construction of this ditch directly impacted *Eryngium constancei* in the past, the presence of this ditch may reduce the size and quality of the habitat for the species.

Prior to the purchase of this site by the current owner, the Loch Lomond vernal lake or lake bed was used by the adjoining resort for baseball (Crane and Malloch 1985), softball, ice skating, volley ball, horseback riding, picnicking, and camping (Frank Mattina, G.T. Enterprises, pers. comm., May 27, 1986). The Service is uncertain what effect these activities might have had on this plant or its habitat.

#### *B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes*

Not applicable to this species.

#### *C. Disease or Predation*

Although it is unknown whether grazing by livestock occurs within the lake bed, the Service believes the effects of such grazing would be negligible.

#### *D. The Inadequacy of Existing Regulatory Mechanisms*

Although *Eryngium constancei* was emergency listed as an endangered species on August 1, 1985, this rule expired on March 29, 1986. The species is not listed by the State of California at this time, although it has been formally proposed for endangered status. Moreover, because the species is restricted to privately-owned land, existing laws provide limited protection for it.

#### *E. Other Natural or Manmade Factors Affecting its Continued Existence*

None known at this time.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to make this rule final. Based on this evaluation, the preferred action is to list *Eryngium constancei* as endangered. Endangered as opposed to threatened status is appropriate because of the threat of physical alternation of the lake bed, the only known habitat for the plant, which would likely result in the extinction of *Eryngium constancei*. In addition, ORVs continue to use the lake bed and trash dumping remains a problem. Hikers trampling the lake basin and routine highway maintenance adjacent to the lake also impact the species. Critical

habitat is not being designated at this time for the reasons discussed below.

#### **Critical Habitat**

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate critical habitat at the time a species is determined to be endangered or threatened. The Service finds that determination of critical habitat is not prudent for this species at this time. Because this plant is highly vulnerable (see Factor A in "Summary of Factors Affecting the Species"), lacks Federal protection from taking on non-Federal lands, and is easily accessible, this finding is appropriate. Listing of the species as endangered publicizes its rarity and can make the plant attractive to collectors of rare plants, researchers, and vandals. Publication of precise maps and descriptions of critical habitat in the **Federal Register** would make this herb even more vulnerable and could contribute to the decline of the species.

#### **Available Conservation Measures**

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. Such actions are initiated by the Service following listing. The protection required of Federal agencies and the prohibition against collecting are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR Part 402 (see revision at 51 FR 19926; June 3, 1986). Section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service. The only Federal involvement

anticipated with respect to the listing of *Eryngium constancei* is the issuance of dredge and/or fill permits (33 CFR Parts 323 and 325) by the U.S. Army Corps of Engineers for the vernal lake at Loch Lomond and the funding by the Federal Highway Administration of any maintenance activities for State Route 175 affecting the species.

The Act and its implementing regulations found at 50 CFR 17.61 and 17.62 set forth a series of general trade prohibitions and exceptions that apply to all endangered plants. All trade prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.61, apply. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to import or export any endangered plant, transport it in interstate or foreign commerce in the course of a commercial activity, sell or offer it for sale in interstate or foreign commerce, or remove it from areas under Federal jurisdiction and reduce it to possession. Certain exceptions can apply to agents of the Service and State conservation agencies. The Act and 50 CFR 17.62 also provide for the issuance of permits to carry out otherwise prohibited activities involving endangered plant species under certain circumstances. International and interstate trade in *Eryngium constancei* is not known to exist. The Service anticipates few trade permits would ever be sought or issued because the species is not common in cultivation or in the wild. Requests for copies of the regulations on plants and inquiries regarding them may be addressed to the Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, DC. 20240 (703/235-1903).

#### **National Environmental Policy Act**

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to Section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

BILLING CODE 4310-SS-M

#### 50 CFR Part 17

#### Endangered and Threatened Wildlife and Plants; Determination of Threatened Status for the Ringed Sawback Turtle (*Graptemys Oculifera*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

**SUMMARY:** The Service determines the ringed sawback turtle (*Graptemys oculifera*) to be a threatened species. This basking turtle is found only in the Pearl River system of Mississippi and Louisiana. It seems to prefer wide sand beaches and a narrow channel with at least moderate current, and characteristically spends many hours basking in open sunshine on logs and debris over deep water. Some of its former habitat has been modified by reservoir construction and flood control, while other areas are marginal habitat due to water quality degradation and corresponding loss of its molluscan food supply. Most of the remaining habitat is threatened by flood control projects. This determination implements the needed protection of the Endangered Species Act of 1973, as amended.

**EFFECTIVE DATE:** The effective date of this rule is January 22, 1987.

**ADDRESSES:** The complete file for this rule is available for inspection, by appointment, during normal business

hours at the Endangered Species Field Office, U.S. Fish and Wildlife Service, Jackson Mall Office Center, Suite 316, 300 Woodrow Wilson Avenue, Jackson, Mississippi 39213.

**FOR FURTHER INFORMATION CONTACT:** Mr. Dennis B. Jordan at the above address (601/965-4900 or FTS 490-4900).

#### SUPPLEMENTARY INFORMATION:

##### Background

The ringed sawback turtle was described by Baur in 1890 as *Malacoclemmys oculifera* and renamed *Graptemys oculifera* in 1893. The type specimens were a group of turtles acquired for the United States National Museum by Gustave Kohn and reportedly came from Mandeville, Louisiana, and Pensacola, Florida (Cagle 1953). On the basis of a 1900 statement to this effect by George E. Beyer, then Curator of the Tulane Museum, Cagle said they were probably purchased in the French Quarter Market in New Orleans, Louisiana. Due to the absence of ringed sawback turtles from collections in southern Alabama and Florida, Cagle considers the Pensacola record to be erroneous, although Kohn had accepted the locality data of the individual from whom the purchase was made. The Mandeville record is probably from the Pearl River, 26 miles to the east, since there is no suitable habitat near Mandeville.

The ringed sawback turtle is a small turtle having a yellow ring bordered inside and outside with dark olive-brown on each shield of the upper shell or carapace and a yellow undershell or plastron. The head has a large yellow spot behind the eye, two yellow stripes from the orbit backwards and a

characteristic yellow stripe covering the whole lower jaw (Cagle 1953). Males grow to 4 inches (10 centimeters) and females to 7 inches (18 cm) in plastron length.

The ringed sawback turtle's habitat is typically riverine with a moderate current and numerous basking logs. The river must be wide enough to allow sun penetration for several hours. Nesting habitat consists of large, high sand and gravel bars adjacent to the river. Good water quality is necessary for the production of snails and other mollusks on which the ringed sawback turtle feeds. This basking turtle is not able to inhabit large lake areas or polluted waters.

Information from herpetologists and museum curators reflecting several decades of sustained collecting effort, as well as its own field studies, provided the Service with strong evidence that this species is restricted to the main channels of the Pearl and Bogie Chitto Rivers of Mississippi and Louisiana. No survey respondent had recorded the ringed sawback turtle from outside this river system. Cagle (1953) examined 51 specimens taken from unspecified sites on the Pearl River and considered the ringed sawback turtle to be restricted to the Pearl and Bogie Chitto Rivers, noting that it was absent from streams to the east. It occurs in most reaches of the Pearl River upstream to Neshoba County, Mississippi (Cliburn 1971), and in the Bogie Chitto River upstream to Franklinton, Louisiana (James Dobie, Auburn University, personal communication). The Amite and Tangipahoa Rivers to the west appear to have suitable habitat but, when searched, have not produced any

specimens of the ringed sawback turtle. Cliburn (1971) collected 37 representatives of this species in his study of *Graptemys* in Mississippi, and found the species in the Pearl River up to Neshoba County. He concluded that, in Mississippi, it was restricted to the mainstem Pearl River.

McCoy and Vogt (1980) established 14 observation stations in the Pearl River system and one in the Wolf River, a small coastal stream to the east. They found no turtles of this species in the Wolf River. In the Pearl River they observed ringed sawback turtles at 8 stations, with 20 or more individuals observed at two of these stations. These two stations, representing population centers, are more than 100 river miles (rmi) or 161 river kilometers (rkm) apart. McCoy and Vogt (1980) established three trap sites at which they caught only 3 ringed sawback turtles in 15 trap days. At these same stations, Cliburn (1971) had captured 21 individuals. McCoy and Vogt (1980) reported one sight record and one other casual observation of this species in smaller tributary streams of the Pearl River, but the Service considers these reports to be very doubtful in light of its own survey results.

Service biologists in 1984 and 1985 surveyed various river reaches in the Pearl River from Edinburg, Mississippi, downstream. In one river reach upstream they identified 75 percent of the *Graptemys* as *G. oculifera*, which compares favorably with Cliburn's collections. Comparing Cliburn's data with the Service survey suggests that the ringed sawback turtle population has remained stable in the Pearl River above Ross Barnett Reservoir and in a reach of the Pearl River near Monticello and Columbia. The Service survey below Ross Barnett Reservoir observed only 41 *Graptemys* in a 7-mile (11.3-km) reach, with most of these turtles large enough to be adults. Cagle's (1953, 1954) studies indicated a population comprised of 80 percent juveniles. Based on this comparison, the population near Jackson appears to be declining. Service survey of the Pearl River at Columbia found a river reach almost devoid of any turtle species. While the ringed sawback turtle is still abundant at some locales, it is almost extirpated from some other river reaches, with little evidence of a healthy population in those areas.

Virtually all the land adjacent to the Pearl and Bogue Chitto Rivers is privately owned. The National Park Service administers public land on a short river reach of the Pearl above Ross Barnett Reservoir. The Service administers Bogue Chitto National

Wildlife Refuge, consisting of several thousand acres at the confluence of the Pearl and Bogue Chitto Rivers. Pearl River Valley Management District controls Ross Barnett Reservoir, the only impoundment on the Pearl River.

The Service published a notice of review of the status of twelve species of turtles, including the ringed sawback turtle, in the *Federal Register* on June 6, 1977 (42 FR 28903). Seventy percent of those responding to the notice recommended listing the ringed sawback turtle as threatened. One agency commented that the available information did not indicate the ringed sawback warranted protection. Another agency stated that it considered the most significant threat to basking turtles to be wanton shooting, but did not address the ringed sawback specifically.

#### Summary of Comments and Recommendations

In the January 21, 1986, proposed rule (51 FR 2741) and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final rule. Appropriate State agencies, county governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. Newspaper notices were published on February 7, 1986, in the *Clarion Ledger* and the *Jackson Daily News*; on February 8, 1986, in the *Hattiesburg American*; on February 9, 1986, in the *Bogalusa Daily News*; and on February 10, 1986, in the *Times Picayune*, and all notices invited general public comment. A public hearing was not requested. The Mississippi Department of Wildlife Conservation, one professional biologist, one professional organization, and one interested individual provided comments in support of the proposal. One professional biologist provided information on a closely related species without taking a position on the proposal. No other comments were received.

#### Summary of Factors Affecting the Species

After a thorough review and consideration of all information available, the Service has determined that the ringed sawback turtle (*Graptemys oculifera*) should be classified as a threatened species.

Procedures found at section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR Part 424) promulgated to implement the listing provisions of the Act were followed. A species may be determined

to be an endangered or threatened species due to one or more of the five factors described in Section 4(a)(1). These factors and their application to the ringed sawback turtle (*Graptemys oculifera*) are as follows:

A. *The present or threatened destruction, modification, or curtailment of its habitat or range.* The survival of the ringed sawback turtle is presently threatened by habitat modification for flood control and navigation. The ringed sawback turtle must have structures on which it can bask and be safe from predation, and it must have suitable nesting habitat. These structures are generally logs, snags, and other debris commonly occurring in streams. Navigation and flood control measures often require the removal of logs, snags, and river bars to facilitate water flows. Flood control projects also contribute to sedimentation in downstream river reaches. This is especially true where flood control measures consist of floodplain clearing and channelization of tributary streams to facilitate water flow. Increased turbidity and siltation impact the snails and other mollusks on which the ringed sawback turtle feeds.

The ringed sawback turtle has been impacted by habitat modification in 21 percent of the historic range in the Pearl River by construction of Ross Barnett Reservoir, 30 rmi (48 rkm), West Pearl channel to Bogalusa, 58 rmi (93 rkm), and the floodplain clearing at Jackson, Mississippi, 8 rmi (13 rkm) (U.S. Army Corps of Engineers 1983). Projects planned or authorized by the Corps of Engineers (Corps) will impact up to 28 percent of the remaining Pearl River habitat. These planned or authorized projects are: (1) a navigation channel in the East Pearl up to Picayune (about 30 rmi or 48 rkm); (2) a channel 5 feet (ft) (1.5 meters (m)) deep from Jackson to Carthage 100 rmi (161 rkm); (3) a channel 2 ft (0.6 m) deep from Carthage to Edinburg, 28 rmi (45 rkm); (4) Shoccoe Dam (up to 70 rmi or 113 rkm); and (5) a channel 3200 ft (1000 m) long through the Old Jackson Sanitary Landfill. In addition, the Corps has flood control studies on-going or planned for Pearl River reaches at Slidell, Louisiana, and Pearlinton, Morgantown, Monticello, Foxworth, Columbia, Carthage, and Leake County, Mississippi. A channel is authorized for 100 rmi (161 rkm) of the Bogue Chitto River and flood control studies are planned for Bogue Chitto River reaches at Franklinton, Louisiana, and Tylertown, Mississippi. This authorized project would eliminate the Bogue Chitto River as suitable habitat for the ringed sawback turtle. The Corps has flood control studies on-going or

planned for Canal A at Pearl-Flowood, Caney Creek, Three-Mile Creek, Dry Creek, Webb Creek, and Sellers Creek in the Pearl River basin.

The U.S. Soil Conservation Service (1983) has constructed 25 watershed structures and 49.5 mi (80 km) of drainage ditches in the Pearl River basin, and is continuing this type of construction. These projects impact the ringed sawback turtle by increased sedimentation from drainage ditches. Also, where these ditches drain agricultural fields, the runoff of pesticides contributes to water quality degradation.

Legislation has been introduced to allow local funding of flood control measures, including the Edinburg and Shoccoe dams. The City of Jackson has accomplished some flood plain clearing and is studying the feasibility of a parkway levee that would contain flood waters below Ross Barnett Reservoir. County supervisors throughout the Pearl River basin have proposed numerous flood control measures.

Impoundments obviously eliminate the ringed sawback turtle's required habitat by inundation. Flood control and navigation channel modifications in ringed sawback turtle habitat may eliminate basking sites and nesting sites, change water flows, harm the food source, and increase turbidity and siltation to the detriment of the ringed sawback turtle. Channel modification in tributary streams can increase turbidity and siltation in the Pearl River and impact snails and mollusks. Authorized and planned projects, sand and gravel dredging, and the result of navigation and flood control studies could modify most, if not all, of the known ringed sawback turtle habitat.

B. *Overutilization for commercial, recreational, scientific, or educational purposes.* Wanton shooting (use of the basking turtles for target practice) and collecting pose a threat to the ringed sawback turtle. This threat becomes more serious as the population declines owing to impacts of habitat alteration. The threat from collecting for scientific and educational purposes is declining. In previous years, relatively large numbers of ringed sawback turtles were collected for museums. A changing awareness on the part of many scientists seems to be reducing this threat. Collecting for commercial purposes is a more serious threat. This very attractive turtle is advertised for retail sale at \$28 each. The turtle is quite vulnerable to knowledgeable collectors, who can seriously decimate a local population in a short period of collecting.

C. *Disease and predation.* There is no known threat from disease. While this species is subject to some natural predation, the only serious direct threat is wanton shooting as discussed in Factor "B" above. The alteration of habitat as discussed in Factor "A" could make the ringed sawback turtle more susceptible to natural predators.

D. *The inadequacy of existing regulatory mechanisms.* The ringed sawback turtle is listed as endangered under Mississippi Department of Wildlife Conservation Public Notice 2408. Because of this State protection, the Federal Lacey Act applies to the taking and transportation of the ringed sawback turtle from Mississippi. Louisiana does not recognize the ringed sawback turtle as a protected species, thereby increasing the difficulty of enforcing the Lacey Act because the capture locale must be proven. Both states require permits to collect the ringed sawback turtle for scientific purposes, but compliance is extremely difficult to enforce. The loss or alteration of habitat is the greatest threat to the ringed sawback turtle, but previous regulations did not require consideration of this species during project planning. Listing under the Endangered Species Act provides additional protection through sections 7 and 9 of the Act and through the recovery process.

E. *Other natural or manmade factors affecting its continued existence.* Water quality degradation also poses a serious threat to the ringed sawback turtle. This impact includes bioaccumulation of toxic materials and the loss of food organisms. The total effects of pollution and siltation upon the ringed sawback turtles themselves have not been documented. However, the effects on snails and other mollusks are well documented, and this group of organisms is the primary food source of the ringed sawback turtle. Thus, water quality degradation can reduce or eliminate the turtle's food supply. The reduced population of ringed sawback turtles in river reaches that have otherwise suitable habitat, but are polluted from some source, tends to support this conclusion.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to make this rule final. Based on this evaluation, the preferred action is to list the ringed sawback turtle as threatened. A threatened species is any species which is likely to become an endangered species within the foreseeable future

throughout all or a significant portion of its range. Threatened status was chosen because, even though the Pearl River population of ringed sawback turtles appears presently stable, the potential modification of the Pearl River for flood control appears to pose serious threats to the species' survival. Endangered status is not appropriate because the species is not faced with imminent extinction, unless the Pearl River is modified greatly. Critical habitat is not being proposed for the reasons discussed below.

#### Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate critical habitat at the time a species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not prudent for this species at this time. There are two good population centers in the Pearl River and to designate these as critical habitat would make this species more susceptible to collectors as discussed under Factor "B" in the "Summary of Factors Affecting the Species." Publication of critical habitat descriptions would make this species even more vulnerable and increase law enforcement problems. All involved parties will be notified of the location and importance of protecting this species' habitat. Protection of this species' habitat will be addressed through the recovery process and through the section 7 jeopardy standard. Therefore, it would not be prudent to determine critical habitat for the ringed sawback turtle at this time.

#### Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. Such actions are initiated by the Service following listing. The protection required of Federal agencies and the prohibitions against taking and harm are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species

that is listed as endangered or threatened and with respect to its critical habitat if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR Part 402 (see revision at 51 FR 19926; June 3, 1986). Section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Expected Federal involvement with the ringed sawback turtle includes U.S. Army Corps of Engineer projects for flood control and navigation, activities permitted by the Corps, and Soil Conservation Service (SCS) watershed projects. The lower Pearl River requires maintenance dredging for navigation. Corps projects and plans for flood control include significant Pearl River reaches from Edinburg to the Mississippi coast and most of the Bogue Chitto River in Louisiana and Mississippi. The SCS has at least 10 watershed projects planned or in operation within the Pearl River basin.

The Act and implementing regulations found at 50 CFR 17.21 and 17.31 set forth a series of general prohibitions and exceptions that apply to all threatened wildlife. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to take, import or export, ship in interstate commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any listed species. It also is illegal to

possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. Certain exceptions apply to agents of the Service and State conservation agencies.

Permits may be issued to carry out otherwise prohibited activities involving threatened wildlife species under certain circumstances. Regulations governing permits are at 50 CFR 17.22, 17.23, and 17.32. Such permits are available for scientific purposes, to enhance the propagation or survival of the species, and/or for incidental take in connection with otherwise lawful activities. For threatened species, there are also permits for zoological exhibition, educational purposes, or special purposes consistent with the purposes of the Act. In some instances, permits may be issued during a specified period of time to relieve undue economic hardship that would be suffered if such relief were not available.

#### National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

# Proposed Rules

Federal Register

Vol. 51, No. 246

Tuesday, December 23, 1986

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 71

[Airspace Docket No. 86-ASO-25]

### Proposed Alteration of Federal Airways—GA and AL

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposes to amend the descriptions of two Federal Airways in the states of Georgia and Alabama to correct a potentially confusing situation that exists with two unrelated airway segments.

**DATES:** Comments must be received on or before January 8, 1987.

**ADDRESSES:** Send comments on the proposal in triplicate to: Director, FAA, Southern Region, Attention: Manager, Air Traffic Division, Docket No. 86-ASO-25, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga 30320.

The official docket may be examined in the Rules Docket, Weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

**FOR FURTHER INFORMATION CONTACT:** William C. Davis, Airspace and Air Traffic Rules Branch (ATO-230), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-9250.

### SUPPLEMENTARY INFORMATION: Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 86-ASO-25." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

#### Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3484.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

#### The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to amend Federal Airways V-311 and V-168. In concert with the FAA's policy of

eliminating alternate airways, Federal Airway V-51W between Corce Intersection, GA, and Hinch Mountain, TN, was renumbered V-311. That action resulted in V-311 having two starting and two ending points that are logically unrelated. This action proposes to resolve this potentially confusing situation by extending V-168 from La Grange, GA, along one of the unrelated V-311 segments to Wiregrass, AL. V-311 would therefore no longer exist between these two points. Section 71.123 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6B dated January 2, 1986.

The FAA has determined that his proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### List of Subjects in 14 CFR Part 71

Aviation safety, VOR Federal Airways.

#### The Proposed Amendment

#### PART 71—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

**Authority:** 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

#### § 71.123 [Amended]

2. Section 71.123 is amended as follows:

**V-311 [Amended]**

By removing the words "From Wiregrass, AL, via INT Wiregrass 002" and La Grange, GA, 191° radials; to La Grange."

**V-168 [Revised]**

From Vulcan, AL; La Grange, GA; INT La Grange 191°T(190°M) and Wiregrass, AL, 002°T(360°M) radials; to Wiregrass.

Issued in Washington, DC, on December 16, 1986.

Harold H. Downey,

*Acting Manager, Airspace—Rules and Aeronautical Information Division.*

[FR Doc. 86-28679 Filed 12-22-86; 8:45 am]

BILLING CODE 4910-13-M

**FEDERAL MARITIME COMMISSION****46 CFR Part 580**

[Docket No. 86-29]

**Filing of Service Contracts and Availability of Essential Terms**

**AGENCY:** Federal Maritime Commission.

**ACTION:** Availability of findings of no significant impact.

**SUMMARY:** The Commission has completed an environmental assessment of a proposed rule in Docket No. 86-29 and found that its resolution of this proceeding will not have a significant impact on the quality of the human environment.

**DATES:** Petitions for review are due on or before January 2, 1987.

**ADDRESS:** Petitions for review (Original and 15 copies) to: Joseph C. Polking, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573.

**FOR FURTHER INFORMATION CONTACT:** Edward R. Meyer, Office of Special Studies, 1100 L Street, NW., Washington, DC 20573, (202) 523-5835.

**SUPPLEMENTARY INFORMATION:** Upon completion of an environmental assessment, the Federal Maritime Commission's Office of Special Studies has determined that Docket No. 86-29 will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of an environmental impact statement is not required.

In Docket No. 86-29 the Commission proposes to amend its rules governing service contract recordkeeping. The proposed rule would require ocean common carriers and conferences to maintain service contract records in the United States in an organized, readily accessible manner; to identify the

location of records and recordkeeper(s); and to produce service contract records within 15 days from the date of a Commission request.

This Finding of No Significant Impact (FONSI) will become final within 10 days of publication of this notice in the *Federal Register* unless a petition for review is filed pursuant to 46 CFR 504.6(b).

The FONSI and related environmental assessment are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, DC 20573, telephone (202) 523-5725.

By the Commission,

Joseph C. Polking,

*Secretary.*

BILLING CODE 6730-01-M

**FEDERAL COMMUNICATIONS COMMISSION****47 CFR Parts 1, 61 and 69**

[CC Docket No. 86-467; FCC 86-537]

**Regulation of Small Telephone Companies**

**AGENCY:** Federal Communications Commission (FCC).

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This action initiates a rulemaking proceeding which proposes to reduce the administrative and regulatory burdens on small telephone companies. The United States Telephone Association petitioned the Commission to institute this rulemaking in order to further reduce the burdens on small telephone companies.

**DATES:** Comments due on or before January 26, 1987 and reply comments due on or before February 25, 1987.

**ADDRESS:** Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Carolyn J. Veal, Tariff Division, Common Carrier Bureau, (202) 632-6917 or Dan Grosh, (202) 632-6387.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Notice of Proposed Rulemaking*, CC Docket No. 86-467, adopted, December 4, 1986 and released December 12, 1986. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's Copy Contractor, International

Transcription Service, (202) 857-3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

**Summary of Notice of Proposed Rulemaking**

1. On February 18, 1986 the United States Telephone Association (USTA) filed a Petition for Rulemaking (USTA Petition) which requested that the Commission institute a rulemaking proceeding to reduce the administrative and regulatory burdens on small telephone companies (defined by USTA as those which serve 20,000 or fewer access lines) and to amend Part 61 of the Commission's Rules, especially with regard to the tariff support provisions in § 61.38 of the Commission's Rules, 47 CFR 61.38, as applied to interstate access tariffs.

2. USTA's Petition specifically requested that the Commission declare small local exchange carriers (LECs) non-dominant with respect to their traffic-sensitive access tariffs and accord them the streamlined regulation applicable to non-dominant carriers, that is, the tariff filings would be presumptively lawful, could be filed on 14 days' notice and need not be accompanied by extensive economic cost support data.

3. The Commission's present rules allow small telephone companies to avoid all direct access tariff filing burdens by participating in the voluntary cost and revenue pools associated with the access tariff filed by the National Exchange Carrier Association (NECA). NECA calculates and files rates based on overall pool costs of over 1200 local companies, who in turn share in pool revenues in proportion to their costs. The Commission reviews the NECA rates as it does rates in other access tariffs.

4. The Commission proposes a proposal developed by USTA which allows a small companies to qualify for reduced regulation if it files rates which in the first year use the amount of the company's most recent settlement from the NECA Pool or the company's most recent cost study. Any subsequent filing would be required to propose rates using the company's most recent cost study, most recent average schedule settlement, or the most recent average schedule rate developed by NECA. The Commission recognizes that there will be some lag in the process of rate-setting because the rates would be based on past rather than projected date, but does not anticipate any systematic bias upward since the lag should be corrected at the company's next cost study or the next average settlement

calculation. The Commission believes that such an approach will be both rate neutral, that is, reasonable since the rates are based on the company's own costs and pooling neutral, neither encouraging nor discouraging participation in the NECA pools.

5. In addition, the Commission proposes rule changes which would allow small companies to reduce the burdens of filing tariff terms and conditions. The Commission proposes to direct NECA to file a simplified access tariff for small carriers which would contain only tariff terms and conditions. A small carrier could then indicate its rates for the services it offers in a separate rate schedule filing, referring to the terms and conditions applicable to those services. The Commission believes that this further step beyond the USTA proposal should further reduce the burdens upon small carriers not only by minimizing additional administrative costs, but also by giving the carriers rate flexibility.

6. The USTA proposal only deals with the costs of access. In order to set access rates, the carrier must also calculate its demand. Because the Commission proposes to have the carriers calculate their costs based on past year costs, it also proposes to have the carriers use past demand to set access rates. This should produce a further reduction in tariff filing burdens since the carriers will not be required to project figures into the future period in which the rates will be in effect.

7. Because both the cost and demand figures should be actual figures, the issues presented by such filings should be greatly reduced. Although the rates will be somewhat inaccurate, because they would not reflect changed circumstances, filings for the next period should correct this distortion. For those reasons, the Commission proposes that small company filings which use actual past period cost and demand figures or average schedules to compute access tariff rates be considered *prima facie* reasonable. Such rates would not be suspended absent a substantial showing that the rates are unreasonable, that there would not be any practical or sufficient opportunity to correct the unreasonable rates in a subsequent filing, and that irreparable injury would result.

8. Rates based on historical costs and demand or average scheduled also would not present the concern that the rates could exceed the allowed rate of return because of faulty projections. Subsequent filings based upon current costs and demand, or revised average schedules, should automatically correct the rates. For this reason, the

Commission also proposes to eliminate the data filing requirements and the liability for automatic refunds established in Docket 84-800 for small companies that elect to use this approach.

9. In addition to the USTA proposal, as modified by USTA and as expanded above, the Commission is also proposing other approaches to reducing small telephone company burdens.

10. The Commission is proposing to further reduce the burdens on small telephone companies by reducing the frequency of access tariff filings. Currently, each company filing an access tariff is required to file new rates annually based upon studies of costs and demands for the most recent year and for the future year. The Commission proposes that small company filings be required only every other year, coinciding with the beginning of the 84-800 accounting period. Small companies would retain the option of filing revisions within the two-year period, but there would be no requirement that they do so.

11. The proposal that the small telephone companies file in alternate years is independent of whether the companies use historical costs and demand calculations as discussed above. Small companies electing to use historical costs would not be subject to automatic refund liabilities. Thus, the Commission is willing to accept comment on a longer interval between filings for those companies.

12. The Commission also believes that it is desirable to establish a threshold for treatment as a small telephone company of 50,000 lines. A threshold of 50,000 lines would conform the definition in this area with the existing 50,000 line threshold used for determining eligibility for the small company contributions from the Universal Service Fund. The Commission proposes that this threshold be applied at the study level area, rather than at the narrower exchange level or the wider holding company level, consistent with the definition in the Separations Manual for purposes of the Universal Service Fund.

13. The Commission declined to find the small telephone companies non-dominant at this time because the companies continue to have the ability and incentive to file excessive access rates.

14. This is a non-restricted notice and comment rulemaking proceeding. See § 1.1231 of the Commission's rules, 47 CFR 1.231, for rules governing permissible *ex parte* contacts.

15. The collection of information requirement contained in this proposed

rule has been submitted to the Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act. Persons wishing to comment on this collection of information requirement should direct their comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Federal Communications Commission.

16. Pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. 603, this proceeding will not, if promulgated, have a significant economic impact on a substantial number of small entities because the local exchange carriers do not qualify as small entities because they have a monopoly regarding the provision of ubiquitous access to the subscribers in their service area.

17. Pursuant to applicable procedures set forth in 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415 and 1.419, interested parties may file comments on or before January 26, 1987, and reply comments on or before February 25, 1987. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding.

#### Ordering Clause

18. Accordingly, it is ordered, that, pursuant to the authority contained in sections 2(a), 4(i), 4(j), 201-205, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 152(a), 154(i), 154(j), 201-205 and 403, a rulemaking is instituted to determine whether it would be in the public interest to reduce the administrative and regulatory burdens on small telephone companies and amend the Commission's Rules as indicated at the end of this document.

#### List of Subjects

##### 47 CFR Part 1

Communications common carrier, Practice and procedure, Petitions.

##### 47 CFR Part 61

Communications common carrier, Tariffs.

##### 47 CFR Part 69

Communications common carrier, Access charges, Reporting and recordkeeping requirements, Telephone.

Parts 1, 61, and 69 of Title 47 of the Code of Federal Regulations are proposed to be amended as follows:

#### PART 1—PRACTICE AND PROCEDURE

1. The authority citation for Part 1 would continue to read as follows:

Authority: Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

2. Sec. 1.773 is proposed to be amended by adding paragraph (a)(1)(iii) to read as follows:

**§ 1.773 Petitions for suspension or rejection of new tariff filings.**

(a) \* \* \*

(1) \* \* \*

(iii) For the purpose of this section, any tariff filing by a local exchange carrier filed pursuant to the requirements of § 61.39 will be considered prima facie lawful and will not be suspended by the Commission unless the petition requesting suspension shows that the cost and demand studies or average schedule information was not provided upon reasonable request. If such a showing is not made, then the filing will be considered prima facie lawful and will not be suspended by the Commission unless the petition requesting suspension shows each of the following:

(A) That there is a high probability the tariff would be found unlawful after investigation;

(B) That any unreasonable rate would not be corrected in a subsequent filing;

(C) That irreparable injury will result if the tariff filing is not suspended; and

(D) That the suspension would not otherwise be contrary to the public interest.

\* \* \*

**PART 61—TARIFFS**

3. The authority citation for Part 61 would continue to read as follows:

Authority: Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154.

4. Section 61.12 is proposed to be amended by redesignating existing paragraphs (e) and (f) as new paragraphs (f) and (g), and adding a new paragraph (e) to read as follows:

**§ 61.12 Carriers.**

\* \* \*

(e) *Local Exchange Carrier.*

A telephone company that provides telephone exchange service as defined in section 3(r) of the Communications Act of 1934.

\* \* \*

5. Section 61.33 is proposed to be amended by redesignating existing paragraphs (b)-(d) as paragraphs (c)-(e), revising newly redesignated paragraph (c) new paragraph (b) to read as follows:

**§ 61.33 Letters of transmittal.**

\* \* \*

(b) In addition to the requirements set forth in (a), any local exchange carrier choosing to file an Access Tariff under

§ 61.39 must include in the transmittal (1) a summary of the filing's basic rates, terms and conditions; (2) a statement concerning whether any prior Commission facility authorization necessary to the implementation of the tariff has been obtained; and (3) a statement that the filing is made pursuant to § 61.39.

(c) In addition to the requirements set forth in (a) and (b), the letter of transmittal must specifically reference by number any special permission necessary to implement the tariff publication. Special permission must be granted prior to the filing of the tariff publication, and may not be requested in the transmittal letter.

\* \* \*

6. Section 61.38 is proposed to be amended by revising paragraph (a) to read as follows:

**§ 61.38 Supporting information to be submitted with letters of transmittal.**

(a) *Scope.* This section applies to dominant carriers whose gross annual revenues exceed \$500,000 for the most recent 12 month period of operations or are estimated to exceed \$500,000 for a representative 12 month period. Local exchange carriers serving 50,000 or fewer access lines may submit Access Tariff filings pursuant to either this section or § 61.39. However, the Commission may require any carrier to submit such information as may be necessary for review of a tariff filing.

\* \* \*

7. Section 61.39 is proposed to be added as follows:

**§ 61.39 Optional supporting information to be submitted with letters of transmittal for Access Tariff filings by local exchange carriers serving 50,000 or fewer access lines.**

(a) *Scope.* This section provides for an optional method of filing for any local exchange carrier who elects to issue its own Access Tariff and who serve 50,000 or fewer access lines in a study area as determined under § 67.611 of the Commission's Rules. However, the Commission may require any carrier to submit such information as may be necessary for review of a tariff filing.

(b) *Explanation and data supporting tariff changes.* The material to be submitted for either a tariff change or a new tariff which affects rates or charges must include an explanation of the filing in the transmittal as required by § 61.33. The basis for ratemaking must comply with the following requirements. It is not necessary to submit this supporting data at the time of the filing. However, the local exchange carrier should be prepared to submit the data promptly

upon reasonable request by the Commission or interested parties.

(1) For a tariff change, the local exchange carrier which is a cost schedule carrier must propose rates based on the following:

(i) For the first year, a cost of service study for all elements for the most recent 12 month period with related demand for the same period.

(ii) For subsequent filings, a cost of service study for all elements for the total period since the local exchange carrier's last annual filing, with related demand for the same period.

(2) For a tariff change, the local exchange company which is an average schedule carrier must propose rates based on the following:

(i) For the first year, the local exchange carrier's most recent settlement from the National Exchange Carrier Association pool.

(ii) For subsequent filings, the local exchange carrier's most recent average schedule settlement or the most recent average schedule rates development by the National Exchange Carrier Association, whichever is most recent.

(c) *Maximum allowable rate of return.* Local exchange carriers filing tariffs under this section are not required to comply with §§ 65.700 through 65.703, inclusive, of the Commission's Rules. However, costs must be calculated based on the local exchange carrier prescribed rate of return applicable to the period of the cost study required in paragraph (b) of this section.

**PART 69—ACCESS CHARGES**

8. The authority citation for Part 69 would continue to read as follows:

Authority: Secs. 4, 201, 202, 203, 205, 218, 403, 48 Stat. 1066, 1070, 1072, 1077, 1094, as amended; 47 U.S.C. 154, 201, 203, 205, 218, 403, unless otherwise noted.

9. Section 69.3 is proposed to be amended by revising paragraph (a) to read as follows:

**§ 69.3 Filing of access service tariffs.**

(a) A tariff for access service shall be filed with this Commission for an annual period. Such tariffs shall be filed so as to provide a minimum of 90 days notice with a scheduled effective date of January 1. A tariff for access service provided by telephone companies with 50,000 lines or fewer in a study area, as determined under Section 67.611 of this chapter, may be filed for a biennial period, with a minimum of 90 days notice, to begin on January 1 of any odd-numbered year. For purposes of computing end user charge access elements and carrier's carrier charges

other than for the Carrier Common Line element to be effective on January 1 of any even-numbered year, the association may propose rate changes based upon statistical methods which represent a reasonable equivalent to the cost support information otherwise required under Part 61 of this chapter.

10. Section 69.603 is proposed to be amended by adding new paragraph (c) to read as follows:

**§ 69.603 Association functions.**

(c) The association shall also prepare and file an access charge tariff containing terms and conditions for access service and a form for the filing of rate schedules by telephone companies that choose to reference these terms and conditions while filing their own access rates.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

**47 CFR Parts 31 and 32**

[CC Docket 86-322; RM 4966]

**Common Carrier Services; Petition of the Mountain States Telephone and Telegraph Co., Northwestern Bell Telephone Co. and Pacific Northwest Bell Telephone Co.**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Commission has decided to issue a Notice of Proposed Rulemaking to amend §§ 31.235 and 31.607 of Part 31 in response to the Petition of the Mountain States Telephone and Telegraph Company, Northwestern Bell Telephone Company and Pacific Northwest Bell Telephone Company.

**DATES:** Comments are due by January 26, 1987; reply Comments are due by February 2, 1987.

**ADDRESS:** Federal Communications Commission, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** John T. Curry, Accounting Systems Branch, Accounting and Audits Division, Common Carrier Bureau, (202) 634-1861.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Notice of Proposed Rulemaking* adopted July 29, 1986, and released August 8, 1986.

The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street, NW, Suite 140 Washington, DC 20037.

**Summary of Notice of Proposed Rulemaking**

On April 11, 1985, The Mountain States Telephone and Telegraph Company (MTN), Northwestern Bell Telephone Company (NWB) and Pacific Northwest Bell Telephone Company (PNB) filed a petition for rulemaking to amend §§ 31.235 and 31.607 of Part 31 of our Rules (Uniform System of Accounts for Class A and Class B Telephone Carriers). The requested amendments would permit (1) the expensing of costs related to the installation and removal of coin stations, including premises wiring (station connections) and (2) amortization of the embedded investment in coin station premises wiring over one year.

Currently the Rules require that the original cost of public telephone equipment and the original cost of premises wiring installed for use by public telephones shall be capitalized and recorded in Account 235, Public Telephone Equipment. Expenses associated with this equipment are recorded in Account 607, Repairs of Public Telephone Equipment. The Petitioners claim that significant and growing competition now exists, and that increasing numbers of telephone company coin stations are being removed and replaced by customer provided coin stations. As a result, telephone company coin stations are being removed before the cost of installation is fully recovered. They maintain that the Commission's premise for capitalization is no longer valid and that the installation cost should be expensed because cost recovery from future users is no longer assured. The Petitioners also request that embedded costs of installation be amortized over one year because the expected life of the asset has been shortened and this approach is similar to the treatment prescribed for ordinary station connection costs.

In the case of semi-public locations there may be a cost-causative customer from whom costs may be immediately recovered. Accordingly we are proposing an amendment of § 31.235

which would allow the expensing of installation and removal costs of coin operated telephones in semi-public locations while requiring capitalization of these costs for telephone company provided coin stations in public locations. We would, of course, propose to amend Part 32, which will become effective in 1988, to conform with any amendments we adopt in Part 31 (proposed amendments are as shown in the Appendices). If there has been a significant change affecting the overall expected life of the equipment in the account, or its separate subclasses, precipitated by competition or otherwise, a factual showing of such changes could indicate that relief is appropriate. We also seek comment on an appropriate time period for the amortization of embedded installation costs in semi-public locations, as well as information concerning the amount of this investment and its impact on ratepayers.

Other factors may be relevant to this proceeding and interested parties are invited to comment on any other factors for our consideration in reaching a final determination on this subject, but we specifically seek comments on the following: (1) Whether a distinction should be made between public and semi-public coin operated telephones; (2) whether the Commission should amend Parts 31 and 32 to permit the expensing of the installation and removal costs of all coin operated telephone equipment; (3) whether the Commission should amend Parts 31 and 32 to permit the expensing of the installation and removal costs of any or all credit card operated telephone equipment; and (4) whether changes in circumstances warrant different amortization of embedded costs of coin station connections in semi-public areas; and if so, whether they should be amortized over one year, ten years or some other reasonable interval.

**List of Subjects**

**47 CFR Part 31**

Uniform System of Accounts for Class A and Class B telephone companies.

**47 CFR Part 32**

Uniform System of Accounts for telecommunications companies.

1. The authority citation for Part 31 would continue to read as follows:

**Authority:** Sec. 4(i), 4(j), 201, 202, 203, 204, 205, 214, 220, 221, and 403 of the Communications Act of 1934, as amended,

sec. 553 of the Administrative Procedure Act, 5 U.S.C. and § 1.411 *et seq.* of the Commission's Rules.

Parts 31 and 32 of Title 47 of the CFR are proposed to be amended as follows:

2. Section 31.235 would be revised as shown below:

**§ 31.235 Public and semi-public telephone equipment.**

(a) This account shall include the original cost of coin-operated and coinless public telephones and semi-public coin-operated and coinless telephones in separate subclasses, "Public Telephone Equipment Coin-Operated", "Public Telephone Equipment Coinless", "Semi-Public Telephone Equipment Coin-Operated" and "Semi-Public Telephone Equipment Coinless". The public telephone equipment subclasses shall also include the original cost of the premises wiring installed for use by the public telephones. The semi-public telephone equipment subclasses shall not include the original cost of the premises wiring installed for use by the semi-public telephones. This amount shall be included in Account 31.607 "Repairs of Public and Semi-Public Telephone Equipment".

(b) This account shall also include the original cost of operating spares that are required to provide a continuity of service for public and semi-public telephones. The operating spares shall not exceed a six months supply in terms of turnover and availability to installers from locations in reasonable proximity to the location of the installed equipment.

**Items**

(Note section 31.01-8)

Enclosure—a complete installation with or without booth, directory hangers and shelves, shield and public or semi-public telephone signs.

Mounting—(pedestal, post or wall)—a complete installation with or without a base plate.

Directory stand or shelf (in proximity to public or semi-public telephones)—a complete installation with or without directory hangers.

Telephone sets—a complete item (coin operated and credit card).

**Note A.**—The cost of replacing operating spares shall be charged to Account 607, "Repairs of Public and Semi-Public Telephone Equipment".

3. Section 1.607 would be revised as shown below:

**§ 31.607 Repairs of public and semi-public telephone equipment.**

This account shall include the cost of repairs of public and semi-public

telephone equipment. This account shall also include the cost of the premises wiring installed for use by the semi-public telephones. Carriers shall maintain the cost of repairs for coinless public and semi-public telephones in separate subaccounts.

**Items**

Note section 31.01-8

Cleaning public and semi-public telephone equipment.

House service for public and semi-public telephone equipment.

Inspecting, testing, and reporting on condition of equipment to determine the need for repairs or replacements.

Installation of premises wiring for use by semi-public telephones.

Materials normally used as repair parts for public and semi-public telephone equipment.

Moves or relocations of items of public or semi-public telephone equipment (within the same accounting area).

Repainting and other repairs on booths, including those owned by others.

Repairing used public and semi-public telephone equipment for re-use.

Replacing defective public and semi-public telephone equipment (labor only). (See Note A of this account.)

Supply expense applicable to public and semi-public equipment.

Testing for, locating and clearing trouble in public and semi-public equipment. (See also Account 603.)

**Note A.**—The material cost of operating spares shall be charged to Account 235. However, the installation labor and repair cost of this equipment shall be charged to this account.

4. The authority citation for Part 32 continues to read as follows:

**Authority:** 47 U.S.C. 154; 47 U.S.C. 219, 220.

5. Section 32.2351 would be revised as shown below:

**§ 32.2351 Public and semi-public telephone terminal equipment.**

(a) This account shall include in separate subclasses for public and semi-public telephones, the original cost of coinless, coin-operated, credit card and pay telephones installed for use by the public. The original cost of semi-public telephone equipment shall not include the original cost of installing premises wiring. This amount shall be included in Account 6351 Public Telephone Terminal Equipment Expense.

William J. Tricarico,

Secretary.

[FR Doc. 86-28762 Filed 12-22-86; 8:45 am]

BILLING CODE 6712-01-M

**DEPARTMENT OF TRANSPORTATION**

**National Highway Traffic Safety Administration**

**49 CFR Part 574**

[Docket No. 70-12; Notice 26]

**Tire Identification and Recordkeeping; Changes to Voluntary Tire Registration Procedures**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), DOT.

**ACTION:** Advance notice of proposed rulemaking.

**SUMMARY:** This notice announces NHTSA's plans to initiate rulemaking intended to result in a significant increase in the registration of the name and address of the purchasers of tires sold by independent dealers. Tire registration is the process by which tire manufacturers collect the names and addresses of the first purchasers of new tires. The purpose of tire registration is to allow the tire manufacturers to directly notify first purchasers in the event of a recall of their tires. Independent dealers are those tire dealers and distributors whose business is not owned or controlled by a tire manufacturer. These independent dealers are currently required to fill in the tire identification number(s) of the tire(s) sold to a purchaser on a registration form provided by the tire manufacturer and give the form to the tire purchaser. The tire purchaser may then fill in his or her name and address, affix a stamp to the registration form, and return it to the tire manufacturer.

NHTSA has completed an evaluation examining whether voluntary registration increased the number of tires sold by independent dealers that are registered with the tire manufacturers. That evaluation concluded that registration fell from 18.1 percent under mandatory registration to 10.8 percent under voluntary registration. Accordingly, the agency has determined that additional steps should be taken to increase the number of tires registered with tire manufacturers.

The agency believes that the following changes might significantly increase tire registration by independent dealers:

1. Tire manufacturers would be required to include prepaid postage on the registration forms. This would eliminate the need for tire purchasers to affix a stamp before mailing the forms back to the manufacturer. The convenience and reduced costs for tire

purchasers could encourage more of them to return the registration form.

2. Tire manufacturers are presently required to distribute tire information pamphlets to their dealers, showing the grades the manufacturer has assigned to its tires under the Uniform Tire Quality Grading Standards. NHTSA would require that those information pamphlets be expanded to inform the public of the tire registration process and to ask the dealer for a tire registration form. If more consumers were to ask dealers for registration forms, the dealers would provide those forms to more tire purchasers. This could lead to more tires being registered with the manufacturers.

3. All tire registration forms would be required to have the same return address, that of a single clearinghouse. These forms would be used for all tire sales, regardless of the company that manufactured the tire. This would allow independent dealers to keep a single group of registration forms, instead of a separate group for each manufacturer whose brands were sold by the dealer. This approach would reduce the burden for the dealers to provide the appropriate registration form to the purchaser, and could increase the number of dealers that provide those forms to purchasers.

4. The agency would rely on the statutory requirement that tire manufacturers "cause the establishment and maintenance of records of the name and address of the first purchaser of each tire produced by such manufacturer." Under this approach, the agency would eliminate the tire registration requirements of Part 574. The tire manufacturers would then be free to choose any means of satisfying their statutory obligation, and would be responsible for seeing that their dealers and distributors complied with the chosen means. The tire manufacturers would file compliance plans with the agency to indicate the means they had chosen for affecting the establishment and maintenance of these records. NHTSA believes that this approach could improve tire registration rates by allowing the tire manufacturers the greatest flexibility to collect those names and addresses with an approach specifically chosen to impose the least burden on themselves and their dealers.

This notice is intended to give the public an opportunity to comment on each of these alternative approaches before the agency proposes a rule, and to give the public an opportunity to suggest other approaches that might be included in the proposal for increasing

the number of first purchasers of tires whose names and addresses are registered with the tire manufacturers.

**DATE:** Comments on this notice must be received by the agency no later than February 6, 1987.

**ADDRESS:** All comments should refer to Docket No. 70-12; Notice 26 and be submitted to: Docket Section, NHTSA, Room 5109, 400 Seventh Street SW., Washington, DC 20590. Docket hours are 8:00 am to 4:00 pm Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** Mr. Larry Cook, Crash Avoidance Division, NHTSA, 400 Seventh Street SW., Washington, DC 20590 (202-366-4805).

#### SUPPLEMENTARY INFORMATION:

##### History of Tire Registration Requirements

###### *A. Mandatory Registration and its Statutory Basis*

Prior to the 1982 amendments to the National Traffic and Motor Vehicle Safety Act (the Safety Act; 15 U.S.C. 1831 *et seq.*), all tire dealers were subject to mandatory tire registration procedures. Under the mandatory registration procedures, a tire dealer would record the purchaser's name and address on a registration form, along with the tire identification number(s) of the tire(s) sold to the purchaser and an identification of the selling dealer. It was not necessary for the tire purchaser to take any action to assist in registering the tire(s). The dealer would return the completed registrations to the tire manufacturers at specified intervals.

The mandatory registration procedures had their roots in a May 22, 1970 amendment to the Safety Act. Among other things, this amendment added a new section 113(f) to the Safety Act, which read as follows:

Every manufacturer of motor vehicles or tires shall maintain records of the names and addresses of the first purchaser (other than a dealer or distributor) of motor vehicles or tires produced by that manufacturer. The [NHTSA] may establish, by order, procedures to be followed by manufacturers in establishing and maintaining such records, including procedures to be followed by distributors and dealers to assist manufacturers to secure the information required by this subsection which will not affect the obligation of manufacturers under this subsection. Such procedures shall be reasonable for the particular type of motor vehicle or type of tires for which they are prescribed.

This statutory language gave NHTSA authority to issue regulations requiring

dealers and distributors to comply with some tire registration procedures, but did not require the agency to do so. It also explicitly provided that the ultimate responsibility for gathering and maintaining the record of first purchasers of tires remained with the tire manufacturers, even if NHTSA were to issue a regulation requiring dealers and distributors to take some actions to help the tire manufacturers obtain those records.

NHTSA proposed to exercise this new statutory authority by establishing a new Part 574, *Tire Identification and Recordkeeping*, at 35 FR 11800, July 23, 1970. The significant tire registration requirements in this proposal were as follows:

1. Each tire manufacturer, brand name owner, and retreader "shall provide every distributor and dealer of his product . . . a means by which the distributor or dealer shall record" the registration information.

2. Each tire manufacturer would be required to maintain the registration information provided to it by the dealers.

3. Tire manufacturers would be required to include a contractual provision for each of their distributors or dealers obligating the distributors or dealers to record the registration information.

4. Tire manufacturers would be required to keep a record of the tire identification numbers of all tires they sold to dealers that sell tires directly to tire consumers.

The comments filed in response to this proposal alleged that implementing the third and fourth items set forth above would impose serious burdens and hardships for both tire manufacturers and dealers. After analyzing the comments received on this proposal, NHTSA published a final rule setting forth the mandatory tire registration requirements (35 FR 17257, November 10, 1970). The final rule required dealers and distributors of new and retreaded tires to record the names and addresses of the first purchasers of those tires on the means provided by the tire manufacturer or retreader for doing so, together with the tire identification number(s) of the tire(s) sold and the name and address of the tire seller. The completed registrations had to be promptly forwarded by the dealers and distributors to the manufacturers and retreaders. The proposals that tire manufacturers include contractual provisions to require dealers and distributors to comply with tire

registration and that tire manufacturers keep records of every tire shipped to a dealer or distributor by tire identification number were not adopted in this rule.

The requirement that tire manufacturers and retreaders provide "a means" for recording the required information resulted in a multiplicity of different registration forms and techniques. These differences created problems for tire dealers selling a number of manufacturers' tires, since the dealer had a number of different registration forms and techniques and had to decide which were the proper ones to use in a sale of a particular manufacturer's tires. This proliferation caused confusion among these dealers and resulted in the registration information often being incorrectly recorded.

To address this problem, NHTSA proposed to require tire manufacturers and retreaders to use a standardized registration form (38 FR 6398, March 9, 1973). Additionally, this proposal would have required tire dealers and distributors to give the first purchaser a copy of the tire registration information, so that the purchaser would know that the tire had been registered.

All new tire manufacturers and the retreaders' association objected to the proposed requirement to give the first purchaser a copy of the registration form, alleging that this would increase the burdens associated with tire registration without giving any added benefits. NHTSA found these objections meritorious. Therefore, the final rule for this action amended Part 574 only by implementing the first proposed change. This June 3, 1974 final rule (39 FR 19482) specified that tire manufacturers should provide a standardized registration form, and that dealers and distributors could print their own registration forms, provided that they complied with the standardized format requirements.

#### *B. Legislative Changes to Tire Registration Before 1982*

On October 27, 1974, the Safety Act was amended to include a new section 158, and to delete section 113(f). This new section 158 included a subsection (b) which read as follows:

Each manufacturer of . . . tires shall cause the establishment and maintenance of records of the names and addresses of the first purchaser of each . . . tire produced by such manufacturer. . . . The Secretary may, by rule, specify the records to be established and maintained, and reasonable procedures to be followed by manufacturers in establishing and maintaining such records, including procedures to be followed by

distributors and dealers to assist manufacturers to secure the information required by this subsection; . . .

By substituting "shall cause the establishment and maintenance" for "shall establish and maintain", this new subsection removed the requirement of section 113(f) that the tire manufacturer *itself* keep the records. Under the amended statutory language in the new section 158(b), the manufacturer was responsible only for causing the establishment and maintenance of the records; a third party could actually keep the records if the tire manufacturer preferred.

On November 6, 1978, section 158(b) was amended to exempt retreaders from the tire registration requirements applicable to tire manufacturers. This change was made because only 8 retreaded tires had been recalled since 1972, while 66 million tires had been retreaded in that time. In light of this statistic, Congress determined that the burden of retreaded tire registration was not necessary. See 124 Cong. Rec. 32145 (September 28, 1978).

#### *C. Motor Vehicle Safety and Cost Savings Authorization Act of 1982*

This legislation amended the Safety Act to require NHTSA to change its tire registration requirements insofar as they applied to independent dealers and distributors. Independent dealers and distributors are those dealers and distributors whose business is not owned or controlled by a tire manufacturer. Congress noted that these independent dealers, who now account for about two-thirds of replacement tires sales annually, registered only about 20 percent of the tires they sold. Those dealers whose business was owned or controlled by a tire manufacturer registered between 80 and 90 percent of the tires they sold. Given the wide disparity in tire registrations, Congress determined that an alternative method of tire registration should be instituted for tires sold by independent dealers.

Accordingly, section 158 of the Safety Act was amended to prohibit NHTSA from requiring independent dealers to comply with the mandatory registration requirements. Given the high registration rates for tires sold by non-independent dealers, Congress did not mandate any changes in the mandatory registration, section 158 directed that independent dealers comply with a voluntary registration process. Under this voluntary registration process, the primary responsibility for registering tires sold by independent dealers is borne by the purchaser instead of the dealer. Section 158(b)(2)(B) directed

NHTSA to require that independent dealers (1) fill in the tire identification number(s) of the tire(s) sold to a purchaser on a registration form and then (2) give the form to the purchaser. If the purchaser chose to register the tires, he or she could do so by filling in his name and address, affixing a 13¢ stamp, and mailing the form to the tire manufacturer or its designee.

Because of the uncertainties that the new voluntary tire registration procedures to be followed by independent dealers would achieve the desired effect of increasing the registration rate of tires sold by those dealers, section 158(b)(3) of the Safety Act directed NHTSA to conduct an evaluation after two years of voluntary registration to determine the extent to which the voluntary registration procedures for independent dealers were successful in facilitating the establishment and maintenance of tire registration records. Upon completion of the evaluation, that section directs NHTSA to determine the extent to which independent dealers have encouraged purchasers to register their tires and the extent to which those dealers have complied with the voluntary registration procedures. Further, that section requires the agency to determine whether to impose any additional requirements on the independent dealers or the tire manufacturers to produce higher levels of tire registration.

#### *D. NHTSA's Preliminary Evaluation Report on Voluntary Tire Registration*

NHTSA prepared a preliminary evaluation report on the voluntary tire registration system. A notice seeking public comment on the preliminary report was published at 50 FR 39214, September 27, 1985. The tentative conclusions of that report were as follows:

1. Registration rates for tires sold by independent dealers dropped from 18.1 percent under mandatory procedures to 10.8 percent under voluntary procedures. There was no comparable decline for tires sold by non-independent dealers still subject to mandatory registration procedures.

2. The registration rates under voluntary procedures may have declined to as little as 8.4 percent because many of the registrations by independent dealers were due to a computer-assisted registration system and to some independent dealers continuing to follow the mandatory procedures.

3. Tire manufacturers and brand name owners provided the independent

dealers with a sufficient number of registration forms.

4. There are no records of any registrations for tires sold by more than 70 percent of all independent dealers. Many of the other independent dealers had very low registration rates.

Five commenters responded to the request for comments on this preliminary evaluation report. The Tire Industry Safety Council stated that NHTSA had done a good job on the preliminary evaluation. The National Tire Dealers & Retreaders Association (NTDRA) asked the agency to conduct "an in-depth cost benefit analysis of tire registration." If that study were to conclude that tire registration was not cost beneficial, the commenter asked NHTSA to "lead efforts to repeal the tire registration requirements." The Armstrong Rubber Company supported NTDRA's comment.

The Rubber Manufacturers Association, a trade association representing domestic tire manufacturers, supported the continuation of a tire registration system. This comment stated that NHTSA should "aggressively stress enforcement through a public education campaign of voluntary registration throughout the various distribution channels." The American Automobile Association (AAA) also strongly urged that tire registration be continued. AAA suggested that NHTSA require pre-paid postage on the voluntary registration forms to ensure that consumers will return the forms. This comment also suggested that the agency step up its enforcement efforts against independent dealers who are not giving the forms to first purchasers and initiate a public education campaign to better inform the public about the voluntary registration system.

#### *E. Possible Actions To Improve Registration Rates for Independent Dealers*

NHTSA has tentatively concluded that further action is necessary to improve the registration rates for those new tires sold by independent dealers. Congress clearly expressed its belief that mandatory registration procedures for gathering the names and addresses of first purchasers of new tires were not working well, and that a change from mandatory to voluntary registration procedures for tires sold by independent dealers would increase the number of tires registered with the manufacturers. See H.R. Rep. No. 97-576, 97th Cong., 2d Sess., at 8 (1982); S. Rep. No. 97-505, 97th Cong., 2d Sess., at 7 (1982). In fact, the number of tires sold by independent dealers that are registered with

manufacturers has declined from 18.1 percent under mandatory registration to 10.8 percent under voluntary registration. Thus, the voluntary registration procedures now in place have not successfully carried out the Congressional purpose of increasing tire registration.

This situation leaves the agency with two separate problems to address. First, the agency believes it is appropriate to announce the steps it will take to improve compliance with the voluntary registration procedures currently in place for tires sold by independent dealers. Second, this notice asks for public comment on possible rulemaking actions that would improve the registration rates for such tires.

#### *1. Improvements to Current Voluntary Registration Procedures*

The voluntary registration procedures cannot work if the independent dealers do not provide the registration forms which purchasers can complete and return to the tire manufacturers. NHTSA's evaluation showed that only about 22 percent of the consumers purchasing new tires from independent dealers recalled receiving the voluntary registration forms from their tire dealer. The evaluation also showed that more than 70 percent of all independent tire dealers for the largest tire manufacturer have not had even a single tire registered under the voluntary registration procedures. From these facts, the agency concludes that many independent dealers are not routinely providing registration forms to tire purchasers.

One means of increasing the distribution of registration forms is for the agency to begin enforcement actions to ensure that independent dealers are distributing these forms to the public. NHTSA would like to make clear that it does not believe that this is the best use it can make of its limited enforcement budget. Ordinarily, the agency concentrates its enforcement efforts under the Safety Act in those areas most directly related to vehicle or equipment safety. This approach has resulted in NHTSA directing its enforcement efforts related to tires toward actual testing the tires for compliance with the applicable safety standards and examination of the number of reports of tire failure while in service. Tire registration is an important factor *after* a determination has been made that a group of tires should be recalled and it is necessary to notify the purchasers of the recall. In this regard, NHTSA would like to note that there have been very few tires recalled recently. In 1983, 96,546 tires were recalled, in 1984, 80,766 tires were

recalled, and in 1985, 25,799 tires were recalled. Since about 175,000,000 tires are produced annually, the percentage of tires recalled was about 6/100 of one percent in 1983, 5/100 of one percent in 1984, 1/100 of one percent in 1985, and 4/100 of one percent for the three year period. This low recall rate indicates that the low tire registration rates have not resulted in the public frequently and unknowingly driving on tires that have been recalled by the manufacturer.

As noted above, only 10.8 percent of the tires sold by independent dealers are registered with the manufacturers. In the event of a recall involving a serious safety hazard, the tire manufacturer would have no way of directly notifying most purchasers of unregistered tires. However, the manufacturer could provide indirect notification. The 1982 amendments to the Safety Act also amended section 153(c) of the Safety Act (15 U.S.C. 1413(c)) to give the agency authority to order tire manufacturers to give public notice of a tire recall in appropriate circumstances. NHTSA will not hesitate to use this authority should those circumstances arise. The need for such public notice would increase if the vast majority of tires involved in a recall are not registered with the manufacturer of such tires.

#### *2. Possible Future Improvements to Voluntary Registration Procedures*

Increased enforcement by the agency of the voluntary registration procedures and the agency's use of its authority to order public notice of tire recalls in appropriate circumstances do not obviate the need for improvements to the current voluntary tire registration procedures. In fact, they merely highlight the failure of the voluntary registration procedures to improve registration rates over the low levels achieved under mandatory tire registration requirements.

Section 158(b)(3)(iii) specifies that the agency may order by rule additional requirements to the voluntary registration procedures "only if the [NHTSA] determines that such requirements are necessary to reduce the risk to motor vehicle safety, after considering (I) the cost of such requirements to manufacturers and the burden of such requirements upon dealers and distributors, as compared to the additional percentage of first purchasers of tires with respect to whom records would be established and maintained as a result of the imposition of such requirements; and (II) the extent to which dealers and distributors have encouraged first purchasers to register the tires, and the extent to which

dealers and distributors have compiled with the [voluntary registration procedures]."

The only purpose of tire registration is to allow tire manufacturers to notify the first purchasers of the tires about any recall of the tires. Given the very low recall rate of tires in recent years, the risk to motor vehicle safety as a result of the low registration of tires is small. However, if there were a recall of tires that posed a significant safety hazard, the owners of those tires whose names and addresses were not registered with the tire manufacturer could not be promptly and directly notified of the recall. In those circumstances, NHTSA believes that the low registration rate would pose a risk to motor vehicle safety. Since both houses of Congress referred to the "relationship of tire registration to highway safety" in their Committee reports, it appears that Congress agrees with the agency's conclusion.

The agency is *not* at this time considering any action to reimpose mandatory registration requirements for tires sold by independent dealers. Mandatory registration of tires by all dealers was required by this agency for more than 10 years, yet consistently achieved registration rates of only about 20 percent of the tires sold by independent dealers. With a 20 percent registration rate, tire manufacturers would still be unable to directly notify 80 percent of the first purchasers about the recall. Thus, the potential increase in registrations associated with a reimposition of mandatory registration requirements does not appear to be significant.

The burdens associated with mandatory registration requirements are set forth at length in the Congressional hearings held on the 1982 amendments to the Safety Act and need not be repeated here. Suffice it to say that the agency is unable to determine that the possible slight increase in registrations would compare favorably with the significant additional burdens that would be associated with a mandatory registration provision applicable to independent dealers. NHTSA is interested in receiving public comment on this tentative decision.

NHTSA tentatively believes that there are four steps which might significantly increase the registration rates for tires sold by independent dealers, and this notice solicits comments on each of these steps. The first possible step would be to amend Part 574 to require the tire manufacturers to include prepaid postage on the registration forms. The advantage of prepaid postage would be that it would encourage more

consumers to return the registration forms. The NTDR noted in its comment to the preliminary evaluation that fewer than 40 percent of consumers that receive the voluntary registration forms are returning those forms to the tire manufacturers. The agency is aware of studies that show that prepaid postage increases the return rate of such items substantially above the rate when prepaid postage is not used. See Paul L. Erdos, *Professional Mail Surveys*, at 111, 121, and 242 (1983); C. William Emory, *Business Research Methods*, at 309, 310 (1980); Don A. Dillman, *Mail and Telephone Surveys: The Total Design Method*, at 178, 179 (1978).

Further, a requirement for prepaid postage would not impose any further burdens on dealers and distributors than the current voluntary registration procedures. The manufacturers would incur slightly higher costs. However, if the manufacturers use business reply mail, they would not be charged postage for forms not mailed back to them.

The potential disadvantage of such an approach is that it would not increase the number of first purchasers that are given the registration forms by independent dealers. If the preliminary evaluation's conclusion that only 22 percent of first purchasers are given registration forms is correct, a requirement for tire manufacturers to pay postage on those registrations could not achieve a higher registration than 22 percent, assuming that every consumer who receives the registration form completes it and returns it to the manufacturer. This action could improve tire registration rates over the levels currently achieved, however.

The second step which the agency is considering would consist of a public education campaign, coupled with a requirement that manufacturers include a brief explanation of the purpose of tire registration in the tire information pamphlets they distribute. The Uniform Tire Quality Grading Standards (UTQGS; 49 CFR Part 575) currently require tire manufacturers to provide each of their dealers with tire information pamphlets. These information pamphlets contain brief explanations of each performance area for which tires are graded under the UTQGS, and a listing of the grades assigned in each performance area to all of the manufacturer's tires sold by that dealer. The agency is considering amending this requirement so that these pamphlets would also include a brief explanation of the purpose of tire registration and advice to the consumer to ask the tire dealer for a registration form. Additionally, the agency would include information on the purpose and

importance of tire registration in its general consumer education activities.

The agency's evaluation of tire registration shows that most consumers do not understand the purpose of tire registration. By more widely disseminating information about tire registration and its purpose, the agency and the tire manufacturers should be able to significantly enhance the public's understanding of the tire registration process. The agency believes that as more consumers better understand the tire registration process, they will ask the independent dealers for a tire registration form when the dealer does not provide a form as part of the sale. Wider distribution of the forms by the dealers to first purchasers should result in more first purchasers returning the forms to the tire manufacturers.

The disadvantages associated with this approach include the time it would necessarily take for such a consumer education to result in increased tire registration. That is, assuming that informed consumers will ask the dealers for registration forms, it will take some time for this agency and the tire manufacturers to disseminate the information. During this time, there would be no change to the voluntary registration procedures, which have yielded low tire registration rates.

Additionally, if this approach is to be effective, those tire dealers who did not originally provide the purchaser with a registration form must, when asked by the customer, both furnish a registration form and take the time to fill in the correct tire identification number(s). Even assuming that all independent dealers would furnish a registration form when asked to do so by the customer, NHTSA's evaluation showed that several tire dealers have as a practice filled in the same valid tire identification number on all tire registration forms, regardless of the actual tire identification number on the tire they had just sold. These dealers viewed this action as a timesaving way to appear to comply with the tire registration procedures. In fact, this practice results in tire manufacturers getting names and addresses of first purchasers, but not being able to match those names and addresses to the tires they have actually purchased. Consequently, the manufacturer would not be able to directly notify these first purchasers if their tires were recalled. If dealers were to follow this practice generally, the purpose of tire registration would not be furthered, even if the consumer information program were successful and more registration forms were returned to the tire manufacturers.

The third step under consideration is a requirement that there be a central clearing house for all registration forms distributed to consumers by independent dealers. All registration forms provided by tire manufacturers to independent dealers would be addressed to this clearing house, regardless of which manufacturer's tires were being registered. The clearing house would then forward the forms it received to the appropriate manufacturer or its designee. Such a requirement would allow the independent dealers to keep just one type of registration form for all types of tires he or she sold. Under the current voluntary registration procedures, a dealer that sells tires produced by six different manufacturers must keep six different groups of registration forms, and provide the purchaser with the proper registration form for a particular tire. It is possible that this is an unnecessary complexity that discourages independent dealers from providing first purchasers with any registration forms. If this is true, the single registration form for all manufacturer's tires would remove this burden, and might result in more dealers providing first purchasers with the registration forms.

Adopting this approach would, however, raise some significant issues. These would include the manner in which a single clearing house would be designated for all tire registrations and by whom, since there are now at least two clearing houses in operation. The existing clearing houses service only a limited number of tire brands. Comments are specifically requested on how a single clearing house should be designated and by whom, if this approach were adopted.

In addition, the agency's tentative belief that a single central clearing house might significantly improve the registration rates under voluntary registration is based on some anecdotal suggestions in the dealer survey included in the preliminary evaluation and on the intuitive reasonableness of the suggestion. The data in the preliminary evaluation do not, however, provide a basis for concluding that this step would significantly increase the registration rates under voluntary registration.

Finally, the agency is considering rescinding the regulatory requirements of Part 574 relating to tire registration by dealers and distributors, and requiring the tire manufacturers to devise their own methods of complying with the statutory requirement that the tire manufacturers "cause the establishment

and maintenance of records of the name and address of the first purchaser of each tire produced by the manufacturer." NHTSA believes there would be several advantages associated with this approach.

First, the agency has exercised its statutory authority to promulgate tire registration requirements applicable to all independent dealers. These regulatory requirements have failed to achieve the goal of increasing tire registration. NHTSA has no reason to believe after 15 years of regulation that it can devise a registration system that will be more effective than one each tire manufacturer designs for itself and its dealers. The flexibility each manufacturer would have to devise a registration system specifically tailored to its own circumstances should increase registration rates over those achieved under Part 574, regardless of their differing circumstances.

Second, the vehicle manufacturers are subject to the same statutory duty under section 158 of the Safety Act as the tire manufacturers. The vehicle manufacturers have records of a much higher percentage of the first purchasers than do the tire manufacturers, although NHTSA has never issued a regulation specifying how the vehicle manufacturers are to collect those names and addresses. Absent any regulation, the vehicle manufacturers have devised a workable system for themselves and their dealers that is significantly more effective than the systems that have been imposed under Part 574. NHTSA is aware that there are significant differences in the distribution and sale of vehicles and tires and in the frequency of recalls and warranty claims involving vehicles and tires. Nonetheless, the substantially higher percentage of registrations of vehicle owners with the manufacturers appears to indicate that successful registration is not necessarily dependent on some regulatory requirement that certain actions be taken by dealers and distributors.

Third, this approach would give the tire manufacturers greater incentive to ensure an effective tire registration system. At present, the tire manufacturers have only a limited incentive to ensure an effective tire registration system; i.e., their desire to notify as many first purchasers as possible in the event of a recall. This is because NHTSA has assumed the responsibility for designing and enforcing the tire registration requirements would be transferred from this agency to the tire manufacturers.

Finally, the enforcement burden for the agency would be substantially lessened if it were directed against only the 50 or so tire manufacturers and brand name owners instead of the 50,000 or so independent tire dealers. This would allow NHTSA to use its enforcement budget for tire safety on issues more directly related to tire safety, rather than examining whether or not tire dealers and distributors were helping the tire manufacturers satisfy their statutory obligation.

The tire manufacturers could use the flexibility given them by rescission of the registration requirements in a variety of ways. The preliminary evaluation showed that the computerized registration system used by Goodyear for some of its independent dealers resulted in registrations of more than 85 percent of the tires sold by those dealers during the voluntary registration period. If the tire registration regulations were rescinded, Goodyear might choose to make its computerized registration available to all its independent dealers. Other manufacturers could devise different approaches that would achieve registrations well in excess of 20 percent. For instance, tire manufacturers could include provisions in their contracts with their independent dealers requiring the registration of tires, offer incentives to independent dealers for registering the tires that they sell, conduct education campaigns to inform tire purchasers of the importance of voluntarily returning their registration forms, require duplicates of the registration form to be given by the independent dealers to purchasers of their tires, or any other approach the manufacturers believe will increase the number of tires registered with them.

If this action were proposed, the agency would include a proposal to require each tire manufacturer to file a compliance plan with NHTSA explaining what steps it or the brand name owner would take to improve the registration rate of its tires sold by independent dealers, and why the manufacturer or brand name owner believed those steps would improve the registration rate. These plans would be considered to be approved by the agency, unless NHTSA made an express determination that it is unlikely that the plan would result in the tire manufacturer or brand name owner collecting the names and addresses of a significant percentage of first purchasers of its tires. The plans would be used primarily to inform NHTSA of the manufacturer or brand name owner's efforts to comply with its statutory

obligation. This would allow the agency to direct its enforcement efforts towards ensuring that the tire manufacturers are in fact taking the actions to collect the names and addresses of first purchasers that they said they would take in the plan that was filed.

A possible disadvantage associated with this action is that dealers and consumers might be confused by different registration procedures for tires sold by different manufacturers. It is possible that some tire manufacturers would require consumers to take some affirmative steps to register their tires, while other manufacturers would not. Similarly, an independent dealer selling six different brands of tires might have to follow six different registration procedures. This potential confusion and uncertainty could work to reduce tire registrations.

The agency would like to get further information on the costs and operating procedures now used by tire manufacturers and brand name owners to register tires under the procedures specified in 49 CFR Part 574. Specifically, the agency requests that tire manufacturers and brand name owners address the following areas in their comments on this notice:

1. The precise process, including each step, used by the manufacturer or brand name owner to register tires, above and beyond the steps specified in 49 CFR Part 574;

2. For each step of the process listed in response to number 1 above, indicate the cost to the manufacturer or brand name owner;

3. State any problems experienced by the manufacturer or brand name owner in connection with its tire registration process.

#### *Potential Regulatory Impacts*

NHTSA has considered the potential burdens and benefits associated with each of the four options set forth above. This advance notice of proposed rulemaking is not subject to Executive Order 12291, since that applies only to notices of proposed rulemaking and final rules. However, NHTSA believes that this advance notice of proposed rulemaking does concern a matter in which there is substantial public interest, which makes it a "significant" rulemaking action under the Department of Transportation regulatory policies and procedures.

It is difficult to develop quantified estimates of the burdens associated with the four potential actions on which this notice seeks public comment, because the precise requirements to implement any of those actions have not been developed. Additionally, changes

may be made to any of these courses of action in response to the comments received on this notice. Furthermore, one cannot estimate the burdens associated with these courses of action unless one assumes a certain level of registrations that will be achieved under each course of action.

For the purposes of this discussion, NHTSA assumes that each of these courses of action will result in 15 percent of the tires sold by independent dealers being registered with the tire manufacturers, an increase of 4.2 percentage points above the current level of 10.8 percent. This figure was chosen solely because some assumption of effectiveness is necessary to allow the agency to estimate the potential burdens associated with these options. In fact, the agency believes that any change it proposes to the current voluntary registration procedures would result in a significantly higher percentage of tires being registered with the manufacturers. At this time, however, NHTSA cannot precisely quantify the anticipated registration rates under any of these courses of action. With these caveats, NHTSA estimates the following additional burdens would be associated with the four courses of actions on which this notice seeks comments. Note that all of these costs are over and above the costs currently associated with voluntary tire registration.

If prepaid postage were required on tire registration forms for independent dealers, additional costs of \$1,150,000 would be imposed, with \$70,000 of that total being a one-time cost, while \$1,080,000 would be an annual additional cost. This estimate was derived as follows: tire manufacturers would have to reprint new forms. About 70 million voluntary registration forms are distributed each year, and it costs about 1/10 of a cent to have each form printed. Once the necessary changes were made to the existing forms, it would not increase the costs to print the forms. However, it would be necessary for tire manufacturers to change their existing forms to accommodate the requirement for prepaid postage. Therefore, printing new forms would impose one-time costs of about \$70,000. Prepaid postage would cost the manufacturers 16¢ for each form that was returned, and these costs would recur each year. Multiplying 70 million registration forms by 15 percent (the assumed return rate) by 16¢ yields estimated postage costs of \$1,680,000.

The increased registration rates would also result in additional tire manufacturer handling and computer costs. For the purposes of this estimate,

NHTSA assumes such costs to be 5¢ for each returned registration form. At 15 percent registration, additional handling would impose costs of \$230,000 on the tire manufacturers. Total annual costs imposed on tire manufacturers by a requirement for prepaid postage would thus be estimated at \$1,910,000. To estimate total costs of this option, one must subtract the costs of postage currently borne by consumers to register their tires. At current rates, consumer-paid postage costs \$830,000 annually. Thus, the overall costs associated with this option are estimated at \$1,080,000 per annum.

The option of implementing a public education campaign, coupled with a requirement that tire manufacturers include a brief explanation of the purpose of tire registration in tire information pamphlets would impose annual additional costs of \$520,000, estimated as follows. NHTSA estimates that it would prepare and distribute information to the media at an annual cost of \$30,000. There are about 50 tire manufacturers and brand name owners. NHTSA assumes that the five largest would spend \$25,000 on fact sheets and promotions, the next five would spend \$10,000, the next 10 would spend \$5,000, and the 30 smallest would spend \$1,000 under this option. Total costs for the industry would be \$260,000. Adding the additional handling and computer costs of \$230,000, calculated by assuming it costs 5¢ for manufacturers to handle each returned form, yields an overall additional annual cost estimate of \$520,000 for this option.

The requirement to address all registration forms to a single clearing house would require the tire manufacturers to print new forms. This would impose a one-time cost of \$70,000, as explained in the section estimating costs for prepaid postage on registration forms. In addition, additional annual costs of \$440,000 would be imposed. Assuming that it costs a clearing house 2¢ per registration form to forward it to the tire manufacturer, additional costs of \$210,000 would be imposed. The additional handling and computer costs for the additional registrations would impose the remaining \$230,000 of annual costs.

Finally, if the agency rescinded the tire registration requirements of Part 574, there would be a one-time requirement for the tire manufacturers and brand name owners to prepare and file compliance plans. NHTSA estimates this would cost an average of \$1,000 for the 50 affected parties, resulting in a total one-time cost of \$50,000. NHTSA assumes that the manufacturers would

incur costs of \$1,400,000 to enforce and/or promote its registration plans for independent dealers. This assumes it would cost tire manufacturers one cent for each tire sold through these dealers. Adding the additional handling and computer costs for increased tire registration of \$230,000 used throughout these estimates yields overall annual costs of \$1,630,000.

As noted above, the agency cannot quantify the benefits associated with increased tire registration at this time. If there were a recall of tires that posed a significant safety hazard, the owners of those tires whose names and addresses were not registered with the tire manufacturer could not be promptly and directly notified of the recall. In those circumstances, increasing the rate of tire registration would reduce the risk to motor vehicle safety. Both houses of Congress referred to the "relationship of tire registration to highway safety" in their Committee reports, indicating that Congress agrees with the agency's conclusion. However, such benefits cannot be quantified at this time.

NHTSA solicits public comments on its estimates of the burdens and benefits of each of these alternatives. Any data or information available to commenters with respect to these estimates would be particularly useful to the agency in determining what changes should be proposed to the current voluntary registration procedures.

This notice solicits comments on each of these approaches and any other approaches commenters believe would significantly increase registration rates for tires sold by independent dealers. It is requested but not required that 10 copies be submitted.

All comments must not exceed 15 pages in length. (49 CFR 553.21). Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential business information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. A request for confidentiality should be accompanied by a cover letter setting forth the information specified in the agency's confidential business information regulation. 49 CFR Part 512.

All comments received before the close of business on the comment closing date indicated above for the notice will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Comments received too late for consideration in regard to a notice of proposed rulemaking will be considered in connection with any final rule. Comments on the notice will be available for inspection in the docket. The NHTSA will continue to file relevant information as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose a self-addressed, stamped postcard in the envelope with their comments. Upon receiving the comments, the docket supervisor will return the postcard by mail.

(15 U.S.C. 1392, 1407, 1418; delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on December 18, 1986.

Barry Felrice,

Associate Administrator for Rulemaking.

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Proposed rule.

**SUMMARY:** The Service proposes to determine the Puerto Rican crested toad (*Peltophryne lemur*) to be a threatened species. Critical habitat is not proposed. The species is endemic to two islands on the Puerto Rican Shelf, but is presently thought to exist only on the main island of Puerto Rico, where a single large population is known from the southwest coast and a few small populations are believed to survive on the north coast. The threats include filling and drainage of its breeding sites, and direct loss of adults and their habitat during land development. This proposal, if made final, would

implement the protection and recovery provisions of the Endangered Species Act of 1973, as amended, for this toad. The Service seeks data and comments from the public on this proposal.

**DATES:** Comments for all interested parties must be received by February 23, 1987. Public hearing requests must be received by February 6, 1987.

**ADDRESSES:** Comments and materials concerning this proposal should be sent to the Field Supervisor, Caribbean Field Office, U.S. Fish and Wildlife Service, P.O. Box 491, Boquerón, Puerto Rico 00622. Comments and materials received will be available for public inspection, by appointment, at this office during normal business hours, and at the Service's Southeast Regional Office, Suite 1282, 75 Spring Street SW., Atlanta, Georgia 30303.

**FOR FURTHER INFORMATION CONTACT:** Mr. David Densmore at the Caribbean Field Office address (809/851-7297) or Mr. Richard P. Ingram at the Atlanta Regional Office address (404/331-3583 or FTS 242-3583).

#### SUPPLEMENTARY INFORMATION:

##### Background

The Puerto Rican crested toad (*Peltophryne lemur*) was first described in 1868 by E.D. Cope, and was later placed in the genus *Bufo* (Stejneger 1904). Recently, the native bufonids of the Greater Antilles have been regrouped under the genus *Peltophryne*, in recognition of their presumed monophyletic origin (Pregill 1981). *Peltophryne lemur* is a medium-sized toad, 64 to 120 millimeters (2.5 to 4.5 inches) in snout-vent length, yellowish-olive to blackish-brown in color, with prominent supraorbital crests and a distinctive long, upturned snout. Males are considerably smaller than females, and exhibit less prominent crests.

The Puerto Rican crested toad is endemic to two islands on the Puerto Rican Shelf (the main island of Puerto Rico and the island of Virgin Gorda in the British Virgin Islands). The known historic distribution on Virgin Gorda is very limited, and the species has not been observed there for at least two decades; it is assumed to have been extirpated from that island. It has historically been considered rare on Puerto Rico, and for several years before 1966 (García Díaz 1967) was even feared to be extinct there. From better knowledge of its habitat, the toad is now believed to be confined to certain areas on the coastal plain of Puerto Rico. It has been found as single individuals or very small populations at several locations on the north coastal plain, and

is known from two areas on the south coastal plain. Since 1975 it has been known to occur in Guánica Commonwealth Forest on the southern coast (Richard Thomas, University of Puerto Rico, pers. comm. 1976), and a large breeding aggregation estimated to contain more than a thousand individuals was found there in 1984 (Moreno 1985). The species has also been in captive propagation (Paine 1985), and approximately 850 toadlets were released in Cambalache Commonwealth Forest on the north coast in 1984 and 1985.

The Puerto Rican crested toad occurs at low elevations (below 200 meters or 660 feet) where there is exposed limestone or porous, well-drained soil offering a chance of fissures and cavities. Adults are semifossorial and widely dispersed when not breeding. Although not completely understood, breeding appears to be sporadic and highly dependent upon occasional heavy rains (Rivero *et al.* 1980, Moreno 1985). When rainfall and surface water are adequate, more than one breeding event may occur in a single season. Breeding is concentrated in a very short period, and within a few weeks the toadlets metamorphose and quickly disperse. Breeding shows a high fidelity to sites that offer the right combination of elevation, topography, and ponded fresh water.

The Puerto Rican crested toad appears to be susceptible to a variety of threats at various stages of its life cycle. Because of their cryptic behavior, the location or even presence of adult toads in an area being developed is difficult to detect in advance. More importantly, destruction of its breeding sites by filling or alternation of drainage may indirectly destroy even a large population. Many breeding sites are known to have been eliminated on both the north and south coasts of Puerto Rico, and with so few breeding sites known to remain, further losses could place the species in danger of extinction.

The Puerto Rican crested toad was included as a category 2 species in a notice of vertebrate wildlife review on December 30, 1982 (47 FR 58454). Category 2 comprises taxa for which information in the possession of the Service indicates that proposing to list the species is possibly appropriate, but for which available data are not judged sufficient to support such proposal. The Puerto Rico Department of Natural Resources petitioned the Service to list the Puerto Rican crested toad as endangered on December 27, 1984. On August 20, 1986 (51 FR 29671), the Service announced a 12-month finding

that the action requested by the petitioner was warranted but precluded by other listing actions in accordance with section 4(b)(3)(B)(iii) of the Endangered Species Act of 1973, as amended, and that available evidence indicated the species should be listed as threatened. This proposed rule constitutes an additional required petition finding, and indicates that the action requested by the petitioner is warranted.

#### Summary of Factors Affecting the Species

Section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR Part 424) promulgated to implement the listing provisions of the Act set forth the procedures for adding species to the Federal Lists. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in section 4(a)(1). These factors and their application to the Puerto Rican crested toad (*Peltophryne lemur*) are as follows:

##### A. The Present or Threatened Destruction, Modification, or Curtailment of its Habitat or Range

Although the Puerto Rican crested toad has historically been rare, the species has undoubtedly declined further as its coastal lowland habitats have been destroyed by agricultural and urban development. In particular, known breeding sites have been filled or drained for construction, cultivation, and mosquito control. The Puerto Rico Department of Natural Resources is presently considering construction of a visitors parking lot within the species' only known major breeding area in Guánica Commonwealth Forest. In addition, a major resort development has recently been proposed for a tract of private land adjacent to this site. This sudden acceleration of development pressure where the only known healthy toad population survives has increased concern over the species' continued existence. However, discussions between Federal and Commonwealth agencies have been initiated in an effort to find alternatives to the proposed developments that will avoid destruction of toad breeding habitat.

##### B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

The taking of toads has occurred for the purpose of captive breeding (Paine 1985), although only a few adults have been taken. However, overcollecting of other species of Puerto Rican herpetofauna is known to have occurred, and may become a factor

affecting the continued existence of this species. This would be more likely if collectors were aware of the location of breeding sites and were present during breeding when large numbers of toads may be concentrated in a small area.

##### C. Disease or Predation

Disease and predation have not been documented as factors in the decline of this species. Predation on dispersing toadlets is heavy, particularly from wading birds (Miguel Canales, Guánica Commonwealth Forest, pers. comm. 1986), and could become a significant factor with populations reduced too greatly by other problems.

##### D. The Inadequacy of Existing Regulatory Mechanism

The Commonwealth of Puerto Rico has recently adopted a regulation that recognizes and provides protection for certain Commonwealth listed species. The Puerto Rican crested toad is classed as threatened on the Commonwealth list. Federal listing would enhance this protection and apply the recovery and enforcement provisions of the Endangered Species Act to this species.

##### E. Other Natural or Manmade Factors Affecting its Continued Existence

Reproduction in this species appears to rely on climatic events that occur at irregular intervals. Such reliance may create natural fluctuations in numbers of this toad that could interact with reduced availability of breeding sites to increase the likelihood of whole population segments being eliminated. Both extremes in sex ratios among breeding animals have also been reported, a low incidence of males in one area by Rivero *et al.* (1980), and a low incidence of females at another locality by Moreno (1985), but the significance of these observations is difficult to assess without more information about the normal reproductive biology of this species.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to propose this rule. Based on this evaluation, the preferred action is to list the Puerto Rican crested toad as a threatened species. Threatened status is proposed because of the species' low numbers, restricted distribution, and apparent susceptibility to extirpation. Endangered status is not appropriate, since the species does not appear to be faced with imminent extinction. Critical habitat is not being proposed for reasons discussed in the following section.

### Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate any habitat of a species which is considered to be critical habitat at the time the species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not prudent for the Puerto Rican crested toad at this time. As discussed under threat Factor B in the "Summary of Factors Affecting the Species," collecting could threaten the toad's continued existence. The publication of critical habitat maps and other publicity accompanying critical habitat designation could increase collecting pressure and enforcement problems. The Service believes that Federal involvement in the areas where this species occurs can be identified without the designation of critical habitat. All involved parties and landowners will be notified of the location and importance of protecting this species's habitat. Protection of this species' habitat will also be addressed through the recovery process and through the section 7 jeopardy standard.

### Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, Commonwealth, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the Commonwealth and requires that recovery actions be carried out for all listed species. Such actions are initiated by the Service following listing. The protection required of Federal agencies and the prohibitions against taking and harm are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR Part 402 and were recently revised at 51 FR 19926 (June 3, 1986). Section 7(a)(4) requires Federal agencies to confer informally with the Service on any action that is likely to jeopardize the

continued existence of a proposed species or result in destruction or adverse modification of proposed critical habitat. If a species is subsequently listed, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of such a species or to destroy or adversely modify its critical habitat.

If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service. No critical habitat is being proposed for the Puerto Rican crested toad, as discussed above, and no Federal involvement is known or expected to occur.

The Act and implementing regulations found at 50 CFR 17.21 and 17.31 set forth a series of general prohibitions and exceptions that apply to all threatened wildlife. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to take, import or export, ship in interstate commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any listed species. It is also illegal to possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. Certain exceptions apply to agents of the Service and Commonwealth conservation agencies.

Permits may be issued to carry out otherwise prohibited activities involving threatened wildlife species under certain circumstances. Regulations governing permits are at 50 CFR 17.22, 17.23, and 17.32. Such permits are available for scientific purposes, to enhance the propagation or survival of the species, and/or for incidental take in connection with otherwise lawful activities. For threatened species, there are also permits for zoological exhibition, educational purposes, or special purposes consistent with the purposes of the Act. In some instances, permits may be issued during a specified period of time to relieve undue economic hardship that would be suffered if such relief were not available.

### Public Comments Solicited

The Service intends that any final action resulting from this proposal will be accurate and as effective as possible. Therefore, any comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning any aspect of this proposal are hereby solicited.

Comments particularly are sought concerning:

- (1) Biological, commercial trade, or other relevant data concerning any threat (or lack thereof) to this species;
- (2) The location of any additional populations of this species and the reasons why any habitat should or should not be determined to be critical habitat as provided by Section 4 of the Act;
- (3) Additional information concerning the range and distribution of this species; and
- (4) Current or planned activities in the subject area and their possible impacts on this species.

Final promulgation of the regulation on this species will take into consideration the comments and any additional information received by the Service, and such communications may lead to adoption of a final regulation that differs from this proposal.

The Endangered Species Act provides for a public hearing on this proposal, if requested. Requests must be filed within 45 days of the date of the proposal. Such requests must be made in writing and addressed to the Field Supervisor, Caribbean Field Office, P.O. Box 491, Boquerón, Puerto Rico 00622.

### National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the *Federal Register* on October 25, 1983 (48 FR 49244).

## DEPARTMENT OF AGRICULTURE

### Packers and Stockyards Administration

#### Proposed Posting of Stockyards; Limestone Co. Pig Assn., Inc., et al.

The Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

- AL-168 Limestone Co. Feeder Pig Assn., Inc., Athens, Alabama
- AL-169 Northeast Ala. Feeder Pig Assn., Inc., Section, Alabama
- AL-170 Upper Coastal Plains Feeder Pig Assn., Fayette, Alabama
- AL-171 Cullman Feeder Pig Assoc., Hanceville, Alabama
- AL-172 Northwest Alabama Feeder Pig Assn., Russellville, Alabama
- AL-173 Sand Mountain Feeder Pig Assn., Albertville, Alabama
- AL-174 Central Ala. Feeder Pig Assn., Clanton, Alabama
- AL-175 Sand Mountain Horse Auction, Horton, Alabama
- AR-163 Ward Livestock Auction, Ward, Arkansas
- IN-163 White Livestock Auction, Brookville, Indiana
- KY-173 Gateway Livestock Auction, Inc., Mt. Sterling, Kentucky
- MN-183 Auction Center Livestock, Frazee, Minnesota
- MO-263 Lyle Stockyards, Savannah, Missouri
- MO-264 MFA Livestock Association, Inc., Centerview, Missouri
- MO-265 Hwy. 47 Auction, St. Clair, Missouri
- MS-162 Glenwild Livestock Auction, Grenada, Mississippi
- WI-140 Great Northern Investments, Fond du Lac, Wisconsin

Notice is hereby given that pursuant to authority under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), it is proposed to

designate the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed designation, may do so by filing them with the Director, Livestock Marketing Division, Packers and Stockyards Administration, United States Department of Agriculture, Washington, DC 20250, by January 7, 1987.

All written submissions made pursuant to this notice shall be made available for public inspection in the office of the Director of the Livestock Marketing Division during normal business hours.

Done at Washington DC, this 9th day of December 1986.

Harold W. Davis,

Director, Livestock Marketing Division.

[FR Doc. 86-28735 Filed 12-22-86; 8:45 am]

BILLING CODE 3410-KD-M

#### Deposting of Stockyards; Pickens Co. LS Comm., Inc., et al.

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility No., name, and location of stockyard	Date of posting
AL-102 Pickens County LS Comm., Inc., Aliceville, Alabama.	June 19, 1962.
AL-108 Atmore Truckers Association, Inc., Atmore, Alabama.	May 16, 1959.
AL-111 Cherokee County Stockyard, Inc., Centre, Alabama.	May 18, 1959.
AL-119 Enterprise Livestock Co., Enterprise, Alabama.	Jul. 11, 1959.
AL-130 Kennamer Livestock Co., Inc., Guntersville, Alabama.	Jul. 10, 1959.
AL-132 Headland Stock Yards, Inc., Headland, Alabama.	May 18, 1959.
AL-133 Madison County Livestock Market, Huntsville, Alabama.	Jul. 13, 1959.
AL-135 Walker County Livestock, Jasper, Alabama.	Dec. 8, 1961.
AL-139 Marion Stockyard, Marion, Alabama.	Mar. 29, 1960.
AL-142 Aaron-Calvert Stockyard, Inc., Morris, Alabama.	May 1, 1957.
AL-149 Casey Stock Yards, Selma, Alabama.	Jan. 14, 1936.

#### Posted Stockyards; White Horse and Mule Co. et al.

Pursuant to the authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), it was ascertained that the livestock markets named below were stockyards within the definition of that term contained in section 302 of the Act, as amended (7 U.S.C. 202), and notice was given to the owners and to the public by posting notices at the stockyards as required by said section 302, on respective dates specified below.

Facility No., name, and location of stockyard	Date of posting
AL-166 White Horse and Mule Company, Holly Pond, Alabama.	Aug. 25, 1986.
AL-167 Kenneth Hinkle Feeder Pig Sale, Piedmont, Alabama.	Aug. 28, 1986.
IA-260 Bingley and Dykstra Sale Co., Knoxville, Iowa.	Aug. 11, 1986.
IN-162 Hahn's Horse Auction, Marengo, Indiana.	Aug. 18, 1986.
KY-172 Casey County Feeder Pig Market, Liberty, Kentucky.	Aug. 18, 1986.
NY-165 Angelica Feeder Sales Cooperative, Inc., Angelica, New York.	Sept. 5, 1986.
TX-330 Four County Auction Center, Inc., Industry, Texas.	Aug. 26, 1986.
TX-332 Arrowhead Livestock Sales Co., Wichita Falls, Texas.	Aug. 27, 1986.
VA-156 Culpepper Agricultural Enterprises, Inc., Culpepper, Virginia.	Aug. 18, 1986.

Done at Washington, DC, this 9th day of December 1986.

Harold W. Davis,

Director, Livestock Marketing Division.

BILLING CODE 3410-KD-M

#### Soil Conservation Service

##### Barton and Clyde Rivers Watershed, VT; Environmental Impact Statement

**AGENCY:** Soil Conservation Service, USDA.

**ACTION:** Notice of a finding of no significant impact.

**SUMMARY:** Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Barton and Clyde Rivers Watershed, Orleans, Caledonia, and Essex, Counties, Vermont.

**FOR FURTHER INFORMATION CONTACT:** John C. Titchner, State Conservationist, Soil Conservation Service, 69 Union Street, Winooski, Vermont 05404, telephone (802) 951-6795.

**SUPPLEMENTARY INFORMATION:** The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, John C. Titchner, State Conservationist has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for watershed protection and water quality improvement. The planned works of improvement include conservation land treatment and agricultural waste management practices.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting John C. Titchner, State Conservationist.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

#### DEPARTMENT OF COMMERCE

##### International Trade Administration

[Application # 86-00008]

##### Issuance of an Export Trade Certificate of Review

**AGENCY:** International Trade Administration, Commerce.

**ACTION:** Notice of issuance of an export trade certificate of review.

**SUMMARY:** The Department of Commerce has issued an export trade certificate of review to Streamline Shippers Association, Inc. This notice summarizes the conduct for which certification has been granted.

**FOR FURTHER INFORMATION CONTACT:** James V. Lacy, Director, Office of Export Trading Company Affairs, International Trade Administration, 202-377-5131. This is not a toll-free number.

**SUPPLEMENTARY INFORMATION:** Title III of the Export Trading Company Act of 1982 ("the Act") (Pub. L. No. 97-290) authorizes the Secretary of Commerce to issue export trade certificate of review. The regulations implementing Title III are found at 15 CFR Part 325 (50 FR 1804, January 11, 1985).

This Office of Export Trading Company Affairs is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a certificate in the **Federal Register**. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring on an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

##### Description of Certified Conduct

##### Export Trade

(a) *Products:* All products.

(b) *Consulting Services:* Consulting and market research and analysis.

(c) *Transportation Services (As They Relate to the Export of Products)* Include: Overseas freight transportation; inland freight transportation to a U.S. export terminal, port or gateway; packing and crating; leasing of transportation equipment and facilities; terminal or port storage; wharfage and handling; forwarder services; insurance;

warehousing; foreign exchange; financing and financial services; export sale and trade documentation and services; oversees distribution; paying or charging commissions; marketing; advertising; communication and processing of foreign orders; accounting; clerical services; consulting; customs services; feasibility studies; investment services; legal services; management services; and translation services.

#### Export Markets

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

#### Definitions

(a) "SSA Members" means those entities who are members within the meaning of the by-laws of SSA.

(b) "Independent management" means officers, employees and agents of SSA who are not directors, officers or employees of any company which buys or sells goods for which SSA provides Transportation Services.

(c) "Export Intermediary" means an entity who, for the export of Products, acts as a distributor, sales representative, sales or marketing agent, or broker, or who performs similar functions, including arranging for the provision of Transportation Services.

#### Export Trade Activities and Methods of Operation

SSA, acting through its independent management, may:

1. Consolidate and distribute the freight of SSA Members for goods exported or in the course of being exported;

2. Negotiate, procure, provide and administer Transportation Services to SSA Members;

3. Obtain and arrange for the services of Export Intermediaries for SSA Members. SSA may enter into exclusive agreements with Export Intermediaries whereby:

(a) SSA agrees to obtain Transportation Services only through the Export Intermediary(ies) in particular Export Markets, and/or

(b) The Export Intermediary(ies) agrees not to provide Transportation Services to SSA's competitors;

4. Enter into exclusive or nonexclusive agreements with persons, including SSA Members, in the Export Markets whereby SSA procures and provides Consulting Services to such persons;

5. Negotiate charges and other terms and enter into contracts which provide for Transportation Services to SSA Members including, but not limited to, the chartering and space chartering of vessels, the entering into of service contracts with ocean common carriers, the negotiation and utilization of through intermodal rates with common and contract carriers for inland freight transportation for export shipments to a U.S. export terminal, port, or gateway; and the combination and consolidation of container and less than containerload shipments into full containerized shipments. SSA may conduct this activity on behalf of SSA Members. For the purpose of fulfilling SSA's volume obligations with carriers or conferences, SSA may also accept for Transportation Service shipments from other shippers' associations.

6. Meet and discuss with SSA Members ideas, methods and information solely concerning Export Trade, including trade opportunities, selling strategies, sales, projected demands and business growth, customary terms of sale, and legal agreements for conducting business in the Export Markets, and expenses of exporting to specific points in the Export Markets;

7. Prescribe the following conditions with respect to membership for export purposes in, and withdrawal and expulsion from, SSA:

(a) Membership in SSA shall be initiated by application and shall be restricted to responsible firms whose shipping activities and products are of such a nature as to permit consolidation of shipments with other SSA Members without impeding the purposes of shipping economies and efficiencies intended by the formation of SSA;

(b) All SSA Members shall be approved by the Board of Directors (or by a committee thereof);

(c) SSA shall have two classes of SSA Members: (1) Individual members, and (2) group members, and may prescribe the eligibility requirements for each class of member;

(d) The Board of Directors may expel any SSA member at any duly convened meeting for failing to patronize SSA for a continuous period of six months;

(e) The Board of Directors may expel any SSA Member for failure to comply with the Articles of Incorporation, the by-laws, or any rules or regulations of SSA, provided SSA supplies that Member with prior notice and the opportunity to appear before the Board of Directors;

(f) The privileges of any SSA Member may be suspended by the Board of Directors if the Member does not pay all

freight charges on its freight shipments within the credit terms allowed by SSA; if upon suspension and notification to the Member of the action the charges remain unpaid, then such Member shall be automatically expelled from membership; and

(g) Any SSA Member may withdraw from membership by written notice to the principal office of SSA, but such withdrawal shall not affect the existing liabilities of the withdrawing member to SSA.

Provided, however, that the right of each SSA Member to obtain Consulting Services and Transportation Services from other than SSA is at all times guaranteed. However, SSA Members may be required to commit to tendering a specified volume through SSA prior to SSA's negotiating with a carrier or conference or under a volume contract SSA has in effect with a carrier or conference, and further provided that the specified volume of the SSA Member is not so large as to represent a total or near total commitment of the Member's transportation volume.

A copy of each certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

Dated: December 17, 1986.

James V. Lacy,

Director, Office of Export Trading Company Affairs.

### Defense Science Board Task Force on Special Systems Subgroup, Pacific Command Air Defense

**ACTION:** Notice of Advisory Committee Meetings.

**SUMMARY:** The Defense Science Board Task Force on Pacific Command Air Defense, Special Systems Subgroup will meet in closed session on January 13, 1986 at the Center for Naval Analyses, Alexandria, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will examine systems related to defense capabilities for shore installations in the Pacific Command and assess relevant

technology, equipment, and modernization plans.

In accordance with section 10(d) of the Federal Advisory Committee Act (Pub. L. No. 92-463, as amended (5 U.S.C. App. II, (1982))), it has been determined that this DSB Task Force meeting, concerns matters listed in 5 U.S.C. 552b(c)(1) (1982), and that accordingly this meeting will be closed to the public.

Patricia H. Means,  
OSD Federal Register Liaison Officer,  
Department of Defense.

## Department of the Navy

### Privacy Act of 1974; Amended Three Systems of Records

**AGENCY:** Department of the Navy, DOD.

**ACTION:** Notice of three amended systems of records subject to the Privacy Act.

**SUMMARY:** The Department of the Navy proposes to amend three systems of records in its inventory of record systems subject to the Privacy Act of 1974, as amended, (5 U.S.C. 552a).

**DATES:** This proposed action will be effective without further notice January 22, 1987, unless comments are received which would result in a contrary determination.

**ADDRESS:** Send any comments to Mrs. Gwen Aitken, Privacy Act Coordinator, Office of the Chief of Naval Operations (OP-09B30), Department of the Navy, The Pentagon, Washington, DC 20350-2000, telephone: 202-697-1459, autovon: 227-1459.

**SUPPLEMENTARY INFORMATION:** The Department of the Navy systems of records notices subject to the Privacy Act of 1974 have been published in the Federal Register as follows:

FR Doc 86-8485 (51 FR 12908) April 16, 1986

FR Doc 86-10763 (51 FR 18086) May 16, 1986 (Compilation)

FR Doc 86-12448 (51 FR 19884), June 3, 1986

FR Doc 86-19207 (51 FR 30377) August 26, 1986

FR Doc 86-19208 (51 FR 30393) August 26, 1986

The proposed amendments are not within the purview of the provision of 5 U.S.C. 552a(f) which requires the submission of an altered systems report.

Patricia H. Means,  
OSD Federal Register Liaison Officer,  
Department of Defense.  
December 18, 1986.

### N01070-3

**System name:** Navy Personnel Records System (51 FR 19884) June 3, 1986.

### Changes

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** At the end of the fifth paragraph, delete the period and add the following: " \* \* or related to assistance previously furnished such individuals, without regard to whether the individual assisted or his/her sponsor continues to be a member of the Navy."

### N06150-2

**System name:** Health Care Treatment Record System (51 FR 18186) May 16, 1986.

### Changes

**Categories of records in the system:** In line 3, after the phrase: " \* \* Navy and Marine Corps \* \* " add the following: " \* \* and civilian personnel \* \* "

**Purpose(s):** In line 24, after the phrase: " \* \* communicable disease control

program \* \* " add the following:

" \* \* tracking workmen's compensation claims for civilians, and tracking individuals for environmental health and occupational exposures \* \* "

**Record source categories:** At the end of the entry, add the following: "Information is also derived from the civilian personnel records systems."

### N06320-2

**System name:** Family Advocacy Program System (51 FR 18191) May 16, 1986.

### Changes

**Categories of records in the system:** Delete lines one and two and substitute with: "Medical records of suspected, unsubstantiated, substantiated and at risk cases \* \* "

### N01070-3

**System Name:** Navy Personnel Records System.

\* \* \* \* \*

### Routine Uses of Records Maintained in the System, including Categories of Users and the Purposes of Such Uses

To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management, supervision and administration of military personnel and the operation of personnel affairs and functions.

To officials and employees of the National Research Council in Cooperative Studies of the National History of Disease; of Prognosis and of Epidemiology. Each study in which the records of members and former members of the naval service are used must be approved by the Commander, Naval Military Personnel Command.

To officials and employees of the Department of Health and Human Services, Veterans Administration, and Selective Service Administration in the performance of their official duties related to eligibility, notification and assistance in obtaining benefits by members and former members of the Navy.

To officials and employees of the Veterans Administration in the performance of their duties relating to approved research projects.

To officials and employees of the Navy Relief and the American Red Cross in the performance of their duties relating to assistance of the members and their dependents and relatives, or related to assistance previously

furnished such individual, without regard to whether the individual assisted or his/her sponsor continues to be a member of the Navy.

To duly appointed Family Ombudsmen in the performance of their duties related to the assistance of the members and their families.

To state and local agencies in performance of their official duties related to verification of status for determination of eligibility for Veterans Bonuses and other benefits and entitlements.

To officials and employees of the Office of the Sergeant at Arms of the United States House of Representatives in the performance of their official duties related to the verification of the active duty naval service of members of Congress.

Information as to current military addresses and assignments may be provided to military banking facilities who provide banking services overseas and who are reimbursed by the Government for certain checking and loan losses. For personnel separated, discharged or retired from the Armed Forces information as to last known residential or home of record address may be provided to the military banking facility upon certification by a banking facility officer that the facility has a returned or dishonored check negotiated by the individual or the individual has defaulted on a loan and that if restitution is not made by the individual the United States Government will be liable for the losses the facility may incur.

To state, local, and foreign (within Status of Forces agreements) law enforcement agencies or their authorized representatives in connection with litigation, law enforcement, or other matters under the jurisdiction of such agencies.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

\* \* \* \* \*

*System Name:* Health Care Treatment Record System.

\* \* \* \* \*

#### *Categories of Records in the System*

Service medical (health and dental) records for active duty, Navy and Marine Corps and civilian personnel: System is made up of records pertaining

to the member or former member's medical history; physical, dental and mental examinations; consultation; inoculations; outpatient treatment, including laboratory and x-ray reports; report of medical boards; summaries of periods of hospitalization, dental evaluation and treatment, reports of exposure to environmental and radiation hazards, results of special diagnostics and clinical studies; recommendations regarding requests for waivers of established physical standards.

Inpatient and outpatient treatment records: File contains a multiplicity of prescribed forms documenting health evaluations, medical/dental care and treatment for any health or medical condition or problem provided an eligible individual on an outpatient and/or inpatient status. The records contain history and physical examinations or health evaluation, reports of exposure to ionizing radiation, consultation reports and medical care and treatment provided, including procedures utilized such as surgery, drugs, dietary, x-ray laboratory, nursing notes, physical therapy and other specialty care applicable to the medical diagnosis or condition found. The records also contain patients demographic data, family health history data, length of inpatient stay, disease nomenclature, discharge summary of inpatient care. Documentation of health history, diagnosis, care and treatment provided and the recording thereof conform with the standards prescribed by the joint commission on accreditation of hospital. In addition to, and based on individual medical record files, there are subsidiary records such as registers of patients; patient health care, medical board and death statistics; environmental health data; operation room schedules, tumor registers; appointment registers; sick call and treatment logs; x-ray files; laboratory files and logs; pharmacy records; EKG's; EEG's; neuropsychiatric evaluations; physical therapy records; other patient evaluation records, etc.

\* \* \* \* \*

#### *Purpose(s):*

This system is used by officials and employees of the Department of the Navy (and members of the National Red Cross in Navy Health Care Facilities) in the performance of their official duties relating to the health and medical treatment of Navy and Marine Corps individuals; determining physical qualifications and suitability of candidates for various programs; personnel assignments; adjudicating claims and appeals before the Council of

Personnel Boards, and the Board for Correction of Naval Records; rendering opinions regarding member's physical fitness for continued naval service; litigation involving medical care provided those categories of individuals are covered by this record system; performance of research studies and compilation of statistical data; implementing preventive medicine, dentistry, and communicable disease control programs; tracking workmen's compensation claims for civilians; and tracking individuals for environmental health and occupational exposures. Officials and employees of other components of the Department of Defense in the performance of their official duties relating to determining the physical qualifications of applicants; in providing medical care to those categories of individuals covered by this record system; and in the conduct of analyses and research studies.

\* \* \* \* \*

#### *Record Source Categories*

Reports from attending and previous physicians and other medical personnel regarding the results of physical, dental and mental examinations, treatment, evaluation, consultation, laboratory, x-ray and special studies conducted to provide health care to the individual or to determine the individual's physical and dental qualifications. Information is also derived from the civilian personnel records system.

\* \* \* \* \*

#### *N06320-2*

*System Name:* Family Advocacy Program System.

\* \* \* \* \*

#### *Categories of Records in the System*

Medical records of suspected, unsubstantiated, substantiated and at risk cases of family member abuse or neglect, also, investigative reports, correspondence, family advocacy committee reports, follow-up and evaluative reports, and any other supportive data assembled relevant to individual family advocacy program files.

BILLING CODE 3810-01-M

#### **Privacy Act of 1974; Amendment to a System of Records**

**AGENCY:** Department of the Navy (U.S. Marine Corps), DOD.

**ACTION:** Notice of an amendment to a system of records.

**SUMMARY:** The U.S. Marine Corps proposes to amend a system of records in its inventory of systems of records subject to the Privacy Act of 1974. The specific changes to the record system being amended are set forth followed by the record system notice, as amended, published in its entirety.

**DATES:** The proposed action will be effective without further notice January 22, 1987, unless comments are received which would result in a contrary determination.

**ADDRESS:** Send any comments to the system manager identified in the record system notice.

**FOR FURTHER INFORMATION CONTACT:** Mrs. B.L. Thompson, Privacy Act Coordinator, Headquarters, U.S. Marine Corps, Washington, DC 20380-0001, telephone: (202) 694-1452.

**SUPPLEMENTARY INFORMATION:** The U.S. Marine Corps systems notices for records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a) Pub. L. 93-579 were published in the *Federal Register* as follows:

FR Doc. 85-10237 (50 FR 22674) May 29, 1985  
FR Doc. 85-22610 (50 FR 35548) October 6, 1986

The proposed amendment is not within the purview of the provisions of 5 U.S.C. 552a(o) which required the submission of an altered system report.

Patricia H. Means,  
OSD Federal Register Liaison Office,  
Department of Defense.  
December 18, 1986.

#### MMN00006

**System name:** Marine Corps Military Personnel Records (OQR/SRB) (50 FR 22710) May 29, 1985.

#### Changes

#### Categories of individuals covered by the system

Delete the entire entry and substitute the following entry:

"All Marine Corps military personnel (enlisted/officer): active duty, reserve, retired and discharged or otherwise separated."

**Categories of records in the system:** Delete the entire entry and substitute the following entry:

"The system contains the Official Military Personnel File, SRB and OQR."

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** In paragraph three, line two, delete the word "undr" and substitute the word "under." In paragraph six, line two

delete "Hourse" and substitute the word "House."

Add the following paragraph to the end of the entry:

"To officials and employees of the Veterans Administration, Department of Health and Human Services, and Selective Service Administration in the performance of their official duties related to eligibility, notification and assistance in obtaining benefits by members and former members of the Marine Corps."

To a private organization under contract with the Veterans Administration for use in conducting a study of post-traumatic stress disorder and other post-war psychological problems of Vietnam veterans as mandated by Public Law 98-160.

To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management, supervision and administration of members and former members of the Marine Corps."

**Retrievability:** Starting at line three, delete the first phrase which reads "all temporary disability retired records."

Delete the last two sentences in the paragraph and substitute the following sentence:

"All other Marine Corps records retired to St. Louis, Missouri are accessed by the MSN and/or SSN and are retrieved by an assigned registry number."

**Safeguards:** Delete the entire entry and substitute the following paragraph: "Restricted access to building and all areas where data is maintained. Records are maintained in areas accessible only by authorized personnel who have been properly screened, cleared, and trained."

**Retention and disposal:** In the second line, delete the word "matintained" and substitute the word "maintained."

**System manager(s) and address:** After the words "Commandant of the Marine Corps" add the code "MMRB."

**Notification procedure:** In the first paragraph, starting at line 4, delete the words "(Code MS)" and substitute the code "MMRB."

In the third paragraph, starting at line 5, delete the words "Standard Navy Distribution List—Part 1 (OPNAV P09B3-107)" and substitute the words "Directory of Department of the Navy Mailing Addresses."

In the fourth paragraph, delete the last sentence and substitute the following sentence:

"Proof of identification may consist of an individual's active, reserve or retired identification card, Armed Forces

Report of Transfer or Discharge (DD Form 214), discharge certificate, driver's license or other data sufficient to insure the individual is the subject of the record."

**Record access procedures:** Starting at line 2, change "Code MS" to read "MMRB." In the last line change the numbers "1043" to read "1535."

**Record source categories:** Add at the end of the entry: "The individual of record."

#### MMN00006

**System Name:** Marine Corps Military Personnel Records (OQR/SRB).

#### System Location

Primary system—The Commandant of the Marine Corps, Headquarters, U.S. Marine Corps, Washington, DC 20380.

Decentralized segments—Custody of the commanding officer of the organization to which the Marine officer or enlisted individual is assigned for duty or administration of official records (OQR/SRB).

Decentralized segments—National Personnel Records Center, 9700 Page Blvd., St. Louis, Missouri 63132.

#### Categories of Individuals Covered by the System

All Marine Corps military personnel (enlisted/officer): active duty, reserve, retired and discharged or otherwise separated.

#### Categories of Records in the System

The system contains the Official Military Personnel File, SRB and OQR.

#### Authority for Maintenance of the System

Title 5, U.S. Code 301; Title 10, U.S. Code 5031.

#### Purpose(s)

To provide a record of all Marine Corps military personnel for use in management of resources, screening and selection for promotion, training and educational programs, administration of appeals, grievances, discipline, litigations and adjudication of claims and determination of benefits and entitlements.

#### Routine Uses of Records Maintained in the System, including Categories of Users and the Purposes of Such Use

See the Blanket Routine Uses at the head of the published Marine Corps systems notices in the *Federal Register*. In addition to the Blanket Uses, the following routine uses apply.

By officials and employees of the Coast Guard and National Guard in the

performance of their official duties relating to screening members who have expressed a positive interest in an inter-service transfer, enlistment, appointment or acceptance.

By agents of the Secret Service in connection with matters under the jurisdiction of that agency upon presentation of credentials.

By private organizations under government contract to perform random analytical research into specific aspects of military personnel management and administrative procedures.

By officials and employees of the American Red Cross and Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member.

By officials and employees of the Sergeant at Arms of the U.S. House of Representatives in the performance of official duties related to the verification of Marine Corps service of Members of Congress. Access will be limited to those portions of the member's record required to verify service time, active and reserve.

The Attorney General of the United States or his authorized representatives in connection with litigation, law enforcement, or other matters under the direct jurisdiction of the Department of Justice or as carried out as the legal representative of the Executive Branch agencies.

State, local and foreign (within Status of Forces agreements) law enforcement agencies or their authorized representatives in connection with litigation, law enforcement, or other matters under the jurisdiction of such agencies.

To officials and employees of the Veterans Administration, Department of Health and Human Services, and Selective Service Administration in the performance of their official duties related to eligibility, notification and assistance in obtaining benefits by members and former members of the Marine Corps.

To a private organization under contract with the Veterans Administration for use in conducting a study of post-traumatic stress disorder and other post-war psychological problems of Vietnam veterans as mandated by Pub. L. 98-160.

To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management, supervision and administration of members and former members of the Marine Corps.

### *Policies and Practices for Storing, Retrieving, Accessing, Retaining, and Disposing of Records in the System*

#### *Storage*

Records are stored on paper in file folders and on microfiche.

#### *Retrievability*

The records at Headquarters, U.S. Marine Corps (all active and reserve officer records, all temporary disability retired records, all active and organized reserve and Fleet Marine Corps Reserve enlisted records of personnel joined/transferred to these components subsequent to 30 June 1974, all former Commandants, all living retired officers (who served in a General Officer grade, records of all personnel separated/retired four months or less) are retrieved by social security number (SSN) and name. Except for OQRs and SRBs of participating members, all other categories of Marine Corps military personnel records are maintained at the National Personnel Records Center, St. Louis, Missouri. Those retired to St. Louis prior to 1 January 1964 and/or those with military service numbers (MSN) below 1800000 are retrieved by MSN and name. All other Marine Corps records retired to St. Louis, Missouri are accessed by MSN and/or SSN and are retrieved by an assigned registry number.

#### *Safeguards*

Restricted access to building and all areas where data is maintained. Records are maintained in areas accessible only by authorized personnel who have been properly screened, cleared, and trained.

#### *Retention and Disposal*

Records are permanent. Records maintained at Headquarters, U.S. Marine Corps are transferred to the National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132 four months after separation, placement on the Permanent Disability Retired List, retirement, retirement from Fleet Marine Corps Reserve, death of an officer who served in a General Officer grade and former Marines no longer considered of newsworthy status.

#### *System Manager(s) and Address*

Commandant of the Marine Corps, MMRB, Headquarters, U.S. Marine Corps, Washington, DC 20380

#### *Notification Procedure*

Correspondence pertaining to records maintained by Headquarters, U.S. Marine Corps should be addressed to: Commandant of the Marine Corps, MMRB, Headquarters, U.S. Marine

Corps, Washington, DC 20380, Telephone: Area Code 202/694-1043.

Correspondence pertaining to records maintained by National Personnel Records Center should be addressed to: Director, National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132, Telephone: Area Code 314/268-7155.

Correspondence pertaining to OQR and SRB records maintained by the respective commanding officer should be addressed to the command concerned as is shown the Directory of Department of the Navy Mailing Addresses.

Correspondence should contain the full name, Social Security Number and signature of the requester. The individual may visit any of the above activities for review of records. Proof of identification may consist of an individual's active, reserve or retired identification card, Armed Forces Report of Transfer or Discharge (DD Form 214), discharge certificate, driver's license or other data sufficient to insure that the individual is the subject of the record.

#### *Record Access Procedures*

Information may be obtained from: Commandant of the Marine Corps, MMRB, Headquarters, U.S. Marine Corps, Columbia Pike & Arlington Ridge Road, Arlington, Virginia 20380 Telephone: Area Code 202/694-1535.

#### *Contesting Record Procedures*

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

#### *Record Source Categories*

Staff agencies and subdivisions of Headquarters, U.S. Marine Corps.

#### *Marine Corps Commands and Organizations*

Other agencies of federal, state, and local governments.

#### *Medical Reports*

Correspondence from financial and other commercial enterprises.

Correspondence and records of educational institutions.

Correspondence of private citizens addressed directly to the Marine Corps or via the U.S. Congress and other agencies.

Investigations to determine suitability for enlistment, security clearances, and special assignments.

Investigations related to disciplinary proceedings.

The individual of record.

### Exemptions Claimed for the System None.

[FR Doc. 86-28837 Filed 12-23-86; 8:45 am]

BILLING CODE 3810-01-M

## DEPARTMENT OF EDUCATION

### Office of Special Education and Rehabilitative Services

#### Handicapped Children's Early Education Program; Extension of Closing Date

**AGENCY:** Department of Education.

**ACTION:** Extension of Closing Date for Transmittal of Applications for New Awards for the Handicapped Children's Early Education Program (HCEEP) for Fiscal Year 1987.

*Programmatic and fiscal information:* The Secretary announces the extension of the closing date for transmittal of applications for three notices under the Handicapped Children's Early Education Program for Fiscal Year 1987. The date applications are due is changed from January 17, 1987 to February 16, 1987. On August 27, 1986, the Secretary published in the *Federal Register* a Notice for Transmittal of Applications for the Handicapped Children's Early Education Program for Fiscal Year 1987 (51 FR 30530), for CFDA 84.024L and T. On September 23, 1986, the Secretary published in the *Federal Register* a Notice for Transmittal of Applications for the Handicapped Children's Early Education Program for Fiscal Year 1987 (51 FR 33850) for CFDA 84.086P.

**FURTHER INFORMATION:** For further information contact Dr. Thomas Finch, Chief, Early Childhood Branch, Office of Special Education Programs, U.S. Department of Education, 400 Maryland Avenue, SW., (Room 4611, Switzer Building), Washington, DC 20202. Telephone: (202) 732-1084.

**Program Authority:** 20 U.S.C. 1423. (Catalog of Federal Domestic Assistance Number 84.024; Handicapped Children's Early Education Program)

Dated: December 17, 1986.

Madeleine Will,

Assistant Secretary, Office of Special Education and Rehabilitative Services.

BILLING CODE 4000-01-M

### Office for Civil Rights; Annual Operating Plan

**AGENCY:** Department of Education.

### **ACTION:** Notice of Final Annual Operating Plan for Fiscal Year 1987.

**SUMMARY:** The Office for Civil Rights (OCR) issues its Fiscal Year (FY) 1987 Annual Operating Plan (AOP). The AOP describes the activities that OCR plans to conduct in FY 1987 with respect to compliance and enforcement, technical assistance, and program management.

**FOR FURTHER INFORMATION CONTACT:** Fred Tate, (202) 732-1479.

**SUPPLEMENTARY INFORMATION:** The proposed FY 1987 Annual Operating Plan for the Office for Civil Rights was published in the *Federal Register* on July 10, 1986 (51 FR 25091) with an invitation to comment. A summary of the comments received and the Secretary's responses to those comments are included below.

#### I. Introduction

The Office for Civil Rights (OCR) is responsible for ensuring that no person is unlawfully discriminated against on the basis of race, color, national origin, sex, handicap, or age, in the delivery of services or the provision of benefits in programs or activities receiving financial assistance from the Department of Education (ED). The jurisdictional authorities under which OCR operates are Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.

These authorities cover ED-funded programs and activities carried out by 50 State educational and rehabilitation agencies and those of their subrecipients, as well as those of the District of Columbia and the territories and possessions of the United States, approximately 16,000 local educational agencies, and approximately 3,300 institutions of higher education. In addition, OCR's civil rights authorities cover progress and activities in other institutions that receive ED funds, such as libraries and museums.

OCR ensures compliance with Federal civil rights statutes by the recipients of ED financial assistance through two basic types of activities: compliance activities and technical assistance activities. Most of OCR's time frames for compliance activities (including complaint investigations, compliance reviews, and monitoring the implementation of some voluntary compliance plans) are covered by the *Adams* court orders. However, OCR has some discretion over where it will conduct its compliance review and other monitoring activities and what those activities will cover. For the most part, OCR concentrates its compliance review

activities on those recipients that have been identified as having possible compliance problems. OCR also provides technical assistance, including the transfer of information, material, and skills to facilitate ED recipients' voluntary compliance with civil rights laws and to inform beneficiaries of their rights.

Compliance activities and technical assistance activities also may be combined. OCR may provide technical assistance to recipients at any time after the initiation of a compliance review or complaint investigation, or following its conclusion, either in response to a request from a recipient or after an inquiry by investigative staff as to whether a recipient would be interested in such assistance. As a result, compliance issues may be resolved in a nonconfrontational manner that facilitates closer cooperation at the recipient level, while assuring that the rights of beneficiaries are protected.

During FY 1987, OCR will continue to use two operational techniques designed to improve the efficiency of the case-handling process. The first, Early Complaint Resolution (ECR), is a process in which OCR acts as a mediator between the complainant and the recipient to negotiate a settlement between them. If the mediation is successful, OCR closes the complaint without an investigation. If the parties cannot reach an agreement, OCR investigates the complaint. During FY 1986, ECR was offered in 177 complaints (12 of the 177 offers were still pending as of September 30), accepted and attempted in 94 complaints (60 percent) and completed in 94 complaints (one of which had been initiated before the beginning of the fiscal year). Of the 94 cases in which ECR was completed, 61 (65 percent) were resolved successfully through mediation.

The second technique is pre-letter of findings (LOF) settlement. With this process OCR reviews its findings with the recipient on each of the issues raised in the complaint or covered by the compliance review, in an attempt to reach a settlement prior to the issuance of an LOF addressing areas of noncompliance. When settlement is reached, OCR sets forth the terms of the settlement, along with the applicable statutory requirements, in an LOF sent to the recipient. Where the settlement results from a complaint, the complainant is also sent a copy of the LOF. If an area of noncompliance has been resolved, the LOF cites the basis for the violation findings and the remedy adopted by the recipient. OCR then

monitors the implementation of these agreements.

The activities planned by OCR in FY 1987, and outlined below, are projected to be consistent with the appropriations authorized by Congress and approved by the President.

The following narrative describes the activities that OCR plans for FY 1987.

## II. Compliance and Enforcement Activities

OCR's compliance and enforcement responsibilities are divided into three general categories: Complaint investigations, compliance reviews, and monitoring activities.

### A. Complaint Investigations

OCR's primary compliance activity is the investigation and resolution of complaints alleging discrimination. Each timely, complete complaint must be resolved in accordance with established procedures and time frames.

OCR received 2,648 complaints and closed 2,788 (some of which had been filed before the beginning of the fiscal year) during FY 1986. OCR had 887 pending complaints as of September 30, 1986. Alleged discrimination against handicapped persons was the basis of approximately 43 percent of complaints received; sex, race, multiple bases, national origin, and age complaints followed in descending order of frequency. The complaints received involving elementary and secondary institutions comprised 53 percent of the FY 1986 complaints. Forty percent of the complaints received involved postsecondary institutions, while 2 percent involved vocational rehabilitation institutions, and 5 percent involved other institutions. During FY 1986, 83 percent of the complaints received involved issues of service delivery to students, 10 percent involved various employment issues, 3 percent involved both, and 4 percent involved other issues.

### B. Compliance Reviews

OCR's compliance review program complements its complaint investigation activities. Compliance reviews differ from complaint investigations in that OCR has some discretion in selecting the issues and institutions for review. This permits OCR to target resources on compliance problems that appear to be serious or national in scope and that may not have been raised by complaints.

During FY 1986, OCR initiated 196 compliance reviews. OCR closed 209 reviews, some of which had been initiated before the beginning of FY

1986. OCR had 115 open compliance reviews as of September 30, 1986.

During FY 1987, pursuant to the December 29, 1977, *Adams* order (*Adams v. Califano*, No. 3095-70 (D.D.C. December 29, 1977)), OCR intends to conduct an appropriate number of compliance reviews to ensure the enforcement of the civil rights laws.

While some review activities are required by the *Adams* order, most compliance reviews are discretionary. OCR has flexibility to choose the institutions to be investigated, the issues to be examined, and the dates on which the reviews will begin. Selection of review sites is based on various sources of information, including survey data indicating potential compliance problems and information provided by complainants, interest groups, the media, and the general public.

### C. Monitoring Activities

OCR closes many of the complaints and compliance reviews in which it has identified violations of civil rights statutes on the basis of a commitment by the recipient institution to complete remedial action at a future date. OCR has a responsibility to ensure that agreements to complete such remedial actions are carried out. To fulfill that responsibility, OCR may require a recipient to submit one or more progress reports detailing efforts to come into compliance with applicable laws. In some cases, OCR may go on-site to monitor a recipient's compliance with a negotiated remedial action plan. Other types of OCR monitoring activities include monitoring of higher education desegregation plans pursuant to the March 24, 1983, *Adams* order (*Adams v. Bell*, No. 3095-70 (D.D.C. March 24, 1983)) and vocational education Methods of Administration. In FY 1987, OCR will monitor activities such as:

- Implementation by recipient institutions of remedial action plans resulting from OCR complaint investigations and compliance reviews;
- Implementation of *Adams* higher education desegregation plans;
- Review and implementation of corrective action plans to provide educational opportunities to national origin minority students who are limited-English-proficient (*i.e.*, Title VI *Lau* plans); and
- Activities of 50 States, four territories, and the District of Columbia, to ensure that they fulfill their Methods of Administration responsibilities under the Vocational Education Guidelines and the July 1979 Memorandum of Procedures regarding the civil rights compliance of their vocational education subrecipients.

## III. Technical Assistance Activities

Technical assistance complements OCR's compliance activities because it encourages voluntary compliance. Through technical assistance, OCR is able to reach a far greater number of recipients than it could solely through complaint investigations or compliance reviews. OCR provides technical assistance to recipients to inform them of their responsibilities under the civil rights statutes and the ED implementing regulations and of means to meet these responsibilities. OCR provides technical assistance to beneficiaries to inform them of their rights under the civil rights statutes and to explore voluntary methods of securing those rights. During FY 1986, in addition to responding to requests for technical assistance; OCR regional offices were encouraged to provide the maximum level of technical assistance outreach efforts based on existing staff resources and ongoing assessments of recipient and beneficiary needs.

In FY 1987, OCR will conduct the following technical assistance activities:

- Continue development and implementation of Memoranda of Understanding with State and local educational and human rights agencies to facilitate meeting mutual civil rights compliance objectives and to promote the sharing of information;
- Coordinate with other ED program offices on the provision of civil rights-related technical assistance;
- Facilitate the exchange of information, materials, technical assistance strategies, techniques, and successful compliance practices and procedures among OCR staff providing technical assistance;
- Provide materials and courses to OCR regional investigators and legal staff to facilitate the provision of technical assistance training to educational institutions and State and local governments;
- Provide training to State and local educational agencies to enhance their capabilities to carry out civil rights activities; and

Prepare materials for dissemination to recipients and beneficiaries, summarizing and explaining OCR policies and regulations.

## IV. Program Management Activities

In conducting its compliance, enforcement, and technical assistance activities, OCR continues to implement a comprehensive program that includes—

- Formulating or updating regulations, policies, and investigative manuals,

- Providing technical guidance on complaints and compliance reviews referred from regional offices;
- Conducting hearings before Administrative Law Judges on the compliance of Federal financial recipients with civil rights requirements;
- Meeting with congressional staffs, school district representatives, college and university officials, complainants, and civil rights groups to discuss OCR activities;
- Conducting and evaluating OCR surveys and data collection projects to obtain information on recipients and beneficiary populations for enforcement purposes;
- Providing in-house programmatic training to investigators and legal staff engaged in civil rights compliance activities;
- Conducting a quality assurance program to ensure that a high level of quality is maintained in OCR compliance activities; and
- Operating a Management-by-Objectives program designed to enhance management planning and to track performance in meeting organizational goals.

#### V. Summary

While regional programs will vary due to considerations such as the number and type of complaints received, compliance reviews conducted, and requests for technical assistance, all OCR activities will be guided by national policies, priorities, and direction. As in previous years, each Regional Director will be responsible for timely fulfillment of OCR's obligations in handling complaint investigations and compliance reviews, monitoring compliance plans, and providing technical assistance to recipients and beneficiaries of ED financial assistance. A large part of each region's compliance program will involve the investigation of complaints of discrimination. Compliance reviews initiated in FY 1987 will include, as appropriate, each of OCR's civil rights jurisdictions in the geographic area served by each regional office. Monitoring activities will focus on ensuring that recipients comply with voluntary compliance plans and fulfill their vocational education Methods of Administration responsibilities. OCR will design technical assistance activities to respond to recipient and beneficiary needs.

#### Comments and Responses on Proposed AOP for FY 1987

*Comment:* The AOP does not describe how OCR will continue to enforce civil rights under the interpretation of the

*Grove City* decision given by outgoing Assistant Secretary Harry M. Singleton.

*Response:* No change has been made to the AOP. OCR will continue to enforce civil rights statutes for which it has authority within the confines of existing statutes, regulations, and case law. OCR's AOP generally does not include a discussion of the impact of individual judicial decisions.

*Comment:* The proposed AOP does not mention a Memorandum of Understanding to exchange information on complaints between OCR and the Office of Special Education Programs.

*Response:* No change has been made. OCR has established formal procedures for ongoing information exchange with a number of program offices within the Education Department. However, procedures between OCR and other components of the Department are internal operational activities not routinely discussed in the AOP.

*Comment:* A clear policy statement is needed from OCR that the protections of Pub. L. 94-142 follow the handicapped student into the regular classroom and that failure of regular educators to make accommodations written into the Individual Education Plan (IEP) is a violation of Pub. L. 94-142 and grounds for withholding Federal funds under that law.

*Response:* No change has been made. The AOP is not an appropriate vehicle for communicating OCR's policy position on specific legal issues. The Acting Assistant Secretary, who establishes national policy and program goals and direction, communicates these policy decisions/directives through policy memoranda issued to OCR offices.

#### Paperwork Reduction Act of 1980

The information collection activity to be undertaken pursuant to this plan is the Fall 1986 Elementary and Secondary School Civil Rights Survey. A notice was published in the *Federal Register* in the fall of 1985, prior to submission of the survey to OMB, notifying the public of OCR's intention to gather these data. This survey was approved by OMB on April 11, 1986 (OMB control number 1870-0500). Distribution to selected local educational agencies is now in progress. In addition to the above survey, OCR jointly sponsors two surveys with the Center for Statistics, the Fall Enrollment Survey (OMB control number 1850-0582), and the Completions of the Integrated Postsecondary Education Data System (OMB control number 3086-0238).

Dated: December 17, 1986.

William J. Bennett,

Secretary of Education.

BILLING CODE 4000-01-M

#### Office of Elementary and Secondary Education

#### Indian Education Act—Part B—Indian Fellowship Program

**AGENCY:** Department of Education.

**ACTION:** Notice of Amendment to Notice for Transmittal of New Applications for Fiscal Year 1987 under the Indian Fellowship Program.

**SUMMARY:** This notice amends the fiscal year 1987 notice inviting applications for new awards under the Indian Fellowship Program (CFDA No. 84.087), published in the *Federal Register* on September 17, 1986 (51 FR 33007), to reflect recent statutory changes to this program enacted as part of the Drug-Free Schools and Communities Act of 1986 (Title IV, Subtitle B of Pub. L. 99-570). The deadline for transmittal of these applications remains the same as under the original notice (February 6, 1987).

**FOR FURTHER INFORMATION CONTACT:** Dorothea Perkins, Indian Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW., Room 2177, FOB-6, Washington, DC 20202.

**SUPPLEMENTARY INFORMATION:** Section 4133(b)(2) of the Drug-Free Schools and Communities Act of 1986 amended section 423 of the Indian Education Act in two respects. First, clinical psychology has been added to the Indian Fellowship Program as a separate field. Second, section 4133(b)(2)(B) provides that "[n]ot more than 10 percent of the fellowships [under the Indian Fellowship Program] shall be awarded, on a priority basis, to persons receiving training in guidance counseling with a specialty in the area of alcohol and substance abuse counseling and education."

The purpose of this notice is to inform potential applicants of these statutory changes and specifically to invite applications in these areas. In order to receive priority consideration for funding, it is important that applicants receiving training in the priority area indicate in their applications not only the allowable field of study, such as education or psychology, in which they are seeking a degree, but also that they are "receiving training in guidance

counseling with a specialty in the area of alcohol and substance abuse counseling and education".

**Program Authority:** 20 U.S.C. 3385b.

**Dated:** December 17, 1986.

**Lawrence F. Davenport,**

*Assistant Secretary, Elementary and Secondary Education.*

[FR Doc. 86-28704 Filed 12-22-86; 8:45 am]

**BILLING CODE 4000-01-M**

### **Fund for the Improvement of Postsecondary Education**

**AGENCY:** Department of Education.

**ACTION:** Notice of Final Priority for the Fund for the Improvement of Postsecondary Education (FIPSE) Lectures Program for Fiscal Year 1987.

**SUMMARY:** The Secretary announces a Lectures Program to be conducted by the Fund for the Improvement of Postsecondary Education (FIPSE) on important issues in postsecondary education.

**EFFECTIVE DATE:** This priority takes effect either 45 days after publication in the *Federal Register* or later if Congress takes certain adjournments. If you want to know the effective date of this priority, call or write the Department of Education contact person.

#### **FOR FURTHER INFORMATION CONTACT:**

Russell Y. Garth, Fund for the improvement of Postsecondary Education, Office of Postsecondary Education, (Room 3100, ROB-3), Department of Education, 400 Maryland Avenue, SW., Mail Stop 3331, Washington, DC 20202, Telephone number (202) 245-8091.

**SUPPLEMENTARY INFORMATION:** Grants for the FIPSE Lectures Program are authorized by Title X of the Higher Education Act of 1965, as amended (20 U.S.C. 1135). Program regulations are established at 34 CFR Part 630. This program will be conducted as a Special Focus competition under 34 CFR 630.11(b)(1) of the program regulations. The purpose of the FIPSE Lectures Program is to provide modest sponsorship for promising work on key issues in postsecondary education, and to promote dissemination and discussion of this work among educational leaders, policy makers, faculty, students and the general public.

The program will enable individuals to devote at least a month to the development of ideas for presentation in lecture form at educational and other conferences, or in the context of established lecture programs such as those at colleges and universities.

### **Priority**

In accordance with Education Department General Administrative Regulations (EDGAR) at 34 CFR 75.105(c)(3), under this final priority the Secretary will give an absolute preference to applications that will carry out the FIPSE Lectures Program.

### **Summary of Comments and Responses**

The Fund received six letters of comment regarding the FIPSE Lectures Program. All were generally supportive of the program to support lectures on important issues in postsecondary education. The commenters made a number of suggestions regarding the program, and their comments are summarized and answered below.

**Comment:** Two commenters suggested that the Fund publish or otherwise disseminate the lectures more broadly.

**Response:** No change has been made. The Fund intends to work with publishers and broadcasters to ensure wide distribution of the lectures.

**Comment:** Two commenters suggested specific topic areas for funding priority within the FIPSE Lectures Program, including international education, the balance between teaching and research, evaluation of teaching effectiveness, graduate student teachers, and uses of technology.

**Response:** No change has been made. The Fund does not intend to give priority to proposals on the suggested topics this year. However, all proposals addressing significant issues in postsecondary education are eligible for funding.

**Comment:** One commenter suggested that the Lectures Program be widely publicized.

**Response:** No change has been made. In addition to the publication of the Application Notice in the *Federal Register* the Fund has mailed the Notice to institutional and disciplinary associations, as well as to all college and university presidents.

**Comment:** One commenter suggested that grantees under this program should have a minimum of seven years of prior involvement with the particular issue they will address.

**Response:** No change has been made. The Fund will consider the qualifications of the candidates for lecture grants in its review of applications. To require a specific number of years of experience in an area, however, might prevent some meritorious candidates from receiving grants.

**Comment:** One commenter suggested that the competition for grants be held in the spring to allow sufficient time for

advance planning by conference organizers.

**Response:** No change has been made. For the initial year of this program, two competitions are planned—one in the fall of 1986, and one in the spring of 1987. Should this competition be held annually, the Fund anticipates it will be conducted in the spring.

**Comment:** One commenter suggested that additional funds be allocated for this program.

**Response:** No change has been made. The Fund thinks this is an appropriate level of funding for this initiative. Future funding for this program is contingent upon an assessment of the program's success and the availability of funds.

**Comment:** One commenter suggested that FIPSE funding not be limited to only the Lectures Program.

**Response:** No change has been made. The Fund intends to use approximately \$60,000 to implement the Lectures Program in fiscal year 1987. The major portion of FIPSE funding will continue to be allocated to the Comprehensive Program.

### **DEPARTMENT OF ENERGY**

#### **Solicitation for Cooperative Agreement Proposal (SCAP); Florida; Correction**

**AGENCY:** Albuquerque Operations Office, DOE.

**ACTION:** Notice of solicitation for cooperative agreement proposal (SCAP), correction.

**SUMMARY:** In Volume 51, No. 170 of the *Federal Register* dated September 3, 1986, page 31355, we advertised the availability of a competitive SCAP to design, fabricate, assemble, install, and operate an Agricultural Commodities Irradiation Research Center in central Florida. As a result of the Energy and Water Development Act, 1987, this has been changed from a competitive SCAP to a noncompetitive SCAP. The Act stipulates that the project sponsor for the Florida Irradiation Research Center is the Florida Department of Agriculture & Consumer Services. Their address is Post Office Box 1269, Gainesville, FL 32602.

**FOR FURTHER INFORMATION CONTACT:**

Barbara N. Moore, U.S. Department of Energy, Albuquerque Operations Office, Contracts & Industrial Relations Division, P.O. Box 5400, Albuquerque, NM 87115, (505) 844-4229.

**AGENCY:** Albuquerque Operations Office, DOE.

**ACTION:** Notice of solicitation for cooperative agreement proposal (SCAP), correction.

**SUMMARY:** In Volume 51, No. 170 of the *Federal Register* dated September 3, 1986, page 31355, we advertised the availability of a competitive SCAP to design, fabricate, assemble, install, and operate an Agricultural Commodities Irradiation Research Center in southeastern Oklahoma. As a result of the Energy and Water Development Appropriations Act, 1987, this has been changed from a competitive SCAP to a noncompetitive SCAP. The Act stipulates that the project sponsor for the Oklahoma Irradiation Research Center is Red-Ark Development Authority. Their address is First National Center, Suite 103, 3rd & Choctaw, P.O. Box 1650, McAlester, OK 74502.

**FOR FURTHER INFORMATION CONTACT:**

Barbara N. Moore, U.S. Department of Energy, Albuquerque Operations Office, Contracts & Industries Relations Division, P.O. Box 5400, Albuquerque, NM 87115, (505) 844-4229.

Issued in Albuquerque, NM, November 25, 1986.

V.V. Berniklau,

**Economic Regulatory Administration**

**Proposed Remedial Order to T.E. Reserve Corp. and James G. Allison, Jr.**

**AGENCY:** Economic Regulatory Administration, DOE.

**ACTION:** Notice of Proposed Remedial Order to: T.E. Reserve Corporation and James G. Allison, Jr.

**SUMMARY:** Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to T.E. Reserve Corporation, formerly Texas Energy Reserve Corporation and James G. Allison, Jr. This Proposed Remedial Order alleges pricing violations in the amount of \$111,528,620.17 plus interest in connection with the purchase and resale of crude oil during the period October 1, 1979 through January 28, 1981. The impact of the alleged violation is nationwide.

A copy of the Proposed Remedial Order may be obtained from the Office of Freedom of Information Reading Room; U.S. Department of Energy; Forrestal Building; 1000 Independence Avenue, SW.; Room 1E-190; Washington, DC 20585. Within fifteen (15) days of publication of this Notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals; U.S. Department of Energy; Forrestal Building; 1000 Independence Avenue, SW.; Room 6F-078; Washington, DC 20585, in accordance with 10 CFR 205.193.

Issued in Dallas, Texas on the 10th day of December 1986.

Ben Lemos,

*Director, Office of Field Operations, Economic Regulatory Administration.*

[FR Doc. 86-28827 Filed 12-22-86; 8:45 am]

BILLING CODE 6450-01-M

**Proposed Remedial Order to William Valentine and Sons, Inc., et al., and Opportunity for Objection**

**AGENCY:** Economic Regulatory Administration, DOE.

**ACTION:** Notice of Issuance of Proposed Remedial Order to William Valentine and Sons, Inc., Valentine Construction, Inc., Dale L. Valentine, Verna L. Valentine and James L. Marchant (Respondents) and notice of opportunity for objection.

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration of the Department of Energy (DOE) hereby gives notice of a Proposed Remedial Order which was issued to William Valentine and Sons, Inc., Valentine Construction, Inc., Dale L. Valentine, Verna L. Valentine and James L. Marchant (Respondents) of Glenrock, Wyoming. This Proposed Remedial Order (PRO) finds Respondents jointly and severally liable with Big Muddy Oil Processors, Inc., (Big Muddy) for overcharges in crude oil sales under 10 CFR Part 212, Subpart L during the

period May 1979 through December 1980 (the audit period). OHA previously issued a Remedial Order to Big Muddy for the overcharges herein. 13 DOE ¶ 83,043 (1985). ERA alleges that there existed such a unity of interest and ownership among the corporate Respondents and Big Muddy that the corporate veils of these entities should be pierced and they should be held jointly and severally liable for Big Muddy's overcharges; that the individual Respondents, as owners and officers of Valentine and Sons, Valentine Construction and Big Muddy, are also liable, jointly and severally with the corporate Respondents, for Big Muddy's overcharges, on the basis of piercing the corporate veil; and that the individual Respondents were the central figures in Big Muddy's business in that they authorized, participated in, and approved Big Muddy's conduct of its reseller activities, and therefore, are liable for Big Muddy's overcharge on the basis of tortious conduct. The total violation amount is \$1,454,876.35 plus interest. The impact of these overcharges was ultimately borne by the consumers of covered products refined from this crude oil.

A copy of the PRO, with confidential information deleted, if any, may be obtained from the DOE Freedom of Information Reading Room, U.S. Department of Energy, 1000 Independence Avenue, SW., Room 1E-190, Washington, DC 20585.

Within fifteen (15) days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, U.S. Department of Energy, Room 6F-055, 1000 Independence Avenue, SW., Washington, DC 20585, in accordance with 10 CFR 205.193. A person who fails to file a Notice of Objections shall be deemed to have admitted the findings of fact and conclusions of law stated in the PRO. If a Notice of Objection is not filed in accordance with §205.193, the PRO may be issued as a final Remedial Order by the Office of Hearings and Appeals.

Issued in Washington, DC on the 12th day of December 1986.

Marshall A. Staunton,

*Administrator.*

**Energy Information Administration**

**Availability of Tertiary Incentive Annual Report**

**AGENCY:** Energy Information Administration, DOE.

**ACTION:** Notice of Intent to Continue Use of Form ERA-424D "Tertiary Incentive Annual Report of Prepaid Expenses," and Solicitation of Comments.

**SUMMARY:** The Department of Energy seeks comments on the continued use of Form ERA-424D, "Tertiary Incentive Annual Report of Prepaid Expenses."

**DATES:** Written comments must be submitted by January 22, 1987.

**ADDRESS:** Comments should be sent to Seymour Kleiman, at the address listed below.

**FOR FURTHER INFORMATION OR COPY OF FORM CONTACT:** Seymour Kleiman, RG-44, Forrestal, Case Review and Litigation Support, Office of the Solicitor, U.S. Department of Energy, Washington, DC 20585 (202) 252-2674.

**SUPPLEMENTARY INFORMATION:**

- I. Background
- II. Request for Comments

**I. Background**

The basis for Form ERA 424D has been noted in the *Federal Register*. As stated in 46 FR 20508 (April 3, 1981):

10 CFR 212.78(h)(5) requires a producer to file an annual report with respect to prepaid expenses attributed to that producer until the actual use of the item for which these expenses were incurred and paid. Since this report is necessary to confirm the satisfaction of a condition subsequent to the recovery of prepaid expenses, this requirement will be retained indefinitely.

In accordance with 10 CFR 212.78, an operator shall file an annual prepaid expenses report each year until the operator has reported the actual use of all the goods and services for which a prepaid expense had been incurred and paid.

Forms submitted to DOE thus far state that producers will utilize prepaid expenses beyond 1987. This indicates the continuing necessity for the form.

**II. Request for Comments**

The ERA invites all interested parties to comment on the proposed use of this form through March 30, 1990. The following general guidelines are provided to assist in the preparation of any comments.

(a) Are the instructions clear and sufficient?

(b) Do you have any suggestions for improving the form?

(c) Can the data be submitted using the definitions included in the instructions?

(d) How many hours, including time for preparation and administrative review, will your organization require to complete and submit the form?

(e) What is the estimated cost of completing the form, including the direct and indirect costs associated with the data collection? Direct costs should include all one-time and recurring costs, such as development, assembly, equipment, ADP, and other administrative costs directly to providing this information.

(f) Do you know of any Federal, State or local agencies that collect the same types of data? If yes, please identify the agency form number(s) and explain how the data are duplicative.

(g) What are your views concerning the need for the collection of the data specified on Form ERA-424D?

Summaries and/or comments submitted in response to this notice will be included in the request for Office of Management and Budget approval of this form and will become a matter of public record.

**Statutory Authority**

(Sections 13(b), 5(b), 5(a), and 52 of the Federal Energy Administration (FEA) Act of 1974. [15 U.S.C. 772(b), 764(b), 764(a) and 790(a)].

Issued in Washington, DC on December 17, 1986.

**ENVIRONMENTAL PROTECTION AGENCY**

[OPTS-59798; FRL 3132-2]

**Office of Pesticides and Toxic Substances; Certain Chemicals Premanufacture Notices**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of the final rule published in the *Federal Register* of May 13, 1983 (48 FR 21722). In the *Federal Register* of November 11, 1984, (49 FR 46066) (40 CFR 723.250), EPA published a rule which granted a limited exemption from certain PMN requirements for certain types of polymers. PMNs for such polymers are reviewed by EPA within 21 days of

receipt. This notice announces receipt of five such PMNs and provides a summary of each.

**DATES:** Close of Review Period:

Y 87-58—December 25, 1986.

Y 87-59—December 29, 1986.

Y 87-60—December 30, 1986.

Y 87-62—December 31, 1986.

**FOR FURTHER INFORMATION CONTACT:**

Wendy Cleland-Hamnett, Premanufacture Notice Management Branch, Chemical Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-611, 401 M Street, SW., Washington, DC 20460, (202) 382-3725.

**SUPPLEMENTARY INFORMATION:** Effective with this notice, a non-substantive change in format is being initiated for information published under section 5(d)(2) and 5(h)(6) of the Toxic Substances Control Act. Toxicity data will only appear in the notice when submitted with the PMN. Exposure and environmental release/disposal information will no longer be published in the notice. The following notice contains information extracted from the non-confidential version of the PMNs received by EPA. The complete non-confidential PMNs are available in the Public Reading Room NE-G004 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

### **FEDERAL COMMUNICATIONS COMMISSION**

#### **Public Information Collection Requirement Submitted to Office of Management and Budget for Review**

December 15, 1986.

The Federal Communications Commission has submitted the following information collection requirement to the Office of Management and Budget for review and clearance under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

Copies of the submissions may be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street NW., Suite 140, Washington, DC 20037. For further information on these submissions contact Jerry Cowden, Federal Communications Commission, (202) 632-7513. Persons wishing to comment on these information

collections should contact J. Timothy Sprehe, Office of Management and Budget, Room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: None.

Title: Section 76.58, Disputes concerning carriage.

Action: New collection.

Respondents: Broadcast television stations and cable television systems

Estimated Annual Burden: 1,055

Responses; 9,811 Hours.

Needs and Uses: Provides a mechanism by which disputes involving carriage of television signals by cable television systems can be resolved. If no carriage agreement is reached between the parties, a ruling on the matter may be requested from the Commission.

OMB Number: None.

Title: Section 76.66, Input selector switches.

Action: New collection.

Respondents: Cable television system operators.

Estimated Annual Burden: 4,000,000 Responses; 68,000 Hours.

Needs and Uses: Requires cable television system operators to provide written installation instructions to existing subscribers who choose to install their own input selector switches rather than having the cable system operator make the installation. The instructions will enable subscribers to properly install the switches.

Federal Communications Commission.

[FCC 86-482]

### FM Transmitter Site Map Submissions Required by FCC Forms 301 and 340

**AGENCY:** Federal Communications Commission (FCC).

**ACTION:** Requirements established for transmitter site maps submitted with FM applications.

**SUMMARY:** This action affirms the requirements of FCC Forms 301 and 340 for FM transmitter site maps established by the staff in April 1985. Because adequate notice of these requirements was not given to the public, applicants who appealed the Commission action returning their applications for failure to comply with the new transmitter site map requirements shall receive *nunc pro tunc* reconsideration. This action is designed to provide sufficient notice of the transmitter site map requirements of FCC Forms 301 and 340 to future FM applicants.

**EFFECTIVE:** December 30, 1986.

**ADDRESS:** Federal Communications Commission, 1919 M Street, NW., Washington, DC, 20554.

**FOR FURTHER INFORMATION CONTACT:** Roxanne McElvane, FM Branch, Mass Media Bureau, (202) 632-3954.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Memorandum Opinion and Order*, FCC 86-482, adopted October 24, 1986 and released November 4, 1986.

The full text of this Commission decision is available for inspection and copying during normal business hours in the Audio Services Division (Room 302), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's Copy Contractor, International Transcription Service, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

### Summary of Memorandum Opinion and Order

1. In this *Memorandum Opinion and Order (MO&O)*, we are considering the requirements established in a *Public Notice*, mimeo 3693, (released April 5, 1985) concerning FM transmitter site map submissions. These requirements of

FCC Forms 301 and 340 are specifically designed to enable the staff to independently verify the stated geographic coordinates and topographic features of the proposed site and are an indispensable requisite under the new "hard look", limited amendment processing procedures applicable to FM applications.

2. While we agree that the requirements of FCC Forms 301 and 340 established in the April 5, 1985 *Public Notice* are necessary to the efficient processing of FM applications, we believe that the Administrative Procedure Act at 5 U.S.C. 552(a)(1)(C) requires that the contents of that *Public Notice* should have been published in the *Federal Register* in order to provide adequate notice to the public of requirements of FCC Forms 301 and 340 set forth therein. Having failed to provide adequate notice to the public, it would not be proper to impose the requirements set forth in that *Public Notice* upon applicants who were not provided adequate notice thereof.

3. Accordingly, it is ordered That, as to all applicants who have preserved their rights at various levels of appeal, the staff is directed to reinstate *nunc pro tunc* those applications returned for failure to comply with the requirements of the *Public Notice*.<sup>1</sup>

4. It is further ordered That, given the necessity of the information called for in the *Public Notice* and in order to avoid further delay in the processing of FM applications, the requirements set forth in the *Public Notice*, Mimeo 3693 (released April 5, 1985), appended hereto, shall be effective seven days after publication in the *Federal Register*.

### Appendix

[This *Public Notice* has been modified to clarify that the requirements set forth herein are called for in FCC Forms 301 and 340.]

### Public Notice

[3693]

April 5, 1985.

### Clarification of FM Transmitter Site Map Requirements of FCC Forms 301 and 340

This notice is part of the Commission's continuing effort to expedite the processing of FM applications in order to bring new

<sup>1</sup> All applications pending as of the effective date of this *Memorandum Opinion and Order* that do not comply with the requirements for FM transmitter site maps set forth in the attached Appendix shall be retained and the applicants will be permitted to amend their applications to correct this deficiency only.

broadcast service to the public as rapidly as possible.

When applying for an FM station construction permit, one of the submissions required by FCC forms 301 and 340 is a 7.5 minute series U.S. Geological Survey topographical quadrangle map upon which is marked the transmitter site.

In order to allow the Commission's processing staff to verify the correctness of the geographic coordinates provided in an application, FCC Forms 301 and 340 now require that this site map show along the printed margin of both axes at least two coordinate markings, specifically labeled by the USGS, one on either side of the marked site.

Additionally, a scale of kilometers or miles (kilometers, if available) and all of the identifying map information must be included. The site should be plotted on a full scale map, and all of the contour lines must be clearly visible. Faded, smudged or otherwise illegible maps are unacceptable. Photocopies are acceptable in lieu of actual USGA Maps, provided they are clear, dark and legible. It is not necessary to submit an entire map (although this is perfectly acceptable), but only as much as is necessary to fully comply with the requirements described above.

In certain cases it may be inconvenient to provide a full scale photocopy which includes both the site and the margins. This can occur when the site lies towards the center of the map. In this case the following alternative is acceptable. Provide a full scale copy of the section of the map containing the site. This copy must include either four of the standard printed cross-marks or one margin and two cross-marks. Fine lines should be drawn between the marks in such a fashion as to enclose the site. Each of these lines should be labeled with the appropriate latitude or longitude. This full scale map section must include all the information specified in the previous paragraph. In addition, a reduced copy of the entire map must be included to allow the Commission's staff to verify that the lines have been correctly labeled.

If the above requirements are not met, the application will be returned without further review. Prospective applicants should understand that the Commission cannot process an application to grant without being able to verify the correctness of the site elevation and site coordinates. These coordinates serve as the reference point for all calculations of spacing, coverage and interference.

Questions concerning the above should be directed to Bob Greenberg, FM Branch, (202) 632-6908.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

### Radio Broadcasting; AM Daytime Stations; Freeze on Acceptance of Applications

**AGENCY:** Federal Communications Commission.

**ACTION:** Freeze on acceptance of applications for AM daytime stations.

**SUMMARY:** This action imposes a temporary freeze on the acceptance of applications for AM daytime stations. This action is necessary to limit the number of new AM daytime stations authorized and is designed to eliminate the preclusive effect new AM daytime stations have on the ability of other applicants seeking authority to broadcast on a full-time basis and existing AM daytime stations that want to broadcast on a full-time basis.

**EFFECTIVE DATE:** December 11, 1986.

**ADDRESS:** Federal Communications Commission, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Leonore Cunningham, Audio Services Division, Mass Media Bureau, (202) 632-6485.

**SUPPLEMENTARY INFORMATION:** None.

Federal Communications Commission.

William J. Tricarico,

Secretary.

December 12, 1986.

### Freeze Imposed on Filing of Applications for New AM Daytime Stations

Over the last several years, the Commission has repeatedly recognized the need for extensive modifications in our AM policies and rules governing such broadcasters. See *Report on the Status of the AM Broadcast Rules*, (Submitted to the Federal Communications Commission, prepared by the staff of the Mass Media Bureau April 3, 1986). The difficulties facing AM daytime stations are compounded by the limitations on their hours of operation and the attendant inability to effectively compete with full-time radio broadcasters. In this regard, the Commission has adopted procedures which make it possible for many existing AM daytime stations that operate on foreign clear channels to broadcast with limited power at night. In *re Nighttime Operation on Canadian, Mexican and Bahamian AM Clear Channels* (MM Docket 84-251), 59 RR 2d 655 (1985), reconsideration granted in

part, denied in part, 59 RR 2d 1187 (1986). However, applicants proposing new AM daytime stations are not permitted to apply for these foreign clear channels because such proposals could preclude the establishment of fulltime stations on these channels and/or impede our efforts to provide relief for existing daytime stations.

For these same reasons, we believe that the restrictions on filing applications for new AM daytime stations with respect to foreign clear channels should apply to all channels in the AM band. In continuing to authorize new AM daytime stations we not only complicate the task of offering relief to such existing stations, but we also perpetuate the very problem we are seeking to address. Moreover, we believe that it is in the public interest to restrict future applicants to proposing full-time operation since this generally results in more efficient use of scarce spectrum space.

Accordingly, until further notice we are imposing a temporary freeze on the acceptance of applications for new AM daytime stations received after the adoption date of this Public Notice. This action is taken in contemplation of a formal rulemaking proceeding to propose a permanent ban on acceptance of applications for new AM daytime stations. Applications for new daytime stations on file before the adoption date of this Public Notice and applications filed after the adoption date that are mutually exclusive with applications listed on an "A" cut-off list shall be processed as usual. This action will not restrict the ability of existing AM daytimers to apply to modify their facilities.

Action by the Commission December 11, 1986 (FCC 86-541). Commissioners Fowler (Chairman), Quello, Dawson, Patrick and Dennis.

For further information contact Lenore Cunningham at (202) 632-6485.

[FR Doc. 86-28770 Filed 12-22-86; 8:45 am]

BILLING CODE 6712-01-M

### FEDERAL HOME LOAN BANK BOARD

[No. 86-1253]

#### FSLIC Insurance Premium

Dated: December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Notice.

**SUMMARY:** The Federal Home Loan Bank Board, as operating head of the Federal Savings and Loan Insurance

Corporation ("FSLIC" or "Corporation"), has adopted a resolution pursuant to which the Corporation ordered the assessment against each insured institution of an additional premium for FSLIC insurance in an amount equal to one thirty-second of one percent of the total amount of the accounts of the insured members of each insured institution determined as of September 30, 1986.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:**

Mary A. Creedon, Director, Insurance Division, Office of the FSLIC, (202) 377-6620; or JoAnne Morris, Attorney, Office of General Counsel (202) 377-7396, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552.

**SUPPLEMENTARY INFORMATION:**

Whereas, The Federal Home Loan Bank Board ("Bank Board"), as operating head of the Federal Savings and Loan Insurance Corporation ("Corporation" or "FSLIC"), may authorize the Corporation, pursuant to section 404(c) of the National Housing Act, as amended ("NHA"), 12 U.S.C. 1727(c) (1982), to assess against each institution the accounts of which are insured by the Corporation pursuant to section 403 of the NHA, 12 U.S.C. 1726 (1982) ("insured institution"), additional premiums for such insurance until the amount of such premiums equals the amount of all losses and expenses of the Corporation, *Provided* that the total amount so assessed in any one year against any insured institution shall not exceed one eighth of one per centum of the total amount of the accounts of the insured members of such institution; and

Whereas, the Bank Board, as operating head of the Corporation, by Resolution No. 85-142, dated February 22, 1985, by Resolution No. 85-437, dated June 5, 1985, by Resolution No. 85-770, dated August 28, 1985, by Resolution No. 85-1142, dated December 9, 1985, by Resolution No. 86-213, dated March 6, 1986, by Resolution No. 86-582, dated June 10, 1986, and by Resolution No. 86-941, dated September 2, 1986, ordered assessments against each insured institution of an additional premium for insurance in an amount equal to one thirty-second of one per centum of the total amount of the accounts of the insured members of each insured institution determined as of December 31, 1984, for the first assessment, as of March 31, 1985, for the second, as of June 30, 1985, for the third, as of September 30, 1985, for the fourth, as of December 31, 1985, for the fifth, as of March 31, 1986, for the sixth, and as of June 30, 1986, for the seventh; and

Whereas, The Bank Board has considered memoranda of the Corporate Accounting Branch and the Chief Financial and Administrative Officer, Office of the FSLIC, (a copy of which memoranda are in the Minute Exhibit file), describing the impact of the collection of the additional premiums for insurance assessed pursuant to Resolution No. 85-142, dated February 22, 1985, Resolution No. 85-437, dated June 5, 1985, Resolution No. 85-770, dated August 28, 1985, Resolution No. 85-1142, dated December 9, 1985, Resolution No. 86-213, dated March 6, 1986, Resolution No. 86-582, dated June 10, 1986, and Resolution No. 86-941, dated September 2, 1986, upon the Corporation's insurance reserves:

Now, therefore, it is resolved, That on the basis of the administrative record, the Bank Board finds and determines that the Corporation has incurred substantial losses during calendar years 1981 through 1985 and the first three quarters of 1986; and

Resolved further, That the Bank Board finds and determines that:

1. Losses and expenses incurred by the Corporation, as defined in Resolution No. 85-142, require the assessment of additional insurance premiums pursuant to section 404(c) of the NHA in addition to the additional insurance premiums assessed pursuant to Resolutions No. 85-142, No. 85-437, No. 85-770, No. 85-1142, No. 86-213, No. 86-582, and No. 86-941 in order to maintain the insurance reserves of the Corporation at a level adequate to meet in part the Corporation's losses and expenses and to protect the insured members of insured institutions;

2. It is appropriate, therefore, to provide for the assessment of an additional insurance premium at this time, pursuant to section 404(a)(2) of the NHA, by order of the Corporation; and

Resolved further, That the Corporation hereby orders the assessment against each insured institution of an additional premium for insurance for the fourth quarter of 1986, in an amount equal to one thirty-second of one per centum of the total amount of the accounts of the insured members of such insured institution determined as of September 30, 1986; and

Resolved further, That the additional insurance premium assessed pursuant to this Resolution shall be payable on or about December 31, 1986; and

Resolved further, That the Director or Deputy Director, Office of the FSLIC ("Director"), shall determine the amount of the additional premium due to be paid on December 31, 1986, by each insured institution and shall notify each insured

institution of such amount at least fifteen (15) days prior to the date such amount is due; and

Resolved further, That the Director, on behalf of the Corporation, is hereby authorized to take all other actions necessary or appropriate to determine and collect the additional insurance premium authorized and ordered by this Resolution; and

Resolved further, That the Secretary shall forward this Resolution for publication in the **Federal Register**.

By the Federal Home Loan Bank Board.

Nadine Y. Washington,

Acting Secretary.

[No. 86-1239]

**Privacy Act of 1974; New System of Records**

December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Final notice of new system of records.

**SUMMARY:** Pursuant to the requirements of the Privacy Act of 1974 ("Privacy Act") (5 U.S.C. 552) (1982 & Supp. II 1984)), the Federal Home Loan Bank Board ("Board") is establishing a new system of records in order to collect information on known or suspected criminal violations and enforcement actions taken against persons in connection with the operation of financial institutions, their holding companies or service corporations, as well as change-of-control applications filed by, and other significant business transactions with, individuals concerning institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation ("Corporation" or "FSLIC"). Comments on the Notice of Proposed New System of Records published at 51 FR 6316 (Feb. 21, 1986), which would establish the system, and the Proposed Rule published at 51 FR 6261 (Feb. 21, 1986), which would exempt the system of records from certain requirements of the Privacy Act, have been considered and are jointly discussed in the Rules and Regulations Section of the **Federal Register**. As stated therein the Board is establishing the system of records without change from its earlier notice.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:** John Downing, Attorney, (202) 653-2604 or Rosemary Stewart, Director, (202) 653-2626, Office of Enforcement, Federal

Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552.

Authority: 5 U.S.C. 552a.

##### SYSTEM NAME:

Confidential Individual Information System.

##### SYSTEM LOCATION:

Federal Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552.

##### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

These records may contain information concerning individuals who have filed notices of intention to acquire control of an insured institution, controlling persons of companies that have filed applications to acquire control of an insured institution, organizers of institutions seeking FSLIC insurance of accounts or federal charters, individuals who have been the subject of administrative enforcement actions or other civil actions by any agency with authority to supervise or regulate federally insured financial institutions, those who have been named in criminal referrals by such agencies or by federally insured institutions or who have been referred to professional societies, licensing authorities or ethics committees for disciplinary purposes, individuals identified as the subjects of criminal investigations by the Department of Justice or state law enforcement authorities in connection with the operation of federally insured financial institutions, and persons engaging in significant business transactions with FSLIC-insured institutions. This system also contains the identity of the custodian of any documents describing the specific event causing entry into the system.

##### CATEGORIES OF RECORDS IN THE SYSTEM:

The records identify the individual involved and his relationship to the institution, service corporation or holding company; the event causing entry of information into the system (e.g., a change-of-control filing, an enforcement action, a criminal referral naming an individual or a referral of information to a professional group for disciplinary action, or receipt of information concerning a criminal or civil violation involving an insured institution); any regulatory or judicial action taken as a result; and the location and nature of any additional records concerning the specific event.

##### AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1464 and 1730.

##### ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING THE CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) To provide the Board's Office of Regulatory Policy, Oversight and Supervision ("ORPOS") and Office of Enforcement ("Enforcement") and the Federal Home Loan Banks with information concerning the current status of suspected criminal violations in connection with institutions the accounts of which are insured by the FSLIC, their holding companies, and service corporations, which have been referred to the Department of Justice or other law enforcement agencies for possible investigation and prosecution.

(b) To provide information to government agencies that supervise or regulate any of the operations of financial institutions concerning whether persons connected with these institutions have been the subject of administrative or civil enforcement actions.

(c) To provide information concerning a violation or potential violation of civil or criminal law, rule, order or regulation to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or implementing the statute, rule regulation, or order.

(d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

(e) To respond to requests from the Congress.

(f) To provide information to the Office of General Counsel ("OGC"), ORPOS and the Federal Home Loan Banks concerning groups or individuals applying for permission to organize a Federal association and/or making *de novo* applications for FSLIC insurance and the officers and directors of those proposed institutions, and concerning officers and directors of existing financial institutions applying for FSLIC insurance for use in considering those applications.

(g) To provide information to OGC, ORPOS, Enforcement, and the Federal Home Loan Banks concerning persons who have filed notices of intention to acquire control of insured institutions and controlling persons of companies filing applications to acquire control of insured institutions to determine if any agency action is required.

(h) To provide information (1) to ORPOS, Enforcement and the Federal

Home Loan Banks' examining and supervisory staffs with regard to persons transacting business with or for savings institutions in connection with the Board's examination and supervision of insured institutions, service corporations and savings and loan holding companies, and (2) to persons designated by the Board as representatives of the Corporation to conduct investigations of insured institutions, their service corporations, or their holding companies.

(i) To provide information to receivers or conservators of insured institutions or formerly insured institutions for use in determining the background and reliability of persons with whom they are considering entering into transactions or with whom the institution previously has entered into transactions.

(j) To provide information to OGC, Enforcement and persons representing the Board in legal matters, and to other persons having access to legal papers connected with such matters.

##### POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM

###### STORAGE:

Records are maintained on fixed disks.

###### RETRIEVABILITY:

Records are retrievable by name of individual or by the individual's relationship to the insured institution involved.

###### SAFEGUARDS:

Access to the system will be available only to Board employees and agents who have been issued the system passwords, which will be revealed only to those persons who have need for information from the system in the performance of their duties.

###### RETENTION AND DISPOSAL:

Records will be retained for up to 25 years after the date of entry. Records will then be sent to the Federal Records Center.

###### SYSTEM MANAGER AND ADDRESS:

Database Administrator, Office of Regulatory Policy Oversight and Supervision, 900 Nineteenth Street NW., Washington, DC 20006.

###### NOTIFICATION PROCEDURES:

This system will be exempt from notification and record-access requirements and requirements that an individual be permitted to contest its content under 5 U.S.C. 552a(k)(2) because it contains investigatory

material compiled for law enforcement purposes.

**RECORD ACCESS PROCEDURES:**

See Notification procedures.

**CONTESTING RECORDS PROCEDURES:**

See Notification procedures.

**RECORD SOURCE CATEGORIES:**

This system will be exempt under 5 U.S.C. 552a(k)(2) from the requirement that the sources of records used in the system be published, because it contains investigatory material compiled for law enforcement purposes.

By the Federal Home Loan Bank Board.

BILLING CODE 6720-01-M

[No. 86-1247]

**Approval of Application To Withdraw Securities From Listing and Registration on the American Stock Exchange**

Dated: December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Notice.

**SUMMARY:** On July 29, 1986, Mercury Savings and Loan Association, Huntington Beach, California (the "Association") (FHLBB No. 6649) filed with the Federal Home Loan Bank Board ("Board") an application, ("Application"), pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) thereunder, for the withdrawal from listing and registration on the American Stock Exchange ("Exchange"), of the Association's Common Stock, \$1.00 Par Value, (the "Stock"). The Association's Stock was approved for listing and registration on the New York Stock Exchange, on August 1, 1986, and concurrently therewith such stock was suspended from trading on the Exchange.

Notice is hereby given that the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the Application for withdrawal from listing and registration on the Exchange, effective as of the opening of business on November 3, 1986.

**SUPPLEMENTARY INFORMATION:** The reasons stated in the Association's application for withdrawing the securities from the listing and

registration on the American Stock Exchange include the following:

1. The Association has complied with Rule 18 of the Exchange by filing with the Exchange a certified copy of preambles and resolutions adopted by the Association's Board of Directors authorizing the withdrawal of the Stock from listing on the Exchange.

2. The direct and indirect costs and expenses attendant on maintaining the dual listing of the Stock on the New York Stock Exchange and the Exchange are not justified.

3. The belief that dual listing would fragment the market for the Stock without offsetting benefits.

4. The Exchange has no objection to the withdrawal of the Association's Stock from listing on the Exchange.

5. The withdrawal for listing of the Association's Stock from the Exchange shall have no effect upon the continued listing of the Stock on the New York Stock Exchange.

6. By reason of Section 12(b) of the Securities Exchange Act of 1934 and the rules and regulations thereunder, the Association shall continue to be obligated to file reports under section 13 of that Act with the Federal Home Loan Bank Board and the New York Stock Exchange.

Notice of the application for withdrawal from listing and an opportunity for hearing was published in the *Federal Register* on September 30, 1986 and interested persons were invited to submit written data, views and arguments within 15 days. See Board Resolution No. 86-1045 dated September 24, 1986 (51 FR 34687, September 30, 1986). The Board received no comments on the application.

Accordingly, pursuant to section 12(d) of the Act and Rule 12d2-2(d) thereunder, the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, having considered the facts stated in the Application and having due regard for the public interest and protection of investors, approved the Application for withdrawal from listing and registration on the AMEX, effective as of the opening of business on November 3, 1986.

By the Federal Home Loan Bank Board.

**The Benjamin Franklin Federal Savings and Loan Association, Portland, OR; Final Action Approval of Conversion Application**

Dated: December 15, 1986.

Notice is hereby given that on October 17, 1986, the Office of General Counsel of the Federal Home Loan Bank Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the application of The Benjamin Franklin Federal Savings and Loan Association, Portland, Oregon for permission to convert to the stock form of organization. Copies of the application are available for inspection at the Secretariat of the Board, 1700 G Street, NW., Washington, DC 20552, and at the Office of the Supervisory Agent of the Federal Home Loan Bank of Seattle, 1501 4th Avenue, 19th Floor, Seattle, Washington 98101-1693.

BILLING CODE 6720-01-M

[No. 86-1248]

**Approval of Application for Unlisted Trading Privileges and Opportunity for Hearing; Cincinnati Stock Exchange, Inc.**

Dated: December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Notice.

**SUMMARY:** On August 25, 1986, The Cincinnati Stock Exchange, Inc. filed with the Federal Home Loan Bank Board ("Board") an application ("Application"), pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 ("Act") and Rule 12f-1 [17 CFR 240.12f-1] thereunder, for unlisted trading privileges in the following securities which are listed on one or more national securities exchange: Columbia Savings and Loan Association, Beverly Hills, California (FHLBB No. 6325), Series "A" Preferred Stock, 1.00 Par Value.

Notice of the Application and opportunity for hearing was published in the *Federal Register* on September 30, 1986, and interested persons were invited to submit written data, views and arguments within 15 days. See Board Resolution No. 86-1043, dated

August 24, 1986. (51 FR 34685, September 30, 1986). The Board received no comments with respect to the Application. Notice is hereby given that the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the Application for unlisted trading privileges in these securities on October 30, 1986.

**SUPPLEMENTARY INFORMATION:** The Board finds that the approval of the Application for unlisted trading privileges in these securities is consistent with the maintenance of fair and orderly markets and the protection of investors. As a national securities exchange registered with the Securities and Exchange Commission ("Commission") pursuant to section 6 of the Act, the Cincinnati Stock Exchange is subject to the provisions of paragraph (b) of that section, and to the Commission's inspection authority and oversight responsibility under sections 17 and 19 of the Act and the rules and regulations thereunder. Transactions in the subject securities, regardless of the market in which they occur, are reported in the consolidated transaction reporting system contemplated by Rule 11Aa3-1 under the Act [17 CFR 240.11Aa3-1]. The availability of last sale information for the subject securities should contribute to pricing efficiency and to ensuring that transactions on the Cincinnati Stock Exchange are executed at prices which are reasonably related to those occurring in other markets. Further, the approval of the Application will provide increased opportunities for competition among brokers and dealers and among exchange markets consistent with the purposes of the Act and the objectives of the national market system. Finally, the Board received no comments indicating that the granting of the Application would not be consistent with the maintenance of fair and orderly markets and the protection of investors.

Accordingly, pursuant to section 12(f)(1)(B) of the Act, the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the Application for unlisted trading privileges in the above named securities on October 30, 1986.

By the Federal Home Loan Bank Board.

[No. 86-1244]

**Approval of Application for Unlisted Trading Privileges; Midwest Stock Exchange, Inc.**

December 15, 1986.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Notice.

**SUMMARY:** On September 2, 1986, The Midwest Stock Exchange, Inc. filed with the Federal Home Loan Bank Board ("Board") an application ("Application"), pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 ("Act") and Rule 12f-1 [17 CFR 240.12f-1] thereunder, for unlisted trading privileges in the following securities which are listed on one or more national securities exchange: Mercury Savings and Loan Association, Huntington Beach, California, (FHLBB No. 6649), Common Stock, \$1.00 Par Value.

Notice of the Application and opportunity for hearing was published in the *Federal Register* on September 30, 1986, and interested persons were invited to submit written data, views and arguments within 15 days. See Board Resolution No. 86-1042 dated September 24, 1986. (51 FR 3486, September 30, 1986). The Board received no comments with respect to the Application. Notice is hereby given that the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the Application for unlisted trading privileges in these securities on November 3, 1986.

**SUPPLEMENTARY INFORMATION:** The Board finds that the approval of the Application for unlisted trading privileges in these securities is consistent with the maintenance of fair and orderly markets and the protection of investors. As a national securities exchange registered with the Securities and Exchange Commission ("Commission") pursuant to section 6 of the Act, the Midwest Stock Exchange is subject to the provisions of paragraph (b) of that section, and to the Commission's inspection authority and oversight responsibility under sections 17 and 19 of the Act and the rules and regulations thereunder. Transactions in the subject securities, regardless of the market in which they occur, are reported in the consolidated transaction reporting system contemplated by Rule 11Aa3-1 under the Act [17 CFR 240.11Aa3-1]. The availability of last sale information for the subject securities should contribute to pricing efficiency and to ensuring that transactions on the Midwest Stock

Exchange are executed at prices which are reasonably related to those occurring in other markets. Further, the approval of the Application will provide increased opportunities for competition among brokers and dealers and among exchange markets consistent with the purposes of the Act and the objectives of the national market system. Finally, the Board received no comments indicating that the granting of the Application would not be consistent with the maintenance of fair and orderly markets and the protection of investors.

Accordingly, pursuant to section 12(f)(1)(B) of the Act, the Office of General Counsel of the Board, acting pursuant to the authority delegated to the General Counsel or his designee, approved the Application for unlisted trading privileges in the above named securities on November 3, 1986.

## FEDERAL RESERVE SYSTEM

### Agency Forms Under OMB Review

December 17, 1986.

#### Background

Notice is hereby given of final approval of proposed information collection(s) by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.9 (OMB Regulations on Controlling Paperwork Burdens on the Public).

For Further Information Contact:  
Federal Reserve Board Clearance Officer—Nancy Steele—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3822)

OMB Desk Officer—Robert Neal—Office of Information and Regulatory Affairs, Office of Management and

Budget, New Executive Office Building, Room 3208, Washington, DC 20503 (202-395-6880)

*Proposal to approve under OMB delegated authority the extension with revision of the following reports:*

1. Report title: Annual Report of Foreign Banking Organizations; Foreign Banking Organization Confidential Report of Operations

Agency form number: FR Y-7; FR 2068.

OMB Docket number: 7100-0125.  
Frequency: annual.

Reporters: Foreign Banking Organizations.

Small businesses are not affected.  
General description of report.

This information collection is mandatory [12 U.S.C. 1844(c), 3106, 3108(a)] and is given confidential treatment [5 U.S.C. 552(b)(8)].

These annual reports request financial and structural information on foreign banking organizations in order to assess their ability to serve as a source of strength to their U.S. operations and to determine compliance with the BHC Act and the IBA.

Board of Governors of the Federal Reserve System, December 17, 1986.

William W. Wiles,  
*Secretary of the Board.*

BILLING CODE 6210-01-M

## GENERAL SERVICES ADMINISTRATION

### Federal Acquisition Regulation; Buy American Act

**AGENCY:** Public Buildings Service, GSA.

**ACTION:** Notice of proposed determination under Buy American Act.

**SUMMARY:** This notice invites written comments on the proposed determination under § 25.202(a)(3) of the Federal Acquisition Regulation that for purposes of the Buy American Act, microprocessor chips which are brought onto a Government construction site as separate units to be incorporated into building systems during construction or repair and alteration of real property are not produced or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality. If the proposed determination is made, nondomestic microprocessor chips, when required to be incorporated into an end product or construction material manufactured in the United States, would be treated as domestic materials.

**DATE:** Comments are due in writing no later than January 15, 1987.

**ADDRESS:** Comments should be addressed to Mr. William L. Newman, Office of Procurement, PBS, PPB, 18th and F Streets, NW, Room 7311, Washington DC.

**FOR FURTHER INFORMATION CONTACT:** Mr. William L. Newman Office of Procurement, PBS, on (202) 566-1385.

**SUPPLEMENTARY INFORMATION:** The Public Buildings Service of GSA has found that microprocessor chips are incorporated into a variety of environmental and systems control devices during construction, repair and alteration of Government real property. These microprocessor chips represent a minor portion of the control units they are incorporated into. However, in many cases they are brought on to the construction site as a separate unit prior to final assembly. The initial production of commercial or industrial-grade microprocessor chips (or wafers), as opposed to military and aerospace products, is generally accomplished in domestic manufacturing facilities; the wafer is given an initial test to identify and mark defective circuits; the wafers are then exported for package assembly, wire bonding and encapsulation; and finally, the completed device is reimported for sale to domestic control manufactures. This packaging, wire bonding and encapsulation process in foreign countries causes the chips to be classified as a foreign product under the Buy American Act when they are reimported. This information was developed by means of a survey of private industry sources and Government personnel familiar with the industry.

Dated: December 5, 1986.

Brian K. Polly,

*Assistant Commissioner, Office of Procurement.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Food and Drug Administration

[Docket No. 86F-0458]

#### Ciba-Geigy Corp.; Filing of Food Additive Petition

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing that Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for

additional uses of *N,N'*-hexamethylenebis(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamamide) as an antioxidant for polymers.

**FOR FURTHER INFORMATION CONTACT:**

Mary Lipien, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

**SUPPLEMENTARY INFORMATION:** Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (7B3969) has been filed by Ciba-Geigy Corp., Three Skyline Dr., Hawthorne, NY 10532, proposing that § 178.2010 *Antioxidants and/or stabilizers for polymers* (21 CFR 178.2010) be amended to provide for additional uses of *N,N'*-hexamethylenebis(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamamide) as an antioxidant for polymers.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday. This action was considered under FDA's final rule implementing the National Environmental Policy Act (21 CFR Part 25).

Dated: December 15, 1986.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-M

[Docket No. 86G-0459]

**Ciba-Geigy Corp.; Filing of Food Additive Petition**

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing that the Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of maleic anhydride, polymer with ethyl acrylate and vinyl acetate, hydrolyzed, as a deposit control additive for use in the manufacture of paper and paperboard in contact with food.

**FOR FURTHER INFORMATION CONTACT:** Vir Anand, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

**SUPPLEMENTARY INFORMATION:** Under the Federal Food, Drug and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 7B3973) has been filed by Ciba-Geigy Corp., Three Skyline Dr., Hawthorne, NY 10532, proposing that § 176.170 *Components of paper and paperboard in contact with aqueous and fatty foods* (21 CFR 176.170) be amended to provide for the safe use of maleic anhydride, polymer with ethyl acrylate and vinyl acetate, hydrolyzed, as a deposit control additive for use in the manufacture of paper and paperboard intended for use in contact with food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the *Federal Register* in accordance with 21 CFR 25.40(c).

Dated: December 15, 1986.

BILLING CODE 4160-01-M

[Docket No. 86G-0457]

**Towa Chemical Industry Co., Ltd.; Filing of Petition for Affirmation of GRAS Status**

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing that a petition (GRASP 6G0319) has been filed on behalf of Towa Chemical Industry Co., Ltd., proposing to affirm that maltitol is generally recognized as safe (GRAS) as a direct food ingredient for use in certain foods.

**DATE:** Comments by February 23, 1987.

**ADDRESS:** Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** John W. Gordon, Center for Food Safety and Applied Nutrition (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-9463.

**SUPPLEMENTARY INFORMATION:** Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))) and the regulations for affirmation of GRAS status in § 170.35 (21 CFR 170.35), notice is given that a

petition (GRASP 6G0319) has been filed on behalf of Towa Chemical Industry Co., Ltd., c/o 1150 17th St. NW., Suite 1000, Washington, DC 20036, proposing to affirm that maltitol is GRAS as a direct food ingredient for use in certain foods.

The petition has been placed on display at the Dockets Management Branch (address above).

Any petition that meets the format requirements outlined in § 170.35 is filed by the agency. There is no pre-filing review of the adequacy of data to support a GRAS conclusion. Thus, the filing of a petition for GRAS affirmation should not be interpreted as a preliminary indication of suitability for GRAS affirmation.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the *Federal Register* in accordance with 21 CFR 25.40(c).

Interested persons may, on or before February 23, 1987, review the petition and/or file comments (two copies, identified with the docket number found in brackets in the heading of this document) with the Dockets Management Branch (address above). Comments should include any available information that would be helpful in determining whether this substance is, or is not, GRAS. A copy of the petition and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: December 15, 1986.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-M

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[OK NM 58607]

### Recreation and Public Purposes Classification; Dewey County, OK

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** R&PP Classification.

**SUMMARY:** The following described lands have been examined and are hereby classified as suitable for sale

under the Recreation and Public Purposes (R&PP) Act of June 14, 1926, (44 Stat. 741; 43 U.S.C. 869), as amended, and the regulations thereunder Title 43 Code of Federal Regulations (CFR) 2740 and 2912:

#### Indian Meridian, Oklahoma

Tracts	Legal description	Acres plus accretions
DW 14 to 17 .....	T. 18 N., R. 17 W., Sec. 28: Lots 1, 2, 3, and 4	82.71
DW 18 and 19 .....	Sec. 33: Lots 8 and 9.	
DW 21 to 25 .....	T. 18 N., R. 20 W., Sec. 26: Lots 1 and 2, SW ¼ SE ¼ Sec. 27: Lots 3 and 4.	120.51

Aggregating 203.22 acres plus accretions.

The Oklahoma Department of Wildlife Conservation (ODWC) propose to use the identified lands for wildlife habitat and recreation. Use areas for wildlife habitat and recreation are in great demand, and it is anticipated that the need will increase in the future. The proposed use is in the public interest and is consistent with the Bureau's planning for the lands involved in this action.

Patent, when issued, will contain the following reservations:

1. All minerals will be reserved to the U.S. Government.

2. The sale will be subject to all valid existing rights and reservations of record.

3. The transfer of the identified Tracts will be subject to a floodplain restriction and a wetland reservation under Executive Orders 11988 and 11990.

4. The transfer of the identified Tracts will be subject to existing grazing rights, authorizations 0751 and 0754.

The classification will segregate the lands from all appropriation under the public land laws, except as to application under the mineral leasing laws and the Recreation and Public Purposes Act. Segregation will terminate upon issuance of a patent, or 18 months from the date of this Notice; or upon publication of a Notice of Termination.

**DATE:** For a period of 45 days after the date of publication of this Notice, all persons who wish to submit comments may do so in writing to the District Manager, Bureau of Land Management, 9522-H East 47th Place, Tulsa, Oklahoma, 74145. Objections will be reviewed by the State Director who may sustain, vacate, or modify this realty

action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

#### FOR FURTHER INFORMATION CONTACT:

### Craig, Colorado District Advisory Council; Meeting

In accordance with Pub. L. 94-579, notice is hereby given that there will be a meeting of the Craig District Advisory Council on January 7, 1987, at 10 a.m. at the Little Snake Resource Area office, 1280 Industrial Avenue, Craig, Colorado.

Agenda items will include:

1. Roles and responsibilities of BLM concerning off-road vehicles;
2. Proposed Sand Wash races;
3. Protests on the Little Snake Resource Management Plan; and
4. Craig District Wilderness EIS.

The meeting will be open to the public; interested persons may make oral statements at 10:30 a.m. Summary minutes of the meeting will be maintained in the Craig District Office.

Dated: December 8, 1986.

William J. Pulford,

District Manager.

### Realty Action; Modified Competitive Sale of Public Land in Lincoln County, NV; (Amendment)

This Notice of Realty Action amends the Notice of June 10, 1986 (published 6/19/86, FR, Vol. 51, No. 118, pg. 22359 and 60, pertaining to the sale of public lands under section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713) to describe the parcel by aliquot parts, which increases the acreage from 147.87 acres to 155.48 acres. The parcel is described as follows:

T. 1N., R. 68 E., M.D.M.

Sec. 36, S ½ SE ¼ SW ¼, S ½ SE ¼ S W ¼, S ½ N ½ SE ¼ SW ¼.

T. 1S., R. 69 E.,

Sec. 6, lots 3, 4, 5; SE ¼ NW ¼, N ½ N ½ N E ¼ SW ¼.

Containing 155.48 acres.

Dated: December 15, 1986.

Ben F. Collins,  
District Manager

[FR Doc. 86-28682 Filed 12-22-86; 8:45 am]

BILLING CODE 4310-HC-M

[NV-030-07-4212-14; N-42719]

### Realty Action, Competitive Sale; Public Lands in Storey County, NV

The following described lands comprising 160 acres have been identified as suitable for disposal through sale under section 203 of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1713, at no less than fair market value:

Mt. Diablo Meridian

T. 20 N., R. 23 E.,  
Sec. 22, S $\frac{1}{2}$ S $\frac{1}{2}$ .

The lands are hereby segregated from appropriation under the public land laws including the mining laws but not from sale under the above cited statute. The segregative effect will end upon the issuance of the patent or 270 days from the date of publication of the notice in the **Federal Register** whichever occurs first.

The sale is consistent with local government plans. The lands are not needed for support of any resource programs and are not suitable for management by another Federal agency. There are no known values for locatable, saleable or leasable minerals. In accordance with section 209(b)(1)(1) of Pub. L. 94-579, mineral interests will be conveyed simultaneously with the surface estate upon submission of a non-refundable filing fee of \$50.00.

The patent when issued will contain the following reservation to the United States:

1. A right-of-way thereon for ditches and canals constructed by authority of the United States, under the Act of August 30, 1890, 26 Stat. 391; U.S.C. 945.

#### Bid Information

The bids will be accepted for no less than the appraised fair market value. The lands have been appraised at \$150.00 per acre, for a total of \$24,000.00. Bidders must be either: (1) Citizens of the United States, 18 years of age or older, (2) corporations subject to the laws of any state or of the United States, (3) other entities such as associations and partnerships capable of holding lands or interests therein under the laws of the state within which the lands are located, or (4) states, state instrumentalities or political subdivisions authorized to hold title to real property.

Sealed bids may be made by a principal or duly qualified agent. Sealed bids shall be considered only if received at the Carson City District Office, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, Nevada 89701, prior to 9:00 a.m., February 27, 1987. The written sealed bids will be opened and publicly declared at the sale, which will be held on February 27 at 10:00 a.m.

Each bid shall be accompanied by a certified check, postal money order or cashier's check made payable to the Department of the Interior—BLM for not less than twenty (20) percent of the amount of the bid and the \$50.00 filing fee to purchase the mineral interest and shall be enclosed in a sealed envelope marked in the lower left hand corner, Bid for Public Land Sale N-42719, February 27, 1987. If two or more sealed bids containing valid bids of the same amount are received, the determination of whom is to be considered the highest bidder shall be by oral bidding following opening of the sealed bids. If the tract does not sell at the first offering, sealed bids will be accepted at the Carson City District Office during business hours (7:30 to 4:15) every Wednesday following the date of the sale until the tract is sold or withdrawn from sale.

The remainder of the full bid price shall be paid within 180 days of the sale. Failure to submit the full bid price within 180 days shall disqualify the apparent high bidder and the deposit shall be forfeited and disposed of as other receipts of sale. All bids will either be returned or rejected within 30 days of the sale date. Conveyance of available mineral estates having no known mineral values will occur simultaneously with sale of the lands in accordance with section 209(b)(1)(1) of Pub. L. 94-579.

BLM may reject any and all offers or withdraw the lands from sale, up to the point of receiving the balance of the bid amount, if the authorized officer determines that sale would not be fully consistent with the Federal Land Policy and Management Act or other applicable law.

The lands will not be offered for sale for at least 60 days after the date of this notice. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, Carson City District Office, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, Nevada 89701. Any adverse comments will be evaluated and this notice upheld, modified or vacated.

Dated this 17th day of December 1986.

Norman L. Murry,  
Acting District Manager.

[NV-030-07-4212-14; N-42719]

### Realty Action, Competitive Sale; Public Lands in Storey County, NV

The following described lands comprising 160 acres have been identified as suitable for disposal through sale under section 203 of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1713, at no less than fair market value:

Mt. Diablo Meridian

T. 20 N., R. 23 E.,  
Sec. 22, S $\frac{1}{2}$ S $\frac{1}{2}$ .

The lands are hereby segregated from appropriation under the public land laws including the mining laws but not from sale under the above cited statute. The segregative effect will end upon the issuance of the patent or 270 days from the date of publication of the notice in the **Federal Register** whichever occurs first.

The sale is consistent with local government plans. The lands are not needed for support of any resource programs and are not suitable for management by another Federal agency. There are no known values for locatable, saleable or leasable minerals. In accordance with section 209(b)(1)(1) of Pub. L. 94-579, mineral interests will be conveyed simultaneously with the surface estate upon submission of a non-refundable filing fee of \$50.00.

The patent when issued will contain the following reservation to the United States:

1. A right-of-way thereon for ditches and canals constructed by authority of the United States, under the Act of August 30, 1890, 26 Stat. 391; U.S.C. 945.

#### Bid Information

The bids will be accepted for no less than the appraised fair market value. The lands have been appraised at \$150.00 per acre, for a total of \$24,000.00. Bidders must be either: (1) Citizens of the United States, 18 years of age or older, (2) corporations subject to the laws of any state or of the United States, (3) other entities such as associations and partnerships capable of holding lands or interests therein under the laws of the state within which the lands are located, or (4) states, state instrumentalities or political subdivisions authorized to hold title to real property.

Sealed bids may be made by a principal or duly qualified agent. Sealed bids shall be considered only if received at the Carson City District Office, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, Nevada 89701, prior to 9:00 a.m., February 27, 1987. The written sealed bids will be opened and publicly declared at the sale, which will be held on February 27 at 10:00 a.m.

Each bid shall be accompanied by a certified check, postal money order or cashier's check made payable to the Department of the Interior—BLM for not less than twenty (20) percent of the amount of the bid and the \$50.00 filing fee to purchase the mineral interest and shall be enclosed in a sealed envelope marked in the lower left hand corner, Bid for Public Land Sale N-42719, February 27, 1987. If two or more sealed bids containing valid bids of the same amount are received, the determination of whom is to be considered the highest bidder shall be by oral bidding following opening of the sealed bids. If the tract does not sell at the first offering, sealed bids will be accepted at the Carson City District Office during business hours (7:30 to 4:15) every Wednesday following the date of the sale until the tract is sold or withdrawn from sale.

The remainder of the full bid price shall be paid within 180 days of the sale. Failure to submit the full bid price within 180 days shall disqualify the apparent high bidder and the deposit shall be forfeited and disposed of as other receipts of sale. All bids will either be returned or rejected within 30 days of the sale date. Conveyance of available mineral estates having no known mineral values will occur simultaneously with sale of the lands in accordance with section 209(b)(1)(1) of Pub. L. 94-579.

BLM may reject any and all offers or withdraw the lands from sale, up to the point of receiving the balance of the bid amount, if the authorized officer determines that sale would not be fully consistent with the Federal Land Policy and Management Act or other applicable law.

The lands will not be offered for sale for at least 60 days after the date of this notice. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, Carson City District Office, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, Nevada 89701. Any adverse comments will be evaluated and this notice upheld, modified or vacated.

Dated this 12th day of December 1986.

James W. Elliott,

*District Manager.*

### Minerals Management Service

#### Development Operations Coordination Document

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Notice of the Receipt of a Proposed Development Operations Coordination Document (DOCD).

**SUMMARY:** Notice is hereby given that ARCO Oil and Gas Company has submitted a DOCD describing the activities it proposes to conduct on Lease OCS-G 3810, Block 107, Eugene Island Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Amelia, Louisiana.

**DATE:** The subject DOCD was deemed submitted on December 12, 1986.

**ADDRESSES:** A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 1201 Wholesalers Pkwy., Room 114, New Orleans, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

**FOR FURTHER INFORMATION CONTACT:** Michael J. Tolbert; Minerals Management Service, Gulf of Mexico OCS Region, Field Operations, Plans, Platform and Pipeline Section, Exploration/Development Plans Unit; Telephone (504) 736-2867.

**SUPPLEMENTARY INFORMATION:** The purpose of this Notice is to inform the public, pursuant to section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Dated: December 15, 1986.

J. Rogers Pearcy,

*Regional Director, Gulf of Mexico OCS Region.*

BILLING CODE 4310-MR-M

### Development Operations Coordination; Conoco Inc.

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Notice of the receipt of a proposed development operations coordination document (DOCD).

**SUMMARY:** Notice is hereby given that Conoco Inc., Unit Operator of the Green Canyon Block 184 Federal Unit Agreement No. 14-08-0001-20257, has submitted a DOCD describing the activities it proposes to conduct on the Green Canyon Block 184 Federal unit. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Grand Isle, Louisiana.

**DATE:** The subject DOCD was deemed submitted on December 8, 1986.

**ADDRESSES:** A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 1201 Wholesalers Parkway, Room 114, New Orleans, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

**FOR FURTHER INFORMATION CONTACT:** Mr. Al Durr; Minerals Management Service; Gulf of Mexico OCS Region; Production and Development; Development and Unitization Section; Unitization Unit; Phone (504) 736-2659.

**SUPPLEMENTARY INFORMATION:** The purpose of this Notice is to inform the public, pursuant to Sec. 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979 (44 FR 53685). Those practices and procedures are set out in revised Section 250.34 of Title 30 of the CFR.

Dated: December 15, 1986.

J. Rogers Pearcy,  
Regional Director, Gulf of Mexico OCS  
Region.

## DEPARTMENT OF JUSTICE

### Drug Enforcement Administration

[Docket No. 86-2]

#### Apotheca, Inc.; Stay of Revocation of Registration

On December 5, 1985, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA), issued an Order to Show Cause to Apotheca, Inc., Respondent, of 1622 North 16th Street, Phoenix, Arizona, proposing to revoke that firm's DEA Certificate of Registration, PA0021179, and to deny its pending application for renewal of its registration as a distributor of controlled substances, executed on May 20, 1985. The statutory basis for seeking the revocation of Respondent's DEA Certificate of Registration and the denial of its pending application for renewal is that Respondent's continued registration is inconsistent with the public interest, as evidenced by, but not limited to, the fact that Respondent has repeatedly violated DEA reporting, recordkeeping and security statutes and regulations.

Respondent requested a hearing on the issues raised in the Order to Show Cause. Following prehearing procedures, an administrative hearing was held on July 8, 1986, in Phoenix, Arizona. Administrative Law Judge Francis L. Young presided at the hearing.

In his Opinion and Recommended Ruling, Findings of Fact, Conclusions of Law and Decision, the Administrative Law Judge found that Respondent is a wholesale distributor of pharmaceuticals and medical equipment. In addition, Respondent also repackages and relabels non-controlled substances. Respondent holds a DEA Certificate of Registration as a distributor of controlled substances. Approximately ten percent of Respondent's business involves controlled substances.

The Administrative Law Judge further found that in June 1973, the DEA Phoenix District Office conducted an in-depth audit and inspection of that facility. This was the first time DEA had inspected Respondent's facility. During the inspection and audit, DEA investigators found various recordkeeping and security violations. These violations were discussed with

management and Respondent was told to take corrective measures to bring the facility in compliance with applicable regulations.

In October 1975, DEA conducted a follow-up inspection and audit of Respondent's business. The inspection revealed that Respondent failed to maintain complete and accurate records; that records were not readily retrievable; that no biennial inventory had been taken; that the facility did not comply with physical security requirements; and that Respondent failed to report consummated transactions relating to Schedule III narcotic controlled substances under ARCOS requirements. These violations were explained to Respondent's president, William Akins, in a letter from the DEA Phoenix District Office, dated November 6, 1975. In a December 2, 1975 letter to DEA, William Akins acknowledged and agreed to correct the cited violations.

Another follow-up inspection of Respondent's premises and records was performed by the DEA Phoenix District Office about one year later, in October 1976. Although investigators found that most of the recordkeeping and security violations had been corrected, they also found that Respondent had not submitted any of the required ARCOS reports. In light of these continuing problems with ARCOS reporting, Respondent told DEA that it would discontinue the handling of Schedule III narcotics, so as to obviate the need for these reports.

The Administrative Law Judge further found that the DEA Phoenix District Office conducted an in-depth accountability investigation of Respondent's records and premises in May 1980. The accountability audit for the period from June 30, 1979 to May 28, 1980 revealed unexplained shortages of controlled substances, failure to maintain complete and accurate records of controlled substance receipts, distributions and inventory and a continuing failure to maintain adequate security to prevent the diversion of controlled substances. The investigation also revealed that Respondent had continued to distribute Schedule III narcotic controlled substances, although such distribution was no longer authorized by Respondent's registration. Based upon the violations cited in this investigation, an informal hearing was held. Respondent's President, William Akins, and personnel from the DEA Phoenix District Office participated. Following the informal hearing, Mr. Akins executed a Memorandum of Understanding on behalf of Respondent company. In this memorandum,

Respondent agreed to take specific actions to bring itself into compliance with all Federal controlled substance laws and regulations.

In December 1984, DEA conducted a routine, in-depth investigation of Respondent's controlled substances operation. An audit of Respondent's controlled substances records again revealed significant recordkeeping violations and shortages for the period from June 30, 1984 to December 10, 1984. DEA investigators found that Respondent had failed to maintain on a current basis complete and accurate records of all controlled substances received, distributed or otherwise disposed of, as required by 21 U.S.C. 827(a)(3) and 21 CFR 1304.21(a), in that nine of the ten drugs audited for accountability revealed deviations ranging from overages of 17.8% to shortages of 29.4%; Respondent's most recent inventory of controlled substances was undated and incomplete, in violation of 21 CFR 1304.11(a), 1304.11(d) and 1304.21(a); Respondent's sales and distribution records were not readily retrievable and did not contain the customer's DEA registration number, in violation of 21 CFR 1304.04(f)(2) and 1304.23(g); Respondent failed to maintain adequate controls against the diversion of controlled substances by keeping a key to the controlled substances room in a location accessible to all employees and visitors, in violation of 21 CFR 1301.71(b)(8) and 1301.72(d); and Respondent failed to maintain adequate controls against the diversion of controlled substances by failing to verify customers' DEA registration numbers, in violation of 21 CFR 1301.74(a). These most recent findings led to the initiation of these proceedings.

The Administrative Law Judge further found that Mitchell Akins, the son of Respondent company's president, became active in the management of the company's operations in 1983. He became vice-president of the company in 1985. He did not become aware of the extent of Respondent's violations of DEA reporting, recordkeeping and security requirements until after the most recent audit and investigation. Since the December 1984 audit and investigation, Mitchell Akins has taken measures to ensure Respondent's compliance with DEA regulations. Only one employee is now responsible for the receipt of shipments of controlled substances. The controlled substances room key is now only available to Mitchell Akins and the employee handling controlled substances. Only Mitchell Akins and one other employee

remove controlled substances from the controlled substances room with each removal carefully logged on a sheet which can be checked against the shipping invoices. Invoices are now readily retrievable. The company has also implemented a plan to ensure that ARCOS reports are properly submitted to DEA. In addition, controlled substances are now inventoried at frequent intervals.

Finally, the Administrative Law Judge found that William Akins, president of Respondent company, owns all of its corporate stock. Mitchell Akins does not own any stock of Respondent company.

After the Administrative Law Judge made his findings of fact, he recommended, based upon the recent efforts of Mitchell Akins to improve Respondent's compliance with DEA regulations, that Respondent's DEA Certificate of Registration be maintained and renewed for Schedule III, IIIN, IV and V controlled substances.

The Administrator accepts the Administrative Law Judge's findings of fact in their entirety, but does not accept his recommended decision.

Based upon the facts presented, the Administrator finds that Respondent has historically demonstrated a lack of appreciation for its duties and lawful responsibilities as a distributor of controlled substances. The administrative record is replete with serious, repeated recordkeeping, reporting and security violations. These violations have been noted since 1973. These numerous and repeated violations clearly constitute lawful grounds for the revocation of Respondent's current DEA Certificate of Registration and for the denial of its pending application for renewal. 21 U.S.C. 824(a)(4), 823(e)(1), 823(e)(2), 823(e)(4) and 823(e)(5). A renewal of Respondent's DEA Certificate of Registration, without restriction, would fail to adequately serve the public interest.

Although there are lawful grounds for the absolute revocation of the Respondent's registration, the Administrator feels that the recent efforts of Mitchell Akins to bring the Respondent company into compliance with DEA regulations should be given a chance to succeed. Accordingly, although the Administrator concludes that Respondent's registration should be revoked, based on its long history of non-compliance, he will stay the revocation and impose a one-year probationary period to determine whether Respondent can now fully comply with all DEA recordkeeping, reporting and security requirements. During the one-year probationary period, DEA will conduct unannounced

inspections and audits to review Respondent's compliance with all applicable controlled substance regulations. If the inspections or audits reveal either new or repeated violations, the Administrator will remove the stay and the DEA Certificate of Registration will be revoked immediately. All pending applications for renewal will be summarily denied. If, on the other hand, Respondent's efforts to improve are successful, the Administrator will withdraw this order and permit Respondent to be registered in the normal manner.

Therefore, having concluded that there are lawful grounds for the revocation of Respondent's DEA Certificate of Registration and for the denial of its pending application for renewal, and having further concluded that such registration should be revoked and its pending application should be denied, the Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him, pursuant to 21 U.S.C. 823 and 824 and 21 CFR 0.100(b), orders that DEA Certificate of Registration, PA0021179, previously issued to Apotheca, Inc., be, and it hereby is revoked; it is further ordered that the pending application for renewal, executed by Apotheca, Inc. on May 20, 1985, be, and it hereby is, denied. The Administrator further orders that the revocation of Respondent's registration and denial of its pending application for renewal be stayed for a period of one year; if during the one year probationary period, Respondent is found to have violated any DEA reporting, recordkeeping or security requirement, the previously imposed stays will be removed and Respondent's DEA Certificate of Registration will be revoked and any pending applications for renewal will be summarily denied.

This order is effective December 23, 1986.

Dated: December 17, 1986.

John C. Lawn,  
Administrator.

#### [Docket No. 86-60]

**Dewey G. Archambault, M.D.; North Chelmsford, MA; Hearing**

Notice is hereby given that on July 1, 1986, the Drug Enforcement Administration, Department of Justice, issued to Dewey G. Archambault, M.D., an Order To Show Cause as to why the Drug Enforcement Administration should not revoke his DEA Certificate of Registration, AA1955220, and deny any

pending application for registration as a practitioner under 21 U.S.C. 823(f).

Thirty days having elapsed since the said Order To Show Cause was received by Respondent, and written request for a hearing having been filed with the Drug Enforcement Administration, notice is hereby given that a hearing in this matter will be held commencing at 10:00 a.m. on Friday, January 9, 1987, in Courtroom No. 10, Room 309, U.S. Claims Court, 717 Madison Place, NW., Washington, DC.

Dated: December 16, 1986.

John C. Lawn,

Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

#### DEPARTMENT OF LABOR

**Mine Safety and Health Administration**

[Docket No. M-86-177-C]

**Mountain Top Coal Co.; Petition for Modification of Application of Mandatory Safety Standard**

Mountain Top Coal Company, P.O. Box 71, Tower City, Pennsylvania 17980 has filed a petition to modify the application of 30 CFR 75.301 (air quality,

quantity, and velocity) to its Buck Mountain Slope (I.D. No. 36-07359) located in Schuylkill County, Pennsylvania. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that the minimum quantity of air reaching the last open crosscut in any pair or set of developing entries and the last open crosscut in any pair of set of rooms be 9,000 cubic feet a minute, and the minimum quantity of air reaching the intake end of a pillar line by 9,000 cubic feet a minute. The minimum quantity of air in any coal mine reaching each working face shall be 3,000 cubic feet a minute.

2. Air sample analysis history reveals that harmful quantities of methane are nonexistent in the mine. Ignition, explosion, and mine fire history are nonexistent for the mine. There is no history of harmful quantities of carbon monoxide and other noxious or poisonous gases.

3. Mine dust sampling programs have revealed extremely low concentrations of respirable dust.

4. Extremely high velocities in small cross sectional areas of airways and manways required in friable Anthracite veins for control purposes, particularly in steeply pitching mines, present a very dangerous flying object hazard to the miners and cause extremely uncomfortable damp and cold conditions in the mine.

5. As an alternate method, petitioner proposes that:

- The minimum quantity of air reaching each working face be 1,500 cubic feet per minute;
- The minimum quantity of air reaching the last open crosscut in any pair or set of developing entries by 5,000 cubic feet per minute; and
- The minimum quantity of air reaching the intake end of a pillar line be 5,000 cubic feet per minute, and/or whatever additional quantity of air that may be required in any of these areas to maintain a safe and healthful mine atmosphere.

6. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

#### Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All

comments must be postmarked or received in that office on or before January 22, 1987. Copies of the petition are available for inspection at that address.

Dated: December 16, 1986.

Patricia W. Silvey,

*Associate Assistant Secretary for Mine Safety and Health.*

[FR Doc. 86-28829 Filed 12-22-86; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-86-179-C]

#### T. & T. Energy, Inc.; Petition for Modification of Application of Mandatory Safety Standard

T. & T. Energy, Inc., P.O. Box 206, Bruceton Mills, West Virginia 26525 has filed a petition to modify the application of 30 CFR 75.503 (permissible electric face equipment; maintenance) to its No. 1 Mine (I.D. No. 46-01822) located in Preston County, West Virginia. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the use of a locked padlock to secure battery plugs to machine-mounted battery receptacles on permissible, mobile battery-powered machines.

2. As an alternate method, petitioner proposes to use a spring-loaded locking device in lieu of padlocks. The spring-loaded device will be designed, installed and used to prevent the threaded rings that secure the battery plugs to the battery receptacles from unintentionally loosening and will be attached to prevent accidental loss. In addition, the fabricated metal brackets will be securely attached to the battery receptacles to prevent accidental loss of the brackets.

3. Petitioner states that the spring-loaded metal locking devices will be easier to maintain than padlocks because there are no keys to be lost and dirt cannot get into the workings as with a padlock.

4. Operators of permissible, mobile, battery-powered machines affected by this modification will be trained in the proper use of the locking device, the hazards of breaking battery-plug connections under load, and the hazards of breaking battery-plug connections in areas of the mine where electric equipment is required to be permissible.

5. For these reasons, petitioner requests a modification of the standard.

#### Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before January 22, 1987. Copies of the petition are available for inspection at that address.

Dated: December 16, 1986.

Patricia W. Silvey,

*Associate Assistant Secretary for Mine Safety and Health.*

[FR Doc. 86-28830 Filed 12-22-86; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-86-180-C]

#### TAG Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

TAG Coal Company, R.D. #4, Box 149, Sunbury, Pennsylvania 17801 has filed a petition to modify the application of 30 CFR 75.1400 (hoisting equipment; general) to its Slope No. 11 (I.D. No. 36-07018) located in Northumberland County, Pennsylvania. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cages, platforms or other devices which are used to transport persons in shafts and slopes be equipped with safety catches or other approved devices that act quickly and effectively in an emergency.

2. Petitioner states that no such safety catch or device is available for the steeply pitching and undulating slopes with numerous curves and knuckles present in the main haulage slopes of this anthracite mine.

3. Petitioner further believes that if "makeshift" safety devices were installed they would be activated on knuckles and curves when no emergency existed and cause a tumbling effect on the conveyance.

4. As an alternate method, petitioner proposes to operate the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope, above the main connecting device. The hoisting ropes would have a factor of safety in excess of the design factor as determined by the formula specified in the American National Standard for Wire Rope for Mines.

5. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

#### Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before January 22, 1987. Copies of the petition are available for inspection at that address.

Dated: December 15, 1986.

#### Occupational Safety and Health Administration

##### Federal Advisory Council on Occupational Safety and Health; Meeting

Notice is hereby given that the Federal Advisory Council on Occupational Safety and Health, established under section 1-5 of Executive Order 12196 of February 26, 1980, published in the **Federal Register**, February 27, 1980 (45 FR 12769), will meet on January 14, 1987, starting at 10:00 a.m. in Room N3437 ABCD, of the Frances Perkins Department of Labor Building, 200 Constitution Avenue NW., Washington, DC. The meeting will be open to the public.

The agenda provides for:

- I. Call to Order.
- II. Approval of Minutes of October 8, 1986.
- III. President's 3% Goal.
- IV. Hazard Communication Program.
- V. Office of Federal Agency Programs—Evaluation Schedule.
- VI. Office of Federal Agency Programs—Compliance Procedures.
- VII. New Business.
- VIII. Adjournment.

The Council welcomes written data, views or comments concerning safety and health programs for Federal employees, including comments on the agenda items. All such submissions received by close of business January 9, 1987, will be provided to the members of the Council and included in the record of the meeting.

The Council will consider oral presentations relating to agenda items.

Persons wishing to orally address the Council at the meeting should submit a written request to be heard by close of business January 9, 1987. The request must include the name and address of the person wishing to appear, the capacity in which appearance will be made, a short summary of the intended presentation and an estimate of the amount of time needed.

All communications regarding this Advisory Council should be addressed to John E. Plummer, Director, Office of Federal Agency Programs, Department of Labor, OSHA, Frances Perkins Building, 200 Constitution Avenue NW., Room N3601, Washington, DC 20210, telephone (202) 523-9329.

Signed at Washington, DC this 17th day of the December 1986.

John A. Pendergrass,  
*Assistant Secretary.*

#### Pension and Welfare Benefits Administration

[Application No. D-6282 et al.]

##### Proposed Exemptions; Phelps Time Lock Security Corp. et al.

**AGENCY:** Pension and Welfare Benefits Administration, Labor.

**ACTION:** Notice of Proposed Exemptions.

**SUMMARY:** This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

##### Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemptions, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

**ADDRESS:** All written comments and requests for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Regulations and Interpretations, Room N-5669, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Attention: Application No. stated in

each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, DC 20210.

#### Notice of Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

**SUPPLEMENTARY INFORMATION:** The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

##### Phelps Time Lock Security Corporation Employees Profit Sharing Plan (the Plan) Located in Miami, Florida

[Application No. D-6282]

##### Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply

to the sale of certain real property by the Plan to the Phelps Time Lock Security Corporation (the Employer) provided that the terms of the proposed sale are as favorable to the Plan as those obtainable in an arm's-length transaction with an unrelated party on the date of its consummation.

#### *Summary of Facts and Representations*

1. The Plan is a profit sharing plan with five participants. The Plan had total assets of \$345,241 as of June 30, 1985. The trustee of the Plan is Mr. Robert Gilbert (the Trustee), the sole shareholder of the Employer. The Employer is engaged in the business of installing security locks.

2. On March 15, 1974, the Plan acquired certain real property located at 2417 Hollywood Boulevard, Hollywood, Florida (the Property) from an unrelated party. The purchase price was \$85,000. Upon its acquisition, the Property was leased to the Employer pursuant to an oral lease whose term began in April of 1974 (the Lease). The applicant represents that the Lease was a month-to-month lease with rental payments of \$1,000 per month during the early years of the Lease. Beginning in 1981, the monthly rental rate was increased to \$1,500 per month.<sup>1</sup> Pursuant to the Lease, the Employer continues to Lease the Property at a monthly rental rate of \$1,500.

3. The applicant now proposes that the property be sold by the Plan to the Employer.<sup>2</sup> The proposed sales price is \$140,000. This amount will be paid in cash, and no commissions will be paid in connection with the sale. An independent appraisal of the Property was performed by Mr. Virgil Slev of Alamo Properties, Inc. located in Ft. Lauderdale, Florida. Mr. Slev determined that the fair market value of the Property was \$140,000 as of April 22, 1985.

4. By letter dated March 10, 1986, Robert W. Codling of Alamo Properties, Inc. updated the appraisal of April 22, 1985. Mr. Codling stated the fair market value of the Property remains at

\$140,000. He notes further that with the large number of offices and strip stores presently under construction, the vacancy rates for commercial buildings are rising, and this will definitely diminish the opportunity for the Property to appreciate in value.

5. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) because:

(1) This will be a one-time cash transaction;

(2) The Plan will receive fair market value for the Property;

(3) There will be no commissions paid in connection with the proposed transaction; and

(4) The Trustee has determined that the proposed transaction is in the interests of and protective of the Plan and its participants and beneficiaries.

**The Justin Industries, Inc. Pension Plan (the Justin Plan); the H.J. Justin and Sons, Inc. Pension Plan for Employees represented by the United Shoenworkers of America, Fort Worth, Texas (the Justin Union Plan); the Acme Brick Company Pension Plan for Employees represented by the United Brick and Clay Workers of America, Perla, Arkansas (the Perla Plan); and the Acme Brick Company Pension Plan for Employees represented by the United Brick and Clay Workers of America, Malvern, Arkansas (the Malvern Plan; collectively, the Plans) Located in Fort Worth, Texas**

[Application Nos. D-6790, D-6795, D-6796, D-6797]

#### *Proposed Exemption*

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(a)(1) (A) through (E) of the Code shall not apply to the proposed purchase by the Plans of certain commercial real property from Justin Industries, Inc. (Justin), a party in interest with respect to the Plans; provided that such transaction is on terms at least as favorable to the Plans as the Plans could obtain in an arm's-length transaction with an unrelated party.

#### *Summary of Facts and Representations*

1. The Plans are defined benefit pension plans, the assets of which are commingled solely for investment purposes under one master trust (the Master Trust). The Justin Plan, with 3,078 participants as of January 1, 1986, and the Justin Union Plan, with 333 participants as of January 1, 1986, are sponsored by Justin, a Texas public corporation engaged primarily in the manufacture and sale of boots and belts and of building materials, with its principal place of business at 2821 West Seventh Street in Fort Worth, Texas. The Perla Plan, with 88 participants as of January 1, 1986, and the Malvern Plan, with 27 participants as of January 1, 1986, are sponsored by the Acme Brick Company, a wholly-owned subsidiary of Justin with its principal place of business in Fort Worth, Texas. The trustee of the Master Trust is Texas American Bank—Fort Worth, N.A. (the Trustee). As of March 31, 1986, the Master Trust had assets with a total fair market value of \$39,895,713. Investment decisions on behalf of the Plans are made by an investment committee (the Committee) comprised of Jon M. Bennett, Ernest Blank (Blank) and David E. Houseman, each of whom is an officer of Justin.

2. In order to achieve better diversification of the Plans' assets, the Committee desires that the Plans invest in real property. The Committee proposes that the Plans purchase certain commercial real property (the Property) from Justin and is requesting an exemption to permit such purchase. The Property is located in the 2900 block of West Seventh Street in Fort Worth, Texas and consists of twenty-eight city lots, a total of 180,000 square feet. The Property formerly housed a major automobile dealership and is improved with showrooms, offices, repair shops and auxiliary buildings. The Property consists of two parcels: (1) Eight city lots on the north side of Seventh Street, totalling 50,000 square feet, essentially unimproved and covered with asphalt paving; and (2) twenty city lots on the south side of Seventh Street, totalling 130,000 square feet, improved with several structures. Portions of the Property are currently subject to commercial leases (the Leases) and are occupied by lessees unrelated to Justin and the Plans. Justin purchased the Property from unrelated parties on December 1, 1985 for \$4,564,785. Justin represents that the Property is not subject to any mortgage. The Property was appraised by G. Lance Wetherill, SRA (Wetherill), an unrelated

<sup>1</sup> The applicant represents that the Lease was not a prohibited transaction because it was covered by section 414 of the Act through June 30, 1984. The Department expresses no opinion as to the applicability of section 414 in this instance. The applicant further represents that it will pay any excise tax which may be due as a result of the Lease with 60 days after a final determination of such liability by the appropriate governmental or judicial entity.

<sup>2</sup> The Department notes that the original exemption application requested retroactive Relief for the Lease. This notice of pendency, however, relates only to the proposed sale of the Property and no exemptive relief is being proposed by the Department concerning the Lease.

professional real estate appraiser with Crosson Dannis Appraisers of Dallas, Texas, who found that as of May 14, 1986 the Property had a fair market value of \$4,320,000. The Property was also appraised by J.R. Kimball, MAI and Michael O'Connell, SRA, unrelated professional real estate appraisers with the firm of J.R. Kimball, Inc. in Fort Worth, Texas, who found that as of June 2, 1986 the Property had a fair market value of \$4,675,000. It is proposed that the Plans pay Justin cash for the Property in the amount of the Property's fair market value according to Wetherill's appraisal, less six percent representing savings in real estate commissions, for a final cash purchase price of \$4,060,800. Justin will pay all transfer and other sales costs and expenses arising from the proposed transaction. Ownership interests in the Property will be allocated among the Plans in proportion to each Plan's participation in the Master Trust.

3. The Trustee has accepted responsibility as an independent fiduciary on behalf of the Plans to determine whether the proposed transaction is in the best interests and protective of the participants and beneficiaries of the Plan. The Trustee represents that it has substantial fiduciary experience under the Act and that it is sufficiently independent of Justin to act as an independent fiduciary on behalf of the Plan's participants and beneficiaries. The Trustee has total deposits and loans to Justin constituting less than one percent of the Trustee's total deposits and loans. In its capacity as trustee or other fiduciary, the Trustee currently holds five percent of the total voting stock of Justin, but the Trustee owns no stock of Justin for its own account. One director of the Trustee, Blank, is also an officer of Justin and a member of the Committee. However, Blank represents that he has not and will not participate in the proposed transaction and that he will not use any authority, control or influence in any manner relating to the proposed transaction. The Trustee represents that it has investigated, reviewed and analyzed the proposed transaction extensively, specifically considering the diversification requirements of the Act, the liquidity needs of the Plans and the Property's current and future income and appreciation potentials. The Trustee has determined that the property features significant long-term appreciation potential due to its location in an area experiencing growth and redevelopment and its close proximity to the downtown section of the city. The Trustee notes that as the Plan's sole

investment in real property, which will constitute less than 10.8 percent of the Plan's total assets, the Property will contribute diversification to the Plan's assets. The Trustee has also considered the Leases and their effect on the Property's value as an investment for the Plan. Noting that the Leases will provide revenue for the Plan while the Committee investigates methods of realizing the Property's appreciation potential for the Plan, the Trustee represents that the Property's long-term appreciation potential outweighs any short-term negative consequences of the Leases. In conclusion, the Trustee represents that the Plans' purchase of the Property from Justin under the terms described herein will be in the best interests and protective of the participants and beneficiaries of the Plans.

4. In summary, the applicant represents that the criteria of section 408(a) of the Act are satisfied in the proposed transaction for the following reasons: (1) The interests of the Plans are represented by an independent fiduciary, the Trustee, which has determined that the proposed transaction will be in the best interests and protective of the participants and beneficiaries of the Plans; (2) The Plans will not incur any sales costs or incidental expenses in the proposed transaction and will realize a savings of six percent in the purchase price due to the absence of a brokerage commission; and (3) The Plans will pay a cash purchase price for the Property based on Wetherill's appraisal of its fair market value, which is the lower of two unrelated professional valuations of the Property obtained by Justin.

For Further Information Contact: Mr. Ronald Willett of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

**Pottsville Orthopedic Associates Pension Plan (the Plan) Located in Pottsville, Pennsylvania**

[Application No. D-6845]

**Proposed Exemption**

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the proposed cash sale by the Plan of six units (the

Units) representing limited partnership interests in the American Rehab Center-Pottsville (the Partnership) to Pottsville Orthopedic Associates (the Employer), the sponsor of the Plan, provided that the sales price is the higher of either the fair market value of the Units or the Plan's total costs in connection with the acquisition and holding of the Units at the time the sale is consummated.

**Summary of Facts and Representations**

1. The Plan is a defined benefit plan which, as of September 1, 1985, had 14 participants and total net assets of \$739,497. The trustees of the Plan are Landis C. Heistand, M.D. (Dr. Heistand) and Mary N. Heistand, who is the wife of Dr. Heistand (the Trustees). The Trustees are the decision-makers with respect to Plan investments. Dr. Heistand currently owns all of the stock of the Employer. The Employer is a Pennsylvania professional corporation engaged in the practice of orthopedic medicine.

2. The Partnership is a Pennsylvania limited partnership with its principal place of business located at Suite 210, Medical Arts Building, 890 Poplar Church Road, Camp Hill, Pennsylvania. The Partnership was established on April 9, 1985 in order to conduct, for profit, a comprehensive outpatient rehabilitation facility in the Pottsville, Pennsylvania area (the Pottsville CORF). The general partner of the Partnership is American Rehab, Inc. (ARI), which has its main office at Suite 202, Medical Arts Building, 890 Poplar Church Road, Camp Hill, Pennsylvania. The Plan purchased the Units from ARI on September 16, 1985 for \$84,000 in cash (i.e. \$14,000 for each of the six Units). The Plan did not assume any obligations of the Partnership as a result of the purchase of the Units.

The applicant represents that a total of 35 Units were offered for sale by ARI to medical doctors, medical professional corporations, and pension plans sponsored by such doctors or corporations in the Pottsville area.<sup>1</sup> The applicant states that the offering was made to these individuals and entities because ARI believed that the Pottsville CORF would be profitable and that medical doctors in the area would be more inclined to refer patients to the CORF if they, or their corporations or pension plans, had an interest in the CORF.

<sup>1</sup> In this proposed exemption the Department expresses no opinion as to whether the acquisition and holding of the Units violated any provision of Part 4 of Title I of the Act.

3. The Trustees initially decided that the Plan should purchase the Units because the Partnership's Offering Circular described the Units as a suitable investment for a pension plan. The applicant states that no parties in interest with respect to the Plan currently own any of the Units. The Trustees now believe that it would be in the Plan's best interest to sell the Units to the Employer.

4. The Employer proposes to purchase the Units from the Plan for cash at the higher of either the fair market value of the Units or the Plan's total cash expenditure in connection with the acquisition and holding of the Units. In addition, the Plan will be paid interest on its investment in the Units at an appropriate rate.

5. Frank W. Jackson, M.D. (Dr. Jackson), who is currently the President of ARI and was primarily responsible for organizing the Pottsville CORF has appraised the Units and has determined that the fair market value of the Units, as of October 7, 1986, is no more than \$14,000 per Unit, or \$84,000 for the six Units which the Plan presently holds. Dr. Jackson based his valuation on the following factors: (a) Another nearby CORF, which had been in operation for about a year, was not profitable even though it was expected to be so and is expected to be profitable in the future; (b) the Pottsville CORF has not yet begun operations and will not do so until December 1986, and (c) while the Pottsville CORF might be expected to be profitable, the ultimate market for the sale of the Units will be extremely narrow. Dr. Jackson states that there have been no sales or purchases of the Units since the initial offering of the Units. Under the terms of the Partnership Agreement, the Units can be sold only to the Partnership or the other limited partners and only in certain circumstances. However, ARI has agreed to arrange the sale of the Units by the Plan to the Employer. The Plan will not incur any fees or other expenses in connection with the proposed sale.

6. In summary, the applicant represents that the proposed transaction will meet the statutory criteria of section 408(a) of the Act because: (a) The sale will be a one-time transaction for cash; (b) the Plan will receive the greater of either the fair market value for the Units as established by Dr. Jackson, an independent appraiser, or the original purchase price for the Units paid by the Plan plus an appropriate rate of interest; and (c) the Plan will not pay any commissions or other expenses in connection with the sale.

For Further Information Contact: Mr. E.F. Williams of the Department,

telephone (202) 523-8881. (This is not a toll-free number.)

**Consolidated Steel and Supply Company Employees' Retirement Income, Savings and Stock Investment Plan (the Plan) Located in Elk Grove Village, IL**

[Application No. D-6877]

*Proposed Exemption*

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the proposed sale by the Plan of a parcel of unimproved real property (the Property), for the total cash consideration of \$280,000 to J and J Investment Company (J and J), a party in interest with respect to the Plan, provided this amount is not less than fair market value at the time the transaction is consummated.

*Preamble*

This proposed exemption is requested in an application filed with the Department by J and J. The application incorporates by reference the facts and representations contained in Exemption Application No. D-2732, which comprised the record underlying Prohibited Transaction Exemption (PTE) 82-98 (47 FR 26950, June 22, 1982). Although PTE 82-98 would have permitted the cash sale of the Property by the Plan to J and J, the transaction was never consummated due to high closing costs and interest rates which made the purchase economically infeasible for J and J. In consideration of the passage of time and certain changed facts, the Department has determined that it would be appropriate to repropose the requested exemption in a form which reflects these factual changes.

*Summary of Facts and Representations*

1. The Plan is a profit sharing plan with nine participants and total assets of \$1,460,030 as of September 30, 1985. Consolidated Steel and Supply Company (the Employer) is the sponsor of the Plan. J and J is a general partnership in which Messrs. Joseph L. Straus and James Cole (Messrs. Straus and Cole) are equal partners. Messrs. Straus and Cole together own 100% of

the stock of the Employer and serve as the Plan trustees. They are also the decision-makers with respect to Plan investments.

2. On December 9, 1975, the Plan purchased the Property from Centex Industrial Park, an unrelated party, for approximately \$81,000. The Property is an unimproved parcel of land consisting of two acres. It is located in an industrial park at 1100 East Devon, Elk Grove Village, Illinois. At the time of acquisition, Messrs. Straus and Cole intended that the Property be held as an investment of the Plan until it substantially appreciated in value at which time it would be sold.

3. On October 1, 1984, the Plan began leasing a portion of the Property for parking purposes to Mapes and Sprowl, Ltd., an unrelated party, for a monthly rental of \$1,000. The lease expires on March 31, 1989 and it requires the lessee to assume all utility costs. With the exception of the lease, there are no other encumbrances on the Property. In addition, the Property has never been used or occupied by a party in interest.

Since it has owned the Property, the Plan has paid real estate taxes of approximately \$38,898. It has not incurred any other costs.

4. J and J requests an exemption in order to purchase the Property from the Plan. J and J owns a parcel of land that is adjacent to the Property which it currently leases to the Employer. Subsequent to the sale of the Property, J and J contemplates leasing the Property to the Employer for certain parking and storage uses of the Employer.

5. The sale of the Property will be for the cash sum of \$280,000. This price was determined to be the fair market value of the Property as of August 15, 1986 by Mr. Donald A. Engel (Mr. Engel), M.A.I., an independent real estate appraiser from Chicago, Illinois. In addition to appraising the Property, Mr. Engel represents that the Property has no unique value to J and J or the Employer by virtue of its proximity to the adjacent parcel of real estate owned by J and J. The Plan will pay no sales commissions or other fees and expenses in connection with the proposed sale.

6. In summary, it is represented that the proposed transaction meets the statutory criteria for an exemption under section 408(a) of the Act because: (a) The sale will be a one-time transaction for cash; (b) the sales price for the Property has been determined by an independent appraiser; (c) the Plan will not be required to pay any real estate fees or commissions in connection with the sale; and (d) the Plan will be able to

divest itself of an asset producing little income.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523-8196. (This is not a toll-free number.)

**Pennfield Precision Machining, Inc.  
Profit Sharing Plan (the Plan) Located in  
Sellersville, Pennsylvania**

[Application No. D-6900]

*Proposed Exemption*

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of sections 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the proposed cash sale by the Plan of certain unimproved real property (the Property) to John F. Matczak (Matczak) and Carl F. Tate (Tate), parties in interest with respect to the Plan; provided that such sale is on terms not less favorable to the Plan than those which the Plan could obtain in an arm's length transaction with an unrelated party.

*Summary of Facts and Representations*

1. The Plan is a profit sharing plan with 109 participants and total assets of approximately \$480,000 as of August 13, 1986. The Plan is sponsored by the Pennfield Precision Machining, Inc. (the Employer), a Pennsylvania corporation which is a precision machine shop. The trustees of the Plan are Matczak and Tate, who are both also officers and shareholders of the Employer.

2. Among the assets of the Plan is the Property, a parcel of 59.4 acres of unimproved land located in rural Charleston Township, Tioga County, Pennsylvania, Deed Book 359 page 438. The Plan purchased the Property from an unrelated party for \$29,000 cash in 1973. There are no encumbrances on the Property. The Property adjoins several parcels owned by Matczak. In addition to the purchase price, the Plan's only other expenditures on the Property consist of the expenses related to the 1973 purchase totalling \$469.50, real estate taxes of approximately \$100 per year and appraisal fees of approximately \$75 per year. The Employer represents that the Property has not been leased to or used by anyone and has remained vacant and no-incoming producing during the

holding period. The applicants represent further that the Plan purchased the Property with the expectation that the Property would appreciate substantially in value. However, since its acquisition by the Plan, the Property has decreased in value. As of August 4, 1986, the Property had a fair market value of \$27,000, according to John H. Miller, P.E., GRI Realtor (Miller), a professional real estate appraiser with Homestead Realty in Mansfield, Pennsylvania, who represents himself to be independent of an unrelated to the Employer. By update of October 28, 1986, Miller appraised the Property to lack any special value to Matczak as adjoining landowner.

3. In order to provide the Plan with liquidity and the ability to invest in income-producing assets, Matczak and Tate propose to purchase the Property from the Plan and are requesting an exemption to permit such purchase. Matczak and Tate propose to pay the Plan cash for the Property in the amount of the greater of its fair market value as of the date of sale or the price originally paid by the Plan plus all expenses over and above the original purchase price paid by the Plan, in connection with the acquisition and holding of the Property, including, but not limited to 1973 closing expenses, taxes, appraisal fees, and maintenance expenses. The Plan will incur no costs with respect to the proposed transaction.

4. In summary, the applicants represent that the proposed transaction satisfies the criteria of section 408(a) of the Act for the following reasons: (a) The proposed sale of the Property will be a one-time transaction for cash; (b) The Plan will be reimbursed for all expenses it has incurred in connection with the acquisition and holding of the Property; (c) The proposed transaction will enable the investment of the cash proceeds of the proposed sale in income-producing assets; and (d) No expenses will be incurred by the Plan with respect to the proposed sale.

For Further Information Contact: Betsy Scott of the Department, telephone (202) 523-8196. (This is not a toll-free number.)

**General Information**

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary

responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 18th day of December 1986.

Elliot I. Daniel,

*Associate Director for Regulations and Interpretations, Pension and Welfare Benefits Administration, U.S. Department of Labor.*

[FR Doc. 86-28833 Filed 12-22-86; 8:45 am]

BILLING CODE 4510-29-M

**[Prohibited Transaction Exemption 86-144;  
Exemption Application No. D-1918 et al.]**

**Grant of Individual Exemptions;  
Trammell Crow Co. et al.**

**AGENCY:** Pension and Welfare Benefits Administration, Labor.

**ACTION:** Grant of individual exemptions.

**SUMMARY:** This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the

Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

#### Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

#### Trammell Crow Company, Inc. Employees Profit Sharing Plan and Trust (the Plan) Located in Dallas, TX

[Prohibited Transaction Exemption 86-144; Exemption Application No. D-1918]

#### Exemption

##### Section I—Specific Exemption Involving Disposition of Pre-ERISA Real Estate Investments to Parties in Interest

The restrictions of section 406(a), 406(b)(1), and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code,

by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale to parties in interest with respect to the Plan (Parties in Interest) of any or all of certain real estate investments (the Pre-ERISA Real Estate Investments), including certain parcels of improved real property (the Improved Real Property) directly held by the Plan, the undivided interests in real estate (the Undivided Interests), and partnership interests (the Partnership Interests) owned by the Plan, if the following conditions are met:

(a) The sales price is the fair market value as determined by an independent qualified appraiser; and

(b) The conditions as set forth below in Section III of this exemption are met.

##### Section II—Specific Exemption for Transactions Involving Reinvestments in Parties in Interest

The restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code shall not apply to reinvestments (the Reinvestments) by the Plan in, including any capital contributions (the Capital Contributions) by the Plan to, the Pre-ERISA Real Estate Investments, which are or become Parties in Interest with respect to the Plan under section 3(14) of the Act and section 4975(e)(1) of the Code, if the following conditions are met:

(a) Any Capital Contributions made by the Plan represent an equity investment and are in proportion to the Plan's existing equity ownership interest in any of the partnerships (the Partnerships) in which the Plan owns Partnership Interests or in other entities which comprise the Pre-ERISA Real Estate Investments; and

(b) The conditions set forth in Section III of this exemption are met.

##### Section III—General Conditions

(a) An independent qualified real estate investment manager (the Independent Qualified Real Estate Investment Manager) for the Plan who may not be removed except for "good cause," reviews and approves or initiates such transactions;

(b) At the time such transactions are entered into by the Plan, the terms of the transactions are not less favorable to the Plan than the terms generally available in arm's length transactions between unrelated parties;

(c) The total amount of the Reinvestments (including any Capital Contributions) made by the Plan with respect to Pre-ERISA Real Estate Investments throughout the term of this proposed exemption, do not exceed the

greater of four million dollars (\$4,000,000) or an amount equal to twenty percent (20%) of the value of the Plan's Pre-ERISA Real Estate Investments, as determined on December 31, 1986;

(d) Subject to review by the Independent Qualified Real Estate Investment Manager, at least eighty percent (80%) of the investment proceeds (the Investment Proceeds) of the Plan will be invested in non-real estate related investments (the non-Real Estate Related Investments);

(e) The Plan will not be subject to discrimination with respect to its ability to make (or forebear from making) Reinvestments or Capital Contributions in a manner and to the extent available to all partners who invest on the same terms as the Plan in the Partnerships;

(f) The Plan does not invest in any new Partnership Interests;

(g) The Plan does not purchase any additional common or preferred shares of stock in Trammell Crow Company Employees Inc. (Employee's Inc.). However, Employee's Inc. may invest the internally generated profits of Employee's Inc. (the Internally Generated Profits) in the purchase of interests in newly formed Partnerships;

(h) The Plan does not purchase stock or any ownership interest in any corporation, partnership, or other entity directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control with Trammell Crow Company (TCC), Trammell Crow Partners, Ltd. (TCP), or any partner of TCP, which entity engages in the ownership and development of real estate through the purchase of interests in commercial real estate; and

(i) The trustees of the Plan (the Trustees) maintain, for a period ending three years after the term of this exemption, records and all documents necessary to enable the persons described below in paragraph (a) of this section III (i) to determine whether the conditions of this exemption have been met. Specifically, these records and documents shall include but not be limited to: (1) Written minutes of all meetings in which the Independent Qualified Real Estate Investment Manager takes part which include an explanation as to why decisions were made by the Independent Qualified Real Estate Investment Manager with respect to all transactions under his responsibility; and (2) records which will permit identification of the assets owned by Employee's Inc., and the Plan's proportionate interest therein. However, (1) a prohibited transaction

will not be considered to have occurred if, due to circumstances beyond the control of the applicants, the records are lost or destroyed prior to the end of the period ending three years after the term of this exemption, and (2) no Parties in Interest shall be subject to the civil penalty that may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if the records are not maintained, or are not available for examination as required by paragraph (a) below.

(a)(1) Except as provided in section (2) of this paragraph (a) and notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (i) of this section III are unconditionally available at the office of the Trustees for examination during normal business hours by:

(A) Any duly authorized employee or representative of the Department or the Internal Revenue Service;

(B) Any fiduciary of the Plan and/or the Independent Qualified Real Estate Investment Manager of the Plan and any duly authorized employee or representative of such fiduciary or Independent Qualified Real Estate Investment Manager;

(C) TCC, or any duly authorized employee or representative of TCC; and

(D) Any participant or beneficiary of the Plan or any duly authorized employee or representative of such participant or beneficiary.

(a)(2) None of the persons described in subparagraphs (B) through (D) of this paragraph (a) shall be authorized to examine trade secrets of the applicants, or commercial or financial information which is privileged or confidential.

#### Section IV—Definitions

For the purposes of this exemption:

(a) "Affiliates" of TCC include—

(1) Any of the owners of TCC;

(2) TCP or any partner of TCP;

(3) Any management company under TCC control which provides services to the Partnerships; or

(4) Any TCC sponsored entity (including the Partnerships) which is involved in commercial real estate development and is not a publicly held organization.

(b) "Control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

(c) "Good cause" means any act or refusal to act in such a manner that the consequence thereof will:

(1) Be a violation of any significant duty or obligation imposed on him as the

Independent Qualified Real Estate Investment Manager of the Plan; or

(2) Result in material and substantial harm or damage to the Plan or its assets or result in any consequence which is adverse to the best interests of the Plan participants and beneficiaries; or

(3) Be the inability of the Independent Qualified Real Estate Investment Manager to perform his usual duties in the normal course of affairs because of any physical, mental, disability, or other condition.

(d) "Independent Qualified Real Estate Investment Manager" means a fiduciary who has acknowledged in writing that he is a fiduciary with respect to the Plan and is qualified to serve with respect to the real estate transactions described herein and in the notice of proposed exemption. The Independent Qualified Real Estate Investment Manager will have the power to engage in any transaction related to the holding and disposition of the Pre-ERISA Real Estate Investments, including sufficient control to enable him to discharge his responsibility with respect to the management and disposition of all of the Pre-ERISA Real Estate Investments of the Plan. The Independent Qualified Real Estate Investment Manager will be independent in that he is not an owner, director, or employee of TCC or of any of the Affiliates of TCC, as defined in Section IV(a). Also, he will earn no more than 5% of his gross income during any calendar year in the form of direct or indirect compensation, fees, or payments for services in an advisory capacity to TCC or any of the Affiliates (including his duties as the Independent Qualified Real Estate Investment Manager for the Plan).

(e) "Internally Generated Profits" means income minus expenses plus depreciation and other non-cash charges deducted in determining such net profit plus other cash amounts in excess of reasonable corporate needs as determined by the Board of Directors of Employee's Inc., minus amounts distributed to the Plan as a shareholder.

(f) "Investment Proceeds" means contributions to the Plan by TCC, plus net cash income, plus net disposition proceeds derived from all Plan assets (including net proceeds from the disposition of all of the Pre-ERISA Real Estate Investments and distributions to the Plan from Employee's Inc.).

(g) "Parties in Interest" means persons as defined by section 3(14) of the Act.

(h) "Partnership Interests" means any general or limited partnership interest owned by the Plan in real estate Partnerships that are conceived and sponsored by TCC;

(i) "Pre-ERISA Real Estate Investments" means the Improved Real Property, the Undivided Interests, and the Partnership Interests which the Plan either purchased, or incurred a binding obligation to purchase, prior to the effective date of the Act.

(j) "Real Estate Related Investments" means any interests in unimproved or improved real property, undivided interests in real property, and partnership interests in partnerships which own real property.

#### Temporary Nature of Exemption

The Department has determined that the exemption will be temporary in nature and, unless extended pursuant to timely application made following substantial compliance with the real estate divestiture and diversification program described in the notice of the proposed exemption, will expire on the earlier of (i) ten years from its effective date or (ii) upon the disposition of all properties and interests subject to the exemption and the initial investment of all proceeds pursuant to the exemption.

#### Effective Date

This exemption will be effective on the date of publication of the grant of this exemption in the *Federal Register* and will expire on the earlier of (i) ten (10) years from its effective date or (ii) upon the disposition of all properties and interests subject to the exemption and the initial investment of all proceeds pursuant to the exemption.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on October 14, 1986 at 51 FR 36613.

For Further Information Contact: Angelena C. Le Blanc of the Department, telephone (202) 523-8196. (This is not a toll-free number.)

**Additional Securities Benefit Fund (the Fund) and Plumbers Local Union No. 1 of Brooklyn and Queens (the Union) Located in Howard Beach, NY**

[Prohibited Transaction Exemption 86-145; Exemption Application No. D-6308]

#### Exemption

The restrictions of section 406(a) and 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the loan of \$575,672 by the Fund to the Union provided that the terms of such loan are as favorable to the Fund as those

obtainable in an arm's-length transaction with an unrelated party.

*Effective Date:* August 26, 1985.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on September 12, 1986 at 51 FR 32549.

For Further Information Contact: Ms. Linda M. Hamilton of the Department, telephone (202) 523-8194. (This is not a toll-free number.)

Exemption Application No. D-6470]

#### *Exemption*

The restrictions of sections 406(a) and 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of sections 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale by the Plan for cash of certain real property (the Real Property) to Aspen Graphics, Inc., the Plan sponsor (the Plan Sponsor), and to the assumption by the Plan Sponsor of all obligations under an existing trust deed on the Real Property, provided that the price received for the Real Property is not less than the greater of its fair market value on the date of sale or the price originally paid by the Plan.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on October 10, 1986 at 51 FR 36498.

For Further Information Contact:  
Joseph L. Roberts III of the Department, telephone (202) 523-8194. (This is not a toll-free number.)

**Neurological Associates of Tulsa, Inc. Profit Sharing Plan (the Plan) Located in Tulsa, OK**

[Prohibited Transaction Exemption 86-147;  
Exemption Application No. D-6632]

#### *Exemption*

The restrictions of sections 406(a) and 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of sections 4975(c)(1) (A) through (E) of the Code, shall not apply to the proposed cash sale by Dr. Michael J. Haugh (Dr. Haugh) of an interest (the Interest) in certain real property, for \$70,000, to Dr. Haugh's individual account in the Plan, provided the amount paid for the Interest is not greater than its fair

market value at the time the transaction is consummated.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on October 31, 1986 at 51 FR 39821.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523-8196. (This is not a toll-free number.)

#### **General Information**

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 18th day of December 1986.

##### **Meeting; National Council on the Arts; Media Arts Advisory Panel (AFI Section)**

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Media Arts Advisory Panel (AFI Section) to the National Council on the Arts will be held on January 6, 1987, from 9:00 a.m.-5:30 p.m. and on January 7, 1987, from 9:00 a.m.-1:00 p.m. in room 716 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the Agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682-5433.

#### **NATIONAL SCIENCE FOUNDATION**

##### **Advisory Committee for Information, Robotics, and Intelligence Systems (IRIS); Meeting**

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463 as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Information, Robotics, and Intelligent Systems (IRIS).

Date and time: January 8, 1987 8:30 A.M. to 5:30 P.M.; January 9, 1987 8:30 A.M. to 3:30 P.M.

Place: Room 1243, National Science Foundation, 1800 G Street, NW., Washington, DC 20550.

Type of meeting: All Open—January 8, 1987—9:00 A.M. to 5:30 P.M.; January 9, 1987—9:00 A.M. to 3:30 P.M.

Contact person: Dr. Y.T. Chien, Acting Division Director, Division of Information, Robotics, and Intelligent Systems, Room 310, National Science Foundation, 1800 G Street, NW., Washington, DC, 20550. Telephone: 202/357-9572. Anyone planning to attend this meeting should notify Dr. Chien no later than December 31, 1986.

Purpose of committee: To provide advice and recommendations concerning support of research in Information, Robotics, and Intelligent Systems.

Summary minutes: May be obtained from the contact person at the above address.

#### Agenda

Thursday, January 8, 1987

- Remarks by Director, NSF.
- Status and Plans of CISE Directorate.
- Overview of the Division.
- Presentations by Representatives from other Federal Agencies on activities related to IRIS.
- Presentations and discussion on industrial research and technology transfer in areas related to IRIS.
- Program Review and Discussion.

Friday, January 9, 1987

- Discussion of long-range plans, issues, and concerns.
- Subcommittee meetings on developing a research agenda and action plans for IRIS programs.
- Subcommittee reports and summary.

M. Rebecca Winkler,  
Committee Management Officer,  
December 18, 1986.

#### Population Biology and Physiology Ecology Advisory Panel; Meeting

The National Science Foundation announces the following meeting:

Name: Advisory Panel for Population Biology and Physiological Ecology.

Date and Time: January 15 & 16, 1987—8:30 a.m. to 5:00 p.m. each day.

Place: Room 643, National Science Foundation, 1800 G Street, NW., Washington, DC 20550.

Type of Meeting: Closed.

Contact Person: Dr. John L. Brooks, Acting Program Director, Population Biology and Physiological Ecology (202) 357-7332, Room 215, National Science Foundation, Washington, DC 20550.

Summary Minutes: May be obtained from the Contact Person at the above address.

Purpose of Meeting: To provide advice and recommendations concerning support for research in population biology and physiological ecology.

Agenda: Review and evaluation of research proposals and projects as part of the selection process of awards.

Reason for closing: The proposals being reviewed include information of a proprietary

or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c). Government in the Sunshine Act.

M. Rebecca Winkler,  
Committee Management Officer,  
December 18, 1986.

#### NUCLEAR REGULATORY COMMISSION

##### Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed public meetings of the ACRS Subcommittees and meetings of the full Committee, the following preliminary schedule is published to reflect the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published November 20, 1986 (51 FR 42026). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the *Federal Register* approximately 15 days (or more) prior to the meeting. It is expected that the sessions of the full Committee meeting designated by an asterisk (\*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and Subcommittee meetings usually begin at 8:30 a.m. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the January 1987 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone: 202/634-3265, ATTN: Barbara Jo White) between 8:15 a.m. and 5:00 p.m., Eastern Time.

##### ACRS Subcommittee Meetings

*Joint General Electric Reactors (ABWR)/Safety Philosophy, Technology, and Criteria*, January 7, 1987, Washington, DC. The GE Reactors Subcommittee will begin its review of the ABWR. This will be a preliminary session to explore the status of this project and to be briefed on efforts regarding a licensing basis agreement between GE and the NRC. A current description of the ABWR is sought as

well as schedules from GE and the Staff. The SPTC Subcommittee will review the status of the NRC Staff's work on the Safety Goal Policy on USI A-17, "Systems Interactions on Nuclear Power Plants," and on steam generator overflow.

*Regulatory Policies and Practices*, January 14, 1987, Washington, DC. The Subcommittee will begin its current review of the nuclear plant regulatory process.

*Metal Components*, January 15 and/or 16, 1987, Washington, DC. The Subcommittee will: (1) Hear a report of the Whipjet program (application of broad scope GDC-4 criteria) as applied to a lead plant, Beaver Valley Unit 2, (2) review public comments on NUREG-0313, Revision 2 (long range fix for BWR-IGSCC problems), (3) discuss component support margins as a result of proposed modifications to GDC-4, and (4) other related matters, i.e., Surry feedwater suction piping failure.

*Standardization of Nuclear Facilities*, January 21, 1987, Washington, DC. The Subcommittee will relview the NRC evaluation of Chapter I ("Overall Requirements") of the EPRI Advanced Light Water Reactor Program.

*Structural Engineering*, January 21 and 22, 1987, Albuquerque, NM. The Subcommittee will review the NRC safety research programs on containment integrity and Category I structures, and visit the contractor's test facilities.

*Decay Heat Removal Systems (tentative)*, January 22, 1987, Washington, DC. The Subcommittee will continue its review of the NRR Resolution Position for USI A-45.

*Joint Occupational and Environmental Protection Systems/Severe Accidents/Seabrook*, January 27, 1987, Washington, DC. The Subcommittee will review Brookhaven National Laboratory's Draft report of the Seabrook Emergency Planning Sensitivity Study.

*Advanced Reactor Designs*, February 4, 1987, Washington, DC. The Subcommittee will review DOE advanced non-LWR designs regarding the use of proven technology and standardization.

*Waste Management*, February 12 and 13, 1987, Washington, DC. The Subcommittee will review several pertinent nuclear waste management topics, which are to be determined during an agenda planning session with the NMSS and RES Staffs on January 21, 1987.

*Human Factors*, February 18, 1987, Washington, DC. The Subcommittee will review "Safety Conscience" concept at utilities.

**AC/DC Power Systems Reliability.** Date to be determined (February/March), Washington, DC. The Subcommittee will review the proposed Station Blackout rule.

**Regional and I&E Programs.** Date to be determined (mid-March), Washington, DC. The Subcommittee will continue its review of the activities of the Office of Inspection and Enforcement.

**Thermal Hydraulic Phenomena.** Date to be determined (2-day meeting, March/April), INEL, Idaho Falls, ID. The Subcommittee will review: (1) the Final ECCS Rule and associated documentation, and (2) TIC activities at INEL.

**Seabrook Unit 1.** Date to be determined, Washington, DC. The Subcommittee will review the application for a full power operating license for Seabrook Unit 1.

**Regional and I&E Programs.** Date to be determined (May), Region IV, Arlington, TX. The Subcommittee will continue its review of the activities under the control of the Region IV Office.

#### ACRS Full Committee Meeting

January 8-10, 1987: Items are tentatively scheduled.

**\*A. Meeting with NRC Executive Director for Operations.**—Briefing regarding proposed NRC staff reorganization.

**\*B. Safety Goal Policy Implementation.**—Briefing regarding proposed NRC implementation plan for Commission Safety Goal policy.

**\*C. Meeting with NRC Commissioners.**—Discuss topics for future meeting with NRC Commissioners.

**\*D. Systems Interactions.**—Discuss proposed resolution of USI A-47, Systems Interactions in Nuclear Plants.

**\*E. Improved Light-Water Reactors.**—Discuss proposed ACRS comments and recommendations regarding the characteristics of improved light-water reactors.

**F. Appointment of New ACRS members (Closed).**—Discuss candidates for appointment to the Committee.

**\*G. NRC Safety Research Program (tentative).**—Discuss proposed ACRS comments and recommendations regarding the proposed NRC Safety Research Program for FY 1988 and 1989.

**\*H. Meeting with Director of NRC Office of Reactor Regulation.**—Discuss topics of mutual interest.

**\*I. Suppression Pool Bypass.**—Briefing and discussion of priority for resolution of Generic Issue 61—SRV Discharge Line Break in the Airspace of the Suppression

Pool for Mark I and Mark II containments.

**\*J. ACRS Subcommittee Activities.**—Briefing and status reports of ACRS subcommittee activities regarding safety related matters including seismic reevaluation of the Diablo Canyon Nuclear Plant, activities of NRC regional offices, performance of solid state devices in instrument and control systems, severe accident independent plant evaluations (IPE's), and TVA management problems.

**\*K. Future Activities.**—Discuss anticipated subcommittee activities and items proposed for full Committee consideration.

February 5-7, 1987—Agenda to be announced.

March 5-7, 1987—Agenda to be announced.

Dated: December 17, 1986.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 86-28818 Filed 12-22-86; 8:45 am]

BILLING CODE 7590-01-M

#### [Docket No. 50-334]

#### Duquesne Light Co., Beaver Valley Generating Station Unit 1; Issuance of Environmental Assessment and Finding of no Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-66, issued to Duquesne Light Company (the licensee), for operation of the Beaver Valley Power Station, Unit 1 (BVPS-1), located in Shippingport, Beaver County, Pennsylvania.

#### Identification of Proposed Action

The amendment would consist of changes to the operating license authorizing an extension to the expiration date for the BVPS-1 Operating License DPR-66 from June 25, 2010 to January 29, 2016.

The amendment to the license is responsive to the licensee's application dated November 7, 1985. The NRC staff has prepared an environmental assessment of the proposed action, dated December 17, 1986.

#### Summary of Environmental Assessment

The NRC staff has reviewed the potential environmental impact of the proposed change in the expiration date of the Operating License for BVPS-1. The staff considered previous environmental studies, including the "Final Environmental Statement" for BVPS-1 dated July 1973, and documents submitted by Duquesne Light Company

to support licensing of Beaver Valley Power Station, Unit 2.

#### Radiological Impacts

The population in the vicinity of BVPS-1 has decreased slightly and the site requirements of 10 CFR Part 100 are still met with regard to exclusion area boundary, low population zone, and nearest population center distances. The proposed additional years of reactor operation do not increase the annual public risk from reactor operation.

With regard to normal plant operation, the licensee complies with NRC guidance and requirements for keeping radiation exposures "as low as is reasonably achievable" (ALARA) for occupational exposures and for radioactivity in effluents. The licensee will continue to comply with these requirements during any additional years of facility operation and also apply advanced technology when available and appropriate.

#### Non-Radiological Impacts

The NRC review identified no additional degradation of the habitat surrounding BVPS-1 with regard to indigenous plant and animal species for the additional years of facility operation. In addition, the National Pollutant Discharge Elimination System permit, administered by the Environmental Protection Agency, provides additional environmental protection.

#### Finding of no Significant Impact

The staff has reviewed the proposed change to the expiration date of the BVPS-1 Facility Operating License relative to the requirements set forth in 10 CFR Part 51. Based upon the environmental assessment, the staff concluded that there are no significant radiological or nonradiological impacts associated with the proposed action and that the proposed license amendment will not have a significant effect on the quality of the human environment. Therefore, the staff has determined, pursuant to 10 CFR 51.31, not to prepare an environmental impact statement for the proposed amendment.

For further details with respect to this action, see (1) the application for amendment dated November 7, 1985, (2) the Final Environmental Statement Relating to Operation of Beaver Valley Power Station Unit 1, issued July 1973, and (3) the Environmental Assessment dated December 17, 1986. These documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, 20555 and at the B.F.

Jones Memorial Library, 663 Franklin Avenue, Aliquippa, Pennsylvania 15001.

Dated at Bethesda, Maryland, this 17th day of December 1986.

For the Nuclear Regulatory Commission.

Lester S. Rubenstein,

Director, Project Directorate #2, Division of PWR Licensing-A.

[FR Doc. 86-28814 Filed 12-22-86; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-461]

**Illinois Power Co., Clinton Power Station, Unit No. 1; Environmental Assessment and Finding of no Significant Impact**

The U.S. Nuclear Regulatory Commission (the Commission) plans to issue an amendment to an exemption from certain requirements of 10 CFR Part 50 to the Illinois Power Company (the Licensee) for the Clinton Power Station, Unit No. 1, (the facility) located in DeWitt County, Illinois.

**Environmental Assessment**

***Deferral of Preoperational Test Related to a Portion of the Fuel Handling System***

**Identification of Proposed Action:** The proposed action would extend the duration of an exemption, which permits the licensee to defer completion of that portion of the preoperational test for the fuel handling system related to the transfer of fuel bundles under wet loading conditions.

The Code of Federal Regulations, Title 10, Part 50, (10 CFR Part 50) Appendix A, General Design Criterion (GDC) 61 requires, in part, that the fuel handling system be designed to prevent significant reduction in fuel storage coolant inventory under accident conditions.

By letter dated March 12, 1986, the licensee requested authorization to defer that portion of the fuel handling system preoperational test related to the transfer of fuel bundles under wet conditions until prior to exceeding five percent of rated power. Additionally, in a letter dated March 27, 1986, the licensee requested an exemption from 10 CFR Part 50, Appendix A, GDC 61, for operation of the fuel handling system under wet conditions. The staff, in NUREG-0853, Supplement 6, Appendix N, section 2.7 and in section 2.D of the Clinton low power operating license, granted a scheduler exemption from the requirements of GDC 61 until prior to exceeding five percent of rated power or before removal of the reactor pressure vessel head after initial criticality. An environmental assessment was performed and a final finding of no

significant impact was made and published in the **Federal Register** (51 FR 25274) on July 11, 1986.

The licensee by letter dated October 24, 1986, requested an extension to the scheduler exemption from 10 CFR Part 50, Appendix A, GDC 61, for the fuel handling system to permit a further deferral of the preoperational testing of this system under wet loading conditions until prior to off-loading of irradiated fuel. The supporting justification for the extension of the scheduler exemption is contained in the licensee's October 24, 1986 submittal.

**Need for Proposed Action:** The extension to the scheduler exemption is required so that the licensee may continue power operation beyond five percent of rated power without having to perform this test. Performance of this test requires breaking of primary containment integrity and the operability of the fuel pool cooling system to flood the containment fuel storage pool. To satisfy both these conditions would delay completion of the startup test and power ascension programs. Preoperational testing of that portion of the fuel handling system required to transfer fuel bundles under wet loading conditions will be completed prior to off-loading irradiated fuel.

**Environmental Impact of the Proposed Action:** The proposed extension to the scheduler exemption would allow the licensee to defer preoperational testing of the portion of the fuel handling system related to the transfer of fuel bundles under wet loading conditions. Since the preoperational testing of that portion of the fuel handling system required to transfer fuel bundles under wet loading conditions can be performed anytime prior to off-loading irradiated fuel, requiring this portion of the system to be fully operational prior to exceeding five percent of rated power would create a hardship for the licensee without any compensatory increase in safety. The licensee, in its evaluation has considered the potential for events which could require emergency off-loading of irradiated fuel and determined that there are no such events within the bounds of the design basis analysis contained in Chapter 15 of the Final Safety Analysis Report that would preclude completion of this test prior to the off-loading process.

The staff concludes that the probability of an accident will not be increased and the post-accident radiological releases will not be greater than previously determined due to the proposed relief. Moreover, the proposed relief will not otherwise affect radiological plant effluents, nor result in

any significant occupational exposure. Likewise, the proposed relief does not affect non-radiological plant effluents and has no environmental impact. Therefore, the Commission concludes that there are no significant radiological or non-radiological environmental impacts associated with this proposed relief.

**Alternative to the Proposed Action:** The staff has concluded that there is no measurable environmental impact associated with the proposed exemption. Any alternatives to the exemption will have either no environmental impact or greater environmental impact.

The principal alternative would be to deny the requested relief and exemption. Such action would not reduce environmental impacts of the Clinton Power Station, Unit No. 1 operations and would result in reduced operational flexibility and unwarranted delays in power ascension.

**Alternative Use of Resources:** The action associated with the granting of the proposed exemption as detailed above does not involve the use of resources not previously considered in connection with the "Final Environmental Statement Related to Operation of the Clinton Power Station, Unit No. 1" dated May 1982.

**Agencies and Persons Consulted:** The NRC staff reviewed the licensee's submittal that supports the requested exemption. The NRC staff did not consult other agencies or persons.

**Finding of no Significant Impact**

The Commission has determined not to prepare an environmental impact statement for the proposed exemption.

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the request for the exemption as listed herein, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC 20555 and at the Vespasian Warner Public Library, 120 West Johnson Street, Clinton, Illinois 61727.

Dated at Bethesda, Maryland, this 18th day of December 1986.

For the Nuclear Regulatory Commission.

Walter R. Butler,

Director, BWR Project Directorate No. 4, Division of BWR Licensing.

[FR Doc. 86-28815 Filed 12-22-86; 8:45 am]

BILLING CODE 7590-01-M

**Advisory Committee on Reactor Safeguards; Subcommittee on Regulatory Policies and Practices; Meeting**

The ACRS Subcommittee on Regulatory Policies and Practices will hold a meeting on January 14, 1987, Room 1046, 1717 H Street, NW., Washington, DC.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

*Wednesday, January 14, 1987—9:00 a.m. until the conclusion of business.*

The Subcommittee will begin its current review of the nuclear plant regulatory process.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hold discussions with representatives of the nuclear industry regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Gary Quittschreiber (telephone 202/634-3267) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: December 18, 1986.

**Morton W. Libarkin,**

*Assistant Executive Director for Project Review.*

[FR Doc. 86-28816 Filed 12-22-86; 8:45 am]

BILLING CODE 7590-01-M

**Advisory Committee on Reactor Safeguards; Subcommittee on Structural Engineering; Meeting**

The ACRS Subcommittee on Structural Engineering will hold a meeting on January 21 and 22, 1986, at the AMFAC Hotel, 2910 Yale Blvd., SE., Albuquerque, NM.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

*Wednesday, January 21, 1987—8:30 a.m. until the conclusion of business.*

*Thursday, January 22, 1987—8:30 a.m. until the conclusion of business.*

The Subcommittee will review containment integrity and Category I structures, and other related programs.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Elpidio G. Igne (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: December 18, 1986.

**Morton W. Libarkin,**

*Assistant Executive Director for Project Review.*

BILLING CODE 7590-01-M

**PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL**

**Reopening of Public Comment on Certain Recommendations To Amend the Columbia River Basin Fish and Wildlife Program**

**AGENCY:** Pacific Northwest Electric Power and Conservation Planning Council.

**ACTION:** Columbia River Basin Fish and Wildlife Program: Notice of Reopening of Public Comment on an Application for Amendment.

**SUMMARY:** In this notice, the Pacific Northwest Electric Power and Conservation Planning Council ("the Council") gives notice that it is reopening the period in which public comment will be received on proposals of the U.S. Army Corps of Engineers to amend the Columbia River Basin Fish and Wildlife Program, specifically, proposals to alter the Program's schedules for the development of mechanical bypass systems at certain Columbia and Snake dams, and to amend the Program's policy regarding transportation of anadromous fish on the Columbia and Snake Rivers.

**DATES:** Comments on the U.S. Army Corps of Engineers' application to amend the Columbia River Basin Fish and Wildlife Program must be received in the Council's central office by 5 p.m. Tuesday, January 30, 1987.

**ADDRESS:** 850 Southwest Broadway, Suite 1100, Portland, Oregon 97205.

**FOR FURTHER INFORMATION CONTACT:** Rick Applegate, at 850 Southwest Broadway, Suite 1100, Portland, Oregon 97205, (503) 222-5161.

**SUPPLEMENTARY INFORMATION:** On November 15, 1982, the Council adopted a program designed to protect, mitigate and enhance fish and wildlife affected by the development and operation of hydroelectric projects in the Columbia River Basin. It adopted the program in accordance with its authority under the Pacific Northwest Electric Power Planning and Conservation Act, 16 U.S.C. 839 *et seq.* ("The Northwest Power Act"). The Council amended the Program on October 10, 1984. It received applications for further amendment of

the program on February 18, 1986, and will act on those applications by February 18, 1987. The Council has previously distributed to the public copies of the amendment applications, conducted consultations, held hearings, and received written and oral public comment on them. The public comment period on these applications closed on December 15, 1986.

The Council hereby gives notice that the public comment period is reopened until 5:00 p.m. on Tuesday, January 30, 1987, for the limited purpose of conducting further consultations on the applications submitted by the U.S. Army Corps of Engineers, which propose that the Council amend the Columbia River Basin Fish and Wildlife Program: (1) To postpone the development and installation of mechanical bypass systems certain dams on the lower Columbia and Snake Rivers; and (2) to adopt certain policies regarding the transportation of anadromous fish on the Columbia and Snake Rivers. This reopening of public comment is prompted by the Corps of Engineers' recent statements that it intends to delay the development of mechanical bypass systems further than is proposed in its amendment applications. Although the primary purpose of this reopening of public comment is to allow the Council to conduct further oral consultations with interested parties, the Council also will receive any additional written comment that is submitted regarding these limited issues.

After the close of this comment period, the Council will deliberate in a public meeting and make its decision on the amendment application.

Edward Sheets,

Executive Director.

## PHYSICIAN PAYMENT REVIEW COMMISSION

### Public Hearing

**AGENCY:** Physician Payment Review Commission.

**ACTION:** Call for testimony.

**SUMMARY:** During its meeting on January 8, 1987, the Commission will hear testimony from those interested in physician payment reform under the Medicare program. Oral statements will be limited to five minutes. Written statements may be submitted either to supplement oral testimony or in lieu of it. Those wishing to testify should notify the Commission staff by December 30,

1986. The Commission was established by section 9305 of Pub. L. 99272.

**ADDRESSES:** The Commission's office in the Mary E. Switzer Building; 330 C Street, SW., Washington, DC 20201 in Suite 7033. Its telephone number is 202/472-1364.

**FOR FURTHER INFORMATION CONTACT:** Lauren LeRoy, Deputy Director for Management and External Relations, 202/472-1384.

**SUPPLEMENTARY INFORMATION:** Issues of particular interest to the Commission include inherent reasonableness of charges, geographic variation in payments, the Medicare Economic Index, data needs, standardization of coding, financial protection for beneficiaries, the participating physician program, assignment, program administration, and methodologies for determining relative values.

Paul B. Ginsburg,

Executive Director.

BILLING CODE 6820-SE-M

## POSTAL RATE COMMISSION

[Docket Nos. C86-2 and MC87-2; Order No. 731]

**Complaint of the Sacramento Bee, et al.; Institution of Docket No. MC87-2 and Consolidation of Docket Nos. C86-2 and MC87-2; Order Designating Officer of the Commission and Fixing Date for Intervention**

Issued: December 16, 1986.

Before Commissioners: Janet D. Steiger, Chairman; Bonnie Guiton, Vice-Chairman; John W. Crutcher; Henry R. Folsom; Patti Birge Tyson.

Notice is hereby given that pursuant to 39 U.S.C. 3623(b), the Commission has instituted a mail classification case to consider certain issues pertaining to Plus publications and has consolidated existing Docket No. C86-2, Complaint of the Sacramento Bee *et al.*, with the new classification proceeding.

The Commission's decision to return to Plus publication questions relatively soon after having expressed, in *Complaint of Advo-System, Inc.*, Docket No. C85-1, basic policy as to their appropriate place in the classification schedule is based, in part, on the variety of criticisms leveled against the Postal Service's rule and on the filing of a rate complaint by the Sacramento Bee on behalf of itself and several other newspaper publishers.

The Commission's views on the status of the rate complaint and of the necessity for a classification inquiry are explained at length in Order No. 724. (51

FR 44166 *et seq.*) That order was issued in these dockets on December 2, 1986, and sent to all participants of record; it should be consulted for further details regarding the potential classification issues herein.

As indicated in Order No. 724, the focus of the combined proceeding is on the question of framing a Domestic Mail Classification Schedule (DMCS) provision that is unmistakably clear; covers reasonably likely future attempts to use second class for Plus-issue-type products essentially directed toward market areas regardless of subscription levels; and responds to publishers' legitimate concerns about content-based regulation. Order at 13-14. The legality of Postal Service rules earlier published in connection with Plus issues is expressly excluded from consideration in the proceeding. Order at 1. As indicated at pp. 4-6 of Order No. 724, the policy expressed in the *Advo* opinion forms the background to our consideration of the Bee *et al.*'s rate complaint.

Order No. 724 accorded participant status in Docket No. MC87-2 to all participants of record in Docket No. C86-2. Other persons interested in participating in the consolidated proceedings are invited to file notices of intervention by January 12, 1987.

Stephen A. Gold of the Commission's Office of the Consumer Advocate is hereby designated Officer of the Commission to represent the interests of the general public in the combined proceedings.

### It Is Ordered

(1) Interested persons who have not already been accorded participant status in Docket No. C86-2 shall file notices of intervention in the consolidated proceeding by January 12, 1987.

(2) Stephen A. Gold is designated Officer of the Commission to represent the interests of the general public.

By the Commission.

Charles L. Clapp,

Secretary.

BILLING CODE 7715-01-M

## POSTAL SERVICE

### Privacy Act of 1974; System of Records

**AGENCY:** Postal Service.

**ACTION:** Final notice of modification to an existing system of records.

**SUMMARY:** The purpose of this document is to publish final notice to add a new routine use to an existing system of records description that recently appeared for public comment in the Federal Register.

**EFFECTIVE DATE:** December 23, 1986.

**FOR FURTHER INFORMATION CONTACT:** Rubenia Carter (202) 268-4872.

**SUPPLEMENTARY INFORMATION:** On November 13, 1986, the Postal Service published in the Federal Register (51 FR 41181) advance notice of a proposed routine use to Postal Service system USPS 200.030—Non-Mail Monetary Claims—Tort Claims Records. The purposes of this change appeared in the proposal and will not be repeated here. Interested persons were invited to comment on the proposed routine use. No comments regarding this system modification were received. Accordingly, after a review of the proposed text, the Postal Service has determined to give final notice of the following modification. The specific change for the records system description for USPS 200.030 follows: Add a new Routine Use to Read:

"11. May be disclosed to independent contractors retained by the Postal Service to provide advice in connection with the settlement or defense of claims filed against USPS." A complete statement of the revised system appears below:

Fred Eggleston,

*Assistant General Counsel, Legislative Division.*

**USPS 200.030**

**SYSTEM NAME:**

Non-Mail Monetary Claims—Tort Claims. Records, 200.030

**SYSTEM LOCATION:**

Law Department at Headquarters and regions, Postal Inspection Service.

Division Headquarters, Post Offices and Post Data Centers.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Persons involved in accident as a result of postal operations or alleging money damages under the provisions of the Federal Tort Claims Act.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Accident reports, tort claims filed, documentary evidence in support of tort claims and litigation arising out of tort claims.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

28 U.S.C. 2671-80, 39 U.S.C. 409(c).

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

Purpose—Used by attorneys and other employees of the Postal Service to consider, settle and defend against tort claims made against the USPS under the Federal Tort Claims Act.

**Use—**

1. Transferred to Department of Justice, other governmental agencies, and other persons involved in a claim against the Postal Service, or use in adjudication, civil litigation and criminal prosecution.
2. To provide members of the American Insurance Association Index System with certain information related to accidents and injuries.
3. Provide information to USPS accident prevention and safety officers.
4. Furnish information to insurance companies that have named the United States as an additional insured or coinsured in liability insurance policies.
5. Provide information to equipment manufacturers and their insurers for claims considerations and possible improvement of equipment.
6. To respond to a subpoena duces tecum and other appropriate court order and summons.
7. Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization upon its request when needed by that organization to perform properly its duties as the collective bargaining representative of postal employees in an appropriate bargaining unit.
8. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
9. Disclosure may be made from the record of an individual, where pertinent, in any legal proceeding to which the Postal Service is a party before a court or administrative body.
10. Inactive records may be transferred to a GSA Federal Records Center prior to destruction.
11. May be disclosed to independent contractors retained by the Postal Service to provide advice in connection with the settlement or defense of claims filed against USPS.

11. May be disclosed to independent contractors retained by the Postal Service to provide advice in connection with the settlement or defense of claims filed against USPS.

10. Inactive records may be transferred to a GSA Federal Records Center prior to destruction.

11. May be disclosed to independent contractors retained by the Postal Service to provide advice in connection with the settlement or defense of claims filed against USPS.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ASSESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper form, original or copies, preprinted or handwritten forms.

**RETRIEVABILITY:**

Information may be retrieved by person's name or Postal Inspection Service case number.

**SAFEGUARDS:**

Records are maintained in ordinary filing equipment under general scrutiny of postal personnel.

**RETENTION AND DISPOSAL:**

Paid claims records are retained for seven years after payment. All other files are retained for five years after closing. All records are destroyed by shredding or burning.

**SYSTEM MANAGER(S) AND ADDRESS:**

(1) General Counsel, Law Department, Headquarters; (2) Chief Postal Inspector, Headquarters.

**NOTIFICATION PROCEDURE:**

Furnish person's name, data and place of occurrence giving rise to a claim under the Federal Tort Claims Act, to the head of the facility where the claim was filed.

**RECORD ACCESS PROCEDURE:**

See NOTIFICATION above.

**CONTESTING RECORD PROCEDURES:**

See NOTIFICATION above.

**RECORD SOURCE CATEGORIES:**

Claimants making demand for money damages, reports, of postal employees involved in accidents, local police reports, Inspection Service investigative reports and American Insurance Association Index reports.

[FR Doc 86-28754 Filed 12-22-86; 8:45 am]

BILLING CODE 7710-12-M

**SECURITIES AND EXCHANGE COMMISSION**

[Release No. 34-23890; File No. SR-PSE-86-21]

**Self-Regulatory Organizations; Pacific Stock Exchange, Inc.; Order Approving Proposed Rule Change**

On September 24, 1986, the Pacific Stock Exchange, Inc. ("PSE" or the "Exchange") submitted to the Securities and Exchange Commission ("Commission") pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and rule 19b-4 thereunder,<sup>2</sup> a proposed rule change to

<sup>1</sup> 15 U.S.C. 78s(b)(1) (1984).

<sup>2</sup> 17 CFR 240.19b-4 (1986).

allow vocalization of bids or offers specifying a required minimum number of options contracts to be purchased or sold.

The proposed rule change was noticed in Securities Exchange Act Release No. 23711 (October 15, 1986), 51 FR 37995 (October 27, 1986). No comments were received on the proposed rule change.

The proposed amendments to PSE Options Floor Procedure Advice ("OFPA") D-4 and PSE Rule VI, section 48 will permit bids and offers for a specified number of options contracts and no less. In the absence of any specific volume requirement accompanying a bid or offer, the bid or offer will still be presumed to be for one contract. These changes will permit the vocalization of such orders known as "All or None" or "Fill or Kill." The proposed change to OFPA D-4 will also require diligence on the part of brokers vocalizing such orders to ensure that the posted market does not reflect such bid or offer.

Although current Exchange rules do not prohibit the entry of orders requiring that a minimum number of options contracts be purchased or sold, OFPA D-4 specifically prohibits vocalization of such orders. The proposed rule change is designed to correct this inconsistency and to allow representation of minimum contract orders.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and, in particular, the requirements of Section 6<sup>3</sup> and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,<sup>4</sup> that the proposed rule change is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 15, 1986.

Jonathan G. Katz,  
Secretary.

[FR Doc. 86-28726 Filed 12-22-86; 8:45 am]

BILLING CODE 8010-01-M

#### Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Philadelphia Stock Exchange, Inc.

December 16, 1986.

The above named national securities exchange has filed applications with the

Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following securities:

Circle K Corporation

Common Stock, \$1.00 Par Value (File No. 7-9398)

Atari Corporation

Common Stock, \$.01 Par Value (File No. 7-9399)

Deluxe Check Printers, Incorporated

Common Stock, \$1.00 Par Value (File No. 7-9401)

Genuine Parts Company

Common Stock, \$1.00 Par Value (File No. 7-9402)

Novo Industri A/S

American Depository Shares (File No. 7-9403)

Teradyne Inc.

Common Stock, \$0.125 Par Value (File No. 7-9404)

Computer Associates International Inc.

Common Stock, 0.10 Par Value (File No. 7-9405)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before January 9, 1987, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,  
Secretary.

BILLING CODE 8010-01-M

[Release No. IC-15482 ; File No. 812-6525]

#### Fuji Bank Canada; Notice of Application

December 16, 1986.

AGENCY: Securities and Exchange Commission ("SEC").

**ACTION:** Notice of Application for Exemption under the Investment Company Act of 1940 ("1940 Act").

*Applicant:* Fuji Bank Canada ("Fuji Canada").

*Relevant 1940 Act Section:* Exemption requested under section 6(c) from all provisions of the 1940 Act.

*Summary of Application:* Applicant seeks an order exempting it from all provisions of the 1940 Act in connection with the issuance and sale of its U.S. dollar denominated certificates of deposit and other debt securities in the United States ("Securities"). Payment of principal and interest on the Securities will be unconditionally guaranteed by The Fuji Bank, Limited, New York Branch ("Fuji New York") or The Fuji Bank, Limited ("Fuji").

*Filing Date:* The application was filed on November 6, 1986.

*Hearing or Notification of Hearing:* If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m. on January 9, 1987. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicant with the request, either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit, or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

**ADDRESSES:** Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Fuji Canada, c/o Peter Figdor, Esq., Wender Murase & White, 400 Park Avenue, New York, NY 10022.

**FOR FURTHER INFORMATION CONTACT:** Joyce M. Pickholz, Esq., (202) 272-3046, or H.R. Hallock, Jr., Special Counsel, (202) 272-3030 (Division of Investment Management).

**SUPPLEMENTARY INFORMATION:** The following is a summary of the application; the complete application is available for a fee from either the SEC's Public Reference Branch in person, or the SEC's commercial copier (800) 231-3282 (in Maryland (301) 258-4300).

*Applicant's Representations:*

(1) Fuji Canada is a Canadian chartered bank constituted and licensed under the Bank Act, S.C. 1980, Chap. 40 (the "Canadian Bank Act"), that commenced operations as a foreign bank subsidiary under the Canadian Bank Act in February 1982. All of Fuji Canada's outstanding capital stock,

<sup>3</sup> 15 U.S.C. 78f (1984).

<sup>4</sup> 15 U.S.C. 78s(b)(2) (1984).

currently consisting of 208,427 shares of common stock, is owned by Fuji and wholly-owned subsidiaries of Fuji.

(2) Fuji Canada offers full banking services through its head office in Toronto, including short and medium term commercial lending; deposit-taking; investing in commercial paper, bank instruments and government obligations; discounting trade bills; issuing letters of credit; and foreign exchange trading. As of April 30, 1986, its total assets were equivalent to approximately U.S. \$335 million, with authorized capital stock consisting of 300,000 shares of no-par value common stock and paid up capital of Can. \$24,000,000.

(3) As a Canadian bank chartered under the Canadian Bank Act, various aspects of Fuji Canada's business, including, deposit reserves and insurances, permissible powers, loan volume and dividend policy, are subject to regulation under the Canadian Bank Act and the Canada Deposit Insurance Corporation Act, as amended. The Canadian Inspector General of Banks (the "Inspector General") is responsible generally for the administration of the Canadian Bank Act and more particularly for the day-to-day regulation of Canadian banks to ensure compliance with Canadian banking law. Canadian banks are required to file with the Inspector General, and publish annual statements in prescribed form comprised of statements of assets and liabilities, income, appropriations for contingencies and changes in shareholders' equity of the bank together with a report of the bank's auditors thereon. The Inspector General is permitted to examine the Applicant as often as it is deemed necessary or expedient, and in no event less than once a year, and the Inspector General has power to issue subpoenas and similar processes compelling attendance of any person to give testimony in respect of any matter under investigation and to produce documents, books and papers under such person's control. The Canadian Bank Act also governs matters such as liquidity requirements.

(4) Fuji ranked as the 2nd largest bank in the free world in terms of deposits as of December 31, 1985. As of September 30, 1985, Fuji had worldwide assets equivalent to approximately U.S. \$145.4 billion, worldwide customer deposits equivalent to approximately U.S. \$105.6 billion, worldwide loans and bills discounted equivalent to approximately U.S. \$71.4 billion and total stockholders' equity equivalent to approximately U.S. \$3.1 billion.

(5) Fuji is presently engaged in the conduct of a commercial banking

business in Japan, which includes receiving deposits, making loans, discounts and security investments, conducting domestic and foreign exchange transactions and performing such other related services as safekeeping, money exchange, collections and issuing guarantees, acceptances and letters of credit. Fuji is engaged in the banking business through 242 domestic branches which are located throughout Japan and it maintains branches, agencies and representative offices in seven other countries and banking subsidiaries in nine other countries.

(6) Fuji is extensively regulated under Japanese banking laws and the regulations promulgated thereunder. The Japanese Ministry of Finance audits Fuji once every two or three years and the Bank of Japan conducts field checks once every two or three years. The Japanese Ministry of Finance supervises the lending ratios and lending limits of Japanese banks. In addition, the Japanese Ministry of Finance exercises supervisory control over Japanese banks by reason of the necessity of obtaining the approval of the Japanese Ministry of Finance with respect to such matters as the establishment of additional offices, reductions in capital, mergers, liquidations or discontinuations of business. The Japanese Ministry of Finance also has the authority to instruct Japanese banks to remove directors, to direct a Japanese bank to submit certain property to be held for the protection of depositors or to issue such other orders as may be deemed necessary.

(7) Fuji has been licensed by the New York State Superintendent of Banks to maintain a branch office in New York State since October 1985 and, under its present branch license, Fuji New York is authorized to engage in "the business of buying, selling, paying or collecting bills of exchange, or of issuing letters of credit or of receiving money for transmission or transmitting the same by draft, check, cable or otherwise, or of making loans, or of receiving deposits."

(8) Fuji New York, as a New York branch of a foreign bank, is subject to extensive Federal and New York State regulation. It must maintain daily records of assets and liabilities that are payable at or through Fuji New York. Its loans, purchases and discounts of notes, bills of exchange, bonds, debentures and other obligations and extension of credit and acceptances are subject to the same limitations as to amount in relation to the capital stock, surplus fund and undivided profits of Fuji as are applicable to New York State banks and trust companies. In addition, Fuji New

York must maintain on deposit with a bank, trust company, private banker or national bank which it has selected assets the aggregate value of which is equal to 5% of its total liabilities (excluding liabilities owed to other offices and subsidiaries of Fuji). Fuji New York is also subject to regulation under the International Banking Act of 1978.

(9) Securities to be publicly offered by Fuji Canada in the United States will be sold in minimum denominations of U.S. \$100,000 through major dealers, will be sold only to institutional and other sophisticated investors, will have varying maturities not exceeding five years and will not include any provision for extension, renewal or automatic rollover.

(10) Payment of principal of, and interest on, the Securities will be unconditionally guaranteed by Fuji New York, or provided that Fuji shall have obtained an order of the Commission pursuant to Section 6(c) of the 1940 Act exempting it from all the provisions of the 1940 Act in connection with the issuance of such guarantees by Fuji. Consequently, holders of the Securities will look to Fuji New York or Fuji, as the case may be, as the ultimate obligor. The Securities will have received one of the three highest investment grade ratings from at least one nationally recognized statistical rating organization and Fuji Canada undertakes that, prior to the issuance of any Securities, its United States counsel shall have certified that such rating has been received and is in effect as of such time. The Securities will rank *pari passu* among themselves, and the guarantees in respect thereof will rank *pari passu* among themselves; the Securities will rank equally with all other unsecured indebtedness of Fuji Canada (except to the extent indebtedness to Canada or any province thereof is preferred by operation of law) including deposit liabilities, and superior to rights of shareholders; and the guarantees of the Securities will rank equally with all other unsecured indebtedness of Fuji New York or Fuji, as the case may be (except to the extent such indebtedness is preferred by operation of law), including deposit liabilities, and superior to rights of shareholders.

(11) Any offering in the United States of Securities will be made only pursuant to a registration statement under the Securities Act of 1933 ("1933 Act"), or pursuant to an applicable exemption from the registration requirements of the 1933 Act. Any such offering will be done on the basis of disclosure documents that are appropriate and customary for

such registration or exemption, and in any event at least as comprehensive as those used in offerings of similar securities in the United States by United States issuers, and which include a memorandum describing the business of Fuji and Fuji Canada and containing the most recent publicly available annual financial statements of Fuji and Fuji Canada (including a balance sheet and income statement), audited in accordance with Japanese and Canadian accounting principles, respectively. Such memorandum will include brief paragraphs highlighting the material differences between generally accepted accounting principles applicable to United States banks and (i) Japanese accounting principles applicable to Japanese banks and used by Fuji and (ii) Canadian accounting principles applicable to Canadian banks and used by Fuji Canada. Such memorandum will be updated promptly to reflect material changes in the business and financial condition of Fuji or Fuji Canada. Such disclosure documents will be provided to each offeree who has indicated an interest in purchasing Securities prior to any sale of such Securities to such offeree; except that, in the case of an offering being made pursuant to a registration under the 1933 Act, such disclosure documents will be provided to such persons and in such manner as may be required by the 1933 Act.

(12) In connection with any offering of Securities in the United States, Fuji Canada will expressly accept the jurisdiction of any state or federal court in the City and State of New York in respect to any action based on such Securities. Further, it will appoint an agent located in the City and State of New York (which may be Fuji New York) to accept any process which may be served in any such action. Such consent to jurisdiction and appointment of an agent for service of process will be irrevocable so long as such Securities remain outstanding and until all amounts due and to become due in respect of such Securities have been paid.

(13) Fuji Canada will not offer any Security unless (i) it shall have registered such Security pursuant to the 1933 Act, or (ii) if it offers such Security without registration pursuant to an applicable exemption from registration under the 1933 Act, either (x) it shall have received an opinion of its United States legal counsel to the effect that, under the circumstances of the proposed offering, such Security will be entitled to an exemption provided under the 1933 Act, or (y) the Staff of the Commission

shall have stated in writing that it will not recommend enforcement action to the Commission under the circumstances of the proposed offering or the Commission shall have issued a policy statement indicating that an offering of securities under circumstances substantially similar to that of the proposed offering will not be the subject of an enforcement action.

(14) Fuji Canada will not offer any Security (i) in the case of any Security to be guaranteed by Fuji New York, unless it shall receive an opinion of Japanese legal counsel to Fuji to the effect that the obligation of Fuji New York pursuant to such guarantee also constitutes the legal, valid and binding obligation of Fuji enforceable against Fuji in accordance with its terms, and (ii) in the case of any Security to be guaranteed by Fuji, unless Fuji shall have obtained an order of the Commission pursuant to section 6(c) of the 1940 Act exempting it from all the provisions of the 1940 Act in connection with the issuance of such guarantee.

*Applicant's Conditions:* Fuji Canada consents to any order issued pursuant to section 6(c) of the 1940 Act granting the relief requested being expressly conditioned upon its compliance with the representations and undertakings set forth in the application.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Jonathan G. Katz,  
Secretary.

BILLING CODE 8010-01-M

[Release No. IC-15481; 812-6478]

#### NEL Growth Fund, Inc., et al.; Application

Date: December 16, 1986.

**AGENCY:** Securities and Exchange Commission ("SEC").

**ACTION:** Notice of application for exemption under the Investment Company Act of 1940 ("1940 Act").

*Applicants:* NEL Growth Fund, Inc., NEL Equity Fund, Inc., NEL Retirement Equity Fund, Inc., NEL Income Fund, Inc. and NEL Tax Exempt Bond Fund, Inc.

*Relevant 1940 Act Sections:* Exemption requested under section 6(c) from section 19(b) and Rule 19b-1.

*Summary of Application:* Applicants seek an order to allow extraordinary distributions of long-term capital gains in connection with each Applicant's reorganization into a separate series of The New England Funds, a registered management investment company.

*Filing Date:* The application was filed on September 11, 1986 and amended December 16, 1986.

*Hearing or Notification of Hearing:* If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC no later than 5:30 p.m., on January 8, 1987. Request a hearing in writing giving the nature of your interest, the reasons for the request, and the issues contested. Serve Applicants with the request, either personally or by mail, and also send it to the Secretary, SEC, along with proof of service by affidavit, or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary, SEC.

**ADDRESSES:** Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549; Applicants, 501 Boylston Street, Boston, MA 02117.

**FOR FURTHER INFORMATION CONTACT:** Staff Attorney Meryl Dewey (202)272-3038 or Special Counsel H.R. Hallock, Jr. (202)272-3030 (Division of Investment Management).

**SUPPLEMENTARY INFORMATION:** Following is a summary of the application. The complete application is available for a fee from either the SEC's Public Reference Branch in person or at the SEC's commercial copier (800)231-3282 (in Maryland (301)258-4300).

#### *Applicants' Representations:*

1. Each Applicant is a Massachusetts corporation and is a diversified, open-end, management investment company registered under the 1940 Act. Each Applicant intends to reorganize ("Reorganizations") into a separate series of The New England Funds ("Trust"), a Massachusetts trust registered under the 1940 Act as a diversified, open-end, management investment company. Currently, the Trust offers one series, the New England Government Securities Fund.

2. The Reorganizations have been approved by the board of directors of each Applicant and the Trust, are subject to approval by each Applicant's shareholders, and are expected to be effected in January, 1987.

3. Under the Reorganizations, each Applicant will transfer all its assets and liabilities to a separate, newly-created Trust series in exchange for shares of that series. Such shares would be distributed immediately to each Applicant's shareholders in complete liquidation of the respective Applicant.

4. The Reorganizations would reduce operating costs as Applicants would

realize savings in state excise taxes and by not holding annual shareholders' meetings or paying fees for authorizing additional shares of capital stock.

5. Applicants and the Trust believe that the Reorganizations will be treated as five separate tax-free reorganizations under section 368(a)(1)(F) of the Internal Revenue Code of 1954, as amended ("Code"); however, they might be treated as a single reorganization under section 368(a)(1)(C) of the Code. To protect shareholders against that possibility, which would terminate each Applicant's fiscal year and preclude distribution of net long-term capital gains after the effective date of the Reorganizations ("Effective Date"), each Applicant contemplates making one or two extraordinary distributions of net long-term capital gains shortly before the Effective Date. The amount of the first such distribution would be calculated at the last date before the Effective Date which would practicably permit Applicants to make the distribution before the Effective Date. A second extraordinary distribution may be made, on or immediately prior to the Effective Date, if the amount already distributed was materially less than the amount of long-term capital gains actually realized by the respective Applicant.

6. Section 19(b) of the 1940 Act provides that it shall be unlawful in contravention of rules, regulations, or orders prescribed by the SEC for a registered investment company to distribute long-term capital gains more often than once every twelve months. Rule 19b-1 under the 1940 Act prohibits registered investment companies from making more than one capital gains distribution with respect to any taxable year, with certain exceptions. The requested order would permit Applicants to make a distribution necessitated by the possible applicability of section 368(a)(1)(C) of the Code, without disabling them (i) from making an additional distribution to adjust the amount of the first distribution, if necessary, and (ii) from distributing the gains relating to the period between the Effective Date and each Applicant's usual respective fiscal year end.

7. It is unlikely that the contemplated distributions of long-term capital gains would cause Applicants' shareholders to confuse such extraordinary distributions with regular dividend distributions. Further, Applicants will clearly differentiate between the proposed distributions and distributions out of net investment income in the notice to

shareholders accompanying each extraordinary distribution.

8. Since the extraordinary distributions will occur only once, there will be little additional administrative expense.

9. Section 19(b) of the 1940 Act and Rule 19b-1 thereunder were devised in part to prevent investment companies from churning their portfolios in contravention of their goal of long-term capital appreciation. The proposed extraordinary distributions will be one-time distributions of net long-term capital gains made in response to a technical federal tax concern arising from the transfer of all the assets and liabilities of each Applicant to a separate series of the Trust, and will not result in churning of Applicants' portfolios nor affect their investment decisions.

10. Applicants submit that the requested order does not contravene the purposes underlying section 19(b) of the 1940 Act or Rule 19b-1 thereunder, is in the public interest, and is consistent with the protection of investors and the purposes and policies of the 1940 Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-23891; File No. SR-Phlx-86-33]

**Self-Regulatory Organizations;  
Philadelphia Stock Exchange, Inc.;  
Order Approving Proposed Rule  
Change**

On September 19, 1986, the Philadelphia Stock Exchange, Inc. ("Phlx" or the "Exchange") submitted to the Securities and Exchange Commission ("Commission") pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and rule 19b-4 thereunder,<sup>2</sup> a proposal to amend the rules relating to order and decorum on the trading floor.

The proposed rule change was noticed in Securities Exchange Act Release No. 23717 (October 15, 1986), 51 FR 37996 (October 27, 1986). No comments were received on the proposed rule change.

Phlx Rule 60 and the regulations thereunder relate to the disciplining of members for violations of regulations relating to matters of order and decorum and administration of the Exchange.

<sup>1</sup> 15 U.S.C. 78s(b)(1) (1984).

<sup>2</sup> 17 CFR 240.19b-4 (1986).

Violations are currently punished by a pre-set fine of up to \$500. First, the proposed rule change will increase the limit from \$500 to \$1,000. Second, the proposal will provide discretion to two floor officials to refer violations to the Business Conduct Committee, where the matter will proceed in accordance with exchange Rules 960.1-960.12 regarding procedure in disciplinary actions, and where higher fines and other sanctions may be imposed. Last, the proposed rule change will amend the assessment schedule by prohibiting firearms on the trading floor and exacting a fine of \$1,000 for each violation, prohibiting the use of another person's Exchange identification and exacting a fine of \$250 for the first violation and \$500 for each subsequent violation, and increasing the fine for fighting from \$500 to \$1,000.

The Commission finds that the proposed rule change is consistent with requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and, in particular, the requirements of Section 6<sup>3</sup> and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,<sup>4</sup> that the proposed rule change is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 15, 1986.

Jonathan G. Katz,

Secretary.

[FR Doc. 86-28823 Filed 12-22-86; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-23889; File No. SR-Phlx-86-48]

**Self-Regulatory Organizations;  
Philadelphia Stock Exchange, Inc.;  
Order Granting Accelerated Approval  
to Proposed Rule Change**

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on December 12, 1986, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

<sup>3</sup> 15 U.S.C. 78f (1984).

<sup>4</sup> 15 U.S.C. 78s(b)(2) (1984).

## I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") proposes to revise certain of its strike price policies to permit the orderly introduction of one-half point (\$.005) strike price intervals for Canadian dollar option contracts.

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change

The proposed rule change would enable the Exchange to add one-half point exercise prices in Canadian dollar option contracts, either singly or at the same time as the next exercise price is added. The Canadian dollar, relative to the United States dollar, is not volatile as compared to other foreign currencies. The availability of additional strike prices would enhance the opportunity of participants in the Canadian dollar foreign currency options to trade and hedge their currency risk more effectively. The ability of the PHLX to offer \$.005 strike price intervals in the Canadian dollar will enable the PHLX, which trades a similar product, to be competitive with the Chicago Board Options Exchange ("CBOE") which has applied to the Commission to add one-half point exercise prices in its Canadian dollar option contracts. (See Release No. 23811, November 26, 1986.) In addition, introduction of one-half point strike prices on the same day as the CBOE will reduce investor confusion.

The proposed rule change is based on section 6(b)(5) of the Securities Exchange Act ("Act") in that it is designed to facilitate transactions in Canadian dollar foreign currency options.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not foresee that the proposed rule change will impose any burden on competition.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange requests that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the 1934 Act because the rule change is substantively identical to a proposed rule change previously filed by the Chicago Board Options Exchange, Incorporated ("CBOE") and approved by the Commission.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, the requirements of section 6 and the rules and regulations thereunder.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof because the rule change, substantively identical to a rule change filed previously by the CBOE and approved by the Commission,<sup>1</sup> will enable the Phlx to compete effectively in trading Canadian Dollar options. In addition, similar strike prices among exchanges will help to reduce investor confusion in trading these options.

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in

accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by December 12, 1986.

It is therefore ordered, pursuant to section 19(b)(2) of the Act that the proposed rule change is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 15, 1986.

Jonathan G. Katz,

Secretary.

## SMALL BUSINESS ADMINISTRATION

[License No. 04/04-5240]

### Pro-Med Investment Corporation; Issuance of a Small Business Investment Company License; Application

On July 23, 1986, a notice was published in the *Federal Register* (51 FR 141), stating that an application had been filed by Pro-Med Investment Corporation, 1380 NE. Miami Gardens Drive, N. Miami Beach, Florida 33179, with the Small Business Administration (SBA) pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1986)) for a license as a small business investment company.

Interested parties were given until close of business on August 23, 1986, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(d) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information, SBA issued License No. 04/04-5240 on November 28, 1986, to Pro-Med Investment Corporation to operate as a small business investment company.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies)

## DEPARTMENT OF STATE

[Public Notice 990]

## South African Parastatal Organizations

AGENCY: Department of State.

ACTION: Notice.

**SUMMARY:** Requests have been submitted to the Department of State to review the classification of the following firms as South African "parastatal organizations" for purposes of the Comprehensive Anti-Apartheid Act of 1986, as amended (Pub. L. 99-440): Sasol Ltd.; Tecnetics (Pty) Ltd.; Putco Ltd.; Siemens Ltd.; Computer Technology (Pty) Ltd. (Comtec); Klein Karoo Landboukoopereise Ltd.; and Mercedes Datakor (Pty) Ltd. Interested persons are invited to submit any written comments relevant to the Department's review of the status of these firms.

**DATE:** Comments must be received no later than January 5, 1987.

**ADDRESS:** Comments should be sent to the Office of Southern African Affairs, Room 4238, Department of State, Washington, DC 20520.

**FOR FURTHER INFORMATION CONTACT:** Eric Benjaminson, Office of Southern African Affairs (202) 647-8433, or Lynda Clarizio, Office of the Legal Adviser (202) 647-4110.

**SUPPLEMENTARY INFORMATION:** State Department Public Notice No. 983, published on November 19, 1986 (51 FR 41912), identified which South African firms are deemed to be "parastatal organizations" for purposes of the Comprehensive Anti-Apartheid Act of 1986. The notice provided that any person believing that, due to unique circumstances, a firm should be included or excluded from the list of parastatal organizations can request that the Department review the particular case. All requests must be submitted in writing to the Office of Southern African Affairs. Any submission should contain detailed information as to the stock ownership and composition of the board of directors of the particular firm as well as the amount of preferential financial assistance received by such firm from the South African Government. The notice stipulated that the Department of State may invoke the authorities set forth in section 603(b) of the Act in conducting a review. Any person who willfully makes a false or misleading statement in a submission to the Department will be subject to the civil and criminal penalties set forth in section 603(b) and (c) of the Act and 18 U.S.C. 1001.

Requests have been submitted to the Department to review the classification of the following firms as South African parastatal organizations: Sasol Ltd.; Tecnetics (Pty) Ltd.; Putco Ltd.; Siemens Ltd.; Computer Technology (Pty) Ltd. (Comtec); and Mercedes Datakor (Pty) Ltd. Interested persons are invited to submit any written comments relevant to the Department's review of the status of these firms by January 5, 1987.

Dated: December 17, 1986.

Chas W. Freeman, Jr.,

Deputy Assistant Secretary for African Affairs.

## Urban Mass Transportation Administration

## UMTA Sections 3 and 9; Grant Obligations

AGENCY: Urban Mass Transportation Administration (UMTA), DOT.

ACTION: Notice.

**SUMMARY:** Pub. L. 99-500 signed into law by President Reagan on October 18, 1986, contained a provision requiring the Urban Mass Transportation Administration to publish an announcement in the *Federal Register* each time a grant is obligated pursuant to Sections 3 and 9 of the Urban Mass Transportation Act of 1964, as amended. The statute requires that the announcement include the grant number, the grant amount, and the transit property receiving each grant. This notice provides the information as required by statute.

**FOR FURTHER INFORMATION CONTACT:** Edward R. Fleischman, Chief, Resource Management Division, (202) 366-2053, 400 Seventh Street, SW., Washington, DC 20590.

**SUPPLEMENTARY INFORMATION:** The Section 3 program was established by the Urban Mass Transportation Act of 1964 to provide capital assistance to eligible recipients in urban areas. Funding for this program is distributed on a discretionary basis. The Section 9 formula program was established by the Surface Transportation Assistance Act of 1982. Funds appropriated to this program are allocated on a formula basis to provide capital and operating assistance in urbanized areas. Pursuant to Pub. L. 99-500, UMTA reports the following grant information:

Transit property	Grant No.	Grant amount	Date obligated
UMTA Section 3 Grants:			
Metropolitan Transportation Authority—New York City Transit Authority.	NY-03-0218 .....	\$60,000,000	12-01-86
Regional Transportation Authority—Chicago Transit Authority.	IL-03-0124-01 ...	\$6,678,522	12-04-86
Regional Transportation Authority—Commuter Rail Division.	IL-03-012 .....	\$6,000,000	12-04-86

Transit property	Grant No.	Grant amount	Date obligated
Regional Transportation Authority—Commuter Rail Division.	IL-03-0129 .....	\$3,570,000	12-04-86
Regional Transportation Authority—Commuter Rail Division.	IL-03-0127-01 .....	\$1,116,300	12-04-86
UMTA Section 9 Grants: Metropolitan Transportation Authority—New York City Transit Authority.	NY-90-X102 .....	\$73,269,600	12-04-86

Issued on December 16, 1986.

### Office of the Secretary

[Department Circular—Public Debt Series—No. 41-86]

**Treasury Notes of January 15, 1994, Series D-1994, Washington, December 17, 1986**

#### 1. Invitation of Tenders

1.1. The Secretary of the Treasury, under the authority of Chapter 31 of Title 31, United States Code, invites tenders for approximately \$7,250,000,000 of United States securities, designated Treasury Notes of January 15, 1994, Series D-1994 (CUSIP No. 912827 UL 4), hereafter referred to as Notes. The Notes will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

#### 2. Description of Securities

2.1. The Notes will be dated January 5, 1987, and will accrue interest from that date, payable on a semiannual basis on July 15, 1987, and each subsequent 6 months on January 15 and June 15 through the date that the principal becomes payable. They will mature January 15, 1994, and will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable

(without additional interest) on the next succeeding business day.

2.2. The Notes are subject to all taxes imposed under the Internal Revenue Code of 1954. The Notes are exempt from all taxation now or hereafter imposed on the obligation or interest thereof by any State, any possession of the United States, or any local taxing authority, except as provided in 31 U.S.C. 3124.

2.3. The Notes will be acceptable to secure deposits of Federal public monies. They will not be acceptable in payment of Federal taxes.

2.4. The Notes will be issued only in book-entry form in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000, and in multiples of those amounts. They will not be issued in registered definitive or in bearer form.

2.5. The Department of the Treasury's general regulations governing United States securities, i.e., Department of the Treasury Circular No. 300, current revision (31 CFR Part 306), as to the extent applicable to marketable securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the TREASURY DIRECT Book-Entry Securities System in 51 FR 18260, *et seq.* (May 16, 1986), apply to the Notes offered in this circular.

### 3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239, prior to 1:00 p.m., Eastern Standard Time, Tuesday, December 30, 1986. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, January 5, 1987, and received no later than Monday, January 5, 1987.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is \$1,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield.

3.3. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than \$1,000,000. A noncompetitive bidder may not have entered into an agreement, nor make an agreement to purchase or sell or otherwise dispose of any noncompetitive awards of this issue

prior to the deadline for receipt of tenders.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and are on the list of reporting dealers published by the Federal Reserve Bank of New York, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are permitted to submit tenders only for their own account.

3.5. Tenders for their own account will be received without deposit from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from all others must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.6. Immediately after the deadline for receipt of tenders, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established, at a  $\frac{1}{8}$  of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 98.250. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g.,

99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance of their bids. Those submitting noncompetitive tenders will be notified only if the tender is not accepted in full, or when the price at the average yield is over par.

### 4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of Notes specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

### 5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, whenever the tender was submitted. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in Section 3.5, must be made or completed on or before Monday, January 5, 1987. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Wednesday, December 31, 1986. In addition, Treasury Tax and Loan Note Option Depositories may make payment for the Notes allotted for their own accounts and for accounts of customers by credit to their Treasury Tax and Loan Note Accounts on or before Monday, January 5, 1987. When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has

been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in TREASURY DIRECT are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the note being purchased. In any such case, the tender form used to place the Notes allotted in TREASURY DIRECT must be completed to show all the information required thereon, or the TREASURY DIRECT account number previously obtained.

#### 6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain,

service, and make payment on the Notes.

6.2. The Secretary of the Treasury may at any time supplement or amend provisions of this circular if such supplements or amendment do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

**Gerald Murphy,**

*Fiscal Assistant Secretary.*

BILLING CODE 4810-40-M

### VETERANS ADMINISTRATION

#### Veterans' Advisory Committee on Rehabilitation; Meeting

The Veterans Administration gives notice that a meeting of the Veterans' Advisory Committee on Rehabilitation, authorized by 38 U.S.C. 1521, will be held in Room 1010 of the Veterans

Administration Central Office, . . 810 Vermont Avenue, NW., Washington, DC 20420, January 13 and 14, 1987. The sessions will begin at 8:30 a.m. The purpose of the meeting will be to review the administration of veterans' rehabilitation programs and provide recommendations to the Administrator.

The meeting will be open to the public up to the seating capacity of the conference room. Because of the limited seating capacity, it will be necessary for those wishing to attend to contact Dr. Carole J. Westerman, Executive Secretary, Veterans' Advisory Committee on Rehabilitation (phone 202-233-2886) prior to January 6, 1987.

Interested persons may attend, appear before, or file statements with the Committee. Statements, if in written form, may be filed before or within 10 days after meeting. Oral statements will be heard at 9:30 a.m. on January 14, 1987.

Dated: December 12, 1986.

By direction of the Administrator.

**Rosa Maria Fontanez,**

*Committee Management Officer.*

# Sunshine Act Meetings

Federal Register

Vol. 51, No. 246

Tuesday, December 23, 1986

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

## COUNCIL ON ENVIRONMENTAL QUALITY

**DATES, TIMES AND PLACE:** Thursday, January 8, 1987, 2:00 p.m., Monday, January 12, 1987, 10:00 a.m., Thursday, February 5, 1987, 10:00 a.m., Council on Environmental Quality Conference Room, First Floor, 722 Jackson Place, NW., Washington, DC.

**DATE:** December 18, 1986.

**STATUS:** Open.

**MATTERS TO BE CONSIDERED:** Under the Council's NEPA regulations, Federal agencies may refer to the Council federal interagency disagreements concerning proposed major federal actions that might cause unsatisfactory environmental effects. (40 CFR Part 1504 *et seq.*) In accordance with this provision the Environmental Protection Agency has referred the proposed amendments of the Corps of Engineers' regulations implementing the National Environmental Policy Act. The purpose of these meetings is to aid the council in seeking a resolution of the referral.

The first and second meetings will be limited to briefings and discussions among the Council and other Federal agencies. The third meeting is being called to provide the public with an opportunity to present their views.

For the first meeting, January 8, the General Counsel of CEQ will brief the Council on the issues raised in the referral.

For the second meeting, January 12, representatives of the Corps of

Engineers, the Environmental Protection Agency and any other interested Federal agencies, will present information and discussion regarding the referral.

For the third meeting, February 5, members of the public will have an opportunity to present views on the issues raised in the referral. Organizations and individuals wishing to make oral presentations at the public meeting on February 5, must request time in writing from CEQ by January 28, 1987. In addition interested parties may submit written comments for the record.

**FOR FURTHER INFORMATION CONTACT:** Dinah Bear, General Counsel, Council on Environmental Quality, 722 Jackson Place, NW., Washington, DC 20006 (202) 395-5754.

A Alan Hill,  
*Chairman.*

48 CFR Ch. 2

Department of Defense; Federal  
Acquisition Regulation Supplement; Final  
Rule

**DEPARTMENT OF DEFENSE****48 CFR Ch. 2****Department of Defense; Federal Acquisition Regulation Supplement****AGENCY:** Department of Defense.**ACTION:** Final rule.

**SUMMARY:** The Federal Acquisition Regulation (FAR) and the DoD FAR Supplement (DFARS) became effective for solicitations issued on or after April 1, 1984. The 1984 edition of the DFARS was issued at that time. This document contains the 1986 edition of the DFARS, which replaces the 1984 edition.

**EFFECTIVE DATE:** December 23, 1986.**FOR FURTHER INFORMATION CONTACT:**

Mr. Charles W. Lloyd, Executive Secretary, DAR Council, ODASD(P)/DARS, c/o OASD(A&L), Room 3C841, the Pentagon, Washington, DC 20301-3062, telephone (202) 697-7266.

**SUPPLEMENTARY INFORMATION:** This 1986 edition of the Department of Defense Supplement to the Federal Acquisition Regulation (FAR) is issued under the statutory authorities of the Secretary of Defense. The FAR and the DoD FAR Supplement (DFARS) became effective for solicitations issued on or after 1 April 1984.

The FAR and the DFARS contain direction to DoD contracting personnel as to (i) what provisions, clauses and cost principles are authorized for DoD contracts and (ii) what other procedures and actions must be followed in awarding and administering DoD contracts. The DFARS contains material that implements the FAR, as well as supplementary material that is unique to the Department of Defense. This Supplement is not a stand-alone document and must be read in conjunction with FAR.

The new edition incorporates Defense Acquisition Circulars (DACs) 84-1 through 84-14 and reflects coverage that is now in the field and being utilized. The last DAC issued in the former edition, 1984, is 84-14. No further DACs will be issued to that edition. The first change to this edition will be Number 86-1 and later DACs will be numbered in sequence (e.g., 86-2, 86-3, etc.) (Note: The changes made by DAC 86-1 have been incorporated into this Federal Register publication).

Appendices which are currently in effect are included in this edition and are listed in the Table of Contents. (Note: DFARS (former DAR) manuals and supplements referenced in the Table of Contents are not included in the subscription to the DFARS and must be

purchased separately from the Government Printing Office.)

Interested parties may submit proposed revisions to this Supplement directly to the DAR Council.

**Note.**—Copies of the DoD FAR Supplement in the Federal Register, looseleaf, and CFR form may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

The DoD FAR Supplement is codified in Chapter 2, Title 48 of the Code of Federal Regulations.

**List of Subjects in 48 CFR Ch. 2**

Government procurement.

Charles W. Lloyd,

Executive Secretary, Defense Acquisition Regulatory Council.

Title 48 of the Code of Federal Regulations is amended by revising Chapter 2 to read as follows:

**CHAPTER 2—DEPARTMENT OF DEFENSE****SUBCHAPTER A—GENERAL**

- 204.8 Contract Files
- 204.70 Uniform Procurement Instruction Identification Numbers
- 204.71 Uniform Contract Line Item Numbering System

#### SUBCHAPTER B—COMPETITION AND ACQUISITION PLANNING

##### Part 205—Publicizing Contract Actions

- 205.1 Dissemination of Information
- 205.2 Synopses of Proposed Contract Actions
- 205.3 Synopses of Contract Awards
- 205.4 Release of Information
- 205.5 Paid Advertisements

##### Part 206—Competition Requirements

- 206.1 No DoD FAR Supplement
- 206.2 Full and Open Competition After Exclusion of Sources
- 206.3 Other Than Full and Open Competition
- 206.4 No DoD FAR Supplement
- 206.5 No DoD FAR Supplement

##### Part 207—Acquisition Planning

- 207.1 Acquisition Plans
- 207.2 Reserved in FAR
- 207.3 Contractor Versus Government Performance
- 207.4 Equipment Lease or Purchase

##### Part 208—Required Sources of Supplies and Services

- 208.1 No DoD FAR Supplement
- 208.2 No DoD FAR Supplement
- 208.3 Acquisition of Utility Services
- 208.4 Ordering from Federal Supply Schedules
- 208.5 Reserved in FAR
- 208.6 No DoD FAR Supplement
- 208.7 No DoD FAR Supplement
- 208.8 No DoD FAR Supplement
- 208.9 Reserved in FAR
- 208.10 Reserved in FAR
- 208.11 No DoD FAR Supplement
- 208.70 Coordinated Procurement
- 208.71 Commodity Assignments
- 208.72 Procurement for NASA
- 208.73 Miniature and Instrument Ball Bearings
- 208.74 Precision Components for Mechanical Time Devices
- 208.75 High-Purity Silicon
- 208.76 High Carbon Ferrochrome (HCF)
- 208.77 Utilization of Government-Owned Precious Metals
- 208.78 Forging Items Used for Military Application for Combat and Direct Combat Support Items

##### Part 209—Contractor Qualifications

- 209.1 Responsible Prospective Contractors

- 209.2 Qualified Products
- 209.3 First Article Testing and Approval
- 209.4 Debarment, Suspension, and Ineligibility
- 209.5 No DoD FAR Supplement
- 209.6 No DoD FAR Supplement
- 209.7 No DoD FAR Supplement

#### Part 210—Specifications, Standards, and Other Purchase Descriptions

##### Part 211—Acquisition and Distribution of Commercial Products

- 211.000 No DoD FAR Supplement
- 211.001 No DoD FAR Supplement
- 211.002 Policy
- 211.003 No DoD FAR Supplement
- 211.004 No DoD FAR Supplement
- 211.005 Acceptability
- 211.006 No DoD FAR Supplement
- 211.007 No DoD FAR Supplement

##### Part 212—Contract Delivery or Performance

- 212.1 Delivery or Performance Schedules
- 212.2 Liquidated Damages
- 212.3 Priorities, Allocations, and Allotments
- 212.4 Variation in Quantity
- 212.5 No DoD FAR Supplement

#### SUBCHAPTER C—CONTRACTING METHODS AND CONTRACT TYPES

##### Part 213—Small Purchase and Other Simplified Purchase Procedures

- 213.1 General
- 213.2 Blanket Purchase Agreements
- 213.3 Fast Payment Procedure
- 213.4 Imprest Fund
- 213.5 Purchase Orders

##### Part 214—Sealed Bidding

- 214.1 No DoD FAR Supplement
- 214.2 Solicitation of Bids
- 214.3 No DoD FAR Supplement
- 214.4 Opening of Bids and Award of Contract
- 214.5 Two-Step Sealed Bidding

##### Part 215—Contracting by Negotiation

- 215.1 General Requirements for Negotiation
- 215.2 Reserved in FAR
- 215.3 Reserved in FAR
- 215.4 Solicitation and Receipt of Proposals and Quotations
- 215.5 Unsolicited Proposals
- 215.6 Source Selection
- 215.7 Make-or-Buy Programs
- 215.8 Price Negotiation
- 215.9 Profit
- 215.10 Preaward, Award and Postaward Notifications, Protests and Mistakes

##### Part 216—Types of Contracts

- 216.1 Selecting Contract Types
- 216.2 Fixed-Price Contracts
- 216.3 Cost-Reimbursement Contracts
- 216.4 Incentive Contracts
- 216.5 Indefinite-Delivery Contracts
- 216.6 Time-and-Materials, Labor-Hour, and Letter Contracts
- 216.7 Agreements

##### Part 217—Special Contracting Methods

- 217.1 Multi-Year Contracting
- 217.2 Options
- 217.3 Reserved in FAR
- 217.4 No DoD FAR Supplement

- 217.5 Interagency Acquisitions Under the Economy Act
- 217.6 Management and Operating Contracts
- 217.70 Exchange of Non-Excess Personal Property in DoD
- 217.71 Master Agreement for Repair and Alteration of Vessels
- 217.72 Acquisition of Component Parts
- 217.73 Special Commodities
- 217.74 Contracts With Requirements for Provisioned Items

##### Part 218—Reserved in FAR

#### SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

##### Part 219—Small Business and Small Disadvantaged Business Concerns

- 219.1 Terms and Size Standards
- 219.2 Policies
- 219.3 No DoD FAR Supplement
- 219.4 Cooperation with the Small Business Administration
- 219.5 Set-Asides for Small Business
- 219.6 Certificates of Competency and Determinations of Eligibility
- 219.7 Subcontracting With Small Business and Small Disadvantaged Business Concerns
- 219.8 No DoD FAR Supplement
- 219.9 No DoD FAR Supplement

- 203.502 Subcontractor kickbacks.
- 203.570 Implied endorsement by military resale activities.

## PART 204-ADMINISTRATIVE MATTERS

### Subpart 204.1-Contract Execution

- 204.170 Contracting Officer or Point of Contact Telephone Number.

### Subpart 204.2-Contract Distribution

- 204.201 Procedures.
- 204.202 DoD distribution requirements.

### Subpart 204.6-Contract Reporting

- 204.670-1 Scope.
- 204.670-2 Definitions.
- 204.670-3 DUNS number.
- 204.670-4 Distribution of defense subcontracts placed overseas.
- 204.671 Individual Contracting Action Report (DD Form 350).
- 204.671-1 Scope.
- 204.671-2 Purpose.
- 204.671-3 Applicability and coverage.
- 204.671-4 Due date and distribution.
- 204.671-5 Instructions for completion of DD Form 350.
- 204.671-6 Instructions for preparing magnetic tape of DD Form 350 actions, DD-DR&E(M)1014.
- 204.672 Monthly contracting summary of actions \$25,000 or less (DD Form 1057).
- 204.672-1 Scope.
- 204.672-2 Applicability and coverage.
- 204.672-3 Due date and distribution.
- 204.672-4 Terms used.
- 204.672-5 Instructions for completion of the DD Form 1057.
- 204.672-6 Instructions for preparing summary punched cards or tape of DD Form 1057 actions, DD-DR&E(M)1015.
- 204.673 Report of individual contract profit plan (DD Form 1499).
- 204.673-1 Scope.
- 204.673-2 Applicability.
- 204.673-3 Coverage.
- 204.673-4 Due date and distribution.
- 204.673-5 Specific entries on DD Form 1499.

### Subpart 204.7-Contractor Records Retention

- 204.706 Microfilming records.
- 204.706-1 General.

### Subpart 204.8-Contract Files

- 204.801 General.
- 204.802 Contract files.
- 204.802-70 Use of standard file folders for drawer and shelf filing.
- 204.802-71 Filing of documents.
- 204.802-72 Arrangement of files.
- 204.802-73 Contract cross reference/locator system.
- 204.803 Contents of contract files.
- 204.804-1 Closeout by the office administering the contract.
- 204.804-4 Physically completed contracts.
- 204.804-5 Detailed procedures for closing out contract files.
- 204.804-70 Review, separation, and retirement of completed contract files.
- 204.805-70 Disposal of duplicate or working contract or contractor files.
- 204.805-71 Disposal of contract cross reference/locator files.

### Subpart 204.70-Uniform Procurement Instrument Identification Numbers

- 204.7001 Scope.

- 204.7002 Policy.
- 204.7003 Basic procurement instrument identification number.
- 204.7003-1 Elements of number.
- 204.7003-2 Illustration of number.
- 204.7004 Supplementary procurement instrument identification numbers.
- 204.7004-1 Uses of the number.
- 204.7004-2 Amendments to solicitation documents.
- 204.7004-3 Modifications of contracts and agreements.
- 204.7004-4 Delivery orders under indefinite delivery type contracts, orders under basic ordering agreements, and calls under blanket purchase agreements.

### Subpart 204.71-Uniform Contract Line Item Numbering System

- 204.7101 Scope of subpart.
- 204.7102 Policy.
- 204.7103 Contract line items.
- 204.7103-1 Criteria for establishing.
- 204.7103-2 Procedures for numbering.
- 204.7104 Contract subline items.
- 204.7104-1 General.
- 204.7104-2 Criteria for establishing.
- 204.7104-3 Procedures for numbering.
- 204.7105 Contract exhibits.
- 204.7105-1 Definition.
- 204.7105-2 Criteria for establishing.
- 204.7105-3 Procedures for identifying.
- 204.7106 Exhibit line and subline items.
- 204.7106-1 Criteria for establishing.
- 204.7106-2 Procedures for numbering.
- 204.7106-3 Sequence of exhibit line item numbers.
- 204.7107 Contract modifications.
- 204.7108 Contract Accounting Classification Reference Number (ACRN).
- 204.7108-1 General.
- 204.7108-2 Criteria for establishing.
- 204.7108-3 Procedures for using the Accounting Classification Reference Number (ACRN).
- 204.7109 Indefinite delivery type contracts.

## PART 205-PUBLICIZING CONTRACT ACTIONS

- 205.002 Policy.

### Subpart 205.1-Dissemination of Information

- 205.101 Methods of disseminating information.
- 205.102 Availability of solicitations.

### Subpart 205.2-Synopses of Proposed Contract Actions

- 205.201 General.
- 205.202 Exceptions.
- 205.204 Presolicitation notices.
- 205.205 Special situations.
- 205.207 Preparation and transmittal of synopses.

### Subpart 205.3-Synopses of Contract Awards

- 205.302 Preparation and transmittal of synopses of awards.
- 205.303 Announcement of contract awards.

### Subpart 205.4-Release of Information

- 205.404-1 Release procedures.
- 205.404-2 Announcements of long-range acquisition estimates.

### Subpart 205.5-Paid Advertisements

- 205.501 Definitions.
- 205.502 Authority.
- 205.504 Use of advertising agencies.

## PART 206-COMPETITION REQUIREMENTS

### Subpart 206.2-Full and Open Competition After Exclusion of Sources

- 206.202 Establishing or maintaining alternative sources.

### Subpart 206.3-Other Than Full and Open Competition

- 206.302 Circumstances permitting other than full and open competition.
- 206.302-1 Only one responsible source.
- 206.302-2 Unusual and compelling urgency.
- 206.303 Justifications.
- 206.303-1 Requirements.

## PART 207-ACQUISITION PLANNING

### Subpart 207.1-Acquisition Plans

- 207.103 Agency-head responsibilities.
- 207.105 Contents of written acquisition plans.

### Subpart 207.3-Contractor Versus Government Performance

- 207.302 General.
- 207.304 Procedures.
- 207.307 Appeals.

### Subpart 207.4-Equipment Lease or Purchase

- 207.401 Acquisition considerations.

## PART 208-REQUIRED SOURCES OF SUPPLIES AND SERVICES

- 208.002 Use of other government supply sources.
- 208.002-70 Acquisition from the Department of Energy (DOE).
- 208.070 Industrial preparedness production planning.

### Subpart 208.3-Acquisition of Utility Services

### Subpart 208.4-Ordering From Federal Supply Schedules

- 208.404-1 Mandatory use.
- 208.404-2 Optional use.
- 208.404-3 Requests for waivers.
- 208.404-70 Applicability of listed Federal Supply Schedules.
- 208.404-71 Establishment or revision of Federal Supply Schedules mandatory upon DoD.
- 208.405 Ordering office responsibilities.
- 208.405-1 Ordering from Multiple-Award Schedules.
- 208.405-2 Order placement.
- 208.470 Acquisition from GSA Sources.
- 208.470-1 Applicability.
- 208.470-2 Acquisition from General Services Administration stock.
- 208.470-3 GSA Supply Catalog.
- 208.470-4 General Services Administration regional offices.
- 208.470-5 Order for supplies.
- 208.470-6 Mandatory Sources for Maintenance, Repair, Rehabilitation and Reclamation of Personal Property.

- 208.470-7 Personal property covered under mandatory GSA term contracts.  
208.470-8 Order for services.

#### **Subpart 208.70-Coordinated Acquisition**

- 208.7000 Applicability.  
208.7001 Definitions.  
208.7002 Responsibilities under coordinated acquisition.  
208.7003 General principles governing implementation of acquisition assignments.  
208.7003-1 Standard format-development and promulgation of implementing procedures.  
208.7003-2 Relationship between research and development and coordinated acquisition.  
208.7003-3 Small dollar value purchases.  
208.7003-4 Emergency.  
208.7003-5 Department of Defense manufacturing establishment.  
208.7003-6 Consolidation of requirements.  
208.7004 Items in short supply.  
208.7005 Transfer of uncompleted Contracts.  
208.7005-1 Effect of assignment of acquisition responsibility.  
208.7005-2 Contracting officers under transferred contracts.  
208.7006 Purchase authorization.  
208.7006-1 MIPRs or other authorized purchase requests.  
208.7006-2 Use of advance MIPRs.  
208.7006-3 Justifications and approvals and determinations and findings.  
208.7006-4 Delivery schedules.  
208.7006-5 Specifications, drawings, and other purchase data.  
208.7006-6 Utilization of existing Department of Defense assets.  
208.7006-7 Options for increased quantities.  
208.7007 Funds and payments.  
208.7007-1 Citation of appropriation and funds of requiring Department-Category II method of funding.  
208.7007-2 Citation of funds of Contracting Department-Category I method of funding.  
208.7007-3 Disbursement.  
208.7007-4 Authorization for exceeding MIPR estimates.  
208.7008 Preparation and use of DD Form 448 (MIPR).  
208.7008-1 Special instructions.  
208.7008-2 Cutoff dates for submission of Category II (direct citation) MIPRs.  
208.7008-3 Notification of inability to obligate.  
208.7008-4 Number of copies of MIPRs with attachments to be submitted.  
208.7008-5 Changes to MIPRs.  
208.7008-6 Requests for additional funds.  
208.7009 Acceptance of MIPR.  
208.7009-1 Qualified acceptance.  
208.7009-2 Non-qualified acceptance.  
208.7009-3 Preparation and use of DD Form 448-2 (acceptance of MIPR).  
208.7009-4 Withdrawal of funds.  
208.7010 Components of end items.  
208.7010-1 Contractor-furnished components.  
208.7010-2 Government-furnished components.  
208.7010-3 Purchase of components over and above those initially purchased with the end item.  
208.7011 Distribution of contracts and orders.  
208.7012 Cancellation of requirements.

- 208.7013 Administrative costs.  
208.7014 Inspection.  
208.7015 Execution of contracts.  
208.7016 Status reporting.  
208.7017 Transportation of supplies.  
208.7018 Acquisition agreements.

#### **Subpart 208.71-Commodity Assignments**

- 208.7100 Assignment authority.  
208.7100-1 Exclusions-Military Department assignments (Except DLA).  
208.7100-2 Exclusions-DLA and GSA assignments.  
208.7101 Department of the Army.  
208.7102 Department of the Navy.  
208.7103 Department of the Air Force.  
208.7104 Defense Logistics Agency.  
208.7105 Defense Nuclear Agency.  
208.7106 General Services Administration.

#### **Subpart 208.72-Acquisition for NASA**

- 208.7200 Authorization and policy.  
208.7201 NASA purchase request and acceptance.  
208.7202 Changes in estimated total prices.  
208.7203 Inquiries.  
208.7204 Payments.

#### **Subpart 208.73-Miniature and Instrument Ball Bearings**

- 208.7301 Definitions.  
208.7302 Policy.  
208.7303 Procedures.

#### **Subpart 208.74-Precision Components for Mechanical Time Devices**

- 208.7401 Definitions.  
208.7402 Policy.  
208.7403 Procedures.

#### **Subpart 208.75-High-Purity Silicon**

- 208.7501 Definitions.  
208.7502 Policy.  
208.7503 Procedures.

#### **Subpart 208.76-High Carbon Ferrochrome (HCF)**

- 208.7601 Definitions.  
208.7602 Policy.  
208.7603 Procedures.

#### **Subpart 208.77-Utilization of Government-Owned Precious Metals**

- 208.7701 Definitions.  
208.7702 Policy.  
208.7703 Applicable procedures.

#### **Subpart 208.78-Forging and Welded Shipboard Anchor Chain Items Used for Military Application for Combat and Direct Combat Support Items**

- 208.7801 Definitions.  
208.7802 Policy.  
208.7802-1 List of DoD forging and welded shipboard anchor chain items that must be acquired from domestic sources (United States and Canada).  
208.7803 Procedures.

### **PART 209-CONTRACTOR QUALIFICATIONS**

#### **Subpart 209.1-Responsible Prospective Contractors**

- 209.103 Policy.  
209.104 Standards.  
209.104-3 Application of standards.

- 209.105 Procedures.  
209.105-70 Current information.  
209.106 Preaward surveys.  
209.106-2 Requests for preaward surveys.  
209.106-70 Steps for survey performance.  
209.106-71 Audit responsibilities for preaward surveys and reviews.

#### **Subpart 209.2-Qualifications Requirements**

- 209.202 Policy.

#### **Subpart 209.3-First Article Testing and Approval**

- 209.302 General.  
209.303 Use.  
209.305 Risk.  
209.306 Solicitation requirements.  
209.308 Contract clauses.

#### **Subpart 209.4-Debarment, Suspension, and Ineligibility**

- 209.403 Definitions.  
209.404 Consolidated list of debarred, suspended, and ineligible contractors.  
209.405 Effect of listing.  
209.405-2 Restrictions on subcontracting.  
209.406 Debarment.  
209.406-1 General.  
209.406-3 Procedures.  
209.406-4 Period of debarment.  
209.470 Authorized representatives.  
209.471 Interchange of information.  
209.472 Reporting.  
209.472-1 Situations where reports are required.  
209.472-2 Contents of reports.  
209.472-3 Addresses and copies of reports.  
209.473 Acquisition outside United States.  
209.473-1 General.  
209.473-2 Responsibilities and area coverage.  
209.473-3 Information contained on overseas lists.  
209.473-4 Maintenance and distribution of lists.  
209.473-5 Basis of addition of contractors to lists.  
209.473-6 Treatment to be accorded contractors in debarred or ineligible status.  
209.473-7 Causes and conditions for which unified commanders may place names on the consolidated list.  
209.473-8 Liaison with United States diplomatic missions.  
209.474 Use of lists.

### **PART 210-SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS**

- 210.001 Definitions.  
210.004 Selecting specifications or descriptions for use.  
210.004-70 Requiring bills of materials.  
210.008 Identification and availability of specifications.  
210.011 Solicitation provisions and contract clauses.

### **PART 211-ACQUISITION AND DISTRIBUTION OF COMMERCIAL PRODUCTS**

- 211.002 Policy.  
211.005 Acceptability.

**PART 212-CONTRACT DELIVERY OR PERFORMANCE****Subpart 212.1-Delivery or Performance Schedules**

- 212.102 Factors to consider in establishing schedules.
- 212.103 Supplies or services.
- 212.104 Contract clauses.

**Subpart 212.2-Liquidated Damages**

- 212.204 Contract clauses.

**Subpart 212.3-Priorities and Allocations**

- 212.302 General.

**Subpart 212.4-Variation in Quantity**

- 212.401 Supply contracts.

**PART 213-SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES****Subpart 213.1-General**

- 213.104 Procedures.
- 213.106 Competition and price reasonableness.

**Subpart 213.2-Blanket Purchase Agreements**

- 213.203 Establishment of blanket purchase agreements.
- 213.203-2 Clauses.
- 213.204 Purchase under blanket purchase agreements.

**Subpart 213.3-Fast Payment Procedure**

- 213.302 Conditions for use.

**Subpart 213.4-Imprest Fund**

- 213.402 General.
- 213.404 Conditions for use.
- 213.405 Procedures.

**Subpart 213.5-Purchase Orders**

- 213.502 Unpriced purchase orders.
- 213.503 Obtaining contractor acceptance and modifying purchase orders.
- 213.505 Purchase order and related forms.
- 213.505-2 Agency order forms in lieu of optional Forms 347 and 348.
- 213.505-3 Standard Form 44, Purchase Order-Invoice-Voucher.
- 213.505-70 Instructions for entries on DD Form 1155 and Standard Form 36.
- 213.505-71 Use of DD Form 1155 as a public voucher.

**PART 214-SEALED BIDDING****Subpart 214.2-Solicitation of Bids**

- 214.201 Preparation of invitation for bids.
- 214.202 General rules for solicitation of bids.
- 214.202-1 Bidding time.
- 214.202-5 Descriptive literature.
- 214.205 Solicitation mailing lists.
- 214.205-1 Establishment of lists.
- 214.207 Pre-bid conference.
- 214.208 Amendment of invitation for bids.
- 214.270 Master solicitation.

**Subpart 214.4-Opening of Bids and Award of Contract**

- 214.404 Rejection of bids.
- 214.404-1 Cancellation of invitations after opening.

- 214.406 Mistakes in bids.
- 214.406-3 Other mistakes disclosed before award
- 214.407 Award
- 214.407-1 General
- 214.407-3 Prompt payment discounts.
- 214.407-6 Equal low bids.
- 214.408 Information to bidders.
- 214.408-2 Award of classified contracts.

**Subpart 214.5-Two-Step Sealed Bidding**

- 214.503 Procedures.
- 214.503-1 Step one.
- 214.503-2 Step two.

**PART 215-CONTRACTING BY NEGOTIATION****Subpart 215.1-General Requirements for Negotiation**

- 215.103 Converting from sealed bidding to negotiation procedures.
- 215.170 Negotiation of initial production contracts for technical or specialized military supplies.
- 215.171 Abstract of offers.

**Subpart 215.4-Solicitation and Receipt of Proposals and Quotations**

- 215.402 General.
- 215.406 [Reserved]
- 215.407 Solicitation provisions.
- 215.410 Amendment of solicitations before closing date.
- 215.411 Receipt of proposals and quotations.
- 215.411-70 Maintenance and disposition of proposals and quotations.
- 215.414 Forms.
- 215.470 Master solicitation.

**Subpart 215.5-Unsolicited Proposals**

- 215.504 Advance guidance.
- 215.506 Agency procedures.
- 215.506-1 Receipt and initial review.
- 215.507 Contracting methods.

**Subpart 215.6-Source Selection**

- 215.603 Purpose.
- 215.607 Disclosure of mistakes before award.
- 215.608 Proposed evaluation.
- 215.613 Alternative source selection procedures.

**Subpart 215.7-Make-or-Buy Programs**

- 215.704 Items and work included.
- 215.706 Evaluation, negotiation, and agreement.
- 215.707 Incorporating make-or-buy programs in contracts.

**Subpart 215.8-Price Negotiation**

- 215.802 Policy.
- 215.803 General.
- 215.804 Cost or pricing data.
- 215.804-2 Requiring certified cost or pricing data.
- 215.804-3 Exemption from or waiver of submission of certified cost or pricing data.
- 215.804-4 Certificate of current cost or pricing data.
- 215.804-6 Procedural requirements.
- 215.804-7 Defective cost or pricing data.
- 215.804-8 Contract clauses.
- 215.805 Proposal analysis.
- 215.805-1 General.
- 215.805-2 Price analysis.

- 215.805-4 Technical analysis.
- 215.805-5 Field pricing support
- 215.806 Subcontract pricing considerations.
- 215.807 Prenegotiation objectives.
- 215.808 Price negotiation memorandum.
- 215.809 Forward pricing rate agreements.
- 215.810 Should-cost analysis.
- 215.811 Estimating systems.
- 215.870 Procedures for identifying contractors' unallowable costs.
- 215.871 Estimated data prices (DD Form 1423).
- 215.872 Capital investment incentives.

**Subpart 215.9-Profit**

- 215.901 General.
- 215.902 Policy.
- 215.903 Contracting officer responsibilities.
- 215.905 Profit-analysis factors.
- 215.905-1 Common factors.
- 215.905-2 Additional factors.

**Subpart 215.10-Preaward, Award, and Postaward Notifications, Protests and Mistakes**

- 215.1001 Notifications to unsuccessful offerors.
- 215.1003 Debriefing of unsuccessful offerors.
- 215.1070 Classified information.

**PART 216-TYPES OF CONTRACTS****Subpart 216.1-Selecting Contract Types**

- 216.101 General.
- 216.102 Policies.
- 216.104 Factors in selecting contract types.

**Subpart 216.2-Fixed-Price Contracts**

- 216.203-4 Contract clauses.
- 216.203-70 Fixed-price contracts with economic price adjustment.
- 216.206 Fixed-ceiling price contracts with retroactive price redetermination.
- 216.206-1 Description.
- 216.207 Firm-fixed-price, level-of-effort term contracts.
- 216.207-1 Description.

**Subpart 216.3-Cost-Reimbursement Contracts**

- 216.301 General.
- 216.301-2 Application.
- 216.303 Cost-sharing contracts.
- 216.306 Cost-plus-fixed-fee contracts.

**Subpart 216.4-Incentive Contracts**

- 216.402 Application of predetermined, formula-type incentives.
- 216.402-2 Technical performance incentives.
- 216.403 Fixed-price incentive contracts.
- 216.403-2 Fixed price incentive (successive targets).
- 216.404 Cost-reimbursement incentive contracts.
- 216.404-1 Cost-plus incentive fee contracts.
- 216.404-2 Cost-plus-award-fee contracts.

**Subpart 216.5-Indefinite-Delivery Contracts**

- 216.501 General.
- 216.502 Definite quantity contracts.
- 216.503 Requirement contracts.

**Subpart 216.6-Time-and-Materials, Labor-Hour, and Letter Contracts**

- 216.601 Time-and-materials contracts.
- 216.603 Letter contracts.

216.603-2 Application.

#### Subpart 216.7-Agreements

216.702 Basic agreements.

216.703 Basic ordering agreements.

### PART 217-SPECIAL CONTRACTING METHODS

#### Subpart 217.1-Multiyear Contracting

217.101 Definitions.

217.102 Policy.

217.102-2 General.

217.102-3 Objectives.

217.103 Procedures.

217.103-1 General.

217.103-2 Solicitations.

217.103-4 Awards.

217.103-70 Funding of multiyear contracts.

217.104 Related areas.

217.104-70 Multiyear contracting of services under Pub. L. 90-378.

217.104-71 Multiyear acquisition of supplies and services under Pub. L. 91-142.

#### Subpart 217.2-Options

217.203 Solicitations.

217.207 Exercise of options.

217.208 Solicitation provisions and contract clauses.

#### Subpart 217.5-Interagency Acquisitions Under the Economy Act

217.502 General.

217.503 Determination requirements.

217.504 Ordering procedures.

#### Subpart 217.6-Management and Operating Contracts

#### Subpart 217.70-Exchange of Personal Property

217.7000 Scope of Subpart.

217.7001 Definitions.

217.7002 Policy.

217.7003 Categories of property eligible for exchange and categories of property ineligible for exchange.

217.7003-1 Property eligible for exchange.

217.7003-2 Property ineligible for exchange.

217.7004 Procedures.

217.7004-1 Offering property for exchange.

217.7004-2 Purchase request and certification.

217.7005 Exchange of exchange property.

#### Subpart 217.71-Master Agreement for Repair and Alteration of Vessels

217.7100 Scope of subpart.

217.7101 Definitions.

217.7102 Policy.

217.7103 Procedures.

217.7103-1 Content and format.

217.7103-2 Period of agreement.

217.7103-3 Inviting bids, proposals, or quotations for job orders.

217.7103-4 Pre-Award survey.

217.7103-5 Award of a job order.

217.7103-6 Emergency work.

217.7103-7 Repair costs not readily ascertainable.

217.7103-8 Modification of master agreements for repair and alteration of vessels.

217.7104 Contract clauses.

#### Subpart 217.72-Acquisition of Component Parts

217.7201 Privately developed items.

217.7201-1 General.

217.7201-2 Specific acquisition methods.

217.7202 Component breakout.

217.7202-1 Scope of paragraph.

217.7202-2 Policy.

217.7202-3 Responsibility for component breakout selection, review and decision.

217.7202-4 Breakout guidelines.

217.7202-5 Records and review procedure.

217.7203 Acquisition of parts.

217.7204 Identification of sources of supply.

#### Subpart 217.73-Special Commodities

217.7301 Bakery and dairy products contracts.

217.7301-1 Scope.

217.7301-2 Plant locations.

217.7301-3 Chemical and microbiological requirements (fresh dairy foods).

217.7301-4 Containers and equipment (milk dispensing).

217.7301-5 Contract clauses.

#### Subpart 217.74-Contracts With Requirements For Provisioned Items

217.7400 Scope of subpart.

217.7401 Definitions.

217.7402 Acquisition requirements.

217.7403 Contract administration requirements.

### PART 219-SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

#### Subpart 219.1-Size Standards

219.102-70 Size standards for transportation industries.

#### Subpart 219.2-Policies

219.201 General policy.

219.202-1 Encouraging small business participation in acquisitions.

219.202-5 Data collection and reporting requirements.

#### Subpart 219.4-Cooperation With the Small Business Administration

219.401 General.

219.402 Small Business Administration procurement center representatives.

#### Subpart 219.5-Set-Asides for Small Business

219.501 General.

219.502 Setting aside acquisitions.

219.502-1 Requirements for setting aside acquisitions.

219.502-2 Total set-asides.

219.502-70 Combined small business-labor surplus area set-asides.

219.502-71 Small business set-asides under foreign military sales.

219.503 Setting aside a class of acquisitions.

219.504 Set-aside program order of precedence.

219.505 Rejecting set-aside recommendations.

219.506 Withdrawing or modifying set-asides.

219.508 Solicitation provisions and contract clauses.

#### Subpart 219.6-Certificates of Competency and Determinations of Eligibility

219.602 Procedures.

219.602-1 Referral.

219.602-3 Resolving differences between the agency and the Small Business Administration.

219.670 Quarterly reporting.

#### Subpart 219.7-Subcontracting With Small Business and Small Disadvantaged Business Concerns

219.703 Eligibility requirements for participating in the program.

219.706 Responsibilities of the cognizant administrative contracting officer.

219.708 Solicitation provisions and contract clauses.

### PART 220-LABOR SURPLUS AREA CONCERNS

#### Subpart 220.70-Labor Surplus Area Policy and Procedures

220.7000 Scope.

220.7001 General policy.

220.7002 Application of policy.

220.7003 Partial set-asides for labor surplus area concerns.

220.7004 Subcontracting with labor surplus area concerns.

220.7005 Depressed industries.

### PART 222-APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

#### Subpart 222.1-Basic Labor Policies

222.101 Labor relations.

222.101-1 General.

222.101-2 Contract pricing and administration.

222.101-3 Reporting Labor Disputes.

222.101-4 Removal of items from contractors' facilities affected by work stoppages.

222.101-70 Impact of labor disputes on defense programs.

222.101-71 Acquisition of stevedoring services during labor disputes.

222.102 Federal and State labor requirements.

222.102-70 Applications by contractors for relaxation of requirements.

222.103 Overtime.

222.103-4 Approvals.

#### Subpart 222.4-Labor Standards for Contracts Involving Construction

#### Subpart 222.6-Walsh-Healey Public Contracts Act

222.604 Exemptions.

222.604-2 Regulatory exemptions.

222.609 Regional jurisdictions of the Department of Labor, Wage and Hour Division.

#### Subpart 222.8-Equal Employment Opportunity

222.804 Affirmative action programs.

222.804-2 Construction.

222.805 Procedures.

222.806 Inquiries.

222.807 Exemptions.

#### Subpart 222.10-Service Contract Act of 1965

222.1003 Applicability.

222.1006 Clauses for contracts over \$2,500.

222.1007 Notice of intent to make a service contract.

222.1008 Wage determinations and collective bargaining agreements.

222.1008-1 Before award.

222.1009 Notice of award.

222.1011 Hearings.  
222.1012 Withholding of contract payments.

#### **Subpart 222.13-Special Disabled and Vietnam Era Veterans**

222.1303 Waivers.  
222.1306 Complaint procedures.

#### **Subpart 222.14-Employment of the Handicapped**

222.1403 Waivers.  
222.1404 Department of Labor notices.  
222.1406 Complaint procedures.

#### **Subpart 222.70-Safety and Health Regulations for Shipyard and Related Employment**

222.7001 Safety and health regulations.  
222.7002 Applicability.  
222.7003 Contract clause.  
222.7004 Administration and enforcement.

#### **Subpart 222.71-Fair Labor Standards Act of 1938**

222.7101 Basic statute.  
222.7102 Suits against government contractors.  
222.7103 Rulings on applicability or interpretation.

#### **Subpart 222.72-Section 8078, 1986 Defense Appropriations Act-Restrictions on the Employment of Personnel for Work on Construction/Service Contracts in Alaska and Hawaii**

222.7200 Policy.  
222.7201 Waivers.  
222.7202 Contract Clause.

### **PART 223-ENVIRONMENT, CONSERVATION, AND OCCUPATIONAL SAFETY**

#### **Subpart 223.3-Hazardous Material Identification and Material Safety Data**

223.303 Contract clause.

#### **Subpart 223.70-Safety Precautions for Ammunition and Explosives**

223.7001 Definition.  
223.7002 Policy and contract clauses.  
223.7003 Preaward considerations.  
223.7004 Postaward considerations.

### **PART 224-PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION**

#### **Subpart 224.1-Protection of Individual Privacy**

224.102 General.  
224.103 Procedures.

#### **Subpart 224.2-Freedom of Information Act**

224.202 Policy.

### **PART 225-FOREIGN ACQUISITION**

225.000 Scope of Part.  
225.001 Definitions.

#### **Subpart 225.1-Buy American Act-Supplies**

225.102 Policy.  
225.103 Agreements with certain foreign governments.  
225.105 Evaluating offers.  
225.107 Acquisition from or through other government agencies.

225.108 Excepted articles, materials, and supplies.  
225.109 Solicitation provisions and contract clauses.

#### **Subpart 225.2-Buy American Act-Construction Materials**

225.202 Policy.  
225.205 Solicitation provision and contract clause.

#### **Subpart 225.3-Balance of Payments Program**

225.300 Scope of subpart.  
225.302 Policy.  
225.303 Procedures.  
225.304 Excess and near-excess foreign currencies.  
225.305 Solicitation provision and contract clauses.  
225.370 Identification of expenditures in the United States.

#### **Subpart 225.4-Purchases Under the Trade Agreements Act of 1979**

225.401 Definitions.  
225.402 Policy.  
225.403 Exceptions.  
225.404 Labor surplus area set-asides.  
225.405 Procedures.  
225.407 Solicitation provision and contract clause.

#### **Subpart 225.5-Payment in Local Foreign Currency**

225.501 Policy.

#### **Subpart 225.6-Customs and Duties**

225.600 Scope of subpart.  
225.601 Definitions.  
225.602 Policy.  
225.603 Procedures.  
225.604 Exempted supplies.  
225.605 Contract clause.

#### **Subpart 225.7-Restrictions on Certain Foreign Purchases**

225.703 Exceptions.

#### **Subpart 225.8-International Agreements and Coordination**

225.800 Scope of subpart.  
225.801 International agreements.  
225.870 Coordination with overseas commands and activities.

#### **Subpart 225.9-Omission of the Examination of Records Clause**

225.903 Conditions for omission.  
225.904 Determination and findings.

#### **Subpart 225.70-Appropriations Act Restrictions**

225.7000 Scope of subpart.  
225.7001 Definitions.  
225.7002 Restriction on food, clothing, fabrics, and specialty metals.  
225.7003 Restriction on domestic hand or measuring tools.  
225.7004 Restriction on sources for manual typewriters.  
225.7005 Restriction on the hull and superstructure of naval vessels.  
225.7006 Restriction on acquisition of foreign buses.  
225.7007 Restriction on R&D contracting with foreign sources.

#### **Subpart 225.71-Canadian Purchases**

225.7101 Mutual Canadian-American interests.  
225.7102 Agreement with the Government of Canada.  
225.7103 Guarantee by Canadian Government.  
225.7104 Procedures for Canadian Purchases.  
225.7105 Contract administration.

#### **Subpart 225.72-Military Assistance Program Acquisitions**

225.7200 Scope of subpart.  
225.7201 Statutory requirements.  
225.7202 Procedures.  
225.7203 Exemptions from examination of records requirement.  
225.7204 Department of Defense audit and records.  
225.7205 Contract provision and clause.

#### **Subpart 225.73-Acquisitions for Foreign Military Sales**

225.7300 Scope of subpart.  
225.7301 Applicable statutory provisions.  
225.7302 Applicability.  
225.7303 Preparation of DoD offer and acceptance, DD Form 1513.  
225.7304 Pricing acquisitions for foreign military sales.  
225.7305 Sales commissions and contingent fees on foreign military sales.  
225.7306 Recovery of nonrecurring costs.  
225.7307 Source selection.  
225.7308 Limitation of Liability.  
225.7309 Exercise of options for foreign military sales.  
225.7310 Implementation of offset arrangements negotiated pursuant to foreign military sales agreements.  
225.7311 Use of Government production and research property on work for foreign governments or international organizations.  
225.7312 Exclusionary policies and practices of foreign governments.  
225.7313 Nonapplicability of rates under 49 U.S.C. section 10721 (formerly "Section 22 Rates").  
225.7314 Specific FMS/offset agreements.

#### **Subpart 225.74-Purchases From NATO Participating Country Sources**

225.7400 Scope of subpart.  
225.7401 Policy.  
225.7402 MOUs with NATO participating countries.  
225.7403 Procedures for purchases from participating countries.  
225.7404 Contract administration.  
225.7405 List of excluded items.  
225.7406 Specific reciprocal memoranda of understanding with NATO participating countries.

#### **Subpart 225.75-Purchases From Defense Cooperation Country Sources**

225.7500 Scope of subpart.  
225.7501 Policy.  
225.7502 Procedures.  
225.7503 Specific memoranda of understanding with defense cooperation countries.

**Subpart 225.76-Use of U.S.-Owned Foreign Currency for Payments**

- 225.7600 Scope of subpart.
- 225.7601 Definitions.
- 225.7602 Procedures.
- 225.7603 Evaluating offers.
- 225.7604 Awards.
- 225.7605 Determinations of nonfeasibility and contract certifications.
- 225.7606 Criteria for nonfeasibility determinations.
- 225.7607 Excess and near-excess foreign currency countries.
- 225.7608 Contracts with domestic concerns.

**Subpart 225.77-Procurements Involving Work To Be Performed in Foreign Countries by United States Contractors**

- 225.7700 Scope of subpart.
- 225.7701 Policy.
- 225.7702 Procedures.

**PART 227-PATENTS, DATA, AND COPYRIGHTS****Subpart 227.3-Patent Rights Under Government Contracts**

- 227.304-1 General.
- 227.304-4 Subcontracts.

**Subpart 227.4-Technical Data, Other Data, Computer Software, and Copyrights**

- 227.400 Scope of subpart.
- 227.401 Definitions.
- 227.402 Copyrights.
- 227.403 Acquisition of rights in technical data.
- 227.403-1 Background.
- 227.403-2 Policy.
- 227.403-3 Procedures.
- 227.404 Acquisition of rights in computer software.
- 227.404-1 Policy.
- 227.404-2 Procedures.
- 227.405 Contracts for acquisition of special works.
- 227.406 Contracts for acquisition of existing works.
- 227.407 Contracts limiting government's right of publication for sale to the general public.
- 227.408 Architect-engineer and construction contracts.
- 227.408-1 General.
- 227.408-2 Acquisition and use of plans, specifications, and drawings.
- 227.408-3 Contracts for construction supplies and research and development work.
- 227.408-4 Mixed contracts.
- 227.408-5 Approval of restricted designs.
- 227.409 Contracts awarded under small business innovation research program (SBIR Program).
- 227.410 Acquisition of technical data and computer software.
- 227.410-1 General.
- 227.410-2 Requirement for technical data certification.
- 227.410-3 Identification of technical data.
- 227.410-4 Technical data-withholding of payment.
- 227.410-5 Warranties of technical data.
- 227.410-6 Data requirements.
- 227.411 Contracts with foreign sources to be performed outside the United States.
- 227.412 Solicitation provisions and contract clauses.

**Subpart 227.6-Foreign License and Technical Assistance Agreements**

- 227.670 Scope.
- 227.671 General.
- 227.672 Policy.
- 227.673 Foreign license and technical assistance agreements between the government and domestic concerns.
- 227.674 Supply contracts between the government and a foreign government or concern.
- 227.675 Foreign license and technical assistance agreements between a domestic concern and a foreign government or concern.
- 227.675-1 International traffic in arms regulations.
- 227.675-2 Review of agreements.

**Subpart 227.70-Infringement Claims, Licenses, and Assignments**

- 227.7000 Scope.
- 227.7001 Policy.
- 227.7002 Statutes pertaining to administrative claims of infringement.
- 227.7003 Claims for copyright infringement.
- 227.7004 Requirements for filing an administrative claim for patent infringement.
- 227.7005 Indirect notice of patent infringement claims.
- 227.7006 Investigation and administrative disposition of claims.
- 227.7007 Notification and disclosure to claimants.
- 227.7008 Settlement of indemnified claims.
- 227.7009 Patent releases, license agreements, and assignments.
- 227.7009-1 Required clauses.
- 227.7009-2 Clauses to be used when applicable.
- 227.7009-3 Additional clauses-contracts except running royalty contracts.
- 227.7009-4 Additional clauses-contracts providing for payment of a running royalty.
- 227.7010 Assignments.
- 227.7011 Procurement of rights in inventions, patents, and copyrights.
- 227.7012 Contract format.
- 227.7013 Recordation.

**PART 228-BONDS AND INSURANCE**

- 228.001 Definitions.

**Subpart 228.1-Bonds**

- 228.102 Performance and payment bonds for construction contracts.
- 228.102-1 General.
- 228.103 Performance and payment bonds for other than construction contracts.
- 228.103-1 General.
- 228.103-2 Performance bonds.
- 228.105 Other types of bonds.
- 228.105-70 Fidelity and forgery bonds.
- 228.106 Administration.
- 228.106-2 Substitution of surety bonds.
- 228.106-70 Review of bonds and notification of surety.

**Subpart 228.3-Insurance**

- 228.304 Risk-pooling arrangements.
- 228.305 Overseas workers' compensation and war hazard insurance.
- 228.306 Insurance under fixed-price contracts.

- 228.307 Insurance under cost-reimbursement contracts.
- 228.307-1 Group insurance plans.
- 228.307-2 Liability.
- 228.309 Contract clauses for workers' compensation insurance.
- 228.311 Solicitation provision and contract clause on insurance liability under cost reimbursement contracts.

**Subpart 228.70-Indemnification**

- 228.7000 General.

**Subpart 228.71-Accident Reporting and Safety**

- 228.7101 Accident reporting.

**PART 229-TAXES****Subpart 229.1-General**

- 229.101 Resolving tax problems.
- 229.101-70 Resolving foreign tax relief issues.

**Subpart 229.2-Federal Excise Taxes**

- 229.202 General exemptions.

**Subpart 229.3-State and Local Taxes**

- 229.303 Application of state and local taxes to government contractors and subcontractors.

**Subpart 229.4-Contract Clauses**

- 229.402 Foreign contracts.
- 229.402-1 Foreign fixed-price contracts.
- 229.402-70 Use of foreign tax clauses.

**PART 230-COST ACCOUNTING STANDARDS****Subpart 230.1-General**

- 230.103 Cost Accounting Standards Board (CASB) publications.

**Subpart 230.4-CAS Administration**

- 230.401 Responsibility.

**Subpart 230.70-Facilities Capital Employed for Facilities in Use**

- 230.7001 Policy.
- 230.7002 Definitions, measurement, and allocation.
- 230.7003 Estimating business unit facilities capital and cost of money.
- 230.7004 Contract facilities capital estimates.
- 230.7005 Pre-award facilities capital applications.
- 230.7006 Post award facilities capital applications.
- 230.7007 Administrative procedures.

**Subpart 230.71-Facilities Capital Employed for Facilities Under Construction**

- 230.7101 Policy.
- 230.7102 Definitions.
- 230.7103 Measurement.
- 230.7104 Composition and allocation of costs.
- 230.7105 Limitations.
- 230.7106 Preaward capital employed application.

**PART 231-CONTRACT COST PRINCIPLES AND PROCEDURES****Subpart 231.1-Applicability**

- 231.101 Objectives.

- 231.103 Contracts with commercial organizations.
- 231.105 Construction and architect-engineer contracts.

#### **Subpart 231.2-Contracts With Commercial Organizations**

- 231.201 General.
- 231.205-10 Cost of money.
- 231.205-18 Independent research and development and bid and proposal costs.
- 231.205-38 Selling costs.

### **PART 232-CONTRACT FINANCING**

#### **Subpart 232.1-General**

- 232.102 Description of contract financing methods.
- 232.108 Financial consultation.
- 232.111 Contract clauses.
- 232.170 Responsibilities.
- 232.170-1 Organization.
- 232.170-2 Resolution of disagreements.
- 232.170-3 Responsibility, administration, contract finance committee.
- 232.171 Deviations.
- 232.172 Financial responsibility of contractors.
- 232.173 Financial information and analysis.
- 232.174 Appropriate information.
- 232.174-1 Cash flow forecast and estimated financial statements.
- 232.174-2 Realistic assumptions.
- 232.174-3 Estimated income statements and balance sheets.
- 232.175 Interpretations.

#### **Subpart 232.3-Loan Guarantees for Defense Production**

- 232.302 Authority.
- 232.304 Procedures.
- 232.304-1 Application for guarantee.
- 232.304-2 Certificate of eligibility.
- 232.304-70 Guaranteed loans for an extended period of time.

#### **Subpart 232.4-Advance Payments**

- 232.404 Exclusions.
- 232.409 Contracting officer action.
- 232.409-1 Recommendation for approval.
- 232.410 Findings, determination, and authorization.
- 232.412 Contract clause.
- 232.470 Procedure for advance payments to nonprofit educational and research and development institutions without a special bank account.
- 232.471 Pooled advance payments.
- 232.471-1 Distinction between pool contracts and designated pool contracts.
- 232.471-2 Advance payment pool agreement-special features.
- 232.471-3 Liquidation-designated pool contracts-administering office.
- 232.471-4 Advance payment pool-understandings.
- 232.472 Agreement for advance payments without special bank account.

#### **Subpart 232.5-Progress Payments Based on Costs**

- 232.501 General.
- 232.501-1 Customary progress payment rates.
- 232.501-2 Unusual progress payments.
- 232.501-3 Contract price.
- 232.502 Preaward matters.

- 232.502-1 Use of customary progress payments.
- 232.502-2 Contract finance office clearance.
- 232.502-4 Contract clauses.
- 232.503 Postaward matters.
- 232.503-1 Contractor requests.
- 232.503-6 Suspension or reduction of payments.

#### **Subpart 232.6-Contract Debts**

- 232.600 Scope.
- 232.601 Definition.
- 232.605 Responsibilities and cooperation among Government officials.
- 232.606 Debt determination and collection.
- 232.610 Demand for payment of contract debt.
- 232.613 Deferment of collection.
- 232.614 Interest.
- 232.614-1 Interest charges.
- 232.616 Compromise actions.
- 232.617 Contract clause.
- 232.670 Transfer of responsibility for debt collection.
- 232.671 Bankruptcy reporting.

#### **Subpart 232.7-Contract Funding**

- 232.705 Contract clauses.
- 232.705-2 Clauses for limitation of cost or funds.

#### **Subpart 232.8-Assignment of Claims**

- 232.803 Policies.
- 232.806 Contract clauses.

### **PART 233-PROTESTS, DISPUTES, AND APPEALS**

#### **Subpart 233.2-Disputes and Appeals**

- 233.210 Contracting officer's authority.
- 233.213 Obligation to continue performance.
- 233.214 Contract clause.
- 233.270 Claims for interest penalties under the Prompt Payment Act.

#### **Subpart 233.70-Certification Under Section 813 of Pub. L. 95-485**

- 233.7000 Certification of requests for adjustment or relief exceeding \$100,000.

### **PART 234-MAJOR SYSTEM ACQUISITION**

- 234.000 Scope of part.
- 234.005 General requirements.
- 234.005-70 Special considerations.
- 234.005-71 Contract clauses for major systems acquisitions.

### **PART 235-RESEARCH AND DEVELOPMENT CONTRACTING**

- 235.001 Definitions.
- 235.003 Policy.
- 235.004 Publicizing requirements and expanding research and development sources.
- 235.005 Work statement.
- 235.006 Contracting methods and contract type.
- 235.007 Solicitations.
- 235.008 Evaluation for award.
- 235.010 Scientific and technical reports.
- 235.011 Data.
- 235.014 Government property and title.
- 235.015 Contracts for research with educational institutions and nonprofit organizations.

- 235.070 Indemnification against unusually hazardous risks.
- 235.071 Contract clauses.

#### **Subpart 235.70-Short Form Research Contract**

- 235.7000 Scope of subpart.
- 235.7001 Definitions.
- 235.7002 Applicability.
- 235.7003 Content of unsolicited proposals.
- 235.7004 Contracting procedures.
- 235.7005 Advance payments.
- 235.7006 Methods of funding.
- 235.7007 Proposal format.
- 235.7008 SFRC clauses.
- 235.7009 Price negotiation memorandum.

#### **Subpart 235.71-Recovery of Nonrecurring Costs on Commercial Sales of Defense Products and Technology**

- 235.7100 Scope.
- 235.7101 Policy.
- 235.7102 Applicability.
- 235.7103 Procedures.
- 235.7104 Deviations.

### **PART 236-CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS**

#### **Subpart 236.1-General**

- 236.102 Definitions.
- 236.103 Methods of contracting.
- 236.170 Sources of construction services.

#### **Subpart 236.2-Special Aspects of Contracting for Construction**

- 236.201 Evaluation of contractor performance.
- 236.203 Government estimate of construction costs.
- 236.206 Liquidated damages.
- 236.270 Minimum standards for responsible prospective contractors.
- 236.271 Expediting construction contracts.
- 236.272 Cost-plus-fixed fee contracts.
- 236.273 Prequalification of bidders and offerors.

#### **Subpart 236.3-Special Aspects of Sealed Bidding in Construction Contracting**

- 236.303 Invitation for bids.

#### **Subpart 236.4-Special Procedures for Negotiation of Construction Contracts**

- 236.402 Price negotiation.

#### **Subpart 236.5-Contract Clauses**

- 236.501 Performance of work by the contractor.
- 236.570 Additional clauses.
- 236.571 Clauses.
- 236.571-1 Composition of contractor.
- 236.571-2 Modification proposals-price breakdown.
- 236.571-3 Contract drawings, maps and specifications.
- 236.572 Clauses.
- 236.572-1 Contract prices-bidding schedule.
- 236.572-2 Salvage materials and equipment.
- 236.572-3 Misplaced material.
- 236.572-4 Identification of employees.
- 236.572-5 Superintendence of subcontractors.
- 236.572-6 Payment for mobilization and preparatory work.
- 236.572-7 [Reserved]
- 236.572-8 Airfield safety precautions.

- 236.572-9 Contractor prepared network analysis system.
- 236.572-10 Government-prepared network analysis system.
- 236.573 Clauses.
- 236.573-1 Statement of work.
- 236.573-2 Estimated cost, performance period.
- 236.573-3 Direct payments.
- 236.573-4 Approved construction plant.
- 236.573-5 Insurance.
- 236.574 Option for supervision and inspection services.
- 236.580 Solicitation provisions.
- 236.580-1 Cost limitations.
- 236.580-2 Additive or deductive items.

#### **Subpart 236.6-Architect-Engineer Services**

- 236.600 Scope of subpart.
- 236.601 Policy.
- 236.602 Selection of firms for architect-engineer contracts.
- 236.602-1 Selection criteria.
- 236.602-2 Evaluation boards.
- 236.602-4 Selection authority.
- 236.604 Performance evaluation.
- 236.605 Government cost estimate for architect-engineer work.
- 236.606 Negotiations.

#### **Subpart 236.7-Standard Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements**

- 236.701 Standard forms for use in contracting for construction or dismantling, demolition, or removal of improvements.

#### **Subpart 236.70-Construction in Foreign Countries**

- 236.7001 General.
- 236.7002 Technical agreements.
- 236.7003 Labor laws of host country.

#### **Subpart 236.71-Termination of Contracts**

- 236.7100 Scope.
- 236.7101 Contractor inventory.
- 236.7101-1 Inventory schedules.
- 236.7101-2 Allocability of contractor-acquired property on inventory schedules.
- 236.7101-3 Contractor's certificate-property incorporated in work.
- 236.7101-4 Inventory at construction site.
- 236.7101-5 Screening of contractor inventory.

### **PART 237-SERVICE CONTRACTING**

#### **Subpart 237.1-Service Contracts-General**

- 237.104 Personal services contracts.
- 237.106 Funding and term of service contracts.

#### **Subpart 237.2-Consulting Services**

- 237.204 Policy.
- 237.205 Management controls.
- 237.205-70 Responsibilities of the contracting officer.
- 237.205-71 Departmental procedures.
- 237.270 Studies and analyses and professional and management services.

#### **Subpart 237.3-Dismantling, Demolition, or Removal of Improvements**

- 237.302 Bonds or other security.
- 237.304 Contract clauses.

#### **Subpart 237.70-Engineering and Technical Services**

- 237.7001 Definitions.
- 237.7002 Contracting for engineering and technical services.

#### **Subpart 237.71-Mortuary Services**

- 237.7100 Scope.
- 237.7101 Method of acquisition.
- 237.7102 Schedule formats.
- 237.7103 Solicitation provisions and contract clauses.

#### **Subpart 237.72-Laundry and Dry Cleaning Services**

- 237.7200 Scope.
- 237.7201 General policy.
- 237.7202 Selection of count of articles or weight (unsorted or presorted) basis.
- 237.7203 Schedule format.
- 237.7204 Solicitation provisions and contract clauses.

#### **Subpart 237.73-Educational Service Agreements**

- 237.7300 Scope.
- 237.7301 Educational service agreement.
- 237.7302 [Reserved]
- 237.7303 Duration.
- 237.7304 Format and clauses for educational service agreements.

#### **Subpart 237.74-Communication Services**

- 237.7401 Definitions.
- 237.7402 Applicability.
- 237.7403 Policy.
- 237.7404 Regulatory bodies.
- 237.7405 Sources for communications services.
- 237.7405-1 Common carriers.
- 237.7405-2 Noncommon carriers.
- 237.7405-3 Foreign carriers.
- 237.7406 Who may acquire communication services.
- 237.7407 Cost or pricing data.
- 237.7408 Type of contract.
- 237.7408-1 General.
- 237.7408-2 General agreements.
- 237.7408-3 Communication Service Authorization (CSA).
- 237.7408-4 Federal Supply Schedule contracts.
- 237.7409 Funding of Communication Service Authorizations (CSA) under general contracts.
- 237.7410 Special construction.
- 237.7410-1 General.
- 237.7410-2 Applicability of construction labor standards to CSAs for special construction.
- 237.7411 Special assembly.
- 237.7412 Cancellation and termination.
- 237.7413 Contract clauses.

#### **Subpart 237.75-Services of Students at Research and Development Laboratories**

- 237.7500 Scope.
- 237.7501 Definitions.
- 237.7502 Policy.
- 237.7503 General.
- 237.7504 Contract clauses.

### **PART 238-FEDERAL SUPPLY SCHEDULE CONTRACTING**

### **PART 239-MANAGEMENT, ACQUISITION, AND USE OF INFORMATION RESOURCES**

### **PART 242-CONTRACT ADMINISTRATION**

#### **Subpart 242.1-Interagency Contract Administration and Audit Services**

- 242.101 Policy.
- 242.102 Procedures.

#### **Subpart 242.2-Assignment of Contract Administration**

- 242.203 Retention of contract administration.
- 242.204 Supporting contract administration.
- 242.205 Designation of the paying office.
- 242.270 Contracts requiring performance of contract administration services (CAS) on military installations.

#### **Subpart 242.3-Contract Administration Office Functions**

- 242.302 Contract administration functions.

#### **Subpart 242.4-Correspondence and Visits**

- 242.402 Visits to contractors' facilities.

#### **Subpart 242.5-Postaward Orientation**

- 242.501 General.
- 242.503-1 Postaward conference arrangements.
- 242.503-2 Postaward conference procedure.
- 242.503-3 Postaward conference report.

#### **Subpart 242.6-Corporate Administrative Contracting Officer**

- 242.602 Assignment and location.
- 242.603 Responsibilities.

#### **Subpart 242.7-Indirect Cost Rates**

- 242.705 Final indirect cost rates.
- 242.705-1 Contracting officer determination procedure.
- 242.705-2 Auditor determination procedure.
- 242.705-3 Educational institutions.
- 242.706 Distribution of documents.
- 242.770 Certification of indirect costs.
- 242.770-1 Clause.

#### **Subpart 242.8-Disallowance of Costs**

- 242.801 Notice of intent to disallow costs.
- 242.803 Disallowing costs after incurrence.

#### **Subpart 242.1-Negotiating Advance Agreements for Independent Research and Development/Bid and Proposal Costs**

- 242.1005 Lead negotiating agency responsibilities.
- 242.1006 Conducting negotiations.
- 242.1007 Content of advance agreements.
- 242.1008 Administrative appeals.

#### **Subpart 242.11-Production Surveillance and Reporting**

- 242.1101 General.
- 242.1104 Surveillance requirements.
- 242.1105 Assignment of criticality designator.
- 242.1106 Reporting requirements.
- 242.1107 Contract clause.

**Subpart 242.12-Novation and Change-of-Name Agreements**

242.1203 Processing agreements.

**Subpart 242.14-Traffic and Transportation Management**

- 242.1402 Volume movements within the continental United States.
- 242.1403-1 U.S. Government Bills of Lading (GBLs).
- 242.1403-2 Contractor-prepaid commercial bills of lading.
- 242.1404-2 Contract clauses.
- 242.1405 Discrepancies incident to shipment of supplies.
- 242.1470 Routing, tracing, and expediting shipments.
- 242.1471 Demurrage and detention charges.
- 242.1472 DD Form 1659 (1 Apr 70), application for U.S. Government Bill(s) of Lading/Domestic Route Order/Export Traffic Release.

**Subpart 242.70-Monitoring Contractors' Costs**

- 242.7000 Scope.
- 242.7001 Purpose.
- 242.7002 Application.
- 242.7003 Designation of a Cost Monitoring Coordinator.

- 242.7004 Responsibilities of the Cost Monitoring Coordinator.
- 242.7005 DCAA auditor responsibility.
- 242.7006 Procedure.

**Subpart 242.71-Voluntary Refunds**

- 242.7100 General.
- 242.7101 Solicited refunds.
- 242.7102 Disposition of voluntary refunds.

**PART 243-CONTRACT MODIFICATIONS****Subpart 243.1-General**

- 243.104 Notification of contract changes.
- 243.105 Availability of funds.
- 243.170 Identification of FMS contract modifications.

**Subpart 243.2-Change Orders**

- 243.201 General.
- 243.202 Authority to issue change orders.
- 243.204 Administration.
- 243.205 Contract clauses.

**Subpart 243.3-Forms**

- 243.301 Use of forms.

**Subpart 243.70-Adjustments to Prices Under Shipbuilding Contracts**

- 243.7001 Adjustments to prices under shipbuilding contracts.
- 243.7002 Submission requirements.

**PART 244-SUBCONTRACTING POLICIES AND PROCEDURES****Subpart 244.3-Contractors' Purchasing Systems Reviews**

- 244.301 Objective.
- 244.302 Requirements.
- 244.303 Extent of review.
- 244.304 Surveillance.
- 244.305 Granting, withholding, or withdrawing approval.
- 244.305-2 Notification.

244.307 Reports.

**PART 245-GOVERNMENT PROPERTY****Subpart 245.3-Providing Government Property to Contractors**

- 245.301 Definitions.
- 245.302 Providing facilities.
- 245.302-1 Policy.
- 245.302-70 Securing approval for facilities projects.
- 245.302-71 Providing industrial plant equipment (IPE).
- 245.302-72 Providing ADPE as Government property.
- 245.303 Providing material.
- 245.303-2 Procedures.
- 245.306 Providing special tooling.
- 245.306-2 Acquiring special tooling.

**Subpart 245.4-Contractor Use Rental of Government Property**

- 245.401 Policy.
- 245.402 Authorizing use of Government production and research property.
- 245.403 Rental-use and charges clause.
- 245.405 Contracts with foreign Governments or international organizations.
- 245.407 Non-Government use of plant equipment.

**Subpart 245.5-Management of Government Property in the Possession of Contractors**

- 245.505-5 Records of plant equipment.
- 245.505-6 Special reports of plant equipment.
- 245.505-14 Reports of Government property.

**Subpart 245.6-Reporting, Redistribution, and Disposal of Contractor Inventory**

- 245.600 Scope of subpart.
- 245.601 Definitions.
- 245.603 Disposal methods.
- 245.603-70 Contractor performance of selected plant clearance duties and responsibilities.
- 245.604 Restrictions on purchase or retention of contractor inventory.
- 245.606-3 Acceptance.
- 245.606-5 Instructions for preparing and submitting schedules of contractor inventory.
- 245.607 Scrap.
- 245.607-70 Pre-inventory scrap determinations.
- 245.607-71 Segregation.
- 245.607-72 Contractor's approved scrap procedure.
- 245.608 Screening of contractor inventory.
- 245.608-1 General.
- 245.608-7 Reimbursement of costs for transfer of contractor inventory.
- 245.608-70 Contractor inventory redistribution system (CIRS).
- 245.608-71 Procedures for industrial plant equipment.
- 245.609 Donations.
- 245.610 Sale of surplus contractor inventory.
- 245.610-1 Responsibility.
- 245.610-3 Proceeds of sale.
- 245.613 Property disposal determinations.

**Subpart 245.70-Appointment of Property Administrator**

- 245.7001 Appointment of property administrator.
- 245.7001-1 Selection, appointment, and termination.

- 245.7001-2 Evaluation criteria.
- 245.7001-3 [Reserved]
- 245.7001-4 Duties and responsibilities of plant clearance officer

**Subpart 245.71-Forms, Instructions, and Reports**

- 245.7101 Forms.
- 245.7101-1 Standard Form 97.
- 245.7101-2 DD Form 1131.
- 245.7101-3 DD Form 1149.
- 245.7101-4 DD Form 1342.
- 245.7101-5 DD Form 1640.
- 245.7101-6 DD Form 1638.
- 245.7101-7 DD Form 1641.
- 245.7101-8 DD Form 1635.
- 245.7101-9 DD Form 1348-1.
- 245.7102 Instructions.
- 245.7102-1 Instructions for performing inventory verification and determination of allocability.
- 245.7102-2 DD Form 1638.
- 245.7102-3 Instructions for establishing a plant clearance case.
- 245.7102-4 Instructions for assigning plant clearance case number.
- 245.7102-5 Form letter for transmitting DD Form 1342 to DIPEC.
- 245.7102-6 General sales terms and conditions, and special conditions of sale.

**PART 246-QUALITY ASSURANCE****Subpart 246.1-General**

- 246.101 Definitions.
- 246.102 Policy.
- 246.103 Contracting office responsibilities.
- 246.104 Contract administration office responsibilities.
- 246.170 Organization responsible for technical requirements.

**Subpart 246.2-Contract Quality Requirements**

- 246.202 Types of contract quality requirements.
- 246.202-3 Higher-level contract quality requirements.
- 246.203 Criteria for use of contract quality requirements.
- 246.204 Application of criteria.

**Subpart 246.3-Contract Clauses**

- 246.370 Material inspection and receiving report.
- 246.371 Inspection records.

**Subpart 246.4-Government Contract Quality Assurance**

- 246.405 Subcontracts.
- 246.406 Foreign governments.
- 246.470 Quality assurance by other agencies.
- 246.471 Contract administration of special commodities.
- 246.471-1 Subsistence.
- 246.471-2 Petroleum.
- 246.471-3 Construction projects.
- 246.472 Inspection stamping.
- 246.473 Authorizing shipment of supplies.
- 246.474 Government contract quality assurance actions.

**Subpart 246.6-Material Inspection and Receiving Reports**

- 246.670 General.

246.671 Policy.

#### Subpart 246.7-Warranties

- 246.701 Definitions.
- 246.702 General.
- 246.703 Criteria for use of warranties.
- 246.704 Authority for use of warranties.
- 246.705 Limitations.
- 246.706 Warranty terms and conditions.
- 246.708 Warranties of technical data.
- 246.710 Contract Clauses.
- 246.770 Use of warranties in weapon system procurements.
- 246.770-1 Definitions.
- 246.770-2 Policy.
- 246.770-3 Tailoring warranty terms and conditions.
- 246.770-4 Establishing essential performance requirements.
- 246.770-5 Warranties on government-furnished property.
- 246.770-6 Exemption for alternate source contractor(s).
- 246.770-7 Applicability to FMS.
- 246.770-8 Cost-benefit analysis.
- 246.770-9 Waiver and notification procedures.
- 246.770-10 Special contract clauses.

#### PART 247-TRANSPORTATION

##### Subpart 247.1-General

- 247.103 Transportation documentation and audit regulation (TDA).
- 247.104-3 Cost-reimbursement contracts.
- 247.104-5 Citations of government rate tenders.
- 247.105 Transportation assistance.

##### Subpart 247.2-Contracts for Transportation or for Transportation-Related Services

- 247.270 Stevedoring contracts.
- 247.270-1 Scope of section.
- 247.270-2 Definition.
- 247.270-3 [Reserved]
- 247.270-4 Type of contract.
- 247.270-5 Technical provisions.
- 247.270-6 Evaluation of bids and proposals.
- 247.270-7 Analysis of labor-hour and equipment rental rates.
- 247.270-8 Award of contract.
- 247.270-9 Contract clauses.
- 247.271 Contracts for the preparation of personal property for shipment or storage.
- 247.271-1 Scope of section.
- 247.271-2 Policy.
- 247.271-3 Procedure.
- 247.271-4 Solicitation provisions, schedule formats, and contract clauses.

##### Subpart 247.3-Transportation in Supply Contracts

- 247.301-2 Participation of transportation officers.
- 247.301-3 Using the defense transportation system (DTS).
- 247.305-10 Packing, marking and consignment.
- 247.306-2 Lowest overall transportation costs.
- 247.370 DD Form 1384 (1 APR 66), Transportation Control and Movement Document.
- 247.371 Standard Form 30, Amendment of Solicitation/Modification of Contract.
- 247.372 DD Form 1653 (1 MAR 68), Transportation Data for IFBs and RFPs.
- 247.373 DD Form 1654 (1 MAR 68), Evaluation of Transportation Cost Factors.

##### Subpart 247.5-Ocean Transportation by U.S.-Flag Vessels

- 247.503 Applicability.
- 247.506 Procedures.
- 247.507 Contract clauses.

#### PART 248-VALUE ENGINEERING

##### Subpart 248.2-Contract Clauses

- 248.201 Clauses for supply or service contracts.

#### PART 249-TERMINATION OF CONTRACTS

##### Subpart 249.1-General Principles

- 249.102 Notice of termination.
- 249.105 Duties of termination contracting officer after issuance of notice of termination.
- 249.105-1 Termination status report.
- 249.108 Settlement of subcontract settlement proposals.
- 249.108-4 Authorization for subcontract settlements without approval or ratification.
- 249.109 Settlement agreements.
- 249.109-7 Settlement by determination.
- 249.110 Negotiation memorandum.

##### Subpart 249.4-Termination for Default

- 249.402 Termination of fixed-price contracts for default.
- 249.402-3 Procedure for default.

##### Subpart 249.6-Contract Termination Forms and Formats

- 249.601 Notice of termination for convenience.

##### Subpart 249.70-Special Requirements

- 249.7001 Terminated contracts with Canadian commercial corporation.
- 249.7002 Prior notification of significant contract terminations.
- 249.7003 Special termination costs.

#### PART 250-EXTRAORDINARY CONTRACTUAL ACTIONS

- 250.001 Definitions.

##### Subpart 250.1-General

- 250.103 Deviations.
- 250.104 Reports.
- 250.105 Records.

##### Subpart 250.2-Delegation of and Limitations on Exercise of Authority

- 250.201 Delegation of authority.
- 250.202 Contract adjustment boards.

##### Subpart 250.3-Contract Adjustments

- 250.303 Contractor requests.
- 250.305 Processing cases.
- 250.306 Disposition.

##### Subpart 250.4-Residual Powers

- 250.403-70 Indemnification under contract involving both research and development and work that cannot be so classified.

##### Subpart 250.70-Act and Executive Order

- 250.7000 Scope.
- 250.7001 Act of August 28, 1958, as amended.
- 250.7002 Executive Order 10789 of November 14, 1958.

#### PART 251-USE OF GOVERNMENT SOURCES BY CONTRACTORS

##### Subpart 251.1-Contractor Use of Government Supply Sources

- 251.100 Scope of subpart.
- 251.102 Authorization to use government supply sources.
- 251.103 Ordering from government supply sources.
- 251.104 Furnishing assistance to contractors.
- 251.106 Title.
- 251.107 Contract clause.

##### Subpart 251.2-Contractor Use of Interagency Motor Pool Vehicles

- 251.202 Authorization.
- 251.205 Contract clause.

#### PART 252-SOLICITATION PROVISIONS AND CONTRACT CLAUSES

##### Subpart 252.1-Instructions for Using Provisions and Clauses

- 252.101 Using Part 252.
- 252.106 Derivations of provisions and clauses.

##### Subpart 252.2-Texts of Provisions and Clauses

- 252.200 Scope of subpart.
- 252.203-7000 Advertising and coupon redemption for military resale activities.
- 252.204-7000 Contract schedule subline items not separately priced-withholding of billing and payment.
- 252.204-7004 Data Universal Numbering System (DUNS) number reporting.
- 252.204-7005 Overseas distribution of defense subcontracts.
- 252.208-7000 Required sources for miniature and instrument ball bearings.
- 252.208-7001 Required sources for precision components for mechanical time devices.
- 252.208-7002 Required sources for high-purity silicon.
- 252.208-7003 Required sources for High Carbon Ferrochrome (HCF).
- 252.208-7004 Notice of intent to furnish precious metals as Government-Furnished Material.
- 252.208-7005 Required sources for forging and welded shipboard anchor chain items used for military application for combat and direct combat support items.
- 252.210-7000 Brand name or equal.
- 252.210-7001 Availability of descriptions listed in DoD directive 5000.19-L, Volume II.
- 252.210-7002 Availability of specifications and standards not listed in DODISS, data item descriptions not listed in Department of Defense Directive 5000.19-L, Volume II, and plans, drawings, and other pertinent documents.
- 252.210-7003 Availability for examination of specifications, standards, plans, drawings, data item descriptions, and other pertinent documents.
- 252.210-7004 Bill of materials.
- 252.212-7000 Exclusion of periods in computing completion schedules.
- 252.213-7000 Inconsistency between English version and translation of contract.
- 252.213-7001 Returnable gas cylinders.
- 252.214-7000 Discounts.

- 252.215-7000 Aggregate pricing adjustment.
- 252.216-7000 Economic price adjustment—basic steel, aluminum, brass, bronze or copper mill products.
- 252.216-7001 Economic price adjustment—nonstandard steel items.
- 252.217-7000 Exercise of option to fulfill Foreign Military Sales commitments.
- 252.217-7001 Exercise of option to fulfill Foreign Military sales commitments (Alt. 1).
- 252.217-7100 Definitions.
- 252.217-7101 Changes.
- 252.217-7102 Extras.
- 252.217-7103 Job orders and compensation.
- 252.217-7104 Inspection and manner of doing work.
- 252.217-7105 Title.
- 252.217-7106 Payments.
- 252.217-7107 Assignment of claims.
- 252.217-7108 Bonds.
- 252.217-7109 Federal, State, local, and Foreign taxes.
- 252.217-7110 Default.
- 252.217-7111 Disputes.
- 252.217-7112 Performance.
- 252.217-7113 Access to vessel.
- 252.217-7114 Certain Communist areas.
- 252.217-7115 Contract Work Hours and Safety Standards Act—overtime compensation.
- 252.217-7116 Walsh-Healey Public Contracts Act.
- 252.217-7117 Equal opportunity clause.
- 252.217-7118 Officials not to benefit.
- 252.217-7119 Covenant against contingent fees.
- 252.217-7120 Termination for convenience of the government.
- 252.217-7121 Authorization and consent.
- 252.217-7122 Notice and assistance regarding patent and copyright infringement.
- 252.217-7123 Responsibility for inspection.
- 252.217-7124 Liability and insurance.
- 252.217-7125 Pricing of adjustments.
- 252.217-7126 Affirmative action for disabled veterans and veterans of the Vietnam era.
- 252.217-7127 Affirmative action for handicapped workers.
- 252.217-7128 Clean air and water.
- 252.217-7129 Invoices.
- 252.217-7130 Guarantees.
- 252.217-7131 Discharge of liens.
- 252.217-7132 Department of Labor safety and health regulations for ship repairing.
- 252.217-7200 Workers' compensation and war hazard insurance overseas.
- 252.217-7201 Buy American Act and the balance of payments program.
- 252.217-7202 Notice to the Government of labor disputes.
- 252.217-7203 Patent indemnity.
- 252.217-7204 Filing of patent applications.
- 252.217-7205 Contract schedule subline items not separately priced.
- 252.217-7206 Reporting and refund of royalties.
- 252.217-7207 Rights in technical data and computer software.
- 252.217-7208 Military security requirements.
- 252.217-7209 Utilization of small business and small disadvantaged business concerns.
- 252.217-7210 Examination of records by Comptroller General.
- 252.217-7211 Gratuities.
- 252.217-7212 Convict labor.
- 252.217-7213 Priorities and allocations.
- 252.217-7214 Utilization of labor surplus area concerns.
- 252.217-7215 Limitation on withholding of payments.
- 252.217-7216 Equal opportunity preaward clearance of subcontracts.
- 252.217-7217 Subcontracts.
- 252.217-7218 Government property.
- 252.217-7219 Federal, state, local, and foreign taxes.
- 252.217-7220 Quality program.
- 252.217-7221 Price reduction for defective cost or pricing data.
- 252.217-7222 Duty-free entry.
- 252.217-7223 Duty-free entry of qualifying country supplies.
- 252.217-7224 Inspection system.
- 252.217-7225 Advance payments.
- 252.217-7226 Required sources for jewel bearings and related items.
- 252.217-7227 Required sources for miniature and instrument ball bearings.
- 252.217-7228 Interest.
- 252.217-7229 Competition in subcontracting.
- 252.217-7230 Audit by Department of Defense.
- 252.217-7231 Subcontractor cost or pricing data.
- 252.217-7232 Value engineering.
- 252.217-7233 [Reserved]
- 252.217-7234 Required sources for precision components for mechanical time devices.
- 252.217-7235 New material.
- 252.217-7236 Government surplus.
- 252.217-7237 Utilization of women-owned business concerns.
- 252.217-7238 Material inspection and receiving report.
- 252.217-7239 Protection of Government buildings, equipment, and vegetation.
- 252.217-7240 Government delay of work.
- 252.217-7241 Distribution of defense subcontracts placed overseas.
- 252.217-7242 Safety precautions for ammunition and explosives.
- 252.217-7243 Cost accounting standards.
- 252.217-7244 Notification of changes.
- 252.217-7245 Engineering change proposals (ECP's).
- 252.217-7246 Change order accounting.
- 252.217-7247 Contracts conditioned upon the availability of funds.
- 252.217-7248 Preference for domestic specialty metals.
- 252.217-7249 Preference for United States-flag air carriers.
- 252.217-7250 Exclusionary policies and practices of foreign governments.
- 252.217-7251 Hazardous material identification and material safety data.
- 252.217-7252 Certification of requests for adjustment or relief exceeding \$100,000.
- 252.217-7253 Qualifying country sources as subcontractors.
- 252.217-7254 Stop work orders.
- 252.217-7255 Subcontractor cost or pricing data—modifications—sealed bidding.
- 252.217-7256 Subcontractor cost or pricing data.
- 252.217-7257 Notice of total small business set-aside.
- 252.217-7258 Preference for labor surplus area concerns.
- 252.217-7259 Bid guarantee.
- 252.217-7260 Production progress reports.
- 252.217-7261 Government-furnished property (short form).
- 252.217-7262 Clauses incorporated by reference.
- 252.217-7263 Aggregate pricing adjustment.
- 252.217-7264 Small business and small disadvantaged business subcontracting plan (master plans).
- 252.217-7265 Restrictive markings on technical data.
- 252.217-7266 Identification of technical data.
- 252.217-7267 Data requirements.
- 252.217-7268 Certain Communist areas.
- 252.217-7269 Plant protection.
- 252.217-7270 Identification of sources of supply.
- 252.217-7300 Delivery vehicles.
- 252.217-7301 Time of delivery.
- 252.217-7302 Change in plant location.
- 252.217-7303 Sanitary conditions.
- 252.217-7304 Remedies under delivery orders.
- 252.217-7305 Examination and testing.
- 252.217-7306 Deficiency adjustment.
- 252.217-7307 Warning.
- 252.217-7308 Suspension.
- 252.217-7309 Default.
- 252.217-7310 Reinstatement.
- 252.217-7311 Code dating.
- 252.217-7312 Marking.
- 252.217-7313 Responsibility for containers and equipment.
- 252.217-7314 Containers and equipment.
- 252.219-7000 Small business and small disadvantaged business subcontracting plan (master plans).
- 252.219-7001 Notice of combined small business-labor surplus area set-aside.
- 252.219-7002 Notice of combined small business-labor surplus area set-aside—alternate.
- 252.219-7003 Determining the set-aside award price.
- 252.219-7004 Eligibility for preference as a labor surplus concern.
- 252.220-7000 Notice of labor surplus area set-aside.
- 252.220-7001 Notice of labor surplus area set-aside—alternate.
- 252.222-7000 Potential application of the Service Contract Act, as amended (fixed price).
- 252.222-7001 Service Contract Act (SCA) minimum wages and fringe benefits.
- 252.222-7002 Restrictions on Employment of Personnel.
- 252.223-7000 Notice of radioactive materials.
- 252.223-7001 Safety precautions for ammunition and explosives.
- 252.223-7002 Change in place of performance—ammunition and explosives.
- 252.225-7000 Buy American—balance of payments program certificate.
- 252.225-7001 Buy American Act and the balance of payments program.
- 252.225-7002 Qualifying country sources as subcontractors.
- 252.225-7003 Nondomestic construction materials.
- 252.225-7004 Identification of expenditures in the United States.
- 252.225-7005 Buy American Act—Trade Agreements Act—Balance of Payments Program Certificate.

- 252.225-7006 Buy American Act, Trade Agreements Act, and The Balance of Payments Program.
- 252.225-7007 Supplies to be accorded duty-free entry.
- 252.225-7008 Duty-free entry-qualifying country end products and supplies.
- 252.225-7009 Preference for certain domestic commodities.
- 252.225-7010 Domestic wool preference.
- 252.225-7011 Preference for domestic specialty metals [major programs].
- 252.225-7012 Preference for domestic specialty metals.
- 252.225-7013 Preference for domestic hand or measuring tools.
- 252.225-7014 Duty-free entry-additional provisions.
- 252.225-7015 United States products certificate (Military Assistance Program).
- 252.225-7016 United States products (Military Assistance Program).
- 252.225-7017 Limitation of sales commissions and fees for foreign governments.
- 252.225-7018 Offset arrangement.
- 252.225-7019 Exclusionary policies and practices of foreign governments.
- 252.225-7020 Option to award and pay in foreign currency.
- 252.225-7021 Acquisition and use of excess and near-excess currency.
- 252.227-7000 Non-Estoppel.
- 252.227-7001 Release of past infringement.
- 252.227-7002 Readjustment of payments.
- 252.227-7003 Termination.
- 252.227-7004 License grant.
- 252.227-7005 License term.
- 252.227-7006 License grant-running royalty.
- 252.227-7007 License term-running royalty.
- 252.227-7008 Computation of royalties.
- 252.227-7009 Reporting and payment of royalties.
- 252.227-7010 License to other Government agencies.
- 252.227-7011 Assignments.
- 252.227-7012 Patent license and release contract.
- 252.227-7013 Rights in technical data and computer software.
- 252.227-7014 Predetermination of rights in technical data.
- 252.227-7015 Rights in technical data-specific acquisition.
- 252.227-7016 Contract schedule items requiring experimental, developmental, or research work.
- 252.227-7017 Rights in technical data-major system and subsystem contracts.
- 252.227-7018 Restrictive markings on technical data.
- 252.227-7019 Identification of restricted rights computer software.
- 252.227-7020 Rights in data-special works.
- 252.227-7021 Rights in data-existing works.
- 252.227-7022 Government rights (unlimited).
- 252.227-7023 Drawings and other data to become property of government.
- 252.227-7024 Notice and approval of restricted designs.
- 252.227-7025 Rights in technical data and computer software (SBIR program).
- 252.227-7026 Deferred delivery of technical data or computer software.
- 252.227-7027 Deferred ordering of technical data or computer software.
- 252.227-7028 Requirement for technical data certification.
- 252.227-7029 Identification of technical data.
- 252.227-7030 Technical data-withholding of payment.
- 252.227-7031 Data requirements.
- 252.227-7032 Rights in technical data and computer software (foreign).
- 252.227-7033 Rights in shop drawings.
- 252.227-7034 Patents-subcontracts.
- 252.228-7000 Reimbursement for war hazard losses.
- 252.228-7001 Ground and flight risk.
- 252.228-7002 Flight risks.
- 252.228-7003 Capture and detention.
- 252.228-7004 Bonds or other security.
- 252.228-7005 Insurance.
- 252.228-7006 Accident reporting and investigation involving aircraft, missiles, and space launch vehicles.
- 252.229-7000 Fixed-price, into-plane, fuel-contracts at overseas locations.
- 252.231-7000 Supplemental cost principles.
- 252.232-7000 Invoices.
- 252.232-7001 Advance payment pool.
- 252.232-7002 Disposition of payments.
- 252.232-7003 Progress payments for foreign military sales acquisitions.
- 252.232-7004 Flexible progress payments.
- 252.233-7000 Certification of requests for adjustment or relief exceeding \$100,000.
- 252.234-7000 Notice of cost/schedule control systems.
- 252.234-7001 Cost/schedule control systems.
- 252.235-7000 Indemnification under 10 U.S.C. 2354-fixed price.
- 252.235-7001 Indemnification under 10 U.S.C. 2354-cost reimbursement.
- 252.235-7002 Recovery of nonrecurring costs on commercial sales.
- 252.235-7003 Care of laboratory animals.
- 252.235-7004 Frequency authorization.
- 252.235-7005 Short form research contract clauses.
- 252.236-7000 Composition of contractor.
- 252.236-7001 Modification proposals-price breakdown.
- 252.236-7002 Contract drawings, maps and specifications.
- 252.236-7003 [Reserved]
- 252.236-7004 Contract prices-bidding schedules.
- 252.236-7005 Salvage materials and equipment.
- 252.236-7006 Misplaced material.
- 252.236-7007 Identification of employees.
- 252.236-7008 Superintendence of subcontractors.
- 252.236-7009 Payment for mobilization and preparatory work.
- 252.236-7011 Airfield safety precautions.
- 252.236-7012 Contractor-prepared Network Analysis System.
- 252.236-7013 Government-prepared network analysis system.
- 252.236-7014 Statement of work.
- 252.236-7015 Estimated cost, performance period.
- 252.236-7016 Direct payments.
- 252.236-7017 Approved construction plant.
- 252.236-7018 Option for supervision and inspection services.
- 252.236-7081 Cost limitation.
- 252.236-7082 Additive or deductive items.
- 252.237-7000 Statement of work.
- 252.237-7100 Award to single bidder.
- 252.237-7101 Award to single offeror.
- 252.237-7102 Requirements.
- 252.237-7103 Area of performance.
- 252.237-7104 Specifications.
- 252.237-7105 Using activities.
- 252.237-7106 Delivery orders and invoices.
- 252.237-7107 Delivery and performance.
- 252.237-7108 Subcontracting.
- 252.237-7109 Additional default provision.
- 252.237-7110 Group interment.
- 252.237-7111 Professional requirements.
- 252.237-7112 Facility requirements.
- 252.237-7113 Preparation history.
- 252.237-7200 Instruction to bidders (count of articles).
- 252.237-7201 Instruction to bidders (bulk weight).
- 252.237-7202 Count of articles.
- 252.237-7203 Loss or damage (count of articles).
- 252.237-7204 Weight of articles (bag type).
- 252.237-7205 Weight of articles (unsorted).
- 252.237-7206 Loss or damage (weight of articles).
- 252.237-7207 Maximum weight loss.
- 252.237-7208 Individual laundry.
- 252.237-7209 Special definitions of Government property.
- 252.237-7400 Definitions (Communications).
- 252.237-7401 [Reserved]
- 252.237-7402 Access.
- 252.237-7403 Amendment of contract.
- 252.237-7404 Obligation of the Government.
- 252.237-7405 [Reserved]
- 252.237-7406 Continuation of orders.
- 252.237-7407 Facilities and services to be furnished-common carriers.
- 252.237-7408 Ordering of facilities and services-common carriers.
- 252.237-7409 Rates, charges, and services-common carriers.
- 252.237-7410 Payment-common carrier.
- 252.237-7411 Tariff information.
- 252.237-7412 Cancellation or termination of orders-common carriers.
- 252.237-7413 Reuse arrangements.
- 252.237-7414 Submission of cost or pricing data-common carriers.
- 252.237-7415 Audit and records-common carriers.
- 252.237-7416 Term and termination of contract-common carriers.
- 252.237-7417 Special construction and equipment charges.
- 252.237-7418 Title to communication facilities and equipment.
- 252.242-7000 Submission of commercial freight bills to the General Services Administration for audit.
- 252.242-7001 [Reserved]
- 252.242-7002 [Reserved]
- 252.242-7003 Certification of Indirect Costs.
- 252.243-7000 Engineering change proposals.
- 252.243-7001 Pricing of adjustments.
- 252.246-7000 Material inspection and receiving report.
- 252.246-7001 Warranty of data.
- 252.247-7000 Scope of contract.
- 252.247-7001 Schedule of rates.
- 252.247-7002 Price escalation.
- 252.247-7003 Revision of prices.
- 252.247-7004 Changes.
- 252.247-7005 Termination.

- 252.247-7006 Indefinite quantities-fixed charges.
- 252.247-7007 Indefinite quantities-no fixed charges.
- 252.247-7008 Employees of contractor.
- 252.247-7009 Removal of contractor's employees.
- 252.247-7010 Liability and insurance.
- 252.247-7100 Evaluation of bids.
- 252.247-7101 Award.
- 252.247-7102 Estimated quantities.
- 252.247-7103 Schedule formats.
- 252.247-7104 Scope of Contract.
- 252.247-7105 Period of contract.
- 252.247-7106 Ordering limitation.
- 252.247-7107 Contract areas of performance.
- 252.247-7108 Requirements.
- 252.247-7109 Facilities.
- 252.247-7110 Performance.
- 252.247-7111 Time requirements.
- 252.247-7112 Demurrage.
- 252.247-7113 Vans.
- 252.247-7114 Drayage.
- 252.247-7115 Liability.
- 252.247-7116 Erroneous shipments.
- 252.247-7117 Additional marking instructions.
- 252.247-7118 Weight certificates.
- 252.247-7119 Report of lost/damaged material.
- 252.247-7120 Subcontracting.
- 252.247-7121 Additional services.
- 252.247-7200 Ocean transportation of Government-owned supplies.
- 252.249-7000 Special termination costs.
- 252.251-7000 Ordering from Government supply sources.
- 252.251-7001 Use of interagency motor pool vehicles and related services.
- 252.252-7000 Simplified supply contract required clauses.
- 252.252-7001 Simplified services contract required clauses.
- 252.252-7002 Simplified supply and services provisions (negotiated).
- 252.252-7003 Simplified supply and services provisions (advertised).
- 252.270-7000 Automatic data processing clauses-general.
- 252.270-7001 Warranty exclusion and limitation of damages.
- 252.270-7002 Contractor representation.
- 252.270-7003 Fixed price options.
- 252.270-7004 Option to extend the term of the contract.
- 252.270-7005 Option for increased quantities.
- 252.270-7006 Discontinuance repricing.
- 252.270-7007 Discontinuance of rental and repricing.
- 252.270-7008 Rights in privacy safeguards.
- 252.270-7009 Access to contractor facilities and records-privacy safeguards inspection.
- 252.270-7100 Federal information processing standards publications (FIPS PUB) clause.
- 252.270-7101 American Standard Code for Information Interchange (ASCII) system requirements.
- 252.270-7102 Punched paper tape readers and punches.
- 252.270-7103 Recorded magnetic tape for information interchange (800 CPI, NRZI).
- 252.270-7104 Rectangular holes in 12-row punched cards.
- 252.270-7105 Hollerith punched card code.
- 252.270-7106 Subsets of the standard code for information interchange.
- 252.270-7107 Flowcharts, symbols, and their usage in information processing.
- 252.270-7108 Recorded magnetic tape for information interchange (1600 CPI, Phase Code 0).
- 252.270-7109 One-inch perforated paper tape for information interchange.
- 252.270-7110 Take-up reels for the one-inch perforated tape for information interchange.
- 252.270-7111 Software summary for describing computer programs and/or automated data systems.
- 252.270-7112 Optical character recognition equipment.
- 252.270-7113 Character set for handprinting.
- 252.270-7114 Code extension technique in 7 or 8 bits.
- 252.270-7115 Graphic representation of the control characters of ASCII (FIPS PUB 1-1).
- 252.270-7116 Data encryption standards (DES).
- 252.270-7117 Recorded magnetic tape for information interchange, 6250 characters per inch (CPI)(246 CPMM), group coded recording.
- 252.270-7118 Magnetic tape cassettes for information interchange (3.810mm (0.150 inch) tape at 32 BPMM (800 BPI), PE).
- 252.270-7119 Recorded magnetic tape cartridge for information interchange, 4-track, 6.30MM (0.25 inch), 63 BPMM (1600 BPI) phase encoded.
- 252.270-7120 Description of computer magnetic tape file properties.
- 252.270-7121 Computer output microform (COM) formats and reduction ratios, 16MM and 105MM.
- 252.270-7122 Input/output (I/O) channel interface.
- 252.270-7123 Channel level power control interface.
- 252.270-7124 Operational specification for magnetic tape subsystems.
- 252.270-7125 Interface: ADP Systems/Variable Block, Rotating Mass Storage Subsystems.
- 252.270-7126 Magnetic tape labels and file structure information interchange.
- 252.270-7127 Data Encryption Standard (DES) modes of operation.
- 252.270-7128 Microform readers.
- 252.270-7129 Optical Character Recognition (OCR) inks.
- 252.270-7130 Optical Character Recognition (OCR) printers, readers and printed forms.
- 252.270-7131 Digital magnetic tape cassette equipment and associated programs.
- 252.270-7132 Acquisition and validation of COBOL compilers.
- 252.270-7133 Acquisition of COBOL programs and/or programming services.
- 252.270-7134 Delayed validation of compilers.
- 252.270-7135 Interchange of machine processable data between and among agencies.
- 252.270-7136 Additional American Standard Code for Information Interchange (ASCII) controls for character-imaging ADP equipment or services.
- 252.270-7137 Interface: ADP Systems/Fixed Block, Rotating Mass Storage Subsystems.
- 252.270-7200 Joint Federal Information Processing/Federal Telecommunications Standards (FIPS-FED/STD) Clauses.
- 252.270-7201 Synchronous high speed data signaling rates between data terminal equipment and data communication equipment.
- 252.270-7202 Bit sequencing of the code of information interchange in serial-by-bit data transmission.
- 252.270-7203 Character structure and character parity sense for serial-by-bit data communication in the code for information interchange.
- 252.270-7204 Character structure and character parity sense for parallel-by-bit data communication.
- 252.270-7205 Synchronous signaling rates between data terminal and data communication equipment.
- 252.270-7206 Data link control-synchronous bit-oriented data.
- 252.270-7207 Interface Between Data Terminal Equipment (DTE) and Data Circuit Terminating Equipment (DCE) for Operation with Packet-Switched Data Communications Network.
- 252.270-7300 Federal Telecommunications Standards (FED/STD) Clauses.
- 252.270-7301 Time and frequency reference information in telecommunications systems.
- 252.270-7302 Coding and modulation requirements for nondiversity 2400 bit/second modems.
- 252.270-7303 Coding and modulation requirements for 4800 bit/second modems.
- 252.270-7304 Coding and modulation requirements for duplex 9600 bit/second modems.
- 252.270-7305 Coding and modulation requirements for Duplex 600 and/or 1200 bit/second modems.
- 252.270-7306 Electrical characteristics of balanced voltage digital interface circuits.
- 252.270-7307 Electrical characteristics of unbalanced voltage digital interface circuits.
- 252.270-7308 Group 2 facsimile apparatus for document transmission.
- 252.270-7309 Cryptographic components, equipment, systems, and services.
- 252.270-7310 Acquisition, design, or development of Group 3 facsimile apparatus.
- 252.270-7311 Acquisition, design or development of Groups 1, 2, and 3 facsimile apparatus.
- 252.270-7400 Other automatic data processing standards clauses.
- 252.270-7401 BASIC language compilers.
- 252.270-7402 FORTRAN language compilers.
- 252.270-7403 Protection against compromising emanations.

## PART 253-FORMS

### Subpart 253.1-General

- 253.170 Forms for use in DoD acquisition.

**Subpart 253.2-Prescription of Forms**

253.270 Use of forms.

**PART 270-ACQUISITION OF COMPUTER RESOURCES**

270.000 Scope.

**Subpart 270.1-General**

270.101 Procurement authorities.

**Subpart 270.2-Definitions**

270.200 Scope of subpart.

**Subpart 270.3-Acquisitions Under General Services Administration (GSA) Authority**

270.300 Scope of subpart.

270.301 Policy.

270.302 Procurement authority.

270.302-1 Application.

270.302-2 Exceptions.

270.303 Contracting procedures.

270.303-1 Submission(s) of agency procurement requests (APR).

270.303-2 GSA action on APR.

270.303-3 GSA contracting for DoD.

270.304 Small purchases.

270.305 Restrictions on the use of simulation in the ADPE contracting process.

270.306 Publicizing contract actions.

270.307 Evaluation factors.

270.308 Commercially available software contracts.

270.309 Determination of selection factors.

270.310 Contract clauses.

270.311 Use of GSA regional support services contracts.

270.312 Contracting for ADP supplies.

270.313 Use of GSA schedule contracts for certain ADP related equipment.

270.314 GSA nonmandatory schedule contracts.

270.315 Synopsis of GSA schedule actions.

270.316 Use of GSA ADP requirements contracts.

270.317 Compatibility-limited requirements.

270.318 Software conversion studies.

270.319 Use of benchmarks in low-dollar ADPE systems acquisitions.

270.320 Use of remote terminal emulation in ADPE systems acquisitions.

270.321 ADP fund.

270.322 Exchange/"sale" of ADPE.

270.323 Conflicts between this subpart and the DPA.

270.324 Acquisition assistance.

**Subpart 270.4-Acquisitions Under 10 USC 2315 Authority**

270.400 Scope of subpart.

270.401 Determination of applicability.

270.402 Procedures.

**Subpart 270.5-Acquisitions Under Other Authorities-[Reserved]****Subpart 270.6-Acquisition of ADPE by DOD Contractors**

270.600 Scope of subpart.

270.601 DoD component approvals.

270.602 Providing reused computer equipment to DoD contractors.

270.603 Review and approval of contractor-acquired computer equipment used for commercial and government contracts.

270.604 Contractor documentation.

270.605 Contractor use of computers for non-government purposes.

270.606 Purchase option credits for contractor-acquired computers.

270.607 Reuse of computers, software, and associated spare parts.

270.608 Technical assistance.

**Subpart 270.7-Telecommunications Resources**

270.701 General.

270.702 Policy.

**Subpart 270.8-Use of the GSA Teleprocessing Services Program (TSP)**

270.800 Scope.

270.801 Applicability.

270.802 Methods of acquiring GSA TSP services.

270.802-1 Multiple Award Schedule (MAS).

270.802-2 Basic Agreement (BA).

270.802-3 GSA TSP guidance.

270.803 Procedures for acquiring GSA TSP services.

270.804 GSA review of selections under the GSA TSP.

**Subpart 270.9-Privacy for Computer Systems**

270.901 Applicability.

270.902 Requirements.

270.903 DoD Component responsibilities.

270.904 Contract clauses.

**Subpart 270.10-Security for Computer Systems**

270.1000 Scope of subpart.

270.1001 Policy.

270.1002 Security program for automatic data processing facilities.

270.1003 Security against compromising emanations.

**Subpart 270.11-Standards**

270.1100 Scope of subpart.

270.1101 Policy.

270.1102 Waivers.

270.1103 Solicitation provisions and contract clauses.

**Subpart 270.12-The Federal Computer Performance Evaluation and Simulation Center**

270.1201 The Federal Computer Performance Evaluation and Simulation Center.

**Subpart 270.13-Sharing of Computer Resources**

270.1300 Scope of subpart.

270.1301 Policy.

270.1302 Government-wide sharing procedures.

270.1303 Federal data processing centers (FDPC).

270.1304 Federal Software Exchange Program.

270.1304-1 Procedures.

270.1304-2 Federal Software Exchange Center.

270.1304-3 DoD component requirements.

270.1304-5 Federal Software Exchange Catalog availability.

**Subpart 270.14-Reuse of Computer Equipment**

270.1400 Scope of subpart.

270.1401 Reassignment of computer equipment within DoD.

270.1402 Excess or exchange/"sale" computer equipment.

270.1403 Reutilization of excess and exchange/"sale" computer equipment.

270.1404 Considerations for use of excess Government-owned or -leased computer equipment.

270.1405 Use of the ADP fund.

**SUBCHAPTER A-GENERAL****PART 201-FEDERAL ACQUISITION REGULATIONS SYSTEM**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 201.1-Purpose, Authority, Issuance****201.101 Purpose.**

The Department of Defense FAR Supplement is issued by the Assistant Secretary of Defense for Acquisition and Logistics by direction of the Secretary of Defense and in coordination with the Secretaries of the Army, Navy and Air Force, and the Director of the Defense Logistics Agency. It establishes for the Department of Defense uniform policies and procedures, implementing and supplementing the Federal Acquisition Regulation.

**201.103 Applicability.**

(a) This supplement applies to all purchases and contracts made within and outside the United States (but see 201.405) for the procurement of supplies or services which obligate appropriated funds (including available contract authorizations). This supplement and the FAR also apply to purchases and contracts made in support of foreign military sales without regard to the nature or sources of funds obligated, unless otherwise specified in this regulation.

(b) Neither the FAR nor this supplement applies to transportation services purchased by transportation requests, transportation warrants, bills of lading, and similar transportation forms. Purchase of these excepted transportation services shall be in accordance with specific regulations and instructions issued by the Military Traffic Management Command, Military Sealift Command, Military Airlift Command, and the Departments.

**201.104 Issuance.****201.104-1 Publication and code arrangement.**

This regulation is issued as Chapter 2 of Title 48, CFR. Other chapters are reserved for Departmental acquisition regulations that implement or

supplement this regulation. It is also available in a loose-leaf edition.

#### 201.104-2 Arrangement of regulations.

(a) This regulation is numbered according to whether the information implements or supplements the FAR. The differentiation is made by using the numbers 70-89 as new parts, subparts, sections, or subsections when supplementation is required. Implementing coverage uses the same numbers as the FAR material implemented. Numbers 1-69 have been reserved to the FAR. A series of numbers beginning with 7000 is used for provisions and clauses.

(1) A new Part 270 is used in the DoD FAR Supplement for new material which is not covered by the FAR and is a distinct part only applicable to the Department of Defense.

(2) A new Subpart 225.72 could be used as the third subpart supplementing FAR Part 25, with Subparts 225.70 and 225.71 having preceded it.

(3) A new section 225.173 could be used as the fourth section supplementing FAR sections that begin with 225.101. In this case, the FAR can only be numbered through 225.169.

(4) A new subsection 225.101-79 could be used as the 10th subsection supplementing FAR subsections that begin with FAR 225.101-1.

(5) A new subsection 225.225-7001 could be used as the second clause supplementing the FAR clauses prescribed by Part 25 beginning with 225.225-1. The number 7000 is used because of the potential existence of more than 20 clauses supplementing a given part over the lifetime of the FAR.

(6) Departmental supplementation of the FAR or this regulation will use the same rules, except that numbers 90 and above are reserved for supplementary material, and 9000 and above are reserved for supplementary clauses.

#### (c) References and citations.

(2) This regulation may be referred to as the Department of Defense Federal Acquisition Regulation Supplement, the DoD FAR Supplement, or the DFARS. Cross reference to the FAR in this regulation will cite "FAR" followed by the appropriate part, subpart, etc. References to this regulation will be without a name or acronym prefix. References to FAR citations in this supplement should be read to include the corresponding paragraphs of this supplement and any additional authorizations, restrictions, policies or procedures they may contain. For example, the words "... when authorized under FAR Part 25 ..." include authorities granted under both

FAR Part 25 and Part 225 of this supplement.

#### 201.104-3 Copies.

Copies of the DoD FAR Supplement in loose-leaf and CFR form may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

### Subpart 201.2—Administration

#### 201.201 Maintenance of the FAR.

##### 201.201-1 The two councils.

(a) The Defense Acquisition Regulatory (DAR) Council shall maintain the FAR and the DoD FAR Supplement.

(c) The composition and operation of the DAR Council shall be as prescribed by DoD Directive 5000.35.

### Subpart 201.3—Agency Acquisition Regulations

#### 201.301 Policy.

##### (S-70) Defense Acquisition Circulars.

(1) In accordance with the authority in FAR 1.301, a Defense Acquisition Circular, supplementary to this regulation, shall be published as often as may be necessary or advisable for distribution to all recipients of this regulation. Material to be published in each Defense Acquisition Circular shall first be approved by the Defense Acquisition Regulatory Council.

(2) The purposes of the Defense Acquisition Circular are:

(i) To promulgate as rapidly as possible selected material revising this regulation.

(ii) To disseminate material applicable to procurement which is not suitable for insertion in this regulation, but which may have the effect of a directive to, or be of importance and interest to its recipients; and

(iii) To supplement this regulation as may be necessary to reduce the size and frequency of issue of subsidiary Departmental procurement instructions.

(3) Unless otherwise indicated in the introductory language preceding an item, each item in Defense Acquisition Circulars will remain in effect until specifically canceled.

(4) Statements in Defense Acquisition Circulars to the effect that the material published therein is "effective upon receipt" or upon a specified date, or that changes set forth in the circular are "to be used upon receipt," mean that any new or revised clauses or forms included in the circular shall be included in invitations for bids and requests for proposal issued thereafter, unless a different meaning is expressed in the

circular. However, unless otherwise provided in the circular, the new or revised clauses or forms need not be included in solicitations already in process of preparation where their inclusion would cause an undue delay in the solicitation.

(5) As a convenience to the Departments and to insure early and wide dissemination, selected DoD policy promulgations of general interest to contracting activities are republished as DAC items. Unless otherwise indicated, subsequent cancellation of such DAC items is not to be construed as cancellation of the underlying policy. Cancellation of such policy will normally be accomplished by separate and specific OSD action.

#### 201.304 Agency control and compliance procedures.

(b) (1) The Departments and their subordinate organizations shall not issue instructions (including directives, regulations, policies, or procedures), contract forms or contract clauses implementing or supplementing the FAR or this regulation, unless permitted by one of the following and if consistent with (b)(2) below:

(i) Internal procurement management instructions, such as designations and delegations of authority, assignments of responsibilities; work flow procedures, and internal reporting requirements;

(ii) Any special contract clause of a nonrepetitive nature designed specifically to accomplish the peculiar requirements of an individual procurement, provided a clause relating to the subject matter is not set forth in the FAR or this regulation.

(iii) A variation of any contract clause which is set forth in the FAR or this regulation but not for use verbatim, provided that such variation is not inconsistent with the intent, principle and substance of the FAR or DoD FAR Supplement clause or related coverage of the subject matter;

(iv) Interim instructions, including service test of new techniques or methods of procurement, having an effective duration not exceeding six months (unless approved for a longer period by the DAR Council) which are essential;

(A) To meet current operational needs, provided the instructions are submitted prior to issuance or immediately thereafter for consideration by the DAR Council; or

(B) To effect greater efficiency in procurement management, provided the instructions authorized are submitted for approval of the DAR Council prior to issuance;

(v) Procurement procedures specifically identified as being essential for carrying out the peculiar needs of specialized commodity areas when authorized by: for the Army, Deputy Assistant Secretary (Acquisition Office of the Assistant Secretary of the Army (Research, Development and Acquisition); for the Navy, Office of the Assistant Secretary of the Navy (Shipbuilding & Logistics), Director, Contracts & Business Management; for the Air Force, Director of Contracting and Manufacturing, Office of the Deputy Chief of Staff (Research, Development and Acquisition); for the Defense Logistics Agency, Executive Director, Contracting, or the Executive Director for Contract Management; for the National Security Agency, the Director; for the Defense Communications Agency, the Director; for the Defense Nuclear Agency, the Deputy Director, Operations and Administration; for the Defense Mapping Agency, the Staff Director of Logistics; and notification is given to the DAR Council immediately upon such authorization for the purpose of determining whether such procedures should be included in this regulation, or the FAR;

(vi) Procurement instructions specifically identified as being essential for carrying out the peculiar needs of overseas commands when authorized by the cognizant unified commander and notification is given to the DAR Council immediately upon such authorization for the purpose of determining whether such instructions should be included in this regulation or the FAR;

(vii) Material expressly determined by the DAR Council to be inappropriate for FAR or DoD FAR Supplement coverage, but appropriate for inclusion in Departmental publications.

(2) Instructions issued in accordance with FAR 1.304(a) shall not contain material which unnecessarily duplicates, is inconsistent with, or increases or restricts the use of, any authority contained in this regulation or the FAR.

(c) Each Department shall establish procedures to screen all instructions (including directives, regulations, policies or procedures), contract forms, and contract clauses issued pursuant to FAR 1.304(a) and (b) above to assure strict compliance with this paragraph, and to determine if the subject matter is appropriate for inclusion in this regulation or the FAR.

#### 201.371 USEUCOM Supplement.

A supplement, entitled USEUCOM Supplement, is applicable to all purchasing offices of the Department of Defense in the North Atlantic-

Mediterranean area, including all of Europe. The USEUCOM Supplement and changes thereto are developed by USEUCOM and concurred in by the Joint Acquisition Coordinating Board-Europe representing the purchasing offices in that area and, after adoption and approval by the Defense Acquisition Regulatory Council, are published and distributed by the Headquarters, United States European Command, as an integral part of this Regulation. In addition, Headquarters USEUCOM publishes Tabs to the USEUCOM Supplement which contain source and informational material (such as government-to-government agreements and tax information) and which do not require approval by the DAR Council.

#### Subpart 201.4—Deviations From the FAR

##### 201.402 Policy.

(a) The FAR and the DoD FAR Supplement are not intended to stifle the development of new techniques or methods of procurement. Innovation to attain desirable objectives will occasionally necessitate deviations from this regulation and the FAR, and it is the responsibility of contracting officers to request such deviations whenever they are required in the best interest of the Government. For the purpose of this paragraph, a deviation shall be considered to be any of the following:

(1) When a contract clause is set forth in the FAR or DoD FAR Supplement for use verbatim, use of a contract clause covering the same subject matter which varies from the FAR or DoD FAR Supplement coverage, or use of a collateral provision which modifies either the clause or its prescribed application constitutes a deviation; however, in the case of a purchase or contract of an offshore contracting activity with a foreign contractor made outside the United States, its possessions, or Puerto Rico, such contract clauses may (subject to the direction of authority above the level of the contracting officer) be modified if no change in intent, principle, or substance is made (offshore contracting activities shall keep the cognizant unified commander advised of significant deviations effected under this subparagraph (1));

(2) When a contract clause is set forth in the FAR or this regulation but not for use verbatim, use of a contract clause covering the same subject matter which is inconsistent with the intent, principle and substance of the FAR or DoD FAR Supplement clause or related coverage of the subject matter;

(3) Omission of any mandatory contract clause;

(4) When a Standard, DD, or other form is prescribed by the FAR or a Department of Defense Directive, use of any other form for the same purpose;

(5) Alteration of a Standard, DD, or other form (other than Departmental forms), except as authorized by the FAR, this regulation, or a Department of Defense Directive;

(6) When limitations are imposed in FAR, this regulation, or a Department of Defense Directive, upon the use of a contract clause, form, procedure, type of contract, or any other procurement action, including but not limited to the making or amendment of a contract, or actions taken in connection with the solicitation of bids or proposals, award, administration or settlement of contracts, the imposition of lesser or greater limitations;

(7) When a policy, procedure, method or practice of conducting procurement actions of any kind at any stage of the procurement process is covered by the FAR or this regulation, any policy, procedure, method or practice which is inconsistent with that set forth;

(8) Issuance of any instructions described in 201.304 (including an instruction for any additional contract clause, form, or type, or additional procurement policy, procedure, method of practice, not covered in the FAR, this regulation or in Department of Defense Directives) unless permitted under 201.304;

(9) A contract saving clause whereby the parties are committed to a contract modification in the event of changes in controlling statutes or regulations during the term of the contract. Any such saving clause shall require approval pursuant to 201.404.

(b) Requests for approval of any deviation from the FAR or this regulation shall be forwarded to the approving authority through procurement channels. Each submission shall contain as a minimum:

(1) Identification of the FAR or DoD FAR Supplement requirement from which deviation is sought;

(2) A full description of the deviation and the circumstances in which it will be used;

(3) A description of the intended effect of the deviation;

(4) A copy of any pertinent document, including forms or clauses and the proposed contractor's request, if any;

(5) A statement of the period of time for which the deviation is needed; and

(6) Detailed reasons supporting the request.

**201.403 Individual deviations.**

(a) Except where elsewhere prohibited, deviations from the FAR or this supplement or a Department of Defense Directive which affect only one contract or procurement may be made or authorized in accordance with Departmental procedures, provided such circumstances justify a deviation, and written notice of such deviation, describing its nature and the basis for its justification, is furnished to each of the following:

The Deputy Assistant Secretary of Defense (Procurement), OASD(A&L) Attention: DAR Council, Washington, DC 20301-3062  
The Assistant Secretary of the Army (RDA), Attn: DAR Council Policy Member—The Pentagon, Washington, DC 20310  
The Assistant Secretary of the Navy (S&L), Attn: DARS Staff, Crystal Plaza, Bldg. 5, Washington, DC 20360  
The Director of Contracting and Manufacturing Policy, Attn: AF/RDC (DAR)—The Pentagon, Washington, DC 20330  
Executive Directorate, Contract Management, Defense Logistics Agency, Attn: DLA-AA—Cameron Station, Alexandria, VA 22314

Such written notice shall be given in advance of the effective date of such deviations unless exigency of the situation requires immediate action.

(b) Examples of deviations from certain provisions of the FAR or this regulation not permitted under (a) above, although affecting only one contract or procurement, are:

- (1) Provisions required by statute or executive order;
- (2) Subpart 227.4;
- (3) Subpart 231.1;
- (4) Subpart 231.2;
- (5) Part 232 (except 232.7, 232.8, and the Payment clauses in 232.1).

**201.404 Class deviations.**

Except as authorized in 201.403, deviations from this supplement or a Department of Defense Directive will not be effected unless approved in advance by the Assistant Secretary of Defense (Acquisition and Logistics) (ASD(A&L)); provided, however that unanimous approval by the members of the DAR Council will constitute approval of the ASD(A&L) of all matters except those involving major policy. Written requests for such approval will be submitted to the ASD(A&L) through the DAR Council as far in advance as exigencies of the situation will permit.

**201.405 Deviations pertaining to treaties and executive agreements.**

(b) and (c) Notwithstanding 201.403 and 201.404, deviations from the FAR or this supplement that are required in order to comply with a treaty or

executive agreement to which the United States is a party are authorized in accordance with FAR 1.405(b) and (c).

(d) A copy of the text of any deviation authorized under FAR 1.405(b) or (c) shall be submitted to the DAR Council.

(e) If a deviation required to comply with a treaty or an executive agreement is not authorized by FAR 1.405 (b) or (c), the request for deviation shall be submitted to the DAR Council for consideration.

**Subpart 201.6—Contracting Authority and Responsibilities****201.601 Responsibility of each contracting activity.**

Except as otherwise prescribed by procedures of each respective Department, the Head of a Contracting Activity is responsible for acquisitions under or assigned to that activity.

**201.602 Authority of contracting officers.****201.602-1 Authority.**

(a) Contracting officers at contracting offices are authorized to enter into contracts for supplies or services on behalf of the Government, and in the name of The United States of America, by sealed bidding, by negotiation, or by coordinated or interdepartmental acquisition; and, when authorized under FAR Part 42, to administer such contracts. This authority is subject to the requirements, consistent with this supplement and the FAR, imposed by the appointing authority. Contracting officers at contract administration offices are, except as provided in FAR Part 42, authorized to perform the applicable contract administration functions and to perform additional acquisition functions when delegated by the contracting office.

(b) Business clearances or approvals shall be obtained as prescribed by applicable departmental procedures.

**201.603-3 Appointment.**

Certificates of Appointment which were issued under the purview of the Armed Services Procurement Regulation and its successor, the Defense Acquisition Regulation, will have the same effect as if they had been issued under the Federal Acquisition Regulation.

**201.670 Ratification of unauthorized commitments.****201.670-1 Authority.**

Only contracting officers acting within the scope of their authority (see FAR 1.602) may enter into contracts on behalf of the Government. Subject to the limitations in 201.670-4 below, the Head

of the Contracting Activity may ratify an unauthorized commitment, *provided*:

(a) The Government has obtained a benefit resulting from the unauthorized commitment;

(b) The Head of the Contracting Activity could have granted authority to enter into the commitment at the time it was made and still has the power to do so; and

(c) The resulting contract would otherwise have been proper if made by an authorized contracting officer.

**201.670-2 Definitions.**

"Ratification," as used in this section, means the act of approving an unauthorized commitment, by an official who has the authority to do so, for the purpose of paying for supplies or services provided to the Government as a result of the unauthorized commitment.

"Unauthorized commitment," as used in this section, means an agreement that is not binding solely because the Government representative who made it lacked the authority to enter into a contract on behalf of the Government.

**201.670-3 Procedures.**

(a) The authority of 201.670-1 above may be delegated in accordance with Departmental procedures, *provided*, that in no case shall this authority be delegated below the Chief of the Contracting Office.

(b) DoD components shall process unauthorized commitments using the ratification authority set forth herein in lieu of referral of such actions to the General Accounting Office for resolution as "quantum meruit/quantum valebat" claims.

**201.670-4 Limitations on exercise of authority.**

The authority in 201.670-1 above may be exercised only where—

(a) Supplies or services have been provided to and accepted by the Government;

(b) The contracting officer determines the price to be fair and reasonable;

(c) The contracting officer recommends payment and legal counsel concurs in the recommendation;

(d) Funds are available and were available at the time the unauthorized commitment was made;

(e) Administrative settlement of the unauthorized commitment would not involve a claim subject to resolution under the Contract Disputes Act of 1978.

**201.670-5 Nonratifiable commitments.**

Cases that are not ratifiable under this section may be subject to resolution as recommended by the General

Accounting Office under its claim procedure (4 GAO 5.1), or as authorized by FAR Part 50. Legal advice should be obtained in these cases.

#### Subpart 201.7—Determinations and Findings

##### 201.702 General.

(a) As an example of reasonable variations in estimated quantities, if at the time a D&F is submitted for approval, historical evidence indicates the possibility of increased quantities, e.g., requirements of other Departments, and Military Assistance Program requirements, the supporting data and the D&F may provide for limited additional quantities. Similarly, a provision may be included authorizing increased quantities if the acquisition process reveals that additional quantities can be acquired under the approved program and within available funds.

##### 201.704 Content.

Additional guidance to that contained in FAR 1.704 for the preparation of a D&F is set forth with the appropriate subject matter. Where a format for a D&F is set forth with the appropriate subject matter, the D&F should conform generally to that format.

##### 201.707 Signatory authority.

The Agency Head may make any of the determinations, and written findings in support thereof, that may be made by the head of any contracting activity signing as a chief officer responsible for contracting or by a contracting officer. Determinations, and findings in support thereof, not required to be made by higher authority may be made by the head of a contracting activity signing as chief officer responsible for contracting.

#### PART 202—DEFINITIONS OF WORDS AND TERMS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 202.1—Definitions

##### 202.101 Definitions.

"Department of Defense" means the Office of the Secretary of Defense and the Military Departments.

"Department" or "Military Department" includes the Department of the Army, the Department of the Navy, the Department of the Air Force, the Defense Logistics Agency, the Defense Communications Agency, the Defense Mapping Agency, the Defense Nuclear Agency, and the National Security Agency.

"Head of the Agency" means the Secretary of Defense, the Assistant Secretary of Defense (Acquisition and Logistics), the Secretary, Under Secretary or any Assistant Secretary of the Army, Navy and Air Force, and the Director and Deputy Director of Defense agencies, except to the extent that any law or executive order limits the exercise of authority to specific individuals at the Secretarial level. In the latter situation, the Assistant Secretary of Defense (Acquisition and Logistics), unless specifically restricted to the Secretary of Defense, shall exercise the authority for Defense agencies.

"Senior Procurement Executive" means for the:

Department of Defense, Deputy Secretary of Defense;  
Army, The Assistant Secretary of the Army (Research, Development and Acquisition);

Navy, The Assistant Secretary of the Navy (Shipbuilding and Logistics);

Air Force, The Assistant Secretary of the Air Force (Research, Development and Logistics);

Defense Logistics Agency, the Deputy Director (Acquisition Management);

Defense Communications Agency, The Director, Defense Communications Agency;

Defense Mapping Agency, The Director of Acquisition;

Defense Nuclear Agency, The Director, Acquisition Management; and National Security Agency, The Deputy Director, National Security Agency.

(a) Contracting Activities include:

For the Army:  
Office of the Assistant Chief of Staff for Information Management;  
Office of the Director, Contracting and Production, ODCSLOG;  
Office of the Deputy Chief of Staff for Procurement and Production, Headquarters, U.S. Army Materiel Command;

U.S. Army Armament Munitions and Chemical Command;

U.S. Army Missile Command;

U.S. Army Electronics Research and Development Command;

U.S. Army Communications-Electronics Command;

U.S. Army Troop Support Agency;

U.S. Army Troop Support Command;  
U.S. Army Tank-Automotive Command;

U.S. Army Aviation Systems Command;

U.S. Army Training and Doctrine Command;

U.S. Army Test and Evaluation Command;

U.S. Army Forces Command;

U.S. Army Health Services Command; Military District of Washington, U.S. Army;

U.S. Army, Europe;  
National Guard Bureau;  
Office of the Chief of Engineers;  
U.S. Army Information Systems Command;

U.S. Army Medical Research and Development Command;

U.S. Army Western Command;  
Military Traffic Management Command;

U.S. Army Strategic Defense Command;

Eighth U.S. Army;  
U.S. Army Depot Systems Command;

and  
U.S. Army Intelligence and Security Command.

For the Navy:  
Office of Acquisition and Contract Policy, Office of the Assistant Secretary of the Navy, Shipbuilding and Logistics; Director, Contracts and Business Management;

Naval Air Systems Command;  
Naval Data Automation Command;  
Naval Electronic Systems Command;  
Naval Facilities Engineering Command;

Naval Sea Systems Command;  
Naval Supply Systems Command;  
Office of Naval Research;  
Navy Aviation Supply Office;  
Military Sealift Command;  
Strategic Systems Project Office;  
Ships Parts Control Center;  
Headquarters, United States Marine Corps; and

Installations and Logistics Department, Headquarters, U.S. Marine Corps.

For the Air Force:  
HQ USAF, Director of Contracting and Manufacturing Policy;  
Air Force Logistics Command;  
Air Force Systems Command;  
Strategic Air Command;  
Tactical Air Command;  
Air Force Communications Command;  
Military Airlift Command;  
Air Training Command;  
Pacific Air Forces;  
United States Air Forces in Europe;  
Alaskan Air Command; and  
Space Command.

For the Defense Logistics Agency:  
Office of the Executive Director, Contract Management;  
Office of the Executive Director, Contracting;  
Defense Supply Centers; and  
Defense Personnel Support Center.

For the Defense Communications Agency:

Headquarters, Defense Communications Agency; and Defense Commercial Communications Office.

For Defense Mapping Agency: Headquarters, Defense Mapping Agency, Logistics Office.

For the Defense Nuclear Agency: Headquarters, Defense Nuclear Agency.

For the National Security Agency: Headquarters, National Security Agency.

For the Defense Supply Service—Washington: Director, Defense Supply Service—Washington.

(b) "Contracting activity" also includes any other contracting activity hereafter established. The number and designation of particular contracting activities of any Military Department may be changed by directive of the Secretary.

#### **PART 203—IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

##### **203.000 Scope of part.**

Reports of suspected criminal conduct, noncompetitive practices, kickbacks, and other procurement irregularities shall be made by each Department in accordance with procedures set forth in 209.472 and Departmental procedures. Such reports are specified by 203.103-2, 203.203, 203.301, 203.409, and 203.502 of this Part.

##### **Subpart 203.1—Safeguards**

###### **203.101 Standards of conduct.**

###### **203.101-3 Agency regulations.**

The applicable Department of Defense directive on Standards of Conduct is DODD 5500.7. See AR 600-50 for the Army; SECNAV Instr. 5370.2G of 4 August 1977, for the Navy; AFR 30-30, for the Air Force; DLAR 5500.1, for the Defense Logistics Agency; DCA Inst. 220-50-1, for the Defense Communications Agency; DNA Inst. 5500.7A, for the Defense Nuclear Agency; and DMA Inst. 5500.1, for the Defense Mapping Agency.

###### **203.103 Independent pricing.**

###### **203.103-2 Evaluating the certification.**

(b) (3) Whenever an offer is rejected under FAR 3.103-2(b) (1) or (2), or the certificate is suspected of being false, the matter shall be reported in

accordance with 203.000 as well as being reported to the Attorney General in accordance with FAR 3.303.

##### **Subpart 203.2—Contractor Gratuities to Government Personnel**

###### **203.203 Reporting suspected violations of the Gratuities clause.**

Suspected violations of the Gratuities clause shall be reported in accordance with 203.000 and Departmental procedures.

###### **203.204 Treatment of violations.**

Procedural requirements for hearings under the Gratuities clause are set out in Appendix D.

##### **Subpart 203.3—Reports of Suspected Antitrust Violations**

###### **203.301 General.**

(b) Suspected antitrust violations shall be reported in accordance with 203.000 and Departmental procedures.

##### **Subpart 203.4—Contingent Fees**

###### **203.409 Misrepresentations or violations of the covenant against contingent fees.**

(b) When the chief of the contracting office has reviewed the facts and found evidence or basis for suspicion of fraud or other criminal conduct, the matter shall be reported in accordance with 203.000 and Departmental procedures.

###### **203.410 Records.**

Where the receipt of a new Standard Form 119 makes previously received information obsolete, the obsolete information may be destroyed if its retention is no longer needed for enforcement purposes.

##### **Subpart 203.5—Other Improper Business Practices**

###### **203.502 Subcontractor kickbacks.**

Suspected violations of the Anti-Kickback Act shall be reported in accordance with 203.000 and Departmental procedures.

###### **203.570 Implied endorsement by military resale activities.**

The contracting officer shall include the clause at 252.203-7000 in all solicitations and contracts for supplies purchased for resale to preclude any implied endorsement by military resale activities of commercially advertised products.

#### **PART 204—ADMINISTRATIVE MATTERS**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

##### **Subpart 204.1—Contract Execution**

###### **204.170 Contracting Officer or Point of Contact Telephone Number.**

The name and telephone number of the contracting officer or point of contact at the office awarding the contract shall be identified in the contract. The name and telephone number of the contracting officer or point of contact at the office which issues a modification shall be identified in the modification.

##### **Subpart 204.2—Contract Distribution**

###### **204.201 Procedures.**

(e) One copy of each of the following type contracts and of each modification thereto shall be distributed to the appropriate Defense Contract Audit Agency (DCAA) field audit office (listed in the DCAA Directory—Headquarters and Field Offices):

- (1) Cost reimbursement
- (2) Time-and-materials
- (3) Labor-hour

(4) Fixed price contracts with provisions for redetermination, incentives, economic price adjustment, or cost allowability

(5) Any other contract which requires audit service. (If there is a question as to the appropriate DCAA field audit office, contracting officers may request the assistance of the DCAA procurement liaison auditor or the nearest DCAA field audit office.)

(f) Two copies shall be distributed directly to the contract administration office cognizant of each manufacturing location where contract administration services will be required (see DoD Directory of Contract Administration Services Components 4105.59H), when administration of the contract is performed at other than the place of manufacture.

###### **204.202 DoD distribution requirements.**

(a) The contracting officer executing a contract or modification is responsible for complete distribution of the document.

(b) Except as provided in this paragraph and FAR 4.201(a), the procuring contracting officer shall maintain the original executed procurement document in the official contract file. The original of each modification executed by the ACO or TCO shall be provided to the PCO. Unless otherwise directed by the Department concerned, the original executed copies of orders under Basic Ordering Agreements and the original executed provisioning orders shall be maintained by the office issuing the orders.

(c) In addition to the distribution in FAR 4.201, copies of contracts (including agreements) shall be distributed as specified below:

(1) Four copies to the contract administration office (distribution shall be effected simultaneously with the copy furnished under FAR 4.201(b));

(2) One copy to each consignee indicated in the contract (a transshipping terminal is not a consignee);

(3) One copy to the appropriate transportation office when required by FAR 42.1402, and additional copies as required by Departmental regulations;

(4) Ten copies to the MIPR initiating activity in the case of coordinated procurement;

(5) One copy to the CAO ADP point, except when the DoDAAD code (see DoD Directory 4105.59H) is the same as that of either the CAO or payment office.

(d) When a payment office is added to, or changed under, an existing contract by modification, a copy of the basic contract and all modifications thereto shall be furnished to the added/new payment office. A copy of the modification affecting such addition or change shall also be furnished to the original or losing payment office. When a contract administration office, an accounting office and finance office (funding office), a consignee or other activity is added by a modification, the contracting officer shall determine the extent to which each activity is concerned with the basic contract and modifications and make distribution accordingly.

(e) Distribution of modifications issued pursuant to 204.7004-3(a)(2)(B) and 204.7004-4(b)(2) may be limited to the following:

(1) Contractor;

(2) Receiving Activity;

(3) Contract Administration Office;

(4) Payment Office;

(5) CAO ADP point in accordance with (c)(5) above.

(f) Distribution of overhead rate agreements may be limited to the contractor and the executing contracting officer.

(g) Distribution of contract modifications generated by mechanical means (computer program) may be limited to the following:

(1) Contractor, one copy;

(2) CAO, one copy;

(3) New Payment Office, one copy;

(4) PCO, one copy;

(5) Funding Activities, one copy to each.

## Subpart 204.6—Contract Reporting

### 204.670-1 Scope.

This section prescribes uniform reports which are required to be prepared by purchasing and contract administration offices in order to meet the requirements of the Federal Procurement Data System and provide management with necessary information to help formulate, change or measure the effectiveness of acquisition policy.

### 204.670-2 Definitions.

As used in 204.671 and 204.672, the following terms have the meanings stated below.

"Contract Administration Office" means the office which awards or executes a contracting action as defined below when such action is accomplished by an ACO on behalf of the Contracting Officer who assigned contract administration responsibility to that office, including actions taken by a TCO relating to the settlement of terminated contracts.

"Contracting Action" means any written action obligating or deobligating funds in connection with the purchasing, renting, leasing, or otherwise obtaining supplies, services, or construction. The term includes: preliminary contractual instruments; letter contracts; definitive contracts, including notices of award; purchase orders; BPA calls; imprest fund purchases; SF 44 purchases; job orders; task orders; delivery orders; contingency orders; administrative notices; communication services authorizations (CSA's); production lists; priced exhibits; other orders against existing contracts; and contract modifications such as change orders or agreements, supplemental agreements, funding changes, option exercises, and notices of termination or cancellation.

"Contracting Office" means any office which awards or executes a contracting action when that action is accomplished by the Contracting Officer. Included in the term are activities which place orders under DoD contracts, under another agency contract, or under GSA Federal Supply Schedule, when such action is not taken in conjunction with an assigned contract administration responsibility.

### 204.670-3 DUNS number.

Contracting Officers shall insert in solicitations exceeding the small purchase limit the provision at 252.204-7004 to request the offeror to supply his Data Universal Numbering System (DUNS) Number.

### 204.670-4 Distribution of defense subcontracts placed overseas.

To assist DoD monitoring of arms cooperation agreements with friendly governments, the clause at 252.204-7005 shall be inserted in any contract in excess of \$500,000, or when any modification increases the amount of a contract to more than \$500,000. In the latter case, the reporting requirement will not be retroactive to require the reporting of subcontracts awarded prior to the modification. This clause shall not be inserted in contracts for ores, natural gas, utilities, petroleum products and crudes, timber (logs) and subsistence.

### 204.671 Individual Contracting Action Report (DD Form 350).

#### 204.671-1 Scope.

This section prescribes the reporting on DD Form 350 of individual contracting actions in excess of \$25,000. This reporting requirement has been assigned Report Control Symbol: DD-DR&E(M) 1014.

#### 204.671-2 Purpose.

The DD Form 350 is used to collect data on contract placement statistics within DoD. The data gathered by means of the DD Form 350 are used for reporting the size and distribution of DoD contracting actions; types of contracts used; methods used in contracting; numbers and amount of contracts placed with categories of contractors such as small, small disadvantaged, and women-owned small business concerns; the extent of competition achieved; and other essential facts about contract actions over \$25,000 written by DoD. In many respects, the data summarized from the DD Form 350 are used to measure the efficiency and adequacy of the way in which the DoD acquisition program is executed. The data serve as the basis for internal DoD reports as well as reports to other departments of the executive branch, Congress, GAO, etc. They frequently provide a basis for new or revised acquisition policies. Therefore, it is most important that accurate and complete data be reported in a timely manner through the DD Form 350.

#### 204.671-3 Applicability and coverage.

(a) DD Form 350 consists of 6 parts. Part A identifies the report and the reporting activity. Part B identifies the transaction: contract number, contractor, dollars, product, etc. Part C gathers data concerning contracting procedures and methodology. Part D gathers data relating to the placement of the contract and to several statutory

requirements relating to DoD acquisitions. Part E is set aside for departmental or higher authority use. Part F identifies the cognizant reporting official.

(b) DD Form 350 shall be prepared (typewritten or machine produced equivalent) for each contracting action obligating or deobligating more than \$25,000 which is executed by a Component of the Department of Defense except as indicated in (d) below. At the option of the headquarters of the Departments, contracting offices may submit an automated record in lieu of a DD Form 350; *Provided*, that the contract file reflects such information on a separate worksheet or printout for each individual contracting action in excess of \$25,000.

(c) Multiple reports are required for a single action when both the Foreign Military Sales Program and other programs are involved (see 204.671-5(b)(12)). Multiple reports may be required if more than one type of contract is involved (see 204.671-5(c)(6)(ii)).

(d) DD Form 350 shall not be prepared for the following contracting actions:

(1) Transactions which cite nonappropriated funds, such as funds belonging to the Army and Air Force Exchange Service. Funds held in trust accounts for foreign governments shall be treated as appropriated funds.

(2) Transactions for leased communications placed by the Defense Communications Agency, Defense Commercial Communications Office (DECCO).

(3) Transactions for purchase of land, or rental or lease of real property.

(4) Orders from GSA Stock and the GSA Consolidated Purchase Program.

(5) Transactions which involve Government bills of lading or transportation requests.

(6) Grants for basic research with educational institutions and other nonprofit organizations.

(7) Orders placed against indefinite delivery type contracts entered into by the Defense Fuel Supply Center, the Defense General Supply Center (for petroleum and petroleum products), and the Military Sealift Command. The estimated value of the orders to be placed in each fiscal year against each Military Sealift Command contract shall be reported on a separate DD Form 350 in the appropriate fiscal year. The total estimated value of the orders to be placed against each Defense Fuel Supply Center contract, and each Defense General Supply Center contract for petroleum and petroleum products, shall be reported at the time of contract award.

(8) Awards to individuals in support of dependent schools, e.g., principals and teachers. These transactions shall be consolidated monthly and the cumulative dollar amount reported on a single DD Form 350.

(9) Military Airlift Command awards for international airlift services. These actions shall be reported at the end of each operating month by the issuance of one master DD Form 350 for each airlift contract.

(10) Orders placed by the Services for resale items in excess of \$25,000 against brand name contracts entered into by the Defense Logistics Agency and published in Supply Bulletin Series 10-500. Orders under each such contract shall be consolidated monthly by the Services and cumulative dollar amounts reported on a single DD Form 350 in accordance with departmental regulations. DLA activities shall submit individual rather than consolidated reports.

(11) Vouchers processed by the U.S. Army Contracting Agency, Europe (USACAE), for the purchase of utilities from municipalities, such as gas, electricity, water, sewage, steam, snow removal, and garbage collection. These transactions shall be consolidated monthly and the cumulative dollar amount reported on a separate DD Form 350 in accordance with departmental regulations.

#### 204.671-4 Due date and distribution.

(a) The signed original of each DD Form 350 shall be forwarded by the contracting office within 3 working days after the date on which the dollars were actually obligated or deobligated by the contracting office, with the following exceptions:

(1) For those Defense Fuel Supply Center major petroleum acquisitions which result in multiple awards, the signed original of the DD Form 350 shall be forwarded within 10 working days.

(2) For actions executed in the month of September only, prescribed due dates may be extended 10 calendar days for the forwarding of reports in order to assure complete coverage of all contracting actions occurring in the fiscal year at the option of the activity set forth in 204.671-4(d) below.

(b) Corrected reports shall be distributed in exactly the same manner as original reports.

(c) DD Forms 350 shall be submitted as unclassified documents. If necessary, the commodity description (Item B8B) may be omitted and the word "classified" inserted in lieu thereof. In addition, enter 9999 in Block B8A and zeros (000) in Blocks B8B and B8C. Should further modification of coding of

items on DD Form 350 be deemed necessary for security classification purposes, the appropriate departmental offices identified in (d) below shall be contacted for special instructions.

(d) Distribution of DD Form 350 shall be as follows:

(1) Army contracting offices (including Corps of Engineers Civil Works) to HQDA(JDHQ-SV-W-P), Washington, DC 20310-0600.

(2) [Reserved]

(3) Navy contracting offices as directed by COMNAVSUP(SUP-024).

(4) Air Force contracting offices as directed by HQ USAF.

(5) Defense Logistics Agency contracting offices as directed by HQ DLA.

(6) All other contracting offices of the Department of Defense shall forward the signed originals to HQDA(JDHQ-SV-W-P), Washington, DC 20310-0600.

(e) Contracting offices shall prepare DD Form 350 for contracting actions in excess of \$25,000 which are reportable in accordance with 204.671-3 and are accomplished by contract administration offices. To facilitate such reporting, the ACO or TCO, within one working day after the action date, shall transmit to the contracting office on whose behalf the action was taken a copy of the contractual instrument clearly annotated in the heading in large block letters as the "DD FORM 350 REPORTING COPY." The contracting office shall prepare and submit the DD Form 350 within 3 working days after the receipt of this "REPORTING COPY."

#### 204.671-5 Instructions for completion of DD Form 350.

(a) *Part A of DD Form 350—(1) Item A1, Type of report.* (i) If this is an original report, enter code zero in Item A1 and complete sections A through F as appropriate.

(ii) If it is necessary to cancel a previously submitted report in its entirety, i.e., the report should not have been submitted, then enter Code 1 in Item A1 and complete Items A2, A3, and B1 only.

(iii) To change any data elements on a previously submitted report, enter Code 2 in Item A1, enter in Items A2, A3, and B1 the same codes that were entered on the report being changed, and enter the corrected codes in each other item being corrected. Leave all other items blank. If it is necessary to change Item A2, A3, or B1 on a previously submitted report because a code was incorrect, that report must be canceled and a new "original" report submitted.

(2) *Item A2, Report number.* (i) Each contracting office shall assign to DD

Form 350 a unique 4-position number with alpha or numeric characters. If more than one activity within a contracting office utilizes the same reporting office code, the contracting office shall assign separate blocks of numbers to each such activity in order to prevent duplication of report numbers.

(ii) If Item A1 is coded 1 or 2 (a canceling or correcting action), then enter the report number assigned to the report being canceled or corrected.

(3) *Item A3, Contracting office code.* Enter in Item A3 the code assigned to the contracting office in accordance with DoD Procurement Coding Manual, Volume III.

(4) *Item A4, Name of contracting office.* Enter in the space provided sufficient detail to establish the identity of the contracting office submitting the report.

(b) *Part B, DD Form 350—(1) Item B1, Contract number.* Enter, left justified, either the Department of Defense contract number or, for orders under contracts awarded by other Federal agencies, the contract number of that Federal agency.

(i) For DoD contracts, enter the basic (13 alpha-numeric character) procurement instrument identification number (PIIN) that was assigned in accordance with 204.70. Contracts numbered under exceptions permitted by 204.7001 shall include the identification of the contracting office and the fiscal year in accordance with 204.7003-1 (a) and (b) and Appendix N, plus 5 characters. Do not enter other supplementary procurement instrument numbers as part of the contract number; such numbers shall be entered in Item B2. Also, do not enter dashes, slants, or similar punctuation marks, and do not show spaces between numbers or letters in the PIIN.

(ii) For other agency contracts, enter the contract number of the Federal agency as it appears in the contractual instrument, except that spaces between characters shall not be shown, and dashes, slants, and other punctuation marks shall not be entered (e.g., for GS-00S-27773, enter GS00S27773; for GP-16251 A, enter GP16251A, etc.).

(2) *Item B2, Modification, order or other supplementary procurement instrument identification number.* If applicable, enter the supplementary procurement instrument identification number (up to 13 characters) that was assigned in accordance with 204.7004 or other identification permitted by 204.7001.

(3) *Item B3, Action date.* Enter the year, month and day when a mutually binding agreement was reached. This

shall be the effective date for fiscal obligation purposes. As a general rule, this occurs when a notice of award or fully executed document is manually delivered or placed in the mail to the contractor. Enter each segment as a 2-digit number using 01 through 12 for January through December. For example, enter 2 January 1984 as 840102. For contracts awarded in one fiscal year and not effective until a subsequent fiscal year because they are contingent on the availability of funds or for other reasons, the date shall be the date of the fund availability or the date when the contract becomes effective (see 204.671-5(b)(13) (iii) and (viii)).

(4) *Item B4, Contractor identification information—(i) Item B4A, DUNS number.* Enter the 9-position number assigned by Dun and Bradstreet, Inc. (excluding dashes) that identifies the contractor establishment receiving the award. This DUNS Contractors Establishment Number should be for the division or plant identified. For contracts placed with the Small Business Administration pursuant to the Small Business Act—Pub. L. 85-536, section 8(a), or orders placed against a contract awarded by another agency, enter the DUNS code for the contractor establishment which will be performing under the contract. The DUNS Contractor Establishment Number is available from one of the following sources:

(A) The offeror's response to the solicitation;

(B) If not provided with the offer, the successful offeror shall be contacted and requested to supply his applicable 9-digit number;

(C) If not provided by the successful offeror, the Federal Procurement Data Center (FPDC) DUNS Contractor Identification File, Alphabetical Listing shall be consulted.

(D) If this listing has no entry or has multiple DUNS codes for the establishment, the applicable 9-digit number shall be obtained by contacting a Dun and Bradstreet, Inc., representative at the following commercial telephone numbers: 215-776-4388/4389/4390/4391. All requesters should provide the following information:

(1) Name of requesting contracting office;

(2) Contracting location (city/town; state/country) and commercial telephone number (including area code);

(3) Name of individual making the request;

(4) The total number of requests, if more than one; and

(5) Contractor establishment name, street address (and/or P.O. Box), city/

town, state/country, and ZIP code, if applicable, as displayed in Items B4B and B4C.

(ii) *Item B4B, Contractor name.* In the space provided, enter the name (including division name) of the contractor.

(iii) *Item B4C, Contractor address.* In the space provided, enter the address of the contractor. Include street address (and/or P.O. Box), city/town, state/country, and ZIP code, if applicable.

(5) *Item B5, Principal place of performance.*

(i) Principal place of performance, in general, refers to the prime contractor's final assembly point of a manufactured article, construction site, place of mining, or place where a service is performed for the Government, including military installations. If more than one location is involved, show the location involving the largest dollar amount of the acquisition. Do not show more than one location in Item B5. Do not leave the "name" portion of Item B5 blank.

(A) For purchase from regular dealers (FAR 22.601), the place of performance shall be the dealer's location if shipment is made from stock, or the subcontractor's location if shipment is made from a subcontractor's plant.

(B) For construction contracts, report the actual site of construction.

(C) For architect-engineering contracts, report the planned site of the construction.

(D) In cases where the places of performance will be varied or unknown, enter the home office location of the contractor.

(E) Where labor surplus area set-aside preference is given, the principal place of performance shall be the city and state of the area which determined the preference.

(ii) *Item B5A.* Enter the city or place code from Federal Information Processing Standard (FIPS) Publication 55, "Names of Populated Places and Related Entities of the States of The United States," of the principal place of performance. If the city or locality is not listed in FIPS Publication 55, find the nearest county in FIPS Publication 55, and enter the 3-digit numeric county code, preceded by 2 zeros. Leave this item blank for Washington, DC and foreign countries.

(iii) *Item B5B.* Enter the state or country code from the list published by the Director, Federal Procurement Data Center for the principal place of performance. For Washington, DC, enter "11" and leave Item B5A blank.

(iv) *Item B5C.* Enter the name of the principal place of performance. If the

location is the same as for Item B4C, enter the word "same".

(6) *Item B6, Type of obligation.* This item is used to identify the nature of the amount to be entered in Item B7. Enter Code 1 to show an obligation; Code 2 to show a deobligation; if reporting the award of an unfunded contract, e.g., unobligated requirements type contract, enter Code 3 and leave Item B7 blank. Do not enter Code 3 to establish a Basic Ordering Agreement (BOA). Only orders against BOAs are reportable, and then only under Codes 1 or 2.

(7) *Item B7, Total dollars (obligated/deobligated).* Enter the net amount of funds obligated or deobligated by the contractual instrument being reported. Enter whole dollars only. Leave blank if Item B6 is Code 3.

(8) *Item B8, Principal product or service.*

(i) *Item B8A, FSC or service code.* Enter a Federal Supply Classification Code, a Research, Development, Test and Evaluation (RDT&E) Code, or a Service Code in accordance with section I, Volume I of the Department of Defense Procurement Coding Manual (DoD 4105.61M). Each DD Form 350 must contain a 4-character entry for this item. If more than one classification is applicable to the contracting action, enter the one accounting for the largest dollar volume of acquisition.

(A) *Research, development, test, and evaluation.* (RDT&E) is defined in FAR 35.001. Each DD Form 350 action for RDT&E shall be assigned a code beginning with the letter "A" in accordance with Section I, Part A of the referenced coding manual. Do not assign RDT&E codes for the acquisition (including rental or lease) of equipment, supplies, or services separately purchased in support of RDT&E work. Acquisition of services or supplies that is incidental to the fulfillment of RDT&E work, but does not require contractor RDT&E performance, shall be coded in accordance with Parts B and C, Section I of the referenced coding manual, even though such purchases are in support of RDT&E work and RDT&E funds are cited. In no case shall RDT&E codes be assigned for orders under CSA Federal Supply Schedule contracts.

(B) *Services.* All services (except RDT&E actions) and lease or rental of equipment or facilities shall be coded in accordance with Part B, Section I of the referenced coding manual. Each category is assigned a series of 4-character codes for specific types of services and construction.

(C) *Supply.* Acquisition of supply items shall be assigned a Federal Supply Classification (all numeric) Code from Part C, section I of Volume I of the

referenced coding manual. The Department of Defense Federal Supply Classification Cataloging Handbooks H2-1, H2-2, and H2-3 also may be used as a reference in identifying the correct 4-character code. Lease or rental of equipment/facilities should be coded as a service in accordance with Part B, Section I of the referenced coding manual.

(ii) *Item B8B, DD claimant program code.* Enter the appropriate DDCP code that identifies the commodity described in Item B8D. Claimant Program Codes are defined in section III, Volume I of the referenced coding manual. If the description in Item B8D is for research and development, the objective of the research and development shall control the DDCP code to be entered; e.g., if the objective of the research and development is a guided missile, enter Code A20. If the description in Item B8D is for research that cannot be identified with a particular claimant program, enter Code S10. Contracts for ship repair, inspection, and repair as necessary (IRAN), modification of aircraft, overhaul of engines, and like maintenance, repair or modification services shall be identified with a particular claimant program where possible. Equipment rental (including rental of automated data processing equipment (as defined at Part 270)) and utility services shall be coded S10. If a particular claimant program cannot be identified, enter Code S10 for services and code C9E for supplies or equipment.

(iii) *Item B8C, System or equipment code.* Enter the appropriate weapons system or equipment code in accordance with section II, Volume I of the referenced coding manual. If a weapon system or equipment code is not applicable, enter 3 zeros. This reporting requirement is not applicable to the Defense Logistics Agency.

(iv) *Item B8D, Name or description.* Enter the name or brief description of commodity or service. When the description of a commodity or service is classified, enter only the word "Classified;" however, do not specify "Classified" if a code name, such as Minuteman, Polaris, Trident, Pershing, etc., or an identifying program number; e.g., WS-107A, can be used without classifying the report.

(9) *Item B9, Consulting services contract.* Enter Code 1 if the services being acquired are consulting services as defined in FAR 37.201; otherwise enter Code 2.

(10) *Item B10, Multi-year contract.* Enter Code 1 if this report concerns multiyear contracting for supplies or services pursuant to FAR 17.1; otherwise, enter Code 2.

(11) *Item B11, Total multi-year value.* Enter the estimated multiyear contract value if Item B10 is coded 1 and Item B13 is coded 1 or 3; otherwise, leave blank.

(12) *Item B12, Foreign military sales.* Enter Code 1 if the contracting action is under foreign military sales arrangements, or under any other arrangements whereby a foreign country or international organization undertakes to bear the cost of the procurement. If not, enter Code 2. If only part of a contracting action is for foreign military sales, that part (if in excess of \$25,000) shall be reported on one DD Form 350, and the other part (if in excess of \$25,000) shall be reported on a second DD Form 350. Any part of \$25,000 or less shall be reported on the DD Form 1057. If this item is coded 1, do not complete Parts C and D.

(13) *Item B13, Kind of contracting action.* Enter one of the available codes as appropriate. Do not complete Part D of DD Form 350 if Item B13 is coded 6, 7, or 8. For pre-CICA contracting actions, if Item B13 is coded 6, 7, or 8, do not complete Part C of DD Form 350. For post-CICA contracting actions, if B13 is coded 7, complete only Items C9 and C10 of Part C.

(i) *Code 1, Initial letter contract.* Enter this code when a new letter contract is executed. (For a letter contract which is designated as a modification of an existing contract, enter Code A.)

(ii) *Code 2, Definitive contract superseding letter contract.* Enter this code when applicable. (For a definitive modification which supersedes a letter contract designated as a modification of an existing contract, enter Code A.)

(iii) *Code 3, Definitive contract (including notice of award).* Enter this code when the first binding document is the instrument containing all the terms and conditions of the agreement. Also enter code 3 for a modification which is the initial citation and obligation of funds for a contract awarded in one fiscal year but not effective until a subsequent fiscal year because it was contingent on the availability of funds or for other reasons. Use this code for definitive contract awards under the Small Business Administration 8(a) Program.

(iv) *Code 4, Order under DoD basic ordering agreement.* Enter this code when reporting orders under basic ordering agreements, priced exhibits and production lists entered into by a DoD Component. Use Codes A-G, as appropriate, for modifications of such orders.

(v) *Code 5. Order under DoD contract*—Enter this code when reporting orders against indefinite delivery type contracts, DLA schedules, job orders, task orders, and the like where firm obligations are created by the issuance of such documents and where the basic contract was awarded by a DoD Component. Use this code for orders placed under DoD contracts with the Small Business Administration 8(a) Program. Also use this code for contracting actions from Workshops for the Blind or Other Severely Handicapped. Use Codes A–G, as appropriate, for modifications of such orders.

(vi) *Code 6. Order under mandatory GSA Federal Supply Schedule*—Enter this code for all contracting actions (including modifications) under mandatory GSA Federal Supply Schedule contracts (see FAR 8.401). Also enter this code for all contracting actions (including modifications) under mandatory GSA ADP Schedule contracts and mandatory GSA Area Contracts for Utility Services.

(vii) *Code 7. Action with another Federal agency*—Enter this code for all contracting actions (including definitive contracts, orders, and contract modifications) from or through other Federal agencies (except General Services Administration), such as the Government Printing Office, Federal Prison Industries, Veterans Administration, Tennessee Valley Authority, and the Departments of Treasury, Agriculture and Energy.

(viii) *Code 8. Order under optional GSA Schedule*—Enter this code for all nonmandatory contracting actions (including modifications) under GSA Federal Supply Schedule contracts (see FAR 8.402). Also enter this code for all contracting actions (including modifications) under nonmandatory GSA ADP Schedule contracts and nonmandatory GSA Area Contracts for Utility Services.

(ix) *Code A. Additional work, new agreement*—Enter this code when additional work is acquired by means of a supplemental agreement as follows:

(A) Bilateral modifications which increase the scope existing contracts, including letter contracts.

(B) Modifications which are the initial citation and obligation of funds for a supplemental agreement to increase quantities or extend performance that was awarded in one fiscal year but not effective until a subsequent fiscal year because it was contingent on the availability of funds or for other reasons.

(x) *Code B. Additional work, other*—Enter this code when additional work is

acquired by means of modification to the basic contract as follows:

(A) Exercise of options for increased quantities or extended performance.

(B) Incremental yearly buys under multiyear contracts.

(C) Amendments to letter contracts, supplemental agreements, and other modifying actions which add work and are made pursuant to the terms of existing contracts.

(xi) *Code C. Funding action*—Enter this code for amendments to letter contracts and other contract modifications which do not change the scope of work of the existing contract but obligate or deobligate funds. This includes, by way of illustration, incremental funding (other than incremental yearly buys under multiyear contracts), increasing the estimated cost on cost-reimbursement contracts, and repricing actions covering incentive price revision, and economic price adjustment. Do not use this code for a modification which is the initial citation and obligation of funds for a contract/modification awarded in one fiscal year but not effective until a subsequent fiscal year because it was contingent on the availability of funds or for other reasons (see (iii) and (ix)(B) above). For funding actions involving the kinds of contracting actions covered in (iv), (v), (vi), and (vii) above, codes 4, 5, 6, and 7 shall be used as appropriate.

(xii) *Code D. Change order*—Enter this code when reporting change orders issued pursuant to the "Changes," "Differing Site Conditions," or similar provisions of existing contracts.

(xiii) *Code E*—Enter this code for termination for default.

(xiv) *Code F*—Enter this code for termination for convenience.

(xv) *Code G*—Enter this code for cancellation.

(c) *Part C of DD Form 350—Solicitations issued prior to 1 April 1985 (pre-CICA) (see 4.671-5(d) for solicitations issued on 1 April 1985 or later (post-CICA))*. The following rules apply to each of the items listed in Part C of DD Form 350: If Item B12 is coded 1 or if Item B13 is coded 6, 7, or 8 leave all items in this Part C blank. If Item B13 is coded 1 through 4 or A, coding of all items in this Part C shall be accomplished in accordance with the coding instructions for that item. If Item B13 is coded 5, or B through G, enter the same code in each item in Part C that was reported on the DD Form 350 to the original contract governing this transaction except as provided for by Code 0 in (2) below. If a DD Form 350 to the original contract was not submitted because a DD Form 350 was not required, enter the code which is

applicable to the original contract governing this transaction.

(1) *Item C1, Synopsis in Commerce Business Daily*. Enter Code 1 if a synopsis of the proposed action was prepared and transmitted in accordance with FAR 5.2. If not, enter Code 2.

(2) *Item C2, Reason not synopsis*. Enter the applicable code as follows:

#### Code and Reason

- 0 Original estimate less than \$10,000, or contract made outside the United States, its possessions and Puerto Rico, or the reason for the original exemption is no longer coded;
- 1 The contracting action for security reasons is of a classified nature;
- 2 Contracting action of perishable subsistence when made by placement of an order under a contract covered by FAR 16.5;
- 3 Contracting action is for utility services and only one source is available;
- 4 Contracting action which is of such unusual and compelling urgency that the Government would be seriously injured by the delay involved in permitting the date set for receipt of bids, proposals, or quotations to be more than the time periods specified at FAR 5.203;
- 5 Contracting action to be made by an order placed under an existing contract covered by FAR 16.5;
- 6 Contracting action to be made from another Government department or agency, including contracting actions with SBA using the authority of section 8(a) of the Small Business Act, or a mandatory source of supply such as an agency for the blind under the blind-made products program;
- 7 Contracting action that results from acceptance of a proposal pursuant to the Small Business Innovation Development Act of 1982 or an unsolicited proposal that demonstrates a unique or innovative research concept and publication of such unsolicited proposal would improperly disclose the originality of thought or innovativeness of the proposed research;
- 8 Contracting action for which a foreign government reimburses the Department for the cost of the contracting action for the property, supplies, or services for such government and only one source is available, or the terms of an international agreement or treaty between the United States and a foreign government authorize or require that all such acquisition shall be from sources specified within such international agreement or treaty;
- 9 When it has been determined in writing by the Secretary, with the concurrence of the Administrator of the Small Business Administration, that advance notice is not appropriate or reasonable.

(3) *Item C3, Method of contracting*. Enter Code 1 when accomplished by formal advertising; enter Code 2 when accomplished by negotiation, including restricted advertising actions and

modifications made pursuant to the provisions of Pub. L. 85-804. When Code 1 is entered, no entries shall be made in Items C4 and C5.

(4) *Item C4, Negotiation authority.* This item shall be completed where Item C3 was coded 2. Enter the code below which corresponded to the negotiation exception of 10 U.S.C. 2304(a) (see FAR 15.201-15.217) cited as the negotiation authority in effect when the solicitation was issued.

*Code and Negotiation Authority*

(5) *Item C5, Extent of competition.*

(i) This item shall be completed where Item C3 was coded 2. Enter the code

below which corresponds to the extent of competition in the negotiated action:

*Code and Extent of Competition*

- 1 Price competition
- 2 Design or technical competition
- 3 Follow-on after price competition
- 4 Follow-on after design or technical competition
- 5 Other noncompetition
- 6 Noncompetition based on catalog or market price
- 7 Competition not applicable

(ii) Definitions of the extent of competition codes:

(A) *Price competition, Code 1.*

(1) A contract shall be reported as "price competition" if offers were solicited and received from at least two responsible offerors capable of satisfying the Government's requirements wholly or partially, and the award or awards were made to the offeror or offerors submitting the lowest evaluated prices (including catalog or market prices). In addition, a contract may also be reported as "price competition" even though only one offer is received, when offers are solicited from at least 2 responsible offerors who normally contend for contracts for the same or similar items. Where only one responsive offer was received and the solicitation was restricted to a prime contractor and his subcontractor for that item, use Code 5. Actions shall not be reported as "price competition" solely on the basis of the number of solicitations made. Contracting officers shall consider the content of the response of the solicitation, the contract history of the items purchased, and other relevant information, and shall exercise sound judgment in reporting actions as "price competition." In no case shall cost-reimbursement type contracts be coded 1. Even though catalog or market prices were offered, if the criteria for "price competition" as specified here have been met, then enter Code 1.

(2) Multiple awards in such areas as subsistence, clothing, and equipment, and other commodities where several awards normally result from one solicitation may be reported as "price competition," even though the total quantity of the solicitation is not awarded, if in the judgment of the contracting officer there are sufficient facts to support a valid finding of "price competition".

(B) *Design or technical competition, Code 2.* Design or technical competition is present when 2 or more qualified sources of supply are invited to submit design or technical proposals, with the subsequent contract award based primarily on this factor, rather than on a

price basis. Many research and development contracts and many initial contracts for new military weapons fall into the category of design or technical competition.

(C) *Follow-on after price competition, Code 3, and follow-on after design/technical competition, Code 4.* A follow-on contract means a new acquisition (whether placed by a separate new contract or by a supplemental agreement) placed with a particular contractor which continues or augments a specific military program in instances where such placement was necessitated by prior acquisition decisions. An example of a follow-on contract is one which by force of circumstances was awarded to a contractor who was just completing a research and development contract in the same program. Other examples of follow-on contracts include those for support equipment, maintenance support, technical representatives or spare parts which have been awarded without competition to the contractor furnishing the original equipment. Follow-on contracts in which the selection of the contractor at the inception of the program was on a competitive basis (i.e., price or design or technical) shall be reported as Code 3 or 4, as appropriate. Follow-on contracts in which the selection of the contractor at the inception of the program was on a noncompetitive basis shall be reported as Code 5.

(D) *Other noncompetition, Code 5.* A contracting action shall be reported other noncompetition if there was no competition in the award, the work involved was not a follow-on acquisition reportable as Code 3 or 4 above, and the reasonableness of price was not based on established catalog or market prices reportable as Code 6. Also, use this code to report actions where only one responsive offer was received and the solicitation was restricted to a prime contractor and his subcontractor for that item.

(E) *Noncompetition and based on catalog or market price, Code 6.* A contracting action shall be reported Code 6 if there was no competition in the award and the reasonableness of price was based on established catalog or market prices of commercial item sold in substantial quantities to the general public as defined in FAR 15.804-3(c). If the award involves catalog or market prices and the criteria for "price competition" as specified in (ii)(A) above have been met, enter Code 1 versus Code 6.

(F) *Not applicable, Code 7.* The following actions shall be entered as Code 7:

(1) Awards for brand name items for commissary resale;

(2) Awards to nonprofit organizations, including educational institutions;

(3) Awards to regulated monopolies for utilities "where the price negotiated is based on prices set by law or regulation"; and

(4) Awards made pursuant to section 8(a), Small Business Act (15 U.S.C. 637(a)).

(5) Awards coded 7 in B13.

(6) Awards requiring investment of Government funds for the purpose of establishing a competitive second source where (i) Item C10 is coded 1a or 1g, and (ii) the justification required by 6.302-1(c) is on an individual basis and not a class basis; includes a determination that there is only one source in addition to the existing source and that to solicit the additional source would increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition, of the supplies or services; and includes a description of the estimated reduction in overall costs and how the estimate was derived.

(6) Item C6, Type of contract.

(i) Enter the code below which corresponds to the type of contract provided for in the provisions of the action reported.

#### Code and Type of Contract

- A Fixed Price Redetermination: Type A
- B Fixed Price Redetermination: Type B
- J Firm Fixed Price
- K Fixed Price economic price adjustment
- L Fixed Price incentive with performance incentive
- M Fixed Price incentive without performance incentive
- R Cost Plus Award Fee
- S Cost Contract
- T Cost Sharing
- U Cost Plus Fixed Fee
- V Cost Plus incentive fee—with performance incentive
- W Cost Plus incentive fee—without performance incentive
- Y Time and materials
- Z Labor Hour

(ii) *Multiple contract types.* Where the action involves more than one type of contract, the predominant type based on dollars shall be entered. However, if any nonpredominant portion of a multi-type contract exceeds \$500,000, a separate DD Form 350 shall be used to report each such portion of the action. The total of the DD Forms 350 so reported shall equal the total contract action.

(iii) *Letter contracts.* When reporting original letter contracts and amendments thereto, enter the code for the type of contract that will be used

when the letter contract is converted to a definitive contract.

(7) Item C7, Number of offerors solicited. Do not complete this item.

(8) Item C8, Number of offers received. Do not complete this item.

(9) Item C9, Competitive solicitation procedures. Do not complete this item.

(10) Item C10, Authority for other than full and open competition. Do not complete this item.

(d) Part C of DD Form 350—*Solicitations issued on 1 April 1985 or later (post-CICA) (see 204.671.5(c) for solicitations issued prior to 1 April 1985 (pre-CICA)).* The following rules apply to each of the items listed in Part C of DD Form 350: If Item B12 is coded 1, leave all items in this Part C blank. If Item B13 is coded 1 through 4, 8 or A, coding of all items in this Part C shall be accomplished in accordance with the coding instructions for that item. If Item B13 is coded 7, enter N in Item C9, enter 5A in Item C10 and leave all other items in this Part C blank. If Item B13 is coded 5, or B through G, enter the same code in each item in Part C that was entered on the DD Form 350 to report the original contract governing this transaction except as provided for by Code Z in (2) below. If the DD Form 350 was not required to report the original contract governing this transaction, enter the code which is applicable to the original contract. If Item B13 is coded 6, items in this Part C shall be coded (manually or by automation) as follows:

- C1, enter Code 2;
- C2, enter Code F;
- C3 and C4, do not complete;
- C5, enter Code 1;
- C6, enter appropriate code;
- C7, enter Code 2;
- C8, enter Code 2;
- C9, enter Code F for multiple award schedules or Code B for single award schedules; and
- C10, do not complete.

(1) Item C1, Synopsis in Commerce Business Daily. Enter Code 1 if a synopsis of the proposed action was prepared and transmitted in accordance with FAR 5.2. If not, enter Code 2.

(2) Item C2, Reason not synopsis. Enter the applicable code as follows (see FAR 5.202):

#### Code and Reason

- A The contracting action is of a classified nature and the synopsis cannot be worded to preclude the disclosure of classified information; or disclosure of

the agency's needs would compromise the national security. (FAR 5.202(a)(1))

- B The contracting action is to fulfill a need for supplies or services that is of such unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals and not comply with the time periods specified in 205.203. (FAR 5.202(a)(2))
- C The contracting action is one for which either the written direction of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, or the terms of an international agreement or treaty between the United States and a foreign government, have the effect of requiring that the acquisition shall be from specified sources. (FAR 5.202(a)(3))
- D The contracting action is expressly authorized or required by the statute to be made through another Government agency, including acquisitions from the SBA using the authority of section 8(a) of the Small Business Act, from a specified source such as a workshop for the blind under the rules of the Committee for the Purchase from the Blind and Other Severely Handicapped. (FAR 5.202(a)(4))
- E The contracting action is for utility services and only one source is available. (FAR 5.202(a)(5))
- F The contracting action is an order placed under a requirements contract, or a mandatory GSA Federal Supply Schedule contract. (FAR 5.202(a)(6))
- G The contracting action results from acceptance of a proposal under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219), or an unsolicited research proposal that demonstrates a unique and innovative research concept and publication of any notice would improperly disclose the originality of thought or innovativeness of the proposed research. (FAR 5.202(a)(7))
- H The contract is made for perishable subsistence supplies, and advance notice is not appropriate or reasonable. (FAR 5.202(a)(8))
- I Reserved. ("I" and "O" are normally reserved to eliminate confusion with the numbers "1" and "0" during data entry.)
- J The contract action is made under conditions described in FAR 6.302-5 with regard to brand-name commercial items for authorized resale and advance notice is not appropriate or reasonable. (FAR 5.202(a)(9))
- K The contracting action is made under the terms of an existing contract which was previously synopsisized in sufficient detail to comply with the requirements of 5.207 with respect to the current contracting action. (FAR 5.202(a)(10))
- L The head of the agency determines in writing, after consultation with the Administrator of the Small Business Administration and the Administrator for Federal Procurement Policy, that advance notice is not appropriate or reasonable. (FAR 5.202(b))

- Z. Original estimate less than \$10,000 or the reason for the original exemption is no longer coded or the contract is made outside the United States, its possessions and Puerto Rico.

(3) *Item C3, Method of contracting.* Enter Code 1 when accomplished by sealed bidding; enter Code 2 when accomplished by negotiation, including a combination of sealed bidding and negotiation, and modifications pursuant to the provisions of Pub. L. 85-80.

(4) *Item C4, Negotiation authority.* Do not complete this item.

(5) *Item C5, Extent of competition.*

(i) Enter the code below which corresponds to the extent of competition in the action:

*Code and Extent of Competition*

- 1 Price competition
- 2 Design or technical competition
- 3 Follow-on after price competition
- 4 Follow-on after design or technical competition
- 5 Other noncompetition
- 6 Noncompetition based on catalog or market price
- 7 Competition not applicable

(ii) Definitions of the extent of competition codes:

(A) *Price competition, Code 1.*

(1) A contract shall be reported as "price competition" if offers were solicited and received from at least two responsible offerors capable of satisfying the Government's requirements wholly or partially, and the award or awards were made to the offeror or offerors submitting the lowest evaluated prices (including catalog or market prices). In addition, a contract may also be reported as "price competition" even though only one offer is received, when offers are solicited from at least 2 responsible offerors who normally contend for contracts for the same or similar items. Where only one responsive offer was received and the solicitation was restricted to a prime contractor and his subcontractor for that item, use Code 5. Actions shall not be reported as "price competition" solely on the basis of the number of solicitations made. Contracting officers shall consider the content of the response of the solicitation, the contract history of the items purchased, and other relevant information, and shall exercise sound judgment in reporting actions as "price competition." In no case shall cost-reimbursement type contracts be coded 1. Even though catalog or market prices were offered, if the criteria for "price competition" as specified here have been met, then enter Code 1. If B13 is coded 6, enter Code 1.

(2) Multiple awards in such areas as subsistence, clothing, and equipment, and other commodities where several

awards normally result from one solicitation may be reported as "price competition," even though the total quantity of the solicitation is not awarded, if in the judgment of the contracting officer there are sufficient facts to support a valid finding of "price competition."

(B) *Design or technical competition, Code 2.* Design or technical competition is present when 2 or more qualified sources of supply are invited to submit design or technical proposals, with the subsequent contract award based primarily on this factor, rather than on a price basis. Many research and development contracts and many initial contracts for new military weapons fall into the category of design or technical competition.

(C) *Follow-on after price competition, Code 3, and follow-on after design/technical competition, Code 4.* A follow-on contract means a new acquisition (whether placed by a separate new contract or by a supplemental agreement) placed with a particular contractor which continues or augments a specific military program in instances where such placement was necessitated by prior acquisition decisions. An example of a follow-on contract is one which by force of circumstances was awarded to a contractor who was just completing a research and development contract in the same program. Other examples of follow-on contracts included those for support equipment, maintenance support, technical representatives or spare parts which have been awarded without competition to the contractor furnishing the original equipment. Follow-on contracts in which the selection of the contractor at the inception of the program was on a competitive basis (i.e., price or design or technical) shall be reported as Code 3 or 4, as appropriate. Follow-on contracts in which the selection of the contractor at the inception of the program was on a noncompetitive basis shall be reported as Code 5.

(D) *Other noncompetition, Code 5.* A contracting action shall be reported other noncompetition if there was no competition in the award, the work involved was not a follow-on acquisition reportable as Code 3 or 4 above, and the reasonableness of price was not based on established catalog or market prices reportable as Code 6. Also, use this code to report actions where only one responsive offer was received and the solicitation was restricted to a prime contractor and his subcontractor for that item.

(E) *Noncompetition and based on catalog or market price, Code 6.* A contracting action shall be reported

Code 6 if there was no competition in the award and the reasonableness of price was based on established catalog or market prices of commercial items sold in substantial quantities to the general public as defined in FAR 15.804-3(c). If the award involves catalog or market prices and the criteria for "price competition" as specified in (ii)(A) above have been met, enter Code 1 versus Code 6.

(F) *Not applicable, Code 7.* The following actions shall be entered as Code 7:

(1) Awards for brand name items for commissary resale;

(2) Awards to nonprofit organizations, including educational institutions;

(3) Awards to regulated monopolies for utilities "where the price negotiated is based on prices set by law or regulation;"

(4) Awards made pursuant to section 8(a), Small Business Act (15 U.S.C. 637(a)); and

(5) Awards coded 7 in B13.

(6) *Item C6, Type of contract.*

(i) Enter the code below which corresponds to the type of contract provided for in the provisions of the action reported.

*Code and Type of Contract*

- A Fixed Price Redetermination: Type A
- B Fixed Price Redetermination: Type B
- J Firm Fixed Price
- K Fixed Price Economic Price Adjustment
- L Fixed Price Incentive With Performance Incentive
- M Fixed Price Incentive Without Performance Incentive
- R Cost Plus Award Fee
- S Cost Contract
- T Cost Sharing
- U Cost Plus Fixed Fee
- V Cost Plus Incentive Fee—With Performance Incentive
- W Cost Plus Incentive Fee—Without Performance Incentive
- Y Time and Materials
- Z Labor Hour

(ii) *Multiple contract types.* Where the action involves more than one type of contract, the predominant type based on dollars shall be entered. However, if any nonpredominant portion of a multi-type contract exceeds \$500,000, a separate DD Form 350 shall be used to report each such portion of the action. The total of the DD Form 350 so reported shall equal the total contract action.

(iii) *Letter contracts.* When reporting original letter contracts and amendments thereto, enter the code for the type of contract that will be used when the letter contract is converted to a definitive contract.

(7) *Item C7, Number of offerors solicited.* Enter the code below which

describes the number of offerors solicited. If B13 is coded 6, enter Code 2. Code 1 is used when only one offeror was solicited. Code 2 is used when more than one offeror was solicited.

(8) *Item C8, Number of Offers Received.* Enter the code below which describes the number of offers received. If B13 is coded 6, enter Code 2. Code 1 is used where only one offer was received. Code 2 is used when more than one offer was received.

(9) *Item C9, Solicitation procedures.* Enter the code below which accurately describes the action. This item pertains to the requirements of FAR Part 6, Subparts 6.1, 6.2, and 6.3, with the exception of the statutory authorities for other than full and open competition (Subpart 6.3) which are reported in Item C10 below. Codes A through K designate the full and open competition requirements set forth in FAR Part 6. Codes L and M designate actions which do not require the application of these requirements. Code N designates a statutory exception to full and open competition. Modifications within the scope of a contract and delivery orders under requirements or definite quantity contracts shall be reported the same as the initial contract. Delivery orders under indefinite quantity contracts shall be reported the same as the initial contract when the conditions in FAR 6.001(f) are met. If these conditions are not met, the delivery order shall be reported pursuant to the conditions applicable to that order. If B13 is coded 6, for post-CICA contracts, enter Code B for single award schedules or Code F for multiple award schedules.

If Item B13 is coded 8, for post-CICA contracting actions, enter only Code B or N as appropriate.

*Code A—Full and open competition—sealed bidding* is entered when the action resulted from an award pursuant to FAR 6.102(a).

*Code B—Full and open competition—competitive proposals* is entered when the action resulted from an award pursuant to FAR 6.102(b).

*Code C—Full and open competition—combination* is entered when action resulted from an award using a combination of competitive procedures (e.g., Two-Step Sealed Bidding) pursuant to FAR 6.102(c).

*Code D—Architect-engineer* is entered if the action resulted from selection of sources for architect-engineer contracts pursuant to FAR 6.102(d)(1).

*Code E* is entered if the action resulted from competitive selection of basic research proposals pursuant to FAR 6.102(d)(2).

*Code F—Multiple award schedule* is entered if the action is an award of a multiple award schedule pursuant to FAR 6.102(d)(3). Orders against such schedules are also Coded F. Do not use this code if Item 13 is coded 8. (Use either B or N as appropriate.)

*Code G—Alternate source—reduced cost* is entered if the action resulted from use of procedures to reduce overall costs pursuant to FAR 6.202(a)(1).

*Code H—Alternate source—mobilization* is entered if the action resulted from use of procedures for having a facility available for national defense or industrial mobilization pursuant to FAR 6.202(a)(2).

*Code J—Alternate source—Eng/R&D capability* is entered if the action resulted from use of procedures for establishing or maintaining an essential engineering, research, or development capability pursuant to FAR 6.202(a)(3).

*Code K—Set-aside* is entered if the action resulted from use of procedures for set-asides pursuant to FAR 6.203.

*Code L—8(a) program.*

*Code M—Otherwise authorized by statute* is entered when the agency uses contracting procedures that are expressly authorized by statute and not addressed in FAR Part 6 (See FAR 6.001(c)). Code M should not be used for statutes addressed in FAR 6.302-5; these statutes require Code N in Item C9 and Code 5A in Item C10.

*Code N—Other than full and open competition* is entered if the action resulted from use of other than full and open competition pursuant to FAR 6.301. When this code is used, an entry is required in Item C10.

(10) *Item C10, Authority for other than full and open competition.* Enter the appropriate code below when Item C9 is coded N. Explanations of the authorities are set forth in FAR 6.302.

*Code 1A—Unique source* is entered when action was justified pursuant to FAR 6.302-1(b)(1).

*Code 1B—Follow-on contract* is entered when action was justified pursuant to FAR 6.302-1(b)(2).

*Code 1C—Unsolicited research proposal* is entered when action was justified pursuant to FAR 6.302-1(b)(3).

*Code 1D—Patent/data rights* is entered when action was justified pursuant to FAR 6.302-1(b)(4).

*Code 1E—Utilities* is entered when action was justified pursuant to FAR 6.302-1(b)(5).

*Code 1F—Standardization* is entered when action was justified pursuant to FAR 6.302-1(b)(6).

*Code 1G—Only one source—other* is entered when the action was justified pursuant to FAR 6.302-1 in a situation other than the examples cited in Codes 1A through 1F above.

*Code 2A—Urgency* is entered when action was justified pursuant to FAR 6.302-2.

*Code 3A—Mobilization* is entered when action was justified pursuant to FAR 6.302-3(a)(2)(i).

*Code 3B—Essential R&D capability* is entered when action was justified pursuant to FAR 6.302-3(a)(2)(ii).

*Code 4A—International agreement/foreign military sales* is entered when action was justified pursuant to FAR 6.302-4.

*Code 5A—Authorized by statute* is entered when action was justified pursuant to FAR 6.302-5(a)(2)(i).

*Code 5B—Authorized resale* is entered when action was justified pursuant to FAR 6.302-5(a)(2)(ii).

*Code 6A—National security* is entered when action was justified pursuant to FAR 6.302-6.

*Code 7A—Public interest* is entered when action was taken pursuant to FAR 6.302-7.

(e) *Part D of DD Form 350.* The following rules apply to each of the items listed in Part D of DD Form 350: If Item B12 is coded 1 or if Item B13 is coded 6, 7, or 8, leave all items in this part blank. If Item B13 is coded 1 through 4, or A, (i) coding of all items in this Part D shall be accomplished in accordance with the coding instructions for that item, and (ii) the status of the concern, such as its size or ownership, shall be determined as of the date of the award. If Item B13 is coded 5, or B through G, enter the same code in each item in Part D that was reported on the DD Form 350 to the original contract governing this transaction. If a DD Form 350 to the original contract was not submitted because a DD Form 350 was not required, enter the code which is applicable to the original contract governing this transaction.

(1) *Item D1, Type of business.*

(i) Enter Code 1 if the award was made to a domestic large business concern, and the place of performance (Item B5C) is within the United States, its possessions, Puerto Rico, or the Trust Territory of the Pacific Islands.

(ii) Enter Code 2 if the award was made to a small business concern as defined in FAR 19.101 and the place of performance (Item B5C) is within the United States, its possessions, Puerto Rico, or the Trust Territory of the Pacific Islands.

(iii) Enter Code 3 if the award is made to a foreign concern (FAR 25.101), including non-US chartered nonprofit institutions as defined in (v) below.

(iv) Enter Code 4 if the award is made to a domestic large or small business concern and the place of performance (Item B5C) is outside the United States, its possessions, Puerto Rico or the Trust Territory of the Pacific Islands.

(v) Enter Code A, B, C, D, or E if the award was made to a domestic nonprofit institution and the place of performance (Item B5C) was within the United States, its possessions, Puerto Rico, or the Trust Territory of the Pacific Islands. If an award is made to a non-US chartered nonprofit institution, enter Code 3, Foreign Concern. A nonprofit institution is defined as any corporation, foundation, trust, or institution not organized for profit, no part of the net earnings of which inure to the benefit of any private shareholder or individual.

Included are educational and scientific institutions of a nonprofit nature, and state, local, and other non-Federal Government agencies. Enter Code A if the contractor is an educational institution, Code B if a hospital, Code C if a workshop for the blind or other severely handicapped and the action is an acquisition from the Procurement List (see FAR 8.703), Code D if a workshop for the blind or other severely handicapped and the action is not an acquisition from the Procurement List (Optional Placement) (see FAR 8.713), and Code E for all other nonprofit institutions.

(2) *Item D2, reason not awarded to small business concern.* If the action was not awarded to a small business concern, enter an appropriate code from the available codes below. Otherwise, leave blank.

(i) Use Code 1 if there was no known small business source.

(ii) Use Code 2 if there was a known small business source but it was not solicited for a bid or proposal.

(iii) Use Code 3 if a small business concern was solicited, but no bid or proposal was received from such concern, or the concern did not offer sufficient quantity to cover the total requirement but received a separate award for the portion bid on under this solicitation.

(iv) Use Code 4 if a small business concern was solicited but the low or most advantageous offer was not from small business. Enter Code 4 if a small business concern was not willing to accept award of a set-aside portion of an action at the price offered as determined by the price the Government would otherwise have had to pay.

(v) Use Code 5 if not awarded to small business for any other reason.

(3) *Item D3, Small disadvantaged business.*

(i) Enter Code 1 if the contractor is not a small disadvantaged business concern in accordance with the representation required in FAR 19.304(a).

(ii) Enter Code 2 if the contract was awarded to the U.S. Small Business Administration (SBA) pursuant to section 8(a) of the Small Business Act (FAR 19.8).

(iii) Enter Code 3 if the award is not an SBA 8(a) award but is made to a firm determined to be a small disadvantaged business concern in accordance with the representation required in FAR 19.304(b).

(4) *Item D4, Reason not awarded to small disadvantaged business concern.* If the action was not awarded to a small disadvantaged business concern, enter an appropriate code from the available codes below. Otherwise, leave blank.

(i) Use Code 1 if there was no known small disadvantaged business source.

(ii) Use Code 2 if there was a known small disadvantaged business source but it was not solicited for a bid or proposal.

(iii) Use Code 3 if a small disadvantaged business concern was solicited, but no bid or proposal was received from such concern, or the concern did not offer sufficient quantity to cover the total requirement but received an award for the portion bid on.

(iv) Use Code 4 if a small disadvantaged business concern was solicited but the low or most advantageous offer was not from a small disadvantaged business concern.

(v) Use Code 5 if not awarded to a small disadvantaged business for any other reason.

(5) *Item D5, Women-owned small business.*

(i) Enter Code 1 if the contractor's response to FAR 52.219-3 indicates the firm is not a women-owned small business.

(ii) Enter Code 2 if the response to FAR 52.219-3 indicates in the affirmative that the contractor is a women-owned small business.

(iii) Enter Code 3 if the information is not available because the contractor did not complete the certification under FAR 52.219-3.

(6) *Item D6, Small business set-aside preference.*

(i) Enter Code 1 if the solicitation/award was not totally or partially set aside for small business pursuant to FAR 19.502-2, FAR 19.502-3, and 220.70.

(ii) Enter Code 2 if the solicitation/award was totally set aside for small business pursuant to FAR 19.502-2.

(iii) Enter Code 3 if the solicitation/award was partially set aside for small business pursuant to FAR 19.502-3 and 220.70.

(7) *Item D7, Subcontracting plan for small and small disadvantaged businesses.* Enter the appropriate code as follows:

(i) Enter Code 1 if a subcontracting plan was not included in the contract because subcontracting possibilities do not exist (FAR 19.706).

(ii) Enter Code 2 if the subcontracting plan was not required for other reasons, e.g., the action was awarded to a small business firm or the dollar value of the award was less than the cited threshold (FAR 19.708(b)).

(iii) Enter Code 3 if the subcontracting plan was required but the incentive provisions referenced in FAR 19.708(c) were not included.

(iv) Enter Code 4 if the subcontracting plan was required and incentive

provisions specifically pertaining to subcontracting with small and small disadvantaged business referenced in FAR 19.708(c) were included.

(8) *Item D8, Small Business Innovation Research (SBIR) Program.* Enter the appropriate code as follows:

(i) Enter Code 1 if the action is not in support of the Small Business Innovation Research Program (Pub. L. 97-219).

(ii) Enter Code 2 if the action is related to a Phase I contract in support of the Small Business Innovation Research Program (Pub. L. 97-219).

(iii) Enter Code 3 if the action is related to a Phase II contract in support of the Small Business Innovation Research Program (Pub. L. 97-219).

(9) *Item D9, Labor Surplus Area (LSA) preference.* The Department of Labor publication "Listing of Eligible Labor Surplus Areas Under Defense Manpower Policy No. 4B and Executive Orders 10582 and 12073" defines all areas classified as labor surplus areas. If Code 2, 3, 4, 5, or 6 is entered, the entry in Item B5C must be a location which on the date of the action is located within a labor surplus area.

(i) Enter Code 1 if no preference was given to labor surplus area concerns.

(ii) Enter Code 2 when reporting the labor surplus portion of a combined set-aside (219.502-70).

(iii) Enter Code 3 if the action was awarded to a concern in a labor surplus area wherein preference was given under partial labor surplus area set-aside procedures (220.7003), except if set-aside preference resulted from a combined small business/labor surplus area set-aside as set forth in (ii) above.

(iv) Enter Code 4 if the action was awarded to a concern in a labor surplus area and tie bid preference (FAR 15.407-6) was given.

(v) Enter Code 5 when reporting an award that is totally set-aside for labor surplus areas, but with no further preference as to whether it is a large or small business firm.

(vi) Enter Code 6 when reporting an award that is totally set-aside for labor surplus area concerns which are also small business concerns.

(10) *Item D10, Subject to labor standards statutes.* Enter the appropriate code as follows:

(i) Enter Code 1 if subject to the provisions of the Walsh-Healey Act, manufacturer (see FAR 22.6).

(ii) Enter Code 2 if subject to the provisions of the Walsh-Healey Act, regular dealer (see FAR 22.6).

(iii) Enter Code 3 if subject to the provisions of the Service Contract Act, as amended (see FAR 22.6).

(iv) Enter Code 4 if subject to the Davis-Bacon Act.

(v) Enter Code 5 if not subject to any of the statutory requirements above.

(11) *Item D11, Certificate of current cost or pricing data.* Enter Code 1 if a certificate of current cost or pricing data (see FAR 15.804-4) was obtained, Code 2 if the certificate was not obtained, or Code 3 if the requirement was waived.

(12) *Item D12, Trade data relating to products or components not manufactured in the United States or services performed by foreign concerns.*

(i) *Item D12A, Number of offerors.* Enter the number of offerors of end-products not manufactured in the United States, its possessions, Puerto Rico, or the Trust Territory of the Pacific Islands. If zero, enter 0; if greater than 9, enter 9.

(ii) *Item D12B, Buy American Act percent difference.* If the evaluation factor under the Buy American Act is used and results in an award to a firm offering a domestic product, enter the percent difference between the award price and low firm offering a foreign end product, computed before application of the Buy American Act differential; i.e., the difference divided by the price of the low firm offering a foreign end product. Enter the percentage as a whole number (i.e., for 5%, enter 05; for 11%, enter 11). If the evaluation factor under the Buy American Act is not used, enter 2 zeros (00).

(iii) *Item D12C, Country of origin.* Enter appropriate country code shown as follows:

(A) If the product shown in Item B8D is manufactured in the U.S. and more than 50% of the cost of all its components is not manufactured in the U.S., enter the letter A and the 2-digit code of the country/area providing the greatest part of such components, as shown in the list published by the Director, Federal Procurement Data Center.

(B) If the product is manufactured, mined, or grown outside the U.S., enter the letter B and the 2-digit code of the country/area of origin, as shown in the list published by the Director, Federal Procurement Data Center.

(C) If a service shown in Item B8A is performed by a foreign concern (see FAR 25.101), enter the letter B and the country/area code of the concern, as shown in the list published by the Director, Federal Procurement Data Center.

(D) In all other cases, leave this item blank.

(13) *Item D13, Contract financing (progress payments or advance payments).* Enter the appropriate code as follows if Item C6 is coded A, B, J, K, L, or M.

(i) Enter Code 1 if the action contains the clause at FAR 52.232-16 or Alternate I.

(ii) Enter Code 2 if the action contains the clause at 252.232-7004.

(iii) Enter Code 3 if the action is for either shipbuilding or construction and percentage-of-completion-progress-payment financing is provided (see FAR 32.102(e)).

(iv) Enter Code 4 if the action provides Unusual Progress Payments or Advance Payments (see FAR 32.4, and FAR 32.501-2).

(v) Enter code 5 if none of the above apply.

(f) *Part E, DD Form 350.* For departmental or higher authority use.

(g) *Part F, DD Form 350.*

(1) *Item F1, Name of contracting officer or representative.* Enter name (Last, First, MI) of the contracting officer or representative.

(2) *Item F2, Signature.* Contracting officer or representative.

(3) *Item F3, Telephone number.*

Installations serviced by the Automatic Voice Network shall enter the AUTOVON number plus extension.

(4) *Item F4, Date.* Enter date (Yr./Mo./Da.) that DD Form 350 Report is submitted.

#### 204.671-6 Instructions for preparing magnetic tape of DD Form 350 actions, DD-DR&E(M)1014.

A magnetic tape as prescribed by the Office of the Deputy Under Secretary of Defense for Acquisition Management will be submitted to DIOR-WHS by the Departments to cover individual DD Form 350 transactions for each month (noncumulative). The instructions for preparing the tape are developed by DIOR-WHS with the agreement of the Departments.

#### 204.672 Monthly contracting summary of actions \$25,000 or less (DD Form 1057).

##### 204.672-1 Scope.

This section prescribes the reporting on DD Form 1057 of contracting actions of \$25,000 or less each. This form in conjunction with DD Form 350 is used to prepare recurring and special reports as indicated in 204.671-2. This reporting requirement has been assigned Report Control Symbol: DD-DR&E(M) 1015.

##### 204.672-2 Applicability and coverage.

(a) A DD Form 1057 shall be prepared (typewritten or machine reproduced) by each contracting office of the Department of Defense to which a reporting office code has been assigned in the DoD Procurement Coding Manual, Volume III. The DD Form 1057 shall cover all contracting actions of \$25,000 or less. Separate codes may be assigned

to an installation, base, or activity by Volume III of the DoD Procurement Coding Manual in order to distinguish between various types of acquisition, such as base and central contracting, or RDT&E and non-RDT&E acquisition. Subject to the approval of the organizations listed in 204.672-3, a machine printout or other machine product containing the information on the DD Form 1057 may be submitted in lieu of the form.

(b) DD Form 1057 shall include all debit or credit contracting actions of \$25,000 or less involving:

- (1) Appropriated funds;
- (2) Contract authorizations;
- (3) Stock or other revolving funds which are replenished or reimbursed from appropriated funds;
- (4) Appropriated funds transferred to the Departments, such as Military Assistance Program funds; and,
- (5) Appropriated funds obligated pursuant to provisions of Pub. L. 85-804.

(c) The report shall exclude actions of \$25,000 or less which:

- (1) Involve nonappropriated funds;
- (2) Are delivery orders against indefinite delivery type contracts entered into by the Defense Fuel Supply Center; Defense Fuel Supply Center or the Defense General Supply Center for Petroleum or Petroleum Products; these offices shall report the estimated total cost of indefinite delivery type contracts;
- (3) Are requisitions transferring supplies within and among the Departments and Agencies of the Department of Defense;
- (4) Are placed by the Defense Communications Agency, Defense Commercial Communications Office (DECCO). These actions are covered by other reporting instructions;
- (5) Are orders on GSA stores depots;
- (6) Involve Government bills of lading or transportation requests; and,
- (7) Are for purchase of land, or rental or lease of real property.

(3) Are requisitions transferring supplies within and among the Departments and Agencies of the Department of Defense;

(4) Are placed by the Defense Communications Agency, Defense Commercial Communications Office (DECCO). These actions are covered by other reporting instructions;

(5) Are orders on GSA stores depots;

(6) Involve Government bills of lading or transportation requests; and,

(7) Are for purchase of land, or rental or lease of real property.

(a) In addition to instructions given in (b) through (f) below for contracting offices of specified Departments and Agencies, the following instructions are applicable to all contracting offices.

(1) Reports shall be submitted in time to reach the recipient within three (3) working days after the close of each month. To meet this due date, contracting offices are authorized to cut off no earlier than the 25th calendar day of the month reported. For the month of September only, the due date may be extended by 10 additional calendar

days, but the cut-off date must be as of 30 September.

(2) Negative reports shall be submitted if a contracting office has not transacted a reportable action during the month.

(3) Letter of transmittal is not required.

(b) Army contracting offices shall distribute DD Form 1057 as follows:

(1) The original (except from Army Engineer Civil Works Contracting offices) shall be forwarded to HQDA (JDHQ-SV-W-P), Washington, DC 20310-0600.

(2) Army Engineer Civil Works Contracting offices shall forward the original to HQDA (DAEN-PRP), Washington, D.C. 20314-1000. A copy is not required for HQDA.

(c) Navy contracting offices shall forward the original DD Form 1057 as directed by COMNAVSUP (SUP-024).

(d) Air Force contracting offices shall forward the original DD Form 1057 as directed by HQ USAF/RDC.

(e) Defense Logistics Agency contracting offices shall forward the original DD Form 1057 as directed by HQ DLA.

(f) All other contracting offices of the Department of Defense shall forward the original DD Form 1057 to HQDA (JDHQ-SV-W-P), Washington, D.C. 20310-0600.

(g) Contracting actions of \$25,000 or less which are reportable in accordance with 204.672-2 and are accomplished by contract administration offices shall be handled as follows:

(1) When the contractual instrument is being distributed, a copy shall be clearly annotated "DD Form 1057 Reporting Copy" and shall be forwarded to the appropriate contracting office listed in Appendix N.

(2) Contracting offices shall include data for such instruments in their reports on DD Form 1057.

#### 204.672-4 Terms used.

The terms used on DD Form 1057 will, in all cases, have the same meaning as they do for the purpose of preparing DD Form 350.

#### 204.672-5 Instructions for completion of the DD Form 1057.

##### (a) Heading.

(1) *Month ending*—Enter the year, month and day indicating the ending date of the month reported. Enter each segment as a 2-digit number using 01 through 12 for January through December. For example, for the month ending 30 April 1984, enter 840430.

(2) *Contracting office and mailing address*—Enter sufficient detail to establish the identity of the contracting office submitting the report.

(3) *Reporting office code*—Enter the code assigned to the contracting office pursuant to Volume III of the DoD Procurement Coding Manual. This is the same code that is used for Item A3 of DD Form 350.

##### (4) Number of actions.

(i) Only transactions that obligate or deobligate funds shall be counted. Except as provided in (ii) below, each call or order under a blanket purchase agreement, imprest fund, requirements type contract, or indefinite delivery indefinite quantity contract shall be counted as an action. A definite quantity indefinite delivery contract shall be counted once at the time of award, and orders under such contracts shall not be counted. If it is not possible to determine the price of an order or call when it is placed, it may be counted when the voucher is paid, but care shall be exercised to avoid double counting of such actions.

(ii) For the following transactions, each voucher paid during the report period shall be counted as one action, and no other count shall be reported. (If the voucher is in excess of \$25,000, the action shall be reported on DD Form 350 rather than DD Form 1057):

(A) Meals and lodging;

(B) Automatic deliveries, such as, bread, milk, and ice cream;

(C) Utilities, such as, electricity, gas, and telephone. (Headquarters, Naval Facilities Engineering Command, will submit consolidated reports on utilities contracts for all Naval Shore Establishments).

(5) *Dollar value*. All dollar amounts shall be entered in whole dollars. Do not enter cents. For example, \$2,510.10 or \$2,510.90 shall be reported as \$2,510. Do not enter \$2,510.00 or \$2,510.—. If the net amount is a decrease, enter the symbol "—" immediately preceding the amount to signify a credit entry. Do not enter parentheses.

##### (b) Section A, Contracting actions.

(1) Enter under Lines 1 through 4, the number and value of actions of \$25,000 or less according to type of contractor (i.e., small business, large business, educational and nonprofit institutions), and for work outside the U.S., in accordance with instructions in (2), (3), (4), (5), and (6) below.

(2) Enter on Lines 1.a., 2.a., 3.a., and 4.a., the number and dollar amount of those contracting actions accomplished through sealed bid procedures.

(3) Enter on Lines 1.b., 2.b., and 4.b., the number and dollar amount of those negotiated contracting actions considered for competition where price competition or design or technical competition was present in accordance with the criteria set forth in 204.671-

5(c)(5)(ii) (A) and (B). Small business-small purchase set-asides shall be reported as competitive awards.

(4) Enter on Lines 1.c., 2.c., and 4.c., the number and dollar amount of those negotiated contracting actions accomplished where competition was not present as covered in 204.671-5(c)(5)(ii) (C), (D), and (E). These actions shall also be reported in section B, as appropriate.

(5) Enter on Lines 1.d., 2.d., and 4.d., the number and dollar amount of those negotiated contracting actions meeting the requirements of 204.671-5(C)(5)(ii)(F) which are excluded from the competition base.

(6) Enter on Line 3.b., the number and dollar amount of contracting actions accomplished by negotiation.

(7) Enter under Line 5, and on Lines 6 and 7, the number and dollar amount of contracting actions as appropriate.

(c) *Section B, Set-Aside and local use data.*

##### Line and Description

B01a	Labor Surplus Area or Industry Set-Aside
B01b	Small Business Set-Aside (Unilateral)
B02	For local use
B03a	Small Purchases Set-Aside for Small Business
B03b	For local use
B04	For local use
B05	For local use
B06	For local use
B07	For local use
B08	For local use
B09	For local use
B10	For local use
B11	For local use
B12	For local use
B13	For local use
B14	For local use
B15	For local use
B16	For local use
B17a	Small Business Set-Aside (Joint)
B17b	For local use

Enter on Lines B01a, B01b, B03a and B17a the number and dollar value of actions of \$25,000 or less which were awarded under the type of set-aside indicated. The other lines will be completed as directed by the appropriate Departmental office identified in 204.672-3(a)(3).

(d) *Section C, Research development, test and evaluation actions.* (These actions are also reported in Sections A and B.) Enter the number and dollar amount of contracting actions of \$25,000 or less for research, development, test and evaluation work on Lines 1 through 4. Do not include purchases of supplies or services that are incidental to the fulfillment of RDT&E work but do not require contractor RDT&E performance.

(e) *Section D, Selected other actions.*

(1) Enter on Line 1.a., the number and dollar amount of awards made to small disadvantaged business concerns that were made through the Small Business Administration pursuant to the Small Business Act—Pub. L. 85-536, section 8(a). Entries on this line shall also be reflected on Line 17.b. of Section B.

(2) Enter on Line 1.b., the number and dollar amount of awards made directly to small disadvantaged business concerns.

(3) Enter on Line 2, the number and dollar amount of awards shown in Section A that were made to women-owned small businesses.

(f) *Adjustments.* Revised DD Form 1057 reports shall not be submitted; but the amounts of corrections or adjustments, if required, shall be included in the report of the following month. If the correction or adjustment results in a net reduction of either action or dollar amounts, enter the symbol "CR" following the amount to signify a credit entry.

#### 204.672-6 Instructions for preparing summary punched cards or tape of DD Form 1057 actions, DD-DR&E(M)1015.

Summary of punched cards or tape as prescribed by the Office of the Deputy Assistant Secretary of Defense for Procurement will be submitted to DIOR-WHS by the Departments to cover DD Form 1057 transactions for each month (noncumulative). The instructions for preparing the punched cards or tape are developed by DIOR-WHS with the agreement of the Departments.

#### 204.673 Report of individual contract profit plan (DD Form 1499).

##### 204.673-1 Scope.

This section prescribes the reporting on DD Form 1499 of cost and profit plans on contract actions of \$500,000 or more, negotiated by specified contracting offices. The form provides a basis for analyzing profit patterns and weighted guidelines objectives on defense contracts. As used in this section, the term *cost* includes target cost as well as estimated cost, and the term *profit* includes fee.

##### 204.673-2 Applicability.

DD Form 1499 shall be prepared by each contracting office of the—

(a) Army Materiel Command, Ballistic Missile Defense Systems Command, Defense Supply Service, Washington, and U.S. Army Corps of Engineers;

(b) Air Force Logistics and Systems Commands; and

(c) Naval Air, Sea, and Electronic Systems Commands, Naval Facilities Engineering Command, Naval Regional Contracting Office, Philadelphia. The

form also shall be prepared by the following Navy activities of the Naval Supply Systems Command: Navy Aviation Supply Office, Philadelphia; Navy Ships Parts Control Center, Mechanicsburg; and Naval Regional Contracting Office, Long Beach. Contracting offices located outside the United States, its possessions, and Puerto Rico, under the jurisdiction of the above-mentioned commands, are exempt from this reporting requirement.

##### 204.673-3 Coverage.

(a) A DD Form 1499 shall be prepared by the contracting offices described in 204.673-2 for each negotiation of a contractual agreement involving a separate cost and profit that together total \$500,000 or more. This negotiated total may agree, but not necessarily, with the amount obligated by the contractual instrument. The instrument may be a new definitive contract, an indefinite delivery-type contract, the definitization of a letter contract, or order under a basic ordering agreement, a supplemental agreement, or any other action in which the contracting officer and contractor negotiate an estimated cost and profit. If, in connection with a fixed-price-type contract or contract modification, the contracting officer requires the contractor to submit cost or pricing data pursuant to FAR 15.804-2, a DD Form 1499 shall be prepared showing the contracting officer's best estimate of cost and profit.

(b) If more than one profit rate applies to a negotiation and the amount for each rate is \$500,000 or more, a separate DD Form 1499 shall be used to report data for each rate. If the dollar amount for any profit rate of a multirate negotiation is less than \$500,000, the data for the amount below \$500,000 shall not be reported. If the separation of a contract into different rates produces no portion of \$500,000 or more, a report on DD Form 1499 shall not be submitted.

(c) If any reportable negotiation includes a cost or cost-sharing portion or a firm fixed-price portion not reportable pursuant to (a) above, that portion shall not be reported on DD Form 1499. If the application of this provision fragments an action so that an otherwise reportable portion is less than \$500,000, that portion shall not be reported on DD Form 1499.

(d) A DD Form 1499 shall be submitted if the above conditions are met, even though price competition was used, weighted guidelines were not used, or a supplemental agreement involving cost and profit was executed without changing the profit rate applicable to the basic contract.

##### 204.673-4 Due date and distribution.

(a) Contracting offices shall prepare DD Form 1499 as soon as possible after the date of action, assemble the reports for the month of action, and forward the reports in duplicate within 10 days after the close of the month as follows:

(1) Army: HQDA (JDHQ-SV-W-P), Washington, DC 20310-0600:

(i) Contracting offices under the jurisdiction of AMC and the BMDS Command shall report through U.S. Army Materiel Command, Attn: DRCP-SC, 5001 Eisenhower Avenue, Alexandria, VA 22333;

(ii) Contracting offices under the jurisdiction of the U.S. Army Corps of Engineers shall report through the Office, Chief of Engineers, HQDA (DAEN-PRP), Washington, DC 20314-1000.

(2) Navy: Naval Supply Systems Command (SUP-024B), Washington, DC 20376. Navy contracting offices shall forward the original DD Form 1499 as directed by COMNAVSUP (SUP-024).

(3) Air Force: AFLC/ACOCDSORS, Wright-Patterson Air Force Base, OH 45433.

(b) Prior to submission of DD Form 1499, contracting offices shall review the form and associated contract files sufficiently to insure that all reportable transactions are reported and that reports are complete and accurate.

(c) DD Form 1499 shall be submitted as an unclassified document. If the reporting office considers it necessary to apply a security classification to a DD Form 1499, a communication relating the reasons for the classification shall be submitted to the Office of the Assistant Secretary of Defense (Comptroller), Attn: Directorate for Information Operations and Control, through the appropriate organization in (a) above. In no case shall security classification be considered a reason for not reporting on DD Form 1499.

(d) The reporting requirements of this part are assigned RCS:DDR&E(M)1215.

##### 204.673-5 Specific entries on DD Form 1499.

(a) *Department.* Enter Army, Navy, or Air Force, as appropriate.

(b) *Item 1. Report no.* Each contracting office identified by a separate number in the item 5 code block shall enter a four-digit number assigned consecutively starting with 0001 at the beginning of each fiscal year. This number shall be followed by the last two digits of the fiscal year. Numbers with less than four significant digits shall be preceded by zeros; for example, the fourth report in fiscal year 1984 would be numbered 0004-84. This number identifies a

specific DD Form 1499 and is not related to any DD Form 350 number.

(c) *Item 2, Contract no.* Enter the contract number in items 2.a., b., c., and d., in the manner prescribed for DD Form 350 in 204.671-5(e).

(d) *Item 3, SPIIN.* Enter in item 3 any order, supplemental agreement, or other modification number in the manner prescribed in 204.671-5(b)(2).

(e) *Item 4, Date of action.* Enter in numeric terms the year and month (e.g., 84-03 for 1984 March) when a mutually binding agreement was reached on the estimated cost and profit. For example, this may be the date when—

1) A new definitive contract was awarded,

2) A letter contract was definitized,

3) A supplemental agreement was executed,

4) A change order was definitized, etc.

(f) *Item 5, Contracting office name.* Enter the name of the contracting office submitting the report, and enter in the item 5 code space, the symbol or number assigned to that contracting office in the DoD Procurement Coding Manual, Volume III.

(g) *Item 6, Type of pricing action.* Enter in the item 6 code space Code A for the first reportable action pertaining to a contract, i.e., the award of a new definitive contract, a definitive contract superseding a letter contract, or an indefinite delivery-type contract. Enter Code B for all other types of actions, including orders under basic ordering agreements.

(h) *Item 7, Contractor identification.* Enter the complete name of the concern and, if applicable, the name of the division to which the award was made. Enter in the item 7 code space the first six digits of the contractor code as shown in the DoD Procurement Coding Manual, Volume II DUNS number. If the contractor is not listed in the manual, no code shall be entered by the contracting office.

(i) *Item 8, Principal place of performance.* Enter the actual location of the plant or place of business where the items will be produced or the service rendered in accordance with instructions in 204.671-5(b)(5). Enter in the item 8 code space the city and state codes shown for the contractor at the specified location in the DoD Procurement Coding Manual, Volume II. If the contractor's name is not listed in the manual, or is listed for a location or locations other than the one reported, no code shall be entered by the contracting office.

(j) *Item 9, Federal Supply Class or Service Code.* Enter the appropriate Federal Supply Class or Service Code

from the DoD Procurement Coding Manual, Volume I, in accordance with instructions prescribed for item 10A of DD Form 350 in 204.671-5(b)(8)(i).

(k) *Item 10, DD claimant program No.* Enter in the item 10 code space the code from the DoD Procurement Coding Manual, Volume I, Section III, that describes the commodity or service called for by the contract.

(l) *Item 11, Weighted guidelines category.* Enter in the item 11 code space only one of the Codes A, B, C, or D, to identify the weighted guidelines applicable to the reported action.

(m) *Item 12, Type of contract.* Enter in the item 12 code space only one of the codes A, J, K, L, R, U, or V to show the pricing provisions applicable to the reported action. If more than one type of pricing applies to a single negotiation, the provisions of 204.673-3 (c) and (d) apply. That is, separate DD Forms 1499 shall be prepared for each type of pricing involving a cost and profit totaling \$500,000 or more. DD Forms 1499 shall not be prepared for types of pricing with less than aggregate cost and profit of \$500,000, cost-no-fee, or firm fixed-price without a negotiated cost and profit.

(n) *Item 13, Negotiation summary.*

(1) Enter dollar amounts applicable to lines a. through f. as proposed by the contractor, the Government's objective, and the negotiated amounts. These entries shall be to the nearest whole dollar; do not show cents, or make entries involving cent positions. For example, \$568,035.54 shall be entered as \$568,036 and not as \$568,036.00; \$500,500.49 shall be entered as \$500,500.

(2) The dollar entries shall reflect the entire reportable amounts negotiated in the contractual agreement, not merely the portion obligated. Thus, awards contemplating incremental funding shall be reported as total negotiated cost and profit at the time of initial award, not as the amounts initially obligated. However, amounts applicable to options for additional quantities shall be excluded unless the options are exercised. When options are exercised, a report shall be submitted if the amounts meet the dollar threshold of 204.673-3.

(3) For cost-plus-award-fee (CPAF) contracts, only the base fee shall be reported.

(4) For indefinite delivery-type contracts, the amounts reported shall reflect the best estimate of the annual requirement on the first reportable delivery order.

(5) Enter on line g. the cost of money percentage rate proposed by the contractor, obtained from block 1 of the CASB-CMF form. The objective and

negotiated rate will be the cost of money percentage rate used on the DD Form 1861.

(o) *Item 14, Weighted guidelines profit factors (see DD Form 1547).* If weighted guidelines are used, show the measurement base and profit/fee dollars in whole numbers in accordance with (n) above. If the weighted guidelines are not used to develop the prenegotiation profit objective, enter the measurement bases on line a. and complete only lines e., f., and g. The manufacturing guidelines adjustment, line a. (11), shall be completed only for contracts coded A in item 11 and must equal 30 percent of the amount entered on line a. (10). The cost of money adjustment, line e., shall be completed for all contracts coded B, C, or D in item 11 and must equal the objective amount in item 13.b.

## Subpart 204.7—Contractor Records Retention

### 204.706 Microfilming records.

#### 204.706-1 General.

(d)(2) The ACO, with advice of DCAA, may agree to a lesser retention period where the contractor has established adequate internal controls including continuing surveillance over the microfilm system.

## Subpart 204.8—Contract Files

### 204.801 General.

(c)(3) Purchasing and contract administration offices shall file in the contractor general file those documents accumulated or created by them which pertain in general to a contractor or prospective contractor, and those which relate to two or more contracts and which due to their nature should not or need not be filed with an individual contract file. (As appropriate, however, copies of such documents are filed with or cross-referenced in the related contract files.) This file shall include, as applicable, preaward surveys, reports, correspondence, and other records documenting the contractor's capabilities, past performance, accounting system, pricing method, quality assurance procedures, labor policies, insurance programs, and equal opportunity and comparable policies, programs, and systems that serve as a general source of information on a contractor's current and future capability or responsibility.

(c)(S-70) *Contract cross reference/locator file.* This file consists of Contract Cross Reference Data Forms (DD Forms 1592) maintained as prescribed in 204.802-73.

**204.802 Contract files.**

(a)(1) Authenticated or conformed copies of contractual instruments and signed or official record copies of correspondence, memoranda, and other documents shall be used in compiling the official files. Authenticated copies are documents shown to be genuine by certification as a true copy by signature of an authorized person or by official seal. Except to the extent that contract clauses or specifications are incorporated by reference, conformed copies are complete and accurate copies of the contractual instrument, including the date of execution and the names and titles of signatories. Documents reproduced by fast-copy process that deteriorates when exposed to excessive heat or light shall not be included in the official file.

(c)(4) When the bulk of the material is unclassified, classified material relating to the same contract shall be maintained in a separate file folder and container, and the unclassified folder marked or cross-referenced to indicate the location of the classified material. The front and back of each folder containing classified material shall be marked with the highest classification assigned to any of the documents in the folder.

**204.802-70 Use of standard file folders for drawer and shelf filing.**

(a) For all short duration contracts and for small purchase files, standard letter-size folders shall be used. For complex long-duration high-dollar value contracts, heavy individual or 6-part partitioned folders, with front and back flaps, two dividers, expansion gussets between flaps and dividers, and fasteners mounted at the top of the insides of the flaps and on each side of the dividers, may be used.

(b) Loose dividers (file inserts), pre-punched at the top for fastening documents, may be used for subdividing material within the same folder when special folders are not used.

**204.802-71 Filing of documents.**

(a) Documents relating to a specific contract and described in FAR 4.803 (a), (b) and (c) should normally be placed in chronological order in an "OFFICIAL FILE" folder or folders. Each folder shall be marked or labeled with the procurement instrument identification number and, when more than one folder is required for the same contract, with information as to the file segment. Other identifying data, such as the contractor's name, should be added only when needed to facilitate filing and locating.

(1) A separate folder need not be established for each subcontract, mechanized small purchase, or small

dollar value contract, on which little or no administration is required; these should be filed in numerical sequence within the same folder.

(2) When a single folder is used, basic procurement documents and all modifications ordinarily should be filed on the left side of the folder and all other material on the right side. As volume warrants, a contract file may be subdivided further, either within the folder or by using additional folders, as appropriate. The following are examples:

(i) For the purchasing office, by pre-contract documents, basic contract, contract modifications, termination documents, general correspondence, and other; and

(ii) For the contract administration office, by basic contract, contract modifications, quality assurance and progressing and production surveillance, property administration and plant clearance, termination documents, and general correspondence. Documents shall be arranged chronologically within each section or folder.

(3) When it is impractical to file certain documents in the official case folder because of their bulk or use, they may be maintained separately in other suitable containers, but they shall be handled as "OFFICIAL FILES" and cross-referenced in the contract case file.

(4) Documents relating to two or more contracts may be filed in one contract file and cross-referenced in the others, or enough copies reproduced to provide for filing one in each related contract file. Other pertinent documents of a more general nature may be filed separately in the contractor general file and cross-referenced in the contract file.

(b) Documents described in 204.801(c)(3) and relating generally to the contractor rather than to a specific contract shall be placed in a folder labeled with the contractor's name. When necessary, additional folders may be used and the material subdivided by subject, such as general, production, termination, property control, and performance.

**204.802-72 Arrangement of files.**

(a) Contract file folders normally should be arranged numerically by contract serial number. Under the Department of Defense uniform procurement instrument identification numbering system (see 204.70), the 10th through the 13th digits are the serial number. Large numbers of contract files (10,000 or more) are best arranged by the terminal digit filing method, using the four-digit serial number. When special circumstances warrant, contract folders

may be arranged alphabetically by contractor's name, by commodity, or by type of contract, and thereunder numerically.

(b) Contractor general file folders shall be arranged alphabetically by name of the contractor.

**204.802-73 Contract cross reference/locator system.**

(a) Contract administration offices shall maintain a contract cross reference/locator system, manual or mechanized as appropriate. For a manual system, Contract Cross Reference Data (DD Form 1592), which is a two-part carbon interleaved form, shall be used as follows:

(1) For a prime contract, one set shall be prepared, the original filed alphabetically by contractor's name, and the duplicate filed numerically by contract number, using the terminal digit filing method when contract files are so maintained;

(2) For a subcontract, two sets shall be prepared, one set filed as in (1) above, and the other set filed by subcontractor's name and subcontract number;

(3) Additional information as necessary shall be included under "Remarks," such as dollar value, contract type, brief description of item or service, special or limited administration requirements, secondary inspection office, and security classification.

(b) Offices, other than contract administration offices, which require a contract cross-reference/locator system to meet reference requirements or other special needs also shall use the system prescribed in (a) above.

**204.803 Contents of contract files.**

(a) Contracting office contract file.

(a)(8) Drawings and specifications should be included with the solicitation or referenced therein.

(a)(23) Exceptions or exemptions from the Buy American Act or appropriations act restrictions.

(a)(37) When applicable, a Contract Completion Statement (DD Form 1594) shall be included.

(a)(38) Termination documents include—

(i) Recommendation or request to terminate together with reason for terminating, and, in the case of major contracts, plans therefor.

(ii) Review board actions accomplished by the purchasing office.

(iii) Copy of termination notice.

(iv) Documents supporting termination actions taken when terminated for default, such as notice of possible

termination, show cause letter and reply, and record of conferences, if any.

(v) Record of repurchase, including written demand to contractor for excess costs.

(a)(S-70) *Verification of requirements.*

(b) *Contract administration office contract file.* The extent to which the following list shall apply depends upon the type of contract, dollar value, and functions assigned to the contract administration office.

(b)(3) This includes the Contract Security Classification Specification (DD Form 254).

(b)(14) Progressing, expediting, and production surveillance records (these are to be maintained separately to facilitate their early disposal as prescribed in FAR 4.805(g)). They include such records as—

(i) Production plans and delivery schedules.

(ii) Progress or status reports.

(iii) Advice of delays or delinquencies, and of corrective and production follow-up actions.

(iv) Documents reflecting deliveries or production completion.

(b)(15) Quality assurance/control (inspection) records used in planning, conducting, and recording product verifications, testing, reviewing quality programs and plans, evaluating procedures and processes or technical performance, and effecting corrective actions, where required (these records are to be maintained separately for earlier disposal); they include:

(i) Quality assurance records, such as:

(A) Reference to Contractor's Quality Program document, and disapproval, if any.

(B) Subcontract inspection control records (request for source inspection, and waiver of usual inspection procedure).

(C) Inspection requests, agreements, and assignments.

(D) Requests for waivers and deviations, and copy of approvals or disapprovals, if any (including Material Review Board decisions).

(E) Required inspection and test reports.

(ii) Quality control (inspection) records, such as:

(A) Quality program review reports (procedures and processes evaluation, periodic quality assurance survey).

(B) Government inspection and test reports.

(C) Authority to ship and acceptance documents (e.g., DD Form 1384, Transportation Control and Movement Document; DD Form 250, Material Inspection and Receiving Report; DD Form 1155, Order for Supplies or Services/Request for Quotations);

routing requests and orders, and shipment copies of bills of lading (DD Form 250 may be excluded when maintained in paying office file and paying office is located at the contract administration office).

(D) Reports of unsatisfactory material and corrective actions, and reports of damaged or improper shipments.

(E) Other papers necessary to document the quality control or inspection function.

(b)(16) Property administration records used in the administration of Government property provisions of the contract (these are to be maintained separately for disposition). These include—

(i) Contract number, type of contract, and contractor name and address.

(ii) Name and dates of tenure of administrative contracting officer(s) and property administrator(s).

(iii) End item(s) and points of inspection and acceptance.

(iv) Record of contract clauses, amendments and changes pertaining to Government property.

(v) Record of contract clauses pertaining to contractor's liability.

(vi) Record of written approval of contractor's property control system or withdrawal of approval and cause, dates system approval reinstated, and deviations granted.

(vii) Listing and type of subcontracts which involve Government property or reference to location of such information.

(viii) Record of secondary administration assignments.

(ix) Record of system surveys performed, deficiencies found and corrective action taken.

(x) Record of property audits and inspections.

(xi) Record of findings and determination that inventory adjustments are reasonable.

(xii) Records of investigation and recommendations of the property administrator, and written advice of the administrative contracting officer on cases involving contractor's liability for Government property lost, damaged, destroyed, or consumed in unreasonable quantities.

(xiii) Original of final property administration clearance statement executed by the property administrator or other relief from assignment documentation.

(xiv) Reports relating to Government property.

(xv) Correspondence, messages, memoranda of calls and visits, and any additional documents pertinent to Government property.

(b)(17) Documentation regarding termination actions for which the contract administration office is responsible, including, as appropriate—

(i) Termination authority and instructions.

(ii) Copy of termination notice.

(iii) Record of initial meeting with contractor.

(iv) Contractor's request, and approval thereof if other than inventory basis is to be used.

(v) Settlement Proposal.

(vi) Application for Partial Payment and approval thereof, together with record of security required.

(vii) Record of the examination of prime contractor and subcontractor proposals, including engineering analysis, audit report or waiver, and request therefor.

(viii) Request to plant clearance office for action on inventory schedules.

(ix) Request from prime contractor for authority to settle subcontractor proposals without approval or ratification of contracting officer, and actions thereon.

(x) Recommendations by prime contractor covering subcontractor's proposal.

(xi) Approval of subcontractor's proposed settlements.

(xii) Record of plant clearance actions, such as verification of and determination of allocability and allowability of inventory schedules, record of inventory redistribution and disposal actions including diversion, screening, scrap determination, sale, abandonment, donation, and storage, as appropriate.

(xiii) Contracting officer's negotiations memorandum (presentation to Settlement Review Board).

(xiv) Required approvals by Settlement Review Board or others.

(xv) Settlement agreement, including record of any exceptions and, when agreement was not reached, a copy of determination by the contracting officer and written supporting evidence.

(xvi) Documents supporting termination actions taken when termination for default, such as notice of possible termination, copy of show cause letter and reply, and record of conference.

(b)(20) When applicable, this includes the Contract Completion Statement (DD Form 1594).

(c) *Paying office contract file.*

(2) Supporting documents may include:

(i) Shipment, acceptance, or receiving reports, such as DD Forms 250 and 1155 (Note.—File DD Forms 250 and 1155 as a separate file series when it will facilitate

compilation of contract status and statistical reports), and

(ii) Authorizations for advance and progress payments.

**204.804-1 Closeout by the office administering the contract.**

(a)(S-70) *Closed Contracts.* Firm Fixed Price Unilateral Purchase Orders are closed when evidence of physical completion is received by the PCO. All other contracts are closed when they are physically complete and when all administrative actions are taken, including the accomplishment of one of the two Contract Completion Statements, DD Form 1594 or MILSCAP Format Identifier PK9.

(a)(S-71) Time standards established in FAR 4.804-1(a) are based upon the time required for closing the majority of contracts. It is recognized that delays beyond the above standards may occur (such as in the case of terminations). Where delays occur, contracts shall be reported in accordance with 204.804-4.

**204.804-4 Physically completed contracts.**

Status of Physically Completed Unclosed Contracts. Contract Administration Offices shall advise the appropriate procuring contracting officers within 15 days after the end of the month following the month in which a physically completed contract has not been closed within the time periods specified in FAR 4.804-1. This advice shall include the reasons for the delay, and the target date which has been set for closing. If the contract is not closed by the target date specified, the contract administration office shall, unless information is requested earlier by the PCO, advise the PCO of the reasons for the further delay and the new target date. MILSCAP Format Identifier PKX, Unclosed Contract Status, shall be used to provide this advice to the PCO when MILSCAP procedures apply.

**204.804-5 Detailed procedures for closing out contract files.**

(a)(S-70) *When purchasing office administers the contract.* When the purchasing office administers a contract, that office is responsible for insuring that all required purchase actions and contract administration have been completed, utilizing as necessary DD Form 1597, Contract Closeout Check-List, and DD Form 1593, Contract Administration Completion Record. When all required actions have been completed, the purchasing office shall prepare DD Form 1594, or MILSCAP Format Identifier PK9, Contract Completion Statement, for all contracts in excess of \$10,000. The Contract Completion Statement shall be made a

part of the official contract file. For all contracts not in excess of \$10,000, the contracting officer shall include in the contract file a statement that all contract actions have been completed. The completed form or statement is authority for closing out of the contract file. The file shall be closed out as provided in 204.804-70(a)(2).

(a)(S-71) *When purchasing office does not administer the contract.* When the purchasing office does not administer a contract, that office, upon receipt of DD Form 1594, or MILSCAP Format Identifier PK9, Contract Completion Statement, from the Contract Administration Office (see 204.804-5(b)(3)) shall insure that all actions required of the Purchasing Office have been completed, shall then complete Item 10 of the DD Form 1594, or where the MILSCAP PK9 is used, prepare a statement that all contract actions have been completed, and shall make the completed form or statement a part of the official contract file. The completed form or statement is authority for closing out the purchasing office contract file. Closeout of the file shall be effected as provided in 204.804-70(a)(2). The date in Item 9d of DD Form 1594, or Columns 59-65 of the MILSCAP Format Identifier PK9, Contract Completion Statement, shall be used as the closeout date for file purposes, except that the date in Item 10e of DD Form 1594 or the date of the closeout statement when the MILSCAP PK9 is received shall be used when completion of any pending significant purchasing office action extends more than three months beyond the date shown in Item 9d of DD Form 1594 or Columns 59-65 of the MILSCAP PK9. In the latter case, the purchasing office shall advise the contract administration office of the revised closeout date by sending a reproduced copy of the completed DD Form 1594, or by preparation of MILSCAP Format Identifier PKZ, Contract Closeout Extension.

(b) With respect to all contracts which the contract administration office administers, that office is responsible for insuring that all contract administration has been completed and for initiating closeout action. The organizational element to which this responsibility is assigned shall proceed as follows upon determination or advice (such as by final DD Form 250 or other final report) that the contract has been fully performed (including final payment) or has been terminated completely:

(1) Prepare DD Form 1597, Contract Closeout Check List, when necessary to determine that all required actions have been accomplished.

(2) If appropriate, initiate DD Form 1593, Contract Administration Completion Record, to obtain statements from other organizational elements certifying completion of actions required of each (normally a single copy should be routed in turn to offices concerned, but separate forms may be routed when necessary, such as when closeout actions may be complex and extensive or when offices are at different locations).

(3) Upon determination of final completion, process MILSCAP Format Identifier PK9 or complete Items 1 through 9 of DD Form 1594 certifying that all contract administration office actions have been fully and satisfactorily accomplished, and forward the original of the form to the purchasing office (which will utilize it to close out its contract file).

(4) Retain one copy of the completed form, which is authority for closing out the contract administration file.

**204.804-70 Review, separation, and retirement of completed contract files.**

(a) Upon determination of contract completion under the procedures outlined in FAR 4.804 and 204.804 above, each office shall review all files pertaining to the individual contract as described below. For disposal criteria, see FAR 4.805.

(1) *Duplicate or working contract case file*—remove any original or official file copies of documents and place them in the appropriate "official" file; destroy immediately any remaining material, or segregate and mark it for early disposal.

(2) *Official contract case file*—remove folder for completed contract from the active file series, mark each folder or folder tab "Completed (Date)" and place folder in completed (inactive) contract file series; separate series should be established for contracts of \$10,000 or less and for contracts of more than \$10,000, to facilitate later disposal.

(3) *Cross reference/locator files*—remove any contract cross-reference data forms relating to the completed contract, mark each "Completed (Date)" and place them in completed (inactive) cross reference/locator file series for later disposal.

(b) *Review of contractor general files.* Each office shall review contractor general files at least once annually and—

(1) Remove obsolete and superseded documents relating generally to the contractor (e.g., documents no longer pertinent to any aspect of contractor's current or future capability, performance, or programs, and documents relating to a contractor who

is no longer a possible source of supplies, services, or technical assistance) and dispose as authorized.

(2) Remove any documents pertaining only to completed contracts, place those not routine in nature in inactive contractor file for later disposal and immediately dispose of routine documents as authorized.

(c) *Retirement of completed files.* Completed files series shall be cut off at least annually, and new series begun to facilitate destruction in blocks—normally annual blocks. The cut-off series shall be held in the office maintaining the records for an additional period not to exceed one year and then stored locally in recordholding or staging areas, if available, until they are eligible for destruction (see FAR 4.805); when such space is not available, the files shall then be transferred to the General Services Administration Federal Records Center servicing the area. Completed cross reference/locator files shall be held locally until eligible for destruction.

#### 204.805-70 Disposal of duplicate or working contract or contractor files.

Duplicate copies of official file documents and extraneous materials not required or appropriate for filing in official files shall be destroyed as soon as they have served their purpose, when actions which the file facilitated have been taken, or upon physical completion or final payment under the contract, as appropriate. In no case shall such copies be retained for longer than one year after final payment under the contract. However, pricing review files containing documents related to reviews of contractor price proposals, subject to certification of cost or pricing data (see FAR 15.804-2), shall not be destroyed before the expiration of 6 years from the date of final payment under the contract. If conditions exist, however, which do not permit cross-referencing the pricing review file to the official contract file to determine the date of final payment, the pricing review file will, in that case, be retained for 9 years following completion of the proposal review.

#### 204.805-71 Disposal of contract cross reference/locator files.

Completed contract cross reference/locator files shall be destroyed at the same time as the related contract file, or when they are no longer required as contract cross-reference/locator.

### Subpart 204.70—Uniform Procurement Instrument Identification Numbers

#### 204.7001 Scope.

This subpart prescribes procedures for assigning identifying numbers to all contracts and to other instruments related thereto, including solicitation documents and delivery orders, issued pursuant to this supplement. This subpart does not apply to procurement instruments issued by the Defense Commercial Communications Office, Defense Communications Agency. The provisions of this subpart are optional where the procurement instrument will be completely administered by the purchasing office or the consignee, except that as a minimum such instrument numbers shall not exceed 19 characters (excluding hyphens) for the procurement instrument identification number including any supplemental modification or other identification number, and such instrument numbers shall commence with the identification of the purchasing office and the fiscal year, in accordance with 204.7003-2 (a) and (b) and Appendix N.

#### 204.7002 Policy.

(a) The uniform procurement instrument identification (hereafter referred to as PII) numbering system as prescribed in this subpart shall be used for instruments of the types listed in 204.7003-1(c), 204.7004-2, 204.7004-3, and 204.7004-4.

(b) Numbers, including Federal Supply Contract Numbers and any prescribed supplementary numbers, shall be placed in spaces provided on the applicable procurement forms, with major elements separated by dashes; for example, DABE01-66-M-0001. If a space is not otherwise provided, the prescribed numbers shall be placed in the upper right-hand corner of the form.

(c) Alpha-numeric characters, other than those prescribed in this subpart, shall not be used as a part of the PII numbering system. If other identification is required in accordance with Departmental procedures, it shall be placed on the procurement instrument in such a location as to clearly separate it from the PII number prescribed herein.

#### 204.7003 Basic procurement instrument identification number.

##### 204.7003-1 Elements of number.

The basic PII number should be retained unchanged for the life of the particular instrument and shall consist of 13 alpha-numeric characters positioned as follows:

(a) The first 6 positions shall commence with the capital letters

assigned to the Department preparing the instrument as follows:

DA Department of the Army  
F Department of the Air Force  
DCA Defense Communications Agency  
N Department of the Navy (except Marine Corps)  
MO, M1 Marine Corps  
M2, M6:  
DLA Defense Logistics Agency  
DNA Defense Nuclear Agency  
DMA Defense Mapping Agency  
MDA Miscellaneous Defense Activities

The remainder of the first 6 positions shall be the alpha-numeric characters which, together with the Departmental identification shown above, identify the activity preparing the instrument. All 6 positions shall be used. If necessary, nonsignificant zeros shall be placed between the Department identifier and the activity identifier. A listing of applicable numbers is contained in Appendix N.

(b) The 7th and 8th positions shall be the last two digits of the fiscal year in which the PII number is assigned.

(c) The 9th position shall be a capital letter assigned to indicate the type of instrument code, as follows:

A Blanket Purchase Agreements  
B Invitation for Bid  
C Contracts, including Letter Contracts, contracts incorporating basic agreements, and contracts providing subsequent provisioning, but excluding Indefinite Delivery Type Contracts  
D Indefinite Delivery Type Contracts  
E Facilities Contract  
F Delivery orders placed with or through other Government Departments or agencies or against contracts placed by such Departments or agencies (i.e., outside the Department of Defense and including blind-made supplies)  
G Basic Ordering Agreements  
H Agreements, including Basic Agreements  
K Short Form Research Contract  
L Lease Agreement  
M Purchase Order—manual (assign W when numbering capability of M becomes exhausted during a fiscal year)  
N Notice of Intent to Purchase  
P Purchase Order—automated (assign V when numbering capability of P becomes exhausted during a fiscal year)  
Q Request for Quotation—manual  
R Request for Proposal  
S Sales Contract  
T Request for Quotation—automated (assign U when numbering capability of T becomes exhausted during a fiscal year).

The letters X, Y and Z are reserved for Departmental use.

(d) The 10th through 13th positions shall be the serial number of the instrument. A separate series of serial numbers may be used for any type of instrument listed in (c) above. Each such series of PII numbers for the same

activity shall commence with the number 0001 at the start of each fiscal year. Alpha-numeric serial numbers shall be used when more than 9,999 numbers are required. Alpha-numeric numbers shall be serially assigned with an alpha in the first (or first and second) position followed by the three (or two) position numeric serial number. The following alpha-numeric sequence shall be used (the letters I and O shall not be used):

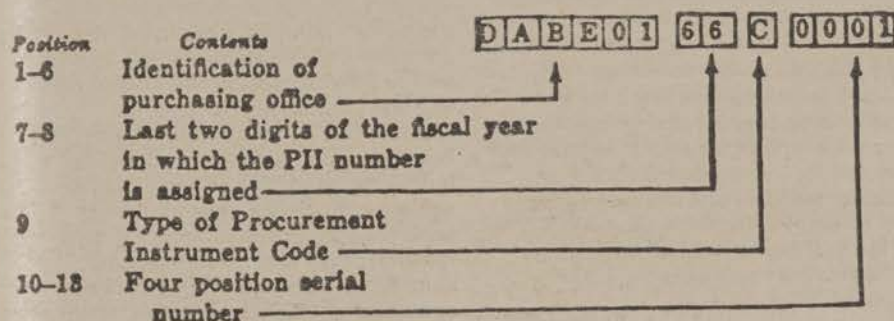

A001 through A999, B001 through B999, and so on to Z001 through Z999;

then AA01 through AA99, AB01 through AB99, and so on to AZ01 through, AZ99; then BA01 through BA99, BB01 through BB99, and so on to BZ01 through BZ99; and so on to

ZA01 through ZA99, ZB01 through ZB99, and so on to Z001 through ZZ99.

#### 204.7003-2 Illustration of number.

The following illustrates the configuration of the PII number as prescribed in 204.7003.

#### 204.7004 Supplementary procurement instrument identification numbers.

##### 204.7004-1 Uses of the number.

Supplementary numbers, used in conjunction with basic PII numbers, shall be employed to identify:

(a) Amendments to solicitation documents;

(b) Modifications of contracts and agreements (Provisioned Item Orders will be treated and numbered as modifications); and

(c) Calls/orders under contracts (except Federal Supply Schedule contracts), under basic ordering agreements and under blanket purchase agreements.

##### 204.7004-2 Amendments to solicitation documents.

Amendments to each solicitation document shall be sequentially numbered by use of a four position numeric serial number supplementary to the basic PII number, commencing with 0001.

##### 204.7004-3 Modifications of contracts and agreements.

(a) Contract modifications, as defined in FAR Subpart 43.1, and modifications to agreements shall be numbered by use of a six-position alpha-numeric number supplementary to the 13-position basic PII number as follows:

(1) The first position shall be a capital letter identifying the issuing office and the type of modification as indicated below:

- A Contract Administration Office modifications
- P Purchasing Office modifications

(2) The second through sixth positions shall be a serial number. The second and third positions may be alpha or numeric, except that the letters K, L, M, N, P, S, T, U, V, W, X, Y and Z are excluded and reserved for the express purposes as follows:

(i) For a definitized letter contract the second position shall be a Z; in other words, the letter Z will be used only for that modification which represents the definitized contract. The serial numbers of modifications occurring after the definitization will continue the sequence in the manner provided in this paragraph, without the letter Z.

(ii) Only the letters T, U, V, W, X, or Y may be used in the second position when a modification is issued providing initial shipping instructions or amending those shipping instructions previously issued in those cases in which the contract provides delivery FOB origin and no price change is involved. Modifications shall be serially numbered by each issuing activity. The foregoing is not mandatory on purchase

offices that issue and control all modifications.

(iii) The letter S only may be used in the second position when a modification is issued providing initial or amended shipping instructions in those cases in which the contract provides delivery FOB destination or the contract provides delivery FOB origin and a price change is involved. Each modification shall be serially numbered.

(iv) The letters K, L, M, N, P, and Q are reserved for the exclusive use of the Air Force only in the second position for a Provisioned Items Order. Provisioned Items Orders shall be serially numbered by each issuing activity.

(v) The fourth through sixth positions shall always be numeric. A separate series of serial numbers shall be used for each type modification listed in (1) and (2) (i), (iii), and (iv) above. The modifications issued by an activity for a contract shall be numbered as set forth below:

Normal modification	Provisioned items order (reserved for exclusive use by the Air Force only)	Shipping instructions
00001-99999 then A0001-A9999 B0001-B9999 and so on to H0001-H9999 then J0001-J9999 then R0001-R9999 then AA001-AZ999 then JA001-JZ999 RA001-RZ999	K0001-K9999 KA001-KZ999 L0001-L9999 LA001-LZ999 M0001-M9999 MA001-MZ999 N0001-N9999 NA001-NZ999 P0001-P9999 PA001-PZ999 then Q0001-Q9999 QA001-QZ999 then X0001-X9999 XA001-XZ999 Y0001-Y9999 YA001-YZ999	S0001-S9999 SA001-SZ999 T0001-T9999 TA001-TZ999 U0001-U9999 UA001-UZ999 V0001-V9999 VA001-VZ999 W0001-W9999 WA001-WZ999 X0001-X9999 XA001-XZ999 Y0001-Y9999 YA001-YZ999

(3) ARZ999 is the six-position alpha-numeric number to be utilized the first time the office of administration or disbursement is being changed by use of computer generated modifications initiated by a CAO. The second change will utilize ARZ998, the third change ARZ997, and so forth. This method will only be utilized when mass changes are required.

(b) Supplementary identification numbers for modifications shall be assigned in consecutive chronological sequence by each issuing office authorized to issue modifications. To assure chronological assignment, modification numbers shall be assigned only after it has been determined that a modification is to be issued.

**204.7004-4 Delivery orders under indefinite delivery type contracts, orders under basic ordering agreements, and calls under blanket purchase agreements.**

(a) Delivery orders under indefinite delivery type contracts (orders), orders under basic ordering agreements (orders), and calls under blanket purchase agreements (calls) shall be identified by a four-position alphanumeric "call/order serial number" which is supplementary to the 13-position basic PII number.

(1) Calls/orders issued by the purchasing office identified in the basic PII number shall be assigned numeric call/order serial numbers, beginning with 0001 through 9999.

(2) Calls/orders issued by an office other than the purchasing office identified in the basic PII number shall be assigned alphanumeric call/order serial numbers as follows:

(i) The first and second position shall be the alpha-numeric call/order serial number assigned to Appendix N to the activity issuing the call/order. The letters A, I, O, and P shall not be used in the first position; however, A and P may be used in the second position.

(ii) The third and fourth positions shall be a serial number assigned by the issuing activity. The first call or order issued each contract or agreement shall be numbered 01. After the serial number 99 is used, a uniform series of numeric/alpha, alpha/numeric, and finally alpha serial numbers shall be assigned as follows (the letters I and O shall not be used):

1A, 1B, and so on to 1Z, then 2A, 2B, and so on to 2Z, and so on to  
9A, 9B, and so on to 9Z, followed by  
A1, A2, and so on to A9, then B1, B2, and so on to B9, and so on to  
Z1, Z2, and so on to Z9, followed by  
AA, AB, and so on to AZ, then BA, BB, and so on to BZ, and so on to  
ZA, ZB, and so on to ZZ.

(b) If it is necessary to modify a call/order, a two-position alpha-numeric suffix (known as the call/order modification indicator) shall be added to the supplementary PII number as follows (the letters I and O shall not be used):

(1) Modification to a call/order—issued by the purchasing office, excluding any modification providing shipping instructions in those cases described in (2) and (3) below—01, 02, and so on through 99, then B1–B9, BA–BZ, C1, and so on through NZ and Z1 through ZZ;

(2) Modification to a call/order issued by a purchasing office providing initial or amended shipping instructions in those cases in which the call/order provides for delivery FOB destination or

delivery FOB origin and a price change is involved—P1, P9, PA–PZ, Q1–Q9, QA–QZ, etc., through TZ;

(3) Modification to a call/order issued by a purchasing office providing initial shipping instructions or amending those shipping instructions previously issued in those cases in which the call/order provides delivery FOB origin and no price change is involved—U1–U9, UA–UZ, V1–V9, VA–VZ, and so on through YZ; and

(4) Modifications to a call/order issued by a Contract Administration Office (CAO) will begin with 1A, 1B, and so on to 1Z; then 2A, 2B, and so on to 2Z; and so on to 9A, 9B, and so on to 9Z, followed by A1, A2, and so on to A9; then AA, AB, and so on through AZ. AZ will be utilized the first time a modification is generated by mechanical means (computer program) to change the name of the administration office or disbursing office. The second change will utilize AY, the third change AX, and so forth. This method will only be utilized when mass changes are required.

**Subpart 204.71—Uniform Contract Line Item Numbering System**

**204.7101 Scope of subpart.**

This subpart prescribes procedures for establishing and numbering all items of supplies or services set forth in contracts and in other documents related thereto issued pursuant to this supplement.

**204.7102 Policy.**

(a) These procedures provide criteria for establishing and numbering contract line items, contract subtitle items, exhibits, exhibit line items, and exhibit subtitle items.

(b) The procedures prescribed in this subpart shall be used in contracts (as defined in FAR 2.1) and in provisioning and other documents which are expected to become parts of contracts.

(c) When practicable, these procedures also shall be used in solicitations and other contractual documents.

(d) These procedures are mandatory for all contracts except as follows:

(1) When no postaward contract administration function on the specific contract is assigned to any office listed in DoD Directory of Contract Administration Services Components;

(2) Indefinite delivery type contracts for petroleum products under which posts, camps, and stations issue delivery orders for such products for their own use; or

(3) Communication Service Authorizations issued by the Defense

Commercial Communications Office, Defense Communications Agency.

(e) For cost-reimbursement type contracts, the provisions of this subpart apply except for the requirements in 204.7103-1(a)(1) and 204.7104-2(c)(2) for a single unit price or single total price or amount for each contract line or subtitle item.

(f) For maintenance and repair service type contracts in which firm prices for elements of the total price of an item are established but the number and quantity of such elements performed in order to determine the final item price to be paid are not known until performance (for example, a labor-hour contract), the provisions of this subpart apply except for the requirements in 204.7103-1(a)(1) and 204.7104-2(c)(2) for separate contract line items or subtitle items because of unit price differences for individual quantities of a line item or subtitle item. In lieu of establishing separate contract line items or subtitle items because of price differences, contractual documents for these types of contracts may be structured to reflect a firm or estimated total item amount for each such line or subtitle item only (omitting unit price).

**204.7103 Contract line items.**

**204.7103-1 Criteria for establishing.**

(a) Requirements for supplies or services shall be established as contract line items. Each contract line item shall:

(1) Have, or be anticipated to have, a single unit price or, if no unit price is established, a single total price or amount (unless associated subtitle items of other than an informational nature are separately priced in accordance with 204.7104-2(c)(2), in which case, no price shall be assigned to the contract line item, except for informational purposes unit prices and/or amounts may be entered in parentheses within the item description block); however, the unit price may be entered as "NSP" (not separately priced); *Provided*, the price of this item is included in the unit price of another contract line item;

(2) Be separately identifiable, i.e., no more than one National Stock Number, one item description, one Manufacturer's Part Number, etc., for a supply line item, or no more than one Scope of Work, one Description of Services, etc., for a services line item (unless this identification is provided by associated subtitle items of other than an informational nature; in which case, a general narrative description shall be assigned to the contract line item number and the subtitle item shall include the actual detailed identification

in accordance with 204.7104-2(c)(3)); and

(3) Have a separate delivery schedule, period of performance or completion date expressly stated in the procurement instrument ("as required" is an expressly stated delivery schedule) unless there are associated subline items of other than an informational character that meet this requirement. (When a requirement has multi-delivery dates or multi-destinations or multi-performance dates/points, that factor alone shall not require but does not preclude establishment of more than one contract line item. However, when more than one delivery date and/or more than one destination are identified to a single contract line item, the delivery schedule will specify delivery dates for the item by the destination when established, or individual contract line items may be established for each destination and/or delivery date and/or requisition.)

(b) As an alternative to setting forth in the Schedule an extensive list of contract line items, they may be shown in a contract exhibit as exhibit line items (see 204.7105 and 204.7106). In these cases, a Contract Line Item Number (CLIN) which references the exhibit will be assigned in the Schedule and shall specify the exhibit identifier. Contract line items for provisioned spares shown on a contract exhibit and data items shown on DD Form 1423, Contract Data Requirements List, when used as an exhibit, shall specify the exhibit identifiers.

(c) Requirements for test model approval under the development phase or for first article approval under the production phase (whether the requirement is for first article delivery for Government testing or for first article approval test report delivery based on contractor testing) shall require the establishment of a separate contract line or subline item for each item of supply or service (one Scope of Work, one Performance Description, one National Stock Number, one Manufacturer's Part Number, one drawing and piece number) unless the test model or first article consists of a lot composed of a mixture of items, in which case a single contract line or subline item may be established for the lot.

(d) Requirements expressing contractor responsibilities for which a separate price is not established or contained in the price of a supply or service line item but for which the contractor may be entitled to payment, shall not be assigned a contract line or subline item number, but shall be identified in the contract schedule. Examples of such requirements are transportation, packaging and handling,

reusable containers, and state and/or local taxes. If it is determined that a separate price is to be established for these requirements, they shall meet the criteria in (a) above or in 204.7104-2(c) and shall be established as a line or subline item.

#### 204.7103-2 Procedures for numbering.

(a) Contract line items within a contract shall consist of 4 numeric digits 0001 through 9999 and shall be numbered sequentially but not necessarily consecutively. Unless there is a valid reason to the contrary, the identical line item number assigned to an item in a solicitation pursuant to 204.7102(c) shall be assigned to that item when an award is made. Any given contract line item number shall not be assigned more than once in a contract, and line item numbers beyond "9999" shall not be used.

(b) When a contract line item contains subline items, each such subline item shall be numbered by adding to the basic line item number, two alphabetic or two numeric characters as specified in 204.7104.

#### 204.7104 Contract subline items.

##### 204.7104-1 General.

Contract subline items provide a further subdivision of the basic contract line item when it is necessary for contract performance or administration purposes to separately identify subordinate requirements. There are only two categories of contract sublines.

(a) The first category comprises those subline items that are included in the procurement instrument for information purposes only and are identified by a numeric suffix. These subline items are an integral part of the associated contract line item but shall not be scheduled separately for delivery, separately identified for shipment or performance, or separately priced for payment purposes.

(b) The second category comprises those subline items that have a separate delivery schedule, require separate identification at the time of shipment or performance and/or are separately priced for payment purposes. These subline items are identified by an alpha suffix.

##### 204.7104-2 Criteria for establishing.

(a) Subline items included in procurement instruments for informational purposes only (numeric suffix) shall be established at the discretion of the contracting officer. This type of subline item identifies information that relates directly to and is an integral part of the contract line item; e.g., parts of an assembly or parts

of a kit. Such subline items shall not have a separate delivery schedule, a separate price for payment purposes or require separate identification at the time of shipment or performance. Informational quantities, prices or amounts determined by the contracting officer as necessary to satisfy management requirements may be identified to such subline items; *Provided*, that such quantities, prices or amounts are set forth in parentheses within the Supplies/Services (item description) column of the contractual document (i.e., not within the quantity and price columns).

(b) Subline items that have a separate delivery schedule, require a separate identification at the time of shipment, and/or are separately priced for payment purposes (alpha suffix) shall be established in lieu of line items at the discretion of the contracting officer. This category subline item shall be established whenever a capability must be provided to accumulate separately identified price and/or quantity data at the contract line item level. For instance, this category subline may be used to identify:

(1) Identical items that are to be paid from more than one accounting classification (unless separate contract line items have been established for each accounting classification or accounting classifications have been identified to each consignee in the contract line item delivery schedule in accordance with 204.7108);

(2) Items of an identical nature where different sizes have been assigned discrete Federal supply stock numbers and/or different prices;

(3) Individually payable items such as packaging costs that pertain to a contract line item but are not included in the contract line item price (in this case, item description, price and quantity data for the line item also are to be entered as a separate subline item);

(4) Individual delivery dates and/or destinations and/or requisitions when multiple delivery dates, destinations and/or requisitions are designated in the procurement instrument for a contract line item; or

(5) Parts of an assembly or parts of a kit when the parts have a separate delivery schedule, require separate identification at the time of shipment or performance, and are separately priced for payment purposes.

Whenever subline items of this category (alpha suffix) are established, the associated contract line item shall serve only as a common denominator for the accumulation of management data by the procuring activity and all

requirements for the associated contract line item will be identified as subline items. (All shipments and payments will be made at the subline item level.)

(c) Subline items in the alpha suffix category ((b) above) shall:

(1) Have a separate (i.e., subline item level) delivery schedule, period of performance or completion date expressly stated in the procurement instrument ("as required" is an expressly stated delivery schedule); and

(2) Have or be anticipated to have a single unit price or, if no unit price is established, a single total price or amount (When all subline items for a particular contract line item are identical services or supply items that have identical unit prices, the unit price and total amount (extended unit price for all subline items) may be shown at the contract line item level, or the unit price may be shown at the contract line item level and the extended amounts shown at subline item level, or the unit price and total amounts may be shown at subline item level, but only one of these methods may be used for a contract line item and its associated subline items. However, if any subline

item has a different unit price than the remainder of the subline items, all subline items shall be separately priced and the contract line item shall not be priced. In this latter instance, subline items that are not separately priced but must be separately identified for shipment and management purposes may indicate a unit price of "NSP" (not separately priced); provided, the price of this item is included in the unit price of another subline item or different contract line item. The clause set forth in 252.204-7000 shall be inserted in applicable contracts when in the opinion of the contracting officer because of dollar value or other considerations it is necessary to preclude payment for a subline item until all related subline items identified as not separately priced have been delivered. In no instance will the contract line item/subline item structure be constructed in such a way as to require the identification of contractor products or services (shipment or performance) at the subline item level and contractor payment at the contract line item level; and

(3) Be separately identifiable (i.e., no more than one National Stock Number,

one Item Description, one Manufacturer's Part Number, etc., for a supply subline item, or no more than one Scope of Work, one Description of Services, etc.) for a services subline item.

#### 204.7104-3 Procedures for numbering.

(a) When contract subline items are established within a contract line item, the total effort shall be assigned a contract line item number and each subline item shall be assigned a contract subline item number.

(b) Contract subline items established within a contract line item for information purposes only (204.7104-1(a) and 204.7104-2(a)) shall be numbered by adding to the contract line item number two numeric characters commencing with "01" and continuing through "99." No such designation shall be assigned more than once to the same contract line item number within a procurement instrument. The two supplemental numeric characters shall be placed immediately following the contract line item number without separation by spaces or special characters. Example follows:

Item No.	Supplies/Services	Quantity	Unit	Unit price	Amount
0002	15B/EE Periscope Adapter System, NSN-2040-00-916-2642, including one set of the following for each system	12	EA	\$72,831.00	\$873,972.00
000201	Indicator and Control Box (1 ea.)				
000202	Well Junction Box (1 ea.)				
000203	Remote Indicator Box (ECM RM) (1 ea.)				
000210	Set Dip Loop Cables (1 ea.)				

NOTE.—In the above instance, the delivery schedule will identify the contract line item (not the subline items) and all shipments and payments will be at the contract line item level. Shipment documents and payment vouchers will not identify subline items.

(c) Contract subline items established to identify contractual requirements that have a separate delivery schedule, require identification at the time of shipment or accomplishment and/or are separately priced for payment purposes (see 204.7104-1(b) and 204.7104-2(b)) shall:

(1) Be numbered by adding to the contract line item number two alphabetic characters commencing with "AA" and continuing through "ZZ." (The

letters "I" and "O" shall not be used.) Contract sublines shall be numbered sequentially but not necessarily consecutively. No such designation shall be assigned more than once to the same contract line item number within a contract;

(2) Be sequenced within a contract line item as follows: AA, AB, AC through AZ; then BA, BB, BC through BZ; and continuing, if necessary, through ZZ; and

(3) Be constructed by placing the two supplemental alphabetic characters immediately following the contract line item without separation by spaces or special characters. For example, with contract line item number "0001" the first three contract subline items, if consecutive, would be numbered "0001AA," "0001AB," and "0001AC."

Examples of correct line item structures in this category are shown below:

**Example 1.**—Subline items structured to identify destinations for identical items, identically priced (Delivery schedule shall be established for each subline item, not the contract line item.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy, . . . Apbl, Rotor, Helicopter				
0001AA	PRON A1-9-63821-M1-M1 ACR; AA				
0001AB	A3168R-9030-4025 A2537M IPD: 2 RDD: 334 PROJ: 501	10	Ea	\$100.00	\$1,000.00
0001AC	A3168R-9030-4026 A51AXBM IPD: 2 RDD: 325 PROJ: 502	10	Ea	\$100.00	\$1,000.00
	A3168R-9030-4027 A67KBCM IPD: 2 RDD: 349 PROJ: 503	15	Ea	\$100.00	\$1,500.00

**Example 2.**—Subline items structured to identify destinations for identical items, not identically priced (Delivery schedule shall be established for each subline item, not the contract line item.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy, Apbl, Rotor, Helicopter				
0001AA	PRON A1-9-63821-M1-M1 ACR: AA				
0001AB	A3168R-9030-4025 A2573M IPD: 2 RDD: 334 PROJ: 501	10	Ea	\$100.00	\$1,000.00
0001AC	A3168R-9030-4026 A51AXBM IPD: 2 RDD: 325 PROJ: 502	20	Ea	\$99.00	\$1,980.00
	A3168R-9030-4027 A67KBCM IPD: 2 RDD: 349 PROJ: 503	30	Ea	\$98.00	\$2,940.00

NOTE.—Difference in prices for identical items is due to separate destinations for FOB destination delivery.

**Example 3.**—Subline items structured to identify different sizes of an item that are identically priced (Delivery schedule shall be established for each subline item, not the contract line item.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0013	Boots Insulated, Cold Weather White, Type II, Class 1		Pr	\$38.35	\$13,422.50
0013AA	8430-00-655-5541 Size 5N	50			
0013AB	8430-00-655-5544 Size 8N	70			
0013AC	8430-00-655-5551 Size 9N	30			
0013AD	8430-00-655-5535 Size 9H	200			

NOTE.—Unit price and total amount shown at line item level rather than at subline level, as authorized by 204.7104-2(c)(2), when all subline items of a line item identically priced.

**Example 4.**—Subline items structured to identify different sizes of an item that are not identically priced (Delivery schedule shall be established for each subline item, not the contract line item.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0002	Body Armor Ground Troops Variable Type Small Arms, Fragmentation Protective Nylon Felt Vest, Front and Back Plates, Ceramic Plate, Type I				
0002AA	First Article	1	LO	NSP	
0002AB	8470-00-141-0935, Medium Regular	1936	SE	\$331.77	\$642,306.72
0002AC	8470-00-141-0936, Large Regular	625	SE	\$35.77	222,356.25
0002AD	8470-00-141-0937, Medium Long	1237	SE	\$36.77	428,954.49
0002AE	8470-00-141-0938, Large Long	804	SE	\$36.77	294,079.08

NOTE.—First Article entered as "Lot" in accordance with 204.7103-1(c).

**Example 5.**—Subline items structured to provide the capability for relating subordinate separately priced packaging costs to the overall contract line item (Separate delivery schedules shall be established for the subline item identifying the contractor's product and for the subline item identifying packaging. No schedule will be established for the contract line item.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0001	6105-00-635-6568 50380 Ref. No. 63504-WZ Armature Motor ACR: AA				
0001AA	6105-00-635-6568 50380 Ref. No. 63504-WZ Armature Motor	2	EA	\$2,895.87	\$5,791.74
0001AB	Packaging	2	EA	289.58	579.16

**Example 6.**—Subline items structured to identify different accounting classifications for identical items (Delivery schedule shall be established for each subline item, not the contract line item.).

 AK: 17X150518370317569100000192B00000000000000000000  
 AL: 17X150519350314369100000192B00000000000000000000

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0002	Pulse Decoder KY-312/A5Q-19		EA	\$3,037.40	
0002AA	Pulse Decoder KY-312/A5Q-19 ACR: AJ	2			\$6,074.80
0002AB	Pulse Decoder KY-312/A5Q-19 ACR: AK	6			18,224.40
0002AC	Pulse Decoder KY-312/A5Q-19 ACR: AL	2			6,074.80

NOTE.—Unit price may be shown at line item level and total amounts shown at subline item level, as authorized by 204.7104-2(c)(2), when all subline items of a line item are identically priced.

**Example 7.**—Subline items structured to identify parts of an assembly (Delivery schedule and price shall be established for each identified part at the subline item level, not for the assembly at the contract line item level.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0003	Automatic Degaussing System Consisting of: (2 ea. @ \$52,601; \$104,122 total)				
0003AA	Switchboard	2	EA	\$52,601.00	\$104,122.00
0003AB	Remote Control Panel	2	EA	NSP	
0003AC	Power Supply (M Coil) SSM Type (145 Amps, 220 V DC)	2	EA	NSP	
0003AF	Power Supply (A Coil) SSM Type (118 Amps, 220 V DC)	2	EA	NSP	

NOTE.—In the above instance, the price of all other subline items indicated by "NSP" is included in the Switchboard. The clause set forth at 252.204-7000 shall be inserted in applicable contracts when in the opinion of the contracting officer because of dollar value or other considerations, it is necessary to preclude payment for a subline item until all related subline items identified as not separately priced have been delivered.

**Example 8.**—Subline items structured to identify parts of a kit (Delivery schedule and price shall be established for each identified part at the subline item level, not for the kit at the contract line item level.).

Item No.	Supplies/services	Quantity	Unit	Unit price	Amount
0031	Conversion Kit to Convert Torpedo MK 45 Mod 0 to Torpedo MK 45 Mod 1 (50 Kt @ \$10,868.52; \$543,426 total).				
0031AA	Integrator Assy. LD 620106	50	EA	\$10,868.52	\$543,426.00
0031AB	Pulse Generator Assy. LD 587569	50	EA	NSP	
0031AC	Drive Shaft Assy. LD 587559	50	EA	NSP	
0031BF	Actuator Panel Assy. LD 542924	50	EA	NSP	

NOTE.—In the above instance, the price of all other subline items indicated by "NSP" is included in the Integrator Assembly. The clause set forth at 252.204-7000 shall be inserted in applicable contracts when, in the opinion of the contracting officer because of dollar value or other considerations, it is necessary to preclude payment for a subline item until all related subline items identified as not separately priced have been delivered.

## 204.7105 Contract exhibits.

### 204.7105-1 Definition.

"Exhibit" means a document attached to a procurement instrument, referenced by its capital letter identifier in a line or subline item in the procurement instrument Schedule, which establishes deliverable requirements in the attached document as an alternative to establishing an extensive list of line or subline items in the procurement instrument Schedule.

### 204.7105-2 Criteria for establishing.

(a) As an alternative to setting forth in the Schedule an extensive list of contract line or subline items (e.g., spare parts lists), a contract line item may be established referencing a document attached to the contract which shall be designated an exhibit. The exhibit shall set forth as exhibit line items what would otherwise be shown as contract line items. When exhibits are used, the following shall apply:

(1) Each exhibit shall apply to one contract line or subline item only; however, more than one exhibit may apply to a single contract line item.

(2) DD Form 1423 (Contract Data Requirements List) may be used as an exhibit or as an attachment. If used as an exhibit, the exhibit identifier (204.7105-3) shall be entered in the "TO EXHIBIT" line in the upper left corner of the form (the "ATCH NR" line shall be left blank), one contract line or subline item shall be established in the Schedule which reflects the exhibit, and the standard procedures for identifying exhibits prescribed in 204.7105-3 below and for numbering exhibit line and subline items prescribed in 204.7106 shall be followed. If the DD Form 1423 is used as an attachment, a numeric attachment number shall be entered in the "ATCH NR" line in the upper left corner of the form (the "TO EXHIBIT" line shall be left blank) and a separate contract line or subline item shall be established in the Schedule for, and which references, each deliverable sequence number of data on the DD Form 1423.

(3) Contract line or subline items in the Schedule which reference an exhibit

shall not contain unit prices or total amounts, except when necessary to reflect the amount of funds for actual or estimated requirements to satisfy the management needs of the individual procuring activity. When unit prices or total amounts are shown to satisfy a management need, such prices or amounts shall be set forth in parentheses within the item description block of the contractual document (i.e., not within the unit price or amount columns).

(b) As an alternative to setting forth in the Schedule an extensive list of contract subline items, a contract subline item may be established which references an exhibit in the same manner as for a contract line item.

(c) The term "Exhibit" shall not be used to identify any other attachment to a procurement instrument. When contract line items or subline items refer to a document attached to a procurement instrument which establishes a deliverable requirement, such as spare parts or data on a DD Form 1423, this document shall be termed an Exhibit. When other types of documentation are appended to or incorporated by reference in a procurement instrument, such documentation shall be referred to as an "Attachment" or other term identifying it as appended documentation. Such documentation may be attached to a contract exhibit, provided such documentation does not identify a deliverable requirement which is not established by a contract or exhibit line or subline item.

### 204.7105-3 Procedures for identifying.

Exhibits shall be identified by either a single or double capital letters. The letters "I" and "O" shall not be used. Exhibit identifiers need not be assigned consecutively, nor sequentially, but they shall not be duplicated within a procurement instrument and shall always appear in the first or first and second positions of all applicable "Exhibit Line Item Numbers" (see 204.7106). Each page of the exhibit shall have the procurement instrument identification number, exhibit identifier,

and applicable contract line or subline item number cited thereon.

## 204.7106 Exhibit line and subline items.

### 204.7106-1 Criteria for establishing.

Criteria for the establishment of exhibit line and subline items shall be the same as for establishing contract line and subline items (see 204.7103-1 and 204.7104-2, respectively).

### 204.7106-2 Procedures for numbering.

(a) Exhibit line items within an exhibit shall be assigned four-position numbers. The exhibit identifier (see 204.7105-3) is used for the first or first and second positions; the remaining positions are assigned sequentially within each exhibit using alpha and numeric characters. The letters "I" and "O" shall not be used. Exhibit line item numbers shall be sequenced as set forth in 204.7106-3, except that numeric numbering may be employed in those cases where such numbering is adequate to meet the criteria established by 204.7106-1.

(b) Exhibit subline items shall be numbered in the same manner as specified for contract subline items (see 204.7104-3).

### 204.7106-3 Sequence of exhibit line item numbers.

Cumulative No. of line items	Two-position serial No. for double-letter exhibit identifier—serial No. sequence
1-33	01 thru 09, then 0A thru 0Z, then
34-67	10 thru 19, then 1A thru 1Z, then
68-101	20 thru 29, then 2A thru 2Z, then
102-135	30 thru 39, then 3A thru 3Z, then
136-169	40 thru 49, then 4A thru 4Z, then
170-203	50 thru 59, then 5A thru 5Z, then
204-237	60 thru 69, then 6A thru 6Z, then
238-271	70 thru 79, then 7A thru 7Z, then
272-305	80 thru 89, then 8A thru 8Z, then
306-339	90 thru 99, then 9A thru 9Z, then
340-373	AO thru A9, then AA thru AZ, then
374-407	BO thru B9, then BA thru BZ, then
408-441	CO thru C9, then CA thru CZ, then
442-475	DO thru D9, then DA thru DZ, then
476-509	EO thru E9, then EA thru EZ, then
510-543	FO thru F9, then FA thru FZ, then
544-577	GO thru G9, then GA thru GZ, then
578-611	HO thru H9, then HA thru HZ, then
612-645	JO thru J9, then JA thru JZ, then
646-679	KO thru K9, then KA thru KZ, then
680-713	LO thru L9, then LA thru LZ, then
714-747	MO thru M9, then MA thru MZ, then
748-781	NO thru N9, then NA thru NZ, then
782-815	PO thru P9, then PA thru PZ, then
816-849	QO thru Q9, then QA thru QZ, then
850-883	RO thru R9, then RA thru RZ, then
884-917	SO thru S9, then SA thru SZ, then
918-951	TO thru T9, then TA thru TZ, then
952-985	UO thru U9, then UA thru UZ, then
986-1019	VO thru V9, then VA thru VZ, then
1020-1053	WO thru W9, then WA thru WZ, then
1054-1087	XO thru X9, then XA thru XZ, then
1088-1121	YO thru Y9, then YA thru YZ, then
1122-1155	ZO thru Z9, then ZA thru ZZ

Cumulative No. of line items	Three-position serial No. for double-letter exhibit identifier—serial No. sequence
1-33	001 thru 009, then 00A thru 00Z, then
34-67	010 thru 019, then 01A thru 01Z, then
68-101	020 thru 029, then 02A thru 02Z, then
102-135	030 thru 039, then 03A thru 03Z

Cumulative No. of line items	Three-position serial No. for double-letter exhibit identifier—serial No. sequence
136-305	and so on to
306-339	090 thru 099, then 09A thru 09Z, then
340-373	0A0 thru 0A9, then 0AA thru 0AZ, then
374-407	0B0 thru 0B9, then 0BA thru 0BZ, then
408-441	0C0 thru 0C9, then 0CA thru 0CZ, then
442-1121	and so on to
1122-1155	020 thru 029, then 02A thru 02Z, then
1156-1189	100 thru 109, then 10A thru 10Z, then
1190-1223	110 thru 119, then 11A thru 11Z, then
1224-1257	120 thru 129, then 12A thru 12Z, then
1258-1291	and so on to
1292-1325	190 thru 199, then 19A thru 19Z, then
1326-1359	1A0 thru 1A9, then 1AA thru 1AZ, then
1360-1393	1B0 thru 1B9, then 1BA thru 1BZ, then
1394-1427	and so on to
1428-1461	120 thru 129, then 12A thru 12Z, then
1462-1495	200 thru 209, then 20A thru 20Z, then
1496-1529	210 thru 219, then 21A thru 21Z, then
1530-1563	220 thru 229, then 22A thru 22Z, then
1564-1597	and so on to
1598-1631	290 thru 299, then 29A thru 29Z, then
1632-1665	2A0 thru 2A9, then 2AA thru 2AZ, then
1666-1699	2B0 thru 2B9, then 2BA thru 2BZ, then
1700-1733	and so on to
1734-1767	220 thru 229, then 22A thru 22Z, then
1768-1801	300 thru 309, then 30A thru 30Z, then
1802-1835	and so on to
1836-1869	900 thru 909, then 90A thru 90Z, then
1870-1903	910 thru 919, then 91A thru 91Z, then
1904-1937	and so on to
1938-1971	990 thru 999, then 99A thru 99Z, then
1972-2005	9A0 thru 9A9, then 9AA thru 9AZ, then
2006-2039	9B0 thru 9B9, then 9BA thru 9BZ, then
2040-2073	and so on to
2074-2107	9Z0 thru 9Z9, then 9ZA thru 9ZZ, then

the total quantity on the line or subline item, the original contract or exhibit line or subline item number may be retained.

(3) If the modification adds a new item of supply or services to the contract or exhibit, the new item shall be assigned the next unused contract or exhibit line or subline item number.

(4) If the modification affects only a partial quantity of an existing contract or exhibit line item or subline item and changes other than delivery date and/or, ship to/mark for data, the unchanged portion shall retain the original contract or exhibit line or subline item number. The changed portion shall be assigned the next unused contract or exhibit line or subline item number.

(b) Modifications applying to undefinitized items (although a requirement for this item has already been included in the contract or previous exhibit a firm price has not been negotiated or, if this modification establishes additional quantities of an item, the price of the item in the modification is not firm or if this modification adds a new item for which the firm price has not been established):

(1) If the modification applies to the total quantity of the existing line or subline item, the original line or subline item number may be retained.

(2) If the modification changes the specification of a partial quantity of the existing contract or exhibit line or subline item, but the specification change is not of sufficient magnitude to make the partial quantity separately identifiable (e.g., new National Stock Number or item description, see 204.7103-1(a)(2) and 204.7104-2(c)(3)), and the unit price change is averaged to provide a revised single estimated unit price for the total quantity on the line or subline item, the original contract or exhibit line or subline item number may be retained.

(3) If the modification adds a new item of supply or service to the contract or exhibit, the new item shall be assigned the next unused contract or exhibit line or subline item number.

(4) If the modification is undefinitized (price) and increases the quantity of an existing definitized (price) contract or exhibit line or subline item, the next unused contract or exhibit line or subline item number will be assigned to the increased quantity.

(5) If the modification increases the quantity of an existing but undefinitized (price) contract or exhibit line or subline item, the original line item number may be retained if the same unit price applies to the total quantity (existing plus increase) of the line item; if the unit price of the increased quantity differs from that of the existing quantity, the

next unused contract or exhibit line item or subline item number will be assigned to the increased quantity.

(6) If the modification affects only a partial quantity of an existing contract or exhibit line or subline item and definitizes price, the definitized portion shall retain the original contract or exhibit line or subline item number. The undefinitized portion shall be assigned the next unused contract or exhibit line or subline item number; however, if the same item on another existing contract or exhibit line or subline item has already been definitized and the newly definitized quantity is definitized at the same unit price as the existing definitized quantity, or an average definitized unit price is established for the new and the existing definitized quantities, then the undefinitized portion may retain its existing line item number and the newly definitized quantity may be added to the contract or exhibit line item for the previously definitized quantity.

(7) If the modification affects only a partial quantity of an existing contract or exhibit line or subline item and does not change the delivery schedule nor definitize price, the unchanged portion shall retain the original contract or exhibit line or subline item number. The changed portion shall be assigned the next unused contract or exhibit line or subline item number.

(c) In any event, all items of supplies or services appearing in modifications and exhibits shall be established and numbered in accordance with the uniform numbering procedures prescribed in this subpart. If subline numbers are assigned, all requirements for the associated contract or exhibit line item will be identified as subline items, and the contract or exhibit line item will serve only as a common denominator for the accumulation of management data.

#### 204.7108 Contract Accounting Classification Reference Number (ACRN).

##### 204.7108-1 General.

As a method of relating the long line accounting classification citation number to detail line item scheduled information, the Accounting Classification Reference Number (ACRN) shall be utilized in all contracts assigned for the contract administration to the Defense Contract Administration Services, DLA, and to Plant Cognizance Representatives of the Military Departments and Agencies.

##### 204.7108-2 Criteria for establishing.

This two position alpha/numeric control code is required for Military

#### 204.7107 Contract modifications.

Items of supplies or services set forth in contract or exhibit modifications shall reflect the applicable line or subline item numbers, if any, appearing in the basic contract, except in those instances when the nature of the modification necessitates re-identification of a partial quantity of an existing contract line item or exhibit line item. Situations described below are intended to furnish guidance as to when a new line or subline item number should or should not be assigned as the result of a contract modification.

(a) Modification applying to definitized items (firm price of item is included in the contract or, if this modification establishes additional quantities of items already included in the contract, the price of the item in the modification is the same as in the contract or, if this is a new item, the modification contains a firm price):

(1) If the modification applies to the total quantity of the existing line or subline item, the original line or subline item number may be retained.

(2) If the modification changes the specification of a partial quantity of the existing contract or exhibit line or subline item, but the specification change is not of sufficient magnitude to make the partial quantity separately identifiable (e.g., new National Stock Number or item description, see 204.7103-1(a)(2) and 204.7104-2(c)(3)), and the unit price change is averaged to provide a revised single unit price for

Standard Contract Administration Procedures (MILSCAP) processing, and may also be used in contracts administered by each Service/Agency. Under MILSCAP, the ACRN is required to associate the Accounting Classification Trailer Record, the Supplies Schedules Data Record and the Services Line Item Data Record with the long line accounting classification. The reference number is also used to associate the various record formats of the Contract Payment Notice as described in Chapter 9 of the MILSCAP Manual, DoD 4105.63-M.

**204.7106-3 Procedures for using the Accounting Classification Reference Number (ACRN).**

(a) The ACRN will be any combination of a two position alpha/numeric code assigned discretely to each accounting classification within each contract. The letters "I" and "O" shall not be used.

(b) This code will be shown as a detached prefix to the long line accounting classification number in the Accounting and Appropriation Data block and/or Section K (Contract Administration Data) of the contract, except that accounting classification numbers included in the contract only for the information of the Transportation Officer for citation on Government bills of lading for shipment at Government expense of items on an f.o.b. origin contract need not be prefixed with an ACRN. In the case of modifications to contracts/orders which have been previously assigned a long line accounting classification number(s), only the ACRN(s) assigned to that number(s) need be shown in the Accounting and Appropriations Data block and/or Continuation Sheet(s) of the modification.

(c) If more than one ACRN is assigned in the contract, the ACRN shall also be shown in the contract Schedule as follows:

(1) The ACRN shall be shown adjacent to the identity code of each "Ship To/Mark For," unless the procedure in (2) or (3) below is used. Only one ACRN may be assigned to the same "Ship To/Mark For" within the same contract line or subline item number, except in rare cases when multiple accounting classifications apply to a single unit so the quantity cannot be subdivided to relate to a single accounting classification. In such case, the contract shall provide sufficient information under the heading "Payment Instructions for Multiple Fund Accounting Citations" to permit proper payment and fund accounting;

(2) If only one accounting classification applies to a subline item, the ACRN may be shown in the Supplies/Services column near the subline item description;

(3) If only one accounting classification applies to a line item, the ACRN may be shown in the Supplies/Services column near the line item description;

(4) The ACRN shall be shown in the contract and Schedule in the following manner: ACRN:1D.

(5) For cost-reimbursement type contracts, the provisions of this paragraph (c) do not apply.

(d) The purchasing office executing a contract, basic ordering agreement, or blanket purchase agreement is responsible for control of assignment of ACRNs pertaining thereto. Contract or agreement provisions which provide for the issuance of contract modifications (including provisioned item order modifications), calls, orders, or work requests by organizations other than the purchasing office executing the contract or agreement will contain instructions for ACRN assignment. This may be accomplished by individual assignments as funds are cited, by assignment of blocks of ACRNs to offices authorized to issue contract modifications, calls, orders or work requests or by some other appropriate method. In no case, however, will an ACRN apply to more than one long line accounting classification in a contract. The authority to control ACRN assignment shall not be delegated to another office by the purchasing office issuing the contract or agreement.

**204.7109 Indefinite delivery type contracts.**

(a) When an indefinite delivery type contract includes provisions wherein the price of an item is determined at the time a delivery order is issued based on such factors as the quantity to be ordered (e.g., 10-99 at \$1.00, 100-249 at \$.98, and 250 or more at \$.95), the FOB provision, the destination, or the type pack required in the delivery order, it shall not be necessary to assign a separate line item number in the indefinite delivery type contract to each price for the same item. Each line or subline item in the individual delivery order, however, shall cite only one of the unit prices in the indefinite delivery type contract.

(b) Except as noted in (a) above, criteria for contract line item assignment (see 204.7103) shall be applicable to indefinite delivery type contracts.

**SUBCHAPTER B—COMPETITION AND ACQUISITION PLANNING**

**PART 205—PUBLICIZING CONTRACT ACTIONS**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**205.002 Policy.**

(c) Small business specialists in each purchasing office are responsible for screening all proposed contract actions and for recommending action to be taken with respect to publicizing such actions in accordance with the requirements of this subpart. In those offices where no small business specialist is assigned, the contracting officer or other designated representative shall accomplish the foregoing.

**Subpart 205.1—Dissemination of Information**

**205.101 Methods of disseminating information.**

(a)(2) *Displaying in public place.* A copy of each solicitation for an unclassified contract action in excess of \$5,000 which provides at least 10 calendar days for submission of offers shall be displayed at the contracting office and, if appropriate, at some additional public place from the date issued until 7 days after bids or proposals have been opened. But see Part 213 for small purchases.

**205.102 Availability of solicitations.**

(a)(1) In determining the "reasonable number" of copies to be maintained, the contracting officer shall consider, among other things, the extent of initial solicitation, reproduction costs, the nature of the acquisition, whether access to classified matter is involved, the anticipated requests for copies based upon responses to synopses and other means of publication in previous similar situations, and the fact that publishers and others who disseminate information regarding proposed acquisitions normally do not require voluminous specifications or drawings. With regard to classified acquisitions, the foregoing instructions apply to the extent consistent with Departmental security instructions and procedures.

(4)(i) When the purchasing activity is not in possession of complete sets of specifications, plans, and drawings (as in some acquisitions for airframes, shipbuilding, or major weapons systems), or the drawings and specifications are classified, or are so voluminous that display and distribution

in accordance with prescribed procedures is impracticable, the solicitation shall contain notice of this fact and of the location at which the specifications, plans, or drawings may be examined.

#### Subpart 205.2—Synopsis of Proposed Contract Actions

##### 205.201 General.

(b) *Commodity assignments.* When an item is assigned or is within a Federal Supply Class assigned for acquisition in FAR Subpart 17.5 and is purchased by other than the assigned Department, the synopsis shall cite the applicable purchase exclusion number from 208.7101-1 or 208.7101-2.

(S-70) *Publication of contract actions less than \$10,000.* When recommended by contracting personnel or the small business specialist, and approved by the contracting officer, proposed contract actions less than \$10,000 may be publicized in the *Commerce Business Daily*.

##### 205.202 Exceptions.

(a)(6) Use of nonmandatory automatic data processing (ADP) Schedules covered in Part 270 is not included in this exception and requires synopsisizing.

##### 205.204 Presolicitation notices.

See FAR 14.205-4(c) and 215.404(b).

##### 205.205 Special situations.

(c)(1) Each contract action to be made in the United States, its possessions, or Puerto Rico for which the total fee (including phases and options) is expected to be \$10,000 or more shall be synopsisized in accordance with 205.207(d)(S-71).

(c)(2) A notice of contract actions with fees expected to be less than \$10,000, or to be made outside the United States, its possessions, or Puerto Rico, shall be displayed at the contracting office and need not be publicized in the *Commerce Business Daily*.

##### 205.207 Preparation and transmittal of synopses.

(b)(1) The first line of the text will state the number of the synopses being sent. Synopses will be numbered consecutively by the reporting activity during the calendar year, using a new series of numbers for each year.

(d)(2) When referenced, Numbered Note 12 will appear in the *Commerce Business Daily* as follows:

**Note 12.**—One or more of the items under this acquisition may be subject to the requirements of the Agreement on Government Procurement approved and implemented in the United States by the Trade Agreements Act of 1979. All offers

shall be in the English language and in U.S. dollars. The solicitation procedure is open; that is, all interested suppliers may submit an offer.

(End of Note)

(d)(S-70) If the synopsis is for a sole source contract action, as authorized by one of the exceptions in FAR 6.302, the synopsis shall include reference to Numbered Note 22. The Numbered Note will appear in the *Commerce Business Daily* as follows:

**Note 22.**—This contract action is for supplies or services for which the Government intends to solicit and negotiate with only one source under authority of FAR 6.302. Interested persons may identify their interest and capability to respond to the requirement or submit proposals. This notice of intent is not a request for competitive proposals. However, all proposals received within forty-five days after the date of publication of this synopsis will be considered by the Government. A determination by the Government not to open the requirement to competition based upon responses to this notice is solely within the discretion of the Government. Information received as a result of the notice of intent will normally be considered solely for the purpose of determining whether to conduct a competitive procurement.

(End of Note)

(d)(S-71) Each notice publicizing a contract action for architect-engineer services shall be headed "R. Architect-Engineer Services". The project shall be listed with a brief statement concerning the location, scope of service required, the significant evaluation criteria and their relative order of importance to the Government, the estimated construction cost range (see FAR 36.204), the construction cost limitation (see FAR 36.205), the type of contract proposed, the estimated start and completion dates, and the date by which responses to the notice must be received, including submission of Standard Form 255, if required. Appropriate statements shall be made concerning any specialized qualifications, security classifications, and limitations on eligibility for consideration. Qualifications or performance data required from architect-engineer firms shall be described. The foregoing data shall be followed by the statement "Firms desiring consideration shall submit appropriate data as described in Numbered Note 62." The name of the responsible procurement office should follow together with the complete address and telephone number. The numbered note will appear in one issue each week of the *Commerce Business Daily* as follows:

**Note 62.**—Architect-engineer firms which meet the requirements described in this

announcement are invited to submit: (1) a Standard Form 254, Architect-Engineer and Related Services Questionnaire; (2) a Standard Form 255, Architect-Engineer and Related Services Questionnaire for Specific Project, when requested; and (3) any requested supplemental data to the procurement office shown. Firms having a current Standard Form 254 on file with the procurement office are not required to resubmit this form. Firms responding to this announcement before the closing date will be considered for selection, subject to any limitations indicated with respect to size and geographic location of firm, specialized technical expertise or other requirements as listed. Following an initial evaluation of the qualification and performance data submitted, three or more firms considered to be the most highly qualified to provide the services required will be chosen for interview. The Department of Defense procedure for selection of architect-engineer firms is a competitive procedure which includes consideration of the professional qualifications necessary for the satisfactory performance of the professional services required, subject to the following additional considerations: (1) specialized experience of the firm in the type of work required; (2) capacity of the firm to accomplish the work in the required time; (3) past experience, if any, of the firm with respect to performance on Department of Defense contracts; (4) location of the firm in the general geographical area of the project, provided that there is an appropriate number of qualified firms therein for consideration; and (5) volume of work previously awarded to the firm by the Department of Defense, with the object of effecting an equitable distribution of contracts among qualified architect-engineer firms including minority-owned firms and firms that have not had prior Department of Defense contracts. Firms desiring to register for consideration for future projects administered by the procurement office (subject to specific requirements for individual projects) are encouraged to submit annually a statement of qualifications and performance data, utilizing Standard Form 254, Architect-Engineer and Related Services Questionnaire.

(End of Note)

Note 62 is a *Commerce Business Daily* standard Numbered Note which applies to all DoD notices publicizing contract actions for architect-engineer services. When the notice is used in accordance with FAR 5.205(c), the substance of the Numbered Note shall be included.

#### Subpart 205.3—Synopsis of Contract Awards

##### 205.302 Preparation and transmittal of synopses of awards.

(b) The synopsis of contract awards shall also contain the following information:

(2) Size status ((S) for small business and (L) for large business) of the contractor;

**205.303 Announcement of contract awards.**

(a) *Public announcement.* Information on proposed contractual actions over \$3 million shall be submitted in writing in accordance with Departmental/Agency procedures. Report Control Symbol DD-LA(AR)1279 applies. Departments will submit reports to the Office of the Assistant Secretary of Defense (Public Affairs) by the close of business the day before contract award is proposed.

(S-70) *Congressional notification.* In accordance with Departmental procedures, Departments shall notify the appropriate Members of Congress (Senators and Representatives in whose state and district the proposed contractor is located and, if different, in whose state and district the work is to be performed) of contract awards of over \$3 million concurrent with the public announcement described in (a) above.

**Subpart 205.4—Release of Information****205.404-1 Release procedures.**

(b)(1) Classified information shall be released through existing security channels in accordance with DoD Industrial Security Regulation (DoD 5220.22R).

**205.404-2 Announcements of long-range acquisition estimates.**

Activities publishing long-range procurement estimates shall publicize them in the *Commerce Business Daily* by forwarding to the address listed in FAR 5.207 an announcement reflecting the fact that a long-range procurement estimate has been published and citing the address of the office from which a copy of the estimate can be obtained. Each announcement should be prepared substantially as the following example.

The Defense Personnel Support Center has published an estimate of equipment and footwear procurement requirements for \_\_\_\_\_ and \_\_\_\_\_ Quarters FY \_\_\_\_\_. These estimates, which are subject to revision and are in no way binding on the Government, may be obtained, by request, from the Defense Personnel Support Center (ATTN: Procurement and Production Directorate), 2800 South 20th Street, Philadelphia, Pennsylvania 19101.

**Subpart 205.5—Paid Advertisements****205.501 Definitions.**

(a) *Media* means any vehicle used to convey an advertising message; it includes newspapers, magazines, trade and professional journals, special printed media, radio and television;

(b) *Newspaper* means a publication printed and distributed at stated intervals to convey news and includes

trade journals which carry news in addition to technical matter.

(c) *Space* means the space purchased for advertising messages in printed media, and the time purchased for advertising messages on radio or television broadcasts;

**205.502 Authority.**

(a) The authorization shall specify the limitations, if any, of the authority granted. Administrative duties involved in accomplishing the advertising may be delegated in writing, personally signed by the delegate, setting forth the extent of the administrative duties involved. A copy of the instrument delegating authority to advertise and a copy of the instrument assigning administrative duties thereunder will either be attached to the first voucher submitted for payment or shall be forwarded immediately upon issuance to the General Accounting Office address to which records of the Department are submitted for audit purposes. When authority to advertise has been delegated by the Secretary of the Department concerned, a reference to the authorizing directive on the advertisement order is acceptable in lieu of attaching a copy of the authority to the payment voucher. Copies of such instruments also shall be attached to the duplicate voucher submitted to the paying office.

(1) Special or general authority to place advertisements in newspapers must be secured in advance by the use of DD Form 1535, Request/Approval for Authority to Advertise. Special authority permits the publication of a given advertisement a specified number of times in designated newspapers. General authority permits the publication of such advertisements during a designated fiscal year as may be required.

(2) Requests for authority to place advertisements in newspapers shall be submitted through channels to the Secretary or his designee.

(b) Unless the Secretary of the Department concerned determines otherwise, DD Form 1535 is not required as authority to place advertisements in media other than newspapers. Paid advertisements to recruit civilian personnel shall be subject to the limitations in section 332-1-9 of the Federal Personnel Manual.

**205.504 Use of advertising agencies.**

(b) The services of the advertising agencies include but are not limited to counseling as to the selection of the media for insertion of the advertisement; contacting the media in the interest of the Government agency concerned;

placing of insertion orders; selection and ordering of typography; copywriting; and preparation of rough layouts.

**PART 206—COMPETITION REQUIREMENTS**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 206.2—Full and Open Competition After Exclusion of Sources****206.202 Establishing or maintaining alternative sources.**

(a) This authority may be used, as appropriate, to totally or partially exclude a particular source from a contract action.

(b)(S-70) *Additional instructions and formats for agency head determination and findings for exclusion of a particular source.*

(i) When the authority of FAR 6.202(a) is proposed for use, it must be shown clearly that the necessity for excluding a particular source arises from genuine considerations pertinent to the authority of FAR 6.202(a)(1), (2), or (3). The supporting data, as well as the determination and findings, must name the source to be excluded from the contract action. Additionally, the supporting documents shall include the following information as applicable, and such other information as may be pertinent:

(A) The specific purpose to be served (i.e. to increase or maintain competition, the interest of national defense in case of a national emergency or industrial mobilization, or the interest of national defense in establishing or maintaining an essential engineering, research or development capability) by excluding a particular source from the contract action;

(B) The acquisition history of the supplies or services, including sources, prices, quantities, and dates of award;

(C) The circumstances which make it necessary to exclude a particular source from the contract action;

(1) The reasons for lack of, or potential loss of, alternative sources; e.g., the technical complexity and criticality of the item;

(2) The current annual requirement and prospective needs for the supplies or services;

(3) Address projected future requirements as justification for the exclusion of a particular source from the contract action;

(D) Explain whether the existing source must be totally excluded from a contract action or whether a partial

exclusion of the existing source from a contract action is sufficient;

(E) Describe the potential effect of exclusion on the excluded source in terms of any loss of capability to furnish the supplies or services in subsequent contract actions;

(F) When the authority of FAR 6.202(a)(1) is cited:

(1) Provide basis for assumption of future competition;

(2) Provide the basis for the determination that exclusion of a particular source will likely result in reduced overall costs either for the current acquisition, or for anticipated future acquisitions, including (as a minimum) discussion of start-up costs, facilitation costs, duplicative administration costs (additional inspection, testing, etc.), economic order quantities, and life cycle cost considerations;

(G) When the establishment of an additional source(s) is necessary to provide production capacity to meet current and mobilization requirements, the following:

(1) The current annual and the mobilization requirements for the item, citing the source of, or the basis for, such planning data;

(2) The comparison of current production capacity necessary to meet mobilization requirements; and

(3) The hazards of relying on the present source and the time required for a new source(s) to acquire the necessary facilities and skills and achieve the production capacity necessary to meet mobilization requirements.

(ii) Set forth below is the sample format for D&Fs citing the authority of FAR 6.202(a)(1).

(Military Department or Agency)

#### Determination and Findings

##### Authority to Exclude a Source

Upon the basis of the following and determination which I hereby make as agency head pursuant to 10 U.S.C. 2304(b)(1), the proposed contract action described below may be awarded using full and open competition after exclusion of (1).

1. It is proposed that the following requirement be acquired using full and open competition after exclusion of the aforementioned source.

2. The aforementioned source is the source which can be expected to receive an award for the above requirement.

3. It is necessary to establish or maintain an alternative source or sources through the use of full and open competition after exclusion of the aforementioned source.

4. The exclusion of the aforementioned source will increase or maintain competition and is likely to result in reduction of (2) in overall costs for the acquisition, or for any anticipated acquisition, of such supplies or services. This estimate is based on (3).

*Alternate:* The exclusion of the aforementioned source will be in the interest of national defense to have a supplier available for furnishing the above supplies or services in case of a national emergency or industrial mobilization, because (4).

*Alternate:* The exclusion of the aforementioned source will be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center, because (5).

#### Determination

The exclusion of a source from the proposed contract action will increase or maintain competition and is likely to result in reduced overall costs for the acquisition or any anticipated acquisition of such supplies or services.

*Alternate:* It is in the interest of national defense to exclude a source from the proposed contract action in order to have a supplier available for furnishing the above supplies or services in case of a national emergency or industrial mobilization.

*Alternate:* It is in the interest of national defense to exclude a source from the proposed contract action in order to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

Date \_\_\_\_\_

1. Name of source to be excluded.
2. Description of estimated reduction in overall costs.
3. Description of how estimate was derived.
4. Description of circumstances necessitating the exclusion of source.

#### Subpart 206.3—Other Than Full and Open Competition

##### 206.302 Circumstances permitting other than full and open competition.

###### 206.302-1 Only one responsible source.

(b)(S-70) When acquiring test articles and associated support services from a designated foreign source under the DoD Foreign Weapons Evaluation Program, the authority of FAR 6.302-1 may be used.

(c)(S-70) The authority of FAR 206.302-1(a) shall not be used in the case of acquisitions described in FAR 206.302-1(b)(6) unless the equipment or parts have been adopted as standard items of supply in accordance with DODD Standardization Program (see DODD 4120.3 and Departmental procedures). This authority shall not be used for initial acquisitions of equipment or spare parts, or to select arbitrarily the equipment or parts of certain suppliers. (If supplies might subsequently be standardized see FAR 15.407(b)).

##### 206.302-2 Unusual and compelling urgency.

(b) *Application.* The following are illustrative of circumstances with respect to which the authority of 10 U.S.C. 2304(c)(2) may be used and are not intended to be all inclusive:

(1) Supplies, services, or construction needed at once because of fire, flood, explosion, or other disaster;

(2) Essential equipment for, or repair to, a ship when such equipment repair is needed at once for compliance with the orders of the ship;

(3) Essential equipment for, or repair to, aircraft grounded or about to be grounded, when such equipment or repair is needed at once for the performance of the operational mission of such aircraft;

(4) Construction needed at once to preserve a structure or its contents from damage;

(5) Essential equipment for, or repair to, missiles or missile support equipment, when such equipment or repair is needed at once to preclude impairment of launch capabilities or mission performance; or

(6) Purchase requests citing an issue priority designator under the Uniform Material Movement and Issue Priority System (UMMIPS) of 4 or higher, or citing "Electronic Warfare QRC Priority" may justify other-than-full and open competition, but in such cases the specific circumstances must be set forth in the justification required by FAR 6.303.

##### 206.303 Justifications.

###### 206.303-1 Requirements.

(b)(S-70) Any recommendation by technical and requirements personnel for other than full and open competition must have been reviewed and approved at an appropriate management level in accordance with agency procedures prior to submittal to the contracting officer.

#### PART 207—ACQUISITION PLANNING

*Authority:* 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

##### Subpart 207.1—Acquisition Plans

###### 207.103 Agency-head responsibilities.

(c)(1) The formal acquisition planning provided for herein and in FAR Subpart 207.1 applies to the more complex and costly programs to procure hardware developed and produced to satisfy the need for modern military equipment. These acquisition planning requirements may also be adapted to the acquisition of all supplies and services.

(c)(2) Written acquisition plans shall be prepared for—

(i) Development acquisitions (see FAR 35.001) whose total contractual cost is estimated at \$2,000,000 or more, and

(ii) Production and service acquisitions whose contractual cost is estimated at \$15,000,000 for all years or \$5,000,000 for any fiscal year. These plans shall include the contents described in FAR 7.105, as appropriate.

(c)(3) Acquisition plans for acquisitions described in (c)(2) (i) and (ii) above should be keyed to the Department of Defense Five Year Defense Program, applicable budget submissions, and the Decision Coordinating Paper/Program Memorandum, as appropriate.

(c)(4) The criteria and thresholds in (c)(2) above do not preclude the preparation of written acquisition plans for any acquisition, whether short-range or long-range, when determined necessary by the Departments.

(c)(5) Acquisitions which represent a final buyout or a one-time buy are exempt from the requirements of (c) (2) and (4) above.

(d) Written acquisition plans meeting the criteria and thresholds of (c)(2) above, shall be prepared on a system basis covering the major items of hardware/equipment to be developed/produced including Government-furnished equipment and system support. Other acquisition plans may be written on either a system or individual contract basis.

(e) The Departments shall ensure that the principles of FAR Subpart 7.1 and this Subpart are used as appropriate.

(f) The program manager, or other official responsible for the program concerned has overall responsibility for the requisite acquisition planning as this official has for all other planning for the program. The contracting officer or the contracting officer's designee shall support this official by preparing and maintaining the acquisition plan. The contracting officer shall enlist the aid of cognizant engineering, production, logistics, quality assurance, maintenance and other functional staff business management personnel at command and subordinate buying activity levels as required. The head of the contracting activity, or the chief contracting official of the buying activity, in coordination with the program manager, must ensure that the objectives of the acquisition plan are realistic and achievable and that solicitations and contracts will be appropriately structured to equitably distribute technical, financial, and economic or business risks, consistent with the program phase of the

acquisition, the technical requirements and needs of the specific program, and salient business and legal constraints.

All personnel engaged in the management of the acquisition process, including program, technical and financial personnel, are essential to the comprehensive acquisition planning and preparations necessary to achieve the acquisition objectives. These personnel must be made cognizant of their responsibilities and actively participate in the development and preparation of the acquisition plan, if acquisition planning is to be successful.

(g) Acquisition plans shall be reviewed and approved in accordance with Departmental procedures.

(h)(1) *Design-to-cost criteria and thresholds.*

(i) Design-to-cost principles shall be applied—

(A) in all acquisitions for major defense systems (DoD Directive 5000.1) unless exempted by the Secretary of Defense, and

(B) to the acquisition of systems, subsystems, and components below the thresholds for major defense systems to the extent prescribed in DoDD 4245.3, "Design to Cost", and in accordance with Departmental procedures.

(ii) In solicitations and contracts including design-to-cost principles, consideration should be given to prescribing and tailoring the required cost, technical and schedule parameters to the particular program, and to providing the contractor with flexibility to identify unnecessary or marginally cost effective technical and schedule features susceptible to trade-offs (see DoDD 4105.62). This is to facilitate product development at the lowest life-cycle-cost consistent with mandatory schedule and performance requirements. (For the relationship of design-to-cost to value engineering, see FAR 48.105)

(2) *Life-cycle-cost criteria.*

(i) Since the cost of operating and supporting a system or equipment over its useful life is substantial and, in many cases, greater than the acquisition cost, it is essential that such costs be considered in development and acquisition decisions in order that proper consideration can be given to those systems or equipments that will result in the lowest life-cycle-cost to the Government. Guidelines, including representative detailed procedures for implementing life-cycle-costing are contained in the following documents:

(A) LCC-1, DoD Life-Cycle-Costing Procurement Guide (Interim);

(B) LCC-2, DoD Life-Cycle-Costing Casebook; and

(C) LCC-3, Life-Cycle-Costing Guide for System Acquisitions (Interim).

(i) The following format is illustrative of an acquisition plan and is designed merely to give guidance in the preparation of acquisition plans. It may be modified to suit the acquisition being planned as well as the phase of program formulation. The narrative portion of the acquisition plan should be brief but comprehensive. It should provide not only the background necessary to understand the acquisition but also a plan for contracting for the item or system, including the rationale and assumptions upon which the plan is predicated. It should reference other documents where applicable. The milestone chart introduces discipline into the planning process by identifying in graphic form the points at which critical decisions must be made and time factors that must be observed when action is necessary to produce an item or to make a competitive buy possible. The chart not only forces consideration of all factors involved but it also provides a visual portrayal of the decisions necessary to achieve objectives and indicates the time at which they should be made. The milestone chart portrays the step-by-step planning and normally covers the period from advance development through delivery of the production items. The chart tells the story of time, cost and quantity of required items, illustrating milestones which must be recognized in the decision making process. However, it is important to recognize that the format of the milestone chart is flexible, because the same milestones may not be present in every acquisition program.

[Reserved]

## 207.105 Contents of written acquisition plans.

In addition to the contents prescribed by the FAR, acquisition plans should include the following, as appropriate:

(a) *Acquisition background and objectives.*

(a)(3) *Cost.*

(i) *Life cycle cost.* Indicate the provisions/clauses that will be used to impose Life Cycle Cost and Cost/Schedule Control System Criteria (see 234.005-70).

(ii) *Design-to-cost.* Indicate the provisions/clauses that will be used to impose Design-to-Cost and Cost/Schedule Control System Criteria (see 234.005-70).

(a)(7) *Risks.* As appropriate, discuss the effect of business base changes of major contractors' workload on program cost.

(a)(S-70) *Applicability of a Decision Coordinating Paper (DCP), Program Memorandum Defense System Acquisition Review Council (DSARC), and/or internal service reviews.* Describe the options set forth in the DCP/Program Memorandum and delineate which option the acquisition plan supports. Delineate the DSARC and/or internal service reviews on the milestone chart.

(a)(S-71) *Approval for operational use.* Indicate the date approval for operational use has been or will be obtained. If waivers are requested, describe the need for the waivers.

(a)(S-72) *Milestone chart attachment depicting the objectives of the acquisition.* Provide a chart in general accordance with the sample milestone chart at 207.103(i).

(a)(S-73) *Milestones for updating the acquisition plan.* Indicate when the plan will be updated. Updates should be scheduled to coincide with DSARC reviews and the transition from one phase to another (full-scale development to production).

(b) *Plan of action.*

(b)(5) *Authority for other than full and open competition.* See FAR 6.303-2 for the information required to be included in the acquisition plan if the plan is to be used to support a justification and approval or a determination and findings under Part 206.

(b)(6) *Budgeting and funding.* Include specific references to budget line items and program elements, where applicable, estimated production unit cost, and the total cost for remaining production.

(b)(13) *Logistics considerations.*

(i) Describe the extent of integrated logistic support planning to date, including references to approved plans.

(ii) In discussing the reliability and maintainability (R&M) objective, including warranties, discuss the mission profile, R&M program plan, R&M predictions, redundancy, qualified parts lists, parts and material qualification, R&M requirements imposed on vendors, failure analysis, corrective action and feedback, and

R&M design reviews and trade-off studies.

(iv) See DoDD 4120.3 for procedures relative to standardization.

(b)(S-70) *Acquisition approach for each proposed contract.* If not elsewhere described in the plan, describe the acquisition approach for each proposed contract, including the following, as appropriate.

(i) Item description.

(ii) Estimated cost.

(iii) Proposed sources and basis for selection.

(iv) Source selection procedures. If formal source selection procedures will be used, discuss milestones for development of the plan and provide a general overview of how the selection is to be conducted.

(v) Contract type. Provide rationale for recommendation of contract type.

(vi) Other than full and open competition authority recommended. Discuss basis for recommendation of other than full and open competition exception (see FAR 7.105(b)(2)).

(vii) Repurchase data. Provide a complete discussion of use of repurchase data to increase competition, including funding available for repurchase data and the contractual approach to acquiring such data, including proprietary rights and patent considerations.

(viii) Incentives. When appropriate, discuss plans for providing for incentives to contractors to improve productivity through investment in capital facilities, equipment, and advanced technology.

(ix) Alternative acquisition approaches considered. Briefly discuss the merits and shortcomings of other approaches.

(x) Milestones for the contract cycle. Address those steps in FAR 7.105(b)(18) and any others, as appropriate.

(xi) Other considerations, as applicable.

#### Subpart 207.3—Contractor Versus Government Performance

##### 207.302 General.

(d) DoD activities shall not convert a commercial activity to performance by a private contractor without having first conducted a full cost comparison which demonstrates that contract performance is more economical unless:

(1) The commercial activity is performed exclusively by military personnel, there is adequate competition and reasonable prices can be obtained from qualified commercial sources, or

(2) The commercial activity involves 40 or less DoD civilian employees. (See Section 502, Pub. L. 96-342, as amended

by Section 1112, Pub. L. 97-252 and Section 1234, Pub. L. 99-145.) When this situation applies, refer to DoDD 4100.5 and DoDI 4100.33 for further guidance.

##### 207.304 Procedures.

(a)(3) In addition to the FAR requirement for the contracting officer to review the Performance-Oriented Work Statement (PWS), the contracting officer shall work in conjunction with the functional activity in the preparation of the PWS.

##### 207.307 Appeals.

(b) The contracting officer shall forward requests for review of any discrepancy in the cost comparison to the preparer of the in-house cost estimate, for consideration in accordance with departmental procedures.

#### Subpart 207.4—Equipment Lease or Purchase

##### 207.401 Acquisition considerations.

(a) The contracting officer shall obtain rationale, as prescribed by FAR 7.401 and 7.402, supporting the decision to lease or purchase from the requiring activity. This rationale shall be retained in the contract file.

#### PART 208—REQUIRED SOURCES OF SUPPLIES AND SERVICES

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

##### 208.002 Use of other government supply sources.

(f) The GSA has responsibility for the disposition of strategic and critical materials which are in excess of national stockpile requirements. These materials are primarily metals, ores, chemicals and similar raw material items, and are listed and described in a GSA Bulletin which is disseminated to contracting activities through Departmental channels. Prior to initiating acquisitions of materials which are listed as being available for transfer from the GSA, the contracting activity should screen the list to determine whether the requirement may be met through transfer of materials from the GSA. Due consideration should be given to the quantity, quality and location of the material, and to the timeliness of its availability. Detailed information on these excess materials is available from the Property Management and Disposal Service, General Services Administration, Washington, DC 20405.

(g) It is the policy of the Department of Defense (see Pub. L. 86-777) to obtain its requirement of helium as follows:

(1) Bulk helium requirements (tank car lots) shall be acquired either directly from the Department of Interior (Bureau of Mines) or from private helium distributors which establish and maintain their eligibility in accordance with Bureau of Mines Regulations. Copies of the current list of eligible private helium distributors may be obtained from the Bureau of Mines, Helium Operations, P.O. Box H4372 Herring Plaza, Amarillo, Texas 79101;

(2) Helium in cylinders or trailers shall be acquired from the Department of Interior (Bureau of Mines) either direct or through General Services Administration Federal Supply Schedule contracts. Department of Defense activities will make a determination annually as to whether or not helium in cylinders and trailers will be obtained directly from the Bureau of Mines or through Federal Supply Schedules. If a determination is made that it is more economical to obtain such helium through Federal Supply Schedules, the estimated requirements will be processed to GSA. Once estimated requirements are processed to GSA, the resultant Federal Supply Schedule (FSG 68, Part III, Section G) is mandatory on the requiring activities for the contract period.

#### 208.002-70 Acquisition from the Department of Energy (DOE).

(a) *General.* This subpart covers the acquisition of material and supplies from the DOE.

(b) *Acquisition of radioisotopes and enriched stable isotopes.*

(1) DOE F Form 5400.3, "U.S. DOE Isotope Order Blank", and NRC Form 313, "NRC Application for Byproduct Material License", shall be used for the acquisition of radioisotopes and enriched stable isotopes from any of the DOE laboratories. No other type of order blank, purchase order, or contract shall be used in lieu of these forms.

(2) In the acquisition of radioisotopes, NRC Form 313 shall be filed with the Chief, Materials Licensing Branch, Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, United States Nuclear Regulatory Commission, Washington, DC 20555. If the application meets all regulatory requirements and applicable standards, NRC Form 374, "U.S. Nuclear Regulatory Commission Byproduct Materials License," will be issued to the applicant by the Radioisotopes Licensing Branch, Nuclear Regulatory Commission. After receipt of the NRC Form 374, a complete DOE F Form 5400.3 (in duplicate, if the contracting office desires to receive an accepted copy of the form back from the

supplier), the license (NRC Form 374), and a Standard Form 1103, "U.S. Government Bill of Lading", shall be sent to the appropriate DOE laboratory. If a bill of lading is not furnished, shipment shall be made collect on a commercial bill of lading, to be converted at destination.

(3) The "Terms and Conditions" on the reverse side of the DOE F Form 5400.3 shall control all requisitions for radioisotopes and enriched stable isotopes acquired by the Departments from the DOE National Laboratories.

(4) NRC Form 313, "NRC Application for Byproduct Material License", shall be requisitioned directly from: United States Nuclear Regulatory Commission, Attn: Radioisotopes Licensing Branch, Division of Fuel Cycle and Material Safety, Washington, DC 20555. DOE F Form 5400.3 shall be requisitioned directly from: Oak Ridge National Laboratory, Isotope Distribution Office, P.O. Box X, Oak Ridge, TN 37830 (commercial telephone 615-574-6984) or Mound Facility, Monsanto Research Corporation, P.O. Box 32, Miamisburg, OH 45342 (commercial telephone 513-865-3501).

#### 208.070 Industrial preparedness production planning.

(a) *Scope of subpart.* This subpart establishes uniform procurement policy guidance and procedures for the Department of Defense in planning with industry for the establishment and retention of industrial base capability essential to national defense for production during periods of national emergencies.

(b) *Definitions.*

"Emergency (National)" means a condition declared by the President or Congress by virtue of powers previously vested in them which authorizes certain emergency actions to be undertaken in the national interest. Actions to be taken may include partial or total mobilization of national resources.

"Industrial Base" means that part of the total privately-owned and Government-owned industrial production and maintenance capacity of the United States, its territories and possessions, as well as capacity located in Canada, expected to be available during emergencies to manufacture and repair items required by the military services.

"Industrial Preparedness Planning" means planning designed to maintain an adequate industrial base to support DoD requirements for selected essential military items in a national emergency.

"Planned (or Planning) Item" means any item selected for industrial preparedness planning under the criteria

of DoD Instruction 4005.3, "Industrial Preparedness Production Planning Procedures."

"Planned Producer" means an industrial firm which has indicated its willingness to produce specified military items in a national emergency by completing an Industrial Preparedness Program Production Planning Schedule (DD Form 1519).

(c) *General.* The Industrial Preparedness Production Planning (IPPP) program is conducted jointly among DoD components and industry to provide a means for correlating industrial capabilities and military requirements for the orderly retention, improvement, and rapid application of industrial capability to military production during an emergency.

(d) *Policy.*

(1) The Department of Defense will conduct Industrial Preparedness Production Planning to assure capability for the sustained production of essential military items to meet the needs of the U.S. and Allied Forces during an emergency.

(2) In planning for the production of selected items, preference shall be given to the use of privately-owned facilities, so as to minimize the need for Government investment. Government-owned production facilities will be included in the industrial base only when:

(i) private industry is unable or unwilling to provide the facilities necessary to support DoD requirements; or

(ii) they are determined to be necessary for reasons of national security or to assure a quick response capability to meet fluctuating or job lot demands.

(3) Current procurements will be integrated, when applicable, with Industrial Preparedness Production Planning requirements.

(e) *Limitations.*

(1) Industrial Preparedness Production Planning will be limited to those weapon systems and items selected by the Military Departments and DLA in accordance with policy established in DoDI 4005.3, "Industrial Preparedness Production Planning Procedures."

(2) Industrial Preparedness Production Planning with foreign sources, except Canada, is prohibited.

(f) *Existing authority affecting the industrial base.* Specific authority under current contracting procedures to accomplish industrial planning actions includes the following:

(1) Leasing of Government-owned property to planned emergency producers under the authority of the

Military Leasing Act of 1947 as codified in 10 U.S.C. 2667;

(2) Acquisitions in the interest of national defense under FAR 6.202(a)(2), or in case of a national emergency or to achieve industrial mobilization under FAR 6.302-3.

(3) Obtaining Jewel Bearings, Miniature and Instrument Ball Bearings, Precision Components for Mechanical Time Devices, High Purity Silicon, and High Carbon Ferrochrome (HFC) (see FAR 8.2, and 208.73, 208.74, 208.75 and 208.76 of this Supplement).

(4) Use of multiyear contracts (see FAR 17.1 and 206.202(a)(2) and 206.302-3);

(5) Providing Government production and research property to contractors (see FAR 45.302-1); and

(6) Preservation of domestic industrial base (see FAR Part 25).

(g) *Applicable procedures.* To assure the most effective planning approach, each DoD component will determine the specific type and depth of Industrial Preparedness Production Planning for each planning item. One or more of the authorities listed above may be appropriate to accomplish a particular planning action. Specific procedures as applicable to a current contract action include:

(1) Solicitation of Planned Producers in all acquisitions over \$10,000 of items for which they have signed industrial preparedness agreements (but see FAR 19.5 and 220.7003 of this Supplement as pertain to partial set-asides for small business and labor surplus area concerns);

(2) Procedures under FAR 6.202(a)(2) or 206.302-3 to effect an industrial planning requirement; and

(3) When determined necessary by the applicable DoD component, individual service contracts may be awarded for accomplishing industrial planning efforts for selected essential military items. These efforts may include but are not limited to the maintenance of Government-owned industrial facilities (real and personal property); including production data packages; and

(4) When it is determined necessary to contract for an Industrial Preparedness Production Planning effort, and an item selected for such planning is being acquired, a line item for the planning services and data will be included in the contract schedule. The schedule shall describe in detail the required end items of supply, the specific services, and data by separate line items (see 204.71).

#### Subpart 208.3—Acquisition of Utility Services

See Supplement No. 5, Procurement of Utilities Services.

#### Subpart 208.4—Ordering From Federal Supply Schedules

##### 208.404-1 Mandatory use.

(a) *Urgent requirements.* If delivery is offered in a shorter time than the maximum stated in the Schedule, but later than that required by the purchase request, the contracting officer shall ascertain from the activity initiating the purchase request whether the offered delivery is acceptable. This procedure need not be followed when transportation time from the contractor's shipping point or time required for inquiry and reply make conformance impracticable. When multiple award schedules are involved, the purchasing office need query only one contractor after considering the requirements of FAR 8.405-1.

##### 208.404-2 Optional use.

(a) (S-70) DoD activities shall consider optional schedules as another source of supply to assure that purchase of supplies and services of the type contained in such schedules are really to the best advantage of the Government, price, delivery and other factors considered.

##### 208.404-3 Requests for waivers.

(a) If such waiver is not granted, the case shall be referred to the Head of the Contracting Activity or his deputy, or to such higher authority as may be required by the Departments, and in the

case of the Air Force, Commanders of AFLC Air Logistics Centers who shall make the final decision as to whether the nonschedule item will be purchased and shall promptly notify the Commissioner, Federal Supply Service, and the Purchasing Office, of the decision reached.

(b) When supplies or services are to be acquired from other sources and the situation will not permit the delay incident to following the normal channels of obtaining a waiver from the General Services Administration prior to purchase, such waiver shall not be requested. In emergency situations, the head of the office initiating the purchase request, or his designated representative, shall furnish to the purchasing office a signed statement identifying the supplies or services to be acquired, and explaining why similar items listed in the applicable Federal Supply Schedule will not meet the specific requirements. The purchasing office shall, within 15 days of the date of purchase, furnish such statement to the Commissioner, Federal Supply Service, General Services Administration.

##### 208.404-70 Applicability of listed Federal Supply Schedules.

Supplies and services covered by the Federal Supply Schedules listed herein are mandatory in whole or in part upon some element of the Department of Defense. Some of the Federal Supply Schedules listed include classes unrelated to the Federal Supply Group which identifies the Schedule. To aid in locating an item in the mandatory Schedules, the classes included in each Schedule have been listed. The Remarks column states exceptions to the mandatory provisions of the Schedule when applicable. (But see 208.470-6 for mandatory use of GSA Term Contracts for maintenance, repair, rehabilitation and reclamation of personal property.) The Schedules should be checked for complete details concerning the exceptions.

*Mandatory Nationally.*

Schedule identification	FSC class	Schedule title	Remarks
25 I	2520, 2530, and 2540	VEHICULAR EQUIPMENT COMPONENTS—tire chains and clutch facings	
26 II	2610	PNEUMATIC TIRES AND INNER TUBES—Highway, off-highway industrial, pursuit/emergency high speed passenger, and agriculture	
26 IV A	2630	TIRES—industrial, solid and cushion	
35 IV A	3510	APPLIANCES—household and commercial washing machines, electric, and drying tumblers, electric and gas	
36 II	3610, 3615	SPECIAL INDUSTRY MACHINERY—lithographic printing plates (masters) and solutions; spirit duplication, thermal process; printing, duplicating, and bookbinding equipment; and pulverizing, pulping, and shredding machines	Except Special Item Nos. 51-1, 51-1-1, 51-1-3, 51-2, 51-46, 51-106, 51-107 51-108, 51-110, 51-111, 51-113, 51-114, 51-125, 51-125-1, 51-126
36 IV	3610	SPECIAL INDUSTRY MACHINERY—copying equipment, supplies and services	Except Special Item No. 51-43, 51-44, 51-45, 51-52, 51-53, and 51-54
37 I A	3730	AGRICULTURAL EQUIPMENT—cattle guards	
37 II A	3750	LAWN AND GARDEN EQUIPMENT—lawn mowers, mowers, shredders, edgers, trimmers, roto-tillers, broadcast spreaders, sprayers, vacuums, sweepers, tractors, and accessories	

Schedule identification	FSC class	Schedule title	Remarks
41 I A	4120	AIR CONDITIONING EQUIPMENT—domestic use window units.	
41 III A	4110	APPLIANCES—household refrigerator and refrigerator freezers.	
41 III B	4110	REFRIGERATION EQUIPMENT—drinking water dispensers, mechanically cooled.	
45 VII A	4520	PLUMBING AND HEATING EQUIPMENT—domestic water heaters, gas and electric.	
45 VIII A	4540	PLUMBING AND SANITATION EQUIPMENT—household garbage disposers, $\frac{1}{2}$ and $\frac{1}{4}$ horsepower.	
49 I A	4910, 4940	MAINTENANCE AND REPAIR SHOP EQUIPMENT—hydraulic jacks, heat guns, auger machines.	
51 I A	5130, 5133, and 5180	HAND AND POWER TOOLS—pneumatic, hydraulic, power actuated, gasoline engine, and special purpose drill bits.	
51 II A	5130	HAND AND POWER TOOLS—electric.	
51 IV	5110, 5120, 5136, 5140, and 5210	HAND AND POWER TOOLS—nonpowered tools.	
56 I B	5620	GLASS—safety glass, laminated, for "m" series trucks.	
61 I	6140	BATTERIES—6 or 12 volt lead-acid automotive storage.	
61 III	6135	BATTERIES—dry cell.	Except Index Numbers 5, 13-22.
62 I	6230	LIGHTING FIXTURES AND LAMPS—household and quarters use.	
62 III	6240, 6250, and 6750	ELECTRIC LAMPS—fluorescent and incandescent, and fluorescent adapters.	
62 & 67	6240, 6750	LAMPS—electrical and photographic.	
66 I B	6650, 6675	INSTRUMENTS AND LABORATORY EQUIPMENT—electronic distance measuring equipment and magnifiers.	Except Air Force.
66 II A	6630	INSTRUMENTS AND LABORATORY EQUIPMENT—blood analysis systems, dilutors, pipettes, electrophoresis equipment.	Except Air Force.
66 II B	6515, 6630, 6640, and 6125	INSTRUMENTS AND LABORATORY SUPPLIES—glass, plastic, and metal laboratory ware; laboratory distillation and demineralizing systems; vena puncture products for blood specimen collection; and prescription bottles.	
66 II C	6630, 6640, and 6650	INSTRUMENTS AND LABORATORY EQUIPMENT—microscopes, centrifuges, pH meters, microtomes, stirrers, shakers, stereoscopes, monoculars, and titrators/titration systems.	
66 II E	6670	INSTRUMENTS AND LABORATORY EQUIPMENT—laboratory balances, precision scales and accessories.	
66 II H	5915, 5985, and 6625	INSTRUMENTS AND LABORATORY EQUIPMENT—amplifiers, microwave and low frequency instruments, and RF components.	Not mandatory for Dept. of the Air Force. Items in FSC 6625 not mandatory for DoD.
66 II M	6625, 6630, and 6650	INSTRUMENTS AND LABORATORY EQUIPMENT—spectrophotometers, densitometers, liquid scintillation systems, multichannel pulse height analyzers, spectrometers, photometers, and polarograph analysis equipment.	Not mandatory for Dept. of the Air Force. Items in FSC 6625 not mandatory for DoD.
66 II N	6630, 6635, 6640, and 6650	INSTRUMENTS AND LABORATORY EQUIPMENT—analyzers, chromatographs, colony counters, blood analysis systems, dilutors, pipettes, electrophoresis equipment, and image analysis systems.	Not mandatory for Dept. of the Air Force.
66 II O	4110, 6530, 6636, and 6640	INSTRUMENTS AND LABORATORY EQUIPMENT—laboratory apparatus, and laboratory and clinical refrigerators and freezers.	
66 II P	6640	INSTRUMENTS AND LABORATORY EQUIPMENT—laboratory and pharmacy furniture.	
66 II Q	6625, 6630, 6640, 6655, 6660, 6690, and 6695	INSTRUMENTS AND LABORATORY EQUIPMENT—environmental analysis equipment, pollution, oceanographic and weather.	Not mandatory for Dept. of the Air Force. Items in FSC 6625 not mandatory for DoD.
66 II R	6625, 6665, and 6680	INSTRUMENTS AND LABORATORY EQUIPMENT—environmental analysis, pollution control air bag and detecting equipment.	Not mandatory for Dept. of the Air Force. Items in FSC 6625 not mandatory for DoD.
66 II S	6630, 6640, and 6570	INSTRUMENTS AND LABORATORY EQUIPMENT—Glassware and Scales.	
67 II B	6635, 6750, 6720, and 6740	PHOTOGRAPHIC SUPPLIES—film, chemicals, and photographic paper.	
67 IV B	6720, 6730, 6740, 6750, and 6760	MICROPHOTOGRAPHIC EQUIPMENT AND SUPPLIES—cameras, projectors, printers, developing and duplicating equipment, and chemicals, film, and paper.	
68 III E&F	6830	CHEMICALS AND CHEMICAL PRODUCTS—refrigerant fluorocarbons and sulfur hexafluoride.	Except SINs 21-12-a, b and c, 21-21, 21-21a, 21-22, 21-22a, 21-40, and 21-41.
68 III G	6830	CHEMICALS AND CHEMICAL PRODUCTS—helium.	
68 III H	6830	CHEMICALS AND CHEMICAL PRODUCTS—fire extinguishing fluorocarbons.	
71 I A	7105	HOUSEHOLD AND QUARTERS FURNITURE—ranch style.	
71 I B	7105	HOUSEHOLD AND QUARTERS FURNITURE—danish style.	Except SINs 29 through 38.
71 I C	7105	HOUSEHOLD AND QUARTERS FURNITURE—traditional style.	
71 I D	7105	HOUSEHOLD AND QUARTERS FURNITURE—dormitory and quarters.	
71 I E	7105	HOUSEHOLD AND QUARTERS FURNITURE—upholstered (performance tested) furniture.	Except items 1-57 and items 92-100.
71 I G	7105	HOUSEHOLD AND QUARTERS FURNITURE—rattan.	
71 II A, B&C	7110	OFFICE FURNITURE—executive traditional, unitized and contemporary, wood.	
71 II D	7110	OFFICE FURNITURE—filing cabinets, shelf files, card files insulated files and card size files (for desk use); file cabinets, tabulating machine card size.	
71 II E	7110	OFFICE FURNITURE—Systems Furniture.	
71 II F	7110	OFFICE FURNITURE—Systems Furniture.	
71 III A	7110, 7195	MISCELLANEOUS FURNITURE—classroom, auditorium and theatre seating.	
71 III B	7195	MISCELLANEOUS FURNITURE—library, wood or metal.	
71 III C	7125	MISCELLANEOUS FURNITURE—storage cabinets for forms and flammable liquids.	
71 III D	7110, 7125	MISCELLANEOUS FURNITURE—mail sorting and distribution equipment, modular cabinets for high and low density storage, and molded plastic/corrugated storage bins.	
71 III E	7110	MISCELLANEOUS FURNITURE—insulated and uninsulated security filing cabinets, safes, vault doors, and map and plan files.	
71 III F	6530, 7105, 7210, and 7230	MISCELLANEOUS FURNITURE—hospital patient room.	Except items 482-7 and 482-8.
71 III H	7105, 7110	MISCELLANEOUS FURNITURE—multi-purpose seating.	
71 III J	7125	MISCELLANEOUS FURNITURE—steel vertical blueprint filing cabinets, roll drawing files, and high-density movable shelf filing cabinet systems.	
71 III K	7125	MISCELLANEOUS FURNITURE—special purpose.	
71 III L	7110	MISCELLANEOUS FURNITURE—cafeteria and food service.	
71 III M	7195	MISCELLANEOUS FURNITURE—acoustical partitions, speech privacy partitions, and vertical surface panels.	Except items 500-2, 500-3, and 500-4.
71 III N	7045, 7110	MISCELLANEOUS FURNITURE—ADP furniture, storage and transportation items.	
71 III O	7105, 7195	MISCELLANEOUS FURNITURE—folding chairs and tables.	
71 V B	7110, 7125	OFFICE FURNITURE—key cabinets.	
71 V D	7105, 7110	OFFICE AND FIELD FURNITURE—office furniture; map and plan filing cabinets and folding tables; modular steel field office furniture: filing cabinets, desk top, and end folding table.	
71 XIV A	7110, 7125, and 7195	SHOP FURNITURE—desks, benches, and tables.	
71 XXVII A	6230, 7105, 7110, and 7195	FURNITURE—office and household, centurion by Federal Prison Industries.	
71 XXVII B	7110	OFFICE FURNITURE—contemporary centurion by Federal Prison Industries.	

Schedule identification	FSC class	Schedule title	Remarks
72 I A&D	7220	HOUSEHOLD AND COMMERCIAL FURNISHINGS—carpets, special purpose carpets, rugs, carpet tiles, and carpet cushions.	Not mandatory for use aboard vessels.
72 I B	7220	HOUSEHOLD AND COMMERCIAL FURNISHINGS—floor coverings, tile, linoleum, and vinyl sheet.	Not mandatory for use aboard vessel.
72 I E	7220	HOUSEHOLD AND COMMERCIAL FURNISHINGS—mats and matting, entrance-way, interlocking modular, resilient open construction and anti-static types.	Not mandatory for use aboard vessels.
72 II	7230, 8305	HOUSEHOLD AND COMMERCIAL FURNISHINGS—window shades, cloth vinyl, and fiberglass.	Not mandatory for FSC 8305.
73 IV A	7310	APPLIANCES—household gas ranges.	
73 IV B	7310	APPLIANCES—household and commercial electric ranges.	
73 V A	7320	APPLIANCES—household dishwashing machines.	
74 I A	7430	OFFICE MACHINES—electronic typewriters, visual display preparation devices, sound reduction equipment and electric typewriter supplies.	
74 I B	7430	OFFICE MACHINES—typewriters, electric, single element.	
74 I C	7450	OFFICE MACHINES—dictating and transcribing equipment.	
74 II & III	6645, 7420, and 7490.	OFFICE MACHINES—adding, calculating, cash registers, time measuring instruments, miscellaneous office machines.	
74 II A	7420	OFFICE MACHINES—calculators, desk top nonprogrammable.	
74 V	7430	OFFICE MACHINES—manual typewriters—portable and nonportable.	
75 I C	7530, 9310	OFFICE SUPPLIES—special use paper, engineering and draftsman papers—graph, drawing, tracing, overlay plastic sheets, cardboard and paper embossing, index sheet sets for looseleaf binders, paperboard, drawing, and labels for automatic data processing.	
75 I D	7530	OFFICE SUPPLIES—plotting paper, supplies, and recording paper.	
75 II A	3540, 7510, 7520, 7690, and 7530.	OFFICE SUPPLIES—pencils, leads, tape label marking, chart supplies and/or letters and figures, sorters, desk correspondence, file suspended folders, plastic book jackets, plastic organizers and sorters, out-of-typewriter correction material, labels, price marking equipment, data binders, binders, looseleaf, typewriter ribbons, word processing ribbons, correction tape, computer ribbons, computer printout ruler, plastic copy holder, and print wheels.	
75 II B	3540, 7510, and 7520	OFFICE SUPPLIES—looseleaf binders, label tape, pamphlet files, multistrike typewriter ribbons, typewriter correction tape, pressure sensitive adhesive tape, correctable typewriter ribbons, plastic desk trays, lead holders, document protector, typist copyholders, gummed tape dispensers, file drawer frames, stapling machines, bristol cardboard, labeling machines.	
75 IV A&B	7520	OFFICE SUPPLIES—rubber stamps.	
75 IV C	7520	OFFICE SUPPLIES—pre-inked rubber stamps.	
75 V	7530	OFFICE SUPPLIES—envelopes, mailing, printed and plain.	Mandatory except for plain envelopes for use in the District of Columbia.
75 VII	7540	OFFICE SUPPLIES—U.S. Government national credit card.	
75 VIII A	7530	OFFICE SUPPLIES—cards: tabulating, aperture, and copy.	
75 X	7530	OFFICE SUPPLIES—xerographic paper.	
75 XI	7530	OFFICE SUPPLIES—xerographic paper and thermal copy paper.	
75 XII	7530	OFFICE SUPPLIES—electrographic paper.	
76 I	7610, 7640	PUBLICATIONS—dictionaries, encyclopedias, other reference books and pamphlets, maps, atlases, charts, and globes.	
76 II	7610, 7630, and 7670	PUBLICATIONS—law, tax, and reporting periodicals, microfilm library systems.	Except SINs 37-5, 6, and 7.
77 I	7740	AUDIO AND VIDEO SUPPLIES—phonograph records, 8-track tape cartridges, and cassettes.	
77 III	7105, 7730	AUDIO AND VIDEO EQUIPMENT—televisions, radios, phonographs and video cassette recorders.	
78 I A	7810	ATHLETIC AND RECREATIONAL EQUIPMENT—outdoor equipment.	
78 I B	7810, 7820, and 7830	ATHLETIC AND RECREATIONAL EQUIPMENT—indoor recreational and gymnasium equipment.	
78 I C	7830	ATHLETIC AND RECREATIONAL EQUIPMENT—outdoor recreational equipment.	
79 I A	7910	CLEANING EQUIPMENT AND SUPPLIES—vacuum cleaners, carpet shampoos, floor polishing and scrubbing machines.	
79 I B	7910	CLEANING EQUIPMENT AND SUPPLIES—vacuum cleaners, carpet shampoos, floor polishing and scrubbing machines.	
79 II A	7930	CLEANING EQUIPMENT AND SUPPLIES—liquid and powdered dishwashing compounds with contractor supplied, installed and maintained accessory dispensing systems.	
79 III A	7930	CLEANING EQUIPMENT AND SUPPLIES—liquid and powdered laundry detergents with contractor supplied, installed and maintained accessory dispensing systems.	
80 II A	8010	PAINT—gloss and semi-gloss latex, interior.	
81 I A	8135	PACKAGING AND PACKING SUPPLIES—cushioning material.	
81 II A	8135	PACKAGING AND PACKING SUPPLIES—steel and nonmetallic strapping.	
99 VI A	9910	TROPHIES AND AWARDS—trophies, awards, plaques, pins and ribbons.	
99 V A	9905	RECRUITING AID PROMOTIONAL MATERIAL.	For requirements of recruiting commands only.
733	7339	TRANSCRIPTS—stenographic reporting services.	

In addition to these National Federal Supply Schedules, there are Regional Schedules (chiefly covering various services) which are mandatory in the region covered. Activities should check with local GSA Region offices for listings of regional schedules applicable in their area.

**208.404-71 Establishment or revision of Federal Supply Schedules mandatory upon DoD.**

(a) *Policy.* The Administrator of General Services Administration has agreed that the concurrence of the Office of the Secretary of Defense will

be obtained prior to establishing a Federal Supply Schedule which is mandatory upon the Department of Defense, or prior to adding or removing any items from Federal Supply Schedules which are mandatory upon the Department of Defense, or making any other changes in such Schedules affecting their use by Department of Defense in meeting its supply requirements. However, deletion of an item from a Federal Supply Schedule will not require Office of the Secretary of Defense concurrence when the reports of sales for that item amount to

less than \$1,000 per year, except where—

- (1) The item is a part or accessory incidental to a basic item;
- (2) The item is a component of a unit assembly;
- (3) The item has a demonstrated need to fill out a range of colors, sizes or other characteristics; or
- (4) The item involves a contract for services.

(b) *Procedures.* Requests for the establishment of or a change in a Federal Supply Schedule mandatory on elements of the Department of Defense

shall be forwarded to the Executive Director, Contracting, Defense Logistics Agency, for coordination with the Departments. Such proposals normally shall be forwarded in sufficient time to provide three months for consideration by all interested elements of the Department of Defense and General Services Administration prior to the desired effective date. In the event action on such proposals is desired in a shorter period of time, a minimum of 35 days for consideration should be anticipated. These proposals will be distributed to the representatives of the Departments and General Services Administration engaged in the Federal Supply Schedule review program, as appropriate, for comment or concurrence. Any questions will be jointly considered before final action is taken. If the Departments and General Services Administration representatives cannot reach agreement on a question raised, the question will be forwarded to the Assistant Secretary of Defense (Manpower, Installations and Logistics) for resolution.

#### 208.405 Ordering office responsibilities.

##### 208.405-1 Ordering from Multiple-Award Schedules.

(c) When purchase of an item of foreign origin is specifically required, the using activity shall furnish the contracting activity sufficient information to permit the determination required by FAR Part 25 to be made.

##### 208.405-2 Order placement.

DD Form 1155 is authorized for use to place orders against Federal Supply Schedules.

(S-70) Oral orders not to exceed \$10,000.

(1) General. Contracting offices are authorized to make acquisitions not in excess of \$10,000 by oral orders from Federal Supply Schedule contractors. Ordering activities shall obtain an agreement from the contractor that for each shipment under an oral order the contractor will furnish a delivery ticket, in the number of copies required by each purchasing office, which shall contain the following information:

- (i) Contract number;
  - (ii) Order number under the contract;
  - (iii) Date of order;
  - (iv) Name and title of the person placing order;
  - (v) Itemized listing of supplies or services furnished; and
  - (vi) Date of delivery or shipment.
- (2) Payment. Optional methods of invoicing are permissible. An individual invoice accompanied by a receipted copy of the related delivery ticket may be submitted for payment. Alternatively,

a summarized monthly invoice covering all oral orders made during the month, accompanied by a receipted copy of each delivery ticket or a statement by the contracting officer that the supplies have been received by the Government, may be submitted for payment. The monthly billing procedure is preferred when numerous oral orders may be placed.

(S-71) Imprest funds (petty cash method). In buying commodities where cash payment is advantageous, the imprest funds method (see FAR 13.4) is authorized; *Provided*, the order does not exceed \$500, and the contractor agrees to such a procedure.

#### 208.470 Acquisition from GSA Sources.

##### 208.470-1 Applicability.

This subsection applies to the acquisition of supplies available from General Services Administration stock for delivery in the contiguous United States, including the satisfaction of overseas requirements when such requirements are routed to facilities in the contiguous states for supply action in accordance with instructions prescribed by the Departments. This subsection may be applied optionally in Alaska and Hawaii. It does not apply in any event to any order which amounts to \$25.00 or less, or to:

- (a) Any subsistence or medical item which is under the cognizance of the Defense Personnel Support Center;
- (b) Any item which is being purchased for resale; or

(c) Any item used by commissaries for operation and maintenance that is available through local purchase at a price lower than from GSA stock. This subsection also applies to the mandatory use of General Services Administration services and term contracts for the maintenance, repair, rehabilitation, and reclamation of all personal property described in 208.470-6, in the United States, Puerto Rico and the Virgin Islands. Services of this type which are available from Federal Prisons Industries and Agencies for the Blind will be procured under the provisions of FAR Subparts 8.6 and 8.7.

##### 208.470-2 Acquisition from General Services Administration stock.

It is the policy of the Department of Defense that for an item which has been decentralized for local purchase and which is available from the General Services Administration stock, such items will be ordered from GSA unless delivery requirements cannot be met. The mandatory provisions of Department of Defense, General Services Administration Interagency

Purchase Assignments (208.7106) are not applicable to decentralized items which are within these assignments and which are available from the stock. Such items will be ordered in accordance with the above-stated policy.

#### 208.470-3 GSA Supply Catalog.

The General Services Administration Supply Catalog sets forth, among other things, information with respect to some of the items of supply carried in stock, prices, and delivery information, and a listing of the General Services Administration regional offices. The catalogs do not list all of the items carried in stock. Items within the classes assigned to GSA in accordance with DoD/GSA agreements and not recorded in the management data lists of the Federal catalog publications as managed by another service or agency and not recorded for decentralized acquisition, should be requisitioned from GSA. Copies of the GSA Supply Catalog may be obtained by completing GSA Form 457 (FSS Publications Mailing List Application) and mailing it to the GSA Centralized Mailing Lists Service, Building 41, Denver Federal Center, Denver, Colorado 80225. GSA Form 457 may be obtained from the GSA Centralized Mailing Lists Service by letter or by telephoning 303-234-4195.

#### 208.470-4 General Services Administration regional offices.

The General Services Administration regional offices, located in the cities listed below, serve the areas indicated in the GSA Supply Catalog guide. The addresses shown are the mailing addresses to which all orders and correspondence should be forwarded.

##### GSA Region and Address

- (a) Boston, MA—John W. McCormack, Post Office & Courthouse, Boston, MA 02109.
- (b) New York, NY—26 Federal Plaza, New York, NY 10007.
- (c) Philadelphia, PA—Ninth & Market Streets, Philadelphia, PA 19107.
- (d) Atlanta, GA—75 Spring Street, SW, Atlanta, GA 30303.
- (e) Chicago, IL—230 S. Dearborn Street, Chicago, IL 60604.
- (f) Kansas City, MO—1500 East Bannister Road, Kansas City, MO 64131.
- (g) Fort Worth, TX—819 Taylor Street, Fort Worth, TX 76102.
- (h) Denver, CO—Denver Federal Center, Bldg. 41, Denver, CO 80225.
- (i) San Francisco, CA—525 Market Street, San Francisco, CA 94105.
- (j) Auburn, WA—General Services Administration Center, Auburn, WA 98002.
- (k) National Capital—7th & D Streets SW., Washington, DC 20407.

**208.470-5 Order for supplies.**

Orders for supplies from the General Services Administration shall be submitted in accordance with the Military Standard Requisitioning and Issue Procedures (MILSTRIP) (DoD 4140.17-M).

**208.470-6 Mandatory Sources for Maintenance, Repair, Rehabilitation and Reclamation of Personal Property.**

General Services Administration regional offices provide facilities for maintenance, repair, rehabilitation and reclamation of Government-owned personal property and, in addition, have Term Contracts with commercial concerns for similar services. These contracts are published as General Services Term Contracts. When requirements exceed the in-house capabilities of a Departmental activity or installation, or it is otherwise required that outside sources be used, mandatory General Services Administration sources for such services shall be used except when:

(a) The items involved are military weapons systems, specialized military support equipment, or specialized technical or scientific equipment;

(b) Such services are available from the Agencies for the Blind or Other Severely Handicapped;

(c) The required services are covered by warranty or other preexisting contract;

(d) Delivery requirements for repair and refinishing services cannot be met (the provisions of FAR 8.404-1 are applicable when determining whether a General Services Administration source can meet the delivery requirements);

(e) The required services are not within the scope of the existing mandatory GSA Term Contract or a waiver is first obtained from the appropriate GSA Federal Supply and Services contracting office (such waivers are not required when the exigency of the contract action will not permit delay; however, telephonic clearances will be given by GSA in appropriate cases); and

(f) The requiring activity is outside the geographic area covered in the GSA Term Contract. (Normally, this area extends no more than a 15-mile radius from the contractor's location. Each contract specifies the area covered which may in some cases extend beyond that distance.)

**208.470-7 Personal property covered under mandatory GSA term contracts.**

The items of personal property listed below are indicative of those for which General Services Administration sources are mandatory for maintenance,

repair, rehabilitation, and reclamation services. They are not all inclusive. For detailed listings, see the latest Federal Supply Catalog entitled "Guide to Sources of Supply and Service." Copies are available from GSA Regional Offices and should be obtained by each installation and activity that may have need of such services. Copies of existing GSA Term Contract for these services are routinely forwarded by each GSA Regional Office to all affected Government activities within the respective regions.

**Sample List of Items**

Adders, calculators, and comptometers  
Fire extinguishers (Industrial and Commercial)  
Furniture (office, household, quarters, institutional and hospital type)  
Household appliances  
Mattresses  
Motors and generators (Industrial and Commercial)  
Tires (except for aircraft)  
Typewriters (manual and electric)  
Watches and clocks (Industrial and Commercial)

**208.470-8 Order for services.**

Orders for maintenance, repair, rehabilitation, or reclamation services from General Services Administration sources shall be placed as follows:

(a) *GSA repair facility.* A delivery order on Order for Supplies or Services/Request for Quotations (DD Form 1155) shall be submitted to the General Services Administration regional office which normally serves the contracting activity. Each delivery order which is subject to fiscal year limitations necessitating GSA acquisition action to be completed not later than September 30 shall contain a notation to that effect.

(b) *Commercial sources.* Delivery orders on DD Form 1155 will be placed directly with contractors pursuant to GSA Term Contracts.

(1) *Inspection and acceptance.* Arrangements for inspection and acceptance shall be the responsibility of the ordering agency, except when the GSA Term Contract specifically provides for source inspection by GSA.

(2) *Default terminations.* The GSA contracting office shall be notified each time an order is terminated for default in accordance with contract provisions.

**Subpart 208.70—Coordinated Acquisition****208.7000 Applicability.**

Although the Department of Defense Coordinated Acquisition Program includes items assigned to one or more of the Departments or the General Services Administration for integrated materiel management, the procedures

set forth in this Part apply to items assigned for purchase responsibility only, and not to those in the integrated materiel management program. The latter items will be obtained in accordance with current supply procedures.

**208.7001 Definitions.**

As used in this part, the following terms have the meanings set forth below.

"Acceptance of MIPR" means DD Form 448-2 (Acceptance of MIPR) executed by a Contracting Department as notice to the Requiring Department that a MIPR has been received and accepted for contracting action.

"Coordinated acquisition" means (a) acquisition by contracting activities, within the 48 contiguous States and the District of Columbia, of certain supplies to satisfy the requirements (including overseas requirements) of all Departments in compliance with assignment responsibilities set forth in Subpart 208.71; (b) procurement assignments made by the respective Unified Commanders in Alaska, Hawaii, and outside the United States, regardless of funds utilized; and (c) acquisition assignments made in accordance with 8.7018. It does not include acquisitions made in Alaska, Hawaii, or outside the United States which do not fall within (a) or (b) above.

"Direct citation acquisition (Category II Method of Funding)" means an acquisition having separate identification of the items and citing the funds of the Requiring Department, and may be accomplished by combining the requirements of two or more Departments under one contract with separate schedules showing the quantities, prices, dollar amounts, and citation of funds of each Requiring Department, or by placing separate contracts for each department.

"Integrated materiel management items" means items assigned to one Department or the General Services Administration for entire Department of Defense management. Such management normally includes responsibility for computation of requirements, funding, budgeting, storing, issuing, cataloging, standardizing and contracting functions.

"Military service managed items" means items which are within Federal Supply Classes assigned to the Defense Logistics Agency or the General Services Administration but which are retained for supply management by the Requiring Department.

"Contracting department" means the Department or the General Services

Administration whichever is assigned the contracting responsibility for the supplies.

"Purchase request" means the following types of authorized purchase requisitions: (a) Military Interdepartmental Purchase Request (MIPR) (DD Form 448); and (b) Requisition for Coal, Coke, and Briquettes (DD Form 416).

"Reimbursable acquisition (Category I Method of Funding)" means the acquisition of supplies for a Requiring Department on a contract funded by the Contracting Department, without separate identification of the items or separate citation of funds of the Requiring Department, with subsequent delivery to and reimbursement by the Requiring Department.

"Requiring department" means the Department originating a requisition or purchase request for supplies.

#### **208.7002 Responsibilities under coordinated acquisition.**

The Contracting Department is generally responsible for the following under coordinated acquisition:

(a) Operational phases of acquisition planning (phasing the submission of requirements, consolidating or dividing requirements, analyzing the market, and determining patterns for the phased placement of orders in such a manner as to assure meeting the needs of the Requiring Departments at the lowest possible price to the Government, and at the same time avoiding unnecessary peaks and valleys of production);

(b) Purchasing.

(c) Performing or arranging through a contract administration office for contract administration, including followup and expediting of inspection and transportation; and

(d) Acquisition of licenses under patents or other proprietary rights covering the subject matter of the acquisition and the settlement of patent infringement claims arising out of the acquisition; approval of the Departments whose funds are to be charged for acquisition of licenses or settlement of claims shall be obtained.

#### **208.7003 General principles governing implementation of acquisition assignments.**

##### **208.7003-1 Standard format-development and promulgation of implementing procedures.**

Implementation of acquisition assignments shall be in accordance with Enclosure 1 of Department of Defense Instruction 4115.1, dated October 14, 1968 (and amendments thereof), Subj: Department of Defense Coordinated Procurement Program—Purchase Assignments (NAVSUPINST 4215.4B).

##### **208.7003-2 Relationship between research and development and coordinated acquisition.**

Items are not subject to procurement assignment until they have reached the production stage.

##### **208.7003-3 Small dollar value purchases.**

Requirement of small dollar value shall be acquired in accordance with the provisions of the approved implementing procedures covering the particular assignment. Such implementing procedures shall normally provide a small dollar limitation of \$2,500; however, in special situations, the limit may vary depending upon the commodity area and may be expressed either in a higher or lower dollar value, by tonnage, less-than-carload lot quantities, or other units, as appropriate. Such implementing procedures shall clearly state that requirements of a value or quantity less than the prescribed limitations shall, wherever feasible, be acquired by the Requiring Department. A MIPR for a military type item need not contain such a notation. The Contracting Department shall not return a MIPR submitted in accordance with the foregoing, but shall procure such items.

##### **208.7003-4 Emergency.**

In case of emergency, when the exigencies of the situation will not permit the delay incident to following the normal channels of coordinated acquisition, purchases may be made without the prior authorization of the Contracting Department. When an emergency purchase is made, one copy of the contractual instrument, bearing or accompanied by a statement of the emergency, shall be transmitted promptly to the contracting activity of the Contracting Department (the coordinated acquisition assignee). The provisions of this paragraph will not normally be used for stock replenishment. These emergency procedures do not apply to the purchase of integrated materiel management items as described by 208.7001. Emergency purchase of such items is covered by 208.7101-2(d).

##### **208.7003-5 Department of Defense manufacturing establishment.**

When acquisition assignments have been made for items required by manufacturing establishments of the Departments, these items shall be obtained through the facilities of the Contracting Department unless such action will unduly hinder or delay production. When acquisitions are made other than through the Contracting Department, one copy of the contractual

instrument bearing or accompanied by a statement of the circumstances necessitating such acquisition shall be transmitted promptly to the contracting activity of the Contracting Department. This paragraph is not applicable when purchases are made pursuant to 208.7003-3 above.

##### **208.7003-6 Consolidation of requirements.**

The primary objective of coordinated acquisition is to obtain for the Government maximum economy through the consolidation of requirements and the elimination thereby of competitive purchases among the Departments. The Procuring Department shall, to the extent consistent with the delivery schedule of the Requiring Department, consolidate in one contract its own requirements for the same or similar items plus all requirements via MIPRs or other purchase requests.

##### **208.7004 Items in short supply.**

When shortages develop in the market for supplies being purchased and requirements have been submitted by more than one Department, the normal procedure shall be to resolve the problem on a Departmental level between or among the Departments based on priorities for the supplies. If agreement cannot be reached, the subject shall be referred to the Deputy Assistant Secretary of Defense (Logistics) for decision.

##### **208.7005 Transfer of uncompleted Contracts.**

###### **208.7005-1 Effect of assignment of acquisition responsibility.**

As a general rule, when the acquisition responsibility for a commodity or class of commodities is assigned to one Department, or the General Services Administration, uncompleted contracts of any other Department, or the General Services Administration, for any commodity or class of commodities will not be transferred but will continue to be administered by the Contracting Department or Defense Contract Administration Services as appropriate.

###### **208.7005-2 Contracting officers under transferred contracts.**

In the case of any contract transferred, or to be transferred, to any Department, the successor to the contracting officer for each such contract shall be the Head of the Contracting Activity (or any contracting officer thereof) to which the administration of any such contract is assigned, and any such successor shall

have all of the rights and responsibilities of a contracting officer under such transferred contract.

#### 208.7006 Purchase authorization.

##### 208.7006-1 MIPRs or other authorized purchase requests.

(a) Military Interdepartmental Purchase Requests (MIPRs) or other authorized purchase requests when received by the Contracting Department shall be the authority to acquire the supplies or nonpersonal services in accordance with single department acquisition assignments or agreements between the Departments concerned as provided in 208.7018. The Contracting Department is authorized to create obligations against the funds cited in a MIPR without further referral to the Requiring Department. The Contracting Department has no responsibility to determine the validity of a stated requirement in an approved MIPR; however, it should bring apparent errors in the requirement to the attention of the Requiring Department.

(b) When purchase requests other than MIPRs (see 208.7001) are used as the basis for acquisition, the general procedures prescribed for processing, amending, accepting and terminating requirements on MIPRs as prescribed in other paragraphs of this subpart shall normally be followed, except as otherwise agreed to by the Departments involved.

##### 208.7006-2 Use of advance MIPRs.

(a) An Advance MIPR is an unfunded MIPR provided to the procuring activity in advance of the formal funded MIPR whereby initial steps in planning contract action can begin at an earlier date.

(b) Advance MIPRs may be used only when the Procuring Department and the Requiring Department agree that the procedure may be beneficial in placing the acquisition and obtaining the requirements in a more timely manner.

(c) Advance MIPRs shall not be released to a procuring activity until proper approval of the requirement is obtained.

(d) When Advance MIPRs are used, the DD 448 shall be prominently marked "Advance MIPR."

(e) For urgent requirements, the Advance MIPR may be in the form of an electrically transmitted message.

(f) On the basis of an Advance MIPR, the Procuring Department may take the initial steps toward establishing a contract, such as obtaining internal coordination, and preparing an acquisition plan. The extent of such action may be determined by the procuring Departments. However,

contracts shall not be awarded on the basis of Advance MIPRs.

##### 208.7006-3 Justifications and approvals and determinations and findings.

(a) Coordinated procurement shall not be used by Departments to avoid FAR Part 6 requirements concerning full and open competition (see FAR 6.002). When a Requiring Department requests that a Procuring Department obtain supplies or services by contract using other than full and open competition, the Requiring Department shall prepare the justification required by FAR 6.303 and obtain the approval specified in FAR 6.304. The Requiring Department shall also make the Determinations and Findings specified in FAR 6.302-7(c)(1) and FAR 6.202(b)(1), where applicable. The Requiring Department shall preserve the original justification and approval and determination and findings with supporting data as required by 215.3. Two copies shall be attached to the MIPR or purchase request in the Procuring Department's contract file.

(b) *Foreign end products.* Where a foreign end product is specified by the Requiring Department, that Department is responsible for determining that a domestic source end product is not available as required by FAR 25.108 and FAR 25.302. Two copies of the determination that a domestic source end product is not available shall be furnished to the Procuring Department with the MIPR.

##### 208.7006-4 Delivery schedules.

(a) In submitting MIPRs the Requiring Department should take into consideration the normal administrative lead time of the particular commodity in order to insure delivery by the date required. The time of delivery or performance is an essential element for inclusion in a contract and must be clearly stated in each MIPR. Delivery and performance schedules on MIPRs shall be designed to meet the requirements of the particular acquisition and must be realistic (see FAR 12.1). If the delivery schedule, as set forth in a MIPR, is unrealistic or cannot be accepted by the Procuring Department, the DD Form 448-2 "Acceptance of MIPR" will be so annotated (see 208.7009-3). Changes in the requested delivery schedule shall be accomplished in accordance with 208.7008-5.

(b) When a short delivery schedule is mandatory, the MIPR shall be marked "URGENT" in bold letters. The Requiring Department's justification for the "URGENT" marking shall be stated on the MIPR or attached thereto, in

order to enable the Procuring Department to apply any necessary expediting techniques to assure the required delivery.

##### 208.7006-5 Specifications, drawings, and other purchase data.

The Requiring Department shall furnish to the Procuring Department a list (or copies) of specifications, drawings, and other data, as appropriate, required for the acquisition. If Federal, Military, Departmental, or other specifications, or drawings or data are available to the Procuring Department and referenced in the MIPR, they need not be furnished by the Requiring Department (but see FAR 46.407). Required changes in such purchase data shall be accomplished as set forth in 208.7008-5.

##### 208.7006-6 Utilization of existing Department of Defense assets.

The Requiring Department is responsible for insuring compliance with FAR 8.001 prior to submitting military interdepartmental purchase requests for acquisition action.

##### 208.7006-7 Options for increased quantities.

If the Requiring Department desires an option to purchase an additional quantity, the MIPR shall so stipulate and shall contain a justification therefor.

##### 208.7007 Funds and payments.

##### 208.7007-1 Citation of appropriation and funds of requiring Department—Category II method of funding.

Except as provided in 208.7007-2, contracts and orders for other than integrated supply management materiel shall cite the specific fund citation(s) and the MIPR number of the Requiring Department. The Contracting Department shall determine which type of funding (direct citation or reimbursable acquisitions) shall be used.

##### 208.7007-2 Citation of funds of Contracting Department—Category I method of funding.

Under the conditions listed below, only the funds of the Contracting Department shall be cited in the consolidated contracts; and the contracts and orders thereunder shall provide for payment by the Contracting Department or by the Defense Contract Administration Services as appropriate:

(a) Delivery is from existing inventories of the Contracting Department;

(b) Delivery is by diversion from existing contracts of the Contracting

Department which cite the funds of the Contracting Department;

(c) Production or assembly is through government work orders in Government-owned plants;

(d) Allocation of production quantities among users from one or more contracts for which the identity of specific quantities of the end item to individual contracts is not feasible at the time of MIPR acceptance;

(e) Acquisition of the end items involves separate acquisition of components to be assembled by the Contracting Department;

(f) Payments will be made without reference to deliveries of end items; e.g., cost-reimbursement type contracts and fixed-price contracts with progress payment clauses; or

(g) It is not feasible and economical to use Category II method of funding.

#### 208.7007-3 Disbursement.

When the contract is funded with DoD funds and is to be administered by the Defense Contract Administration Services, the Contracting Department shall cite as the disbursement office the Defense Contract Administration Services Region Disbursing Office (see 242.102). If the contract is not administered by the Defense Contract Administration Services, the Contracting Department shall cite as the disbursement office the payment office designated by the Requiring Department (see 208.7008-1).

#### 208.7007-4 Authorization for exceeding MIPR estimates.

Each MIPR shall indicate on its face whether or not the total MIPR estimate may be exceeded by the purchasing office, and if affirmative, by what amount. The additional amount shall not be more than \$20,000, or 10% of the total estimated MIPR amount, whichever is less.

#### 208.7008 Preparation and use of DD Form 448 (MIPR).

DD Form 448 is substantially self-explanatory. Information provided in MIPRs shall be arranged in Uniform Contract Format to the extent feasible. If desired, each Department may overprint fixed repetitive information.

#### 208.7008-1 Special instructions.

(a) *MIPR number.* The MIPR number will consist of:

(1) The requiring agency identification code as prescribed in the DoD Activity Address Directory (DoDAAD), DoD 4000.25D;

(2) The last digit of the fiscal year; and

(3) The number of the particular MIPR (numbered consecutively by the requiring activity).

Amendments will be numbered with the MIPR number suffixed with the amendment number assigned in consecutive numbered sequence.

(b) Appropriate checks in Item 9 shall be accomplished in compliance with Department of Defense policy which requires interdepartmental screening of items in accordance with FAR 8.001 to determine stock availability within other Departments prior to preparation of a DD Form 448. Items which are determined to be available from stocks of other Departments shall be requisitioned as follows:

(1) Items within the scope of MILSTRIP (see DoD 4140.17-M (MILSTRIP) of 1 May 1964, as amended) shall be obtained by use of DD Form 1348/1348m, DoD Single Line Item Requisition System Document;

(2) Items not covered by MILSTRIP shall be obtained by use of DD Form 1149, Requisition and Invoice/Shipping Document. If a Contracting Department determines after receipt of a MIPR that the items can be supplied from stock, the MIPR shall be used for effecting supply from such stock.

(c) Normally a MIPR shall be restricted to one major end item, including its required spare parts, ground support equipment, and similar related items. MIPRs for other than major end items normally shall be limited to items within a single Federal Supply Classification.

(d) Attachments to MIPRs (Item 10) must be prepared in sufficient numbers so that each copy of a MIPR submitted to the Contracting Department is complete with a copy of all attachments. "Ship To and Mark For" addresses in shipping instructions shall include the clear text identification and DoDAAD code if assigned.

(e) Item 13 is used to identify the name and address of the office to receive invoices and make payment only if the resulting contract is not to be paid by the Defense Contract Administration Services in accordance with 208.7007-3, and the office to receive invoices and make payment is known at the time of preparation of the MIPR. If payment is to be made by an office designated to receive invoices, also enter the DoDAAD code of that office. If payment is to be made by an office other than the office to which the invoice is to be mailed (Item 13), the name, address, and DoDAAD code of the payment office shall be set forth in detail as an attachment to the MIPR. If multiple offices are to receive invoices and make payment, the names and addresses of those offices shall be set forth as an attachment to the MIPR, including the DoDAAD code of each payment office.

Whenever the payment office(s) is included in an attachment, an appropriate reference to the attachment will be included in Item 13. If the names and addresses of those offices are to be provided to the Contracting Department after preparation of the MIPR, the DoDAAD code also shall be provided for each payment office.

(f) Allotment data for the acquisition of supplies shall be entered in Item 14. Allotment data for the transportation of supplies at Government expense, if cited in the MIPR in accordance with 208.7017 shall be entered in Item 12. Each citation in Item 14 shall be set forth in the appropriate space in the following manner:

(1) *ACRN.* If the Accounting Classification Reference Number procedures of 204.7108 are used in the MIPR to relate allotment data to the MIPR item or delivery, the ACRN for each fund citation in Item 14 shall be entered. (The Contracting Department is not required to use in the resulting contract the ACRN assigned to a fund citation in the MIPR.)

(2) *Appropriation.* Will be shown in the ten positions as follows:

(i) First and second positions shall be the Treasury Department number identifying the Department or Agency to which the appropriation applies or has been transferred.

(ii) Third and fourth positions shall be the Treasury Department number identifying the Department or Agency from which an appropriation has been transferred; shall be blank if no transfer is involved.

(iii) Fifth and sixth positions shall identify the Appropriation Fiscal Year. For multiple-year appropriations, the fifth position shall be the last digit of the first year of availability and the sixth position shall be the last digit of the final year of availability. For annual appropriations, the fifth position shall be blank and the sixth position shall be the "X".

(iv) Seventh through tenth positions shall be the Treasury Department appropriation serial number.

(3) *Limit/Subhead.* Up to four characters; if less than four characters, leave empty spaces blank.

(4) *Supplemental accounting classification data.* Shall not exceed 36 characters. Enter in accordance with Departmental or Agency regulations.

(5) *Accounting station.* Shall show the six character DoDAAD code of the accounting station (not used with Navy and Marine Corps funds).

(6) *Amount.* Enter the amount for each fund citation if more than one allotment is cited.

(7) *Additional citations.* If space is required for additional fund citations, they shall be set forth in the same manner as an attachment to the MIPR and a reference to the attachment will be included on the form.

(g) Requiring Activities shall provide MILSTRIP requisition data prescribed in Appendix B of the MILSTRIP Manual, for each line item which is to be delivered to each "ship to" address. Repetitive data applicable to all lines on the MIPR may be overprinted.

(h) The Requiring Activity will furnish estimated weight, cube and dimensions for each line item or a statement that such data are not available and the reasons therefor.

**208.7008-2 Cutoff dates for submission of Category II (direct citation) MIPRs.**

(a) Unless otherwise agreed between the Departments, a cutoff date of 31 May of each year is established for the receipt of MIPRs citing expiring appropriations which must be obligated by 30 September of that fiscal year. If circumstances arise which require the submission of MIPRs citing expiring appropriations after the cutoff date, the Requiring Department will communicate with the Contracting Department prior to submission to ascertain whether or not it will be possible for the Contracting Department to execute a contract or otherwise obligate the funds by the end of the fiscal year. Contracting Departments will make every effort to obligate funds for all such MIPRs accepted after the cutoff date. However, acceptance of a late MIPR does not constitute assurance by the Contracting Department that all such funds will be obligated. The provisions of these instructions are not to be construed as restrictive in the processing of MIPRs when it is within the capabilities of the Contracting Department to execute contracts or otherwise obligate the funds prior to the end of the fiscal year.

(b) MIPRs citing continuing appropriations are not restricted by law to time limits for obligation; therefore, the cutoff date of 31 May is not applicable to such MIPRs and contracting action should continue regardless of whether obligation will be accomplished before or after the end of the fiscal year. However, as the timely accomplishment of obligations is a factor affecting delivery of material, every effort must be made by the Contracting Department to obligate available funds as soon after receipt of the MIPR as is possible.

**208.7008-3 Notification of inability to obligate.**

On 1 August of each fiscal year, the Contracting Department will advise the Requiring Department of any Category II (direct citation) MIPRs on hand citing expiring appropriations on which they will be unable to obligate the funds prior to the fund expiration date. If an unforeseen situation develops after 1 August which will prevent execution of a contract, the Contracting Department will notify the Requiring Department of that fact by the most expeditious means and return the MIPR accompanied by a letter of transmittal authorizing purchase by the Requiring Department including the reason that acquisition could not be accomplished.

**208.7008-4 Number of copies of MIPRs with attachments to be submitted.**

Unless otherwise agreed by the Departments, the original and six copies of each MIPR, all complete with attachments, shall be forwarded to the Contracting Department. When copies of specifications, drawings or other data are to be furnished with MIPRs (see 208.7006-5), the number of copies of such data to be furnished shall be as agreed upon by the Requiring and Contracting Departments.

**208.7008-5 Changes to MIPRs.**

(a) Normally, changes that affect the contents of the MIPR must be processed as a MIPR amendment regardless of the status of the MIPR. However, a MIPR amendment for increased quantities of items specified in the original MIPR may be used when it is known that the original MIPR requirements have not been released for solicitation but then only after coordination and agreement with the Contracting Department. Changes may be initially provided by expeditious means such as telegraphic message but shall be confirmed by a MIPR amendment. Requirements for additional line items of supplies or services not provided for in the original MIPR shall be submitted as a new MIPR.

(b) Only those items of the DD Form 448 that are applicable to the change, revision, etc., being written, which vary or deviate from the data shown on the basic MIPR or prior amendment thereto will be filled out. All other items will have "n/c" inserted to reflect no change. However, basic information in items 1 through 8 must always be shown.

(c) A MIPR amendment is not required for change of a disbursing office set forth on a DoD funded MIPR when the resultant contract is assigned for contract administration to a Defense Contract Administrative Services Region. Such change may be made by

the DCASR by issuance of an administrative change order, copies of which will be provided to the Contracting Officer for transmittal to the Requiring Activity.

**208.7008-6 Requests for additional funds.**

When the Contracting Department requires additional funds to complete contracting actions for the Requiring Department, the request for additional funds must identify the exact items involved and the reason why additional funds are required. The Requiring Department shall take expeditious action to provide such funds by an amendment to the MIPR or to reduce requirements accordingly. In case of any anticipated delay in furnishing required additional funds, the Contracting Department will be advised accordingly.

**208.7009 Acceptance of MIPR.**

As soon as practicable, but not later than 30 days after receipt of a MIPR, the Contracting Department shall formally accept the MIPR by DD Form 448-2, "Acceptance of MIPR." If this time limit cannot be met, the Requiring Department shall be informed of the reason for the delay and the anticipated date the MIPR will be accepted. In any event, Category I MIPRs must be accepted in writing by the Contracting Department prior to the expiration of funds cited. When accepted for reimbursable acquisition, the executed DD Form 448-2 is the authority for the Requiring Department to record the obligation of funds. When accepted for direct citation acquisition, the accomplished date and a conformed copy of the contract will be the authority to record the obligation. The accepting activity of the Contracting Department shall remain responsible for the MIPR even though that activity may split the MIPR into segments for actions among other contracting activities.

**208.7009-1 Qualified acceptance.**

Where contingencies, price revisions or variations in quantities are anticipated by the Contracting Department under reimbursable acquisition, the acceptance will be so annotated on DD Form 448-2. When the acceptance is qualified, the Contracting Department will periodically advise the Requiring Department prior to submission of billings, of any changes in the acceptance figure so that an amendment to the MIPR may be issued by the Requiring Department and the appropriate adjustment may be made to the recorded obligation to reflect the current price.

**208.7009-2 Non-qualified acceptance.**

If the acceptance of a MIPR is not qualified by the Contracting Department for anticipated contingencies under reimbursable acquisition, the price on the acceptance will be final and will be billed at time of delivery.

**208.7009-3 Preparation and use of DD Form 448-2 (acceptance of MIPR).**

(a) DD Form 448-2 is substantially self-explanatory; however, certain details are defined below. Only pertinent items should be accomplished.

(1) Check the specific terms in Item 6 under which the MIPR is being accepted (see 208.7007-3).

(2) If any one of the MIPR line items is not accepted, Item 7 will be checked and the affected MIPR line item number and reason recorded in Item 13.

(3) Items 8 and 9 will be used only:

(i) When Item 6c acceptance is indicated (identify the MIPR line item numbers that will be provided under each method of financing in Items 8a and 9a respectively); or

(ii) If quantities or estimated costs cited in a MIPR require adjustment (the affected MIPR line item numbers will be listed together with the adjusted quantities or estimated costs in the columns provided under Items 8 and 9 as may be appropriate).

(4) Whenever a MIPR is accepted in part or in total under Category II (direct citation) method of financing, the Contracting Department will forecast in Item 10 the approximate date that contractual placement is expected to be accomplished.

(5) Enter the total amount of funds in Item 11 required by the Contracting Department to fund the MIPR items, as accepted.

(6) Complete Item 12 only in those cases where the amount recorded in Item 11 is not in agreement with the amount recorded in Item 5. This will serve either as (i) request on the Requiring Department to issue a MIPR amendment to provide the additional funds required, or (ii) authority for the Requiring Department to withdraw the available excess funds. When funds of two or more appropriations are involved, proper breakdown information will be provided in Item 13.

(7) Item 13 will be used to record (i) justification, by MIPR line item, for any additional funds required; (ii) explanation for rejection of MIPR whether in part or in total; (iii) appropriation and subhead data cited on the MIPR; and (iv) such other data as may be pertinent.

(b) DD Form 448-2 shall be executed for all MIPR amendments involving an adjustment of funds or delivery

schedule, and in all other cases only when requested by the Requiring Department.

(c) The Requiring Department will be furnished four copies (one signed) of each accomplished DD Form 448-2 unless otherwise agreed between the Departments.

**208.7009-4 Withdrawal of funds.**

(a) When the Contracting Department accepts a MIPR for reimbursable acquisition in a lesser amount than authorized on the MIPR, the DD Form 448-2 is the authorization for the Requiring Department to withdraw such excess funds by MIPR amendment. Upon receipt of the final billing (SF 1080) and a subsequent determination that all items requested on the MIPR have been delivered and billed in an amount less than the MIPR, the Requiring Department may adjust their fiscal records accordingly without authorization from or notice to the Contracting Department.

(b) When the Contracting Department has accepted a MIPR for direct citation acquisition, and initial contract placement is completed, any unused funds remaining on the MIPR become excess and are no longer authorized for use of the Contracting Department. Any such excess funds will be immediately reported to the Requiring Department. Although the Contracting Department is prohibited from further use of such excess funds, the Requiring Department will confirm the withdrawal of excess funds by the issuance of a MIPR amendment.

**208.7010 Components of end items.****208.7010-1 Contractor-furnished components.**

In the acquisition of end items where the contractor normally secures all components thereof from his own source (not Government-furnished), the acquisition assignment does not apply to the component items required by such contractor.

**208.7010-2 Government-furnished components.**

In the acquisition of end items where the Government furnishes components which are covered by an acquisition assignment, such components shall be acquired in accordance with the acquisition assignment. However, direct purchase may be made by a Requiring Department in exceptional cases where agreement is reached with the Contracting Department or is authorized in accordance with Subpart 208.71.

**208.7010-3 Purchase of components over and above those initially purchased with the end item.**

The acquisition of components covered by an acquisition assignment, over and above those initially purchased with the end item, shall be effected in accordance with the acquisition assignment. However, direct purchase may be made by a Requiring Department in exceptional cases where agreement is reached with the Contracting Department or is authorized in accordance with 208.7100.

**208.7011 Distribution of contracts and orders.**

(See 204.201(c)(3).)

**208.7012 Cancellation of requirements.**

(a) *Direct citation acquisition.* When all or any part of the supplies or services requested in the MIPR are to be canceled by the Requiring Department, that Department shall so notify the Contracting Department by telegraphic notice. In the event that the Contracting Department has not entered into a contract for the supplies and services to be canceled, the Requiring Department shall be immediately notified to that effect. Upon receipt of such notification, the Requiring Department shall initiate a MIPR amendment to revoke the estimated amount shown on the original MIPR for the canceled items.

(1) In the event that the items to be canceled have already been placed under contract, the following procedures will apply. As soon as practicable but in any event within 45 days after receipt of the notice of cancellation from the Requiring Department, the Contracting Officer shall issue a Termination Data Letter to the Requiring Department (original and 4 copies) which will contain as a minimum the information set forth below.

Subject: Termination Data Re:

Contract No. \_\_\_\_\_

Termination No. \_\_\_\_\_

Contract \_\_\_\_\_

To:

(a) As termination action is now in progress on the above contract, the following information is submitted:

(1) Brief description of items terminated.

(2) You are notified that the sum of \$— is available for release under the subject contract which sum represents the difference between \$—, the value of items terminated under subject contract, and \$— estimated to be required for settlement of the terminated contract. The estimated amount available for release is allocated by the appropriations cited on the contract as follows:

MIPR No. — Accounting Classification

— Amount —

Total available for release at this time

(b) You are requested to forward an amendment to MIPR — on DD Form 448 to reflect the reduced quantity and amount of funds available for release.

(c) Periodic examinations (not less than 60 days) will be made as termination proceedings progress to redetermine the Government's probable obligation.

(Signature of Contracting Officer)

(2) Periodic examinations of the termination proceedings will be accomplished no less often than every 60 days by the termination contracting officer to reassess the Government's probable obligation. If any additional funds are excess to the probable settlement requirements, or if it appears that previous release of excess funds will result in a shortage of the amount which will be required to consummate settlement, prompt action will be taken to notify the contracting office, which will amend the Termination Data Letter accordingly. A MIPR amendment to reflect the reinstatement of funds shall be processed by the Requiring Department within 30 days after the amended Termination Data Letter requesting reinstatement of funds has been received from the contracting office.

(3) If required, an amendment to the MIPR covering final removal of any remaining excess funds with respect to terminated quantities shall be prepared by the Requiring Department upon receipt of its copy of the Termination Settlement Agreement.

(b) *Reimbursable acquisition.* When all or any part of the supplies or services requested in the MIPR are to be canceled by the Requiring Department, that Department shall notify the Contracting Department by telegraphic notice. Within 30 days, the Contracting Department shall notify the Requiring Department as to the quantity of items available for termination and the amount of funds in excess of the estimated settlement costs. Upon receipt of this information, the Requiring Department shall issue a MIPR amendment to reduce the quantities and funds accordingly.

(c) *Termination by default.* When the Contracting Department exercises authority to terminate for default (see FAR Part 49), that Department will query the Requiring Department as to whether the supplies or services to be terminated are still required so that repurchase action can be undertaken.

(1) The Requiring Department will not obligate funds on a contract terminated for default until such time as a contractual supplemental agreement of

settlement or other written evidence from the Contracting Department as to release of funds is received.

(2) On the repurchase action, the Contracting Department will not exceed the unliquidated funds on the defaulted contract without the provisions of additional funds by the Requiring Department.

#### 208.7013 Administrative costs.

The Contracting Department shall bear, without reimbursement therefor, the administrative costs incidental to its acquisition of supplies for another Department. However, when an acquisition responsibility is transferred from one Department to another Department, funds appropriated or to be appropriated for defraying the administrative costs of such acquisition responsibility shall be made available to the successor Contracting Department which shall assume budget cognizance at the earliest possible date.

#### 208.7014 Inspection.

Policies and procedures concerning inspection and acceptance for use in conjunction with this subpart are set forth in FAR Part 46.

#### 208.7015 Execution of contracts.

Generally, the Contracting Department shall execute a single contract where an award embodying the requirements of more than one Department is made to a single contractor.

#### 208.7016 Status reporting.

(a) The Contracting Department shall maintain an appropriate system of MIPR followup so that the Requiring Department may be informed of the current status of their requests. In addition, an appropriate system of followup shall be maintained by the contract administration office so that the Contracting Department may be currently informed as to contractor performance and in turn to insure that the Requiring Department is apprised of the status of contracts resulting from MIPRs.

(b) If requested by the Requiring Department, the Contracting Department will furnish the Requiring Department a copy of the solicitation document for materiel management status information when the request is satisfied through the use of direct citation of funds (Category II Method of Funding).

(c) Any reimbursement billings, shipping documents, contractual documents, project orders or related documentation furnished to the Requiring Department will identify the Requiring Department's MIPR number,

quantities of items, and funds covered thereby.

#### 208.7017 Transportation of supplies.

The Requiring Department is responsible for advising the Contracting Department or the Transportation Officer in the Contract Administration Office, as appropriate, the appropriate fund account chargeable for transportation costs in effecting delivery of supplies at Government expense. The Requiring Department shall accomplish this by either citing the fund account on each MIPR or providing the appropriate fund account to the Transportation Officer of the office administering the contract, at the commencement of each fiscal year, for citation on the Government bill of lading. In every instance, the Government bill of lading, which is generally issued by the Transportation Officer in the responsible Contract Administration Office, shall show the Requiring Department as the Department to be billed, and the appropriate fund account designated by that Department.

#### 208.7018 Acquisition agreements.

(a) This paragraph establishes policy as authorized in 10 U.S.C. 2308 with regard to agreements between the Departments or other agencies for acquisition of commodities or services not assigned in accordance with 208.71.

(b) 10 U.S.C. 2308 provides that Department Heads, by agreement, may make assignments and delegations of acquisition responsibilities from one Department to another or may create joint or combined offices to exercise acquisition functions and responsibilities.

(c) Agreements may be made on either a one-time basis or a continuing basis. The submission of a MIPR by a requiring activity and its acceptance by the contracting activity of another Department, even though based on oral communication, shall establish a one-time agreement. Delegated acquisition responsibilities of a continuing nature shall be considered for coordinated acquisition assignment. However, all agreements of a continuing nature shall be formalized, implemented, and distributed among the activities concerned even though not considered suitable for coordinated acquisition assignment.

#### Subpart 208.71—Commodity Assignments

##### 208.7100 Assignment authority.

The commodity assignments set forth below have been made by the Deputy Assistant Secretary of Defense

(Logistics) to the Military Departments. Also included are assignments to the General Services Administration made by the Deputy Under Secretary of Defense for Acquisition Management in accordance with DoD/GSA Agreements. The letter "P" appearing after an FSC Code indicates a partial FSC assignment. There may be specific items within any of the assignments which have been designated for DoD Integrated Materiel Management to other than the coordinated acquisition assignee. Such items will be purchased by the DoD Integrated Materiel Manager.

**208.7100-1 Exclusions—Military Department assignments (Except DLA).**

General exclusions to applicability of commodity assignments made to a Military Department (except Defense Logistics Agency) are:

(a) Emergency acquisitions, as determined by the Requiring Department;

(b) Acquisitions not in excess of \$2,500 per line item;

(c) Acquisitions of items authorized for local purchase; pursuant to mutual agreement between the assignee and the other users;

(d) Items in a research and development stage; and

(e) Item subject to rapid design changes, or to continuous redesign or modification during the production or operational use phases which necessitate continual contact between industry and technical personnel of the requiring service to insure that the item acquired is exactly that which is required.

**208.7100-2 Exclusions—DLA and GSA assignments.**

(a) *Optional Exclusions.* With respect to commodity assignments made to the Defense Logistics Agency or the General Services Administration, the following categories of service-managed items within an assigned class may be purchased by the Departments of the Army, Navy, or Air Force at their option:

(1) Items in a research and development stage—This exception permits the Military Departments to contract for research and development requirements, including quantities for testing purposes and items undergoing in-service evaluation (not yet in actual production, but beyond prototype). The term "research and development" as used herein relates only to acquisitions described in FAR Part 35. Generally, this exception can be used only when the acquisition is covered by research and development funds; and

(2) Items peculiar to Nuclear Ordnance Materiel, because of design characteristics or because of test-inspection requirements which are controlled by the Department of Energy (DOE) or by the DoD to insure reliability of nuclear weapons.

(i) This exception applies to all items designed for and peculiar to nuclear ordnance regardless of Agency control, or to any item which requires test or inspection conducted or controlled by DOE or DoD. The Defense Nuclear Agency will have DoD procurement responsibility for all items assigned for integrated management in accordance with DoD Directive 5105.31.

(ii) This exception does not cover items used for both nuclear ordnance and other purposes if such items are not subject to the special testing procedures.

(3) Items to be acquired under the authority of 10 U.S.C. 2304(c)(6) and FAR 6.302-6, acquisitions when disclosure of the agency's needs would compromise the national security unless the agency is permitted to limit the number of sources from which it solicits bids or proposals;

(4) Items to be acquired under the authority of 10 U.S.C. 2304(c)(1) and FAR 6.302-1 (a)(1) and (b)(2), follow-on contracts for the continued development or production of a major system or highly specialized equipment including major components thereof;

(5) Items which are directly related to a weapon/defense/space system and which are design-controlled by, and acquired from either the system manufacturer or a manufacturer of a major subsystem thereof;

(i) This exception is intended to cover a specific and relatively small portion of "weapon/defense/space system" related items. An exempted item must meet two conditions. First, it must be directly related to the weapon system. Secondly, it must be both design controlled and acquired from the system or major subsystem contractor.

(ii) The exception is intended, for example, to permit a Service to contract for an item which it acquires from an airframe manufacturer (as sole source), provided the airframe manufacturer is responsible for the design of the item. It would likewise pertain to a component of a Government-furnished engine to be installed in the airframe, if the Service acquires the component from the engine manufacturer and the engine manufacturer has design cognizance of the item.

(iii) The exception is not intended to cover the broad category of weapons related items but only that portion which is both acquired from and design

controlled by the system or major subsystem contractor.

(6) Items subject to rapid design changes or to continuous redesign or modification during the production and/or operational use phases which necessitate continual contact between industry and technical personnel of the Requiring Department to insure that the item acquired is exactly what is required.

(i) This exception permits the Military Departments to contract for items of highly unstable design. Its use must be predicated on a determination that it is clearly impractical, both from a technical and contracting viewpoint, to refer the acquisition to DLA or GSA. Thus, the possibility of a number of design changes occurring during the course of the contract is not in itself sufficient evidence for retention of the acquisition. Neither is the fact that an acquisition would possibly qualify for placement as a negotiated contract. Conversely, an acquisition for an item covered by a reasonably firm specification which can be placed under the sealed bid procedure is *prima facie* evidence that the use of the exception is not valid.

(ii) This exception also applies to items requiring compatibility testing as a contract requirement, provided that such testing requires continual contact between industry and technical personnel of the Requiring Department.

(7) Containers acquired only with items for which they are designed; and

(8) Emergency acquisitions, as determined by the Requiring Department;

(i) This exception permits the Services to make emergency acquisitions (valued at over \$2,500) in the context of 208.7003-4 when the exigencies of the situation will not permit the delay incident to following the normal channels of coordinated acquisition.

(ii) As a general rule, this exception should cover items only when they are readily available from commercial inventories or in current production. It should not be used with extended production leadtime.

(iii) Unless the item is immediately available from a commercial source, emergency acquisitions should be coordinated with the cognizant DLA Center or GSA Support Region by telephone or other rapid communication prior to proceeding with the local acquisition. This will serve the interests of the Requiring Department for the following reasons:

(A) The need may be satisfied immediately by diversion from a current DLA or GSA contract;

(B) The Center or the GSA Support Region may arrange to satisfy the requirement from other Military Department stocks or DLA/GSA stocks recently delivered under a DLA or GSA contract; and

(C) The Center or GSA Support Region may be able to modify an existing DLA or GSA contract and obtain the material faster than the Requiring Department could by a unilateral acquisition.

(9) Acquisitions of military service-managed or noncataloged items not in excess of \$2,500 per line item—This exception permits the Military Departments to acquire a line item which does not exceed a value of \$2,500. It does not apply to a line item valued at \$2,500 or under which is included in a Federal Supply Schedule mandatory for use by DoD activities; and

(10) Noncatalog items in the nature of a one-time buy and not contemplated as an item in the supply system:

(i) This exception is intended to permit the Military Departments to contract for a nonrecurring requirement for a noncataloged item. "Not contemplated as an item in the supply system" as a practical matter means that the item is not in the supply system nor is such anticipated. This exception could cover a part or component for a prototype and such part or component may be stock numbered at a later date.

(ii) This exception may not be used to cover acquisitions of recurring requirements for an item based solely on the fact that the item is not stock numbered nor may it be used to acquire items which have only slightly different characteristics from previously cataloged items.

(b) *Defense Logistics Agency and General Services Administration responsibility to acquire excluded items upon request.* Items other than nuclear ordnance materiel which may be acquired by the other Military Departments at their option under (a) above shall be acquired by DLA or GSA at the requests of the Military Departments.

(c) *Exclusions to Defense Logistics Agency or General Services Administration assignments by agreement.* The Military Departments shall process to the appropriate DLA Center or GSA Support Region for acquisition those service-managed items which do not meet the exception criteria set forth in (a) above, unless by mutual agreement between the cognizant Military Service Inventory Manager and the DLA Center concerned, or the GSA Support Region, the item is determined to be most satisfactorily acquired on a Military Service basis. The Military

Departments shall insure that subsequent acquisitions of items previously classified as exceptions under (a) above do in fact continue to meet the exception criteria at the time of the subsequent acquisition. Otherwise, such acquisitions shall be forwarded to DLA or GSA for purchase.

(d) *Exclusions for local purchase of integrated materiel managed items.* Requiring Departments may purchase at their option any DLA or GSA centrally managed, commercially available item provided:

(1) In the case of an emergency requirement, such as a work stoppage, the contract action is limited to immediate-use quantity, or

(2) In the case of routine requirements, the total line item value does not exceed \$10.00 and local purchase is determined to be the most economical method of supply.

#### 208.7101 Department of the Army.

##### *Federal Supply Class Code and Commodity*

FSC ("P" after the FSC number indicates a partial FSC assignment)

##### *Electronic Equipment.*

Each Department is assigned procurement responsibility for those items which the Department either designed or for which it sponsored development. See FSC 5821 under Navy listings for assignment of certain commercially developed radio sets (i.e., developed without the use of government funds).

##### 1005 P\* Guns, through 30mm.

This partial FSC assignment applies to guns, through 30mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type guns; MK 11 and MK 12, 20mm gun; and aircraft gun mounts.

##### 1010 P\* Guns, over 30mm, up to 75mm

This partial FSC assignment applies to guns, over 30mm and up to 75mm, and parts and equipment therefor, as listed in Department of the Army Supply Manuals/Catalogs. It does not apply to naval ordnance type guns and aircraft gun mounts.

##### 1015 P\* Guns, 75mm through 125mm.

This partial FSC assignment applies to guns, 75mm through 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type guns.

##### 1020 P\* Guns over 125mm through 150mm

##### 1025 P\* Guns over 150mm through 200mm

##### 1030 P\* Guns over 200mm through 300mm

##### 1035 P\* Guns over 300mm

These partial FSC assignments apply to guns, over 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. They do not apply to naval ordnance type guns.

##### 1040 Chemical Weapons and Equipment

##### 1055 P\* Launchers, Rocket and Pyrotechnic.

This partial FSC assignment applies to launchers, rocket and pyrotechnic, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type and airborne type, with the exception of 2.75 inch Rocket Launchers which are included in this partial FSC assignment to the Department of the Army.

##### 1090 P Assemblies Interchangeable Between Weapons in Two or More Classes

This partial FSC assignment applies to the following items:

##### *National Stock Number Nomenclature*

##### 1090-563-7232 Staff Section, Class

##### 1090-699-0633 Staff Section

##### 1090-796-8760 Power Supply

##### 1090-885-8451 Wrench Corrector

##### 1090-986-9707 Reticle Assembly

##### 1095 P\* Miscellaneous Weapons

This partial FSC assignment applies to miscellaneous weapons, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type; line throwing guns (which are under DoD Coordinated Procurement assignment to the Department of the Navy); and aircraft type miscellaneous weapons.

##### 1210 P\* Fire Control Directors

##### 1220 P\* Fire Control Computing Sights and Devices

##### 1230 P\* Fire Control Systems, Complete

##### 1240 P\* Optical Sighting and Ranging Equipment

##### 1250 P\* Fire Control Stabilizing Mechanisms

##### 1260 P\* Fire Control Designating and Indicating Equipment

##### 1265 P\* Fire Control Transmitting and Receiving Equipment, Except Airborne

##### 1285 P\* Fire Control Radar Equipment, Except Airborne

1290 P\* Miscellaneous Fire Control Equipment. The above nine partial FSC assignments apply to fire control equipment, as listed in Department of the Army Supply Manuals/Catalogs. They do not apply to naval ordnance type and aircraft type.

##### 1305 P\* Ammunition, through 30mm

This partial FSC assignment applies to ammunition through 30mm as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type and ammunition for the MK 11 and MK 12, 20mm gun.

##### 1310 P\* Ammunition, over 30mm up to 75mm.

This partial FSC assignment applies to ammunition, over 30mm up to 75mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type and to 40mm ammunition (which is under DoD procurement assignment to the Navy.) The Army is responsible for the procurement of fillers and the loading, assembling and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.

##### 1315 P\* Ammunition, 75mm through 125mm.

This partial FSC assignment applies to ammunition, 75mm through 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type. The Army is responsible for the procurement of fillers and the loading, assembling and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.

#### 1320 P\* Ammunition, over 125mm.

This partial FSC assignment applies to ammunition over 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to naval ordnance type. The Army is responsible for the procurement of fillers and the loading, assembling and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.

#### 1325 P\* Bombs.

This partial FSC assignment applies to Bombs as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Navy assigned Bombs as shown in list of assignments to the Navy; however, the Department of the Army is responsible for the procurement of fillers and the loading, assembling and packing of toxicological, incapacitating riot control, smoke and incendiary munitions, and for other loading, assembling and packing in excess of Navy owned capacity.

#### 1330 Grenades.

#### 1340 P\* Rockets and Rocket Ammunition.

This partial FSC assignment applies to: 66mm Rocket, HEAT, M72.

2.75" Rocket FFAR, Service and Practice. Heads MK5 and Mods (HEAT).

HE, M151  
HE, XM229 (17 lb Warhead)  
HE, XM157 (Spotting Red)  
HE, XM158 (Spotting Yellow)  
MK61 Practice (5 lb Slug)  
XM230 Practice (10 lb)

Motors MK4 and Mods (High Performance Aircraft).

MK40 and Mods (Low Performance Aircraft)

3.5 In. Rocket Heat, M35.

Practice, M36  
Smoke, WP, M30

4.5 In. Motor, Drill, M24.

HE, M32.

Practice, M33.

Incendiary and toxicological rockets, as listed in Army Supply Bulletins.

It does not apply to Navy assigned rockets as shown in list of assignments to the Navy. However, the Department of the Army is responsible for procurement of filler and for filling of all smoke and toxicological rockets.

#### 1345 Land Mines.

#### 1365 Military Chemical Agents.

#### 1370 P Pyrotechnics.

This partial FSC assignment does not apply to shipboard and aircraft pyrotechnics.

#### 1375 P Demolition Materials.

This partial FSC assignment is applicable to Blasting Agents and supplies such as: Bangalore torpedo  
Blocks, demolition  
Caps, blasting, electric and nonelectric  
Charge, cratering  
Charge, shaped and demolition

Chests, demolition platoon and squad  
Cord detonating  
Demolition equipment sets, with  
ancillary items

Detonators, all types

Dynamite

Firing Devices

Fuze, safety

Kit, demolition

Lighter, fuse

Machine, blasting

Primer, percussion cap

It does not apply to Navy underwater demolition requirements.

#### 1376 P Bulk Explosives.

This partial FSC assignment is applicable to solid propellants and explosives such as:

Ammonium Picrate (Explosive D) JAN-A-166A  
Trinitrotoluene (TNT) MIL-T-248A  
Tetryl JAN-T-339  
Pentaerythrite Tetranitrate (PETN) JAN-P-387

RDX

Composition B

Composition B-3

Pentolite, 50

Composition C-3

Composition A-3

Composition A-4

Nitroguanidine (Picrate)

It does not apply to production capacity for any of the above listed explosives at the U.S. Naval Propellant Plant, Indian Head, Maryland.

#### 1377 P Cartridge and Propellant Actuated Devices and Components.

This partial FSC assignment is applicable to the following devices:

(Reserved pending Services agreement as to items which shall be included in this assignment.)

#### 1380 Military Biological Agents.

#### 1390 P\* Fuzes and Primers.

This partial FSC assignment applies to Fuzes and Primers for Army Assigned Ammunition.

It does not apply to naval ordnance type, which is under DoD procurement assignment to the Department of the Navy; and guided missile fuzes.

#### 2210 Locomotives.

#### 2220 Rail Cars.

#### 2240 Locomotive and Rail Car Accessories and Components.

#### 2250 Track Materials, Railroad.

#### 2310 P Passenger Motor Vehicles.

#### 2320 P Trucks and Truck Tractors.

The above two partial Federal Supply Class Assignments apply to tactical vehicles; trucks over 10,000 pounds Gross Vehicle Weight (GVW); and the following types of vehicles:

Bus, convertible to ambulance;  
Truck, 4x4, convertible to ambulance;  
Truck, 4x4, dump, 9,000 GVW, with cut-down cab.

These assignments do not apply to tracked landing vehicles which are not under DoD Coordinated Procurement assignment, and airport crash rescue vehicles, which are under DoD Coordinated Procurement assignment to the Department of the Air Force. With the exception of the types enumerated

above, these assignments do not apply to commercial passenger carrying vehicles and trucks up to 10,000 pounds GVW, which are assigned for DoD Coordinated Procurement to the General Services Administration.

#### 2330 P Trailers.

This partial FSC assignment does not apply to two wheel lubrication trailers, two wheel steam cleaning trailers, and troop transporter semitrailers which are not under DoD Coordinated Procurement assignment, and airport crash rescue trailer units which are under DoD Coordinated Procurement assignment to the Department of the Air Force.

#### 2340 P Motorcycles, Motor Scooters, and Bicycles.

This partial FSC assignment does not apply to bicycles and tricycles.

#### 2350 Tanks and Self-propelled Weapons.

#### 2430 Tractors, Track Laying, High Speed.

#### 2510 P\*\* Vehicular Cab, Body, and Frame Structural Components.

#### 2520 P\*\* Vehicular Power Transmission Components.

#### 2530 P\*\* Vehicular Brake, Steering, Axle, Wheel, and Track Components.

#### 2540 P\*\* Vehicular Furniture and Accessories.

#### 2590 P\*\* Miscellaneous Vehicular Components.

#### 2610 Tires and Tubes, Pneumatic, except Aircraft.

#### 2630 Tires, solid and cushion.

#### 2640 Tire Rebuilding and Tire and Tube Repair Materials.

#### 2805 P\*\* Gasoline Reciprocating Engines, Except Aircraft; and Components.

#### 2910 P\*\* Engine Fuel System Components, Nonaircraft.

#### 2920 P\*\* Engine Electrical System Components, Nonaircraft.

#### 2930 P\*\* Engine Cooling System Components, Nonaircraft.

#### 2940 P\*\* Engine Air and Oil Filters, Strainers and Cleaners, Nonaircraft.

#### 2990 P\*\* Miscellaneous Engine Accessories, Nonaircraft.

#### 4210 P Fire Fighting Equipment.

This partial FSC assignment applies only to equipment developed by or under the sponsorship of the Department of the Army.

#### 4230 P Decontaminating and Impregnating Equipment.

This partial FSC assignment applies only to items peculiar to chemical warfare.

#### 4240 P Safety and Rescue Equipment.

This partial FSC assignment applies only to military respiratory protective equipment for chemical warfare.

#### 5805 P Telephone and Telegraph Equipment.

This partial FSC assignment applies only to military (wire) equipment, field type.

#### 5815 P Teletype and Facsimile Equipment.

This partial FSC assignment applies only to military (wire) equipment, field type.

#### 5820 P Radio and Television Communication Equipment, except Airborne.

This partial FSC assignment applies to non-tactical, off-the-shelf, commercially available radio and television equipment and supplies used by the Armed Forces

- Radio and Television Stations including equipment and supplies used by the Armed Forces for closed TV circuit educational, and training programs.
- 5830 P Intercommunication and Public Address Systems: Except Airborne  
This partial FSC assignment applies only to military (wire) equipment, field type.
- 6135 P Batteries, Primary.  
This partial FSC assignment applies to MIL type, dry cell batteries, only.
- 6625 P Electrical and Electronic Properties Measuring and Testing Instruments.  
This partial FSC assignment applies only to instruments for testing military (wire) equipment, field type.
- 6645 P Time Measuring Instruments.  
This partial FSC assignment applies to the following watches: aircraft instrument panel clocks; cases and spare parts therefor:  
Master navigation watches; pocket watches; stop watches; second setting wrist watches; wrist watches; athletic timers; aircraft clocks; aircraft panel clocks; mechanical aircraft clocks; navigation watch cases; pocket watch cases; watch holders; watch case assemblies and watch movements.
- 6660 P Meteorological Instruments and Apparatus.  
Each Department is assigned procurement responsibility for those systems, instruments and end items in FSC 6660 for which the Department either designed or for which it sponsored development. For purposes of this assignment, the developing Department is the department which awarded the developmental contract, notwithstanding that other Departments may have provided funds for the development.
- 6665 P Hazard-Detecting Instruments and Apparatus.  
This partial FSC assignment applies only to items peculiar to chemical warfare.
- 6695 P Combination and Miscellaneous Instruments.  
This partial FSC assignment applies to jewel bearings only.
- 6820 P Dyes.  
This partial FSC assignment applies only to items peculiar to chemical warfare.
- 6910 P Training Aids.  
This partial FSC assignment applies only to items peculiar to Army assignments under weapons, fire control equipment, ammunition and explosives and chemical and biological warfare.
- 6920 P Armament Training Devices.  
This partial FSC assignment applies to armament training devices as listed in DA Catalogs SC 6910, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons in DA catalogs SC 6010, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons.
- 6940 P Communication Training Devices.  
This partial FSC assignment applies only to code training sets, code practice equipment, and other telephone and telegraph training devices.
- 8130 P Reels and Spools.  
This partial FSC assignment applies only to reels and spools for military (wire) equipment, field type.
- 8140 P Ammunition Boxes, Packages, and Special Containers.  
This partial FSC assignment applies only to boxes, packages and containers peculiar to Army assignments under ammunitions, explosives, and chemical and biological warfare as listed in DA Catalog SC 8140 IL and SC 8140 ML.  
\*For purposes of procurement, Naval Ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance procured from the Army).  
\*\*These partial FSC assignments apply only to repair parts peculiar to combat and tactical vehicles. In addition, the assignment in FSC-2805 applies to military standard engines 1.5 HP through 20 HP and parts peculiar therefor. Balance of these Federal Supply Classes are assigned to the Defense Logistics Agency (Defense Construction Supply Center).
- 208.7102 Department of the Navy.**  
*Federal Supply Class Code and Commodity*  
FSC ("P" after the FSC number indicates a partial FSC assignment.)  
Electronic Equipment.  
Each Department is assigned procurement responsibility for those items which the Department either designed or for which it sponsored development. See FSC 5821 for assignment of certain commercially developed radio sets to the Department of the Navy (i.e., developed without the use of government funds.)
- 1095 P Miscellaneous Weapons  
This partial FSC assignment applies to line throwing guns only.
- 1310 P Ammunition, over 30mm up to 75mm.  
This partial FSC assignment applies only to reels and spools for military
- 1325 P Bombs.  
This partial FSC assignment applies to armor-piercing; depth bombs; externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlets, and the MK 43, Target Detecting Device. With respect to this assignment the Department of the Army is responsible for the procurement of fillers and the loading, assembling and packing of toxicological, incapacitating riot control-smoke and incendiary munitions and for other loading, assembling and packing in excess of Navy-owned capacity.
- 1340 P Rockets and Rocket Ammunition.  
This partial FSC assignment applies to:  
Fuze, Rocket, V.T., MK93-0  
2.25 In. Rocket SCAR, Practice  
Heads MK3 and Mods  
Motors MK15 and Mods  
MK16 and Mods  
5 In. Rocket HVAR, service and practice  
Heads MK2 and Mods (common) MK6 and Mods (GP)  
MK4 and Mods (smoke) MK25 and Mods (ATAR)  
Motors MK10 and Mods
- 5 In. Rocket FFAR service and practice  
Heads MK24 and Mods (General Purposes)  
MK32 and Mods (Shaped Charged)  
MK26 and Mods (Illum)  
Motor MK16 and Mods  
With respect to this assignment the Department of the Army is responsible for procurement of filler and for filling of all smoke and toxicological rockets.
- 1390 P Fuzes and Primers.  
This partial FSC assignment applies to fuzes and primers for Navy assigned ammunition.
- 1550 P Drones.  
This partial FSC assignment applies only to Drone, Model BQM34E.
- 1905 P Combat Ships and Landing Vessels.  
This partial FSC assignment applies to landing vessels only.
- 1910 P Transport Vessels, Passenger and Troop.  
This partial FSC assignment applies to ferryboats only.
- 1920 Fishing Vessels.
- 1925 Special Service Vessels.
- 1930 Barges and Lighters, Cargo
- 1935 P Barges and Lighters, Special Purpose.  
This partial FSC assignment does not apply to Derricks, Pile Drivers, Rock Cutters, Concrete Mixing Plants, Mechanical Bank Grader Barges, Other Bank Revetment Barges; and Barge Power Plants.
- 1940 Small Craft.
- 1945 P Pontoons and Floating Docks.  
This partial FSC assignment applies only to Naval Facilities Engineering Command Type Pontoons.
- 1950 Floating Drydocks.
- 1990 P Miscellaneous Vessels.  
This partial FSC assignment applies to commercial sailing vessels only.
- 2010 Ship and Boat Propulsion Components,
- 2020 Rigging and Rigging Gear.
- 2030 Deck Machinery.
- 2040 Marine Hardware and Hull Items.
- 2060 Commercial Fishing Equipment.
- 2090 Miscellaneous Ship and Marine Equipment.
- 2820 P Steam Engines, Reciprocating, and Components.  
This partial FSC assignment applies to Marine Main Propulsion Steam Engines only.
- 2825 P Steam Turbines and Components.  
This partial FSC assignment applies to Marine Steam Turbines only.
- 4210 P Fire Fighting Equipment.  
This partial FSC assignment applies only to fire fighting equipment developed by or under the sponsorship of the Department of Navy.
- 4410 P Industrial Boilers.  
This partial FSC assignment applies only to Boilers for use aboard those ships assigned to the Navy for coordinated procurement.
- 4420 P Heat Exchangers and Steam Condensers.  
This partial FSC assignment applies only to Heat Exchangers for use aboard those ships assigned to the Navy for coordinated procurement.
- 4925 P Ammunition Maintenance and Repair Shop Specialized Equipment.

This partial FSC assignment applies to sets, kits and outfits of tools and equipment for explosive ordnance as defined in pertinent Military Service regulations and documents.

#### 5821 P Radio and Television

Communication Equipment, Airborne.

This partial FSC assignment applies to the following commercially developed radio sets. (The term "commercially developed" means that no government funds were provided for development purposes.) HF-101, 102, 103, 104, 105, 106, 107, 108, 109, 111, 113; ARC-94, 102, 105, 110, 112, 119, 120; MRC-95, 108; VC-102, 104, 105, 106, 109, 110; and components of the foregoing including the 490T antenna coupler.

#### 6125 P Converters, Electrical, Rotating.

This partial FSC assignment applies only to Motor-Generator Sets for use aboard ships assigned to the Navy for coordinated procurement.

#### 6320 P Shipboard Alarm and Signal System.

This partial FSC assignment applies only to Alarm Systems; Fire Alarm Systems; Indicating Systems; Telegraph Systems (Signal and Signaling) (Less Electronic Type) for use aboard ships assigned to the Navy for coordinated procurement.

#### 6605 P Navigational Instruments.

This partial FSC assignment applies only to lifeboat and raft compasses; aircraft sextants; Hand Leads (Soundings); Lead Reels; Sounding Machines and Pelorus Stands for use aboard ships assigned to the Navy for coordinated procurement.

#### 6645 P Time Measuring Instruments.

This partial FSC assignment applies to the following instruments, cases and spare parts therefor:

Chronometers including gimbal, padded and make break circuit.

Clocks, Alarm; boat; deck; direct reading; electrical; floor; interval timer; marine; mechanical; master control; master

program; master regulating; mechanical message center;

nurses; program; shelf; stop; wall; watchman's.

Counters, time period.

Meters; engine running time; hour recording; and electrical time totalizing.

Timers; bombing; engine hours; sequential; stop; and program.

Program control instrument.

Cases; chronometer, including gimbal and padded; chronometer carrying; makebreak circuit chronometer.

Cans; chronometer shipping and storage. Clock keys; clock movements; clock motors.

#### 6650 P Optical Instrument.

This partial FSC assignment applies only to Stands, Telescope, for use aboard ships assigned to the Navy for coordinated procurement.

#### 6660 P Meteorological Instruments and Apparatus.

Each Department is assigned procurement responsibility for those systems, instruments and end items in FSC 6660 for which the Department either designed or for which it sponsored development. For purposes of this assignment, the

developing Department is the department which awarded the developmental contract, notwithstanding that other Departments may have provided funds for the development.

#### 6665 P Hazard-Detecting Instruments and Apparatus.

This partial FSC assignment applies only to Hazard Determining Safety Devices, for use aboard ships assigned to the Navy for coordinated procurement.

#### 8140 P Ammunition Boxes, Packages, and Special Containers.

This partial FSC Assignment applies only to boxes, packages and containers for 40mm ammunition.

### 208.7103 Department of the Air Force.

#### Federal Supply Class Code and Commodity

FSC ("P" after the FSC number indicates a partial FSC assignment.)  
Electronic Equipment.

Each Department is assigned procurement responsibility for those items which the Department either designed or for which it sponsored development. See FSC 5821 under Navy listing for assignment of certain commercially developed radio sets (i.e., developed without the use of government funds).

#### 1550 P Drones.

This partial assignment applies only to the following model drones: Model 147; Model 154; BQM 34A and MQM 34D.

#### 2320 P Trucks and Truck Tractors.

This partial FSC assignment applies only to Airport Crash Rescue Vehicles.

#### 2330 P Trailers.

This partial FSC assignment applies only to Airport Crash Rescue Trailer Units.

#### 4210 P Fire Fighting Equipment.

This partial FSC assignment applies only to fire fighting equipment developed by or under the sponsorship of the Department of the Air Force.

#### 6660 P Meteorological Instruments and Apparatus.

Each Department is assigned procurement responsibility for those systems, instruments and end items in FSC 6660 for which the Department either designed or for which it sponsored development. For purposes of the assignment the developing Department is the Department which awarded the developmental contract, notwithstanding that other Departments may have provided funds for the development.

#### 6710 P Cameras, Motion Picture.

This partial FSC assignment does not apply to Submarine Periscope and Underwater Cameras.

#### 6720 P Cameras, Still Picture.

This partial FSC assignment does not apply to Submarine Periscope and Underwater Cameras.

#### 6730 P Photographic Projection Equipment.

This partial FSC assignment does not apply to 35mm Theater Projectors.

#### 6740 P Photographic Developing and Finishing Equipment.

#### 6760 P Photographic Equipment and Accessories.

#### 6780 P Photographic Sets, Kits, and Outfits.

#### 8820 P Live Animals Not Raised For Food.

This partial FSC assignment applies only to the following types of working dogs: scout, sentry, patrol, mine/tunnel, tracker, detector-narcotic/contraband, sledge, bloodhound, water dog and patrol/detector.

\*This partial FSC assignment does not apply to Photographic Equipment controlled by the Congressional Joint Committee on Printing, and Micro-Film Equipment and Supplies.

Footnotes for List in 208.7104

<sup>1</sup> These assignments do not apply to items decentralized by the DLA Center Commander, i.e., designated for purchase by each Military Department, and to those items in DLA assigned Federal Supply Classes, which may be assigned to GSA for supply management. In addition, see 208.7100-2 which describes conditions under which a Military Service may purchase (contract for) Military Service supply managed items in DLA assigned Federal Supply Classes. See notes 2 and 3 below for further exceptions pertaining to certain DLA assignments.

<sup>2</sup> DLA assignments in FSC 2510, 2520, 2530, 2540, 2590, 2805, 2910, 2920, 2930, 2940 and 2990 do not apply to repair parts peculiar to combat and tactical vehicles, which are assigned for coordinated procurement to the Department of the Army. In addition, the assignment in FSC-2805 does not apply to military standard engines 1.5 HP through 20 HP and parts peculiar thereto, which are assigned for coordinated procurement to the Department of the Army.

<sup>3</sup> This partial FSC assignment in FSC 4210 does not apply to Fire Fighting Equipment developed by or under the sponsorship of a Military Department. The procurement responsibility for such equipment is assigned to the Department which developed or sponsored its development.

<sup>4</sup> The Defense Logistics Agency has procurement responsibility for all the items in the Classes of FS Group 65. In addition, DLA has procurement responsibility for all equipment and supplies related to the medical, dental, veterinary professions in Non-Group 65 Classes where the Military medical services have the sole or prime interest in such items. The specific item coverage of these Non-Group 65 items is published in the DOD Section of the Federal Supply Catalog for Medical Material C3-1 through C3-12, inclusive.

<sup>5</sup> This assignment includes Health and Comfort items listed in AR 700-23. It also includes resale items for commissary stores (including brand name items).

<sup>6</sup> DLA Centers are identified as follows: DGSC—Defense Construction Supply Center, DESC—Defense Electronics Supply Center, DFSC—Defense Fuel Supply Center, DGSC—Defense General Supply Center, DISC—Defense Industrial Supply Center, DPSC—Defense Personnel Support Center.

<sup>7</sup> DFSC is responsible for procurement of only petroleum base items in FSC 6810 and FSC 6850.

<sup>8</sup> This partial assignment applies only to secondary items not identified as IPE. Such secondary items are listed in the applicable Federal Supply Catalog Management Data Lists of each respective Service.

<sup>9</sup> This partial FSC assignment in FSC 6115 does not apply to Mobile Electric Power Generating Sources (MEPGS). The procurement direction responsibility for MEPGS is assigned to the DoD Project Manager, Mobile Electric Power by DoD Directive 4120.11. DoD components desiring to use other

than the DoD Standard Family of Generator Sets, contained in MIL-STD 633, shall process a Request for Deviation in accordance with Joint Operating Procedures, AF 700-101, AFR 400-50, NAVMATINST 4120.100A, MCO 11310.8c and DLAR 4120.7, Subject: Management and Standardization of Mobile Electric Power Generating Sources, prior to initiating procurement.

#### 208.7105 Defense Nuclear Agency.<sup>1</sup>

##### Nuclear Ordnance

##### Federal Supply Class Code and Commodity

- 1105 Nuclear Bombs.
- 1110 Nuclear Projectiles.
- 1115 Nuclear Warheads and Warhead Sections.
- 1125 Nuclear Demolition Charges.
- 1127 Nuclear Rockets.
- 1130 Conversion Kits, Nuclear Ordnance.
- 1135 Fuzing and Firing Devices, Nuclear Ordnance.
- 1140 Nuclear Components.
- 1145 High Explosive Charges, Propellants, and Detonators: Nuclear Ordnance.
- 1190 Specialized Test and Handling Equipment, Nuclear Ordnance.
- 1195 Miscellaneous Nuclear Ordnance.

#### 208.7106 General Services Administration.<sup>1</sup>

##### Federal Supply Class Code and Commodity

FSC ("P" after FSC number indicates partial FSC assignment.)

2310 P Passenger Motor Vehicles.

2320 P Trucks and Truck Tractors.

The above two partial Federal Supply Class Assignments apply to all commercial passenger carrying vehicles and trucks up to 10,000 pounds Gross Vehicle Weight (GVW) except the following types which are assigned for DoD Coordinated Procurement to the Department of the Army.

Bus, convertible to ambulance.

Truck 4 x 4, convertible to ambulance.

Truck 4 x 4, dump, 9,000 pounds GVW, with cut-down cab.

(See Army Coordinated Procurement assignments in FSC 2310 and FSC 2320.)

- 3540 Wrapping and Packaging Machinery.
- 3550 Vending and Coin Operated Machines.
- 3590 Miscellaneous Service and Trade Equipment.
- 3750 Gardening Implements and Tools.
- 5110 Hand Tools, Edged, Nonpowered.
- 5120 Hand Tools, Nonedged, Nonpowered.
- 5130 Hand Tools, Power Driven.
- 5133 Drill Bits, Counterbores, and Countersinks: Hand and Machine.

<sup>1</sup> In addition to the above, assignments to DNA include all items for which DNA has integrated management responsibility in accordance with DoD Directive 5105.31.

<sup>2</sup> These GSA assignments do not apply to items as described under FSC 7430, 7490, 7510, 7520, and 7530, and those items in the GSA assigned Federal Supply Classes which have been retained for DLA supply management as listed in the applicable Federal Supply Catalog Management Data Lists. In addition, see 208.7100-2 which describes conditions under which a Military Service may purchase (contract for) Military Service Supply managed items in GSA assigned Federal Supply Classes.

<sup>3</sup> This partial FSC assignment does not include landing mats which are assigned to the Defense Logistics Agency.

- 5136 Taps, Dies and Collects: Hand and Machine.
  - 5140 Tool and Hardware Boxes.
  - 5180 Sets, Kits and Outfits of Hand Tools.
  - 5210 Measuring Tools, Craftmen's.
  - 5345 Disks and Stones, Abrasive.
  - 5350 Abrasive Materials.
  - 5610 Mineral Construction Materials, Bulk.
  - 5620 Building Glass, Tile, Brick and Block.
  - 5630 Pipe and Conduit, Nonmetallic.
  - 5640 Wallboard, Building Paper, and Thermal Insulation Materials.
  - 5650 Roofing and Siding Materials.
  - 5670 Architectural and Related Metal Products.
  - 5680 P<sup>2</sup> Miscellaneous Construction Materials.
  - 7105 Household Furniture.
  - 7110 Office Furniture.
  - 7125 Cabinets, Lockers, Bins and Shelving.
  - 7195 Miscellaneous Furniture and Fixtures.
  - 7220 Floor Coverings.
  - 7230 Draperies, Awnings, and Shades.
  - 7240 Household and Commercial Utility Containers.
  - 7290 Miscellaneous Household and Commercial Furnishings and Appliances.
  - 7330 Kitchen Hand Tools and Utensils.
  - 7340 Cutlery and Flatware.
  - 7350 Tableware.
  - 7410 Punched Card System Machines.
  - 7420 Accounting and Calculating Machines.
  - 7430 Typewriters and Office-type Composing Machines.
- This FSC assignment does not apply to machines controlled by the Congressional Joint Committee on Printing.
- 7450 Office-type Sound Recording and Reproducing Machines.
  - 7460 Visible Record Equipment.
  - 7490 Miscellaneous Office Machines.
- This FSC assignment does not apply to equipment controlled by the Congressional Joint Committee on Printing.
- 7510 Office Supplies.
- This FSC assignment does not apply to Office Supplies, including special inks, when DoD requirements of such items are procured through Government Printing Office channels.
- 7520 Office Devices and Accessories.
- This FSC assignment does not apply to office devices and accessories when DoD requirements of such items are procured through Government Printing Office channels.
- 7530 Stationery and Record Forms.
- This FSC assignment does not apply to Stationery and Record Forms when DoD requirements of such items are procured through Government Printing Office channels including those items covered by term contracts issued by GPO for tabulating cards and marginally punched continuous forms.
- 7710 Musical Instruments.
  - 7720 Musical Instrument Parts and Accessories.
  - 7730 Phonographs, Radios, and Television Sets: Home Type.
  - 7740 Phonograph Records.
  - 7810 Athletic and Sporting Equipment.
  - 7820 Games, Toys, and Wheeled Goods.

- 7830 Recreational and Gymnastic Equipment.
- 7910 Floor Polishers and Vacuum Cleaning Equipment.
- 7920 Brooms, Brushes, Mops and Sponges.
- 7930 Cleaning and Polishing Compounds and Preparations.
- 8010 Paints, Dopes, Varnishes, and Related Products.
- 8020 Paint and Artists Brushes.
- 8030 Preservative and Sealing Compounds.
- 8040 Adhesives.
- 8105 Bags and Sacks.
- 8115 Boxes, Cartons and Crates.
- 8135 Packaging and Packing Bulk Materials.
- 8510 Perfumes, Toilet Preparations and Powders.
- 8520 Toilet Soap, Shaving Preparations and Dentifrices.
- 8530 Personal Toiletry Articles.
- 8540 Toiletry Paper Products.
- 8710 Forage and Feed.
- 8720 Fertilizers.
- 8730 Seeds and Nursery Stock.
- 9310 Paper and Paperboard.
- 9905 Signs, Advertising Displays, and Identification Plates.
- 9910 Jewelry.
- 9915 Collectors' Items.
- 9920 Smokers' Articles and Matches.

#### Subpart 208.72—Acquisition for NASA

##### 208.7200 Authorization and policy.

(a) NASA is authorized by Pub. L. 85-568 to use the acquisition services, personnel, equipment and facilities of the Departments with their consent, with or without reimbursement, and on a similar basis to cooperate with the Departments in the use of acquisition services, equipment and facilities.

(b) The Department will cooperate fully with NASA in making their acquisition services, equipment, personnel and facilities available on the basis of mutual agreement.

(c) The Departments will not claim reimbursement for administrative costs incident to acquisitions for NASA, except as may be otherwise agreed prior to the time the services are performed.

(d) When acquiring supplies or services for NASA or performing field service functions in support of NASA contracts, the Department concerned will use its own methods, except when required by the terms of the agreement involved.

(e) The Departments normally will use their own funds when acquiring supplies or services for NASA, or performing services, and will not cite NASA funds on any Defense obligation or payment document.

##### 208.7201 NASA purchase request and acceptance.

(a) The NASA-Defense Purchase Request (NASA Form Number 523) will be used by NASA for requesting

acquisition of supplies or services, from all activities of the Departments.

(b) Except as provided in (d) below, within 30 days after receipt of a NASA-Defense Purchase Request, the Department concerned will forward to the initiator of the request a DD Acceptance of MIPR Form, DD Form 448-2, in quadruplicate in accordance with instructions contained in 208.7009. Each DD Form 448-2 will show the action being taken or to be taken to fill the requirement and the name and complete address to the Department of Defense acquisition activity for future direct contact by the initiator.

(c) To the extent feasible, all documents including acceptances, contracts, correspondence, shipping documents, work or project orders, and Standard Form 1080 (Voucher for Transfer Between Appropriations and/or Funds) billings will reference the NASA-Defense Purchase Request Number and the item number when appropriate.

(d) Acceptance by the Department is not required for NASA-Defense Purchase Requests covering deliveries of common-use standard stock items which the supplying department has on hand or on order for prompt delivery at published prices.

#### **208.7202 Changes in estimated total prices.**

When a Department determines that the estimated total price (Block 9, NASA Form 523) of the items to be acquired for NASA is not sufficient to cover the required reimbursement, or is in excess of the amount required, a request for an amendment will be forwarded to the NASA originating office. The request will indicate a specific dollar amount, rather than a percentage, and will include justification for any upward adjustment requested. Upon approval of the request, an amendment to the NASA-Defense Purchase Request will be forwarded to the contracting activity.

#### **208.7203 Inquiries.**

Inquiries and correspondence will be directed to the NASA originating office.

#### **208.7204 Payments.**

Payments to the Departments for supplies and services furnished or acquired for NASA will be effected on the basis of Standard Form 1080 billings submitted to the NASA office designated in Block 11 of the NASA-Defense Purchase Request, except where agreements provide that reimbursement is not required. Billings will be supported in the same manner as billings between Departments.

### **Subpart 208.73—Miniature and Instrument Ball Bearings**

#### **208.7301 Definitions.**

"Domestic manufacture" means miniature and instrument ball bearings manufactured in the United States or Canada. When a ball-bearing assembly is involved, all components of the bearing must also have been manufactured in the United States or Canada.

"Miniature and instrument ball bearings" are all rolling contact ball bearings with a basic outside diameter (exclusive of flange diameters) of 30 millimeters or less, irrespective of material, tolerance, performance, or quality characteristics.

#### **208.7302 Policy.**

It has been determined that defense requirements for miniature and instrument ball bearings must be acquired from domestic manufacturing sources to the maximum extent practicable. Accordingly, all acquisitions of miniature and instrument ball bearings and all acquisitions of items containing miniature and instrument ball bearings shall include, except as provided in 208.7303 below, a requirement that such ball bearings delivered under the contract be of domestic manufacture only.

#### **208.7303 Procedures.**

(a) The clause set forth at 252.208-7000, Required Sources for Miniature and Instrument Ball Bearings, shall be inserted in all contracts except:

(1) When the contracting officer knows that the item being acquired does not contain miniature or instrument ball bearings;

(2) When the urgency of the military requirement necessitates delivery of an end item containing other than domestically manufactured miniature or instrument ball bearings;

(3) In small purchases using small purchase procedures, other than in purchase of bearings as the end item;

(4) Purchases of standard commercial items, other than—

(i) Those which are intended for use as components or subassemblies of defense equipments or systems (e.g., repair parts) or

(ii) Purchases of bearings as the end item; or

(5) Purchases made overseas for overseas use.

(b) Subsequent to the award of a contract which includes the clause required by (a) above, the contracting officer may waive the "use" but not the acquisition requirements of the clause. Such waiver may be granted upon

submission of a written request by the contractor if the contractor or subcontractor has on hand subassemblies or end items containing nondomestic ball bearings, and either:

(1) The production of such subassemblies or end items in the performance of all or a part of the contract using ball bearings of domestic manufacture would interfere with economical or normal production scheduling of the military product under contract or with production of another item (military or commercial); or

(2) The delivery schedule under the contract or subcontract is such that use of other than domestic ball bearings or subassemblies or parts is necessary.

The contracting officer should grant waivers only to the extent and for the period of time necessary to permit the contractor to acquire and use domestic bearings.

### **Subpart 208.74—Precision Components for Mechanical Time Devices**

#### **208.7401 Definitions.**

"Domestic manufacture" means precision components for mechanical time devices manufactured in the United States or Canada. When a mechanical timing assembly is involved, all components of the assembly must also have been manufactured in the United States or Canada.

"Precision components for mechanical time devices" are parts which closely relate so that precise control and selection of working production tolerances can be maintained to accomplish the desired function and reliability. In terms of accuracy, such precision components have total tolerances under 0.003 inches, eccentricities less than 0.0015 inches, and surface finishes better than 64 rms. Examples of such precision components include: gears, pinions, posts, and plates. Precision components subject to the provisions of this subpart are those which are included in fuzes, boosters, and aircraft clocks in the following Federal Supply Classes:

#### *FS Class and Description*

1305	Ammunition through 30mm.
1310	Ammunition, over 30mm up to 75mm.
1315	Ammunition, 75mm through 125mm.
1320	Ammunition over 125mm.
1325	Bombs.
1330	Grenades.
1340	Rockets and Rocket Ammunition.
1345	Land Mines.
1390	Fuzes and Primers.
6045	Time Measuring Instruments (aircraft clocks only).

**208.7402 Policy.**

It has been determined that defense requirements for precision components for mechanical time devices must be acquired from domestic manufacturing sources to the maximum extent practicable. Accordingly, all acquisitions of precision components for mechanical time devices and all acquisitions of items containing precision components for mechanical time devices shall include, except as provided in 208.7403 below, a requirement that such components delivered under the contract be of domestic manufacture only.

**208.7403 Procedures.**

(a) All acquisitions of items in the Federal Supply Classes listed above or any subassembly, component, or part thereof shall provide that precision components for mechanical time devices, in the quantities and of the type and sizes (including tolerances) required to produce the end item being supplied, be of domestic manufacture and incorporated into the items delivered by the contractor and subcontractor at every tier. To accomplish this, the clause set forth at 252.208-7001, Required Sources for Precision Components for Mechanical Time Devices, shall be inserted in all contracts except:

(1) When the contracting officer knows that the item being procured does not contain precision components for mechanical time devices;

(2) When the urgency of the military requirement necessitates delivery of an end item containing other than domestically manufactured precision components for mechanical time devices;

(3) In small purchases using small purchase procedures, other than in purchase of precision components for mechanical time devices as the end item;

(4) Purchases of standard commercial items, other than—

(i) Those which are intended for use as components or subassemblies of defense equipment or systems (e.g., repair parts); or

(ii) Purchases of precision components for mechanical time devices as the end item; or

(5) Purchases made overseas for overseas use.

(b) Subsequent to the award of a contract which includes the clause required by (a) above, the contracting officer may waive the "use" but not the acquisition requirements of the clause. The contracting officer should grant waivers only to the extent and for the period of time necessary to permit the contractor to acquire and use domestic

components. Such waiver may be granted upon submission of a written request by the contractor if the contractor or subcontractor has on hand subassemblies or end items containing nondomestic precision components for mechanical time devices and either:

(1) The production of such subassemblies or end items in the performance of all or a part of the contract using precision components for mechanical time devices of domestic manufacture would interfere with economical or normal production scheduling of the military product under contract or with production of another item (military or commercial); or

(2) The delivery schedule under the contract or subcontract is such that use of other than domestic precision components for mechanical time devices or subassemblies or parts is necessary.

**Subpart 208.75—High-Purity Silicon****208.7501 Definitions.**

"Domestic manufacture" means high-purity silicon manufactured in the United States or Canada. When an item or subassembly containing high-purity silicon is involved, all such silicon (polycrystal and single crystal) incorporated in the item or subassembly must also have been manufactured in the United States or Canada.

"High-purity silicon" is N or P type and has a resistivity greater than 3000 ohm-centimeter.

**208.7502 Policy.**

It has been determined that defense requirements for High-Purity Silicon must be acquired from qualified domestic manufacturing sources to the maximum extent practicable. Accordingly, all acquisitions of high-purity silicon and all acquisitions of items containing high-purity silicon shall include, except as provided in 208.7503 below, a requirement that such high-purity silicon and high-purity silicon incorporated in items containing high-purity silicon delivered under the contract be of domestic manufacture only.

**208.7503 Procedures.**

(a) The clause set forth at 252.208-7002, Required Sources for High-Purity Silicon, shall be inserted in all contracts except:

(1) When the contracting officer knows that the item being acquired does not contain high-purity silicon;

(2) In small purchases using small purchase procedures, other than in purchase of high-purity silicon as the end item;

(3) Purchase of standard commercial items, other than purchases of high-purity silicon as the end item; or

(4) Purchases made overseas for overseas use.

(b) Subsequent to the award of a contract, the contracting officer may waive the requirements set forth at 252.208-7002, Required Sources for High-Purity Silicon. Such waiver may be granted upon submission of a written request by the contractor if the contractor or subcontractor has on hand subassemblies or end items containing nondomestic high-purity silicon, and either:

(1) The production of such subassemblies or end items in the performance of all or a part of the contract using high-purity silicon of domestic manufacture would interfere with the normal production scheduling of the military product under contract or with production of another item (military or commercial); or

(2) The delivery schedule under the contract or subcontract is such that use of other than domestic high-purity silicon is necessary. The contracting officer should grant waivers only to the extent and for the period of time necessary to permit the contractor to acquire and use domestic high-purity silicon.

**Subpart 208.76—High Carbon Ferrochrome (HCF)****208.7601 Definitions.**

"U.S. manufacture" means high carbon ferrochrome (HCF) manufactured in the United States, regardless of the source of the chrome ore. HCF means ferrochromium alloy that contains three percent or more carbon and 50 percent or more chromium.

**208.7602 Policy.**

It has been determined that defense requirements for HCF must be acquired from U.S. manufacturing sources (to the maximum extent practical). Accordingly, all acquisitions of HCF and all acquisitions of items containing HCF shall include, except as provided in 208.7603 below, a requirement that such HCF and HCF incorporated in items delivered under the contract be of U.S. manufacture only.

**208.7603 Procedures.**

(a) The clause set forth at 252.208-7003, Required Sources of HCF, shall be inserted in all contracts except:

(1) When the Contracting Officer knows that the item being acquired does not contain HCF;

(2) In small purchases using small purchase procedures other than in purchase of HCF as the end item;

(3) Purchase of standard commercial end items, other than purchases of HCF as the end item, or steel plate, sheet or ingots and the like that incorporate HCF;

(4) Purchases made overseas for overseas use; or

(5) In cases where DoD has memoranda of understanding (MOU)/offset agreements with U.S. NATO Allies and nondomestic HCF is incorporated in the end item being furnished in support of defense contracts.

(b) Subsequent to the award of a contract, the Contracting Officer may waive the requirements set forth at 252.208-7003, Required Sources for HCF. Such waiver may be granted on a case-by-case basis when adequate U.S. supplies of HCF are not available to meet DoD needs on a timely basis. Such waivers will only be granted to the extent and for the period of time necessary to permit the contractor to acquire and use U.S. HCF.

#### Subpart 208.77—Utilization of Government-Owned Precious Metals

##### 208.7701 Definitions.

"Defense Industrial Supply Center (DISC)" means the Defense Logistics Agency field activity which is the assigned Commodity Integrated Materiel Manager for refined precious metals and is responsible for the storage and issue of such materiel.

"Refined precious metal" means recovered silver, gold, platinum, palladium, iridium, rhodium, or ruthenium in bullion, granulation or sponge form which has been purified to at least .999 percentage of fineness.

##### 208.7702 Policy.

(a) This section establishes uniform policy, guidance, and procedures for implementing requirements of the Department of Defense Precious Metals Recovery Program (PMRP) concerning the utilization of PMRP recovered precious metals as Government-furnished material (GFM) in contracts as provided in DoD Directive 4160.22, "Recovery and Utilization of Precious Metals", December 1, 1976, and the related DoD Instruction 4140.41, "Government-Owned Materiel Assets Utilized as Government-Furnished Materiel for Major Acquisition Programs", July 26, 1974.

(b) It is the policy of the Department of Defense that DoD Components participate in the PMRP to the maximum extent and promote optimum economic utilization of available Government-

owned precious metals as Government-furnished material in lieu of contractor-furnished precious metals in production contracts.

(c) In order to realize more cost-effective contracting, DoD-refined precious metal assets shall be utilized in lieu of open market contracting in acquisition programs for military-designed or commercial material when use of Government-furnished material (GFM) is the more cost-effective manner to accomplish the task, or is otherwise in the Government's best interest. The DISC issue price of GFM precious metals is normally significantly lower than the commercial market price.

##### 208.7703 Applicable procedures.

(a) To assure maximum utilization of PMRP recovered precious metals as GFM in contracts for items which require those precious metals cited in (d) below in their manufacture, the provision in 252.208-7004 shall be inserted in solicitations for items in the Federal Supply Groups listed in (c) below or any subassembly, component, or part thereof except: when using small-purchase procedures; when the contracting officer has determined, through the end item inventory manager, in accordance with the procedures in Chapter XVII of the Defense Utilization and Disposal Manual, DoD 4160.21-M, that the required precious metals are not available from DISC; or when the contracting officer knows that the supplies being acquired do not require precious metals in their manufacture.

(b) When an offeror advises of a precious metals requirement in accordance with 252.208-7004, the contracting officer shall have the end item inventory manager contact the DISC Precious Metal Inventory Manager (M), in accordance with the procedures in Chapter XVII of the Defense Utilization and Disposal Manual, DoD 4160.21-M, to determine availability of required precious metal assets and current GFM unit prices. If the precious metals are available the contracting officer shall evaluate offers and award the contract on the basis of that offer which is in the best interest of the Government.

(c) *Federal Supply Groups.* Acquisition of items in the following Federal Supply Groups are subject to the above-prescribed policy and procedures:

##### FS Groups and Description.

- 12 Fire Control Equipment.
- 14 Guided Missiles.
- 15 Aircraft and Airframe Structural Components.
- 16 Aircraft Components and Accessories.

- 17 Aircraft launching, Landing, and Ground Handling Equipment.
- 18 Space Vehicles.
- 20 Ship and Marine Equipment.
- 28 Engines, Turbines and Components.
- 29 Engine Accessories.
- 31 Bearings.
- 34 Metalworking Machinery.
- 58 Communications, Detection, and Coherent Radiation Equipment.
- 59 Electrical and Electronic Equipment Components.
- 61 Electric Wire and Power and Distribution Equipment.
- 65 Medical, Dental, and Veterinary Equipment and Supplies.
- 66 Instruments and Laboratory Equipment.
- 67 Photographic Equipment.
- 68 Chemicals and Chemical Products.
- 84 Clothing, Individual Equipment, and Insignia.
- 95 Metal Bar, Sheets, and Shapes.

(d) *Refined precious metals.* The following refined precious metals are currently managed by DISC:

##### Precious Metal and National Stock Number (NSN)

Silver Bullion/Granules—9660-00-106-9432  
Gold Bullion/Granules—9660-00-42-7733  
Platinum Granules—9660-00-042-7768  
Platinum Sponge—9660-00-151-4050  
Palladium Granules—9660-00-042-7765  
Rhodium Sponge—9660-01-011-2625  
Iridium Sponge—9660-01-011-1937  
Ruthenium Sponge—9660-01-039-0313

#### Subpart 208.78—Forging and Welded Shipboard Anchor Chain Items Used for Military Application for Combat and Direct Combat Support Items

##### 208.7801 Definitions.

"Domestic manufacture" means forging and welded shipboard anchor chain items manufactured in the United States and Canada.

"End item" means a final combination of end products, component parts, and/or materials which is ready for its intended use per JCS Publication #1 (DoD Dictionary of Military and Associated Terms).

##### 208.7802 Policy.

It has been determined that defense requirements for the forging and welded shipboard anchor chain items listed in 208.7802-1 below must be acquired from domestic sources (United States and Canada) to the maximum extent practical. Accordingly, all acquisitions of these forging items and all acquisitions of items containing these forging and welded shipboard anchor chain items shall include, except as provided in 208.7803 below, a requirement that such items and forging items incorporated in end items delivered under the contract be of domestic manufacture only. This restriction does not include forgings

used for commercial vehicles (such as commercial cars and trucks) or to noncombat support military vehicles.

**208.7802-1 List of DoD forging and welded shipboard anchor chain items that must be acquired from domestic sources (United States and Canada).**

Ship propulsion shafts greater than 50 feet in length

Periscope tubes

Ring forgings for bull gears greater than 120 inches in diameter

Large caliber, thick-walled cannon, 105mm through 8-inch forgings listed below:

Preform forgings

Gun tube forgings

Muzzle brake forgings

Breach ring forgings

Breach block forgings

60mm and 81mm mortar forgings listed below:

Bipod forgings

Base plate forgings

Body yoke forgings

Small caliber weapons forgings listed below:

Barrel extensions

Bolts

Receivers

Sights/handles, etc.

Tank and automotive forgings listed below:

Turret rings

Road arms

Final drive gears

Shafts

Sprockets

Track shoes

Axle shafts

Flywheels

Connecting rods

Crankshafts

Roadwheels

Spindles

Torsion bars

Forged DiLok Anchor Chain

Welded Shipboard Anchor Chain (smaller than four (4) inches in diameter)

**208.7803 Procedures.**

(a) The clause set forth at 252.208-7005, Required Sources for Forging and Welded Shipboard Anchor Chain Items, shall be inserted in all contracts except—

(1) When the contracting officer knows that the item being acquired does not contain forging items listed in 208.7802-1;

(2) When purchases are made overseas for overseas use;

(3) If the quantity being acquired is determined to be greater than that required to maintain the U.S. defense mobilization base (provided the quantity above mobilization base needs constitutes an economical buy quantity), such greater quantities will not be subject to the U.S., Canadian restriction and shall be awarded competitively to the maximum practical extent. NATO and other qualifying countries may compete for the excess quantities

consistent with Part 225 of this Supplement.

(b) A Canadian firm may bid on and supply any of the restricted items if: (1) It normally produces similar items or it is currently producing the item in support of DoD contracts (as prime or subcontractor), and (2) It agrees to become (upon receiving a contract/order) a planned producer under DoD's Industrial Preparedness Program (IPP), if it is not already a planned producer for the item.

(c) Subsequent to the award of a contract, the contracting officer may waive the requirements set forth at 252.208-7005, Required Sources for Forging and Welded Shipboard Anchor Chain Items. Such waiver may be granted on a case-by-case basis when adequate domestic supplies of listed forging items are not available to meet DoD needs on a timely basis. Also, these waivers will only be granted to the extent and for the period of time necessary to permit the contractor to acquire and use listed forging items of domestic manufacture.

**PART 209—CONTRACTOR QUALIFICATIONS**

**Authority:** 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 209.1—Responsible Prospective Contractors**

**209.103 Policy.**

(S-70) *Acquisition from Concerns in Qualifying Countries.*

(1) Awards to concerns in qualifying countries are subject to this subpart and other sections of this Supplement concerning NATO participating country sources.

(2) A Canadian firm proposed by the Canadian Commercial Corporation (CCC) as its subcontractor generally shall be accepted by the contracting officer under the provisions of FAR 9.104-4 as the basis for his determination under FAR 9.103.

**209.104 Standards.**

**209.104-3 Application of standards.**

(c) *Satisfactory performance record.*

(c)(2) Quality is a significant consideration in determining satisfactory performance. Quality defects of a critical or repetitive nature without adequate and timely corrective action, including repair or replacement of items, shall also be presumptive of inability to meet this requirement. DoD components shall assure that contracts are not awarded to contractors with a history of providing supplies or services of an unsatisfactory quality.

(S-70) In cases where the firm proposed by CCC is so accepted, preaward survey forms need not be completed. When the CCC proposal is not consistent with other information which may be available to the contracting officer, the contracting officer shall request from CCC and any other sources whatever additional information or plant surveys the contracting officer may deem necessary to make the determination of responsibility of sources proposed by CCC. Such additional data may be requested on the preaward survey forms or on any other forms. Upon request, CCC shall be furnished an explanation of the reasons for rejection of its proposed firm.

**209.105 Procedures.**

**209.105-70 Current information.**

(a) Maximum practicable use shall be made of currently valid information on file or within the knowledge of personnel in the Department of Defense. Each Department shall, at such level and manner as it deems appropriate, maintain useful records and experience data for the guidance of contracting officers in the placement of new procurement, and shall inform its contracting officers and the other Departments of the means of access thereto. Notwithstanding this direction contract administration offices shall maintain files of information reflecting upon the ability of contractors to perform Government contracts successfully.

(b) Any contracting office becoming aware of circumstances which, for any reason, casts doubt upon the ability of a contractor to perform contracts successfully, shall immediately advise the cognizant contract administration office. A contract administration office, upon being notified by a contracting office of unfavorable information affecting a contractor under its cognizance, or upon developing unfavorable information during the course of contract administration activities, shall advise the contracting offices of the other Departments. When a contract administration office is requested to perform a preaward survey and it has been notified of the existence of unfavorable information relative to the contractor, it shall obtain the details including full supporting information. Careful and full consideration shall be given such information.

(c) For preaward survey assistance for contracts requiring performance of Contract Administration Services (CAS) on military installations, see 242.270.

**209.106 Preaward surveys.****209.106-2 Requests for preaward surveys.**

(S-70) Procedure for requesting preaward survey.

(1) Preaward surveys will be accomplished by the cognizant Contract Administration Office as listed in DoD Directory of Contract Administration Services Components, DoD 4105.59-H. The contracting officer shall request a preaward survey on Standard Form (SF) 1403, Preaward Survey of Prospective Contractor (General), indicating in Section III thereof, the scope of the survey desired. An original and 3 copies of the SF 1403 requesting a preaward survey will be provided along with a copy of the solicitation and such drawings and specifications as deemed necessary by the purchasing office.

(2) Factors requiring emphasis not enumerated in Section III should be listed by the contracting officer under item "G" of that Section and explained in block 23, Remarks.

(3) The "Walsh-Healey Public Contracts Act" block of Section I is for information purposes only. If information is needed on the offeror's eligibility under the Walsh-Healey Act, it must be specifically requested in block "G" of Section III and explained in block 23, Remarks.

(4) A survey may be requested by telegraphic communication containing the data required by Sections I, II, and III of the form. A survey may be requested by telephone but shall be immediately confirmed by transmittal of completed SF 1403.

(5) The SF 1403 lists five major factors and seven other factors to be evaluated. One or more of these factors can be checked depending on the contracting officer's concerns regarding the offeror's responsibility. Following is a brief explanation of the factors:

**Section III, Block 19, Major Factors**

**Factor A—Technical Capability**—An assessment of the prospective contractor's key management personnel to determine if they have the basic technical knowledge, experience, and understanding of the requirements necessary to produce the required product or provide the required service.

**Factor B—Production Capability**—An evaluation of the prospective contractor's ability to plan, control, and integrate manpower, facilities, and other resources necessary for successful contract completion. This includes (1) an assessment of the prospective

contractor's possession of, or the ability to acquire, the necessary facilities, material, equipment and labor; (2) a determination that the prospective contractor's system provides for timely placement of orders and for vendor follow-up and control.

**Factor C—Quality Assurance Capability**—An assessment of the prospective contractor's capability to comply with the quality assurance requirements of the proposed contract. It may involve an evaluation of the prospective contractor's quality assurance system, personnel, facilities and equipment.

**Factor D—Financial Capability**—A determination that the prospective contractor has adequate financial resources, or access to them, to acquire needed facilities, equipment, materials, etc.

**Factor E—Accounting System**—An assessment by the Defense Contract Audit Agency (DCAA) of the adequacy of the prospective contractor's accounting system. Normally, an accounting system review will be requested when conditions such as progress payment, or a cost or incentive type contract is contemplated.

**Section III, Block 20, Other Factors**

**Factor A—Government Property Control**—An assessment of the prospective contractor's capability to manage and control Government property.

**Factor B—Transportation**—An assessment of the prospective contractor's capability to comply with the laws and regulations applicable to the movement of Government material, or overweight, oversized, hazardous cargo, etc.

**Factor C—Packaging**—An assessment of the prospective contractor's ability to meet all contractual packaging requirements including preservation, unit pack, packing, marking and unitizing for shipment.

**Factor D—Security Clearance**—A determination that the prospective contractor's facility security clearance is adequate and current. (When checked, this factor will be referred to the Defense Investigation Service (DIS) by the surveying activity.)

**Factor E—Plant Safety**—An assessment of the prospective contractor's ability to comply with safety requirements specified in the solicitation.

**Factor F—Environmental/Energy Considerations**—An evaluation of the prospective contractor's ability to meet specific environmental/energy requirements contained in the solicitation.

**Factor G—Other**—This factor is checked when an assessment of other than Major Factors A-E and Other Factors A-F is desired. When Factor G is checked, the desired information will be explained in

the Remarks sections. An example of an item that may be included under this factor is Walsh-Healey eligibility.

(6) Factors checked on the SF 1403 will be limited to those essential to the contracting officer's determination of responsibility.

(7) Block 10 of the SF 1403 will show the date preaward survey results are required by the purchasing office. This date will be determined by the contracting officer after due consideration of the urgency of the acquisition, and the scope and complexity of the preaward survey. In particular, consideration must be given to the more time-consuming aspects of a preaward survey such as secondary survey requirements, accounting system review, financial capability analysis, and purchasing office participation in the survey. Routine preaward surveys, with established DoD contractors, are normally accomplished by the Contract Administration Office within 7 workdays after receipt of the request. Preaward survey requests for particularly complex items, or those involving aspects as mentioned above, will usually require more time and should be allowed for by the contracting officer.

**209.106-70 Steps for survey performance.**

The three steps in performing a preaward survey are the preliminary analysis, the development and evaluation of information, and the preparation and review of the survey report.

(a) *Preliminary analysis.* The request (SF 1403, Sections I, II, and III) shall be reviewed to establish basic administrative information and the factors to be evaluated. The solicitation shall then be reviewed to ascertain those general and special requirements which have a significant bearing on determining contractor responsibility. Examples are the nature of the product, applicable specifications, delivery schedule, documentation requirements, property control requirements, and financing aspects.

(b) *Development of information.*

(1) *Review of available data.* The information already available in the contract administration office pertaining to the prospective contractor and his past performance shall be reviewed. Prior preaward survey reports shall be examined and considered in support of preaward survey recommendations. If

the prospective contractor has current or contemplated Government contracts, the files should be checked for information regarding similarity of product, current status of contracts, quality control experience, and financial status.

(2) *Development of additional data.*

(i) When appropriate, the contract administration office shall supplement the data on hand with any additional information required from other Government sources and from commercial sources, such as banks, business associates, and credit rating and reporting agencies.

(ii) When a prospective contractor proposes to acquire additional resources essential to performance of the proposed contract, the CAO shall as a minimum obtain and evaluate:

(A) An itemized list of the required resources;

(B) A planned method of acquisition; and

(C) A schedule for acquisition of resources. Failure to meet commitments on previous contracts shall be documented in the current preaward survey report and considered in the final recommendation.

(c) *On-site surveys.*

(1) *Interview, evaluation, and review.*

(i) *General.* An on-site survey will consist of an interview with representatives of the prospective contractor and, normally, an evaluation of his resources and procedures.

(ii) *Interview with management.* Management officials of the appropriate level authorized to represent the prospective contractor should be interviewed. The prospective contractor's background shall be reviewed and as much history recorded as necessary to reflect the soundness and reputation of the firm's operation.

(A) The organizational structure of the facility is the basis for management's control and must be reviewed. Assignment of definite tasks and responsibilities should be checked.

(B) Lack of understanding or misinterpretation of the solicitation often results in delinquent contracts and leads to default actions. Therefore, the solicitation shall be discussed with prospective contractors to assure that they understand its requirements, including its technical aspects such as drawings, specifications, prototype, technical data and provisioning technical documentation (including automated data processing requirements when appropriate), testing, packaging, and Government's right to use technical data in accordance with the terms of the solicitation. Any misinterpretations of the requirements of the solicitation which could adversely affect

performance, or refusal by the prospective contractor to furnish required data, should be brought to the immediate attention of the official approving the survey by the team coordinator. The official approving the survey shall, in turn, promptly advise the purchasing office.

(iii) *Evaluation of resources and review of procedures.* The resources which the prospective contractor intends to utilize shall be inspected, analyzed, and compared with his overall plans for performing. His procedures relating to performance of the proposed contract shall be reviewed for adequacy.

(iv) *Specific factors to be considered.* In the course of developing information, those factors described in 209.106-70(c)(2) through 209.106-70(c)(4) below and all others needed to provide the report and recommendations in the detail and to the extent required by the purchasing office shall be considered.

(2) *Production.*

(i) *General.* The production portion of the on-site survey consists of an evaluation of the prospective contractor's ability to manufacture the product(s) in accordance with the specifications and delivery schedule of the proposed contract. To achieve the objectives of this portion of the on-site survey, the production plan shall be reviewed, production resources ascertained, and the plan related to such resources.

(ii) *Obtaining the production plan.* The prospective contractor's production plan for meeting the delivery schedule specified in the proposed contract shall be ascertained. The principal milestones within the production plan shall be established, along with target dates for achievement. These target dates must support the delivery schedule of the proposed contract. The controls which will be utilized in order to gear and hold the manufacturing effort to the target dates for the principal milestones shall be analyzed for suitability.

(iii) *Ascertaining production resources.* The information necessary to prepare SF 1405 shall be obtained by discussion with appropriate management personnel of the prospective contractor. This information shall be verified, when necessary, by physical inspection of the manufacturing plant and evaluated in terms of suitability to manufacture the required item(s).

(iv) *Relating production plans to production resources.* When necessary, representatives of the prospective contractor shall be requested to advise how the production resources will be allocated and utilized in order to achieve the target dates for the principal

milestones. This shall include both in-house and subcontractor production resources. Pertinent to this is an analysis of projects and contracts which will compete for utilization of those resources within the same time frame as that specified by the prospective contractor's production plan. The information developed as a result of equating the production plan and production resources of the prospective contractor should enable the contract administration office to:

(A) Conclude whether the resources which the prospective contractor is planning to use are suitable for the job;

(B) Determine whether the prospective contractor will be capable of properly controlling, maintaining, protecting and using Government property;

(C) Determine whether the planning and scheduling of effort will result in timely accomplishment of the principal milestones;

(D) Conclude whether achievement of the principal milestones will result in timely delivery.

(3) *Quality assurance (SF 1406).*

(i) The standing of the quality assurance organization in the prospective contractor's overall organization must be evaluated. An inspection or quality control function which reports to some other organizational segment (such as Production) instead of top management may be undesirable. The experience of the company inspection or quality control personnel with the same or similar items shall be evaluated.

(ii) To evaluate the prospective contractor's ability to comply with quality control or inspection requirements, the following areas shall be reviewed:

(A) Methods currently utilized to control product quality as reflected by a documented or verifiable inspection system or quality program plan;

(B) Personnel on hand and available (report both trained and untrained);

(C) Inspection and test equipment on hand and available;

(D) Quality, identification, and storage of materials;

(E) Physical arrangement of plant;

(F) Tool and gauge control; and

(G) Test and inspection records.

(4) *Financial (SF 1407).*

(i) *General.* The normal procedure for determining a prospective contractor's financial capability shall be initial presurvey planning, followed by verification of financial data as required. The extent of the review and analysis of financial matters shall be governed by the nature of the proposed contract. In certain instances, a sound

decision may be possible after a relatively simple review of a company's financial position and production commitments. Under other circumstances, a more comprehensive review and analysis will be required. The approach to financial analysis shall be consistent with the basic policies and regulations outlines in FAR 32.172, 32.173 and 32.174.

(ii) *Procedure.* Aspects to be considered in determining the prospective contractor's financial capability include the following:

(A) The latest balance sheet and profit and loss statement shall be reviewed. The following are indicative of the soundness of the prospective contractor's financial structure:

- (1) Rates and ratios;
- (2) Working capital as represented by current assets over current liabilities; and
- (3) Financial trends such as net worth, sales and profit.

(B) The method of financing the contract shall be evaluated. Where sources of outside financing, other than the Government, are indicated, their availability should be verified.

(C) When financial aid from the Government is to be obtained, the necessity should be verified. Review shall be made concerning the applicability of such financing as progress payments or guaranteed loans.

(d) *Evaluating data and preparing the report.*

(1) *Findings of team members.* When the required information has been gathered, each individual participant shall analyze it and evaluate the prospective contractor's capability to perform with respect to the functional element(s) evaluated. Each participant shall then provide his findings to the official approving the survey. When a negative reply is recorded, or when doubt exists, an explanation must substantiate such action. If a detailed analysis is needed or additional significant information is pertinent, a narrative report shall be supplied.

(2) *Evaluation and recommendation.* Based on all the information received from the team members, the official approving the survey shall thoroughly review and evaluate the findings and recommendations, and forward the report direct to the purchasing office. When advance reports are made by telegraphic communication or telephone, they shall be confirmed by mail without delay. The official approving the survey shall follow up on any requirements for the submission of supplemental reports.

#### **209.106-71 Audit responsibilities for preaward surveys and reviews.**

Preaward surveys of potential contractors' competence to perform proposed contracts shall be managed and conducted by the contract administration office. When information is required on the adequacy of the contractor's accounting system or its suitability for administration of the proposed type of contract, such information shall always be obtained by the ACO from the auditor. The contract administration office shall be responsible for advising the contracting officer on matters concerning the contractor's financial competence or credit needs.

#### **Subpart 209.2—Qualifications Requirements**

##### **209.202 Policy.**

(a)(1) The inclusion of qualification requirements in specifications for products which are to be included on a Qualified Products List (QPL) must be approved by the applicable authority listed below:

In the Army, Headquarters, U.S. Army Materiel Command, (AMCPD-SE);

In the Navy, Contracts and Business Management, OASN (S&L);

In the Air Force, Departmental Standardization Office (HQ USAF/RDXM);

In the Defense Logistics Agency, The Executive Director, Contracting;

In the National Security Agency, The Director of Procurement;

In the Defense Communications Agency, The Director;

In the Defense Nuclear Agency, The Director, Acquisition Management; and

In the Defense Mapping Agency, The Director of Acquisition.

#### **Subpart 209.3—First Article Testing and Approval**

##### **209.302 General.**

The Government may require that first articles be manufactured using the same facilities and the same production processes, methods and materials, with which the item is to be produced for the contract (see 209.308 below).

##### **209.303 Use.**

(b)(1) The term "processes" as used in FAR 9.303(b)(1) includes materials or production facilities.

##### **209.305 Risk.**

This authorization may be given to a contractor only after approval at a level higher than the contracting officer (see FAR Subpart 9.308).

#### **209.306 Solicitation requirements.**

(i) The Government's estimate shall be documented in the contract file.

#### **209.308 Contract clauses.**

Alternate I of the clauses at FAR 52.209-3 or 52.209-4, as appropriate, may be included by the Contracting Officer whenever:

(a) The form, fit, or function of the product would be adversely affected by contractor changes in the production facilities, processes, methods, or materials subsequent to first article approval; and

(b) The Government has relied upon first article testing in the absence of complete design specifications to supplement a performance specification; or

(c) It is essential to have an approved first article to serve as a manufacturing standard.

#### **Subpart 209.4—Debarment, Suspension, and Ineligibility**

##### **209.403 Definitions.**

"Authorized Representative" means an official who has been designated by and authorized to act on behalf of the Secretary concerned for the purposes of this Subpart (see 209.470) including, but not limited to, acting as a debarring or suspending official.

##### **209.404 Consolidated list of debarred, suspended, and ineligible contractors.**

(c)(4) At a minimum, each Department shall maintain records relating to each contractor it has debarred or suspended that contain the following information:

- (i) The contractor's name and address;
- (ii) The cause of the action (see FAR 9.406-2 and FAR 9.407-2);
- (iii) The effective date of the action and, in the case of debarments, the termination date for each listing; and
- (iv) The name and telephone number of the Department's point of contact for the action.

##### **209.405 Effect of listing.**

(a)(1) Prior to initiating a pre-award survey or any of the contract actions set forth in FAR 9.405, the consolidated list shall be reviewed. Bids received from any listed contractor in response to an Invitation for Bids shall be opened, entered on the Abstract of Bids, and rejected unless the Secretary concerned or his authorized representative determines in writing that there is a compelling reason to make an exception. Proposals, quotations or offers received from any listed contractor shall not be evaluated for award or included in the competitive range, and discussions shall not be conducted with such offeror.

unless the Secretary concerned or his authorized representative determines in writing that there is a compelling reason to make an exception. Notwithstanding the above, if the debarment is based on a felony criminal conviction, exceptions from this section based on compelling reasons shall not be effective without the prior written concurrence of the Secretary concerned or in the case of the Defense Agencies the Under Secretary of Defense for Research and Engineering.

(2) When a Department makes an exception, a notice describing the exception shall be forwarded to the GSA Office of Acquisition Policy. Some examples of circumstances that may constitute a compelling reason include: (i) The property or services to be acquired are available only from the listed contractor; (ii) the urgency of the requirement dictates that the Department deal with the contractor; (iii) the contractor and the Department have entered an agreement covering the same events which resulted in the listing and the agreement includes a decision by the Department not to debar or suspend the contractor; and (iv) for such other reasons related to the national defense which required continued business dealings with the listed contractor.

(c) Debarred or suspended contractors are also excluded from conducting business with the Department of Defense as agents or representatives of other contractors.

#### 209.405-2 Restrictions on subcontracting.

If a debarment is based on a felony criminal conviction, Government consent or approval of a subcontract with a debarred contractor shall not be given unless the Secretary concerned or, in the case of the Defense Agencies the Assistant Secretary of Defense (Acquisition and Logistics), concurs in writing with such consent or approval.

#### 209.406 Debarment.

##### 209.406-1 General.

(d) If the cause for debarment as listed in FAR 9.406-2 is based on a felony criminal conviction, the debarment period should be commensurate with the seriousness of the crime. The period of the debarment should afford adequate time for the contractor to eliminate the circumstances within the contractor's organization that encouraged the belief that the acts or omissions on which the organization's conviction was based would escape accountability or be condoned. Mitigating factors may be considered in making the debarment

decision. However, for any decision not to debar or to debar for one year or less, the mitigating factors must demonstrate clearly to the debarring official's complete satisfaction, that the contractor has eliminated such circumstances and has implemented effective remedial measures.

(S-70) If no suspension is in effect under FAR 9.407 at the time debarment is proposed by a Department, bids or proposals shall not be solicited from, contracts shall not be awarded to, existing contracts shall not be renewed or otherwise extended with, and subcontracts shall not be consented to or approved for the contractor by any DoD component pending a debarment decision unless the Secretary concerned or authorized representative states in writing the compelling reason to do so.

##### 209.406-3 Procedures.

(c)(7) For purposes of this FAR subsection, "agency" includes all DoD components. The Secretary concerned or his authorized representative may, however, make an exception in accordance with 209.406-1(S-70).

##### 209.406-4 Period of debarment.

(a) If the debarment is based on a felony criminal conviction, the period shall be commensurate with the seriousness of the crime and will generally be for more than one year but not more than 3 years. A decision by the debarring official not to debar or to debar for one year or less than one year must be approved in writing by the Secretary concerned or, in the case of the Defense Agencies, by the Assistant Secretary of Defense (Acquisition and Logistics). If the suspension precedes debarment, the suspension period shall be considered in determining the debarment period.

(c) If the debarment is based on a felony criminal conviction, the period or extent of debarment may be only reduced:

(1) If the conviction upon which the debarment was based is reversed; or

(2) If the contractor demonstrates to the debarring official's complete satisfaction that the steps taken to eliminate the circumstances within the contractor's organization that encouraged the belief that the acts or omissions on which the organization's conviction was based would escape accountability or be condoned have been effective.

##### 209.470 Authorized representatives.

For the purpose of FAR Subpart 9.4 the authorized representatives of the Secretaries are:

(a) In the Army, the Assistant Judge Advocate General for Military Law;

(b) In the Navy, the Assistant Secretary of the Navy (Shipbuilding and Logistics);

(c) In the Air Force, the Deputy Chief of Staff, Research, Development and Acquisition;

(d) In the Defense Logistics Agency, the Special Assistant for Contracting Integrity;

(e) In the National Security Agency, The Director;

(f) In the Defense Communications Agency, the General Counsel;

(g) In the Defense Nuclear Agency, the Director; and

(h) In the Defense Mapping Agency, the General Counsel.

#### 209.471 Interchange of information.

Debarment or suspension of a contractor by one Department can have an adverse impact on the missions of other Departments with which the contractor does business. Accordingly, if it appears that there is the potential for such an adverse impact, the cognizant debarring or suspending official should solicit the comments of those Departments that he believes could be affected before taking action. A Department that believes it could be affected by the proposed action should comment directly to the cognizant debarring or suspending official. If several Departments independently are contemplating a debarment or suspension action against the same contractor, consideration should be given to designating one Department as the lead agency for making the decision.

#### 209.472 Reporting.

##### 209.472-1 Situations where reports are required.

A report incorporating the information required by 209.472-2 shall be prepared by the contracting officer when:

(a) A contractor has committed, or is suspected of having committed, any of the acts described in FAR 9.406-2 and 9.407-2;

(b) A report is required by 203.000;

(c) A report is required by 203.409 (contingent fees);

(d) A report is required by FAR 49.106 (termination settlements);

(e) Buy American Act violations are suspected (see FAR 25.204); or

(f) A contractor is suspected of attempting to evade the prohibitions or debarments or suspensions imposed under this Regulation by changes of address, multiple addresses, formation of new companies, or by other devices.

**209.472-2 Contents of reports.**

Each report prepared pursuant to this subsection shall contain the name and telephone number of the individual assigned to the case as the point of contact for the activity making the report, and shall include substantially the following information, where available:

- (a) Name and address of the contractor;
- (b) Names of the principal officers, partners, owners, or managers;
- (c) All known affiliates, subsidiaries, or parent firms, and the nature of the affiliation;
- (d) Description of the contract or contracts concerned, including the contract number, and all office identifying numbers or symbols, the amount of each contract, the degree of completion, the amount paid the contractor and the amount still due, and the percentage of work to be completed;
- (e) The status of vouchers;
- (f) Whether the contract has been assigned pursuant to the Assignment of Claims Act, and if so assigned, the name and address of the assignee and a copy of the assignment;
- (g) Whether any other contracts are outstanding with the contractor or any of his affiliates, and if so, the amount of such contracts, whether they are assigned pursuant to the Assignment of Claims Act, and the amounts paid or due on such contracts;
- (h) A complete summary of all pertinent evidence;
- (i) A recommendation as to the continuation of all current contracts with a full explanation of the reason for such recommendation, or if no recommendation is made, the reason therefor;
- (j) An estimate of damages, if any, sustained by the Government as a result of the action of the contractor, including an explanation of the method used in making the estimate;
- (k) The comments and recommendations of the contracting officer and of each successive echelon as to (1) whether the contractor should be suspended or debarred, (2) whether any limitations should be applied to such action, and (3) the period of any debarment; and,

(l) As an enclosure, a copy of the contract (or contracts) or pertinent excerpts therefrom, appropriate exhibits, testimony or statements of witnesses, copies of assignments, and other relevant documentation, such as affidavits, copies of investigative reports and certified copies of indictments and judgments.

**209.472-3 Addresses and copies of reports.**

Reports shall be submitted in three complete copies, including enclosures, to the authorized representatives of the Secretaries concerned, unless otherwise provided by Departmental procedures. Additional copies without enclosures may be required by Departmental procedures for other addresses.

**209.473 Acquisition outside United States.****209.473-1 General.**

The foregoing provisions of this subpart shall be applied by overseas commanders to acquisitions outside the United States and its possessions, whenever possible, and as modified by the following provisions, with due consideration to laws or customs of the foreign countries concerned.

**209.473-2 Responsibilities and area coverage.**

The Commander in Chief, United States European Command (CINCEUR), the Commander in Chief, Pacific (CINCPAC) and the Commander in Chief, Southern Command (CINCSOUTH), or the Commanders of a component command which each of these unified commanders may designate, shall establish and maintain a consolidated list of offshore suppliers to whom contracts will not be awarded and from whom bids or proposals will not be solicited. The CINCEUR consolidated list will include names in the North Atlantic and Mediterranean areas, including all of Europe, North Africa, and the Middle East. The CINCPAC consolidated list will include names in the Far East and Pacific Ocean areas, excluding the United States and its possessions. The CINCSOUTH consolidated list will include names in Central and South America, excluding possessions. All other overseas commanders shall utilize and contribute to such lists as appropriate to their geographical location or areas in which they award contracts. Lists shall not be established or maintained except as provided above.

**209.473-3 Information contained on overseas lists.**

The list shall show as a minimum the following information:

- (a) Names and addresses of those contractors to whom contracts shall not be awarded and from whom bids or proposals shall not be solicited (Names will be set forth alphabetically with appropriate cross reference where more than one name is involved in a single action or where a parent contractor in one country is known to control

subsidiaries, branches, or agencies in the same or other countries.);

- (b) Basis or authority for each action;
- (c) Extent of restrictions imposed;
- (d) Termination date for each debarred listing; and
- (e) Originating activity, component, or agency.

**209.473-4 Maintenance and distribution of lists.**

The lists shall be kept current by issuance of notices of additions or deletions and by periodic reprinting. Copies of the lists shall be distributed to contracting officers as the unified commanders and their component commanders direct. CINCEUR, CINCPAC, and CINCSOUTH shall exchange lists directly. Copies shall also be furnished the Deputy Assistant Secretary of Defense (Procurement), OASD(A&L), the Assistant Secretary of Defense (International Security Affairs), and the authorized representative of the Secretaries.

**209.473-5 Basis of addition of contractors to lists.**

In addition to the names of offshore contractors which may be included on the lists as falling into the categories outlined in FAR 9.405, the names of contractors abroad shall be included on the list in the following additional categories:

- (a) Those who are "designated nationals" under the Foreign Assets Control Regulations;
- (b) Those found by the Assistant Secretary of Defense (International Security Affairs) or authorized representative to have engaged in improper East-West trade activity;
- (c) Those found by the Assistant Secretary of Defense (International Security Affairs) or authorized representative to be ineligible because they do not meet the political or security criteria;
- (d) Those found by the United States Diplomatic Mission or a Country Team (consisting of members of the United States Diplomatic Mission in the country or countries in which the contractors are located) to be ineligible because they do not meet the labor-political criteria; and,
- (e) Those who for other causes of a serious and compelling nature are so designated by the unified commander.

**209.473-6 Treatment to be accorded contractors in debarred or ineligible status.**

The provisions of FAR 9.405 shall be complied with, if applicable. In addition, contracts shall not be awarded to, nor shall bids or proposals be solicited from or furnished to contractors abroad which come within the categories in

209.473-5. With respect to 209.473-5(a), an exception may be made only by the Secretary of the Treasury. With respect to 209.473-5 (b), (c), and (d), an exception may be made by the Assistant Secretary of Defense (International Security Affairs) or his authorized representative.

**209.473-7 Causes and conditions for which unified commanders may place names on the consolidated list.**

CINCEUR, CINCPAC, and CINCOSOUTH, or their designated component commanders are authorized to place on the list names of contractors doing business within the areas for which they are responsible, for any of the causes and under the conditions set forth in 209.473-5 and 209.473-6. Overseas commanders or unified commanders overseas other than CINCEUR, CINCPAC, and CINCOSOUTH are similarly authorized to place on the list the names of contractors in their command areas and shall promptly notify CINCEUR, CINCPAC, or CINCOSOUTH as appropriate, of such action, furnishing the information required by 209.473-3. CINCEUR, CINCPAC, or CINCOSOUTH shall add the names to his consolidated list. The listing shall operate to deny contracts and subcontracts (when Government approval is required) to such contractors throughout the Department of Defense. Unified commanders shall be notified of the action based on causes and under conditions set forth in 209.473-5 and 209.473-6 through the "Economic Defense List", transmitted by the Department of Commerce through State Department channels, which contains the names of contractors affected or by direct communication from the Office of the Assistant Secretary of Defense (International Security Affairs).

**209.473-8 Liaison with United States diplomatic missions.**

The Chief of the United States Diplomatic Mission, or such attache or other officer as the Chief of the United States Diplomatic Mission directs, in the country where the contractor concerned is located, shall be notified of actions contemplated under the foregoing paragraphs which may have important political significance. In cases of contemplated action against a branch or subsidiary in one or more countries, the Chief of the United States Diplomatic Mission in each country, including that in which the parent or principal is located, will be notified.

**209.474 Use of lists.**

(a) Due to the length of the lists, the numerous revisions, and the distances

involved, as well as the infrequent contracting by offices with suppliers outside their respective areas, the United States, CINCEUR, CINCPAC, and CINCOSOUTH consolidated lists shall not be distributed to contracting officers outside the area covered by the respective lists. However, no contracts shall be awarded by contracting officers to suppliers without ascertaining that the names of the contractors involved do not appear on the consolidated list for the geographical area in which the contractor is located. All lists shall be held for reference in each of the Departments, and in offices designated by CINCEUR, CINCPAC, and CINCOSOUTH, and shall be utilized in accordance with procedures established by them.

(b) When a contracting officer becomes aware that a prospective contractor proposes to furnish products of a concern that has been placed on an overseas list in accordance with 209.473-5 (a), (c), or (e), the matter shall be referred to the authorized representatives of the Secretaries concerned.

**PART 210—SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS**

**210.001 Definitions.**

"Bill of Materials" means a report by a supplier which specifies the quantities of various materials required to produce a designated quantity of supplies of a particular kind.

**210.004 Selecting specifications or descriptions for use.**

(b)(3)(i) *General.*

(A) Purchase descriptions which contain references to one or more brand name products followed by the words "or equal" may be used only when authorized by FAR 10.004(b) and 210.006(a) and in accordance with 210.004(b)(3) (ii) and (iii). The term "brand name product" means a commercial product described by brand name and make or model number or other appropriate nomenclature by which such product is offered for sale to the public by the particular manufacturer, producer, or distributor. When feasible, all known acceptable brand name products should be referenced. Where a "brand name or equal" purchase description is used, prospective contractors must be given the opportunity to offer products other than those specifically referenced by brand name if such other products will meet the needs of the Government in essentially the same manner as those referenced.

(B) "Brand name or equal" purchase descriptions should set forth those salient physical, functional, or other characteristics of the referenced products which are essential to the needs of the Government. For example, when interchangeability of parts is required, such requirement should be specified. Purchase descriptions shall contain the following information to the extent available, and include such other information as is necessary to describe the item required:

- (1) Complete common generic identification of the item required;
- (2) Applicable model, make, or catalog number for each brand name product referenced, and identity of the commercial catalog in which it appears; and
- (3) Name of manufacturer, producer, or distributor of each brand name product referenced (and address if not well known).

(C) When necessary to describe adequately the item required, an applicable commercial catalog description, or pertinent extracts therefrom, may be used if such description is identified in the solicitation as being that of the particular named manufacturer, producer, or distributor. The contracting officer will insure that a copy of any catalogs referenced (except parts catalogs) is available on request for review by bidders at the purchasing office.

(ii) *Invitations for bids.*

(A) Except as provided in (C) below, when a "brand name or equal" purchase description is included in an invitation for bids, the following shall be inserted after each item so described in the invitation, for completion by the bidder:

Bidding on:

Manufacturer's Name \_\_\_\_\_  
Brand \_\_\_\_\_  
No. \_\_\_\_\_

(B) In addition, the clause at 252.210-7000, Brand Name or Equal, shall be included.

(C) When component parts of an end item are described in the invitation for bids by a "brand name or equal" purchase description and the contracting officer determines that application of the clause in (B) above to such component parts would be impracticable, the requirements of (A) above shall not apply with respect to such component parts. In such cases, if the clause is included in the Invitation for Bids for other reasons, a statement substantially as follows also shall be included:

The clause entitled "Brand Name or Equal" does not apply to the following component

parts: (List the component parts as to which the clause does not apply.)

In the alternative, if the contracting officer determines that the clause in (B) above should apply to only certain such component parts, the requirements of (A) above shall apply to such component parts and a statement substantially as follows also shall be included:

The clause entitled "Brand Name or Equal" applies to the following component parts: (List the component parts to which the clause applies.)

(D) When an invitation for bids contains "brand name or equal" purchase descriptions, bidders who offer brand name products referenced in such descriptions shall not be required to furnish bid samples of the referenced brand name products; however, invitations for bids may require the submission of bid samples in the case of bidders offering "or equal" products.

(iii) *Bid evaluation and award.*

(A) Bids offering products which differ from brand name products referenced in a "brand name or equal" purchase description shall be considered for award when the contracting officer determines in accordance with the terms of the clause at 252.210-7000 that the offered products are equal in all material respects to the products referenced. Bids shall not be rejected because of minor differences in design, construction, or features which do not affect the suitability of the products for their intended use.

(B) Award documents shall identify, or incorporate by reference an identification of, the specific products which the contractor is to furnish. Such identification shall include any brand name and make or model number, descriptive material, and any modifications of brand name products specified in the bid. Included in this requirement are those instances when the description of the end item contains "brand name or equal" purchase descriptions of component parts or of accessories related to the end item, and the clause at 252.210-7000 was applicable to such component parts or accessories (see 210.004(b)(3)(ii)(C)).

(iv) *Procedure for negotiated acquisitions.*

(A) The policies and procedures prescribed in 210.004(b)(3) (i) and (iii) for acquisitions by sealed bidding shall be generally applicable to negotiated acquisitions.

(B) The clause at 252.210-7000 may be adapted for use in negotiated acquisitions. If use of the clause is not practicable (as may be the case in an unusual and compelling urgency),

suppliers shall be suitably informed that proposals offering products different from the products referenced by brand name will be considered if the contracting officer determines that such offered products are equal in all significant and material respects to the products referenced.

**210.004-70 Requiring bills of materials.**

A bill of materials with respect to all or part of the supplies to be furnished pursuant to a contract, shall be required only if the contracting officer shall determine that such bill is necessary to develop materials or components requirements for production and maintenance programs, for industrial mobilization purposes, or for other specified purposes. In such event, the contract shall specify, with respect to such bill, the following:

(a) The supplies or parts thereof to be covered by the bill of materials;

(b) The type of bill or bills (detailed, modified, expanded summary, or abbreviated summary) to be furnished, with applicable instructions;

(c) The compensation to be paid the contractor for furnishing such bill and any revisions thereto, or a statement that the price of the item to which the bill relates includes compensation for the furnishing of such bill;

(d) The number and kind of copies of such bill to be furnished; and

(e) Delivery dates.

The contract shall also include the clause required by 210.011(72). When a bill of materials is procured by contract separate from the supplies to which such bill of materials relates, such contract shall include such of the terms mentioned above as may be appropriate and shall specify that the bill of materials shall be furnished on DD Forms 346 and 347, if applicable, or authorized reproductions thereof. The contractor shall not be required to obtain data for the bill of materials in greater detail from a subcontractor than the contractor is to furnish under the terms of the above clause.

**210.008 Identification and availability of specifications.**

(g) (1) A Department of Defense Single Stock Point (DODSSP) has been established at the Naval Publications and Forms Center in Philadelphia for unclassified Federal, Military and other specifications and standards (including commercial) listed in the Department of Defense Index of Specifications and Standards (DODISS) and data item descriptions listed in the Department of Defense Acquisition Management Systems and Data Requirements Control

List (AMSDL) DODD 5000.19-L, Volume II.

(2) Contracting activities may obtain copies of the DODISS and the AMSDL, as well as all unclassified specifications and standards (including commercial) listed in the DODISS, and data item descriptions listed in the AMSDL by sending DD Form 1425 to the DODSSP.

**210.011 Solicitation provisions and contract clauses.**

(S-70) The contracting officer shall insert the provision at 252.210-7001 in addition to the provision at FAR 52.210-2, Availability of Specifications Listed in the DoD Index of Specifications and Standards (DODISS), in all solicitations containing data item descriptions.

(S-71) Specifications and standards not listed in the DODISS, and plans, drawings, and other pertinent documents (including new or revised Federal or Military specifications and standards not yet listed in DODISS) and data item descriptions not listed in DoD Directive 5000.19-L, Volume II, normally shall be furnished with the solicitation. When this is not feasible because of the bulk of the documents, the limited number of copies available, or for some other good reason, the contracting officer shall insert a provision substantially similar to the provision at 252.210-7002, Availability of Specifications and Standards Not Listed in DODISS, Data Item Descriptions Not Listed in DoD Directive 5000.19-L, Volume II, and Plans, Drawings, and Other Pertinent Documents or the provision at 252.210-7003, Availability for Examination of Specifications, Standards, Plans, Drawings, Data Item Descriptions, and Other Pertinent Documents, as appropriate.

(S-72) The contracting officer shall insert the clause at 252.210-7004 as required by 210.004-70.

**PART 211—ACQUISITION AND DISTRIBUTION OF COMMERCIAL PRODUCTS**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**211.002 Policy.**

Contracting activities may use purchase descriptions which allow offerors to furnish commercial products and allow the Government to use commercial distribution systems whenever these products or distribution systems satisfy the Government's needs, but only if not prohibited by 211.005(b) below.

**211.005 Acceptability.**

(b) The 1983 Supplemental Appropriations Act (Pub. L. 98-63) contained a provision limiting the acquisition of commercial products by Department of Defense contracts; this same provision was enacted as section 779 of the 1984 DoD Appropriations Act (Pub. L. 98-212). When using funds appropriated by these acts, or any future appropriation act containing the same provision, no solicitation shall impose a requirement that in order to be eligible to submit a bid or an offer on a contract to be let for the supply of commercial or commercial-type products, a small business concern must demonstrate that its product is accepted in the commercial market (except to the extent that may be required to evidence compliance with the Walsh-Healey Public Contracts Act) or satisfy any other prequalification to submitting a bid or an offer for the supply of any such product. Under this prohibition, solicitations may not exclude small business concerns from being considered for award, whether or not former suppliers under detailed specifications, solely because the product of the small business does not meet the definition of a "commercial product" or "commercial-type product" in FAR 11.001.

**PART 212—CONTRACT DELIVERY OR PERFORMANCE**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 212.1—Delivery or Performance Schedules****212.102 Factors to consider in establishing schedules.**

(b)(S-70) *Construction*. When economies to the Government would result by excluding certain specified periods of time from contractor performance in computing the completion date, the solicitation shall contain the clause in 252.212-7000, *Exclusion of Periods in Computing Completion Schedules*.

**212.103 Supplies or services.**

(S-70) Solicitations shall generally indicate either a desired term of performance or a completion date. In cases where development of a tangible item by a given date is urgent, solicitation shall indicate such urgency. Generally, solicitations to conduct research exploratory development work will specify a level of effort for a term of performance. However, solicitations calling for a specific item in the category of such exploratory or advanced

development will specify a completion date. A contractor may propose an alternate term of performance or completion date without disqualification of his proposal.

**212.104 Contract clauses.**

(a)(2) The clauses at FAR 52.212-1 and FAR 52.212-2 can also be used in contracts for research, development facilities, time and material, and labor hours.

(a)(3) The clauses at FAR 52.212-1 and FAR 52.212-2 can also be used in contracts for research, development facilities, time and material, and labor hours.

**Subpart 212.2—Liquidated Damages****212.204 Contract clauses.**

(b) The contracting officer shall insert the clause at FAR 252.212-5 in all construction contracts in excess of \$25,000 except cost-plus-fixed-fee contracts, or those where the contractor cannot control the pace of the work. Use of the liquidated damages clause is optional for contracts of \$25,000 or less.

**Subpart 212.3—Priorities and Allocations****212.302 General.**

(S-70) *DoD Priorities and Allocations Manual*. Department of Defense implementation of all rules and regulations, published by the Office of Industrial Resource Administration (OIRA) of the Department of Commerce and for which the Department of Defense is delegated administrative responsibility is published in the *Priorities and Allocations Manual* promulgated by Department of Defense Instruction 4400.1. Authorized deviations to the priorities and allocations rules and regulations are published in the *Manual*.

**Subpart 212.4—Variation in Quantity****212.401 Supply contracts.**

(a) The permissible variation in the acquisition of small quantities of subsistence may be stated in the Schedule as follows:

(1) Standard pack items purchased on a package, carton, can or other than pound basis: maximum variation for 250 units or less—nearest full shipping container.

(2) Nonstandard pack items other than carcass meats not purchased on a package, carton, or can basis: maximum variation for 250 pounds or less—nearest piece or shipping container.

(3) Carcass meats: maximum variation for 500 pounds or less—nearest piece, quarter, side or carcass.

**SUBCHAPTER C—CONTRACTING METHODS AND CONTRACT TYPES****PART 213—SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 213.1—General****213.104 Procedures.**

(a) Installation or activity transportation facilities may be used for delivery from local suppliers to the contracting installation only after consideration of the following methods:

- (1) Supplier delivery;
- (2) Common carrier;
- (3) Parcel post;
- (4) Other mail classes.

(b) In other acquisitions using small purchase procedures, solicitation of foreign firms located in qualifying countries (see 225.001) is not required unless determined to be in the best interests of the Government.

**213.106 Competition and price reasonableness.**

(b) *Purchases over \$1,000*. Display in a public place of written requests for quotations which provide at least 10 calendar days for submission of quotes and which have an estimated value in excess of \$5,000 is encouraged. Display of such requests below that value is permitted.

(c) *Data to support small purchases over \$1,000*. If a separate form is used for documentation of price reasonableness, DD Form 1784, *Small Purchase Pricing Memorandum*, shall be used.

**Subpart 213.2—Blanket Purchase Agreements****213.203 Establishment of blanket purchase agreements.****213.203-2 Clauses.**

(a) *Form*. (1) Except as provided in paragraph (a)(2) below, blanket purchase agreements shall be prepared and issued on DD Form 1155 (*Order for Supplies or Services/Request for Quotations*). Either the "General Provisions," DD Form 1155r, or the "Reverse of Order for Supplies or Services/Request for Quotations-Foreign," DD Form 1155r-1, as applicable, shall be used. Other applicable provisions of the blanket purchase agreement shall be set forth on the Standard Form 36 (*Continuation Sheet*) or on a blank sheet of paper. Clauses authorized in 213.505-2(S-73)(1)

which are mandatory for use in purchases over \$10,000 shall be included in blanket purchase agreements that permit the placement of individual calls valued at more than \$10,000. Additionally, the following provisions may be applicable:

(i) The Contract Work Hours and Safety Standards Act—Overtime Compensation clause at FAR 52.222-4 shall be added unless it is reasonably anticipated that the aggregate of the total dollar amounts of orders to be placed thereunder will be \$2,500 or less;

(ii) When the agreement is for the intended purchase of services covered by the Service Contract Act of 1965, as amended, the clause at FAR 52.222-41 shall be substituted for Clause 15 of the General Provisions and the procedures in FAR 22.1005 complied with, unless it is reasonably anticipated that the aggregate of the total dollar amounts of orders to be placed thereunder will be \$2,500 or less;

(iii) When the agreement is for the intended purchase of supplies, the Walsh-Healey Public Contracts Act clause at FAR 52.222-20 shall be added, unless the agreement limits the aggregate total dollar amounts of orders to be placed thereunder to \$10,000;

(iv) When the agreement is for the intended purchase of supplies, the applicable Equal Opportunity Clause at FAR 52.222-26 shall be added; and

(v) The Identification of Sources of Supply clause at 252.217-7270 (see 217.7204).

(2) Blanket purchase agreements issued by the Defense Personnel Support Center may be prepared on its form "Order for Subsistence."

(b) *Numbering.* Enter the Procurement Instrument Identification (PII) number as prescribed in Subpart 204.70.

#### **213.204 Purchase under blanket purchase agreements.**

(b) A blanket purchase agreement may not be used when a call exceeds \$10,000, except that BPA calls up to \$25,000 may be placed by Inventory Control Points. BPA calls for subsistence are unlimited as to dollar value, however such actions over \$25,000 must satisfy the requirements of Part 206. BPA's may also be established with Federal Supply Schedule contractors and ADTS Schedule contractors consistent with the terms of the applicable contract schedule (see FAR 13.203-1(f)).

#### **Subpart 213.3—Fast Payment Procedure**

##### **213.302 Conditions for use.**

(a) Individual orders do not exceed \$25,000, except that for purchases of brand name commissary resale subsistence and commercial type medical supplies for direct shipment overseas, the procedure may be used without dollar limitation.

#### **Subpart 213.4—Imprest Fund**

##### **213.402 General.**

(a) *Authority.* Commanders of installations and of activities with contracting authority are authorized to approve the establishment of imprest funds. The number of imprest funds at an installation shall be kept to a minimum, and one imprest fund should be sufficient in most instances. Exceptions to this general rule may be justified for isolated activities when the location of the established fund is not readily accessible. Additional guidance on imprest funds is contained in DoD Instruction 5100.71, Delegation of Authority and Regulations Relating to Cash Held at Personal Risk Including Imprest Funds.

##### *(b) Imprest fund cashiers.*

(1) Imprest fund cashiers must be appointed by the head of an installation or activity to make authorized cash payments for materials and nonpersonal services, maintain custody of funds, and file periodic vouchers to account for and replenish the imprest fund. An imprest fund cashier should be established at a convenient location on the installation or activity for the purpose of making payments to vendors or carriers, e.g., in "Central Receiving." Disbursing officers and individuals responsible for originating, approving and processing requirements are not eligible for appointment as imprest fund cashiers. Exceptions to this rule may be granted by the major headquarters exercising control over the installation or activity. In no event shall an imprest fund cashier have access to or control of more than one imprest fund.

(2) Each appointment and termination of appointment shall be approved by the head of the installation or activity. After approval, administrative orders signed by the appropriate authority shall be issued. Appointment orders shall contain the following:

- (i) Name of individual and duty station;
- (ii) Identification of disbursing station for which the cashier will act, including the accounting number assigned thereto;
- (iii) Specific duties to be performed;
- (iv) Effective date; and

##### *(v) Amount and location of fund.*

An alternate cashier may be appointed (see (3) below) on the same order as the principal. Two copies of the orders shall be furnished to cashiers, and one copy each to the disbursing office and the installation or activity contracting office.

(3) An alternate imprest fund cashier may be appointed to provide service during the absence of the principal cashier. Appointment requirements for principal cashiers shall apply to alternate cashiers. In planned absences of the principal cashier, cash may be advanced by the principal to the alternate in any amount up to the limit of the fund. The principal shall obtain a signed cash receipt from the alternate. Upon resumption of duties, the principal cashier shall return the cash receipt to the alternate after obtaining paid receipts, subvouchers and residual cash. In the unforeseen absence of the principal cashier, funds may be advanced to the alternate in the normal manner by the disbursing officer. These funds shall be in addition to the amount currently advanced to the principal cashier under the established fund, but shall not exceed the amount of the fund. Upon return of the principal cashier, the alternate shall return paid receipts, subvouchers, and residual cash, to the disbursing officer.

##### **213.404 Conditions for use.**

(a) Imprest funds may also be used for small purchases when:

(1) The supplies or services are available for delivery within 60 days, whether at the supplier's place of business or at destination.

(2) The purchase does not require detailed technical specifications or technical inspection.

(b) Imprest funds may also be used for payment of:

(1) Charges for local delivery, parcel post (including c.o.d. postal charges) and line haul or inter-city transportation charges of \$75.00 or less for supplies ordered for payment from imprest funds when the vendor is requested to arrange for delivery.

(2) C.O.D. charges for supplies ordered for payment from imprest funds.

(3) Civilian volunteers for participation in approved medical research projects.

(c) The conditions for use specified in (a) and (b) above do not preclude the use of imprest funds for other expenditures not related to small purchases (e.g., travel advances, travel expenses, transportation charges, and purchases of postage stamps and transportation tokens or passes), when such expenditures are authorized by

other regulations governing the use of imprest funds.

- (d) Imprest funds shall not be used for:
  - (1) Payments of salaries and wages;
  - (2) Advances, other than those authorized in 213.402;
  - (3) Cashing of checks or other negotiable instruments.

#### 213.405 Procedures.

(a) *Receipt of material.*  
 (1) All material purchased through the imprest fund shall be delivered to a designated receiving activity. The receiver shall examine the material to ascertain that the quantities and items described on the purchase request document and the supplier's sales document are present and in satisfactory condition. If the material is acceptable, the receiver shall stamp the supplier's sales document "Received and Accepted," date and sign the document, and pass it to the imprest fund cashier for payment. A supplier's sales document, a receipted Standard Form 1165 (Receipt for Cash—Subvoucher), DD Form 1155 (Order for Supplies or Services/Request for Quotations), or DD Form 1348-1 (DoD Single Line Item Release/Receipt Document) may be used to record the receipt of purchases made from the imprest fund.

(2) When it is not practicable to obtain delivery of material at destination on a c.o.d. basis, advance arrangement may be made for the material to be picked up. The imprest fund cashier may then advance cash to an authorized individual to pick up and pay for the material. Necessary certification of receipt and acceptance of material shall be obtained on one of the documents as indicated in (1) above. Receipt for cash payment (see (e) below) shall be made on the same document, which will serve as the imprest fund receipt.

(3) When prior arrangement for pick up of material is not practicable, the imprest fund cashier may advance cash to an authorized individual to make a proposed purchase.

(b) *Advance of funds.* Individuals receiving a cash advance from the imprest fund cashier shall be required to sign the "Interim Receipt for Cash" portion of Standard Form 1165, or an equivalent receipt form. After purchase has been made, the individual will return any unused cash to the imprest fund cashier with the necessary certifications of receipt, acceptance, and cash payment, at which time the imprest fund cashier shall "void" the interim receipt for cash. Cash so advanced should be accounted for daily, but under

unusual circumstances, cash may be advanced for longer periods.

(c) *Certification of cash payment.* The original receipt document (or a copy tendered as the original) presented to the imprest fund cashier for payment shall be stamped with a certification containing the following information:

- (1) Statement that cash payment was received in full.
- (2) Amount paid.
- (3) Date of payment.
- (4) Signature and title of supplier or supplier's agent receiving the cash payment.

Alterations or corrections to documents tendered for payment shall be initialed by the person making the change. Changes in the amount paid shall be initialed by the individual receiving payment.

(d) *Responsibilities of imprest fund cashier.*

(1) Pending receipt of material, the imprest fund cashier shall keep a file of purchase request documents covering imprest fund purchases. Prior to payment, or acceptance of the document tendered for settlement of an advance, the cashier shall verify the necessary certification of receipt and the supplier's billed price or the price paid. If the supplier's receipt for cash payment is not obtained for purchases of \$15 or less, the imprest fund cashier shall complete the cash receipt document and have the person receiving the fund sign this document. Receipt for U.S. parcel post c.o.d. charges should be obtained on Standard Form 1165. When receipt cannot be obtained for c.o.d. purchases, imprest fund cashiers located in foreign countries are authorized to certify on the receipt document, "Delivered by (name of post office or carrier) no receipt given." The c.o.d. label shall be removed from the parcel and affixed to the receipt document in support of the reimbursement voucher. Imprest fund cashiers at any location may accept a signed c.o.d. receipt to support the subvoucher if the carrier refuses to sign a Government form.

(2) After completion of the settlement transaction, each subvoucher shall be numbered consecutively and this number placed on the original of the paid receipt documents. These subvouchers will support the cashier's claim for reimbursement of the imprest fund. The imprest fund cashier will not request duplicate receipt documents, nor retain such documents if provided.

(3) When total charges stated on the sales document are paid, without deduction of discounts offered and earned, or without correction of minor billing errors, action will be taken to

obtain a refund from the supplier. Collection action may be waived for refunds of one dollar or less.

(e) *Payments.*

(1) *C.O.D.* Upon presentation of an authorized document with the necessary certification of receipt for supplies or services, the imprest fund cashier or other authorized individual shall pay the supplier or supplier's agent and obtain the certification of cash payment as set forth in 213.405(d)(1).

(2) *Receipt from common carrier or post office.* When C.O.D. shipments are received or picked up from a common carrier or post office, the certification of cash payment may be accomplished on a list of the packages provided by the post office or common carrier. Such receipt will be supported by copies of the applicable sales documents, if available.

(3) *Periodic payments.* When a blanket purchase agreement is not suitable and it is administratively convenient and agreeable to the supplier, periodic payments from the imprest fund may be made for supplies delivered on a repetitive basis, provided that the accumulated amount of the deliveries for the specified period does not exceed the dollar limitation imposed on the imprest fund method by FAR 13.404.

(4) *Failure to ship C.O.D.* When material is ordered C.O.D. but is shipped by the supplier subject to payment by check, Standard Form 1034 (Public Voucher for Purchases and Services Other than Personal), may be used to make payment. Under these circumstances, the receiver, shall prepare the necessary certification of receipt and forward the receipted document through the imprest fund cashier, for attachment of the supporting documents which authorized the shipment and submission to the disbursing officer for payment.

(f) *Reimbursement of imprest funds.*

(1) The imprest fund shall be reimbursed by use of Standard Form 1129 (Reimbursement Voucher) supported by cashier's subvouchers. The imprest fund cashier shall prepare and submit Standard Form 1129 in triplicate to the disbursing officer as frequently as necessary, but not less often than monthly. At the close of the fiscal year, a reimbursement voucher covering all remaining subvouchers through 30 September shall be submitted before the closing of the allotment accounts for the month. When required, subvouchers shall be summarized by account to complete the accounting classification block of Standard Form 1129 and submitted to the disbursing officer for

reimbursement of the imprest fund. One copy of Standard Form 1129 shall be retained by the imprest fund cashier pending the return of the "paid" copy of the form with the reimbursement checks or currency in the amounts requested by the cashier. When the imprest fund is reimbursed by mail, or when long delays in the reimbursement are encountered, the imprest fund cashier may retain copies of subvouchers until reimbursement is accomplished. When copies are retained, they shall be placed in a sealed envelope identified to the reimbursement voucher involved. When reimbursement is received, the sealed envelope will be presented to the official who signed the Administrative Certificate on the Standard Form 1129 for destruction.

(2) When a supplier refunds cash prior to the submission of Standard Form 1129 covering such payment, the imprest fund cashier shall accept the refund, return the money to the imprest fund, and enter the amount of the refund on the original of the supplier's receipt. When the refund is made subsequent to the submission of the applicable Standard Form 1129, the imprest fund cashier shall enter the amount of the refund on the retained copy of the reimbursement voucher, promptly submit the refund to the disbursing officer, and obtain a receipt.

(g) *Accounting.* Recordkeeping for the imprest fund shall be as simple as possible consistent with the maintenance of adequate controls. A file of supplier's receipts for amounts paid and not yet vouchered for reimbursement, and copies of paid reimbursement vouchers ordinarily will suffice for the record of the imprest fund cashier.

(h) *Review.* The imprest fund cashier shall be required to account for the established fund at any time, by cash on hand, paid supplier's receipts, unpaid reimbursement vouchers, and interim receipts for cash. Unannounced inspections, including cash counts are required to be made of each imprest fund at least quarterly by qualified individuals who are under the jurisdiction of the Comptroller or Chief Accounting Officer of the installation, where such positions exist, but in any case by individuals, excluding the disbursing officer advancing the funds and subordinates of the imprest fund cashier.

#### Subpart 213.5—Purchase Orders

##### 213.502 Unpriced purchase orders.

(c) Unpriced purchase orders may be issued by using DD Form 1155.

##### 213.503 Obtaining contractor acceptance and modifying purchase orders.

(b) Standard Form 30 shall be used to modify the purchase order for administrative or other changes.

(1) Modifications making administrative changes such as the correction of typographical errors, changes in paying office, and changes in accounting and appropriation data do not require contractor acceptance. In addition, the issuance of no cost Amended Shipping Instructions (ASIs) which modify unilateral purchase orders and which have been concurred in by the contractor by telephone or letter do not require contractor acceptance by signature on the Standard Form 30.

(2) To otherwise modify a purchase order prior to commencement of performance and within the scope of the original order, a unilateral modification may be issued on a Standard Form 30. The modification may not be unilaterally issued unless:

(i) The modification reflects the contractor's written or oral confirmation of the proposed revision(s). Unilateral modifications may include withdrawal of all or part of the original purchase order.

(ii) Block 13A. of the Standard Form 30 is annotated to reflect the issuance of an authorized unilateral modification.

(3) To otherwise modify the purchase order, and if not previously included in the purchase order, the Additional General Provisions (Clauses 16-19 of DD Form 1155r) shall be incorporated by reference in the Standard Form 30. Amendment of Solicitation/Modification of Contract, and the contractor's acceptance obtained by signature on the Standard Form 30. Subsequent changes pursuant to the Changes clause shall not require contractor acceptance. However, other modifications outside the scope of the Changes clause, such as the addition of the Government Property clause, shall require contractor acceptance by signature on the Standard Form 30.

##### 213.505 Purchase order and related forms.

##### 213.505-2 Agency order forms in lieu of optional Forms 347 and 348.

(S-70) Purchases of supplies, nonpersonal services and construction not in excess of \$25,000 may be effected by using DD Form 1155, Order for Supplies or Services/Request for Quotations, and its ancillary forms. (Optional Forms 347 and 348 are not authorized for use in the Department of Defense.)

(S-71) The DD Form 1155 provides for the arrangement of information in fixed locations, including sequential

numbering of all blocks, and within certain of these blocks, a code box for inserting alpha-numeric codes. The uniform arrangement of data and the provision for codes facilitates manual and automated processing of contractual documents and interchange of information between contracting offices and contract administration activities.

(S-72) *Forms.* The following forms may be used to issue purchase orders:

(1) DD Form 1155, Order for Supplies or Services/Request for Quotations, which, when used with DD Form 1155r in accordance with 213.505-2(S-73)(1), or with DD Form 1155r-1 in accordance with 213.505-2(S-73)(2), as appropriate, provides in one document—

(i) A purchase order, a blanket purchase agreement, a delivery order under a contract or delivery order on Government agencies outside the Department of Defense;

(ii) A receiving and inspection report;  
(iii) A property voucher;  
(iv) A public voucher; and  
(v) A document for acceptance by the supplier.

(2) Standard Form 36, Continuation Sheet, provides additional space, or a blank sheet of paper may be used.

(3) DD Form 1155c-1, Commissary Continuation Sheet, (for use on an optional basis), provides columns suited for commissary acquisitions.

(4) Standard Form 30, Amendment of Solicitation/Modification of Contract, shall be used in all modifications to DD Form 1155 (see 213.503).

(5) The foregoing forms may be used as snap-out manifold forms, as cut sheets, as reproducible masters, or automatically printed. In addition, DD Form 1155r or DD Form 1155r-1 may be printed on the reverse of DD Form 1155.

##### (S-73) Conditions for use.

(1) *Use as a purchase order of not more than \$25,000 in the United States, its possessions, and Puerto Rico.* The United States, when used in a geographical sense, means the States and the District of Columbia. Possessions, in a geographical sense, include the Virgin Islands, the Swan Islands, Guantanamo Bay, Johnston Island, American Samoa, Guam, Wake Island, Midway Island, and the Guano Islands, but do not include Puerto Rico, leased bases, or trust territories. Definitions of the United States, in a contractual sense, vary according to individual laws, orders or regulations. DD Form 1155 is authorized for negotiated purchases of not more than \$25,000 within the United States, its possessions, and Puerto Rico, provided,

(i) The acquisition is unclassified, except that DD Form 1155 may be used for classified acquisition if:

(A) The Security Requirements clause in FAR 52.204-2 is inserted in the schedule.

(B) DD Form 254, Contract Security Classification Specification, (see FAR 4.403(c) and FAR 53.204-1) is incorporated in the purchase order.

(C) The contractor's acceptance of the purchase order is obtained by use of DD Form 1155r at the time of issuance of the order.

(ii) No clause covering the subject matter of any clause set forth in this supplement, other than clauses on DD Form 1155r and clauses referred to in this paragraph (213.505-2(S-73)(1)) and in FAR 13.502, Unpriced Purchase Order, FAR 13.503, Obtaining Contractor Acceptance and Modifying the Purchase Order, FAR 46.301, Contractor Inspection Requirements, FAR 46.302, Standard Inspection Requirements, and FAR 46.504, Certificate of Conformance, is to be used.

(iii) When the order specifies the delivery of data, one of the clauses in 252.227, Rights in Technical Data and Computer Software, shall be used as appropriate in accordance with the instructions contained in 227.4.

(iv) When required by FAR 25.7, the clause, Certain Communist Areas, in FAR 52.225-11 shall be used.

(v) When required by FAR 12.4, the clause in FAR 52.212-9, Variation in Quantity, shall be used.

(vi) When required by 232.111 the clause in 252.232-7000, Invoices, shall be used.

(vii) When the order is assigned to other than the purchasing office for administration, or if otherwise desired by the purchasing office, the clause, Material Inspection and Receiving Report in 252.246-7000, shall be used.

(viii) When Government property having an acquisition cost in excess of \$50,000 is to be furnished (for use in performance of an order or for repair), the appropriate Government Property clause or clauses in FAR 52.245-1, 2, 3, or 19 shall be inserted in the Schedule.

When Government property having an acquisition cost not in excess of \$50,000 is to be furnished for use in performance of the order or for repair, the Government-Furnished Property (Short Form) clause in FAR 52.245-4 shall be inserted in the Schedule, provided that use of the clause shall be optional when the acquisition cost of property furnished for repair is not in excess of \$10,000. When a Government Property clause is inserted in the Schedule, the contractor's signature shall be obtained on the DD Form 1155r.

(ix) When the order is for Military Assistance Program items, the United States Products Certificate (Military Assistance Program), at 252.225-7015, and the clause, United States Products (Military Assistance Program), in 252.225-7016, shall be inserted in the Schedule, and Clause 6, Foreign Supplies, of the General Provisions shall be deleted. In addition, the contractor's signature shall be obtained on DD Form 1155r.

(x) When required by 217.7204(b), the clause Identification of Sources of Supply at 252.217-7270 shall be used.

(xi) The clauses, New Material, (FAR 52.210-5) and Used, Reconditioned, Residual Inventory and Former Government Surplus Property (FAR 52.210-6 and 7), may be used in accordance with the provisions of FAR 10.010 and FAR 10.011.

(xii) When the order is for mortuary services:

(A) The following clauses shall be inserted in the Schedule:

(1) The Specifications clause in 252.237-7104;

(2) The Delivery and Performance clause in 252.237-7107;

(3) The Subcontracting clause in 252.237-7108;

(4) The Professional Requirements clause in 252.237-7111;

(5) The Facility Requirements clause in 252.237-7112;

(6) The Preparation History clause in 252.237-7113;

(7) The Inspection of Services clause in FAR 52.246-4.

(B) The Additional Default Provision clause in 252.237-7109 shall be inserted in the Schedule, with the following substitutions for paragraph (a) and the first sentence of paragraph (b) of that clause:

(a) This clause supplements the "Termination for Default" clause of this contract.

(b) This contract may be terminated for default by written notice if during the performance of this contract:

(C) The Changes clause in FAR 52.243-1 shall be substituted for paragraph 16 of the Additional General Provisions on DD Form 1155r.

(xiii) [Reserved]

(xiv) When required by 225.70, the clauses 252.225-7009, Preference for Certain Domestic Commodities, 252.225-7011, Preference for Domestic Specialty Metals (Major Programs), and 252.225-7012, Preference for Domestic Specialty Metals, shall be added.

(xv) When required by FAR 22.10, the clause, Service Contract Act of 1965, at FAR 52.222-41 for service contracts in excess of \$2,500, or FAR 52.222-40 for

service contracts not in excess of \$2,500, shall be added.

(xvi) When required by FAR 47.305-6, the clause, Clearance and Documentation Requirements—Shipments to DoD Air or Water Terminal Transportation Points at FAR 52.247-52 shall be added.

(xvii) In accordance with FAR 46.805, the clause in FAR 52.246-23, Limitation of Liability, or FAR 52.246-25, Limitation of Liability—Services, may be inserted.

(xviii) When the order requires the use of a Government bill of lading or mailing indicia, the clause, FOB Origin—Government Bills of Lading or Prepaid Postage, at FAR 52.242-10 or FOB Origin—Government Bills of Lading or Indicia Mail, at FAR 52.242-11, shall be added.

(xix) [Reserved]

(xx) [Reserved]

(xxi) At the contracting officer's discretion, the clause, Duty-Free Entry—Qualifying Country End Products and Supplies, at 252.225-7008 may be used (see 225.605(a)(S-70)).

(xxii) When required by FAR 22.305, the Contract Work Hours and Safety Standards Act—Overtime Compensation—General, clause in FAR 52.222-4 shall be added.

(xxiii) [Reserved]

(xxiv) [Reserved]

(xxv) When required by FAR 19.508(c), the Notice of Total Small Business Set-Aside clause in FAR 52.219.6 shall be added.

(xxvi) [Reserved]

(xxvii) When required by FAR 47.305-4, the clause, FOB Destination, in FAR 52.247-34, and the clause, FOB Destination—Evidence of Shipments, in FAR 52.247-48, shall be added.

(xxviii) When required by 208.7303, the clause, Required Sources for Miniature and Instrument Ball Bearings, in 252.208-7000 shall be added.

(xxix) When required by 208.7403, the clause, Required Sources for Precision Components for Mechanical Time Devices, in 252.208-7001 shall be added.

(xxx) In accordance with 225.7312, all orders for the purchase of goods or services for Military Assistance Program (MAP), International Military Educational Training (IMET) and Foreign Military Sales (FMS) shall include the clause, Exclusionary Policies and Practices of Foreign Governments, in 252.225-7019.

(xxxi) As required by FAR 22.1408, insert the clause, Affirmative Action for Handicapped Workers, in FAR 52.222-36.

(xxxii) If the order is to involve materials of a hazardous nature, include the clause, Hazardous Material

Identification and Material Safety Data, in FAR 52.223-3, as prescribed in FAR 23.303.

(xxxiii) When the order involves the purchase of gas in contractor-furnished returnable cylinders and the contractor retains title to the cylinders, the clause in 252.213-7001, Returnable Gas Cylinders, shall be added. A similar clause may also be used in orders for other supplies involving reels, spools, drums, carboys, liquid petroleum gas containers, or other returnable containers, when the contractor is to retain title to the containers.

(xxxiv) In orders, except those exempted by FAR 22.807 (a) or (b)(2)(4), insert the Equal Opportunity clause in FAR 52.222-26.

(xxxv) When the purchase order includes FMS requirements, clearly indicate "FMS Requirement" on its face and specify within the order each FMS case identifier code by line/subline item number, e.g., FMS Case Identifier GY-D-DCA.

(xxxvi) The clause, Delivery of Excess Quantities of \$100 or Less, in FAR 52.212-10, may be used in accordance with instructions at FAR 12.403(b).

(xxxvii) For orders requiring payment in Canadian currency, the contract price shall be quoted in terms of Canadian dollars and shall be identified by the initials CN; e.g., \$1,647.23CN. The contract shall clearly indicate on its face the US/Canadian conversion rate in effect at the time of award and the US dollar equivalent of the Canadian dollar contract amount.

(xxxviii) The Walsh-Healey Public Contracts Act clause in FAR 52.222-20 shall be used in each order for supplies that exceeds \$10,000 and is otherwise subject to the Act, in accordance with FAR 22.603.

(xxxix) Unless excepted under FAR 22.1302 or FAR 22.1308, the clause in FAR 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, shall be in all orders of \$10,000 or more.

(xl) The clause, Utilization of Small Business and Small Disadvantaged Business Concerns, in FAR 52.219-8 shall be in all orders exceeding \$10,000 except those which will be performed entirely outside the United States, the District of Columbia, or the Commonwealth of Puerto Rico, or for orders which are for services personal in nature.

(xli) [Reserved]

(xlii) The clause, Affirmative Action Compliance Requirements for Construction, in FAR 52.222-27 shall be inserted in orders exceeding \$10,000 in accordance with FAR 22.810, unless excepted under FAR 22.807.

(xliii) The Equal Opportunity clause in FAR 52.222-26 shall be included in architect-engineering contracts and is applicable to contractors who have been or are awarded Federal contracts and/or subcontracts which have an aggregate value in excess of \$10,000. The clause is also applicable unless exempted under the rules, regulations and relevant orders of the Secretary of Labor (41 CFR, Ch. 60).

(xliv) Unless exempted by FAR 22.810, the clause, Certification of Nonsegregated Facilities, FAR 52.222-21 shall be inserted in orders exceeding \$10,000 and is applicable to orders, subcontracts and agreements with applicants who are themselves performing Federally assisted construction contracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity clause.

(xlv) In accordance with FAR 22.810, the clause, Previous Contracts and Compliance Reports, in FAR 52.222-22 shall be inserted in all contracts that exceed \$10,000.

(xlvi) Except for construction orders, the clause, Affirmative Action Compliance, in FAR 52.222-25 shall be inserted in all contracts that include the Equal Opportunity clause, in accordance with FAR 22.810.

(xlvii) Unless exempted by FAR 22.807, the clause, Notification of Visa Denial, FAR 52.222-29, shall be included in all orders to be performed in or on behalf of a foreign country.

(xlviii) In accordance with FAR 22.810, insert the clause, Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity, in FAR 52.222-23, in applicable solicitations involving construction in excess of \$10,000. Follow the provision's parenthetical instructions for inserting the applicable construction trade(s), percentage goals, and geographical description of the covered area.

(xlix) In accordance with FAR 19.508(a), insert the clause, Notice of Small Business-Small Purchase Set-Aside, in FAR 52.219-4, in all requests for quotations and purchase orders of \$10,000 or less, which are subject to small purchase procedures, unless excepted under FAR 13.105.

(1) In accordance with FAR 14.407-3, insert the provision at 252.214-7000, Discounts.

(li) When acquiring qualified products, the terms and conditions at FAR 52.209-1, Qualified Products—End Items, and FAR 52.209-2, Qualified Products—Components of End Items, shall be used.

(lii) When first Article Approval is required, either the clause at 252.209-3, First Article Approval—Contractor

Testing, or 252.209-4, First Article Approval—Government Testing, shall be used in accordance with the instructions at FAR 9.308-1(a) or 9.303-2(s). When either clause is used the contractor's signature shall be obtained on DD Form 1155r.

(2) Use as a purchase order of not more than \$25,000 outside the United States, its possessions, and Puerto Rico, DD Form 1155 and 1155r-1, with executed contractor's acceptance when required, are authorized for negotiated purchases of not more than \$25,000 when such purchases are for supplies and services acquired and used outside the United States, its possessions, and Puerto Rico, provided:

(i) The acquisition is unclassified.  
(ii) No clauses covering the subject matter of any clause set forth in this Regulation, other than clauses set forth in DD Form 1155r-1, are to be used, except that—

(A) The Disputes clause at FAR 52.233-1 is inserted in the Schedule unless the contract is exempt pursuant to FAR 33.003.

(B) When the order is translated into another language, the Schedule shall contain the provision in 252.213-7000, Inconsistency Between English Version and Translation of Contract.

(C) When Government property having acquisition cost in excess of \$50,000 is to be furnished (for use in performance of an order or for repair), the Government Property clause in FAR 52.245-2 shall be inserted in the Schedule in accordance with instruction in FAR 45.106. When Government property having an acquisition cost not in excess of \$50,000 is to be furnished for use in performance of the order or for repair, the Government-Furnished Property (Short Form) clause in FAR 52.245-4 shall be inserted in the Schedule in accordance with instructions in that paragraph, provided that use of the clause shall be optional when the acquisition cost of property furnished for repair is not in excess of \$10,000. When a Government Property clause is inserted in the Schedule, the contractor's signature shall be obtained on DD Form 1155r-1.

(D) A commercial warranty clause may be used in accordance with FAR 46.706.

(E) When required by 225.70 the clauses in 252.225-7009, Preference for Certain Domestic Commodities; or 252.225-7011, Preference for Domestic Specialty Metals (Major Programs); or 252.225-7012, Preference for Domestic Specialty Metals, shall be added. In purchases in excess of \$2,500, the clause, Certain Communist Areas, in

FAR 52.225-11 shall be inserted in the Schedule when acceptance of supplies, services, or construction is to take place outside the United States, its possessions or Puerto Rico. FAR 25.603 provides that supplies from the Communist areas of North Korea, Vietnam or Cuba may be acquired only in unusual situations; for example, in an emergency or when supplies are not available from any other source and a substitute supply is not acceptable. In such situations, the contracting officer shall determine for small purchases that there is need for an exception in accordance with Departmental procedures.

(F) The clause, Delivery of Excess Quantities of \$100 or Less, in FAR 52.212-10 may be used in accordance with instructions at FAR 12.403(b).

(G) Unless exempted by FAR 22.807, the clause, Notification of Visa Denial, at FAR 52.222-29, shall be included in all orders to be performed in or on behalf of a foreign country.

(H) In accordance with FAR 25.302, the statement in 52.225-7004 to provide reporting of the balance of payments consequences of Defense acquisition, will be placed on the face of applicable purchase orders.

(I) The contracting officer may delete the Taxes clause from the DD Form 1155r-1 in purchases under \$1,000 if the contracting officer determines that the administrative burden of securing relief from such taxes would be out of proportion to the relief obtained, provided, that such clause shall be included in all orders in support of NATO infrastructure programs involving the expenditures of funds under section 503(b) of the Foreign Military Sales Act of 1968 (see FAR 29.402 on use of foreign taxes clauses).

#### 213.505-3 Standard Form 44, Purchase Order—Invoice—Voucher.

(b)(1) The \$2,500 limitation applies to all purchases except for aviation fuel and oil purchases which will not exceed \$10,000.

#### 213.505-70 Instructions for entries on DD Form 1155 and Standard Form 36.

(a) The instructions herein are mandatory for the preparation of orders if administration is assigned: (1) To DCAS, or (2) to a non DCAS office listed in the DoD Directory of Contract Administration Services Components and the contractor is located in the continental United States or Canada.

(b) The organizational entity codes (address codes) referenced throughout Part 13 are as follows:

(1) Codes published in DoD Activity Address Directory (DODAAD), DoD 4000.25D. These codes will be used for Government entities in Blocks 6, 7, 9, 14, 15, and 19. However, the "Ship To" (Block 14) and "Ship To"/"Mark For" (Block 19 (viii) and (xi)) shall use a DODAAD code for non-Government entities for shipments to satisfy MILSTRIP requisitions for that non-Government entity. Foreign Military Sales (FMS) and Military Assistance Program (MAP), "Ship To"/"Mark For" (Block 14) shall use a Military Assistance Program Address Directory (MAPAD) code (MAPAC and TAC) in accordance with DoD 5105.38-D.

(2) Codes published in Handbook of Non-Government Organizations for MILSCAP H8-1/H8-2 Handbooks. These codes will be used for non-Government entities in Blocks, 9, 14, and 19, except for the condition as noted in (1) above.

(c) The right hand columns designate by alpha code the activities responsible for completing certain blocks on the DD Form 1155. The legend is "C" for contractor, "P" for purchasing office, and "—" for not applicable.

#### TITLE AND INSTRUCTIONS FOR ENTRIES

Block No.	Applicable to—		
	RFO	PO	DO
1 Contract/Purchase Order Number—Enter the Procurement Instrument Identification (PII) number and, when applicable, the supplementary identification number for contracts and purchase orders as prescribed in 204.70.	—	P	P
2 Delivery Order Number—Enter PII number for delivery orders as prescribed in 204.70.	—	—	P
3 Date of Order—Enter the date of the order, i.e., 2 position numeric year, 3 position alpha month and 2 position numeric day. For example: 84 Sep 30.	—	P	P
4 Requisition/Purchase Request Number—Enter the applicable number authorizing the purchase. When the number differs by line item it will be listed in the schedule and this block annotated "see schedule".	P	P	P
5 Certified for National Defense Under DMS Reg 1—Enter the appropriate claimant program number as defined in Volume I, Section III of the DoD Procurement Coding Manual.	—	P	P
6 Issued By—Insert the name and address of the issuing office. In the Code Block, insert the appropriate DODAAD code for the issuing office. Directly below the address insert: Buyer/Symbol, followed by the appropriate buyer's name and routing symbol. Directly below the Buyer/Symbol insert: Phone: followed by the buyer's phone number and extension.	P	P	P
7 Administered by—Enter the name and address of the DCAS or military activity responsible for administration service. The "DoD Directory of Contract Administration Services Components" No. 4105.59H contains the complete listing of activities performing contract administration services. On purchase orders retained by purchasing offices for administration this block may be marked "see block 6." Enter in the code block the organizational entity code (address code) of the administration services office. In the lower right or left-hand corner, insert Criticality Designator code (see FAR 42.1105).	—	P	P
8 Delivery FOB—Indicate the FOB point by checking the applicable box.	P	P	P
9 Contractor/Quoter—(i) Enter the full business name and address of the contractor or quoter. Enter in the first code block the organizational entity code (address code) of the contractor. (ii) If it is known that all the work covered by the order is to be performed at an address different from the address represented by the contractor's code, and any contract administration function will be required at that facility, enter in the facility code block the appropriate address code for that facility, i.e., H8-1/H8-2 code for a nongovernment entity or DODAAD code for a government entity. (DODAAD codes shall be used only to indicate "performed at" locations for orders specifying services at a government location.) If it is known that multiple facilities are involved, i.e., when the work covered by the order is performed both at the contractor's address and one or more other facilities, or when all the work is to be performed at two or more facilities other than the contractor's address, indicate the codes for all facilities at which work is to be performed, including the contractor's code if work is performed at that address, in the Standard Form 36 Continuation Sheet and mark the facility code block with "See Schedule." For orders specifying services which will be performed at locations other than the contractor's address, the locations shall be indicated as required above.	P	P	P
10 Delivery to FOB Point by—If a single date of delivery is applicable to the entire order, it shall be entered in this block. Multiple delivery dates will be listed in the schedule and this block annotated "See Schedule".	P	P	P
11 Small Business—Check if the contractor/quoter is a small business concern as defined in FAR 19.	C	P	P
Small Disadvantaged Business—Check if the contractor/quoter is a small disadvantaged business concern as defined in FAR 52.219-2.	C	P	P
12 Discount Terms—Enter the discount for prompt payment in terms of percentages and corresponding days allowed. The percentages will be expressed in whole numbers and decimals. For example: 3.25%—10 days, 0.50%—20 days.	C	P	—
13 Mail Invoices to—Enter a reference to the block number containing the appropriate address to which invoices are to be mailed. When not contained in blocks 6, 7, 14 or 15, insert in block 13 "See Schedule".	—	P	P
14 Ship To—If a single ship-to point is applicable to the entire order, the name and address of that point may be entered in this block. Multiple ship-to points will be shown in the schedule and this block annotated "See Schedule".	P	P	P
15 Payment Will be Made by—Enter the name and address of the activity making payment. For purchase orders assigned to DCAS, see the DoD Directory of Contract Administration Services Components No. 4105.59H for the DCAS Regional Office authorized to make payment. Enter in code block, the organizational entity code (address code) of the paying activity.	—	P	P
16 Type of Order—Indicate by checking the appropriate box whether order is a purchase or delivery order. If a purchase order, further entries are made as follows:	—	P	P

## TITLE AND INSTRUCTIONS FOR ENTRIES—Continued

	Block No.	Applicable to—		
		RFQ	PO	DO
	(i) Identify the type of quotation, i.e., oral, letter or TWX on which the order is based.			
	(ii) When the Fast Payment procedure is applicable, indicate by checking the appropriate box.			
	(iii) Check the box when acceptance of the purchase order by the Contractor is desired and indicate the number of copies of the order to be returned to the issuing office.			
17	Accounting and Appropriation Data—Enter the accounting classification applicable to the order. Enter the Accounting Classification Reference Number(s) in accordance with 204.71.	—	P	P
18	Item Number—Enter an item number for each item of supply or service separately identified in accordance with 204.71.	P	P	P
19	Schedule of Supplies/Services—The Schedule contains several elements of data. In order to accomplish standardization objectives, it will be necessary to treat and enter separately certain elements of data as indicated below. Though the order and arrangement of data in the schedule is only mandatory for purchase and delivery orders assigned to DCAS or Plant Cognizance Representatives for administration, it is encouraged, in order to establish uniformity, that this format be adopted for all orders.	P	P	P
	(i) National Stock Number (NSN)—Total Item Quantity for the line or subtitle item number followed by the appropriate National Stock Number or the word "none" if an NSN has not been assigned. On the same line and adjacent to NSN, enter the words "Total Item Quantity." This phrase is used in conjunction with the total quantity, unit of issue unit price, and dollar amount of the stock number or item cited (see entries for blocks 20, 21, 22 and 23).	P	P	P
	(ii) Item Identification—Enter first the most descriptive noun or verb of the supplies or services to be furnished, supplemented by additional description as prescribed in FAR 10. If multiple accounting classifications apply to the contract, enter the Accounting Classification Reference Number in accordance with 204.71.	P	P	P
	(iii) Quantity Variance—Enter the quantity variance permitted for the line item in terms of percentages, indicating whether the percentage is plus or minus and if applicable to each destination.	P	P	P
	(iv) Inspection/Acceptance—Enter the point at which inspection/acceptance will take place.	P	P	P
	(v) Preservation and Packaging—Enter the preservation and packaging requirements for the item described. These requirements may be expressed in terms of MIL-STD728 codes or reference to applicable specifications. 1st Example: MIL STD 726 PRES/PACK: B/10/1/00/2/10/c/00/21/3/22/4/3/2/00. 2nd Example: Preservation and packaging shall be in accordance with instructions below. DGSP P-54 in lieu of level "c" requirement.	P	P	P
	(vi) Packing—When required, enter the packing level designator and specification, standard, or document in which the requirements are stated or state the specific requirements. 1st Example: Packing. Preserved and packaged items shall be packed Level (A, B, or C depending on destination) in accordance with MIL-STD 794. 2nd Example: Packing. Preserved and packaged items shall be packed level (A, B, or C) in accordance with DESC Manual 4100.1.	P	P	P
	(vii) Utilization—When desired by the requiring activity, a requirement for cargo utilization for a particular destination should be specified for shipments involving two or more shipping containers having an aggregate total of not less than 20 cubic feet or 200 pounds. Example 1: Items packed for shipment shall be utilized in accordance with MIL-STD-147. Example 2: Nonperishable subsistence, packed as specified shall be utilized in accordance with MIL-L-35078C Type (I or II) Class (A through F for Type I, A through D for Type II). Supplemental waterproofing requirements of Appendix II (are/are not) applicable.	P	P	P
	(viii) Ship to—Enter the organizational entity code (address code) of the ship to point on the first line and the corresponding name and address on succeeding lines. If multiple accounting classifications apply to the same line or subtitle item, enter the Accounting Classification Reference Number in accordance with 204.71. When several items are to be shipped to the same point, the code will be listed; but it will not be necessary to repeat the clear text address.	P	P	P
	(ix) Delivery Date—When multiple delivery dates apply, enter the required date of delivery on the same line with Ship to Code.	P	P	P
	(x) Mark For—Enter the organizational entity code (address code) on the first line and name and address of the ultimate recipient of the supplies and services on succeeding lines.	P	P	P
20	Quantity Ordered/Accepted—Enter the total quantity ordered for the line item. If applicable, enter the breakdown on quantities for each ship to point within the line item.	P	P	P
21	Unit—Enter the unit of measure applicable to the line items described.	P	P	P
22	Unit Price—Enter the unit price applicable to the line item described.	—	P	P
23	Amount—Enter the extended dollar amount (quantity x unit price) for each line item.	—	P	P
24	Contracting/Ordering Officer—The contracting/ordering officer's signature will be entered in this block.	—	P	P
25	Total Amount—Enter the total dollar amount for all line items on the order.	—	P	P
42	These blocks are utilized in the receiving and payment functions. Procedures for making entries are prescribed by the respective departments.	—	P	P

**213.505-71 Use of DD Form 1155 as a public voucher.**

DD Form 1155 is authorized for use as a public voucher:

- (a) Not exceeding \$25,000 when the form is used as a purchase order,
- (b) Without monetary limitation when the form is used as a delivery order, and
- (c) Without monetary limitation as the basis for payment of an invoice against blanket purchase agreements, or basic ordering agreements when a firm price has been established.

**PART 214—SEALED BIDDING**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 214.2—Solicitation of Bids****214.201 Preparation of invitation for bids.**

Reserved, pending determination to what extent guidance may be necessary.

**214.202 General rules for solicitation of bids.****214.202-1 Bidding time.**

(a) *Policy.* For potential sources in participating countries, see 225.7403(a); for sources in FMS/offset arrangement countries, see 225.7310(c)(2); and for sources in defense cooperation countries, see 225.7502.

**214.202-5 Descriptive literature.**

(b) *Policy.* It may be appropriate to require descriptive literature in the acquisition of highly technical or specialized equipment, where considerations such as design or style are important in determining acceptability of the product.

(d) *Requirements of invitation for bids.* When brand name or equal purchase descriptions are used, the requirements of FAR 14.202-5 are met by inserting in the invitation for bids the brand names provision at 252.210-7000.

**214.205 Solicitation mailing lists.****214.205-1 Establishment of lists.**

(a) For special instructions relative to the establishment of a Research and Development Bidders Mailing List, see Supplement No. 4, "Procedures for Submission of Applications to be Placed on Research and Development Bidders Mailing Lists."

**214.207 Pre-bid conference.**

A pre-bid conference may be used only when approved at a level higher than the contracting officer. All interested parties, including representatives from qualifying country sources, shall be invited to the pre-bid conference. (See 225.7403(a), 225.7310(c)(2), and 225.7502.)

**214.208 Amendment of invitation for bids.**

(a) Pen and ink entries, deletions, or alterations shall not be made in an invitation for bids after it has been reproduced for issue to prospective

bidders. Any changes required to the IFB shall be made by Standard Form 30.

#### 214.270 Master solicitation.

A master solicitation is a document containing the text of special provisions which have been identified as being essential for carrying out the peculiar needs of a specific commodity assignment to a single contracting activity within DoD. The document is prepositioned with potential sources who are requested to retain them for continued and repetitive use. The purpose of this technique is to simplify solicitation and award documents, to reduce the size of solicitations and awards, and concurrently to achieve time and dollar savings for both the Government and industry. The master solicitation technique involves two separate phases, the issuance of the master solicitation and the issuance of the individual solicitation/award. In addition, use of this technique to meet such peculiar requirements shall be subject to the following criteria:

(a) The master solicitation shall not be used unless repetitive purchases are anticipated.

(b) The master solicitation shall not include nonessential or infrequently used provisions.

(c) The master solicitation shall consist primarily of those locally developed provisions relating to instructions and procedures requiring repetitive use that cannot otherwise be avoided through use of FAR or DoD FAR Supplement clauses. The master solicitation may include FAR Part 52 clauses and DoD FAR Supplement clauses.

(d) Copies of a master solicitation shall be made available upon request.

(e) Each individual solicitation shall reference the date of the current master solicitation and any changes thereto. Significant revisions or a significant number of revisions should result in a reissuance of the entire master solicitation.

(f) Copies of contracts furnished to the contract administration activity must be complete and shall include a copy of the master solicitation unless prior arrangements have been made.

(g) The use of this technique shall be limited to those situations where it is clearly demonstrable that a substantial reduction of paperwork and simplification of the contracting process will result. Approval by the Head of the Contracting Activity is required.

#### Subpart 214.4—Opening of Bids and Award of Contract

##### 214.404 Rejection of bids.

###### 214.404-1 Cancellation of invitations after opening.

(c) Unless otherwise specified in agency procedures, the contracting officer shall make the written determination.

(e) Unless otherwise specified in agency procedures, the contracting officer shall make the written determination.

##### 214.406 Mistakes in bids.

###### 214.406-3 Other mistakes disclosed before award.

(e)(1) Authority for making a determination under FAR 14.406-3(a), (b), and (d) may be delegated, without power of redelegation, as follows:

(i) Department of the Army: To the Deputy Assistant Secretary (Acquisition), Office of the Assistant Secretary of the Army (Research, Development and Acquisition); General Counsel of the U.S. Army Materiel Command; General Counsel of the Office of the Chief of Engineers; Chief, Contract Law Division, Office of The Judge Advocate General, Headquarters, Department of the Army.

(ii) Department of the Navy: To the Assistant Commander for Contracts, Naval Facilities Engineering Command Headquarters; the Deputy Commander Purchasing, Naval Supply Systems Command Headquarters.

(iii) Department of the Air Force: To the Staff Judge Advocate, Headquarters, Air Force Logistics Command.

(iv) Defense Logistics Agency: The General Counsel and Assistant General Counsel.

(v) National Security Agency: Director of Procurement.

(vi) Defense Communications Agency: The General Counsel.

(vii) Defense Nuclear Agency: The General Counsel.

(viii) Defense Mapping Agency: The General Counsel.

(e)(2) Authority to elect not to correct a bid but to allow withdrawal when clear and convincing evidence establishes only the existence of the mistake may be delegated, without power of redelegation, to any contracting activity or office having legal counsel available. Any case involving evidence that is less than clear and convincing shall be processed under FAR 14.406-3(d) and paragraph (1) above.

(g)(3)(iv) Supporting evidence (such as work sheets, or other data used in preparing the bid) of the existence of the

mistake and manner in which it occurred, and supporting evidence of the bid actually intended, shall be submitted with the bidder's written request.

(h) A signed copy of the administrative determination authorizing modification of the bid made in accordance with FAR 14.406-3 shall accompany the appropriate finance center copy of the contract award.

##### 214.407 Award.

###### 214.407-1 General.

(c)(3) When two or more awards are made to a single bidder on an invitation, the copy of the successful bid marked "original" will be attached to the appropriate finance center copy and a copy marked "duplicate" will be attached to the retained office copy of the first award issued. Succeeding awards will be inscribed to indicate the number of the award to which the original and duplicate bids are attached. This is necessary for legal review and auditing by the General Accounting Office.

###### 214.407-3 Prompt payment discounts.

If the acquisition is one regarding which bidders may offer prompt payment discounts, the Discounts provision in 252.214-7000 shall be included in the solicitation.

###### 214.407-6 Equal low bids.

(b) When award is to be made by drawing by lot and the information available shows that the product of a particular manufacturer has been offered by more than one bidder, a preliminary drawing by lot shall be made to ascertain which of the bidders offering the product of a particular manufacturer will be included in the final drawing to determine the award.

##### 214.408 Information to bidders.

###### 214.408-2 Award of classified contracts.

Disposition action shall be taken in accordance with the Industrial Security Manual (DoD 5220.22-M).

#### Subpart 214.5—Two-Step Sealed Bidding

##### 214.503 Procedures.

###### 214.503-1 Step one.

(a) Requests for technical proposals may be in the form of a letter.

(1) The written notification to offerors required by FAR 14.503-1(i) shall advise offerors of the discontinuance of two-step sealed bidding and the reason therefor.

**214.503-2 Step two.**

(a)(3) The statement required by FAR 14.503-2(a)(3) should be set forth in the item description by a provision substantially in the form of the following example:

Radio Antenna, in accordance with Exhibit No. \_\_\_\_\_ dated \_\_\_\_\_ (use other description of specifications as appropriate), and your Technical Proposal \_\_\_\_\_ (insert specific identification of the bidder's proposal, including any revision thereof as finally accepted), incorporated herein by reference. Nothing contained in said Technical Proposal shall constitute a waiver of any of the provisions of said Exhibit (or specifications).

**PART 215—CONTRACTING BY NEGOTIATION**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 215.1—General Requirements for Negotiation****215.103 Converting from sealed bidding to negotiation procedures.**

Unless otherwise specified in agency procedures, the contracting officer shall make the written determination.

**215.170 Negotiation of initial production contracts for technical or specialized military supplies.**

(a) The production of important new technical or specialized military supplies generally involves development, evaluation, and initial production phases. Examples of such supplies are tanks, radar, guided missiles, aircraft, rockets, and equipment of similar complexity; major components of such equipment as the foregoing; and any items of technical or specialized nature necessary for the use, maintenance or operation of such equipment. Contracting officers shall avoid, wherever practicable, awarding initial production contracts for supplies until completion of the development and evaluation phases. At the time of placing the initial production contract, it is essential that the Government be completely free to select the contractor as the best interest of the Government may dictate. In the placement and administration of research or development contracts, no commitments shall be made to contractors with respect to obtaining subsequent production contracts. Acquisition of initial production quantity of an item shall not be initiated until the item has been approved for service use unless prior approval has been obtained. When justified by special circumstances, acquisition of production quantities in advance of approval for service use may

be authorized for the Departments of the Army and Air Force by Heads of the Contracting Activity, and for the Department of the Navy by the appropriate authority set forth in SECNAV Instructions 3900.30 and 3960.2.

(b) In connection with the foregoing, when consistent with FAR 6.302-1(b)(2), it may be in the best interest of the Government that the initial production contract for technical and specialized supplies be placed with the contractor responsible for the development of the design for such supplies. Accordingly, it is essential that, in placing such initial production contracts, an analysis be made of the importance to be attached to the following considerations:

(1) Extensive preliminary research and development work which can be put to most effective use in production by the research and development contractor for any of the following reasons:

(i) A need for adaptation of the newly developed equipment for quantity manufacture, and for introduction of advanced production methods, together with a significant interrelationship between the design engineering and production engineering, which will yield best results from the standpoint of performance, reliability, and producibility; or

(ii) The substantial time and money which would be required for another contractor to indoctrinate and train engineering staff in the specialized techniques or novel design concepts which have been employed, thereby adding to production lead time.

(2) Continuing improvement of the equipment, concurrent with production which can be most effectively accomplished by a single contractor because of the advantages of unified responsibility and close coordination of improved design features with production processes and equipment.

(3) Substantial time and effort which have been already expended by the development contractor in developing a prototype.

(4) The advantages to be gained through obtaining production drawings, e.g., detailed manufacturing, process, and assembly drawings, with rights to use for acquisition purposes at the earliest possible date for competitive procurement purposes by placing production engineering contracts and the first production contract with the developer (see (d) below).

(c) When it is in the Government's interest to award the initial production contract to the development contractor, price alone should not be allowed to dictate an award elsewhere unless a fair

and reasonable price cannot be negotiated with the development contractor, or unless the price advantage in award to another supplier is so substantial as to outweigh the other factors involved. This paragraph 15.170 is not to be construed to require or to prevent competitive pricing. Initial production contracts shall not be awarded to development contractors who do not have fully adequate and available financial, technical and production resources.

(d) The number of items to be acquired under an initial production contract will be established only after considering all pertinent factors, including the practical minimum quantity suitable to permit the development of the production design and a data package adequate to establish competitive acquisition of the item at the earliest practicable date.

(e) To the extent practicable, the initial production contract should also provide for the furnishing of an initial supply of special testing equipment, special tools, demonstration sets, and manuals required for operation, maintenance and training.

**215.171 Abstract of offers.**

The abstract of offers required by FAR 4.803(a)(10) shall be prepared on Abstract of Offers (SF Form 1409) or Abstract of Offers—Construction (SF Form 1419) appropriately modified (see FAR 53.2) to include all the information necessary for evaluation (but see FAR 15.413 and FAR 15.610). These forms need not be used in the case of acquisition from a single source of supply, for research and development, for the chartering of vessels by the Military Sealift Command, for the acquisition of coal and petroleum products by the Defense Fuel Supply Center, or for perishable subsistence items by the Defense Personnel Support Center.

**Subpart 215.4—Solicitation and Receipt of Proposals and Quotations****215.402 General.**

(f) Examples of circumstances under which an oral solicitation may be used include those listed in 206.302-2. However, oral solicitation is not to be considered justified solely because a high issue Priority Designator has been assigned to the requirement. Should the issuance of a resulting contractual instrument be unduly delayed, following oral solicitation, the contract file should be documented to describe the reasons for the delay and justify award based upon the oral solicitation.

**215.406 [Reserved]**

Reserved pending determination to what extent guidance may be necessary.

**215.407 Solicitation provisions.**

(S-70) Pursuant to the policy of FAR 14.407-3, the contracting officer shall insert the provision at 252.214-7000, Discounts, in solicitations where prompt payment discounts may be offered.

**215.410 Amendment of solicitations before closing date.**

Requests for quotations may be amended by letter.

**215.411 Receipt of proposals and quotations.****215.411-70 Maintenance and disposition of proposals and quotations.**

Both solicited and unsolicited proposals shall be maintained and disposed of pursuant to FAR 4.803.

**215.414 Forms.**

(a) Letter RFPs and RFQs may also be used provided they otherwise comply with the requirements of FAR and this regulation.

(b) In the acquisition of subsistence, DPSC Form 300, Order for Subsistence, may be used for award purposes.

**215.470 Master solicitation.**

A master solicitation for negotiated contracts may be established, maintained, and utilized in accordance with 214.270.

**Subpart 215.5—Unsolicited Proposals****215.504 Advance guidance.**

(b)(2) Agencies shall, where applicable, in addition to the requirements of FAR 15.504(b)(2), also make available to potential offerors of unsolicited proposals requirements concerning cost sharing (see 235.003(b)).

**215.506 Agency procedures.****215.506-1 Receipt and initial review.**

(c) In addition to the requirements of FAR 15.506-1(c), agencies shall advise offerors of the disposition or intended disposition of the material submitted as the unsolicited proposal. The agency shall not deny reconsideration of a timely and appropriately revised or supplemented proposal which meets the requirements of FAR 15.506-1(a). When it is determined that a meritorious unsolicited proposal is not related to the mission of the recipient agency or may be of interest to other agencies in addition to the recipient agency, the recipient agency may identify for the offeror other agencies whose missions bear a relationship to the subject matter of the unsolicited proposal.

**215.507 Contracting methods.**

(b)(S-70) When the requirements of FAR Part 6 and FAR Subpart 15.5 have been met, contracts for studies, analyses, or consulting services (see FAR 37.2) may be entered into on the basis of an unsolicited proposal. However, when so limited by an applicable DoD Appropriation Act, such contracts may be entered into only when the head of the contracting activity or his designee (no lower than the chief of the contracting office) determines that:

(i) As a result of thorough evaluation, only one source is found fully qualified to perform the proposal work; or

(ii) The purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(iii) The purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support; except that this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense who has been confirmed by the Senate, determines that the award of such contract is in the interest of national defense.

**Subpart 215.6—Source Selection****215.603 Purpose.**

(d) In addition, source selection procedures are designed to ensure selection of the source whose proposal is in the best interests of the Government, price and other factors considered.

**215.607 Disclosure of mistakes before award.**

(c)(3) Authority to make the determination is delegated to the head of the contracting activity with authority to redelegate to the chief of the contracting office.

**215.608 Proposed evaluation.**

(b) Unless otherwise specified in agency procedures, the contracting officer shall make the written determination.

**215.613 Alternative source selection procedures.**

"Four-Step" Source Selection Procedures are as follows:

(a) General.

(1) The Four-Step process, briefly described, is the (i) submission and evaluation of the offeror's technical proposal; (ii) submission and evaluation of the offeror's cost proposal; (iii) establishment of the competitive range and selection of the apparent successful offeror; and (iv) negotiation of a definitive contract.

(2) The conventional process differs in that (i) offerors' technical and cost proposals are submitted and evaluated simultaneously; (ii) definitive contracts are negotiated with all offerors in the competitive range; and (iii) the contractor is selected. One additional difference in the two processes involves discussion of proposal deficiencies. In the Four-Step process, deficiencies are not revealed to the individual offerors, while in the conventional process protracted discussions may evolve around proposal deficiencies.

(3) These procedures are designed primarily to: focus attention on technical excellence, maintain the integrity of each offeror's proposal, provide visibility of discriminating features between proposals, reduce the opportunity for buy-ins, preclude the opportunity for the use of auctioning techniques and assure a disciplined and orderly process in the selection of sources. To this end, early and open dialogue, e.g., pre-solicitation notices and conferences, pre-proposal conferences, informal solicitations and the tailoring of specifications, is encouraged to establish a better understanding of the Government's needs.

(4) Following the technical evaluation and discussions, cost/price proposals are obtained from each offeror together with any necessary clarifications of technical proposals. Subsequent to the receipt of the cost/price proposals and any technical clarifications, a competitive range is established. Those proposals outside the competitive range are eliminated at this point and the offerors so notified. Limited discussions are then held with the remaining offerors on their cost/price proposals and any technical clarifications. Following such discussions, a proposal may be eliminated from further consideration and the offeror so notified when it is determined to be no longer in the competitive range.

(5) At the completion of technical and cost/price discussions, a common cut-off date for the receipt of final technical and cost/price proposals based upon those discussions is then established and the remaining offerors so notified. An evaluation is then made of each offeror's total proposal and a single

offeror is normally selected for negotiation of a contract (see 215.613(h)(7)). In order to release proposal teams at the earliest practical date, all offerors are notified of the contractor selected.

(6) A definitive contract is then negotiated with the selected offeror and contract award accomplished. These negotiations must be completed in a timely manner and must not involve changes in the Government's requirements or the contractor's proposal which would affect the basis for source selection. In the event a definitive contract cannot be awarded on a timely basis, negotiations may be terminated and a new source selection decision made.

(b) *Applicability.* These procedures may be used at the discretion of the Contracting Officer for competitively negotiated research and development acquisitions with an estimated value of two million dollars or more. They may also be used for any other acquisition when approved in accordance with Departmental procedures subject to the restrictions below. Use of these procedures is most appropriate when Government evaluation of initial proposals, without discussion of proposal deficiencies, will be sufficient to determine the best overall offer to the Government. Acquisitions for which these procedures are not used shall follow the procedures of FAR 15.6.

(c) *Restrictions.* These procedures should not be used for acquisitions in which the necessity to conduct extensive negotiations is anticipated. These procedures shall not be used for any acquisitions which:

(1) Are acquired pursuant to FAR 6.302-2;

(2) Are solely for personal or nonpersonal services;

(3) Are for architect-engineer services; or

(4) Have an estimated value of less than two million dollars.

(d) *Procedures.* Acquisitions subject to this paragraph shall be conducted in accordance with the following procedures:

(1) *Solicitations.* Solicitations shall be developed in accordance with FAR 15.4 and shall include the following special requirements and instructions:

(i) A general statement explaining the concept and procedures to be used in the selection of a contractual source of the proposed acquisition.

(ii) The relative importance of technical/system performance criteria.

(iii) A notification that any proposals which are unrealistic in terms of technical or schedule commitments or unrealistically low in cost or price will

be deemed reflective of an inherent lack of technical competence or indicative of failure to comprehend the complexity and risks of the proposed contractual requirements and may be grounds for the rejection of the proposal.

(iv) A schedule of planned source selection events including, but not limited to, specific dates for the submission of both technical and cost/price proposals.

(v) Provisions requiring sequential submission of separate technical and cost/price proposals.

(vi) Requirements for the technical proposal to include, where appropriate, identification of trade-offs among performance, production costs, operating and support costs, schedule and logistic support factors; and requirements for cost estimates which illustrate the impact of these trade-offs. In addition, requirements for the technical proposal to include information necessary to indicate that the design to cost and operating and support cost objectives, when used, would be achieved when the item(s) enters production.

(vii) Requirements for the cost proposal to include the detailed, substantiating cost information pertaining to the performance of the contemplated contract and other detailed data necessary for evaluation of cost factors to be considered in the source selection decision.

(viii) A statement that both technical and cost/price discussions will be limited as set forth in (e) and (f) below.

(ix) A notification that negotiations will be conducted only with the selected offeror, and that offerors should represent their most favorable technical and cost/price proposals initially.

(e) *Step one—evaluation and discussion of technical proposals.* A detailed evaluation shall be accomplished on all technical proposals received based upon the established criteria in the solicitation. Upon completion of the initial evaluation, limited discussions shall be conducted with all offerors for the purpose of achieving maximum understanding and clarification of the contents of the proposal. During such discussions, offerors shall not be advised of deficiencies in their proposals. A deficiency is defined as that part of an offeror's proposal which would not satisfy the Government's requirements. Offerors shall be advised of areas of their proposal in which the intent or meaning is unclear or for which additional substantiating data is required for evaluation. When necessary for complete understanding of proposals, clarifications and/or

additional substantiating data may be requested concerning those areas of an offeror's proposal when there is uncertainty that a deficiency exists. In most cases, clarification of proposals and additional substantiating data, if required, will be included by offerors with their cost/price proposals in Step Two. When it is apparent from the proposals received that the Government's requirements have been misinterpreted, clarification shall be provided to all offerors to ensure complete understanding.

(f) *Step two—evaluation and discussion of cost/price proposals.*

(1) Following the technical evaluation and discussions, complete, fully documented cost/price proposals and clarifications, if required, of technical proposals shall be obtained. Each proposal shall be evaluated and those which have no reasonable chance for award may be eliminated from the competition at this point and the offerors notified that they are outside the competitive range and will be given no further consideration.

(2) Limited discussions as indicated herein shall then be conducted with all remaining offerors in connection with their respective cost/price proposals, either on an element-by-element basis or in their entirety. These discussions may include (i) rectification and/or correction of inconsistencies or mathematical errors; (ii) correlation of elements of cost with their respective technical efforts, in order to assess the extent of realism in the cost proposal; and (iii) discussion necessary to ensure a complete understanding of the Government's requirements, what is being offered (including delivery schedules, trade-offs among performance, design to cost, life cycle cost, and logistics support factors) and other contract terms. An offeror shall not be advised during these discussions that its proposal or any of its elements are either too high or too low. When discussions of technical proposals are required they shall be limited as stated in (e) above.

(3) Following such discussions, a proposal may be eliminated from further consideration and the offeror so notified (i) when the proposal was initially included in the competitive range because it might have been susceptible of being made acceptable, or (ii) because there was uncertainty whether it was in the competitive range, and in either case, through discussions relating to ambiguities and omissions it becomes clear that the proposal should not have been included in the competitive range initially.

**(g) Step three—common cut-off.**

(1) A common cut-off date for receipt of technical and cost/price proposal clarifications or substantiations shall be established and all participants so notified in accordance with FAR 15.611.

(2) Offerors shall be informed that any changes incorporated in the final proposal must be fully substantiated. Supporting data must provide traceability to the causative technical, business, or financial conditions that brought about any change. Lump sum reductions in cost/price shall not be accepted without supporting rationale.

(3) After the common cut-off date, requirements shall not be imposed for additional proposals or revisions to submitted technical or cost proposals without the prior approval of an official at a level no lower than that of a Head of a Contracting Activity (HCA). Auctioning through repetitive calls for offers is strictly prohibited.

(4) Final detailed negotiations leading to the bilateral execution of a definitive contract shall be deferred until after the selection of an offeror for final contract negotiations.

**(h) Selection of an offeror for final contract negotiations.**

(1) Complete evaluation of all factors in accordance with the criteria set forth in the solicitation, including cost/fee or price, shall be conducted with careful regard for security procedures and good business practice.

(2) Based upon the offeror's latest total acceptable technical and cost proposals, selection of a single source shall be made for the conduct of final negotiations leading to a definitive contract. (This does not preclude selecting more than one source when multiple sources are desired; e.g., competitive prototypes.) Procedures for waiver of this requirement are at (7) below.

(3) Proposals unrealistic in terms of technical or schedule commitments or unrealistically low in cost or price will be deemed reflective of an inherent lack of technical competence or indicative of failure to comprehend the complexity and risks of the contract requirements and may be grounds for rejection of the proposal.

(4) The selection will be based on an integrated decision, involving consideration of technical approach, capability, management, design to cost, operating and support cost objectives, historical performance, price/cost and other factors.

(5) Following selection of the best offeror, all competitors shall be notified of the source to be awarded the contract, subject to negotiation of a satisfactory definitive contract.

(6) The source selection decision is conditional in that award of a fully negotiated contract to the selected offeror must be accomplished within a period of time prescribed by the source selection authority. In the event a definitive contract cannot be awarded on a timely basis, negotiations may be terminated and a new source selection decision made.

(7) Proposed contracts may be negotiated with two or more offerors within the competitive range, if the HCA makes a written determination that a final selection of a single source should not be made until such proposed contracts have been negotiated. Such determination shall not be made solely for the purpose of maintaining a competitive environment. However, such a determination may be based, for example, on unique situations where there are no significant discriminating technical or cost features between two or more offerors. Notification of such determination shall be provided to OASD(A&L)(P) through Departmental procedures.

(i) *Step four—final negotiations and contract award.* Final negotiations leading to bilateral execution of a single definitive contract will be conducted only with the selected offeror except when multiple negotiations are authorized by the HCA. Final negotiations shall include the disclosure and resolution of all technical deficiencies and all unsubstantiated areas of cost. Negotiations shall not involve changes in the Government's requirements or the contractor's proposal which would affect the basis for source selection. In the event that such changes are necessary, the procedures in FAR 15.606 shall be followed. The final negotiated contract must represent a reasonable probability that the Government's requirements will be satisfied at a fair and reasonable cost/fee or price.

(j) *Debriefings.* Formal debriefings shall be conducted after contract award, in accordance with FAR 15.1002 and 215.1002.

**Subpart 215.7—Make-or-Buy Programs****215.704 Items and work included.**

The minimum dollar threshold within DoD referred to in FAR 15.704(b) is \$500,000.

**215.706 Evaluation, negotiation, and agreement.**

(d) Contracting officers shall also give primary consideration to the effect of the proposed make-or-buy program on the contemplated type of subcontract.

**215.707 Incorporating make-or-buy programs in contracts.**

(a)(2) The contracting officer may exclude the make-or-buy program from (i) cost-plus-incentive-fee contracts to which FAR 15.707(b) is applicable and (ii) from cost-plus-incentive fee contracts having a cost incentive which provides for a swing from target fee of at least 3 percent and a contractor's overall share of cost of at least 10 percent (authority may be requested (see FAR 1.4) to exclude the make-or-buy program from other cost-plus-incentive-fee contracts having different incentive and cost-sharing patterns, whenever the contracting officer finds that such other contracts provide sufficient incentive for control of costs).

**Subpart 215.8—Price Negotiation****215.802 Policy.**

(b)(2) (This prohibition neither prevents the negotiation of indirect costs and other rates applicable to several contracts nor prohibits FPRA's applicable to several contracts.)

**215.803 General.**

(b) When necessary, requirements and technical specialists should be consulted. The primary responsibility for the adequacy of specifications and for the delivery requirements must necessarily rest with requirements and technical groups. However, the contracting officer should be aware of the effect which these factors may have on prices and competition, and should, prior to award, inform requirements and technical groups of any unsatisfactory effect which their decisions have on prices or competition.

(d) When products are sold in the open market, costs are not necessarily the controlling factor in establishing a particular seller's price. Similarly, where competition may be ineffective or lacking, estimated costs plus estimated profit are not the only pricing criteria. In some cases, the price appropriately may represent only a part of the seller's cost and include no estimate for profit or fee, as in research and development projects where the contractor is willing to share part of the costs. In other cases, price may be controlled by competition. The objective of the contracting officer shall be to negotiate fair and reasonable prices in which due weight is given to all relevant factors. When negotiations indicate the need for using other than a firm fixed-price contract, there should be compatibility between the type of contract selected and the contractor's accounting system.

**215.804 Cost or pricing data.****215.804-2 Requiring certified cost or pricing data.**

(a)(1)(ii) The term "price adjustment" or "pricing adjustment" means the aggregate increases and/or decreases in costs plus applicable profits.

(2) Partial or limited data may be requested when less than complete cost analysis (e.g., analysis of only specific factors) will provide a reasonable pricing result on awards under \$100,000 without the submission of complete cost or pricing data. The contracting officer shall request only that data which the contracting officer considers adequate to support the limited extent of the cost analysis required and he will not require certification.

(b)(1) Cost or pricing data shall not be required merely in anticipation of post-award review of the contract.

(2) If, after cost or pricing data were initially requested and received, it is determined that adequate price competition does exist, the data need not be certified.

**215.804-3 Exemption from or waiver of submission of certified cost or pricing data.**

(a)(1) When economic price adjustment provisions are included in competitive acquisitions, see FAR 16.203-2(b).

(b)(2)(ii) An example of a determinative advantage is where substantial costs, such as start-up or other nonrecurring expenses, have already been absorbed in connection with previous sales, thus placing the competitor in a preferential position.

(3) Examples of a price "based on" adequate price competition are: (i) Exercise of an option in a contract for which there was adequate price competition if the option price has been determined to be reasonable in accordance with FAR 17.207(d); and (ii) an item normally is acquired competitively but in a particular situation only one offer is solicited or received, and the price clearly is reasonable in comparison with recent purchases of comparable quantities for which there was adequate price competition.

(c)(6) In addition, cost or pricing data may be requested, if necessary, where there is such a disparity between the quantity being acquired and the quantity for which there is such a catalog or market price that pricing cannot reasonably be accomplished by comparing the two.

(7) In determining exemptions, it is the item under consideration that must meet the test. The ultimate objective is to achieve fair and reasonable prices for

items bought. Altered terms, minor configuration changes, extra inspection requirements, or quantity differences are adequate reasons for pricing items differently from catalog or market prices.

(e)(3) In anticipation of repetitive acquisitions of a catalog item, the contracting officer or the cognizant ACO may make special arrangements for submission of the exemption claim. The submission need not be on a Standard Form 1412, but shall include any data required by the form and include or incorporate by reference all the applicable definitions, representations and rights included in the form.

Government approval of the exemption claim shall set forth the effective period, usually not more than one year, and require the contractor to furnish any later information that might raise a question as to the continuation of the exemption. Such approval may be extended to other Government contracting offices with their concurrence.

**Note.**—A copy of each waiver shall be sent to the Deputy Assistant Secretary for Procurement, Office of Assistant Secretary of Defense, Acquisition and Logistics.

(i) Set forth below is a format for the D&Fs to be made by the agency head with respect to waiving the requirement for submission of cost or pricing data and certification thereof, as required by 10 U.S.C. 2306(f), and for waiving the inclusion of the clauses required by FAR 52.214-27 and 52.215-25. The format may be used also for the D&Fs for such waiver made by the Head of the Procuring Activity for contracts with foreign governments or agencies thereof.

**(Military Department or Agency)****Determination and Findings****Authority to Waive Submission of Cost or Pricing Data and Certificate**

Upon the basis of the following findings and determination which I hereby make as agency head, the requirement for submission of cost and pricing data and certificate described below may be waived pursuant to the authority of 10 U.S.C. 2306(f), as implemented by FAR 15.804-3(i).

**Findings**

- The (2) proposes to enter into a contract with (3) for the acquisition of (4).
- Pursuant to FAR 15.804-2, the proposed contractor is required to submit certified cost or pricing data. However, waiver of submission of the certified cost or pricing data described below is justified for the reasons indicated: (5).

**Determination**

- The requirement for submission of cost or pricing data for the proposed contract action may be waived.

Date \_\_\_\_\_

**Notes.**

(1) In the case of a contract with a foreign government or agency thereof, delete the words "agency head" and substitute therefor "head of a procuring activity."

(2) Procuring or contracting activity.

(3) Name of supplier.

(4) Brief description of supplies or services.

(5) Describe the cost or pricing data requirements to be waived. (The waiver may be partial, i.e. limited to particular cost or pricing data.) Set forth the circumstances and conditions which make the proposed contract action an exceptional case and state the reasons which justify the proposed waiver.

**215.804-4 Certificate of current cost or pricing data.**

(c) The data on numerous minor material items each of which by itself would be insignificant may be reasonably available only as of a cut-off date prior to agreement on price because the volume of transactions would make the use of any later data impracticable. Furthermore, except where a single item is used in substantial quantity, the net effect of any changes to the prices of such minor items would likely be insignificant.

**215.804-6 Procedural requirements.**

(b)(2) The following may be used with the SF 1411:

(i) When Contract Cost Data Reports are required by the purchase request, the contractor shall be required to submit DD Forms 1921 and/or 1921-1 to support the SF 1411. The DD Forms 1921 shall be prepared in accordance with the Contractor Cost Data Reporting (CCDR) System (Army—AMCP 715-8, Navy—OASN(S&L), CBM—CPR, and Air Force—AFLCP/AFSCP 800-15). The contractor supporting data shall be prepared in such a manner as to support each cost element on the DD Form 1921-1.

(ii) *Contract pricing proposal supporting schedules* may be devised by contracting offices to require such supporting data to the foregoing forms as is considered necessary and reasonable through knowledge of industry, company or commodity practices.

(c) To the extent possible, the understanding should relate to the contractor's formal estimating system. Notwithstanding the foregoing, significant matters important to contractor management and to the Government and any related data within the contractor's organization or the organization of a subcontractor or prospective subcontractor would be expected to be current on the date of agreement on price and, therefore, will be treated as reasonably available as of

that date. Although changes in the labor base or in prices of major material items are generally significant matters, no hard and fast rule can be laid down since what is significant can depend upon such circumstances as the size and nature of the acquisition.

(e) The referral to higher authority shall also include a complete statement of the attempts made to resolve the matter, including (1) steps taken to secure essential cost or pricing data, (2) efforts to secure the contractor's cooperation in the establishment of a satisfactory business relationship, and (3) any assurances offered, such as agreements to adequately safeguard information furnished.

(f) Since an offeror may propose a price which does not include all preproduction and startup or other nonrecurring costs for the purpose of obtaining the first production contract and for gaining an advantage over competitors in negotiations for future acquisitions, it is important to know whether the offeror intends to absorb any portion of these costs or whether the offeror plans to recover them in connection with subsequent pricing actions under the proposed or future contracts. This information is needed in evaluating competing proposals to determine which proposal is most likely to result in the lowest overall cost to the Government, particularly where the successful offeror is likely to become, in effect, a sole source for follow on acquisitions (including spare parts or other support items).

(g)(3) In addition to submitting cost or pricing data from the prospective subcontractor most likely to be awarded the subcontract, the contractor shall submit other data pertaining to subcontract costs, including other subcontractor quotations. Failure by the contractor to submit subcontract cost or pricing data may be cause for disqualification of the contractor from further consideration for award of the proposed contract.

#### 215.804-7 Defective cost or pricing data.

(b)(2) In the absence of evidence to the contrary, the natural and probable consequence of defective data is an increase in the contract price in the amount of the defect plus related burden and profit or fee; therefore, unless there is a clear indication that the defective data were not used, or were not relied upon, the contract price should be reduced in that amount. In establishing that the defective data caused an increase in the contract price, the contracting officer is not expected to reconstruct the negotiation by speculating as to what would have been

the mental attitudes of the negotiating parties if the correct data had been submitted at the time of agreement on price.

(d) An auditor's advisory report of post-award reviews of cost and pricing data may result either from a specific request of a contracting officer or from audit action initiated independent of a contracting officer's request.

(e) In exercising the Government's rights in such cases, the contracting officer will consider the varying circumstances discussed below.

(e)(S-70) In some instances, the prime contractor may have reached agreement on price with a subcontractor before the prime contractor and the Government agree on a definitive price. This might occur, for example, if the prime contractor commenced performance under an unpriced action such as a letter contract. In such cases, the subcontractor's cost or pricing data must be submitted with the prime contractor's submission. If any such subcontractor data are subsequently found to be defective, the prime contract is subject to price adjustment in the same manner as would be the case if any other cost or pricing data submitted by the prime contractor proved to be defective.

(e)(S-71) The Government and the prime contractor will normally agree on the price of a contract prior to final agreement on price between the prime contractor and his subcontractor. In such cases, the prime contract price will be based, in part, on subcontract cost estimates. The prime contractor will be expected to support the subcontract cost estimates with subcontractor cost or pricing data. The prime contract price will be subject to adjustment on the basis of defective subcontractor cost or pricing data submitted prior to agreement on the prime contract price if:

(i) Such subcontractor data were not accurate, complete, or current as of the date certified in the prime contractor's Certificate of Cost or Pricing Data, or in some cases were not accurate as submitted by the subcontractor, and

(ii) The prime contract price was increased by a significant sum because of such defective subcontractor data.

(f) Conditions may be prescribed by: the Office of the Assistant Secretary of the Army (Research, Development and Acquisition), for the Army; Office of the Assistant Secretary of the Navy (Shipbuilding & Logistics), DCBM, for the Navy; the Director of Contracting and Manufacturing Policy, Headquarters, USAF (AF/RDC), for the Air Force; and the Executive Director, Contracting, for the Defense Logistics Agency.

(2) Although the action is taken under those price reduction clauses rather than under Part 31 as a practical matter the result is the same, i.e., the increased costs will be disallowed under cost-type contracts or not considered as actual costs for final pricing of redeterminable or incentive-type contracts. The action is taken under the price reduction clauses because not only will the increased costs be disallowed or not considered as actual costs but also the fixed-fee or target profit included in the initial price may be subject to reduction in accordance with (1) and (2) of 215.804-7(e) above.

#### 215.804-8 Contract clauses.

The requirement for inclusion of the specified clauses in contracts with foreign governments or agencies may be waived in exceptional cases by the Agency head (see FAR 15.804-3(i)). The contracting officer shall also include the clause at FAR 52.215-22 when obtaining partial cost or pricing data in accordance with 215.804-2(a)(2).

(S-70) The clause at 252.215-7000, Aggregate Pricing Adjustment, shall be included in all solicitations and contracts which include a clause at FAR 52.215-23, FAR 52.215-24, or at FAR 52.215-25. The Contracting Officer may insert a lesser dollar amount, if appropriate.

#### 215.805 Proposal analysis.

##### 215.805-1 General.

(a) The contracting officer should also note the following:

(a)(S-70) Each contracting officer is responsible for performing or having performed all administrative actions necessary for effective contracting.

(a)(S-71) For certain acquisitions, it may be necessary to convene a formal "Should Cost" (see FAR 15.810) team of specialists to evaluate the contractor's cost projections, supporting standards, and other in-plant management, operational and performance practices, on which cost projections are based.

(a)(S-72) Contract auditors are professional accountants who, although organizationally independent, are the principal advisors to contracting officers on contractor accounting and contract audit matters. Contract audit services are available in two forms:

(i) Audit reports setting forth the results of auditors' reviews and analyses of cost data submitted by contractors as part of pricing proposals, reviews of contractors' accounting systems, estimating methods, and other related matters; and

(ii) "On-the-spot" personal consultation and advice to contracting

and contract administration personnel in connection with analyses of contractors' cost representations and related matters by liaison auditors stationed at contracting and contract administration offices. (DCAA provides procurement liaison auditors (PLAs) at most major contracting and contract administration offices to facilitate the receipt and use of audit service and to provide accounting and audit advice as to whether or not audit review of a price proposal should be waived.)

(b) Some form of price or cost analysis is required in connection with every negotiated contract action. The method and degree of analysis, however, is dependent on the facts surrounding the particular acquisition and pricing situation. The extent of cost analysis should be that necessary to assure reasonableness of the pricing result, taking into consideration the amount and complexity of the proposed contract. Normally, a sound conclusion as to value cannot be made on the basis of cost analysis alone. Depending on the information available, a price arrived at by cost analysis should be corroborated through price analysis techniques.

#### 215.805-2 Price analysis.

(b) To provide a suitable basis for comparison, appropriate allowances must be made for differences in such factors as time of prior acquisitions, specifications, quantities ordered, time for delivery, Government-furnished materials, and experienced trends of improvement in production efficiency. It must also be recognized that such comparison may not detect an unreasonable current quotation unless the reasonableness of the prior prices was established and unless changes in the general level of business and prices have been considered.

#### 215.805-4 Technical analysis.

Technical analyses by the Plant Rep/ACO and the team members shall be based on their knowledge of such factors as production, quality assurance, engineering and manufacturing practices and techniques, and information as to plant capacity, scheduling, engineering and production "know-how," Government property, make-or-buy considerations, and industrial security, particularly as these relate to practices of the specific prospective contractor.

#### 215.805-5 Field pricing support.

(a)(1) Contracting officers shall request field pricing reports for contracts and modifications resulting from a proposal in excess of \$100,000 for a firm fixed-price contract, \$250,000 for a fixed-price incentive contract, and

\$500,000 for a cost type contract. The requirement for subject reports may be waived, with adequate justification, at one level above the contracting officer. Requests for field pricing support should be tailored to ask for minimum essential information needed to ensure a fair and reasonable price is achieved.

Information of the type described in (i) through (vi) below, which is often available to the contracting officer from the Plant Rep/ACO or from the Procurement Liaison Auditor (PLA), should be useful in determining the extent of any field pricing support that is needed.

(i) In-house engineering determination of level of effort required in connection with research and development or study contracts.

(ii) Audited cost information from contract awards in process, or recently negotiated contracts.

(iii) Adequately reviewed data on proposed subcontract items which constitute the major portion of the prime contract price proposal.

(iv) Prices of standard commercial items which constitute the major portion of the prime contract price proposal.

(v) Special forward pricing formulas or rates such as for support items, or forecast overhead rates, prescribed in an existing advance agreement.

(vi) Current labor rates; overhead rates, loading factors, per diem rates, and lot data based upon actual costs and labor hours. It should be borne in mind that no single category of information is necessarily sufficient by itself; for example, information as to rates for labor and overhead would normally require data concerning the base elements—labor hours, material costs, etc.—to which the rates apply.

(2) The Plant Rep/ACO, as well as the contract auditor, will be responsible for providing a complete and accurate field pricing report to the contracting officer. To accomplish this end, the Plant Rep/ACO must:

(i) In concert with the auditor and in consideration of the auditor's workload, establish a deadline for the auditor's input, subject to date adjustments when considered necessary (adjustments will be coordinated by the Plant Rep/ACO with the contracting officer and the contract auditor);

(ii) Identify areas for special consideration (these are areas in addition to those specified by the contracting officer);

(iii) Arrange for exchanges of technical and audit information; and

(iv) Be fully responsive to a request for technical information from the auditor.

(a)(S-70) If an audit review will not be required, either as a separate report or as part of a field pricing report, before negotiating any contract or modification for which a proposal is submitted in excess of \$500,000, approval shall be obtained at a level above the contracting officer.

(c)(1)(S-70) When field pricing reviews are required, contracting officers should note the following:

(A) The Plant Rep/ACO is the team manager for all contracting officer requests for field pricing support. Therefore, the contracting officer shall send all requests for field pricing support to the cognizant field contract administration activity; generally, the Plant Representative (Plant Rep) for the Services and the Administrative Contracting Officer (ACO) for DCAS(DLA). A copy of the request will also be sent to the cognizant audit activity.

(B) When the contracting officer knows in advance that field pricing support will be required, the contracting officer shall provide the cognizant Plant Rep/ACO and auditor a copy of the solicitation. In addition, the contracting officer may require the contractor to provide copies of the proposal direct to the Plant Rep/ACO and auditor. In this event the contracting officer shall, as soon as possible after receipt of the contractor's proposal, identify those specific areas for which field pricing support is required.

(C) Where audit reports are received on contracting actions that are subsequently canceled or unsuccessful, the cognizant auditor shall be notified in writing.

(c)(1)(S-71) When field pricing reports are requested for acquisition of parts or support equipment, the request shall as a minimum include, but will normally be limited to, the following:

(A) A detailed analysis of each line item where the quoted price exceeds 25 percent or more the lowest price of the Government of the item at any time within the most recent 12-month period. These items will be specified in the request for field pricing support.

(B) The results of a review of the description and the price of each line item in the proposal made to assist in identifying any obvious overpricing. Those items, so identified, will be subjected to further analysis.

(C) An analysis of the significant high-dollar-value items. If there are no obvious high-dollar-value items (i.e., the majority of line items are of approximate equal value), a random sampling technique should be used.

(D) An analysis of a random sample of the remaining low-dollar-value line items. Sample size may be determined by subjective judgment, e.g., experience with the contractor, reliability of contractor's estimating/accounting systems, credibility of proposals, etc.

(d) The efforts of all field pricing support team members are complementary, advisory and also offer an excellent check and balance of the various analyses imperative to the contracting officer's final pricing decision. Therefore, it is essential that there be close understanding, cooperation and communication to ensure the exchange of information of mutual interest during the period of analysis. While they shall review the data concurrently when possible, each shall render services within the individual area of responsibility. For example, on quantitative factors (such as labor hours), the auditor may find it necessary to compare proposed hours with hours actually expended on the same or similar products in the past as reflected on the cost records of the contractor. From this information the auditor can often project trend data. The technical specialist may also analyze the proposed hours on the basis of knowledge of such things as shop practices, industrial engineering, time and motion factors, and the contractor's plant organization and capabilities. The interchange of this information will not only prevent duplication but will assure adequate and complementary analysis.

(e) The terms "audit review" and "audit" refer to examinations by contract auditors of contractors' statements of actual or estimated costs to the extent deemed appropriate by the auditors in the light of their experience with contractors and relying upon their appraisals of the effectiveness of contractors' policies, procedures, controls, and practices. Such audit reviews or audits may consist of desk reviews, test checks of a limited number of transactions, or examinations in depth, at the discretion of the auditor. The contract auditor is responsible for submission of information and advice, based on analysis of the contractor's books and accounting records or other related data, as to the acceptability of the contractor's incurred and estimated costs.

(e)(6) Reports of technical analysis and review should be furnished to the auditor at the earliest possible date and at least five days prior to the due date of the audit report to enable the auditor to include the financial effect of technical findings in the audit report (for example, the necessary computations of dollar

amounts arising from changes in proposed kinds and quantities of materials, labor hours, etc.). In the event the technical analyses are not available in time to be reflected in the audit report, the audit report shall so state, and this shall be made known to the Plant Rep/ACO so that comments may be incorporated in the submission to the contracting officer. If technical analyses are received later by the auditor, the auditor shall issue a supplemental report if the status of the negotiation is such that a report would serve a useful purpose. The original of all technical reports received by the auditor shall be made a part of the audit report submitted to the Plant Rep/ACO.

(e)(7) When the contracting officer determines that deficiencies in the contractor's accounting system or estimating methods are such that the proposed contract cannot be adequately priced or administered, the contracting officer shall, with the advice of the contract auditor and the Plant Rep/ACO, assure that necessary corrective action is initiated prior to the award of such contract. The auditor is responsible for performing that part of reviews and cost analyses which requires access to the contractor's books and financial records supporting proposed cost or pricing data, regardless of the dollar amount involved.

(e)(8) During the course of the examination, the Plant Rep/ACO and the auditor shall each confer with the contractor to fully understand the basis for each item in the contractor's proposal and to remove any doubts as to the validity and accuracy of their conclusions and findings.

(g) The Plant Rep/ACO (price analyst or negotiator) shall query the auditor or technical personnel about matters in audit or technical reports which appear to need clarification. When developing the Plant Rep/ACO statement to the contracting officer transmitting audit and technical reports, comments or observations shall be added about pertinent matters whether or not covered in the audit or technical reports. However, it is not contemplated, for example, that the price analyst or negotiator should attempt an examination of the contractor's accounting records for this purpose since the contract auditor has this responsibility.

(i) If in the opinion of the contracting officer, Plant Rep/ACO, or auditor, the review of a prime contractor's proposal requires further review of subcontractors' cost estimates at the subcontractors' plants (after due consideration of reviews performed by

the prime contractor), such reviews should be fully coordinated with the Plant Rep/ACO having cognizance of the prime contractor before being initiated. If a review is required of a subcontract proposal, the prime Plant Rep/ACO shall forward the request to the subcontract ACO with an information copy to the subcontract auditor. In the event a lower tier subcontract proposal requires review, the request should be coordinated in sequence with the Plant Rep/ACO's at higher tiers in the subcontract chain. The resulting pricing reports, including any audit reports, shall be forwarded by the subcontract Plant Rep/ACO to the prime Plant Rep/ACO with an information copy to the prime auditor. If the review is of a lower tier subcontract proposal, the report shall be transmitted through the Plant Rep/ACO's in the subcontract chain.

(j) The appropriate contract administration activities will be notified by the HCA when review and evaluation of subcontractors' proposals will require extensive field pricing assistance in connection with the acquisition of a major new weapon system, or require special or expedited action by field pricing personnel and such action is being, or has been, delayed.

#### 215.806 Subcontract pricing considerations.

(S-70) Other subcontract pricing considerations include:

(1) Subcontract costs and pricing arrangements are significant elements to be considered during negotiation of prime contracts and during contract administration.

(2) Basic responsibility rests with the prime contractor for decisions to make or buy, for selection of subcontractors, for subcontract prices, and for subcontract performance. The contracting officer who is responsible for negotiating the contract price with the prime contractor must have adequate knowledge of these elements as they affect prime contract prices.

(3) Contractors' "make-or-buy" programs and proposed subcontracts must be reviewed in accordance with FAR 15.7 and with FAR Part 44. Information from these reviews should be used in evaluating subcontract costs when negotiating prime contract prices. The contracting officer, when appropriate, should secure from the contractor information concerning:

- (i) The prime contractor's purchasing practices; and
- (ii) The principal components to be subcontracted and the prospective or

actual subcontractors, including (A) the extent of competition obtained or to be obtained, (B) the basis for the subcontract costs included in the contract pricing proposal (SF 1411), (C) any contractor cost or price analyses of subcontract proposals, including the cost or pricing data submitted by subcontractors, (D) the pricing arrangement contemplated or negotiated, and (E) the extent of subcontract supervision.

(4) The contracting officer is responsible for the reasonableness of the prime contract price which includes self-satisfaction as to the reasonableness of the subcontract costs included in the prime contract price. Field pricing support from the Plant Rep/ACO cognizant of the prime contractor is generally required in determining reasonableness of the prime contract price. In some instances, it may be necessary to obtain field pricing support of proposed subcontracts. On the basis of a request from the contracting officer and/or advice from members of the field pricing team, the ACO cognizant of the prime contractor may request field pricing support from the ACO cognizant of the prospective subcontractor. These actions will be taken in accordance with 215.805-5.

(5) If the prime contractor's analysis is not considered adequate, the ACO will return the analysis package to the contractor for re-accomplishment indicating areas of inadequacy. In this case, the prime contractor will accomplish or cause the accomplishment of the additional review and resubmit the package to the ACO.

(6) When subcontracts have been placed on a price redetermination or fixed-price incentive basis and the prime contract is to be repriced, it may be appropriate to negotiate a firm prime contract price, even though the contractor has not yet established final subcontract prices. The contracting officer may do this when convinced the amount included for subcontracting is reasonable, e.g., where realistic cost or pricing data on subcontract efforts are available. However, even though the available cost data are highly indefinite and there is a distinct chance that one or more of the subcontracts eventually may be redetermined at prices that are lower than those predicted in redetermining the prime contract price, other circumstances may require the prompt negotiation of the final contract price. In such a case, the contract modification which evidences the revised contract prices should provide for adjustment of the total amount paid or to be paid

under the contract on account of subsequent redetermination of the specified subcontracts. This may be done by including in the contract modification a statement substantially as follows:

Promptly upon the establishment of firm prices for each of the subcontracts listed below, the Contractor shall submit, in such form and detail as the Contracting Officer may reasonably require, a statement of costs incurred in the performance of such subcontract and the firm price established therefor. Thereupon, notwithstanding any other provisions of this contract as amended by this modification, the Contractor and the Contracting Officer shall negotiate an equitable adjustment in the total amount paid or to be paid under this contract to reflect such subcontract price revision. The equitable adjustment shall be evidenced by a modification to this contract.

(List Subcontracts)

(7) In considering cost-plus-fee subcontracts, the contracting officer shall make every effort to insure that fees under such subcontracts never exceed the fee limitations identified in 215.903(d).

(8) The prime contractor may submit subcontractor claims for exemption at any time to the contracting officer for an advance review of their acceptability, but otherwise the prime contractor shall submit them with its proposal or request for subcontract consent; or other action by the contracting officer, whichever comes first.

#### 215.807 Prenegotiation objectives.

(b) Prenegotiation objectives will be documented in accordance with Departmental procedures.

(S-70) When contract audit review of the offeror's proposal has been requested, the contracting officer shall keep the auditor informed of planned prenegotiation and negotiation activities, including related fact-finding sessions and/or discussions with the offeror, and invite contract audit participation where the contracting officer and auditor agree that a significant contribution can be made.

#### 215.808 Price negotiation memorandum.

(a)(4) Comments should also be included on the current status of their contractor systems (e.g., estimating, accounting, compensation, etc.) to the extent that they impacted and were considered in the negotiation.

(a)(10) The following applies to documentation of profit or fee negotiated:

(i) Since the profit objective is the contracting officer's prenegotiation evaluation of the total estimated profit under the proposed contract, the amounts set forth for each category of

cost will probably change in the course of negotiation. Furthermore, the negotiated profit will probably vary from the profit objective, and from a detailed application of the weighted guidelines method to each element of the Contractor's Input to Total Performance as anticipated prior to negotiation. Since the profit objective is viewed as a whole rather than as its component parts, insignificant variations from the pre-negotiation profit objective, as a result of changes of the Contractor's Input to Total Performance, need not be documented in detail. Conversely, significant deviations from the profit objective necessary to reach a final agreement on profit or fee shall be explained. The profit earned as a result of contract performance will generally vary from that anticipated at the time of negotiation.

(ii) When the weighted guidelines method is not used because of unusual pricing situations (see 215.9), the contract file shall be documented to support the exceptions.

(iii) DD Form 1547 (see 215.9) may be used in the Price Negotiation Memorandum, *Provided* that the rationale used in assigning the various rates is fully documented.

(iv) See also FAR 15.807(c).

#### 215.809 Forward pricing rate agreements.

(e) Indirect costs commonly known as overhead are defined and described in FAR 31.203. Criteria for treatment and application of indirect costs to contracts are also set forth in FAR 31.203. To assure a reasonable approximation and allocation of indirect costs on an equitable basis to individual contracts, negotiators shall utilize audited indirect cost data or negotiated indirect cost rates, when available, in connection with negotiation of contracts and shall not, unless authorized by the head of the contracting activity, seek preferential indirect cost rates. If there is any question with respect to audited indirect cost data or negotiated indirect cost rates, or if such are not available, the negotiator should normally use the advisory services of the cognizant Department of Defense auditor.

(e)(2) In assessing changed conditions, the ACO will consider: (i) The type of contract contemplated; (ii) whether the dollar amount of the proposed contract action would significantly change the rates in the agreement; (iii) whether the performance period of the proposed contract action is significantly different from the period to which the rate agreement applies; and (iv) any new data or other information that may raise

a question as to the acceptability of the rates.

(f) When contracting representatives have received notice that changed conditions negate FPRA's, individual contracting actions should not be delayed.

#### 215.810 Should-cost analysis.

(b)(S-70)(i) Should-cost analyses shall be performed prior to award of definitive major systems contracts in excess of \$100 million for major systems if each of the following conditions are met:

(A) A production contract for the system is to be awarded on a sole-source basis;

(B) Initial production of the system has already taken place;

(C) The current plans for the Department of Defense include production of substantial quantities of identical or similar items;

(D) The work to be performed under the contract is sufficiently defined to permit an effective analysis of what production of the system by the contractor should cost; and

(E) Major changes in the program are unlikely.

(ii) After an initial should-cost analysis has been performed under (i) above, subsequent should-cost analyses need not be performed annually, but must be accomplished at least every four years on contracts meeting the requirements of (i) above.

(iii) Waiver of a should-cost analysis shall be made in accordance with Service procedures, but in no event at a level lower than a general/flag officer or civilian equivalent.

(e) The content of the should-cost analysis team report shall be prescribed by Service procedure. Team leaders should ensure that activities are coordinated to avoid duplication of effort.

#### 215.811 Estimating systems.

(a)(S-70) The establishment, maintenance, and consistent use of formal cost estimating systems by contractors is to the mutual benefit of the Government and industry, particularly where a large portion of the contractor's business is defense work and there are a number of significant proposals requiring review. Contracting activities and contract administration activities are required to furnish full support to a program of encouraging major defense contractors to formalize and follow good estimating procedures. It is recognized that estimating procedures will vary among contractors, and may vary between plants or divisions of a contractor due to

differences in products, size and methods of operations, production vs. research, and other factors. While formal systems do not eliminate the need for judgmental factors to be applied by contractors in developing cost proposals, they do provide a sound foundation for the systematic and orderly application of these judgment factors to specific proposals.

(a)(S-71) Reviews and reports shall be accomplished as a joint contract audit and contract administration office team effort, with the contract auditor designated as its head. Reviews shall be tailored to take full advantage of the day-to-day work done as an integral part of both the contract audit and contract administration activities. The program established by the contract audit activity shall be coordinated with the appropriate contract administration activity to assure that team membership includes qualified technical specialists, and that adequate personnel resources are made available to accomplish the program.

#### 215.870 Procedures for identifying contractors' unallowable costs.

(a) The establishment, maintenance, and consistent use of procedures for identifying and segregating unallowable costs, which will assure compliance with CAS 405 and FAR Part 31 will benefit both the Government and contractors. Such procedures may vary between plants or divisions of a contractor due to size, mix of business and complexity of organization. Some of the advantages of sound procedures are that:

(1) A greater degree of confidence can be placed on the accuracy and reliability of contractors' proposals, billings and claims;

(2) They expedite the negotiation process; and

(3) They may reduce the scope of reviews performed by audit and other technical and contracting personnel.

(b) The responsible Federal Contract Audit organization shall review contractors' procedures and practices in conjunction with other contract audit activities. Deficiencies shall be reported to the cognizant ACO, and, as appropriate, contracting officers having substantial business with the contractor. Among the matters to be considered in determining the adequacy of a contractor's procedures are its policy, practices and techniques for:

(1) Assignment of responsibilities within the contractor's organization for reviewing and approving claims against the Government;

(2) Identification of unallowable costs (expressly unallowable, mutually agreed

to be unallowable or specifically designated as unallowable by written decision of the contracting officer) together with the individual employees incurring such costs;

(3) Identification and computation of directly associated costs;

(4) Assurance that unallowable and directly associated costs are not included in estimated costs proposed, or incurred amounts claimed by the contractor;

(5) Coordination and communication between the elements of the contractor's organization that prepare proposals and claims and those responsible for identifying unallowable and directly associated costs; and

(6) Assuring the adequacy of the documentation maintained by the contractor identifying the unallowable costs together with directly associated costs.

(c) Documentation in support of the contractor's procedures shall be made available to authorized Government personnel.

#### 215.871 Estimated data prices (DD Form 1423).

(a) The Department of Defense requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product or engineering value.

(b) When data are required to be delivered under a contract, the solicitation will include DD Form 1423, Contract Data Requirements List. The form and the provision included in the solicitation request the offeror to state what portion of the total price is estimated to be attributable to the production or development of the listed data for the Government (not to the sale of rights in the data). However, offerors' estimated prices may not reflect all such costs; and different offerors may reflect these costs in a different manner, for the following reasons:

(1) Differences in business practices in competitive situations;

(2) Differences in accounting systems among offerors;

(3) Use of factors or rates on some portions of the data;

(4) Application of common effort to two or more data items;

(5) Differences in data preparation methods among offerors.

For these and other reasons, data price estimates should not be used for contract pricing purposes without further analysis.

(c) The contracting officer shall assure that the contract does not include a requirement for data which the

contractor has delivered or is obligated to deliver to the Government under another contract or subcontract, and that the successful offeror furnishes any certification required by the solicitation. However, where duplicate data are desired, the contract price shall include the costs of duplication, but not of preparation, of such data.

(d) In the case of acquisitions of \$100,000 or over, the contracting officer, after agreeing upon a negotiated contract price, will adjust the estimated prices in Blocks 26 of the original DD Form 1423 for the data items listed thereon to equal the amount included in the related priced contract line or subline item(s) for the data item(s). Adjusted DD Form 1423 will be maintained so as to be available at each contracting activity. The detachable portion of the DD Form 1423 (Blocks 17-26) with the estimated or adjusted prices shall not appear in the contract.

(e) When printing is to be acquired as an integral part of a contract for other supplies or services, each requirement in the contract for printing shall be listed as a separate line item on DD Form 1423; and the approval or waiver obtained pursuant to Subpart 208.3 shall be appropriately identified.

#### 215.872 Capital investment incentives.

(a) *General.* Although the DoD profit policy is normally sufficient encouragement to increase contractor investment, it is recognized that situations will arise when additional incentives may be appropriate. In these individual cases, a special Capital Investment Incentive clause may be negotiated and included in contracts for research, development, and/or production of weapon systems or material to provide incentives to contractors to invest in severable plant equipment capital assets. Such clause must be tailored to the requirements of the individual situation, and then only after a careful analysis of the benefits in each case is made, to assure optimum results are obtained for the Government. This clause would become operative in the event that the contract or program is terminated or funds are not provided in subsequent fiscal years for the planned acquisition upon which the investment decision was based. Such clause may permit the Government to acquire specific capital investments at no more than the depreciated value. This value may be determined by considering a combination of investment incentives, income tax credits or incentives, and allowable depreciation costs pursuant to cost principles established in FAR Part 31.

#### (b) *Scope.*

(1) This technique is designed to transfer to the Government some of the risk associated with acquisition of certain capital assets by contractors. Its purpose is to cover only specifically identified cost-effective capital assets. It is not to be used to override the general policy that all facilities needed for the performance of Government contracts will be provided by the contractor as set forth in FAR Part 45.

(2) Capital assets which may be covered by such an investment clause are subject to the following criteria:

(i) Includes only severable industrial plant equipment, and other types of severable plant equipment with a unit value in excess of \$10,000, including associated accessories which would be capitalized in accordance with the contractor's disclosed accounting practices, but excluding real property;

(ii) The capital investment would not otherwise be made by the contractor except to substantially benefit the program(s) involved;

(iii) The overall savings that will accrue to the Government on the program(s) for covered equipment exceed the related investment costs by a margin sufficient to make the acquisition economically viable;

(iv) The savings that will result from use of this equipment, as developed under (c) below, will be reflected in the pricing of the individual contracts.

(c) *Determination.* Prior to implementing this investment clause, the contracting officer shall make a written determination that the contractor will not make the investment without the use of this technique. This determination should be detailed and include the following elements:

(i) Consideration of the alternatives of acquiring such equipment through the manner listed in FAR 45.302;

(ii) An analysis of the costs of the investment and the overall cost savings to the Government, including the payback quantities and/or payback periods;

(iii) An assessment of the degree of competition present for the proposed requirement. If a competitive environment is present, the competition may cause the firms to consider bearing the total risks for the investments. When this technique is to be used, it shall be a factor in the source selection evaluation criteria;

(iv) An assessment stating the rationale why the DoD profit policy is insufficient motivation for the investment;

(v) Other considerations which should be addressed are:

(A) Effect upon the contractor's make or buy plan;

(B) Subcontractor participation in the investment technique;

(C) Consistency of depreciation rates with FAR 31.205.11;

(vi) Any other matter which has a bearing on the investment plan.

#### (d) *Limitations.*

(1) This investment incentive is designed primarily for DoD programs which are listed in the Five Year Defense Program (FYDP) and designated as Defense System Acquisition Review Council (DSARC) Programs, in accordance with DoD Directive 5000.1, "Acquisition of Major Defense Systems." This incentive may also be extended to other DoD programs provided approval is obtained from the Secretary of the Department. The program must provide for a sufficient buy to allow for amortization of the planned investment.

(2) The fiscal authority who commits funds to the resultant contract must certify that the following actions have been accomplished:

(i) The Approval Authority (see (g)(1) below) has approved by fiscal year the amount of contingent Government liability;

(ii) The Approval Authority has notified the Congress in advance that the technique will be used on contracts for a specific weapon system or material program element. Unless there are unusual circumstances, this notification will be included in the justification material submitted to the Congress in support of authorization and appropriation requests. A copy of the notification shall be retained in the contract file.

#### (e) *Negotiation requirements.*

(1) Since this investment incentive is predicated on the written determination specified in paragraph (c) above, the impact on contract cost will be recognized in the price(s) negotiated.

(2) In order for items of plant equipment to be covered, they must be listed (nomenclature and value) in the Capital Investment Incentive clause. The items of equipment can be incorporated in the contract using either or both of the following procedures:

(i) When the exact value and nomenclature of the item of plant equipment is known at the time of negotiations, it shall be listed in the investment clause at the time of the contract award. The contractor's proposal should reflect the impact on cost and other benefit to the Government that will accrue from use of the equipment in order to comply with Pub. L. 87-653;

(ii) If the exact value and nomenclature of each investment is not

known at the time of negotiations and it can be mutually agreed that certain categories of plant equipment would benefit the Government, an additional provision to the investment clause should be used. This additional provision shall stipulate the conditions which the individual items of plant equipment must meet to be subsequently incorporated into the investment clause and shall establish the requirement for the contractor to submit financial and other justification necessary for the contracting officer to make the determination specified in (c) above. Such items of equipment will be incorporated into the contract by supplemental agreement and the price revised, as appropriate; *Provided:* (A) They meet the contractual conditions and (B) the equipment value, when added to the value of previously covered equipment, will not exceed the stated dollar ceiling.

(3) The limit of the Government's contingent liability is subject to negotiation. Provision should be made to assume only that liability which is sufficient to motivate the contractor to invest.

(4) Application of the weighted guidelines in 215.9 should reflect the assumption of risk by the parties associated with items covered by this technique.

(f) *Contractual requirements.* In order to incorporate this investment incentive, a special contractual Capital Investment clause shall be developed. Such a clause should include but not be limited to the following:

(1) A listing of the exact nomenclature and value of each item of plant equipment covered.

(2) A provision for additions to the listing after contract award, if appropriate. Such provision shall establish the conditions that must be met, the categories of equipment that will be covered, and the requirement for such additions to be incorporated by contract modification. This provision should allow for removal of an item from coverage at the request of the contractor with the concurrence of the contracting officer.

(3) Criteria for ascertaining when this special provision can be invoked as well as the criteria which will cancel the Government's contingent liability under the clause such as end-item quantity thresholds and performance dates, whichever occurs first.

(4) The dollar ceiling of the value of covered items as well as the Government's contingent liability by fiscal year.

(5) A specific method to establish the price to the Government at which each

item would be acquired if this special provision is invoked.

(6) A provision that within 30 days of a Government decision that provides a basis for the contractor to invoke the special provision, the contracting officer shall notify the contractor in writing that the event has occurred and its date of occurrence. Further, the provision shall require that within 90 days after notification by the contracting officer, the contractor must provide to the contracting officer, in writing, a list of the specific investments which he desires to have the Government acquire. This list shall not include any investments which have not been incorporated into the investment clause of the contract prior to the contracting officer's notice to the contractor.

(7) A provision that once the contractor requests the Government to buy any equipment covered by the investment clause, the Government has the right to buy any and/or all other equipment covered by the clause whether the contractor requests it to do so or not.

(8) A provision for deferral of Government acquisition of those items of equipment needed for contract or program completion.

(9) A provision that the investment clause be carried over to successor contracts until the Government's responsibility to acquire the equipment expires.

(10) A provision that a supplemental agreement shall be executed for any equipment acquired by the Government under this special clause.

(11) A provision that as a condition of Government acquisition, the equipment shall be in good operating condition.

(12) Criteria for providing disposition instructions should the special provision for capital investment be exercised. Identify which party is to bear the cost of restoration, storage, disconnect and removal, packing and transportation upon removal of the equipment. The provisions of FAR Subpart 45.6 shall apply unless the contract provides specific exception thereto.

(13) A provision that in the event this special clause is invoked, the limitation stated in FAR 31.205-39 does not prevent acquisition or any payment for the covered equipment.

(14) A provision that this special clause for capital investment shall not apply in the event of contract termination for default.

(15) Provide that this investment clause can be made applicable to subcontracts, if appropriate benefits, as outlined in paragraph (b) above, are available. Provision must be made for Government approval, as outlined in

paragraph (c) above, of all equipment for which the Government may assume contingent liability as well as a provision that the clause can be invoked only as a direct flow down from the prime's ability to invoke the clause.

(16) A provision that establishes the extent to which the contractor may use this equipment for other business.

#### (g) *Administration.*

(1) Approval for use of this investment incentive for contingent liabilities must be obtained from the Secretary of the Military Department or the Director of DLA. Authority up to \$50 million may be delegated no lower than the Commander, AFSC, AFLC, NMC, AMC.

(2) In the event that it becomes apparent that the contingent liability resulting from the use of this technique will become an actual obligation, the approval authority shall be notified and immediate steps shall be taken to obtain sufficient funds to cover the obligation. These funds must be made available at the time the actual obligation materializes, to preclude a violation of the Anti-Deficiency Act.

### Subpart 215.9—Profit

#### 215.901 General.

(c) Furthermore, low average profit rates on defense contracts overall are detrimental to the public interest. Effective national defense in a free enterprise economy requires that the best industrial capabilities be attracted to defense contracts. These capabilities will be driven away from the defense market if defense contracts are characterized by low profit opportunities. Consequently, negotiations aimed merely at reducing prices by reducing profits, with no realization of the function of profit, cannot be condoned. For each contract in which profit is negotiated as a separate element of the contract price, the aim of negotiation should be to employ the profit motive so as to impel effective contract performance by which overall costs are economically controlled. To this end, the profit objective must be fitted to the circumstances of the particular acquisition, giving due weight to each of the effort, risk, facilities investment, and special factors set forth in this subpart. This will result in a wider range of profits which, in many cases, will be significantly higher than previous norms.

#### 215.902 Policy.

(a)(1) The weighted guidelines method shall be used as the structured approach for determining profit or fee in

accordance with 215.905 and the following:

(i) The weighted guidelines method provides contracting officers with a technique that will insure consideration of the relative value of the appropriate profit factors in the establishment of a profit objective and the conduct of negotiations; and a basis for documentation of this objective, including an explanation of any significant departure from it in reaching a final agreement. The contracting officer's analysis of these profit factors is based on information available prior to negotiations. Such information is furnished in proposals, audit data, performance reports, preaward surveys, and the like. Except as set forth in 215.902(a)(2), the weighted guidelines method shall be used in the negotiation of all contracts where cost analysis is performed for:

(A) The manufacturing of supplies and equipment;

(B) Research and development as described in FAR Part 35, encompassing research, exploratory development, advanced development, engineering development, and operational systems development;

(C) Services as described in FAR Part 37.

(1) The profit objective for manufacturing contracts shall be computed, except as indicated in (5) below, using the manufacturing weighted guidelines method, which provides profit opportunity based on facilities capital investment.

(2) The profit objective for research and development contracts shall be computed using the research and development weighted guidelines method unless, in the judgment of the contracting officer, a significant amount of facilities is required for efficient contract performance, in which case the manufacturing weighted guidelines shall be used.

(3) The profit objective for service contracts shall be computed using the service contract weighted guidelines method unless, in the judgment of the contracting officer, a significant amount of facilities is required for efficient contract performance, in which case the manufacturing weighted guidelines shall be used.

(4) In determining whether a particular contract shall be classified as manufacturing, research and development, or services, primary reliance shall be placed on the nature of the work to be performed, as indicated by the coding for Item B8A of the DD Form 350 (see DoD 4105.61-M, Department of Defense Procurement Coding Manual, Volume 1),

notwithstanding the appropriation or negotiation authority used. The following guidelines shall apply:

(i) *Manufacturing Weighted Guidelines.* Contracts coded under Section I, Part C, Supplies and Equipment.

(ii) *Research and Development Weighted Guidelines.* Contracts coded under Section I, Part A, Research, Development, Test and Evaluation, except for contracts coded as AD2-, Defense Services, and A-6, Management and Support.

(iii) *Services Weighted Guidelines.* Contracts coded under Section I, Part B, Other Services and Construction; and under Section I, Part A, as AD2- and as A-. Note, however, that there are blanket exceptions for certain services (see 215.902(a)(2)).

(5) The categories listed above are intended to be used as a point of departure in determining which weighted guidelines method applies. Many contracts for research and development and for services will require a significant amount of facilities for efficient contract performance. When this is the case, the manufacturing weighted guidelines method shall be used. Similarly, certain contracts for the manufacture of small quantities of high technology supplies and equipment may not require a significant amount of facilities. In such cases, the research and development weighted guidelines method shall be used. Contracting officers shall apply sound judgment in determining which weighted guidelines method is most appropriate for a particular contracting situation. The difference in profit objectives that would result from the application of alternative weighted guidelines methods shall not be a consideration in making this determination.

(6) In determining whether a significant amount of facilities is required for efficient contract performance, the contracting officer should assess the facilities needed, including contractor owned and leased and Government owned. When there is a relatively small amount of facilities capital cost of money allocated to the contract because some facilities are provided through operating leases and by the Government, this does not necessarily mean that an insignificant amount of facilities is required for efficient contract performance.

(7) When a method other than the manufacturing weighted guidelines method is used to establish the prenegotiation profit objective, the profit objective shall be reduced by the amount of facilities capital cost of money allowed in accordance with

231.205-10. On cost-plus-award-fee contracts, the base fee shall be reduced by the amount of facilities capital cost of money or the contract shall contain a provision to disallow the cost.

(ii) The contractor's proposal should include cost information for evaluation and a total profit figure. Contractors shall not be required to submit the details of their profit objectives but they shall not be prohibited from doing so if they desire. Elaborate and voluminous presentations are neither required nor desired and may indicate a low index of cost effectiveness, which fact itself shall be taken into consideration by the contracting officer.

(iii) The negotiation process does not contemplate or require agreement on either estimated cost elements or profit elements, although the details of analysis and evaluation may be discussed in the fact-finding phase of the negotiation. If the difference between the contractor's profit objective and the contracting officer's profit objective is relatively small, no discussion of individual factors may be necessary. If the negotiating parties' objectives are relatively far apart, a disclosure of weightings and rationale by both parties may be made concerning the total assigned to contractor effort, contractor risk, facilities investment, and special factors. By thus developing a mutual understanding of the logic of the respective positions, an orderly progression to final agreement should result. Simultaneous, not sequential, agreement will be reached on cost, any incentive profit-sharing formulas or limitation on profits, and price. The profit objective is a part of an overall negotiation objective which, as a going-in objective, bears a distinct relationship to the target cost objective and any proposed sharing arrangement. Since the profit is merely one of several interrelated variables, the Government negotiator shall not complete the profit negotiation without simultaneously agreeing on the other variables. Specific agreement on the exact weights or values of the individual factors is not required and shall not be attempted.

(iv) The prime contractor may use the weighted guidelines or a structured approach that discriminates among different levels of investment if the acquisition would be subject to the weighted guidelines under a prime contract. (For applicability, see 230.570-1(c).) If the acquisition falls into one of the exceptions to the weighted guidelines (see 215.902(a)(2)), the prime contractor may use another method to establish profit objectives. In the absence of a structured approach that

discriminates among different levels of investment, similar to the weighted guidelines, the profit objective will be reduced by the amount of facilities capital cost of money allowed in accordance with FAR 31.205-10.

(v) The following factors shall be considered in all cases in which profit is to be specifically negotiated. The weight ranges listed after each factor shall be used in all instances where the weighted guidelines method is used.

#### WEIGHT RANGES

	Manufacturing <sup>1</sup> (pct)	R&D (pct)	Services (pct)
A. Contractor Effort:			
Material:			
Acquisition:			
Subcontract	1 to 5	1 to 5	1 to 5
Items:			
Purchased Parts:	1 to 4	1 to 4	1 to 4
Other Material:	1 to 4	1 to 4	1 to 4
Engineering: Direct	9 to 15	9 to 15	N/A
Labor:			
Manufacturing:	5 to 9	5 to 9	N/A
Direct Labor:			
Services:			
Direct Labor:	N/A	N/A	5 to 15
Overhead:	N/A	N/A	4 to 8
Other: General	6 to 8	6 to 8	6 to 8
Management:			
B. Contractor Risk:	0 to 8	0 to 7	0 to 4
C. Facilities:	16 to 20	N/A	N/A
Investment:			
D. Special Factors:			
Productivity:	( <sup>2</sup> )	N/A	N/A
Independent:	1 to 4	1 to 4	N/A
Development:			
Other:	-5 to +5	-5 to +5	-5 to +5

<sup>1</sup> An adjustment factor of .7 is applied to the results of the Contractor Effort evaluation to arrive at the dollar profit objective for this factor (see DD Form 1547). (Also, see 230.70.)

<sup>2</sup> See 15.905-2(a).

(vi) Under the weighted guidelines method, the contracting officer shall first measure the "Contractor's Effort" by the assignment of a profit percentage, within the designated weight ranges, to each element of contract cost recognized by the contracting officer. Although certain classifications of acceptable cost, including travel, subsistence, facilities, test equipment, special tooling, Federal manufacturers' excise taxes, and royalty expenses, may have been historically excluded from the base upon which profit has been computed, they shall not be excluded when using the weighted guidelines method. Not to be included for the computation of profit as part of the cost base is the amount calculated for the cost of money for facilities capital. How this cost is determined and how it will be applied and administered is fully set forth in 230.70.

(vii) The suggested categories under the Contractor's Effort are similar to those on the Contract Pricing Proposal (SF 1411). Often, individual proposals will be in a different format, but since these categories are broad and basic, they provide sufficient guidance to evaluate all other items of cost.

(viii) After computing a total dollar profit for the Contractor's Effort, the contracting officer then shall add the specific profit dollars assigned for Contractor's risk, facilities investment risk, and special factors. Weighted Guidelines Profit/Fee Objective (DD Form 1547) is to be used, as appropriate, to facilitate the calculation of this profit objective.

(ix) The weighted guidelines method was designed for arriving at profit or fee objectives for other than nonprofit organizations. However, if appropriate adjustments are made to reflect differences between profit and nonprofit organizations, the weighted guidelines method can be used as a basis for arriving at fee objectives for nonprofit organizations. Therefore, the policy of the Department of Defense is to use the weighted guidelines method, as modified in (B) below, to establish fee objectives that will stimulate efficient contract performance and attract the best capabilities of nonprofit organizations to defense-oriented activities. The modifications shall not be applied as deductions against historical fee levels but to the fee objective for such a contract, as calculated under the weighted guidelines method.

(A) For purposes of this subparagraph, nonprofit organizations are defined as those business entities organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from Federal income taxation under Section 501 of the Internal Revenue Code.

(B) For contracts with nonprofit organizations where fees are involved, the following adjustments are required in the weighted guidelines method.

(1) An adjustment of -1% of the total effort shall be assigned in all cases where the manufacturing weighted guidelines method is used. An adjustment of -3% of the total effort shall be assigned in all cases where the research and development or services weighted guidelines method is used.

(2) The weight range under "Contractor Cost Risk" shall be -1% to 0% in lieu of 0% to 8% for contracts with those nonprofit organizations, or elements thereof, identified by the Secretary of Defense or the Secretary of a Department (or their respective designees) as receiving sustaining

support on a cost-plus-a-fixed-fee basis from a particular Department or Agency of the Department of Defense.

(x) In making a judgment of the value of each factor, the contracting officer should be governed by the definition, description, and purpose of the factors, together with considerations for evaluating them as set forth herein.

(a)(2)(i) Under the following listed circumstances, other methods for establishing profit objectives may be used:

(A) Architect-engineering contracts;

(B) Management contracts for operation and/or maintenance of Government facilities;

(C) Construction contracts;

(D) Contracts primarily requiring delivery of material supplied by subcontractors;

(E) Termination settlements;

(F) Cost-plus-award-fee contracts;

(G) Contracts not expected to exceed \$500,000; and

(H) Unusual pricing situations where the weighted guidelines method has been determined to be unsuitable. Such exceptions shall be justified in writing and shall be authorized by the head of the contracting activity.

(ii) If the contracting officer makes a written determination that the pricing situation meets any of the circumstances set forth above and that application of the manufacturing weighted guidelines will result in an inequitable profit objective, other methods for establishing the profit objective may be used. These methods shall be supported in a manner similar to that used in the weighted guidelines (profit factor breakdown and documentation of profit objectives); however, investment or other factors that would not be applicable to the contract shall be excluded from the profit objective determination. It is intended that the methods will result in profit objectives for noncapital intensive contracts that are below those generally developed for capital intensive contracts.

#### 215.903 Contracting officer responsibilities.

(b) In analyzing profit, contracting officers should consider the following:

(1) When cost analysis is performed pursuant to 215.805-3, profit consideration shall be in accordance with the objectives set forth below. The Government should establish a profit objective for contract negotiations, which will—

(i) Motivate contractors to undertake more difficult work requiring higher skills and reward those who do so;

(ii) Allow the contractors an opportunity to earn profits commensurate with the extent of the cost risk they are willing to assume;

(iii) Motivate contractors to provide their own facilities and financing and to establish their competence through development work undertaken at their own risk and reward those who do so; and

(iv) Reward contractors for productivity increases. The weighted guidelines method set forth in 215.902 for establishing profit objectives is designed to provide reasonably precise guidance in applying these principles. This method, properly applied, will tailor profits to the circumstances of each contract in such a way that long-range, cost-reduction objectives will be fostered, and a spread of profits will be achieved that is commensurate with varying circumstances.

(2) Development of a profit objective should not begin until after a thorough—

(i) Review of proposed contract work;

(ii) Review of all available knowledge regarding the contractor, including capability reports, audit data, preaward survey reports and financial statements, as appropriate; and

(iii) Analysis of the contractor's cost estimate and comparison with the Government's estimate or projection of cost.

(3) A profit objective is that part of the estimated contract price objective or value which, in the judgment of the contracting officer, is appropriate for the acquisition being considered, covering the profit or fee element of the price objective. This objective should realistically reflect the total overall task to be performed and the requirements placed on the contractor. Prior to the negotiation of a contract, change order, or contract modification where cost analysis is undertaken, the negotiator shall develop a profit objective. The weighted guidelines method, if applicable, shall be used for developing this profit objective.

(f) In cases where the change or modification calls for substantially different work, then the basic contract profit and the contractor's effort may be radically changed and a detailed analysis is necessary. Also, if the dollar amount of the change or contract modification is very significant in comparison to the contract dollar amount, a detailed analysis shall be made.

#### 215.905 Profit-analysis factors.

##### 215.905-1 Common factors.

(a) This factor is a measure of how much the contractor is expected to

contribute to the overall effort necessary to meet the contract performance requirements in an efficient manner.

This factor, which is apart from the contractor's responsibility for contract performance, takes into account what resources are necessary and what the contractor must do to accomplish a conversion of ideas and materials into the final product called for in the contract. This is a recognition that, within a given performance output or within a given sales dollar figure, necessary efforts on the part of individual contractors can vary widely in both value and quantity, and that the profit objective should reflect the extent and nature of the contractor's contribution to total performance. The evaluation of this factor requires an analysis of the cost content of the proposed contract as follows.

(1) Analysis of these cost items shall include an evaluation of the managerial and technical effort necessary to obtain the required purchased parts, subcontracted items, and other materials, including special tooling. This evaluation shall include consideration of the number of orders and suppliers and whether established sources are available or new sources must be developed. The contracting officer shall also determine whether the contractor will obtain the material and tooling by routine orders from readily available supplies (particularly those of substantial value in relation to the total contract cost) or by detailed subcontracts for which the prime contractor will be required to develop complex specifications involving creative design or close tolerance manufacturing requirements. Consideration shall be given to the managerial and technical efforts necessary for the prime contractor to administer subcontracts and select subcontractors, including efforts to break out subcontracts from sole sources through the introduction of competition. These determinations shall be made for purchases of raw materials or basic commodities, purchases of processed material, including all types of components of standard or near standard characteristics, and purchases of pieces, assemblies, subassemblies, special tooling, and other products special to the end item. In the application of this criterion, it should be recognized that the contribution of the prime contractor to his purchasing program may be substantial. This may apply in the management of subcontracting programs involving many sources, new complex components and instrumentation, incomplete specifications, and close surveillance by

the prime contractor's representative. Recognized costs proposed as direct material costs, like scrap charges, shall be treated as material for profit evaluation. If intracompany transfers are accepted at price, they shall be evaluated as material. Other intracompany transfers shall be evaluated by individual components of cost, i.e., material, labor, and overhead. Normally, the lowest unadjusted weight for direct material is 2%. A weighting of less than 2% would be appropriate only in unusual circumstances when there is a minimal contribution by the contractor.

(2) Analysis of the engineering, manufacturing, and service labor items of the cost content of the contract shall include evaluation of the comparative quality and level of the engineering talents, manufacturing and service skills, and experience to be employed. In evaluating engineering labor for the purpose of assigning profit dollars, consideration shall be given to the amount of notable scientific talent or unusual or scarce engineering talent needed in contrast to journeyman engineering effort or supporting personnel. The diversity, or lack thereof, of scientific and engineering specialties required for contract performance and the corresponding need for engineering supervision and coordination shall be evaluated. Similarly, the variety of manufacturing labor skills required and the contractor's manpower resources for meeting these requirements shall be considered. Service contract labor shall be evaluated in a like manner by assigning higher weights to engineering or professional-type skills and lower weights to semiprofessional or other type skills required for contract performance. A weighting in excess of 10% for service contract labor will be justified normally only when the quality, skill, and experience of the service contract labor warrant a corresponding weighting under a research and development contract.

(3)(i) Analysis of conversion related indirect costs and general management (FAR 15.905-1(a)(4)) includes the evaluation of the makeup of these expenses and how much they contribute to contract performance. This analysis shall include a determination of the amount of labor within these overhead pools and how this labor would be treated if it were considered as direct labor under the contract. The allocable labor elements shall be given the same profit consideration that they would receive if they were treated as direct labor. The other elements of these overhead pools shall be evaluated to

determine whether they are routine expenses, like utilities, depreciation, and maintenance, and hence given lesser profit consideration, or whether they are significant contributing elements. The composite of the individual determinations in relation to the elements of the overhead pools will be the profit consideration given the pools as a whole. The procedure for assigning relative values to these overhead expenses differs from the method used in assigning values of the direct labor. The upper and lower limits assignable to the direct labor are absolute. In the case of overhead expenses, individual expenses may be assigned values outside the range as long as the composite ratio is within the range.

(ii) It is not necessary that the contractor's accounting system break down the overhead expenses within the classifications of engineering overhead, manufacturing overhead, and general and administrative expenses, unless dictated by cost accounting standards (CAS). The contractor whose accounting system only reflects one overhead rate on all direct labor need not change the system (if CAS-exempt) to correspond with the above classifications. In evaluating such a contractor's overhead rate, the contracting officer can break out the applicable sections of the composite rate which can be classified as engineering overhead, manufacturing overhead, and general and administrative expenses, and follow the appropriate evaluation technique.

(iii) There is a critical factor to consider in the determination of profit in this area. Management problems surface in various degrees and the management expertise exercised to solve them shall be considered as an element of profit. For example, a new program for an item that is on the cutting edge of the state of the art will cause more problems and require more managerial time and abilities of a higher order than a follow-on contract. If new contracts create more problems and require a higher profit weight, follow-ons shall be adjusted downward as many of the problems shall have been solved. In any event, an evaluation shall be made of the underlying managerial effort involved on a case-by-case basis.

(iv) It may not be necessary for the contracting officer to make a separate profit evaluation of overhead expenses with each acquisition of substantially the same product with the same contractor. Where an analysis of the profit weight to be assigned to the overhead pool has been made, the weight assigned may be used for future contracts with the same contractor until

there is a change in the cost composition of the overhead pool or the contract circumstances, or until the factors discussed in (iii) above are relevant.

(4) See (a)(3) above.

(b) In evaluating contract cost risk, contracting officers should also consider the following:

(1) This factor reflects the policy of the Department of Defense that contractors bear an equitable share of contract cost risk, and to compensate them for the assumption of that risk. A contractor's risk associated with costs to perform under a Government contract is usually minimal under cost-reimbursement type contracts. However, as acquisitions progress from basic research through follow-on production and supply contracts, the use of increased contractor-risk-assumption type contracts is appropriate for increasing the contractor's responsibility for performance. The generally accepted progression of the acquisition spectrum ranging from basic research through supply acquisitions and from cost to firm fixed-price contracts, is shown below:

*Type of effort and type of contract*

1. Basic Research—Cost, CPFF
2. Applied Research—Cost, CPFF
3. Exploratory Development—Cost, CPFF
4. Advanced Development—CPFF, CPAF
5. Engineering Development—CPFF, CPAF, CPIF
6. Operational System Development—CPMF, CPAF, FPI
7. Final Production—FPI
8. Follow-on Production—FPI, FFP
9. Supply—FFP

(2) In developing the prenegotiation profit objective, the contracting officer will need to consider strongly the type of contract anticipated to be negotiated and the associated contractor risk when selecting the position in the weight range for profit that is appropriate for the risk to be borne by the contractor. This is one of the most important factors in arriving at prenegotiation profit objectives.

(3) Evaluation of this risk requires a determination of (i) the degree of cost responsibility the contractor assumes, (ii) the reliability of the cost estimates in relation to the task assumed, and (iii) the complexity of the task assumed by the contractor. This factor is specifically limited to the risk of contract costs. Thus, such risks on the part of the contractor as reputation, losing a commercial market, losing potential profits in other fields, or any risk on the part of the contracting activity, such as the risk of not acquiring an effective weapon, are not within the scope of this factor.

(4) The first and basic determination of the degree of cost responsibility assumed by the contractor is related to the sharing of total risk by contract cost by the Government and the contractor through the selection of contract type. The extremes are a cost-plus-fixed-fee contract, requiring only that the contractor use his best efforts to perform a task, and firm fixed-price contract for a complex item. A cost-plus-fixed-fee contract reflects a minimum assumption of cost responsibility, whereas a firm fixed-price contract reflects a complete assumption of cost responsibility.

(5) The second determination is that of the reliability of the cost estimates. Sound price negotiation requires well-defined contract objectives and reliable cost estimates. Prior production experience assists the contractor in preparing reliable cost estimates on new contracts for similar equipment. An excessive cost estimate reduces the possibility that the cost of performance will exceed the contract price, thereby reducing the contractor's assumption of contract cost risk.

(6) The third determination is that of the difficulty of the contractor's task. The contractor's task can be difficult or easy, regardless of the type of contract.

(7) Contractors are likely to assume greater cost risk only if contracting officers objectively analyze the risk incident to proposed contracts and are willing to compensate contractors for it. Generally, a cost-plus-fixed-fee contract will not justify a reward for risk in excess of 0.5%, nor will a firm fixed-price contract justify a reward of less than the minimum on the weighted guidelines. Where proper contract-type selection has been made, the reward for risk, by contract type, will usually fall into the following percentage ranges:

(i) Type of contract and percentage ranges for profit objectives developed by using the manufacturing weighted guidelines method:

Cost-Plus-Fixed Fee.....	0 to 0.5%
Cost-Plus-Incentive Fee	
With Cost Incentives Only.....	1 to 2%
With Multiple Incentives.....	1.5 to 3%
Fixed-Price-Incentive	
With Cost Incentives Only.....	3 to 5%
With Multiple Incentives.....	4 to 6%
Prospective Price	
Redetermination.....	4 to 6%
Firm Fixed-Price.....	6 to 8%

(ii) Type of contract and percentage ranges for profit objectives developed by using the research and development weighted guidelines method:

Cost-Plus-Fixed Fee.....	0 to 0.5%
Cost-Plus-Incentive Fee	
With Cost Incentives Only.....	1 to 2%
With Multiple Incentives.....	1.5 to 3%
Fixed-Price-Incentive	

With Cost Incentives Only.....	2 to 4%
With Multiple Incentives.....	3 to 5%
Prospective Price	
Redetermination.....	3 to 5%
Firm Fixed-Price.....	5 to 7%

(iii) Type of contract and percentage ranges for profit objectives developed by using the service contract weighted guidelines method:

Cost-Plus-Fixed Fee.....	0 to 0.5%
Cost-Plus-Incentive Fee.....	1 to 2%
Fixed-Price-Incentive.....	2 to 3%
Firm Fixed-Price.....	3 to 4%

(A) These ranges may not be appropriate for all acquisitions. For instance, a fixed-price-incentive contract that is closely priced with a low ceiling price and high incentive share may be tantamount to a firm fixed-price contract. In this situation, the contracting officer may determine that a basis exists for high confidence in the reasonableness of the estimate and that little opportunity exists for cost reduction without extraordinary efforts. On the other hand, a contract with a high ceiling and low incentive formula can be considered to contain cost-plus-incentive-fee contract features. In this situation, the contracting officer may determine that the Government is retaining much of the contract cost responsibility and that the risk assumed by the contractor is minimal. Similarly, if a cost-plus-incentive-fee contract includes an unlimited downward (negative) fee adjustment on cost control, it could be comparable to a fixed-price-incentive contract. In such a pricing environment, the contracting officer may determine that the Government has transferred a greater amount of cost responsibility to the contractor than is typical under a normal cost-plus-incentive-fee contract.

(B) The contractor's subcontracting program may have a significant impact on the contractor's acceptance of risk under a contract form. It can cause risk to increase or decrease in terms of both cost and performance. This consideration shall be a part of the contracting officer's overall evaluation in selecting a factor to apply for cost risk. It may be determined, for instance, that the prime contractor has effectively transferred real cost risk to a subcontractor and the contract cost risk evaluation, as a result, may be below the range that would otherwise apply for the contract type being proposed. This situation will be found to exist only in a few extraordinary situations under circumstances of (i) a follow-on production contract, in which a substantial portion of the total contract costs represents a single subcontract or a few subcontracts, (ii) the fullest incentive reward and penalty feature on

cost performance having been passed by the prime contractor to the subcontractor. In an acquisition in which all of these circumstances are found to exist, a lower than usual profit weight may be applied to the aggregate of all recognized costs including the subcontract portion. The contract cost risk evaluation shall not be lowered, however, merely on the basis that a substantial portion of the contract costs represents subcontracts without any substantial transfer of contractor's risk, since this can result eventually in a lessening of the amount of work let on subcontracts.

(C) In making a contract cost risk evaluation in an acquisition that involves definitization of a letter contract, unpriced change orders, and unpriced orders, under BOAs, consider the effect on total contract cost risk as a result of having partial performance before definitization. Under some circumstances it may be reasoned that the total amount of cost risk has been effectively reduced. Under other circumstances it may be apparent that the contractor's cost risk remained substantially unchanged. To be equitable, the determination of a profit weight for application to the total of all recognized costs, both those incurred and those yet to be expended, must be made with consideration to all attendant circumstances and not be just the portion of costs incurred, or percentage of work completed, prior to definitization.

(D) Time and material, labor hour, overhaul contracts priced on a time and material basis, and firm-fixed-price, level-of-effort term contracts shall be considered to be cost-plus-fixed-fee contracts for the purpose of establishing a profit weight in the evaluation of the contractor's assumption of contract cost risk.

(E) In determining the contract cost risk percentage under CONTRACTOR RISK in profit factors of the weighted guidelines provided in 215.902(a)(1), it is appropriate to consider additional risks associated with foreign military sales (FMS). To be recognized, an additional cost risk factor shall be demonstrated by the contractor to be significant and over and above that normally present in DoD contracts for similar items. If an additional cost risk factor associated with FMS is recognized, the total profit under the CONTRACTOR RISK Section shall not exceed the limits set forth in FAR 15.903(d) for different types of contracts. For example, when the manufacturing weighted guidelines method is used, the limitation will be 0.5% for CPFF contracts, 3% for CPIF contracts, 6% for FPI contracts, and 8%

for FFP contracts. The additional cost risk factor shall not apply to FMS made from inventories or stocks nor to acquisitions made under DoD cooperative logistics support arrangements.

(c) See 215.905-2.

(d) This element relates to the consideration to be given in the profit objective in recognition of the investment risk associated with the facilities employed by the contractor. Sixteen to 20% of the net book value of facilities capital allocated to the contract is the normal range of weight for this profit factor. The key factors that the contracting officer shall consider in evaluating this risk are:

- (1) The overall cost effectiveness of the facilities employed;
- (2) Whether the facilities are general purpose or special purpose items;
- (3) The age of the facilities;
- (4) The undepreciated value of the facilities;
- (5) The relationship of the remaining writeoff life of the investment and the length of the program(s) or contract(s) on which the facilities are employed; and

(6) Special contract provisions that reduce the contractor's risk of recovery of facilities capital investment (termination protection clauses, multiyear cancellation ceilings, etc.). To assist in evaluating new investment, the contracting officer should request the contractor to submit reasonable evidence that the new facilities are part of an approved investment plan and that achievable benefits to the Government will result from the investment. New industrial facilities and equipment shall receive maximum weight when they—

- (i) Are to be acquired by the contractor primarily for defense business;
- (ii) Have a long service life;
- (iii) Have a limited economic life due to limited alternative uses; and
- (iv) Reduce the total life cycle cost of the products produced for the Department of Defense.

To the extent that the new investment represents routine replacement of existing assets, a lesser weight shall be assigned.

(e) See 215.905-2.

(f) See 215.905-2.

#### 215.905-2 Additional factors.

(a) Productivity.

(1) General. A key objective of the DoD profit policy is to reduce the cost of defense preparedness by incentivizing defense contractors' investment in modern cost-reducing facilities and other improvements in efficiency. To the

extent that costs serve as the basis for pricing (both cost and profit), success in reducing costs can serve, in turn, to reduce profit dollars opportunity. For example, a fixed-price incentive-type contract is typically used for the first production contract of a major weapon system program. The incentive to increase productivity and reduce cost within one contract works against a contractor on follow-on production contracts because the reduced level of cost becomes a part of the basis for pricing subsequent contracts. In order to mitigate the loss of profit dollars opportunity that occurs when costs are reduced due to productivity gains, a special "Productivity Reward" may be included in the prenegotiation profit objective of a pending acquisition under certain circumstances.

(2) *Applicability criteria.* The "Productivity Reward" may be applied when the following criteria are met:

(i) The pending acquisition involves a follow-on production contract.

(ii) Reliable actual cost data is available to establish a fair and reasonable cost baseline.

(iii) Changes made in the configuration of the item being acquired are not of sufficient magnitude to invalidate price comparability.

(3) *Implementation procedures.* The amount of productivity reward for a given contract is based on the estimated cost reduction that can be attributed to productivity gains. Set forth below are principles and procedures that apply to estimating cost reductions and calculating the productivity reward:

(i) The contractor shall prepare and support the cost reduction estimate.

(ii) The overall contract cost decrease shall be based on estimated decreases measured at the unit cost level.

(iii) The lowest average unit cost (exclusive of profit) for a preceding production run shall serve as the unit cost baseline.

(iv) A technique shall be employed to determine that portion of the cost decrease attributable to productivity gains as opposed to the effects of quantity differences between the base contract and the pending acquisition.

(v) When the parties agree that the estimated overall contract cost decrease is materially affected by price level differences between the base period and the current point in time, an economic price adjustment may be applied to the estimate.

(vi) The productivity reward shall be calculated by multiplying the contract cost decrease due to productivity gains by the base profit objective rate.

(vii) The degree of review and validation of the data supporting the

productivity reward calculation shall be commensurate with the materiality of this profit element in relation to the overall price objective.

There may be several methods advanced, by both contracting officers and contractors, to quantify productivity gains. Any technique may be acceptable; *Provided* it takes into account equitably the principles and procedures listed above.

(b) *Independent development.*

Contractors who develop items that have potential military application without Government assistance are entitled to special profit consideration on those items as a special profit factor to be considered within the weighted guidelines in arriving at a profit objective. One to 4% of recognized cost is established as the normal range of value for this profit factor. The criteria for selection of the specific percentage shall be the importance of the development in advancing defense purposes, the demonstrable initiative in determining the need and application of the development, the extent of the contractor's cost risk, and whether the development cost was recovered directly or indirectly from Government sources.

(c) *Other factors.* A composite percentage weight within the range of -5% to +5% of the basic profit objective may be assigned to other profit factors in arriving at the total profit objective. These other profit factors, which may apply to special circumstances or particular acquisitions, relate to contractor participation in the Government's Small Business, Small Disadvantaged Business, and Labor Surplus Programs, and to special situations not specifically set forth elsewhere in these guidelines. Participation that is rated as merely satisfactory shall be assigned a weight of zero, generally. Evidence of energetic support may justify a plus weight, and poor support a negative weight. Special situations may be assigned either a plus or minus weight, depending on the particular circumstances of the acquisition.

(1) *Small business and small disadvantaged business participation.* The contractor's policies and procedures that energetically support Government small business and small disadvantaged business subcontracting programs, pursuant to FAR Part 19, shall be given favorable consideration. Any unusual effort that the contractor displays in subcontracting with small business or small disadvantaged business concerns, particularly for development-type work likely to result in later production

opportunities, and the overall effectiveness of the contractor in subcontracting with and furnishing assistance to such concerns shall be considered. Conversely, failure or unwillingness on the part of the contractor to support Government small business or small disadvantaged business policies shall be viewed as evidence of poor performance for the purpose of establishing a profit objective.

(2) *Labor surplus area participation.* A similar review and evaluation (as required in (1) above) shall be given to the contractor's policies and procedures supporting the Government's Labor Surplus Area Program, pursuant to FAR Part 20. In particular, favorable consideration shall be given to a contractor who (i) makes a significant effort to help find jobs and provide training for the hardcore unemployed, or (ii) promotes maximum subcontractor utilization of certified eligible concerns, as defined in FAR 20.101.

(3) *Energy conservation.* Favorable consideration shall be given to the contractor's initiatives and accomplishments in the conservation of energy.

(4) *Special situations.* Particular situations may justify use of a profit factor other than those specifically identified in these guidelines. These situations shall be identified and the reason(s) for their use documented in the records of price negotiation. Examples of such situations include contractor effort to exploit additional production cost-reduction opportunities or to improve or develop new product/manufacturing technologies to reduce production cost.

#### Subpart 215.10—Preaward, Award, and Postaward Notifications, Protests and Mistakes

##### 215.1001 Notifications to unsuccessful offerors.

(b)(1) Within DoD, the threshold for notification is \$25,000 in accordance with 10 U.S.C. 2304(g).

(b)(2) Acquisitions processed under small purchase procedures are exempt from the requirements of FAR 15.1001(b)(2).

(c) Within DoD, the threshold for notification is \$25,000 in accordance with 10 U.S.C. 2304(g).

##### 215.1003 Debriefing of unsuccessful offerors.

(a) Debriefings shall be provided at the earliest feasible time after contract award. They shall be conducted by purchasing office officials familiar with

the rationale for the selection decision and contract award.

#### 215.1070 Classified information.

Classified information shall be furnished only in accordance with regulations governing classified information.

### PART 216—TYPES OF CONTRACTS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 216.1—Selecting Contract Types

##### 216.101 General.

(a) In addition, the role of profit in selecting contract type includes the following:

(1) Profit, generally, is the basic motive of business enterprise. Both the Government and its defense contractors should be concerned with harnessing this motive to work for the effective and economical contract performance required in the interest of national defense. To this end, the parties should seek to negotiate and use the contract type best calculated to stimulate outstanding performance. The objective should be to insure that outstandingly effective and economical performance is met by high profits, mediocre performance by mediocre profits, and poor performance by low profits or losses. The proper application of these objectives on a contract by contract basis should normally result in a range of profit rates.

(2) Success in harnessing the profit motive begins with the negotiation of sound performance goals and standards. This objective is met if the contractor either benefits or loses in relation to achieving or failing to achieve realistic targets. When award is based on effective price competition, there is reasonable assurance that the contract price represents a realistic pricing standard, including a profit factor which reflects an appropriate return to the contractor for the financial risk assumed in undertaking performance at the competitive price. In the absence of competitive forces, however, the contract type selected should provide for a profit factor that will tie profits to the contractor's efficiency in controlling costs and meeting desired standards of performance, reliability, quality, and delivery. Therefore, in noncompetitive situations, the degree to which available cost estimates are realistic, and the degree of uncertainty affecting the work to be performed, should be carefully considered in determining which type of

contract should be selected and how it should be used.

(3) The policies in (1) and (2) above require that the contractor assume a reasonable degree of cost responsibility as early in contract performance as is possible. This can be achieved only through vigorous contract administration and effort on the part of both parties to assure timely pricing. Particularly in fixed-price type contracts providing the price revisions, delays in pricing actions by either party may distort the type of contract which has been agreed upon and such delays must be avoided.

(4) When a contract type providing for a reasonable degree of contractor cost responsibility cannot be negotiated on a timely basis, due to the contractor's unwillingness to assume reasonable risk, profits should be negotiated so as to reflect this fact.

(5) Notwithstanding the validity of profit as a motivating factor in general, there are situations, particularly in the early stages of research and development, in which the profit motive may be secondary. Harnessing the profit motive at the early stages of such procurements may not be effective or desirable in view of the high degree of technical and cost risk associated with performance or consistent with achieving desired technical objectives. The contracting officer's objective should still be "effective and economical performance," but the relative weight of these factors must be kept in balance (see 216.104-(S-71)). Of course, outstanding performance can still be rewarded under a research and development contract, by proper application of incentive techniques.

(6) The firm fixed-price contract is the most preferred type for harnessing the profit motive because the contractor accepts full cost responsibility, and the relationship between cost control and profit dollars is established at the outset of the contract. Accordingly, when a reasonable basis for firm pricing exists (see 216.202), the firm fixed-price contract shall be used, because its use under these circumstances will provide the contractor with a maximum profit incentive to control the costs of performance. However, the contracting officer must be alert to the fact that in certain situations the use of special contract incentive provisions may be more appropriate. While maximum incentive to a contract exists in a firm fixed-price contract, the basis for the application of firm fixed-price is the knowledge that the price has been arrived at either through competition or through sound pricing techniques which keep pricing uncertainties to a minimum.

When contracting for research and development, or when price competition is not present, and (i) when the cost or pricing data available does not permit sufficiently realistic estimates of the probable cost of performance, or (ii) uncertainties surrounding the contract performance cannot be sufficiently identified to evaluate their impact on price, the use of a type of contract other than firm fixed-price should be considered. For example, a profit incentive to control costs can be achieved through use of the fixed-price incentive contract, and to a lesser degree, the cost-plus-incentive-fee contract, when appropriate target costs and incentive arrangements can be negotiated.

(b) The specific type of contract should be determined by the degree of risk in contract performance. When the risk is minimal or can be predicted with an acceptable degree of certainty, a firm fixed-price contract is preferred. However, as the uncertainties become more significant, other fixed price or cost type contracts should be employed to accommodate these uncertainties and to avoid placing too great a cost risk on the contractor.

##### 216.102 Policies.

(d) Set forth below is a format for the D&Fs to be made by the contracting officer with respect to the use of a cost, cost-plus-fixed-fee, or incentive type contract, as required by 10 U.S.C. 2306(c) (See FAR 16.301-3(c) and FAR 16.403(c)). The format may be modified as appropriate.

(Military Department or Agency)

#### Determination and Findings

##### Authority To Use a (1) Contract

Upon the basis of the following findings and determination which I hereby make pursuant to the authority of 10 U.S.C. 2306(c), the proposed contract described below may be entered into on a (1) basis.

#### Findings

1. The (2) proposes to enter into a (1) contract for the acquisition of (3) at an estimated cost of \$ (4).
2. The work to be performed is (5).

#### Determination

1. It is impracticable to secure services of the kind or quality required without the use of the proposed type of contract.(6)  
(Alt: The use of the proposed type of contract is likely to be less costly than other methods.)(6)

(Alt: It is impracticable to secure services of the kind or quality required without the use of the proposed type of contract and the use of such type of contract is likely to be less costly than any other method.)(6)

2. The estimated cost of the proposed contract is \$ (4).(7)

## Date \_\_\_\_\_

## Notes

- (1) Enter type of contract to be used, i.e. fixed-price incentive, cost-plus-incentive-fee, cost, or cost-plus-fixed-fee.
- (2) Contracting activity.
- (3) Brief description of supplies or services.
- (4) Enter amount to nearest thousand.
- (5) Describe the nature of the work to be performed and set forth the facts (for the type of contract proposed, see FAR Part 16) that shows why it is impracticable to secure supplies or services of the kind or quality required without the use of such type of contract, or that such method of contracting is likely to be less costly than other methods. The supporting facts should be confined to those pertinent to the specific determination being made. However where the facts adequately support alternative determinations, they should be set forth conjunctively when conjunctive determinations are to be used.
- (6) Use the determination responsive to the findings. See Note 5 above.
- (7) Determination to be made when a cost-plus-fixed-fee contract is proposed.

**216.104 Factors in selecting contract types.**

(S-70) *Stability of design.* Other factors to consider are stability of design, which in turn may influence such subordinate considerations as the adequacy and firmness of specifications, and the availability of relevant historical pricing data and prior production experience and adequacy of the contractor's estimating system.

(S-71) *Other factors based on development stage.*

(1) *Research and development (R&D).* The selection of the appropriate contract type is, in the final analysis, the responsibility of the contracting officer. However, because of the importance of technical considerations at the R&D stage, the choice of contract type shall not be made without obtaining the recommendations of cognizant technical personnel. Generally, the selection of contract type should also be discussed with prospective contractors. Where appropriate, R&D solicitations should permit prospective contractors to propose an alternative contract type. Any counterproposal must be supported by the contractor's rationale for his choice. The contracting officer shall include a statement in the file, setting forth his rationale for the type of contract ultimately selected. The categories of Research, Exploratory Development, Advanced Development, Engineering Development and Operational Systems Development, represent the spectrum of the R&D cycle and were so designated to provide an appropriate breakdown of R&D effort for management purposes. Each category has a prime technical or functional

objective and certain distinctive features. It should not be inferred, however, that each category is a discrete step in the R&D process with a clear beginning and end entirely separate and distinct each from the other. In the latter categories of development, it is possible for different parts of a project to fit several different category definitions. Thus, a project properly categorized as Engineering Development may include subsystem work or elements of work that are, because of their particular technical state of development, truly Advanced Development, or in rare cases, even Exploratory Development. Again, the contract must be selected to fit the work required, not selected solely on the basis of the classification of the overall program.

(2) *Research and exploratory development.* The categories of Research and Exploratory Development form a logical grouping of the R&D process at one end of the spectrum. In Research and Exploratory Development contracting, the nature of the work, the usual lack of definitive requirements, the inability to measure technical objectives, the inability to measure risk, the amount of government technical direction and control desired, the lack of competition, and whether the contractor will be an educational institution, commercial company, or a not-for-profit organization, may be primary consideration in choosing the type of contract. Price is not necessarily the primary factor in determining the contract type. While no restriction exists on the type of contract which may be used, the nature of the work in these categories most frequently necessitates the negotiation of a CPAF, CPFF term, cost-no-fee, or cost-sharing contract. In cases where the level of contractor effort desired can be identified and agreed upon in advance of performance, negotiation of a firm fixed-price level of effort contract may be appropriate. Incentive type contracts should not be used unless the contractor and Government agree that an incentive arrangement is desirable, can be effective, and, upon completion, can be evaluated in terms of the incentives.

(3) *Advanced development.* The primary objective of Advanced Development is to determine and demonstrate, experimentally, the acceptability of the technical, economic, logistic and operational characteristics of one or more advanced concepts considered suitable for solution of a clearly stated military problem or technical objective. Advanced development provides the development effort which couples the inventory of

science, technological and feasibility concepts derived from research and exploratory development to the end use oriented engineering and operational system developments. Included in this is the experimental demonstration of advanced technologies, equipment, subsystems, or systems, as well as the study, design, development, test and evaluation of advanced or innovative hardware, equipment or instrumentation necessary to provide a basis for selection among alternatives. It includes systems analyses tradeoff studies, cost effectiveness analyses and particularly exploratory technological effort directly responsive to the objectives of the specific advanced development. Further, it includes conceptual effort required to generate the information to satisfy the prerequisites to initiation of system development wherein advanced development efforts are aimed at risk reduction and providing feasibility—often referred to as the validation phase or prototype phase. It is in this category that the first significant hardware for test is developed. In this broad category of work, selection of the best contract type should be made only after careful identification of the specific nature of the work required. No restriction exists as to the type of contract that may be used for work in this category. The nature of the work, however, often necessitates the use of CPFF completion type contracts. Incentive contracts can be effectively used in this category when realistic, measurable targets can be identified and program success can be predicted with a reasonable degree of accuracy. Contracts with only cost incentive should not be used in procurement where, at the outset, it can be expected that there will be a large number of major technical changes in the project or where actions beyond the control of the contractor may influence the just determination of the contractor's achievement. Competition may be used in these efforts for risk reduction, design innovation and cost reduction.

(4) *Engineering development and operational systems development.* Engineering and Operational Systems Development, because of many similarities, forms a logical grouping in the spectrum of R&D categories. These categories, the ultimate aim of which is production and development, include all effort the primary objective of which is the engineering design and final engineering demonstration of the technical, economic, logistic and operational characteristic of an experimentally feasible and acceptable system, equipment, subsystem, component or process judged to be the

optimum solution to clearly stated military problems or technical objectives. In Engineering Development, such effort is founded on the probability of eventual procurement for inventory and use, and, therefore, includes effort leading to the demonstration of acceptability for such procurement. Operational Systems Development effort has the primary objectives of producibility demonstration and R&D support of final service test of the logical and operational development of an acceptable system, equipment, subsystem or component, approved for procurement and operational deployment or otherwise specifically approved for inclusion in this category. It may include the building of one or more production prototypes utilizing all processes, tooling, and test equipment considered for the production process thereby constituting a demonstration and qualification of the production process. Even when the overall project is in Engineering or Operational System Development, there may be integral supporting tasks that are still in the Advanced Development stage and the contract type for these tasks should be selected accordingly. The type of contract selected should be decided on the basis of major factors such as: (i) The definitiveness of the project at this stage and its bearing on the accuracy of cost estimates; (ii) the completion schedule required for satisfactory operational deployment; (iii) the degree of risk and uncertainty expected; (iv) the ability to establish meaningful and measurable incentives; (v) the need for effort overlapping that of earlier development stages; (vi) the desirability of firm technical direction by the Government; and (vii) the degree of configuration control to be exercised. Any one or combination of these factors could have a direct bearing on the type of contract selected. Cost reimbursement type contracts are preferred to all development efforts and particularly for major defense systems. When risk has been reduced to the extent that realistic pricing can occur, fixed price type contracts should be used, e.g., when a program has reached the final stages of development and technical risks are minimal. The use of letter contracts shall be minimized.

#### Subpart 216.2—Fixed-Price Contracts

##### 216.203-4 Contract clauses.

(a) In addition, the clause should normally be used only when the total contract price is over \$5,000 and delivery is not to be completed within six months after the contract date.

(b) In addition, the clause should normally be used only when the total contract price is over \$5,000 and delivery is not to be completed within six months after the contract date.

(c)(1) In addition, the clause shall be limited to contracts in which the price exceeds \$50,000 and the period of performance exceeds six months unless its use otherwise is approved by the Chief of the contracting office. An appropriate modification of the clause may be used in advertised procurements. Further, the clause may be modified by increasing the 10-percent limit on aggregate increases specified in subparagraph (c)(4) of the clause upon approval by the chief of the contracting office.

(3) The following sample format illustrates a type of schedule description that may be used:

The following types of labor and material are subject to price adjustment pursuant to the "Economic Price Adjustment—Labor and Material" clause of this contract.

CONTRACT ITEM NO. 1

Types of labor and material	Rates of pay and material prices	Quantities and direct costs per unit of procurement
Drill press operator	\$3.00/hour No fringe benefits included.	20 min.—\$1.00.
	\$3.00	
Welder	\$2.75/hour .05/hour—vacation pay. 20/hour—pension plan.	
	\$3.00	10 min.—\$0.50.
Copper sheet	\$0.40/lb.	2 lb.—\$0.80.
Purchased parts:		
(1) ABC tube X5721.	\$1.00 each	3 ea.—\$3.00.
(2) XYZ part #9348.	\$0.50 each	10 ea.—\$5.00.

(c)(4) Also, if the specific terms and conditions of the authorized clause are not applicable, a modified economic price adjustment clause to cover increases or decreases in the actual costs incurred by the contractor for labor or materials may be included if it is consistent with the above guidelines and is approved by the Department concerned.

(iv) Make the full amount of decrease in the labor rates and fringe benefits or unit prices for materials.

(d)(3) The following factors may be considered in preparing a price adjustment clause meeting the criteria above including construction of appropriate indices:

(i) The clause should not be overly complex.

(ii) Normally, the clause should not provide either a ceiling or a floor for adjustment unless adjustment is based on indices below the four digit level of the Bureau of Labor Statistics Producer Price Index or the Wage and Income Series by Standard Industrial Classification (Labor);

(iii) Normally, the clause should cover all potential economic fluctuations within the original contract period of performance;

(iv) The clause must have a positive and accurate identification of the applicable index(es) upon which adjustments will be based and provide appropriate economic fluctuation in the event of the discontinuance of the publication of the movement of the designated index. This might include the substitution of another index if the time remaining would so justify and an appropriate index is reasonably available, or some other method for repricing of the remaining portion of the work to be performed. There should not normally be any need to make an adjustment in the event computation of the identified index is altered; however, provision may be made to adjust the economic fluctuation computations in the event there is such a substantial alteration to the method of computing the index as to negate the original intent of the parties. When an index to be used is subject to revision (e.g., the Bureau of Labor Statistics Producer Price Indexes), the economic price adjustment clause shall further specify that any economic price adjustment shall be based upon the applicable revised index;

(v) An index should be structured to encompass a large sample of relevant items yet bear a logical relationship to the type of contract costs being measured. The basis of the index should not be so large and diverse that it is significantly affected by fluctuations not relevant to the contract performance, yet must be significantly broad so as to assure the minimal effect of any single company, including the anticipated contractors.

(vi) Construction of an index is largely dependent upon two general series published by the U.S. Department of Labor, Bureau of Statistics (BLS). These are the Industrial Commodities portion of the Producer Price Index and the Wage and Income Series by Standard Industrial Classification for labor. Since there are no BLS published series currently available that relate directly to total prices of delivered DoD aircraft, ships, missiles, electronics, etc., such composite indices from major portions of the two series described above should be made.

(vii) Normally not more than two indices should be used, i.e., one for labor (direct and indirect) and one for material (direct and indirect).

(viii) The clause must establish and properly identify a base period comparable to the contract periods for which adjustments are to be made as a reference point for application of an index.

(ix) The clause should provide for adjustment from the beginning of the contract or from such period of time that the rate of expenditure is commensurate with the administrative cost and effort to adjust, but it should not provide for adjustment beyond the original contract performance period.

(x) The expenditure profile for both labor and material should be based on a predetermined rate of expenditure (expressed as the percentage of material or labor usage as it relates to total contract price) in lieu of actual cost incurred. In the event the clause is to be used in a competitive procurement, the labor and material allocations, with regard to both mix of labor and material and rate of expenditure by percentage, shall be determined by the PCO in a manner which will, as nearly as possible, approximate the average expenditure profile of all companies to be solicited in order that all companies may compete on an equal basis. If the clause is to be used in a noncompetitive procurement, the labor and material allocations as determined by the PCO may be subject to negotiation and agreement. For multiyear contracts, there should be established predetermined expenditure profile tables for each of the annual increments in the multiyear buy, with each of the second and subsequent year tables being cumulative to reflect the total expenditures for all increments funded through the latest multiyear funding.

(xi) The clause should state that percentage of the contract price subject to price adjustment. Normally, adjustments would not be applied to the profit portion of the contract. Additionally, the labor and material portions of the contract must be examined to exclude any areas that do not require adjustment. It may not be necessary, for example, to include all subcontracting as being subject to economic price adjustment, because some of the subcontracting could be for shorter periods of time during the early life of the contract, and would be covered, therefore, by firm priced subcontracting. It may be possible to exclude certain areas of overhead from economic price adjustment protection; for example, depreciation charges, prepaid insurance costs, rental costs,

leases, certain taxes, and utility charges are illustrated as some of the areas that should be examined in detail. In the same manner, consideration should be given to the necessity to include economic fluctuation protection covering that portion of labor for the period of time for which a definitive union agreement exists without additional factoring for such things as cost of living increases. Care should be taken to allocate to labor and material only those costs likely to be affected by fluctuation in the economy. That portion of the contract which is determined to be proper for economic fluctuation protection shall then be allocated to specific periods of time (e.g., quarterly, semiannually, etc.) based on the most probable expenditure or commitment basis (expenditure profile).

(xii) The clause should provide for definite times or events positive for price adjustments. Adjustments should be of such a frequency so as to afford the contractor appropriate economic relief without at the same time creating a burdensome administrative effort. The adjustment period should normally range from a minimum of quarterly to a maximum of annually.

(xiii) When the contract contains cost incentives, any sums paid to the contractor on account of economic price adjustment provisions shall be subtracted from the total of the contractor's allowable cost for the purpose of establishing the total costs to which the cost incentive provisions apply. If the incentive arrangement is cited in percentage ranges rather than dollar ranges, above and below target costs, the economic price adjustment clause should be structured to maintain the original contract incentive range in dollars.

(xiv) The economic price adjustment clause should provide that once the labor and material allocations have been established, they remain fixed through the life of the contract and are not modified except in the event of partial termination of the contract. The clause should state that pricing actions pursuant to the Changes clause or other provisions of the contract will be priced as though there were no provisions for economic price adjustment.

(4) Consistent with the factors set forth above, the contracting officer may also determine it appropriate to provide for certain economic price adjustment arrangements between the prime contractor and subcontractors to properly allocate risks. In such circumstances, provision for incorporation of price adjustment clauses in specified subcontracts should

be included in the price adjustment provision of the prime contract.

(5) When economic price adjustment provisions are included in contracts that do not require submission of cost or pricing data as provided for in 215.804-3, it will be the responsibility of the contracting officer to obtain adequate information to establish the base line from which adjustments will be made. In addition, the contracting officer may require verification of the data submitted to the extent considered necessary to permit reliance upon it as a reasonable base line.

#### 216.203-70 Fixed-price contracts with economic price adjustment.

(a) *Price adjustment for basic steel, aluminum, brass, bronze or copper mill products.* The price adjustment clause at 252.216-7000 is authorized for use in fixed-price supply contracts for basic steel, aluminum, brass, bronze or copper mill products, such as sheets, plates and bars, when an established catalog or market price exists for the particular product being procured and has been verified in accordance with criteria in 215.804-3(c). The 10 percent figure in paragraph (c)(1) of the clause shall not be exceeded unless approved by the Chief of the Contracting Office. No adjustment under this clause shall be made in the contract price until the requested adjustment has been verified by the contracting officer, in accordance with the criteria set forth in FAR 15.804-3 and as required by paragraph (c)(4) of the clause.

(b) *Price adjustment for nonstandard steel items.* The price adjustment clause at 252.216-7001 is authorized for use in fixed price supply contracts when:

(1) The contractor is a steel producer and actually manufactures the standard steel mill item referred to in paragraph (d) of the clause; and

(2) The items being procured are nonstandard steel items made wholly or in part of standard steel mill items. When this clause is included in invitations for bids, Note (8) of the clause is inapplicable and shall be omitted. Invitations for bids or requests for proposals shall instruct bidders or offerors to complete all blanks in accordance with the applicable notes. When the clause is to provide for adjustment based on the contractor's "established price" (see paragraphs (a) and (d) of the clause and Note (8) of the clause), the established price shall be verified in accordance with 215.804-3 prior to contract award. When the clause is to provide for adjustment on another basis (see Note (8) of the clause), that price must be verified. No

adjustment under this clause shall be made in the contract price until the requested adjustment has been verified by the contracting officer, in accordance with criteria set forth in FAR 15.804-3 (but see Note (8) of the clause) and as required by paragraph (f) of the clause. The 110% figure in paragraph (e) of the clause shall not be exceeded unless approved by the Chief of the Contracting Office.

**216.206 Fixed-ceiling price contracts with retroactive price redetermination.**

**216.206-1 Description.**

The redetermined price should be negotiated so as to give weight to the management effectiveness and ingenuity exhibited by the contractor during performance, and the basis for such negotiation should be fully discussed with the contractor when this type of contract is negotiated. Because the price is redetermined on a completely retroactive basis, this contract type (except for the price ceiling) does not provide the contractor with a calculable incentive for effective cost control. Once established, the ceiling price is subject to adjustment only if required by the operation of other contract clauses (see FAR 16.201).

**216.207 Firm-fixed-price, level-of-effort term contracts.**

**216.207-1 Description.**

This type of contract can be a useful tool, particularly in the Research and Exploratory Development categories when the work cannot be clearly defined and the level of effort desired can be identified and agreed upon in advance of performance.

**Subpart 216.3—Cost-Reimbursement Contracts**

**216.301 General.**

**216.301-2 Application.**

While cost-reimbursement contracts are particularly useful for procurements involving substantial amounts, e.g., estimated cost of \$100,000 or more, the parties may agree in a given case to use this type of contract to cover transactions in which the estimated costs are less than \$100,000.

**216.303 Cost-sharing contracts.**

(b) *Application.* Cost-sharing contracts are for use in research or development procurements.

**216.306 Cost-plus-fixed-fee contracts.**

(b) *Application.* In addition to the conditions of FAR 16.301-2 being present, a cost-plus-fixed-fee contract is suitable when:

(1) A cost-reimbursement type of contract is found necessary in accordance with 216.301-2;

(2) The parties agree that the contract should be fee bearing;

(3) The level of effort required is unknown; and where measuring achievements in contract performance does not lend itself to the subjective evaluation required in CPAF contracts.

(c)(S-70) This type of contract normally should not be used in the development of major weapons and equipment, once prerequisite preliminary exploration, studies, and risk reductions have indicated a high degree of probability that the development is achievable and the Government generally has determined its desired performance objectives and schedule of completion. The cost-plus-fixed-fee contract shall not be used for procurements categorized as either Engineering Development or Operational System Development; which have completed the Validation Phase except with the approval of the Head of a Contracting Activity or his designee, it may be used in these categories for individual procurements, ancillary to the development of a major weapon system or equipment, where the purpose of the procurement is clearly to determine or solve specific problems associated with the major weapon system or equipment.

**Subpart 216.4—Incentive Contracts**

**216.402 Application of predetermined, formula-type incentives.**

**216.402-2 Technical performance incentives.**

Increases in profits or fees resulting from the use of incentive provisions are made only because cost, performance, or other contractual goals or standards have been surpassed.

(S-70) *Description.* A contract with a performance incentive is one which incorporates an incentive to the contractor to surpass stated performance targets by providing for increases to the extent that such targets are not met. Salient features and considerations in the use of this type of contract are as follows:

(1) "Performance," as used in this paragraph refers not only to the performance of the article being procured, but to the performance of the contractor as well. Performance which is the minimum which the Government will accept shall be mandatory under the terms of the Completion form contract and shall warrant only the minimum profit or fee related thereto. Performance which meets the stated targets will warrant the "target" profit

or fee. Performance which surpasses these targets will be rewarded by additional profit or fee. The incentive feature (providing for increases or decreases, as appropriate) is applied to performance targets rather than performance requirements.

(2) The incentive, when applied to the product, should relate to specific performance characteristics, such as range of a missile, speed of an aircraft or ship, thrust of an engine, maneuverability to a vehicle, and fuel economy. However, high overall performance of the end item is the primary objective of such contracts. Accordingly, the incentive feature should reflect a balancing of the various characteristics which together account for overall performance, so that no one characteristic will be exaggerated to the detriment of the end item as a whole. When applied to the performance of the contractor, the incentive should relate to specific performance areas of milestones, such as delivery or test schedules, quality controls, maintenance requirements, and reliability standards.

(3) Since performance tests generally are essential in order to determine the degree of attainment of performance targets, the control must be as specific as possible in establishing test criteria, such as conditions of testing, precision of instrumentation, and interpretation of test data.

(S-71) *Application.* Contracts with performance incentives are suitable for use in procurements where it is desired to provide the contractor with an incentive in the form of financial reward for surpassing stated performance targets, counter-balance by a penalty in the form of decreased profit or fee for failure to achieve such targets. Performance incentives are particularly appropriate for inclusion in contracts for major weapons and equipment, both in development when desired performance objectives are known and the fabrication of prototypes for test and evaluation is required, and in production where there is potential for improved performance that would be highly desirable to the Government. Effort always should be made in these procurement situations to include a performance incentive in the contract. Performance incentives present complex problems in contract administration and should be negotiated and administered by contracting officers with full cooperation of Government engineering and pricing specialists.

**216.403 Fixed-price incentive contracts.**

(b)(3) *Application.* Separate incentive provisions may be made applicable to

individual line items of a contract, e.g., when dissimilar work is best incentivized by use of separate formulas.

(c) *Limitations.* In no case should such contracts be used where the sole or principal purpose is to shift substantially all cost responsibility to the Government. Further, in no case shall the firm target profit or formula for final profit and price be established independently.

(c)(S-70) *Quarterly limitation on payments statements.* The contracting officer must be satisfied that the contractor's accounting system will furnish reliable financial information for preparing the Quarterly Limitation on Payments Statement required under the clauses at FAR 52.216-16 and 17. In computing overpayments or underpayments, the contracting officer shall use the following formula when (1) actual costs for individual items delivered are not available and (2) the necessary cost data are available from an accounting system which meets the Cost/Schedule Control Systems Criteria.

*Formula for Computing Overpayment/Underpayment*

COID = Cost of items delivered  
TCID = Target cost of items delivered  
ACWP = Actual cost of work performed  
BCWP = Budgeted cost of work performed  
BMR = Budgeted management reserve  
BTD = Billings to date  
TEP = Total estimated price of the contract  
TP = Target profit on items delivered  
IP = Incentive profit on items delivered

$$\text{COID} = \text{TCID} \times \frac{\text{ACWP}}{\text{BCWP} + \left( \text{BMR} \times \frac{\text{BTD}}{\text{TEP}} \right)}$$

Adjusted price = COID + TP + IP  
Overpayment/Underpayment = Amount Invoiced - Adjusted Price.

#### 216.403-2 Fixed price incentive (successive targets).

(a)(1) This formula does not apply for the life of the contract but simply is used to fix the firm target profit for the contract. To provide an incentive consistent with the circumstances, the formula for fixing the firm target profit should reflect the relative risk involved in establishing an incentive arrangement where cost and pricing information were not sufficient to permit the negotiation of firm targets at the outset.

#### 216.404 Cost-reimbursement incentive contracts.

##### 216.404-1 Cost-plus incentive fee contracts.

(b) *Application.* Where it is highly probable that the development is feasible and the Government generally has determined its desired performance objectives, the cost-plus-incentive-fee contract should be used in conjunction with performance incentives in the development of major systems, and in other development programs where use of the cost and performance incentive approach is considered both desirable and administratively practical. Range of fee and the fee adjustment formula should be negotiated so as to give appropriate weight to basic procurement objectives. For example, in an initial product development contract, it may be appropriate to negotiate a cost-plus-incentive-fee contract providing for relatively small increases, or decreases in fee tied to the cost incentive feature, balanced by the inclusion of performance incentive provisions providing for significant upward or downward fee adjustment as an incentive for the contractor to meet or surpass negotiated performance targets. Conversely, in subsequent development and test contracts, it may be more appropriate to negotiate an incentive formula where the opportunity to earn additional fee is based primarily on the contractor's success in controlling costs. With regard to the cost incentive provisions of a contract, the minimum and maximum fees, and the fee adjustment formula, should be negotiated so as to provide an incentive which will be effective over variations in costs throughout the full range of reasonably foreseeable variations from target cost. Whenever this type of contract, with or without the inclusion of performance incentives, is negotiated so as to provide incentive up to a high maximum fee, the contract also shall provide for a low minimum fee, which may even be a "zero" fee or, in rare cases, a "negative" fee.

##### 216.404-2 Cost-plus-award-fee contracts.

(a) *Description.* The CPAF contract is a cost reimbursement type of contract with special fee provisions. It provides a means of applying incentives in contracts which are not susceptible to definite measurements of performance necessary for structuring incentive contracts. Award fee may be earned in whole or in part. The number of criteria used and the requirements which are

represented will differ widely from one contract to another. Therefore, when determining criteria and rating plans the using activity should be flexible and select a plan which will motivate the contractor in a positive way to improve performance. Evaluations are furnished to the contractor to afford him an opportunity to comment on the evaluation findings. The decision that award fee has been earned is based on the reports of performance made by the Government personnel knowledgeable with respect to the contract requirements.

(b) *Application.* The CPAF contract is suitable for:

(1)(S-70) Level of effort contracts for performance of services where mission feasibility is established but measurement of achievement must be by subjective evaluation rather than objective measurement; and

(1)(S-71) Work which would have been placed under another type of contract if the performance objectives could be expressed in advance by definite milestones, targets or goals susceptible of measuring actual performance.

(b)(S-70) *Weighted guidelines.* The weighted guidelines method shall not be applied to CPAF contracts with respect to either the base (fixed) fee or the award fee.

(b)(S-71) *Fee.* The amount of the base fee shall not exceed three percent of the estimated cost of the contract exclusive of the fee, and the maximum fee (base fee plus award fee) shall not exceed the limitations stated in FAR 15.903.

(b)(S-72)(i) *Evaluation.* The contract should provide for evaluation at stated intervals during contract performance, so that the contractor will periodically be made aware of the quality of his performance and will know in which areas improvement is expected. Partial payment of fee will generally correspond to the evaluation periods. This will make effective the incentive which the award fee can create by inducing the contractor to improve poor performance or to continue good performance.

(ii) Consideration may be given to (A) constituting a board to evaluate the contractor's performance and determine the amount of the award fee or recommend an amount to the contracting officer and, (B) to afford the contractor an opportunity to present matters on his own behalf.

(iii) The contract shall set forth those

criteria to be used in evaluating the contractor's performance to arrive at the award fee. See examples of such criteria set forth in charts below.

(b)(S-73) *Disputes.* The contract shall expressly exclude from the operation of the Disputes clause any dispute over the amount of the award fee.

(c)(S-70) *Limitations.* The CPAF contract shall not be used as an administrative technique to avoid CPFF contracts when the criteria for CPFF contracts apply, nor shall a CPAF contract be used to avoid the effort of establishing objective targets so as to make feasible the use of a CPIF type contract.

(c)(S-71) The CPAF contract shall not be used where the contract amount, period of performance or the benefits expected are insufficient to warrant the additional administrative effort or cost.

(c)(S-72) The CPAF contract shall not be used for procurements categorized as

either Engineering Development or Operational System Development which have undergone contract definition, except that where it may be more advantageous to do so, it may be used in these categories for individual procurements, ancillary to the development of a major weapon system or equipment, where the purpose of the procurement is clearly to determine or solve specific problems associated with the major weapon system or equipment.

(S-70) *Other application of the award fee provision.* In certain cases, it may be desirable to motivate and reward a contractor for management performance over and above that which can be objectively measured and incentivized under other forms of government contracts. For example, logistics support, quality, timeliness, cooperation, ingenuity, and cost effectiveness are areas under the control of management which may be susceptible only to subjective measurement and evaluation.

In such cases, the "award amount" portion of the fee applicable to the CPAF contract is an ideal method for incorporation of these additional incentives into government contracts; the "base fee" or fixed amount portion would not be applicable in these procurements. When approved by the Chief of the Contracting Office, the "award amount" portion of the CPAF contract may be used in conjunction with other types and kinds of contracts for Government's benefit. An Award Review Board shall be appointed at each appropriate installation or activity. Procedures shall be established for the conduct of the evaluation. Further, the award fee provision shall not be used in conjunction with other types and kinds of contracts when the administrative effort or costs for evaluation exceed the benefits to be derived from the use of this arrangement.

## Examples of Criteria

## PERFORMANCE EVALUATION REPORT CRITERIA

		Submarginal 0-60	Marginal 61-70	Good 71-80	Very Good 81-90	Excellent 91-100
A Time of Delivery.	(A-1) Adherence to plan schedule.	Consistently late on 20% of plans.	Late on 10% plans w/o prior agreement.	Occasional plan late w/o justification.	Meets plan schedule.	Delivers all plans on schedule & meets prod. change requirements on schedule.
	(A-2) Action on Anticipated delays.	Does not expose changes or resolve them as soon as recognized.	Exposes changes but is dilatory in resolution on plans.	Anticipates changes, advise Shipyard but misses completion of design plans 10%.	Keeps Yard posted on delays, resolves independently on plans.	Anticipates in good time, advises Shipyard, resolves independently and meets production schedule.
	(A-3) Plan Maintenance.	Does not complete interrelated systems studies concurrently.	System studies completed but constr. plan changes delayed.	Major work plans coordinated in time to meet production schedules.	Design changes from studies and interrelated plans issued in time to meet product schedules.	Design changes, studies resolved and test data issued ahead of production requirements.
B Quality of Work.	(B-1) Work Appearance.	25% dwgs. not compatible with Shipyard repro. processes and use.	20% not compatible with Shipyard repro. processes and use.	10% not compatible with Shipyard repro. processes and use.	0% dwgs. prepared by Des. agent not compatible with Shipyard repro. processes and use.	0% dwgs. presented incl. Des. agent, vendors, subcontractor, not compatible with Shipyard repro. processes and use.
	(B-2) Thoroughness and Accuracy of Work.	Is brief on plans tending to leave questionable situations for Shipyard to resolve.	Has followed guidance, type & standard dwgs.	Has followed guidance, type & standard dwgs. questioning and resolving doubtful areas.	Work complete with notes and thorough explanations for anticipated questionable areas.	Work of highest caliber incorporating all pertinent data required including related activities.
	(B-3) Engineering Competence.	Tendency to follow past practice with no variation to meet reqmts. job in hand.	Adequate engrg. to use & adapt existing designs to suit job on hand for routine work.	Engineered to satisfy specs., guidance plans and material provided.	Displays excellent knowledge of constr. reqmts. considering system aspect, cost, shop capabilities and procurement problems.	Exceptional knowledge of Naval shipwork & adaptability to work process incorporating knowledge of future planning in Design.
	(B-4) Liaison Effectiveness.	Indifferent to requirements of associated activities, related systems, and shipyard advice.	Satisfactory but dependent on Shipyard to force resolution of problems without constructive recommendations to subcontractor or vendors.	Maintains normal contact with associated activities depending on Shipyard for problems requiring military resolution.	Maintains independent contact with all associated activities, keeping them informed to produce compatible design with little assist. for Yard.	Maintains expert contact, keeping Yard informed, obtaining info from equip., supplies w/o prompting by Shipyard.
	(B-5) Independence and Initiative.	Constant surveillance req'd. to keep job from slipping—assign to low priority to satisfy needs.	Requires occasional prodding to stay on schedule & expects Shipyard resolution of most problems.	Normal interest and desire to provide workable plans with average assistance & direction by Shipyard.	Complete & accurate job, free of incompatibility with little or no direction by Shipyard.	Develops complete and accurate plans, seeks out problem areas and resolves with assoc. act. ahead of schedule.
C Effectiveness in Controlling and/or Reducing Costs.	(C-1) Utilization of Personnel.	Planning of work left to designers on drafting boards.	Supervision sets & reviews goals for designers.	System planning by supervision, personnel, studies checked by engineers.	Design parameters established by system engineers & held in design plans.	Mods. to design plans limited to less than 5% as result lack engrg. system correlation.
	(C-2) Control Direct Charges (Except Labor).	Expenditures not controlled for services.	Expenditures reviewed occasionally by supervision.	Direct charges set & accounted for on each work package.	Provides services as part of normal design function w/o extra charges.	No cost overruns on original estimates absorbs service demands by Shipyard.
	(C-3) Performance to Cost Estimate.	Does not meet cost estimate for original work or changes 30% time.	Does not meet cost estimate for original work or changes 20% time.	Exceeds original est. on change orders 10% time and meets original design costs.	Exceeds original est. on change orders 5% time.	Never exceeds estimates of original package or change orders.

NOTE—Provide supporting data and/or justification for below average or outstanding item ratings.

**Subpart 216.5—Indefinite-Delivery Contracts****216.501 General.**

(d) For items with a shelf-life of less than six months, consideration will be given to use of indefinite type contracts with orders to be placed either (i) directly by the users, or (ii) by central purchasing offices with deliveries direct to users. When it is desired to authorize the use of the fast pay procedure for orders not in excess of \$10,000, the special data required by FAR 13.3 shall be included in the contract. The required clause in FAR 52.213-1 shall be modified for this purpose to refer to delivery orders and to the appropriate contract clause of the indefinite delivery type contract for the preparation of invoices.

**216.502 Definite quantity contracts.**

(S-70) Advantages of this type of contract are that it permits stocks in storage depots to be maintained at minimum levels and permits direct shipment to the user. Further advantages of this type of contract are:

- (1) Flexibility with respect to both quantities and delivery scheduling;
- (2) Supplies or services need to be ordered only after actual needs have materialized;
- (3) The obligation of the Government is limited; and

(4) It permits stocks to be maintained at minimum levels and allows direct shipment to the user.

**216.503 Requirement contracts.**

(S-70) Advantages of this type of contract are:

- (1) Flexibility with respect to both quantities and delivery scheduling;
- (2) Supplies or services need be ordered only after actual needs have materialized;
- (3) When production lead time is involved, deliveries may be made more promptly because the contractor is usually willing to maintain limited stocks in view of the Government's commitment;
- (4) Price advantages or savings may be realized through combining several anticipated requirements into one quantity procurement; and
- (5) It permits stocks to be maintained at minimum levels and allows direct shipment to the user.

**Subpart 216.6—Time-and-Materials, Labor-Hour, and Letter Contracts****216.601 Time-and-materials contracts.**

(b)(2) Material handling costs may include all indirect costs, including general and administrative expense, allocated to direct materials in accordance with the contractor's usual accounting practices consistent with Part 231. Such material handling cost

should include only costs clearly excluded from the labor hour rate. This type of contract does not afford the contractor any positive profit incentive to control the cost of materials or to manage his labor force effectively. This type of contract may be used in the procurement of (i) engineering and design services in connection with the production of supplies; (ii) the engineering, design and manufacture of dies, jigs, fixtures, gauges, and special machine tools; (iii) repair, maintenance or overhaul work; and (iv) work to be performed in emergency situations.

**216.603 Letter contracts.****216.603-2 Application.**

(c) Letter contracts shall be specifically negotiated and, as a minimum, shall include the appropriate clauses from Part 252. Whether executed on Standard Form 26 or Standard Form 30, a definitized contract will be numbered as a modification of the letter contract as provided in 204.70.

**Subpart 216.7—Agreements****216.702 Basic agreements.**

(b) *Application.* The use of the basic agreement contemplates the coverage which will provide for the scope of the work, price, delivery, and additional matters peculiar to the requirements of the specific procurement involved, and

shall incorporate by reference or append the contract clauses agreed upon in the basic agreement as required or applicable.

(b)(3) To minimize modification, revisions to FAR involving changes in authorized contract clauses utilized in basic agreements will provide appropriate direction with respect to any required modifications of basic agreements and to the extent possible, modifications will be required only in matters resulting from changes in statutes or Executive orders.

(b)(S-70) Basic agreements may include negotiated overhead rates for cost-reimbursement type contracts. A basic agreement shall be used to cover all subsequent procurements which fall within its scope. Provisions of the basic agreement, including supplements thereto, shall be incorporated into the formal contractual document covering the particular procurement by referring therein to the number of the basic agreement and each of its supplements. The reference "Basic Agreement No. \_\_\_\_\_ as amended," shall not be used.

(b)(S-71) Basic agreements generally shall be utilized only in connection with negotiated contracts. An existing contract may be amended by a supplemental agreement effecting new procurement without incorporating the most recent basic agreement only if all clauses then required by statute, Executive order, and this Regulation are included in the contract or the proposed supplemental agreement.

(b)(S-72) Supplemental agreements negotiated pursuant to the terms of an existing contract and not involving new procurement may, if determined to be in the interest of the Government, amend the existing contract to conform to a subsequently executed or supplemented basic agreement.

(b)(S-73) Clauses pertaining to subjects not covered in a basic agreement but applicable to the contract being negotiated shall be included in the contract as if no basic agreement existed.

(b)(S-74) Where a clause which was included in the basic agreement pursuant to a deviation must be replaced by a revised clause, the revised clause may deviate to the same extent as the original clause if the revision is not related to the deviation, and if the deviation has not expired or been rescinded.

(b)(S-75) If a letter contract has been entered into under a basic agreement which thereafter was superseded by a new basic agreement, or amended by supplemental agreement, the contractual instrument which definitizes such letter contract shall incorporate the

superseding basic agreement or supplemental agreement, as applicable. If the basic agreement has been terminated without being superseded, or has expired, the definitive contract which supersedes the letter contract shall incorporate the clauses required by statute, Executive Order, or this Regulation.

(S-70) *Content and form.* Basic agreements shall contain a set of "General Provisions." These general provisions shall include two groups of clauses. The first group, identified as "Part A", shall include all of the clauses made mandatory by statute, Executive order, the FAR and this Supplement, for use in negotiated Government contracts, and shall be made a part of each formal contractual document. The second group, identified as "Part B", shall consist of clauses which may be made a part of each formal contractual document, depending upon their applicability to the particular procurement. The format set forth below may be adapted to fit specific circumstances.

#### Basic Agreement Between the United States of America and \_\_\_\_\_

This Agreement is entered into as of the \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_ between the United States of America, hereinafter called the "Government", represented by the Contracting Officer, \_\_\_\_\_ and \_\_\_\_\_, a corporation organized and existing under the laws of the State of \_\_\_\_\_, herein called "Contractor."

The clauses and provisions of Parts A and B hereinafter set forth have been agreed upon by the parties hereto for use in negotiated \_\_\_\_\_ type contracts and in letter contracts contemplating conversion to \_\_\_\_\_ type contracts, between parties, entered into on or after the date of this Agreement, and prior to its termination. It is further agreed that (i) the clauses and provisions set forth in Part A are mandatory clauses and shall, by reference or attachment, be incorporated in each contract awarded pursuant to this Agreement, and (ii) the clauses and provisions set forth in Part B are to be similarly incorporated in such contracts only when applicable and agreed to by the parties for each individual contract.

This Agreement, including Parts A and B hereof, may be amended only by mutual agreement of the parties, and the Agreement may be terminated in its entirety by either party upon thirty (30) days written notice to the other party, except that this Agreement may be terminated by the Government at any time if the parties fail to agree upon any deletion, amendment or addition to this Agreement which is required by statute, Executive order, or the FAR and this Supplement. No deletion, modification, addition to, or termination of, this Agreement shall affect any contracts theretofore entered into between the parties in which this Agreement or a portion thereof has been incorporated by reference.

This Agreement shall be reviewed, as a minimum, annually before the anniversary of its effective date, and revised to conform with all requirements of statutes, Executive orders, or the FAR and this Supplement. This revision shall be evidenced by an agreement modifying this Basic Agreement or by the issuance of a superseding Basic Agreement.

This Agreement shall not be referred to by the Contractor in bids submitted in response to invitations for bids nor become a part of any contract placed through the process of formal advertising.

In Witness Whereof, the parties hereto have executed this Agreement as of the day and year first above written:

United States of America

By \_\_\_\_\_  
(Contracting Officer)

(Name of Company)

(Title)

#### 216.703 Basic ordering agreements.

(b) *Application.* A basic ordering agreement may be used to expedite contracting if after a competitive solicitation of quotations or proposals from the maximum number of qualified sources, other than a solicitation accomplished by use of Standard Form 33, it is determined that the successful responsive offeror holds a basic ordering agreement, the terms of which are either identical to those of the solicitation or different in a way that could have no impact on price, quality or delivery, and if it is determined further that issuance of an order against the basic ordering agreement rather than preparation of a separate contract would not be prejudicial to the other offerors.

In situations covered by the foregoing, the choice of firms to be solicited shall be made in accordance with normal procedures, without regard to which firms hold basic ordering agreements; firms not holding a basic ordering agreement shall not be precluded by the solicitation from proposing or quoting; and the existence of a basic ordering agreement shall not be a consideration in source selection.

(c) *Limitations.* The clause in FAR 52.213-1 shall be modified to refer to orders and to the appropriate clause of the basic ordering agreement for the preparation of invoices when fast pay is desired on orders less than \$25,000. The basic ordering agreement shall specify the point at which each order becomes a binding contract. For example, the agreement may provide either (1) that issuance of an order gives rise to a contract immediately, (2) that a contract arises upon the contractor's failure to reject the order within a specified number of days, or (3) that a contract

arises when the contractor accepts the order in a specified manner, such as by postcard, telegram, letter, signing and returning a copy of Standard Form 26 or DD Form 1155.

(c)(S-70) As a general rule, prices should be established prior to authorizing the contractor to begin work. However, where the contractor is allowed to begin work prior to pricing in accordance with this paragraph, the contractor and the contracting officer shall proceed with pricing as soon as practicable. The basic ordering agreement shall provide that failure to reach agreement on price in such circumstances will constitute a dispute subject to the procedures of the Disputes clause.

(c)(S-71) To minimize modifications, revisions to FAR involving changes in authorized contract clauses, utilized in basic ordering agreements shall provide appropriate direction with respect to any required modifications of basic ordering agreements; and, to the extent possible, modifications shall be required only in matters resulting from changes in statutes, or Executive Order.

(c)(S-72) The basic ordering agreement shall list one or more activities which are authorized to issue orders under the agreement. Any activity so named may issue orders specifying the supplies or services required. Orders shall be issued on DD Form 1155 or Standard Form 26 and shall incorporate by reference the provisions of the basic ordering agreement.

(d)(1)(S-70) The contracting officer issuing an order under a basic ordering agreement shall be responsible for assuring compliance with the provisions of all limitations of this section.

(d)(1)(S-71) If a contract administration office is authorized to issue orders (see FAR 42.202(c)), that office shall be provided a copy of the synopsis required by FAR 5.201(a), or a copy of the exception determination specified at FAR 5.202(a) or (b), and a copy of the justification and appropriate approvals required by FAR 6.303 and 6.304.

(d)(3)(ii) However, incentive provisions consistent with this part are permitted.

## PART 217—SPECIAL CONTRACTING METHODS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

### Subpart 217.1—Multiyear Contracting

#### 217.101 Definitions.

"Property", as used in this subpart means items of supplies, including but not limited to systems, subsystems, major equipment, components, parts, materials, supplies, and the advance acquisition thereof, and commercial and noncommercial items.

#### 217.102 Policy.

##### 217.102-2 General.

(a) Multiyear contract quantities are budgeted for and financed in accordance with the applicable program year as reflected in the DoD Five-Year Defense Program.

##### 217.102-3 Objectives.

(a)(S-70) Implementation of the industrial preparedness program for planned items with planned producers;

(d)(4) The decision not to request dual proposals must also take into account the determinations required by 217.103-1(b) (S-70) or (S-71).

#### 217.103 Procedures.

##### 217.103-1 General.

(a)(1) The use of such a contract will promote the national security of the United States.

(b)(1) For exceptions to this paragraph see 217.104-70 for multiyear contracting of specified services, and 217.104-71 for multiyear contracting of supplies and services of the maintenance and operation of family housing.

(b)(S-70) A multiyear contract may not be executed in the case of services, until a written determination has been made by the HCA or his designee that (i) there will be a continuing requirement for the services and incidental supplies, consonant with current plans for the proposed contract period; (ii) the furnishing of such services and incidental supplies will require a substantial initial investment in plant or equipment or the incurrence of substantial contingent liabilities for the assembly, training, or transportation of a specialized work force, or other substantial startup costs; and (iii) the use of such a contract will promote the best interest of the United States by encouraging effective competition and promoting economies of operation.

(b)(S-71) A multiyear contract may not be executed in the case of property, until a written determination has been made by the Secretary or designee that the criteria specified in FAR 17.103-1 have been met.

(d)(1) Such ceilings shall be expressed in the schedule and shall be a not-to-

exceed amount to apply alike to all bidders or offerors.

##### 217.103-2 Solicitations.

Solicitations for multiyear contracts should be appropriately structured to reflect any selected variations to standard multiyear techniques allowed by FAR 17.102-3(d).

##### 217.103-4 Awards.

(c) Prior to award of a multiyear contract, the contracting officer shall verify that findings made in accordance with 217.103-1(b) (S-70) or (S-71) remain valid and shall annotate the findings document accordingly.

##### 217.103-70 Funding of multiyear contracts.

Before any multiyear contract that contains a clause setting forth a cancellation ceiling in excess of \$100 million may be awarded, the Secretary shall give written notification of the proposed contract and of the proposed cancellation ceiling for that contract to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives, and such contract may not then be awarded until the end of a period of 30 calendar days beginning on the date of such notification. Departments shall establish reporting procedures. Copies of the notification shall be submitted to the Office of the Secretary of Defense, OASD(A&L)(P), and Deputy Assistant Secretary of Defense, OASD(C) (P/B). Departments shall also comply with any notification requirements or restrictions contained in annual authorization or appropriation acts.

(a) The planning and coordination of multiyear acquisition strategies should begin sufficiently early to permit required integration of the acquisition into the Planning Programming and Budgeting System (PPBS). The degree of integration and the extent of data required will vary with the type and size of the program. Guidelines shall be included, as required, in DoD and Service instructions for preparing program objective memoranda (POM) submissions and budget estimate submissions (BES).

(b) Policies and procedures for the funding of acquisitions within the procurement title of the DoD Appropriation Act are contained in DoD Directive (DoDD) 7200.4, Full Funding of DoD Procurement Programs.

**217.104 Related areas.****217.104-70 Multiyear contracting of services under Pub. L. 90-378.**

(a) Under Pub. L. 90-378 (10 U.S.C. 2306 (g)), the Department of Defense is authorized to enter into multiyear acquisitions for the following listed services, to obtain requirements which are not in excess of the Five-Year Defense Program and for which funds are limited by statute for obligation during the fiscal year in which the contract is executed:

- (1) Operation, maintenance, and support of facilities and installations;
- (2) Maintenance or modification of aircraft, ships, vehicles, and other highly complex military equipment;
- (3) Specialized training necessitating high quality instructor skills (for example, pilot and other aircrew members; foreign language training); and
- (4) Base services (for example, ground maintenance; in-plane refueling; bus transportation; refuse collection and disposal). However, such acquisitions shall be entered into for no more than a 5-year period and only when such acquisitions are consistent with the policies of and satisfy the requirements set forth in FAR 17.101 through 17.105. The performance years specified in the schedule shall not extend beyond the end of any fiscal year (1 October-30 September).

(b) Since acquisitions under this authority are limited for execution on a fiscal year basis, references to "program year" throughout Sup 217.104-70 shall be considered to mean "fiscal year".

**217.104-71 Multiyear acquisition of supplies and services under Pub. L. 91-142.**

(a) Under section 512 of Pub. L. 91-142, the Department of Defense is authorized to enter into contracts for periods of no more than 4 years for supplies and services required for the maintenance and operation of family housing for which funds would otherwise be available only within the fiscal year for which appropriated. Such acquisitions shall be entered into only when they are consistent with the policies and satisfy the requirements set forth in FAR 17.101 through 17.105. The performance years specified in the schedule shall not extend beyond the end of any fiscal year (1 October-30 September).

(b) Since acquisitions under this authority are limited for execution on a fiscal year basis, references to "program year" shall be considered to mean "fiscal year".

**Subpart 217.2—Options****217.203 Solicitations.**

(a)(S-70) When the contracting officer either knows or anticipates that the option may be appropriate to fulfill Foreign Military Sales (FMS) commitments, the solicitation shall notify contractors of the Government's intent in this regard and shall identify the FMS country (countries) and its (their) requirements.

(S-71) When the contracting officer either knows or anticipates that an option may be appropriate to fulfill FMS requirements but the specific country or countries are not identified, the solicitation shall advise contractors that the U.S. Government will subsequently identify the foreign country for the purpose of negotiating any equitable price adjustment for cost or profit considerations attributable to the option if exercised for FMS requirements (see 217.208(S-70)(2)).

(S-72) Such notification shall not be placed in solicitations for the establishment or replenishment of DoD inventories or stocks or acquisitions made under DoD Cooperative Logistics Support Arrangements.

(g)(2) The Chief of the Contracting Office is the person authorized to make the approval cited in FAR 17.203(g)(2).

**217.207 Exercise of options.**

(c)(2) An FMS commitment undertaken by the United States Government on behalf of a foreign country constitutes the type of need described in FAR 17.207(c)(2). In such cases, the contract shall expressly provide for the Government's right to exercise the option for FMS purposes (see 217.203(a)).

**217.208 Solicitation provisions and contract clauses.****(S-70) FMS option.**

(1) When the contracting officer either knows or anticipates that a contract option may be exercised to fulfill FMS requirements (see 225.7309) and the parties are able to negotiate a price in advance, insert the clause at 252.217-7000, Exercise of Option to Fulfill Foreign Military Sales Commitments, if a clause at FAR 52.217-6, 52.217-7, 52.217-8, or 52.217-9 is included in the contract.

(2) When the contracting officer either knows or anticipates that a contract option may be exercised to fulfill FMS requirements (see 225.7309) and the parties are unable to negotiate any additional cost or profit considerations attributable to Foreign Military Sales until a specific country or countries are subsequently identified, the clause at

252.217-7001, Exercise of Option to Fulfill Foreign Military Sales Commitment, (Alt. 1) shall be inserted if a clause at FAR 52.217-6, 52.217-7, 52.217-8, or 52.217-9 is included in the contract.

**Subpart 217.5—Interagency Acquisitions Under the Economy Act****217.502 General.**

(a) For purposes of FAR 17.502, the designee of the head of the requesting agency within DoD is the contracting officer unless otherwise directed by departmental regulations.

(b) Except as provided in FAR 7.3, it is the policy of the Department of Defense not to place Government agencies in direct competition with commercial sources.

(c) An order for services shall not be placed with a department or agency when such services can be performed as conveniently or more economically by private contractors.

**217.503 Determination requirements.**

(b) In addition to the requirements of FAR 17.503(b), the determination shall also include a finding that the services cannot be performed as conveniently or more economically by private contractors.

**217.504 Ordering procedures.**

(b) Invitations for bids and requests for proposals shall not be sent to Government agencies. Orders for supplies and services placed within a department shall be in accordance with procedures prescribed by that department. Delivery orders may be placed on DD Form 1155.

**Subpart 217.6—Management and Operating Contracts**

The provisions of FAR Subpart 17.6 are not applicable within DoD.

**Subpart 217.70—Exchange of Personal Property****217.7000 Scope of Subpart.**

This part prescribes contracting policy and procedures governing the use by Department of Defense components of the exchange authority of section 201(c) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 384, as amended (40 U.S.C. 481(c)), when exchange is accomplished concurrently with procurement. The act authorizes the exchange of personal property and the application of the exchange allowance to the acquisition of similar property. Exchange policy, authority, applicability, and limitations are governed by the Federal Property

Management Regulations issued by the Administrator for General Services, and by Department of Defense Instruction 4140.51, "Exchange of Nonexcess Personal Property in the Department of Defense."

#### 217.7001 Definitions.

"Exchange (trade-in) property" means property not in excess of the needs of the owning DoD component, but eligible for replacement because of obsolescence, unserviceability, or other valid reason, that is exchanged and applied as whole or partial payment allowance toward the acquisition of similar items.

"Similar items" in exchange transactions means both the item being acquired and the item being replaced. Both must fall within one of the single generic categories listed in 217.7003-1, and the item being acquired must be designed and constructed for the same specific purpose as the item being replaced.

#### 217.7002 Policy.

It is DoD policy to use exchange processing for replacing eligible nonexcess items. It shall be used to the maximum extent possible when such transactions foster the economical and efficient accomplishment of an approved program.

#### 217.7003 Categories of property eligible for exchange and categories of property ineligible for exchange.

##### 217.7003-1 Property eligible for exchange.

Nonexcess personal property in the categories listed below is eligible for exchange. However, in the exchange of such property, both the item to be acquired and the item to be replaced must fall within a single number category. Categories of property not listed below or not included in 217.7003-2 are also eligible for exchange if designed and constructed for the same specific purpose.

1. Agriculture products, processed foods, and forage
2. Ammunition and ammunition components
3. Animals and animal products
4. Batteries, storage
5. Cards, tabulating
6. Ditching machines
7. Dozer blades
8. Drill presses
9. Drugs, biologicals, and official reagents
10. Earth augers
11. Graders, self-powered and towed
12. Lathes
13. Machines, adding and calculating
14. Machines, addressing and mailing
15. Machines, dictating and transcribing
16. Machines, duplicating
17. Machines, punched card, bookkeeping, tabulating, and accounting

18. Milling machines
19. Mixers, concrete, portable or truck mounted
20. Pile drivers
21. Plows, snow, motor
22. Refrigeration and air conditioning components (FSC 4130 only and this authority expires 31 December 1986)
23. Road rollers, wheeled and sheepsfoot
24. Saws, circular or band
25. Scrapers, earth moving, self-powered
26. Scrapers, earth moving, towed
27. Sedans, station wagons, coupes, limousines
28. Shovels, power
29. Spreaders, aggregate and line
30. Tractors, warehouse
31. Tractors, wheeled or crawler, with or without special attachments, up to 65 h.p.
32. Tractors, wheeled or crawler, with or without special attachments, 65 h.p. and up
33. Trailers, general purpose, multiple axle
34. Trailers, general purpose, single axle
35. Trailers, tank mounted
36. Trucks, forklift
37. Trucks, general purpose, cargo and construction, 12,500 GVW and up (including truck tractors, dump, and multiple drive)
38. Trucks, general purpose and utility, up to 12,500 GVW (including suburbans, carryalls, and sedan deliveries)
39. Trucks, straddle
40. Trucks, tank (special purpose truck on which the tank is integral part of the construction)
41. Trucks, warehouse, platform, electric and gasoline powered
42. Typewriters, manual and electric

##### 217.7003-2 Property ineligible for exchange.

Items that are found in any of the FSCGs listed below are not eligible for handling under exchange procedures without the prior approval of the General Services Administration (such approval shall accompany the purchase request):

10. Weapons
11. Nuclear ordnance
12. Fire control equipment
13. Guided missiles
14. Aircraft, and airframe structural components \*
15. Aircraft components and accessories \*
16. Aircraft launching, landing, and ground handling equipment
20. Ship and marine equipment
22. Railway equipment
31. Bearings
32. Woodworking machinery and equipment, except lathes, milling machines, and saws, circular or band
34. Metalworking machinery, except drill presses, lathes, milling machines, and saws, circular or band
40. Rope, cable, chain, and fittings

\* These line items shall be exchanged directly when the Military Departments rely on a contract with a manufacturer for full spare parts support for commercial type aircraft.

41. Refrigeration and air conditioning equipment \*\*
42. Fire fighting, rescue, and safety equipment
44. Furnace, steam plant, and drying equipment; and nuclear reactors
45. Plumbing, heating, and sanitation equipment
46. Water purification and sewage treatment equipment
47. Pipes, tubing, hoses, and fittings
48. Valves
51. Hand Tools
53. Hardware and abrasives
54. Prefabricated structures and scaffolding
55. Lumber, millwork, plywood, and veneer
56. Construction and building materials
68. Chemicals and chemical products, except medicinal chemicals
71. Furniture
75. Office supplies and devices, except cards, tabulating
83. Textiles, leather, and furs
84. Clothing and individual equipment

#### 217.7004 Procedures.

##### 217.7004-1 Offering property for exchange.

(a) Sale of nonexcess personal property is not authorized pursuant to this part. The objective in exchanging nonexcess personal property shall be to acquire new property from an offeror whose offer will be most advantageous to the Government, price and other factors considered. When acquiring new property concurrent with offering exchange property, either sealed bidding or negotiation shall be used as appropriate (see FAR Part 6), except that when the personal property is required to be acquired against a mandatory Federal Supply Schedule Contract, the property shall be acquired against such contract, regardless of whether the exchange can be effected under such contract.

(b) The following notation shall be included in the solicitation:

The property described in item number(s) \_\_\_\_\_, is being offered in accordance with the exchange provisions of section 201(c) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 384 (40 U.S.C. 481(c)).

(c) A minimum of 14 calendar days should be allowed in Continental United States (CONUS) for the inspection of property being offered for exchange. For exchanges outside Continental United States, the minimum inspection period should normally be 21 calendar days.

##### 217.7004-2 Purchase request and certification.

In connection with an acquisition involving exchange, the purchase

\*\* Except for FSC 4130 items; which may be exchanged [see 217.7003-1].

request must be accompanied by a certification that the property is eligible for exchange and complies with all conditions and limitations specified in DODI 4140.51 including a written administrative determination of economic advantage which shall indicate—

(a) The anticipated economic advantage to the Government resulting from the use of the exchange authority.

(b) That exchange allowances shall be applied toward or in partial payment for the items to be acquired.

(c) That if required, the exchange property has been rendered safe or innocuous, or has been demilitarized.

#### 217.7005 Exchange of exchange property.

Each solicitation listing exchange property, in addition to asking for prices for the new items being acquired, shall request offers in terms of exchange (trade-in allowance) for the exchange property listed. The solicitation shall provide for award(s) which are in the best overall interest of the Government. Exchanges may only be effected with the successful offeror. Thus, if the lowest net price to the Government of the property to be acquired (i.e., the price of the new property less the amount offered for the exchange property) results from an offer by a supplier of the new property who agrees to accept the exchange property as a trade-in, a single award would be made which would cover both the acquisition by the Government of the new property and the disposal of the exchange property by trade-in. If, however, the lowest net price to the Government results from a low offered price from a supplier of the new property, without exchange of the exchange property, award shall be made to the low offeror to purchase the new property and the exchange shall not be made.

#### Subpart 217.71—Master Agreement for Repair and Alteration of Vessels

##### 217.7100 Scope of subpart.

Acquisition policies and procedures applicable to the Master Agreement for Repair and Alteration of Vessels are set forth in this part.

##### 217.7101 Definitions

(a) Master Agreement for Repair and Alteration of Vessels—The Master Agreement is not a contract and contains no statement of work. It is a written compilation of both required clauses and clauses used as applicable which establishes in advance the terms and conditions upon which a contractor will effect repairs, alterations, and/or additions to vessels, under the

provisions of job orders awarded by contracting activities from time to time. The clauses comprising the Master Agreement for Repair and Alteration of Vessels are set forth in 217.7104.

(b) Job Order—A fixed price contract entered into with a contractor which has previously executed a Master Agreement for Repair and Alteration of Vessels. The job order applies to a specific acquisition and sets forth the scope of work, price, delivery date, and additional matters peculiar to the requirements of the specific acquisition. The job order incorporates by reference or appends the clauses of the Master Agreement as required or applicable.

##### 217.7102 Policy.

(a) The Master Agreement for Repair and Alteration of Vessels shall be entered into with all prospective contractors located within the United States, its possessions, or Puerto Rico, which request ship repair work and which possess the organization and facilities to perform such work satisfactorily. Issuance of the Master Agreement for Repair and Alteration of Vessels does not constitute approval of the contractor's facilities for any particular acquisition.

(b) When using the Master Agreement for Repair and Alteration of Vessels in work with prospective contractors located outside the United States, its possessions, or Puerto Rico, the applicable portions of 217.7104 shall be used as a guide.

(c) The Government may from time to time desire to issue job orders under the Master Agreement for Repair and Alteration of Vessels to effect repairs, alterations, and/or additions to vessels belonging to foreign governments. Vessels of a foreign government will be treated as if they were vessels of the United States Government, whenever so requested by the contracting officer. The IFB, RFP, or RFQ and job order will identify the vessel and the foreign government.

##### 217.7103 Procedures.

###### 217.7103-1 Content and format.

The Master Agreement for Repair and Alteration of Vessels shall contain a set of "Contract Clauses". These contract clauses shall be classified into two groups. The first group, identified as Part 217.7104(a), shall include all clauses made mandatory by statute, Executive order, or the Federal Acquisition Regulation, and shall be incorporated into job orders awarded under the Master Agreement for Repair and Alteration of Vessels. The second group, identified as Part 217.7104(b), shall

include those clauses to be incorporated into job orders awarded under the Master Agreement for Repair and Alteration of Vessels, as applicable. The format set forth below may be adapted to fit specific circumstances.

##### Master Agreement for Repair and Alteration of Vessels

This AGREEMENT is entered into this \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_ by the UNITED STATES OF AMERICA, hereinafter called the "Government", represented by the Contracting Officer, \_\_\_\_\_, and \_\_\_\_\_, a corporation organized and existing under the laws of the State of \_\_\_\_\_, hereinafter called the "Contractor". The clauses of the Federal Acquisition Regulation (FAR) and the Department of Defense (DoD) FAR Supplement, as set forth herein, have been agreed upon by the parties hereto for use in Invitations for Bids, Requests for Proposals, Requests for Quotations, and/or Job Orders to effect repairs, alterations, and/or additions to vessels, issued by the Government from time to time under this Agreement. It is further agreed that the clauses set forth in DoD FAR Supplement 217.7104(a) are mandatory and shall, by reference or attachment, be incorporated in each job order awarded pursuant to this Agreement.

This Agreement may be cancelled by either party upon thirty (30) days written notice without affecting rights and liabilities under any job order existing at the time of cancellation; *Provided, however*, that the Contractor shall perform and complete under the terms hereof all work covered by any job order entered into hereunder prior to the effective date of cancellation, as such job order may be modified by any change order issued under Clause 252.217-7101 entitled *Changes*, hereof.

This Agreement may be modified only by mutual agreement of the parties. However, the Government has the right to cancel this Agreement upon thirty (30) days written notice at any time the parties fail to agree upon any modification to this Agreement which is required by statute, Executive order, the Federal Acquisition Regulation, or the DoD FAR Supplement. A modification of this Agreement shall not affect any job order in existence at the time of modification, unless the parties so agree.

The rights and obligations of the parties to this Agreement shall be subject to and governed by the provisions of this Agreement, the provisions of job orders issued hereunder, and the drawings, design plans, and specifications. To the extent of any inconsistency between this Agreement and any job order, including any drawings, design plans, and specifications, the provisions of this Agreement shall govern.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year first above written.

THE UNITED STATES OF AMERICA

By \_\_\_\_\_  
(Contracting Officer)

(Contractor)

By \_\_\_\_\_

(Title)

**217.7103-2 Period of agreement.**

Either party to the Agreement shall have the right to cancel it without affecting the rights and liabilities under any job order in existence at the time of cancellation by giving 30 days written notice; *Provided*, however, that the contractor shall perform and complete under the terms thereof all work covered by any job order, and any modifications thereto, entered into prior to the effective date of cancellation. The Master Agreement for Repair and Alteration of Vessels will remain in force until cancelled by either party thereto.

**217.7103-3 Inviting bids, proposals, or quotations for job orders.**

(a) When a requirement arises for the type of work covered by the Master Agreement for Repair and Alteration of Vessels within the United States, bids, proposals or quotations will be solicited from prospective contractors which have previously executed a Master Agreement for Repair and Alteration of Vessels and from prospective contractors which possess the necessary qualifications to perform the work and agree to execute a Master Agreement for Repair and Alteration of Vessels before award of a job order.

(b) The contracting officer shall ensure that solicitations are prepared in the Uniform Contract Format and in accordance with FAR Part 14, Subpart 14.2 or Part 15, Subpart 15.4 as applicable. Solicitations shall include the clauses in 217.7104(a) and, as applicable, the clauses in 217.7104(b). Whenever the Government shall invite the contractor to submit a bid or proposal for the repair, completion, alteration of or addition to a vessel, the contracting officer shall notify the contractor in reasonable detail of (1) the nature of the work to be performed, (2) the date the vessel will be available to the contractor, and (3) the date the work is to be completed. Whenever bulk ammunition is aboard the vessel, the notice shall so state. Unless the notice otherwise states, bids or proposals shall be submitted on the basis that the work will be performed at the contractor's site.

(c) In the event that the contractor is willing and able to perform the work, the contractor, where practicable, shall be afforded an opportunity to inspect the items of work to be accomplished on such vessel, and the contractor shall submit a bid, proposal, or quotation as requested by the contracting officer for the performance of the work as set forth in the solicitation. If the contracting

officer requests the contractor to negotiate, the contractor shall submit a proposal which shall include a breakdown of the price in such form and supported by such reasonable detail as the contracting officer may request, but in any case indicating at a minimum the amount proposed for (1) direct labor, (2) material, (3) overhead, and (4) contingencies and profit.

**217.7103-4 Pre-Award survey.**

In addition to the procedures set forth in FAR 9.104 for making the determination called for by FAR 9.100, the contracting officer may make, before awarding a job order, a pre-award survey of the contractor's operations, including any analysis of the contractor's proposed subcontractors, to insure the adequacy and suitability of facilities, including safety standards and adequacy of fire protection, adequacy of facilities for the health, comfort, and welfare of the crew of the vessel, and adequate plant protection to safeguard the vessel and Government property.

**217.7103-5 Award of a job order.**

After the receipt and evaluation of bids or proposals and selection of the contractor, the price for the work and other pertinent data shall be set forth in a job order (SF 26, SF 33). This job order, by its terms, is subject to the provisions of the Master Agreement for Repair and Alteration of Vessels. When the acquisition has been made under sealed bid procedures, issuance of a job order, signed by the contracting officer only, constitutes an award. When the procurement has been negotiated, the job order must also be signed by the contractor and returned to the contracting officer.

**217.7103-6 Emergency work.**

Under the following circumstances, the contracting officer, without inviting bids or proposals, may issue a written order for work to a contractor who has previously executed a Master Agreement for Repair and Alteration of Vessels: (a) when a vessel, its cargo, or stores would be endangered by delay in the performance of necessary repair work, or (b) when military necessity requires immediate work on a vessel. As soon as practicable after the issuance of such an order, the parties are required by the Master Agreement for Repair and Alteration of Vessels to negotiate a price for the work. When agreement is reached upon a price, the contracting officer will issue a job order pricing the work.

**217.7103-7 Repair costs not readily ascertainable.**

If the nature of any repairs is such that their extent and probable costs are not readily ascertainable, the contracting officer may issue a job order on a negotiated or sealed bid basis, to determine the nature and extent of required repairs. The job order shall provide that upon such determination, the contractor, if requested by the contracting officer, shall negotiate prices for the performance of such work as the contracting officer may deem necessary to accomplish the repairs. The prices so agreed upon shall be set forth in a modification to the job order.

**217.7103-8 Modification of master agreements for repair and alteration of vessels.**

Whenever the Federal Acquisition Regulation and/or the DoD FAR Supplement is revised, the Master Agreement shall also be revised to incorporate all changes made necessary by the revision.

**217.7104 Contract clauses.**

(a) The contracting officer shall insert the following required clauses in all job orders awarded under the Master Agreement for Repair and Alteration of Vessels:

- (1) 252.217-7100 Definitions.
- (2) 252.217-7101 Changes.
- (3) 252.217-7102 Extras.
- (4) 252.217-7103 Job Orders and Compensation.
- (5) 252.217-7104 Inspection and Manner of Doing Work.
- (6) 252.217-7105 Title.
- (7) 252.217-7106 Payments.
- (8) 252.217-7107 Assignment of Claims.
- (9) 252.217-7108 Bonds.
- (10) 252.217-7109 Federal, State, Local and Foreign Taxes.
- (11) 252.217-7110 Default.
- (12) 252.217-7111 Disputes.
- (13) 252.217-7112 Performance.
- (14) 252.217-7113 Access to Vessel.
- (15) Reserved.
- (16) Reserved.
- (17) Reserved.
- (18) 252.217-7117 Equal Opportunity Clause.
- (19) 252.217-7118 Officials Not to Benefit.
- (20) 252.217-7119 Covenant Against Contingent Fees.
- (21) 252.217-7120 Termination for Convenience of the Government.
- (22) 252.217-7121 Authorization and Consent.
- (23) 252.217-7122 Notice and Assistance Regarding Patent and Copyright Infringement.

(24) 252.217-7123 Responsibility for Inspection.

(25) 252.217-7124 Liability and Insurance.

(26) 252.217-7125 Pricing of Adjustments.

(27) Reserved.

(28) Reserved.

(29) 252.217-7128 Clean Air and Water.

(30) 252.217-7129 Invoices.

(31) 252.217-7130 Guarantees.

(32) 252.217-7131 Discharge of Liens.

(33) 252.217-7132 Department of Labor Safety and Health Regulations for Ship Repairing.

(b) The Contracting Officer shall insert the following clauses in job orders awarded under the Master Agreement for Repair and Alteration of Vessels as applicable.

(1) 252.217-7200 Workers' Compensation and War Hazard Insurance Overseas.

(2) 252.217-7201 Buy American Act and the Balance of Payments Program.

(3) 252.217-7202 Notice to the Government of Labor Disputes.

(4) 252.217-7203 Patent Indemnity.

(5) 252.217-7204 Filing of Patent Applications.

(6) 252.217-7205 Contract Schedule Subline Items Not Separately Priced.

(7) 252.217-7206 Reporting and Refund of Royalties.

(8) 252.217-7207 Rights in Technical Data and Computer Software.

(9) 252.217-7208 Military Security Requirements.

(10) 252.217-7209 Utilization of Small Business and Small Disadvantaged Business Concerns.

(11) 252.217-7210 Examination of Records by Comptroller General.

(12) 252.217-7211 Gratuities.

(13) 252.217-7212 Convict Labor.

(14) 252.217-7213 Priorities and Allocations.

(15) 252.217-7214 Utilization of Labor Surplus Area Concerns.

(16) 252.217-7215 Limitation on Withholding of Payments.

(17) 252.217-7216 Equal Opportunity Pre-Award Clearance of Subcontracts.

(18) 252.217-7217 Subcontracts.

(19) 252.217-7218 Government Property.

(20) 252.217-7219 Federal, State, Local, and Foreign Taxes.

(21) Reserved.

(22) 252.217-7221 Price Reduction for Defective Cost or Pricing Data.

(23) 252.217-7222 Duty-Free Entry.

(24) 252.217-7223 Duty-Free Entry of Qualifying Country Supplies.

(25) 252.217-7224 Inspection System.

(26) 252.217-7225 Advance Payments.

(27) 252.217-7226 Required Sources for Jewel Bearings and Related Items.

(28) 252.217-7227 Required Sources for Miniature and Instrument Ball Bearings.

(29) 252.217-7228 Interest.

(30) 252.217-7229 Competition in Subcontracting.

(31) 252.217-7230 Audit by Department of Defense.

(32) 252.217-7231 Subcontractor Cost or Pricing Data.

(33) 252.217-7232 Value Engineering.

(34) 252.217-7233 Reserved.

(35) 252.217-7234 Required Sources for Precision Components for Mechanical Time Devices.

(36) 252.217-7235 New Material.

(37) 252.217-7236 Government Surplus.

(38) 252.217-7237 Utilization of Women-Owned Business Concerns (Over \$10,000).

(39) 252.217-7238 Material Inspection and Receiving Report.

(40) 252.217-7239 Protection of Government Buildings, Equipment and Vegetation.

(41) 252.217-7240 Government Delay of Work.

(42) 252.217-7241 Distribution of Defense Subcontracts Placed Overseas.

(43) 252.217-7242 Safety Precautions for Ammunition and Explosives.

(44) 252.217-7243 Cost Accounting Standards.

(45) 252.217-7244 Notification of Changes.

(46) 252.217-7245 Engineering Change Proposals (ECP's).

(47) 252.217-7246 Change Order Accounting.

(48) 252.217-7247 Contracts Conditioned Upon the Availability of Funds.

(49) 252.217-7248 Preference for Domestic Specialty Metals.

(50) 252.217-7249 Preference for United States-Flag Air Carriers.

(51) 252.217-7250 Exclusionary Policies and Practices of Foreign Governments.

(52) 252.217-7251 Hazardous Material Identification and Material Safety Data.

(53) 252.217-7252 Certification of Requests for Adjustment or Relief Exceeding \$100,000.

(54) 252.217-7253 Qualifying Country Sources as Subcontractors.

(55) 252.217-7254 Stop Work Orders.

(56) 252.217-7114 Certain Communist Areas.

(57) 252.217-7115 Contract Work Hours and Safety Standards Act—Overtime Compensation.

(58) 252.217-7116 Walsh-Healey Public Contracts Act.

(59) 252.217-7126 Affirmative Action for Disabled Veterans and Veterans of the Vietnam Era.

(60) 252.217-7127 Affirmative Action for Handicapped Workers.

(61) 252.217-7255 Subcontractor Cost or Pricing Data—Modifications—Sealed Bidding.

(62) 252.217-7256 Subcontractor Cost or Pricing Data.

(63) 252.217-7257 Notice of Total Small Business Set-Aside.

(64) 252.217-7258 Preference for Labor Surplus Area Concerns.

(65) 252.217-7259 Bid Guarantee.

(66) 252.217-7260 Production Progress Reports.

(67) 252.217-7261 Government-Furnished Property (Short Form).

(68) 252.217-7262 Clauses Incorporated by Reference.

(69) 252.217-7263 Aggregate Pricing Adjustment.

(70) 252.217-7264 Small Business and Small Disadvantaged Business Subcontracting Plan (Master Plans).

(71) 252.217-7265 Restrictive Markings on Technical Data.

(72) 252.217-7266 Identification of Technical Data.

(73) 252.217-7267 Data Requirements.

(74) 252.217-7268 Certain Communist Areas.

(75) 252.217-7269 Plant Protection.

#### Subpart 217.72—Acquisition of Component Parts

##### 217.7201 Privately developed items.

##### 217.7201-1 General.

It is Department of Defense policy to provide an incentive to industry creativity by honoring the rights in data resulting from private development and by limiting the demands for such data to that which is essential for Government purposes. It is important that the efforts directed toward permitting full and open competition do not demand or use privately developed data in a manner which is contrary to the policies and procedures established in FAR Part 27. Accordingly, when the policy stated above produces situations which require the contracting officer to decide whether to procure data for future competitive acquisition, the provisions of Part 227, as supplemented by this paragraph, shall govern.

##### 217.7201-2 Specific acquisition methods.

(a) When Defense requirements are for items which are available from more than one source as a result of either licensing, competitive copying, or independent development, the contracting officer shall provide for full and open competition for such items.

(b) When the Government desires to purchase privately developed items but

does not have necessary data with unlimited rights for use in a specification for competitive acquisition, the contracting officer shall use one of the following alternative procedures in order of preference (see also 217.7203).

(1) When items of identical design are not required, the contracting officer shall provide for full and open competition using performance or other similar specifications, including purchase descriptions, which do not contain data pertaining to items, components or processes, developed at private expense to which the Government does not have unlimited rights. There are two methods of competitive procurement which may provide items of the same or similar design and suitable performance. One of these is purchase by two-step sealed bidding. The other is by the use of "brand name or equal" purchase descriptions. To encourage participation by technically oriented firms that are desirous of offering their privately developed products in competition with similar articles, contracting activities should consider incorporating a requirement in the IFB or RFP for a bid sample to be used for evaluation purposes only (see 210.004(b)(3)(i)).

(2) When items of design or composition similar or identical to a privately developed item are required and other than full and open competition is authorized under Part 206, procurement should be from the firm which developed or designed the item or process or its licensees, *provided* productive capacity and quality are adequate and price is fair and reasonable.

(3) When additional sources are required for items of design or composition similar or identical to a privately developed item in order to meet total current or mobilization requirements, and the procedures in (1) above cannot practicably be used to create additional sources, the developer should be encouraged to license others to manufacture such items. Procuring activities should also consider the specific acquisition by the Government of the necessary rights in data. When complex technical equipment is involved and the establishment of satisfactory additional sources will require, in addition to data, technical assistance from the primary source, consideration should be given to the use of the leader company acquisition technique (see FAR Subpart 17.4).

(4) As a last alternative, a design specification may be developed by the Government through inspection and analysis of the product (i.e. reverse engineering) and used for competitive acquisition. Reverse engineering shall

not be used unless significant cost savings can be reasonably demonstrated and the action is authorized by the Head of the Contracting Activity.

#### **217.7202 Component breakout.**

##### **217.7202-1 Scope of paragraph.**

(a) This section sets forth guidance for making decisions on whether or not components should be acquired by the Government directly and furnished to an end item contractor as Government-furnished material, for incorporation in the end item. This paragraph, however, does not pertain to all such decisions, but only to those which deal with whether components that have been included as contractor-furnished material in a previous acquisition of the end item should be "broken out" from a forthcoming end item acquisition for direct Government acquisition. Thus, except as set forth in Part 7, this paragraph does not pertain to the initial Government-furnished equipment/contractor-furnished equipment decisions that must be made at the inception of an acquisition program.

(b) Parts acquired for replenishment are not covered by this paragraph, but are governed by 217.7203 and Supplement 6, Replenishment Parts Breakout Program.

(c) This section applies to acquisitions of weapons systems or other items of major equipment involving components whose direct acquisition by the Government may result in substantial net cost savings over the life of the acquisition program. Accordingly, it will seldom be applicable to an acquisition of such a system or item of less than \$1,000,000. The term "component", as used in this paragraph, includes subsystems, assemblies, subassemblies, and other major elements of an end item, but does not include elements of relatively small annual acquisition value.

##### **217.7202-2 Policy.**

Whenever it is anticipated that the prime contract for a weapons system or other major end item will be awarded without adequate price competition, and the prime contractor is expected to acquire a component without such competition, it is Department of Defense policy to break out that component if:

- (a) Substantial net cost savings will probably be achieved; and
- (b) Such action will not jeopardize the quality, reliability, performance or timely delivery of the end item.

The desirability of breakout should also be considered (regardless of whether the prime contract or the component being

acquired by the prime contractor is on the basis of price competition) whenever substantial net cost savings will result (1) from greater quantity acquisitions or (2) from such factors as improved logistics support through reduction in varieties of spare parts and economies in operations and training through standardization of design. Primary breakout consideration shall be given to those components of the end item representing the highest annual acquisition costs and offering the largest potential net savings through breakout.

##### **217.7202-3 Responsibility for component breakout selection, review and decision.**

The program manager, project manager, project officer, program director, or other official responsible for the material program concerned, supported by a project team (to include the Small Business Specialist, cognizant engineering, production, logistics, maintenance and other appropriate personnel, and the contracting officer or designee), shall be responsible for:

- (i) Earmarking as susceptible to breakout those components potentially conforming to the criteria and policy set forth herein;
- (ii) Conducting the breakout review and evaluation described in 217.7202-4;
- (iii) Making the decision whether or not to break out the component; and
- (iv) Preparing records explaining such decisions in compliance with 217.7202-5.

##### **217.7202-4 Breakout guidelines.**

(a) Each decision on whether or not to break out a component must embrace (1) assessment of the potential risks of degrading the end item through such contingencies as delayed delivery and reduced reliability of the component, (2) calculation of estimated net cost savings (i.e., estimated acquisition savings less any offsetting costs), and (3) analysis of the technical, operational, logistic and administrative factors involved. As to each of these, the decision must be supported by adequate explanatory information, including an assessment by, and consultation with, the end item contractor when feasible.

(b) In deciding whether a component should be broken out, the guidelines set forth below (in the form of questions) should be considered. Answers will rarely be "positively yes" or "positively no" but usually "probably yes" or "probably no", with the degree of probability governed by the facts of the particular case. The decisions will depend largely upon the degree and significance of the risks to quality performance, reliability and timely delivery of the end item which would be

involved in breakout and upon the estimated overall cost savings. Where the risks, if any, are acceptable and breakout is expected to result in substantial overall cost savings, the component should be broken out. On the other hand, if such risks are unacceptable, the components should not be broken out.

(1) Are the design of the component (and the design of the end item insofar as it will affect the component), sufficiently stable that further design or engineering effort by the end item contractor in respect to the component is unlikely to be required?

(2) Is a suitable data package available with rights to use it for Government acquisition? (Note that breakout may be warranted even though competitive acquisition is not possible.)

(3) Can any problems of quality control and reliability of the component be resolved without requiring effort by the end item contractor?

(4) Is it anticipated that requirements for technical support (i.e., functions such as development of proposed detailed specifications; development of test requirements to prove design adequacy or compliance with design; monitoring tests to assure compliance with established requirements; definition of quality assurance requirements for production of articles; and analysis and correction of service-revealed deficiencies) heretofore performed by the end item contractor will be negligible? If not, does the Government have the resources (manpower, technical competence, facilities, etc.) to provide such support, or can such support be obtained from the end item contractor (even though the component is broken out) or other source?

(5) Can breakout be accomplished without causing unacceptable difficulties in logistics support (e.g., by jeopardizing requisite standardization of components)?

(6) Can breakout be accomplished without causing over fragmentation of the end item that might materially impede administration, management, and performance of the end item contract (e.g., by unduly complicating production scheduling or identifying (and fixing responsibility for) end item failure that may be caused by a defective component)?

(7) Can breakout be accomplished without jeopardizing delivery requirements of the end item?

(8) If a decision is made to break out a component and to acquire it from a new source, can advance acquisition funds be made available to provide that source any necessary additional lead time?

(9) Is there a source other than the present manufacturer capable of supplying the component?

(10) Has the component been (or is it known that it is going to be) acquired directly by the Government as a support item in the supply system or as GFE in other end items?

(11) Would the financial risks and other responsibilities being assumed by the prime contractor that will have to be assumed by the Government if the item is broken out be acceptable?

(12) Will breakout result in substantial net cost savings? Estimates of probable savings in cost, should be developed for each case on its own facts, with consideration given to any estimated offsetting costs such as increases in the cost of requirements determination and control, contracting, contract administration, data package purchase, material inspection, qualification or preproduction testing, ground support and test equipment, transportation, security, storage, distribution, and technical support.

(c) If application of the guidelines in (b) above reveals conditions currently unfavorable to breakout, the feasibility of eliminating such conditions should be considered. For example, where adequate technical support is not available from Government resources, or similar assistance must be obtained in order to successfully accomplish breakout, consideration should be given to the contracting for the necessary services, such as product assurance suitability services, from the end item contractor or other qualified source.

#### 217.7202-5 Records and review procedure.

The records of the contracting activity shall contain documentation of:

(a) Those components which have been reviewed and determined to have no potential for breakout;

(b) Those components which have been reviewed and earmarked as being susceptible to breakout pursuant to 217.7202-3; and

(c) Those components for which a decision to breakout has been made. Documentation of these three categories, and for those components once earmarked but no longer considered susceptible to breakout, shall be signed by the cognizant project manager or other designated official and reflect the facts and conditions of the case, including any assessment by the contractor, and the basis for the decision. Components that have been earmarked for potential breakout shall be reviewed well in advance of each successive acquisition, with a decision made as to whether the component will

be broken out for the ensuing acquisition. Such reviews, made preferably in the course of requirements determination, but in any event before acquisition of the requirement is initiated, shall be repeated until a final decision on whether or not to breakout is reached, and shall be documented. When breakout is delayed or postponed, the documentation shall include a description of the actions required to accomplish breakout, identify the activities responsible for such actions, and indicate the fiscal year when breakout should be effected.

#### 217.7203 Acquisition of parts.

(a) Any part, subassembly, or component (hereinafter called "part") for military equipment, to be used for replenishment of stock, repair, or replacement, must be acquired so as to assure the requisite safe, dependable, and effective operation of the equipment. Where it is feasible to do so without impairing this assurance, parts should be acquired on a full and open competitive basis, as in the kind of cases described in (b) below. However, where this assurance can be had only if the parts are acquired from the original manufacturer of the equipment or his supplier, the acquisition should be restricted accordingly, as in the kind of cases described in (c) below. Centrally managed replenishment parts for military systems and equipment (except replenishment parts acquired under other specifically defined initial support programs or acquired through local purchase) are governed by Supplement 6, the Replenishment Parts Breakout Program.

(b) Parts that are fully identified and can be obtained from a number of known sources, and parts for which fully adequate manufacturing drawings and any other needed data are available with the right to use for acquisition purposes (or can be made so available in keeping with the policies in FAR Part 27 are to be acquired on a competitive basis. In general, such parts are of a standard design configuration. They include individual items that are susceptible of separate acquisition, such as resistors, transformers, generators, spark plugs, electron tubes, or other parts having commercial equivalents.

(c) Parts not within the scope of (b) above generally should be procured (either directly or indirectly) only from sources that have satisfactorily manufactured or furnished such parts in the past, unless fully adequate data (including any necessary data developed at private expense), test results, and quality assurance

procedures, are available with the right to use for procurement purposes (or can reasonably be made so available in keeping with the policies in FAR Part 27 to assure the requisite reliability and interchangeability of the parts, and acquisition on a competitive basis would be consistent with the assurance described in (a) above. In assessing this assurance, the nature and function of the equipment of which the part is needed should be considered. Parts qualifying under this criteria are normally sole source or source controlled parts (see MILSTD 100) which exclusively provide the performance, installation and interchangeability characteristics required for specific critical applications. To illustrate, acceptable tolerances for a commercial television part may be far less stringent than those for a comparable military radar part, permitting competitive contracting for the former but not for the latter. The exacting performance requirements of specially designed military equipment may demand that parts be closely controlled and have proven capabilities of precise integration with the system in which they operate, to a degree that precludes the use of even apparently identical parts from new sources, since the functioning of the whole may depend on latent characteristics of each part which are not definitely known.

(d) When an award is made to a source that has not previously produced the item, the cognizant Government inspection activity and the appropriate contract administration office should be notified by the contracting office that the contractor will be producing the item for the first time.

(e) *Limitations on price increases.*

(1) Except as provided in (2) below, the contracting officer shall not purchase or agree to a price for any centrally managed spare or replacement part, on a sole source basis, when the price of such part has increased by 25 percent or more at any time within the most recent 12-month period.

(2) The purchase of such part is permitted notwithstanding a price increase of 25 percent or more provided the contracting officer certifies in writing to the head of a contracting activity before the purchase is made that:

(i) The contracting officer has evaluated the price of such part and concluded that the price increase is fair and reasonable, or

(ii) The national security interests of the United States require that such part be purchased despite the price increase.

(3) If necessary to implement this paragraph (e), contracting officers may

require that vendors supply price and quantity data for any government orders issued within the most recent 12 months for the spare or replacement part as part of their response to a solicitation.

(4) The fact that a particular price has not increased by 25 percent in no way relieves the contracting officer of the responsibility for obtaining a fair and reasonable price.

#### 217.7204 Identification of sources of supply.

(a) 10 U.S.C. 2384(a) requires that, whenever practicable, each contract requiring the delivery of supplies shall require that the contractor identify:

(1) The actual manufacturer or producer of the item or of all sources of supply of the contractor for that item;

(2) The national stock number of the item (if there is such a number), and the identification number of the actual manufacturer or producer of the item or of each source of supply of the contractor for the item; and

(3) The source of any technical data delivered under the contract.

This enables contracting officers to obtain sufficient information to allow solicitation of all actual manufacturer(s) of end items, parts, subassemblies and/or components, thereby allowing for enhancing competition and avoiding payment of additional costs where no significant value is added by dealers, distributors and manufacturers other than the actual manufacturer.

(b) The contracting officer shall include the clause at 252.217-7270 in all supply contracts except when:

(1) The contracting officer already has the information required by this clause (for example, the information was obtained as part of the offer or under other acquisitions);

(2) The contract is for subsistence, clothing or textiles, fuels, or supplies purchased and used outside the United States; or

(3) The contracting officer determines that it would not be practicable to require the contractor to provide the information, e.g., nonrepetitive local purchases.

(c) The contracting officer may include the clause at 252.217-7270 in service contracts requiring the delivery of supplies when appropriate.

#### Subpart 217.73—Special Commodities

##### 217.7301 Bakery and dairy products contracts.

##### 217.7301-1 Scope.

This section sets forth special policies and requirements for acquisition of perishable bakery and dairy products.

##### 217.7301-2 Plant locations.

Prior to award of a contract for perishable bakery or dairy products the contractor must identify the plant or plants at which any manufacturing or processing will occur and from which shipment will be made. The plants named by the successful contractor shall be listed in the Schedule.

##### 217.7301-3 Chemical and microbiological requirements (fresh dairy foods).

(a) *Chemical requirements.* Fresh dairy foods shall meet the chemical requirements for each fresh dairy food specification cited in the contract on the date of award.

(b) *Microbiological requirements.* Milk and milk products as defined in DLAM 8200.1, shall meet microbiological requirements stated in the Public Health Service Publication 229 in effect on the date of award. In the event of conflict between these requirements and individual product specifications, the requirements of Public Health Service Publication 229 shall govern.

(c) *Cultured products.* Cultured products shall meet the coliform requirements as specified in the Public Health Service Publication 229 in effect on the date of award. In the event of conflict between these requirements and individual product specifications, the requirements of Public Health Service Publication 229 shall govern.

(d) *Solicitation and contract requirements.* The requirements of (a), (b) and (c) above shall be expressed in solicitations and contracts for fresh dairy products.

##### 217.7301-4 Containers and equipment (milk dispensing).

If the contractor is to furnish cabinets for dispensing milk from bulk containers, a notice so stating shall be included in the Schedule of solicitations and resultant contracts. The notice shall state (a) the number of dispenser cabinets required, or a reasonably accurate estimate thereof, (b) whether metal stands for the cabinets are required, (c) the number of cabinets required with a capacity of two containers each, and (d) the number required with a capacity of three containers each.

##### 217.7301-5 Contract clauses.

(a) The contracting officer shall insert the following clauses in solicitations and contracts for perishable bakery and dairy products when an indefinite delivery type contract (see FAR 16.5) is to be used.

(1) 252.217-7300, Delivery Vehicles.

(2) 252.217-7301, Time of Delivery. When an indefinite quantity contract is to be used, rather than a requirements contract, the contracting officer shall use the clause as modified by its Alternate I.

(3) 252.217-7302, Change in Plant Location, (see 217.7301-2).

(4) 252.217-7303, Sanitary Conditions. When an indefinite quantity contract is used, rather than a requirements contract, the contracting officer shall use the clause as modified by its Alternate I.

(5) 252.217-7304, Remedies Under Delivery Orders. When delivery orders are to be placed by an activity other than the activity which awarded the contract, and in order to establish authority in the ordering officer under the Changes, Extras, Inspection, Default (Fixed Price Supply and Service), and Disputes clauses, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the following clauses, substantially the same as the clauses prescribed below, in solicitations and indefinite delivery contracts for perishable dairy products.

(1) 252.217-7305, Examination and Testing.

(2) 252.217-7306, Deficiency Adjustment. The formulas prescribed in the clause may be modified to accommodate purchasing or ordering activities which do not have access to the Department of Agriculture reports cited therein.

(3) 252.217-7307, Warning.

(4) 252.217-7308, Suspension. When an indefinite quantity contract is used, rather than a requirements contract, the contracting officer shall use the clause with its Alternate I.

(5) 252.217-7309, Default.

(6) 252.217-7310, Reinstatement.

(c) The contracting officer shall insert the clause at 252.217-7311, Code Dating, in solicitations and indefinite delivery type contracts for perishable bakery and dairy products when a Schedule or specification provision requires the labels of one or more items to show the date of pasteurization, manufacture, production, or processing, and in order to permit the use of a coding system.

(d) The contracting officer shall insert the clause at 252.217-7312, Marking, in solicitations and indefinite delivery contracts for perishable bakery and dairy products except when a provision is inserted in the Schedule specifically requiring supplies to be marked in accordance with MIL-STD-129, Marking for Shipment and Storage.

(e) The contracting officer shall insert the clause at 252.217-7313, Responsibility for Containers and Equipment, in solicitations and indefinite delivery contracts for perishable bakery and dairy products

when the contractor is to provide reusable containers and equipment.

(f) The contracting officer shall insert the clause at 252.217-7314, Containers and Equipment, in solicitations and indefinite delivery contracts for perishable bakery and dairy products when the contractor is to furnish cabinets for dispensing milk from bulk containers (see 217.7301-4).

#### **Subpart 217.74—Contracts With Requirements For Provisioned Items**

##### **217.7400 Scope of subpart.**

This subpart sets forth contract requirements and procedures to be followed with respect to the provisioning process.

##### **217.7401 Definitions.**

"Provisioned Item" means any support-type item selected through provisioning procedures to support an end item of equipment. Support-type items include (but are not limited to) spares, repair parts and special support equipment.

"Provisioned Items Order" means an unpriced order issued under a contract which sets forth the Government's requirements for provisioned items. (Provisioned items for which firm prices have been established are acquired by supplemental agreement or by separate contract.)

"Provisioning Activity" means that organization of a using Military Service, or that organization delegated by a using Service, which is responsible for the selection of, and the determination of requirements for, provisioned items.

"Provisioning Procedure" means the contract specification which sets forth the general requirements governing the acquisition of provisioned items and related documentation. It includes various optional provisioning techniques and formats for provisioning lists and data which the Government may elect to use on a particular contract. It also prescribes the sequence and timing of events to be followed and the responsibilities of the Government and the contractor in the provisioning process.

"Provisioning Requirements Statement" means the contractual document by which the Government notifies the contractor of the specific provisioning requirements selected from available options, as applicable to a particular contract. It normally includes instructions such as the provisioning method to be used; the range of provisioning technical documentation and data including the form and schedule of submission, number of copies and distribution instructions; the

type and location of provisioning conferences; sample article requirements; the delivery schedule and packaging and marking requirements for provisioned items, and contractor requirements for provisioning screening.

"Provisioning Technical Documentation" means the documentation furnished by contractors to a provisioning activity for use in the identification, determination of initial requirements and cataloging of items to be acquired. It generally includes provisioning lists, priced spare parts lists, and EDP cards and tapes. Engineering drawings or sketches supported by item descriptions (which include technical characteristics) are referred to as supplementary provisioning technical documentation.

##### **217.7402 Acquisition requirements.**

(a) *Contract requirements.* Contracts which contain Provisioning Procedures shall specify the functions of the provisioning process to be performed under the contract and the activities responsible for performing these functions. Further, such contracts shall:

(1) Include a Provisioning Requirements Statement or specify a time (e.g., days after award) for its incorporation in the contract by contract modification; revisions to the Provisioning Requirements Statement shall also be incorporated by contract modification;

(2) Provide on the DD Form 1423 a time schedule or milestones for the delivery of provisioning technical documentation or for the subsequent incorporation thereof in the contract by contract modification;

(3) Require a flow-down of the appropriate provisioning technical documentation requirement in subcontracts and purchase orders where the documentation is to be prepared by subcontractors;

(4) Specify, if applicable, procedures for contractor interim release of long lead time items and include ordering and funding instructions for such items. (Such instructions shall require the contractor to advise the PCO or Provisioning Activity within 30 days as to the items released, their estimated cost and the effective date of release.);

(5) Provide a time-frame for contractors to furnish price quotations for Provisioned Items Orders, which normally shall not exceed 60 days from receipt of the order;

(6) Specify exhibit identifiers applicable to the contract line/subline items (see 204.7105).

(7) Specify the activity designated to issue Provisioned Items Orders, i.e.,

Contracting Officer, Provisioning Activity or ACO. (When it is anticipated that more than one department will place Provisioned Items Orders against the contract, the requirements for provisioned items of each department shall be stated as separate contract line items.);

(8) Include procedures for processing changes in quantities of items ordered, including cancellations.

(b) *Issuance of provisioned items orders.* Provisioned Items Orders shall be issued on Standard Form 30, Amendment of Solicitation/Modification of Contract, and numbered in accordance with 204.7004-3.

(1) The Term Provisioned Items Order, in capital letters and underscored, shall be entered in Block 14.

(2) The appropriate exhibit identifier(s) for all attached exhibits shall be entered in Block 14.

(3) The order shall obligate funds to cover the estimated price of the items being ordered. Individual estimated prices will be shown for each exhibit line item on the copy(ies) of the Provisioned Items Order to be provided to the accounting and payment office(s).

(4) The Provisioned Items Order, or other form of contract modification, shall be used to effect decreases in quantities of items ordered, including cancellation.

(5) Upon receipt of advice from the contractor, as provided in (a)(4) above, the contracting officer will normally within 30 days issue an order covering the interim released items or notify the contractor to cancel the items.

(6) Orders shall be given the same distribution as the basic contract (see FAR 4.2) except that the distribution of voluminous spares/repair parts exhibits may be curtailed to the extent determined by the Contracting Officer and provided that the required copies, complete with exhibits, are forwarded to the Contract Administration Office and the payment office.

#### 217.7403 Contract administration requirements.

(a) *Provisioning conferences.* The Contracting Officer or Provisioning Activity shall give the Contract Administration Office (CAO) timely notice of conferences on provisioning matters. The CAO shall: (1) Insure that the contractor understands the basic provisioning requirements of the contract and that all applicable publications are available to the contractor; (2) coordinate, as necessary, with the contractor and the Contracting Officer or Provisioning Activity to determine the types of and schedules for provisioning conferences required, e.g.,

guidance meetings, long lead time items conferences, source coding meetings, etc.; and (3) assist, if required, in the development of conference agenda. When requested by the Contracting Officer or Provisioning Activity or when otherwise considered necessary for effective contract administration, the CAO shall be represented at provisioning conferences.

(b) *Monitoring by the contract administration office.* The CAO shall monitor each contract which contains requirements for provisioning technical documentation and provisioned items, as follows:

(1) Prepare and maintain a check list of events in the provisioning process, including schedules for use in monitoring such events;

(2) Review contractor progress in the preparation of provisioning technical documentation and, on request of the Contracting Officer or Provisioning Activity, inspect such documentation for format and content;

(3) Insure that the contractor invokes the prime contract provisioning technical documentation requirements in subcontracts and purchase orders when the subcontractor is charged with preparation of any documentation;

(4) Advise the Contracting Officer or Provisioning Activity, in accordance with FAR 42.11 of provisioning technical documentation delivery delays or other related problems.

(5) Ensure contractor compliance with contract requirements relative to the assignment of National Stock Numbers.

(6) Ensure that the contractor adheres to the criteria established by the contract for the release of long lead time items.

(c) *Negotiating and executing supplemental agreements.* The ACO shall accomplish negotiation of prices and execution of supplemental agreements within 180 days after receipt of the Provisioned Items Order *provided* that, when time in excess of 60 days is allowed for submission of price quotations (see 217.7402(a)(5)), the 180 day period shall be adjusted accordingly. The ACO also shall maintain records to reflect the status of Provisioned Items Orders as to adequacy of obligated funds, due dates for price quotations, and actions taken to obtain additional funds or deobligate excess funds.

(1) In the process of negotiating prices, the ACO shall:

(i) Determine the acceptability of pricing methods proposed by the contractor;

(ii) Verify that items and quantities contained in proposals are identical to those ordered, clarifying, as appropriate,

any variances with the Contracting Officer or Provisioning Activity; and

(iii) Avail himself of data from similar contracts with the contractor, making use of audit records and information available from the Contracting Officer or Provisioning Activity. Price negotiation policies and techniques set forth in FAR 15.8 shall be followed, including the record of price negotiations required by FAR 15.808.

(2) When delivery dates are not proposed by the Contracting Officer or Provisioning Activity or, when proposed delivery dates cannot be met by the contractor, the ACO shall coordinate the negotiated schedule with the Contracting Officer or Provisioning Activity prior to the execution of the supplemental agreement.

(3) Supplemental Agreements shall be used to increase quantities of priced items and to definitize Provisioned Items Orders. Supplemental Agreements which definitize Provisioned Items Orders may incorporate multiple orders, or portions of orders when such action is not inconsistent with the provisions of the applicable contract.

## PART 219—SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

### Subpart 219.1—Size Standards

#### 219.102-70 Size standards for transportation industries.

(c) No concern offering to provide local and/or long distance trucking, warehousing and/or packing and crating, and/or freight forwarding will be denied small business status for the purpose of Government acquisition solely because of its contractual relationship with a large interstate van line if the concern's annual receipts have not exceeded \$7 million during its most recently completed fiscal year.

### Subpart 219.2—Policies

#### 219.201 General policy.

(b)(1) The Director of Small and Disadvantaged Business Utilization is responsible for the development of overall DoD small business and disadvantaged business goals and for consulting with SBA regarding the establishment of such goals.

(2) Departmental Directors of Small and Disadvantaged Business Utilization are responsible for the development of small business and disadvantaged business utilization goals for

subordinate elements within their department. These goals will be further assigned by these subordinate elements as appropriate, such as engineer district offices or individual contracting divisions within a central contracting activity or major commodity command.

(3) Heads of contracting activities are responsible for the attainment of assigned small business and disadvantaged business utilization goals.

(4) Within 60 days after the conclusion of each fiscal year, the Secretaries of the Military Departments and the Directors of Defense agencies shall report to the Secretary of Defense on the extent of participation by small business concerns and disadvantaged business concerns in contracts awarded by their Department. Such report shall contain appropriate justifications for failure to meet goals established by the Office of the Secretary of Defense, as well as actions planned to increase the rate of participation by such firms in future contract awards. The Office of the Secretary of Defense will submit information to SBA concerning any failure to meet established goals and actions to be taken to improve future performance.

(d)(1) Small and disadvantaged business utilization specialists shall be appointed by name, in writing, for contracting activities, contract administration offices, and other such offices, as the Departments consider appropriate. They shall be responsible directly to the appointing authority and shall not be subject to the direction of contracting, contract administration, or technical personnel. The appointing authority, without power of redelegation, is as follows:

(i) Army—Commanders of major commands, Commanders of major subordinate commands, and installation, post, camp, station or activity commanders. For each major command, one specialist will be appointed as the Associate Director for Small and Disadvantaged Business Utilization, reporting directly to the Commander or the second-in-command. The Associate Director will have primary responsibility for the effective implementation of the Army's small business, disadvantaged business utilization, labor surplus area and other socio-economic business programs within the Command. The Associate Director for Small and Disadvantaged Business Utilization Policy at Major Command Headquarters other than at the Army Materiel Command (AMC), Office, Chief of Engineers (OCE), Forces Command (FORSCOM), Training and Doctrine

Command (TRADOC), may be assigned on a part-time basis.

(ii) Navy—Head of a contracting activity or the official in charge of an activity having purchase authority of \$10,000 or more, or in charge of a contract administration activity;

(iii) Air Force—Commander of each central contracting activity; the Wing/Base Commander of each local contracting office and the Chief of each contract administration activity. In addition, an Executive for Small and Disadvantaged Business Utilization shall be appointed by the Commander of each Major Air Command in the United States, not mandatorily reporting directly to the Commander but having ready access to such person, who will have primary responsibility for the effective implementation of the Air Force small business, small disadvantaged business utilization and labor surplus area program(s) within the Command;

(iv) Defense Logistics Agency—Commanders of Defense Supply Centers, Commanders, Defense Contract Administration Services Regions and Commanders of other DLA contracting activities;

(v) National Security Agency—the Director;

(vi) Defense Communications Agency—the Director;

(vii) Defense Nuclear Agency—the Director;

(viii) Defense Mapping Agency—Director; directors of subordinate components.

A copy of each appointment and termination of appointment of all such specialists shall be forwarded to the appropriate Department or Agency Office of Small and Disadvantaged Business Utilization (219.201(71)). In addition to performing that portion of the specific program outlined in (2) below that is normally performed in the activity to which the specialist is assigned, the small and disadvantaged business utilization specialist shall advise the head of the activity and shall perform such additional functions as are prescribed for the specialist in furtherance of the overall small business, small disadvantaged business utilization and labor surplus area programs. A small and disadvantaged business utilization specialist shall be appointed on a full-time basis in all activities having sufficient business or program responsibility to justify such action. When the volume of contracting does not warrant assignment of a full time small and disadvantaged business utilization specialist, an individual shall be appointed as the specialist on a part-

time basis. The responsibilities of this assignment shall take precedence over collateral responsibilities.

(2) A small and disadvantaged business utilization specialist (SADBU), appointed pursuant to the above, shall perform the following duties, as determined to be appropriate to the activity by the appointing officer or by the Departmental or Agency Director or Staff Director of Small and Disadvantaged Business Utilization. The SADBU shall:

(i) Maintain a program designed to locate capable small business, small disadvantaged business and labor surplus area business sources for current and future acquisitions, through SBA or other methods;

(ii) Coordinate inquiries and requests for advice from small business, small disadvantaged business and labor surplus area business concerns on acquisition matters;

(iii) Review acquisitions to insure maximum opportunity for participation by small and disadvantaged business, women-owned, and LSA, and to make recommendations for set-aside and 8(a) awards (see 19.501(c));

(iv) When small business concerns cannot be given an opportunity to compete because adequate specifications or drawings are not available, unless there are sufficient and valid reasons to the contrary, initiate action, in writing, with appropriate technical and contracting personnel to insure that necessary specifications or drawings of the current or future acquisitions, as appropriate, are available;

(v) Review acquisition programs for possible breakout of items suitable for acquisition from small business concerns;

(vi) Ensure that financial assistance available under existing regulations is offered and that requests by small business concerns for proper assistance are not treated as a handicap in the award of contracts;

(vii) Participate in determinations concerning responsibility of a prospective contractor whenever small business concerns are involved;

(viii) Participate in the evaluation of a prime contractor's small business, labor surplus, and small disadvantaged business subcontracting plans;

(ix) Review and make appropriate recommendations to the contracting officer on any proposal to furnish Government-owned facilities to a contractor if such action may hurt the small business program;

(x) Assure that participation of small business concerns is accurately reported;

(xi) Bring to the attention of the Department Director or Staff Director for Small and Disadvantaged Business Utilization possible contracting opportunities in labor surplus area;

(xii) Make available to SBA copies of solicitations when so requested;

(xiii) When a bid from a small business, small disadvantaged business or labor surplus area firm has been rejected for nonresponsiveness or nonresponsibility, upon request, aid, counsel and assist that firm in understanding requirements for responsiveness and responsibility so that the firm may be able to qualify for future awards;

(xiv) Participate in government-industry conferences to assist small business, small disadvantaged business and labor surplus area concerns, including Business Opportunity/Federal Procurement Conferences, Minority Business Enterprises Procurement Seminars, and Minority Business Opportunity Committee meetings;

(xv) Advise potential suppliers how they may obtain information about formal advertising and negotiated acquisitions and that they may subscribe to the Commerce Business Daily as a source of information on proposed acquisitions;

(xvi) Brief the specialist's Commander at least once quarterly concerning the status of the installation's small business, small disadvantaged business utilization and labor surplus area programs in relation to goals and objectives established by higher headquarters;

(xvii) Participate in the development, implementation and review of automated contracting systems to assure that the interests of small business, small disadvantaged business and labor surplus area firms are fully considered with particular reference to FAR 19.202-4(c), FAR 19.501(c), and FAR 19.502;

(xviii) Assist program managers as early as possible in the development cycle of major system acquisitions and system programs as pertains to the small business programs;

(xix) Assist contracting officers in establishing criteria for and determining acceptability of small business and small disadvantaged business concerns subcontracting plans submitted by prime contractors;

(xx) Assure that the installation's small business, small disadvantaged business and labor surplus area business programs are frequently publicized in the appropriate media;

(xxi) Assure that the organization maintains a list of products and services which have been placed on repetitive small business setaside;

(xxii) Provide small business, small disadvantaged business and labor surplus area firms information regarding assistance available from Federal agencies such as the Small Business Administration, Office of Minority Business Enterprise, Bureau of Indian Affairs, Office of Economic Development, National Science Foundation, Department of Labor and others including state, trade, and other associations;

(xxiii) Be responsible for establishing an education and training program for personnel whose duties and functions affect the activity's small business, small disadvantaged business and firms located in labor surplus areas;

(xxiv) Recommend to the specialist's Commander the activity small business and disadvantaged business utilization overall goals and goals to be placed on subordinate contracting offices;

(xxv) Participate in interagency programs relating to small business, small disadvantaged business and labor surplus area matters as authorized by the Director of SADB; and

(xxvi) Advise and assist contracting officers in discharging their responsibilities by:

(A) Monitoring and reviewing contractor performance to determine compliance with small and disadvantaged small business subcontracting plans;

(B) Developing and maintaining records and reports that reflect such compliance or noncompliance.

(S-70) *Office of the Secretary of Defense Directors.*

(1) *Director of Small and Disadvantaged Business Utilization.* The Director of Small and Disadvantaged Business Utilization reports directly to the Deputy Secretary of Defense and is responsible for the overall management and direction of the DoD small business, disadvantaged business utilization, and labor surplus area programs and for advising the Secretary of Defense and the Deputy Secretary of Defense in matters relating to these programs. To that end, the Director will provide guidance to the Departments and periodically review the direction and implementation of their activities in promoting contract awards to small business, small disadvantaged business, and labor surplus area concerns.

(2) *Director of Small Business and Economic Utilization Policy.* The Director of Small Business and Economic Utilization Policy is

responsible for the establishment, implementation, and execution of DoD small business and labor surplus area programs. Negotiations with the SBA, the Office of Federal Procurement Policy, the Office of Management and Budget, and other agencies or departments outside the Department of Defense, concerning small business and labor surplus area policy, programs, and DoD goals shall be conducted by the Director of Small Business and Economic Utilization Policy or, with authorization, by representatives of the Departments. The Director of Small Business and Economic Utilization Policy, on behalf of the Director of Small and Disadvantaged Business Utilization, will provide guidance to the Departments' Directors of Small and Disadvantaged Business Utilization regarding small business and labor surplus area matters.

(3) *Director of Disadvantaged Business Utilization Policy.* The Director of Disadvantaged Business Utilization Policy is responsible for the establishment, implementation, and execution of the DoD socially and economically disadvantaged business utilization program. Negotiations with the Small Business Administration, the Office of Federal Procurement Policy, the Office of Management and Budget, and other agencies or departments outside the Department of Defense, concerning disadvantaged business utilization policy, programs, and DoD goals shall be conducted by the Director for Disadvantaged Business Utilization Policy or, with authorization, by representatives of the Departments. The Director of Disadvantaged Business Utilization Policy, on behalf of the Director of Small and Disadvantaged Business Utilization, will provide guidance to the Departments' Directors of Small and Disadvantaged Business Utilization regarding disadvantaged business utilization matters.

(S-71) *Departmental Directors of Small and Disadvantaged Business Utilization.*

(1) Each department or agency shall maintain an Office of Small and Disadvantaged Business Utilization as follows:

Army—Director, Office of Small and Disadvantaged Business Utilization, Office of the Secretary of the Army, Pentagon, Washington, DC 20310;

Navy—Director, Office of Small and Disadvantaged Business Utilization, Office of the Secretary of the Navy, Washington, DC 20360;

Air Force—Director, Office of Small and Disadvantaged Business Utilization, DCS/RD&A, Pentagon, Washington, DC 20330;

Defense Logistics Agency—Staff Director, Office of Small and Disadvantaged Business Utilization, Code DLA-U, Cameron Station, Alexandria, VA 22314;

National Security Agency—Director, Office of Small and Disadvantaged Business Utilization, Fort Meade, MD 20755;

Defense Communications Agency—Director, Office of Small and Disadvantaged Business Utilization, Code 260, Washington, DC 20035;

Defense Nuclear Agency—Director, Office of Small and Disadvantaged Business Utilization, (Code OAFR), Washington, DC 20305;

Defense Mapping Agency—Director, Office of Small and Disadvantaged Business Utilization, Headquarters, Washington, DC 20305.

(2) Each Departmental Office of Small and Disadvantaged Business Utilization shall be managed by a Director who shall be appointed by the Secretary of the department and shall be responsible to and report directly to the Secretary or Under Secretary of the Department. Directors of Defense agencies shall appoint a Staff Director for Small and Disadvantaged Business Utilization who shall be responsible to and report directly to the Director or the Deputy Director.

(3) The primary responsibility of the Director or Staff Director of each Office of Small and Disadvantaged Business Utilization shall be in matters concerning small business, small disadvantaged business utilization, and labor surplus areas. The Director or Staff Director advises the Secretary on small business, small disadvantaged business utilization and labor surplus area matters, implements such DoD programs within the Department or Agency and represents the Department or Agency in negotiations with other Departments or Governmental agencies on small business, small disadvantaged business utilization and labor surplus area matters. The Director or Staff Director will exercise supervisory authority over Department or Agency Small and Disadvantaged Business Utilization Specialists regarding small business, disadvantaged business utilization and labor surplus area matters. Appointment of Small and Disadvantaged Business Utilization Specialists shall be made after consultation with the Director or Staff Director of the Office of Small and Disadvantaged Business Utilization of the Department or Agency involved. In addition, such Director shall be afforded an opportunity to comment upon, and contribute to the performance evaluations of the Specialists for the contracting activities and contract administration offices or major organizational elements of the

Department involved, including pay pursuant to the Civil Service Reform Act of 1978.

*(S-72) Small Business Technical Advisor.*

(1) The Military Departments shall assign small business technical advisors to assist each resident SBA Procurement Center Representative in the performance of the duties of the representative.

(2) A Small Business Technical Advisor (SBTA) shall be a fulltime employee of the contracting activity and shall be well qualified, technically trained, and familiar with the supplies or services acquired at the activity.

(3) The principal duty of this advisor shall be to assist the SBA Procurement Center Representative in that person's duties and functions relating to sections 8 and 15 of the Small Business Act. Providing such assistance shall take precedence over any other collateral duties that may be the responsibility of the SBTA.

**219.202-1 Encouraging small business participation in acquisitions.**

The Departments to the extent consistent with the best interests of the Government and in order to broaden the industrial base shall:

(a) Attempt to locate additional qualified small business suppliers by all appropriate methods including use of the assistance of SBA, particularly where only a limited number of small business concerns are on bidders' mailing lists;

(b) Give wide publicity to contracting methods and practices;

(c) Publicize proposed acquisitions by use of advance notices or other appropriate methods (see FAR 5.2);

(d) Include all established and qualified potential small business suppliers on mailing lists;

(e) Send solicitations to all firms on the appropriate list, except that where less than a complete list is to be used pursuant to FAR 14.205-4, at least a *pro rata* number of small business concerns shall be solicited;

(f) Divide proposed acquisition of supplies and services, except construction, into quantities not less than economic production runs, so as to permit bidding on quantities less than the total requirements; allow the maximum time practicable for preparation and submission of bids, proposals, or quotations; where feasible, establish delivery schedules which will encourage small business participation;

(g) Examine each major acquisition to determine the extent to which small business subcontracting should be encouraged or required;

(h) Use small business concerns to the maximum extent feasible as planned producers in the Industrial Readiness Planning Program; and

(i) Maintain liaison with Federal, State (including Governor's Commissions), and local agencies and other organizations for the purpose of providing information and assistance to small business concerns.

**219.202-5 Data collection and reporting requirements.**

Records of the total value of contracts and subcontracts placed with small business concerns during each fiscal year shall be maintained by the use of DD Form 350 (Individual Procurement Action Report), DD Form 1057 (Monthly Procurement Summary by Purchasing Office), Standard Form 294 (Subcontracting Report for Individual Contracts), and Standard Form 295 (Summary Subcontract Report), as appropriate.

**Subpart 219.4—Cooperation With the Small Business Administration**

**219.401 General.**

(b) The contracting activity Small and Disadvantaged Business Utilization Specialist shall be the activity focal point for interface with the SBA.

**219.402 Small Business Administration procurement center representatives.**

(b) The SBA procurement center representative's request for access to contract information will be processed through the activity's Small and Disadvantaged Business Utilization Office.

**Subpart 219.5—Set-Asides for Small Business**

**219.501 General.**

(c) The Small and Disadvantaged Business Utilization Specialist is responsible for reviewing those acquisitions not set-aside or not acquired through small business-small purchase set-aside. The SADBU shall, prior to the issuance of solicitation or contract modifications (except those which exercise an option), (1) for additional supplies or services in excess of \$5,000 which have not been set-aside under FAR 19.502, or (2) for a dissolved small business-small purchase set-aside in excess of \$5,000 (213.105), review the acquisition and the contracting officer's justification for not making a set-aside or for dissolving a small business-small purchase set-aside. The SADBU shall make recommendation to the contracting officer for set-aside, as appropriate, on an individual

acquisition, or class of acquisition, or portion thereof. In automated contracting systems, such reviews will be accomplished prior to entering the item into the automated system after which no further review of the individual acquisition will be necessary if the automated system is so programmed that any changes in the acquisition of the item satisfy the provisions of FAR 19.502-2.

Disagreements between the specialist and the contracting officer on proposed set-aside actions for small business shall be resolved under FAR 19.505. Disagreements on small business-small purchase set-asides shall be resolved under FAR 13.105-1(d)(2) by the contracting officer.

(d) All cases involving the noninitiation of a set-aside, whether resulting from a joint decision of the small business specialist and the contracting officer or a determination by the contracting officer alone, require referral to the SBA representative (if one is assigned and available) for that person's review. The SBA representative will either concur with the decision of the contracting officer or appeal the case in accordance with the provisions of FAR 19-505.

(g) This procedure is applicable to DoD.

(S-70) Architectural and engineering services and construction design contracts in the amount of \$85,000 and over for military construction projects shall not be set-aside for small business. Indefinite delivery and indefinite quantity contracts for architectural and engineering services that are set-aside for small business shall not exceed, for the total of orders placed under the contract, \$85,000.

(S-71) Every proposed acquisition for construction, including maintenance and repairs, in excess of \$5,000 and under \$2 million (except dredging under \$1 million) shall be considered individually, as though the Small Disadvantaged Business Utilization Specialist had initiated a set-aside request, and the procedures of DoD FAR Supplement 219.505 shall apply.

(S-72) Every proposed acquisition of \$2 million or more for construction or \$1 million or more for dredging, shall be considered on an individual acquisition basis under FAR Subpart 19.502-2.

(S-73) Every proposed acquisition for A-E services and construction design under \$85,000 for military construction projects shall be considered individually, as though the Small and Disadvantaged Business Utilization Specialist had initiated a set-aside request, and the procedure of DoD FAR Supplement 219.505 shall apply.

## 219.502 Setting aside acquisitions.

### 219.502-1 Requirements for setting aside acquisitions.

Department of Defense activities follow the order of precedence in 219.504. Acquisition of supplies which were developed and financed in whole or in part by Canadian sources under the U.S.-Canadian Defense Development Sharing Program shall not be set-aside for small business. Supplies covered by the Program shall be identified by the cognizant Department.

### 219.502-2 Total set-asides.

Where multiyear contracting procedures are appropriate, total set-asides may be made in connection therewith.

### 219.502-70 Combined small business-labor surplus area set-asides.

(a) In the acquisition of certain items, the objectives of both the Small Business Act and Defense Manpower Policy (DMP) No. 4 may be attained in a single acquisition. Under this procedure, the total required quantity of an item would be set aside for exclusive participation by small business firms and a portion of that total quantity would be further set-aside for award to small business concerns which are also LSA firms.

(b) For acquisitions exceeding \$25,000 the use of this combined small business-LSA set-aside procedure shall be considered. This procedure shall be used in preference to all others when the proposed acquisition meets the criteria for:

(1) Total small business set-aside (FAR 19.502-2), and

(2) A partial LSA set-aside (220.7003).

(c) Contracts utilizing this procedure may be entered into by sealed bidding or negotiation (see FAR 6.102, FAR Parts 14 and 15.) This set-aside procedure may be used in multi-year contracting (FAR Subpart 17.1). Solicitations shall provide that offers may be submitted by small business firms only and that a part of the total requirement is further set-aside for LSA firms which are also small business concerns. Offers received from firms which do not qualify as small business concerns shall be considered nonresponsive and shall be rejected.

(d) (1) In combined small business-LSA set-asides each solicitation shall contain the clause at 252.219-7001, Notice of Combined Small Business-Labor Surplus Area Set-Aside (except see (2) below).

(2) When experience indicates that token bidding, block bidding, tie-in bidding, or similar devices may occur, the alternate clause at 252.219-7002,

Notice of Combined Small Business-Labor Surplus Area Set-Aside, Alternate, may be used.

(c) (1) After the award price for the non LSA set-aside portion has been determined, negotiations may be conducted for the LSA set-aside portion. Acquisition of the LSA set-aside portion shall in all instances be effected by negotiation. Negotiations shall be conducted only with those offerors who have submitted responsive offers on the non LSA set-aside portion. Negotiations shall be conducted in the order of priority as indicated in the foregoing clause; provided that, when equal low offers are received on the non LSA set-aside portion from concerns which are equally eligible for the LSA set-aside portion, the concern which is awarded the non LSA set-aside portion (under the equal low bid procedure of 214.407-6) shall have first priority with respect to negotiations for the LSA set-aside portion. The LSA set-aside portion shall be awarded as provided in the clause. An offeror entitled to receive the award for quantities of an item under the non LSA set-aside portion and who accepts the award of additional quantities under the LSA set-aside portion shall not be requested to accept a lower price because of the increased quantities of the award, nor shall negotiation be conducted with a view to obtaining such a lower price based solely upon receipt of award of both portions of the acquisition. This does not prevent acceptance by the contracting officer of voluntary reductions in price from the low eligible offeror prior to award, acceptance of voluntary refunds, or the changes of prices after award by negotiation of a contract modification.

(2) Offers obtained under the provisions of the set-aside clause from firms eligible for the set-aside portion of the requirement shall be in writing and shall include (i) agreement as to the established set-aside price for the available set-aside quantity, (ii) agreement as to the required delivery, (iii) agreement that all other terms and conditions of the solicitation will apply to the set-aside award, and (iv) agreement to inclusion of the clauses at FAR 52.215-1, Examination of Records by Comptroller General, and at FAR 52.215-2, Audit—Negotiation.

(3) When the award of the non-set-aside portion has been made to a small business concern and the same small business concern is entitled to receive the set-aside portion of the solicitation, the LSA set-aside portion may be added to the basic contract by supplemental agreement utilizing Standard Form 30. The supplemental agreement shall (i)

include a reference to the contractor's letter offering on the set-aside quantity, (ii) state the price and delivery schedule applicable to the set-aside quantity, and (iii) include the clauses at FAR 52.215-1, Examination of Records by Comptroller General, and at FAR 52.215-2, Audit—Negotiation, applicable to the LSA set-aside portion only. Copies of all pertinent documents, including the signed offer, shall be attached. The supplemental agreement shall be signed by the contracting officer but need not be signed by the contractor. The contractor's signature on the attached offer will be deemed sufficient.

(4) When the award for the non-set-aside portion has been made to a firm other than the concern entitled to receive the set-aside portion of the solicitation, award of the set-aside portion will be made utilizing Standard Form 26. The offers obtained and the award utilized shall reference and include the same data indicated in paragraphs (2) and (3) above. Also, the award shall reference in Block 26 of the Standard Form 26, the applicable solicitation and the contractor's written offer, and copies of the solicitation and offer shall be attached. The Standard Form 26 shall be signed by the contracting officer but need not be signed by the contractor. The contractor's signature on the attached offer will be deemed sufficient.

For purposes of Subpart 204.6, the non-LSA-set-aside portion shall be reported separately. (See FAR 19.507 for automatic dissolution of set-asides.)

#### **219.502-71 Small business set-asides under foreign military sales.**

Small Business set-asides shall not be authorized under the Foreign Military Sales Program if the foreign purchaser specifies the sources qualified to meet the requirement and only one of those sources is a small business concern. This prohibition shall expire 18 October 1986.

#### **219.503 Setting aside a class of acquisitions.**

(d) The contracting officer may initiate withdrawal of an individual acquisition or modification of a class set-aside by giving written notice to the activity's SADBUS and the SBA procurement center representative. In case of disagreement, the matter will be resolved under the procedures in FAR 19.506(b).

#### **219.504 Set-aside program order of precedence.**

(b) The following order of precedence applies to DoD:

(1) Combined small business/LSA set-aside (219.502-70).

(2) Partial set-aside for LSA firms (220-7003(a)).

(3) Total set-aside for small business firms (FAR 19.502-2).

(4) Partial set-aside for small business (FAR 19.502-3).

#### **219.505 Rejecting set-aside recommendations.**

(a) Upon a recommendation of the Small and Disadvantaged Business Utilization Specialist that an individual acquisition or class of acquisitions, or portion thereof, be set-aside the contracting officer shall promptly either:

(1) Concur in the recommendation, or

(2) Disapprove, stating in writing the reasons for disapproval. If the contracting officer disapproves the recommendation of the Small and Disadvantaged Business Utilization Specialist, the case shall be promptly referred to the SBA representative (if one is assigned and available) for review. No further appeal action will be taken by the small business specialist. In those cases where an SBA representative is not assigned or available, and the contracting officer disagrees with the recommendation of the small business specialist regarding a small business set-aside for an individual acquisition or class of acquisitions or a portion thereof and so notifies the small business specialist in writing, or if the small business specialist disagrees with the contracting officer regarding a withdrawal or modification of a set-aside determination, the small business specialist may appeal in writing to the appointing authority (see 219.201(d)(1)) for decision. A memorandum of the decision by the appointing authority shall be placed in the contract file. After receipt of a decision from the appointing authority, which shall be final, and if the decision approves the action of the contracting officer, the small business specialist shall forward for information and management purposes complete documentation of the case to the appropriate Departmental Director for Small and Disadvantaged Business Utilization or designee as identified in 219.201(c)(71). The specialist's signed memorandum of nonconcurrence in a recommended set-aside action or of any withdrawal or modification shall be made and retained in the contract file.

(b) The head of the contracting activity's designee shall be at a level no lower than the chief of the contracting office.

(d) The matter shall be forwarded with full justification of the action taken through normal channels.

(e) Should it be determined that a decision cannot be made within 30 business days, a later date will be established in writing by the Secretary of the Department concerned to the Administrator, SBA, citing the reasons why additional time is required. A copy of such correspondence will be provided to the Director of Small and Disadvantaged Business Utilization, Office of the Deputy Secretary of Defense.

(f) The contracting officer must determine that contracting action must proceed without delay in order to protect the public interest. The contracting officer's statement shall be approved at a level above the contracting officer.

#### **219.506 Withdrawing or modifying set-asides.**

(b) Disagreements between the contracting officer and the Small and Disadvantaged Business Utilization Specialist will be resolved in accordance with the procedures in 219.505.

#### **219.508 Solicitation provisions and contract clauses.**

(d) When using the clause at FAR 52.219-7, the contracting officer shall insert the clause at 252.219-7003, Determining the Set-Aside Award Price.

(S-70) The contracting officer shall insert the clause at 252.219-7004, Eligibility for Preference as a Labor Surplus Concern, in solicitations and contracts for partial small business set-asides under FAR 19.502-3, for Combined Small Business-Labor Surplus Area Set-Asides under 219.502-70, and for partial set-asides for Labor Surplus Area Concerns under 220.7003.

#### **Subpart 219.6—Certificates of Competency and Determinations of Eligibility**

##### **219.602 Procedures.**

##### **219.602-1 Referral.**

(a) When the contracting officer makes a determination that a small business concern is not responsible on a proposed award, the contracting officer will refer the matter directly to the SBA. The activity that refers the matter to the SBA shall maintain close liaison. If the activity does not hear from the cognizant SBA field office within 5 working days after referral, the activity will contact the SBA office to which the matter was referred to determine whether a Certificate of Competency (CoC) is being processed.

**219.602-3 Resolving differences between the agency and the Small Business Administration.**

(a) Prior to final SBA action, the contracting officer (or the preaward survey activity when authorized to act as contracting officer's representative) will be afforded an opportunity to meet or communicate with SBA field office representatives and furnish to them new or additional information on the case. Copies of significant data developed by SBA that are pertinent to the case will be available, upon request, to the contracting officer or contracting officer's representative at such a meeting or through correspondence. SBA case files may be examined at the meeting and pertinent notes taken by the contracting officer or contracting officer's representative, but such files will not be released outside of SBA. Personnel from a contracting office or surveying activity who participated in a preaward survey of the prospective contractor or other personnel having cognizance of the survey shall be prepared to discuss with the SBA the basis for the preaward findings. Every effort should be made to resolve any differences between the SBA and the Departments through a complete exchange of preaward information developed by each agency.

(b)(2) If the contracting officer intends to appeal a proposed CoC issuance, upon receipt of initial notification from the SBA Central Office that it concurs with its Regional Office, the contracting officer shall immediately inform the Departmental or Agency Director or Staff Director of Small and Disadvantaged Business Utilization identified in 219.201(S-71)(1). If the Department elects to present a formal appeal to HQ SBA, a factual case shall be prepared as expeditiously as possible and processed through Departmental channels for approval at the Secretarial level prior to presenting the matter to HQ SBA. Any competent level of review within the Department or Agency may conclude that a formal appeal should not be made and that the contract should be awarded to the small business concern in question without a CoC or that a CoC should be accepted and the award made. If such action is taken, the contracting officer and HQ SBA shall be advised accordingly.

**219.670 Quarterly reporting.**

The Departmental Director or Staff Director of Small and Disadvantaged Business Utilization, identified in 219.201(S-71)(1), shall be informed by the contracting activity Small and Disadvantaged Business Utilization Specialist, in writing, on a quarterly

basis, of all certificate of competency cases initiated during a particular quarter and of the final disposition made on cases during the quarter, including the number and dollar value of CoC's issued during the period. The information shall include company name, item being acquired, solicitation number, dollar value of the contract, and the date the case was submitted to SBA. In addition, advice and data will be furnished for all cases where (a) the small business concern elects not to file an application for a CoC; or (b) SBA declines to issue a CoC; or (c) the contracting activity reverses the preaward survey activity's negative finding concerning responsibility, withdraws the request for the CoC, and makes the award. This reporting requirement is assigned RCS DD-A&L(Q)1152.

**Subpart 219.7—Subcontracting With Small Business and Small Disadvantaged Business Concerns****219.703 Eligibility requirements for participating in the program.**

(a) The SBA Size Appeals Board has final authority to determine the eligibility of a concern to be designated as a small business. The contracting officer, in connection with small business subcontracting requirements, may question the prime contractor concerning a written representation of small business status, or the refusal to accept such written representation by either the prime contractor or a subcontractor, of a concern offering as a subcontractor on a particular acquisition. Other interested parties may also question such representation or refusal. If the matter(s) cannot be resolved, the contractor (prime or sub) is responsible for referring it for a size determination to the SBA Regional Office in which region the concern submitting the written representation has its principal office.

**219.706 Responsibilities of the cognizant administrative contracting officer.**

(a) *Evaluation of subcontract reports.* The ACO is responsible for reviewing, evaluating, and approving master subcontracting plans. In the evaluation of subcontract reports, the SADBUs Specialist shall support the ACO in evaluating a contractor's performance and compliance with its subcontract plans. The original of the Standard Form 294, Subcontracting Report for Individual Contracts, and a copy of the Standard Form 295, Summary Subcontract Report, and reports of periodic reviews of contractor performance shall be retained by the

cognizant SADBUs Specialist. These reports together with other pertinent information shall be used as a basis for advising the ACO as to contractor's compliance with subcontracting plans.

**219.708 Solicitation provisions and contract clauses.**

(b) The contracting officer shall include the clause at 252.219-7000, Small Business and Small Disadvantaged Business Subcontracting Plan (Master Plans), in all solicitations and contracts that contain the clause at FAR 52.219-9.

**PART 220—LABOR SURPLUS AREA CONCERNS**

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

**Subpart 220.70—Labor Surplus Area Policy and Procedures****220.7000 Scope.**

As authorized by FAR 20.201-2, this subpart sets forth Department of Defense policy and procedures with respect to aiding labor surplus areas in the United States, its possessions, Puerto Rico, and the Trust Territory of the Pacific Islands. This subpart implements Defense Manpower Policy No. 4B, 23 May 1980 (44 CFR Part 331), and the Small Business Act as amended (15 U.S.C. 631), and U.S. Department of Labor Regs (20 CFR Part 654). Defense Manpower Policy No. 4B states the policy of the Government to encourage the placing of contracts and facilities in labor surplus areas and to assist such areas in making the best use of their available resources.

**220.7001 General policy.**

Except as provided in 220.7005 with respect to depressed industries, it is the policy of the Department of Defense to aid Labor Surplus Areas (LSA) by placing contracts with LSA concerns, to the extent consistent with acquisition objectives and when such contracts can be awarded at prices no higher than those obtainable from other concerns and by encouraging prime contractors to place subcontracts with LSA concerns. In carrying out this policy, and to accommodate the small business policies of Part 19, preference shall be given in the following order of priority to (i) LSA concerns which are also small business concerns, (ii) other LSA concerns, and (iii) small business concerns which are not LSA concerns. In no case will price differentials be paid for the purpose of carrying out this policy. Heads of contracting activities and chiefs of contracting and contract

administration offices are responsible for the effective implementation of the Labor Surplus Area Program within their respective offices. Responsibility for administration of the program shall be assigned to small business specialists appointed pursuant to Part 19.

#### 220.7002 Application of policy.

(a) Within the policy set forth in 220.7001, the following shall be applied to contracts which are estimated to exceed \$25,000:

(1) Contracts shall, where acquisition objectives permit, be awarded to labor surplus area concerns; *Provided*, that in no case shall price differentials be paid for the purpose of carrying out this policy;

(2) When appropriate, acquisitions shall be made from LSA concerns by partial set-aside procedures, in accordance with 220.7003 (but no total set-aside shall be made for LSA concerns) and such set-asides shall be given preference over any small business set-aside;

(3) Each Department shall assure that information identifying LSA is disseminated promptly to contracting personnel;

(4) When less than a complete bidders list is to be used pursuant to 214.205-4, at least a *pro rata* number of prospective LSA concerns shall be solicited;

(5) Subcontracting with concerns in LSA shall be encouraged in accordance with 220.7004.

(6)(a) See subsection 225.103 regarding acquisitions from qualifying country sources where LSA set-asides are involved.

(b) Records of the total value of all contracts in excess of \$25,000 placed with LSA concerns during each fiscal year, and reports based thereon, are maintained by each Department through the Department of Defense Reporting System described in Subpart 204.6. Accordingly, each Department, in soliciting bids and proposals for any contract estimated to exceed \$25,000 shall request from any offeror, or other source, any information needed to determine whether the offeror is a LSA concern. Contract files shall be documented to indicate the extent to which LSA concerns were considered and the action taken with respect thereto.

#### 220.7003 Partial set-asides for labor surplus area concerns.

##### (a) General.

(1)(i) In accordance with the policy set forth in 220.7001 and 220.7002 (see also 219.504) a portion of each acquisition shall be set aside for LSA concerns if:

(A) The acquisition is severable into two or more economic production runs or reasonable lots; and

(B) One or more LSA concerns are expected to qualify as LSA concerns and to have the capability to furnish a severable portion of the acquisition at a reasonable price, except that a partial set-aside shall not be made if there is a reasonable expectation that offers will be received from only two concerns with capability (one concern which will not qualify as a LSA concern and one concern which will qualify as a LSA concern) unless authorized by the Head of the Contracting Activity on a case-by-case basis. Before reaching this conclusion, the contracting officer shall consult with the LSA specialist and may make advance inquiries to determine the number and expected classification of interested concerns.

(ii) In determining whether a proposed acquisition is susceptible to division into two or more economic production runs or reasonable lots, consideration should be given to the following factors and any others deemed appropriate:

(A) Price and acquisition history of the items,

(B) Open industry capacity,

(C) Startup cost including special tooling requirements,

(D) Delivery schedule, and

(E) Nature of item and quantity being acquired.

Before a portion or portions, constituting more than 50% of the total requirement may be set aside, a determination must be made that there is a reasonable expectation the action proposed will not result in the payment of a price differential. The determination and supporting information will be made part of the contract file.

(iii) In furtherance of the policy to assure that a fair proportion of acquisitions are placed with small business concerns, each LSA set-aside shall provide that, in addition to LSA concerns, small business concerns not performing in such areas are also eligible for participation in the set-aside for such quantities thereof as are not awarded to LSA concerns. In this respect, see the provisions of 220.7003(b)(2)(i) for notice to offerors, and 220.7003(b)(2)(ii) for conduct of set-aside negotiations.

(2) None of the following is, in itself, sufficient cause for not making a set-aside:

(i) A large part of previous acquisitions of the item in question has been placed with LSA concerns;

(ii) The item to be acquired is on an established planning list under the Industrial Readiness Planning Program;

(iii) The item to be acquired is on a Qualified Products List;

(iv) A period of less than 30 (see FAR 5.203) days from the date of issuance of solicitations is prescribed for the submission of offers;

(v) The acquisition is classified; or

(vi) LSA concerns are receiving a fair proportion of contracts.

(3) Acquisition of supplies which were developed and financed in whole or in part by Canadian sources under the U.S.—Canadian Defense Development Sharing Program shall not be set aside for LSA. Identification of the supplies covered by the Program will be in accordance with Departmental procedures.

##### (b) Set-aside procedures.

(1) When a portion of an acquisition is to be set aside, the acquisition shall be divided into a non-set-aside portion and set-aside portion, each of which shall be not less than an economic production run or reasonable lot. Insofar as practical, the set-aside portion pursuant to this Part will be such as to make the maximum use of the capacity of LSA concerns. Delivery terms and other terms applicable to the set-aside portion of an item and those applicable to the non-set-aside portion of that item shall be comparable.

(2)(i) In acquisitions involving set-asides pursuant to this Part, each solicitation and resulting contract shall contain the clause in 252.220-7000, Notice of Labor Surplus Area Set-Asides (except see (ii) below).

(ii) When experience indicates that token bidding, block bidding, tie-in bidding, or similar devices may occur, the alternate clause in 252.220-7001, Notice of Labor Surplus Area Set-Asides, may be used.

(iii) See 219.508(S-70) for use of the clause at 252.219-7004 for preference as a Labor Surplus concern.

(3)(i) After the award price for the non-set-aside portion has been determined, negotiations may be conducted for the set-aside portion. Acquisition of the set-aside portion shall in all instances be effected by negotiation. Negotiations shall be conducted only with those offerors who have submitted responsive offers on the non-set-aside portion. Negotiations shall be conducted in the order of priority as indicated in the clauses required by 220.7003(b)(2) (i) & (ii) above; *provided* that, when equal low offers are received on the non-set-aside portion from concerns which are equally eligible for the set-aside portion, the concern which is awarded the non-set-aside portion (under the equal low bid procedure of 214.407-6 shall have first priority with

respect to negotiations for the set-aside portion. The set-aside portion shall be awarded as provided in the clause. An offeror entitled to receive the award for quantities of an item under the non-set-aside portion and who accepts the award of additional quantities under the set-aside portion shall not be requested to accept a lower price because of the increased quantities of the award, nor shall negotiations be conducted with a view to obtaining such a lower price based solely upon receipt of award of both portions of the acquisition. This does not prevent acceptance by the contracting officer of voluntary reductions in price from the low eligible offeror prior to award, acceptance of voluntary refunds or the change of prices after award by negotiation of a contract modification. If the entire set-aside portion cannot be awarded by the method described herein, any unawarded portion may be acquired by sealed bidding or negotiation, as appropriate, in accordance with existing regulations. Since considerable time may have elapsed since the initiation of the requirement, contracting officers, prior to issuing a new solicitation, shall review the required delivery schedule (see FAR 12.101) to ensure that it is realistic in the light of all relevant factors including the capabilities of LSA concerns.

(ii) Offers obtained under the provisions of the set-aside clause from firms eligible for the set-aside portion of the requirement shall be in writing and shall include (A) agreement as to the established set-aside price for the available set-aside quantity, (B) agreement as to the required delivery, (C) agreement that all other terms and conditions of the original solicitation will apply to the set-aside award, and (D) agreement to inclusion of the clauses "Examination of Records by Comptroller General" in FAR 52.215-1 and "Audit Negotiation" in FAR 52.215-2.

(iii) When the award of the non-set-aside portion has been made to a concern which is entitled to receive the set-aside portion of the solicitation, the set-aside portion may be added to the basic contract by supplemental agreement utilizing Standard Form 30. The supplemental agreement shall (A) include a reference to the contractor's letter offering on the set-aside quantity, (B) state the price and delivery schedule applicable to the set-aside quantity, and (C) include the clauses "Examination of Records by Comptroller General" in FAR 52.215-1 and "Audit Negotiation" in FAR 52.215-2 applicable to the set-aside portion only. Copies of all

pertinent documents, including the signed offer, should be attached. The supplemental agreement shall be signed by the contracting officer but need not be signed by the contractor. The contractor's signature on the attached offer will be deemed sufficient.

(iv) When the award for the non-set-aside portion has been made to a firm other than the concern entitled to receive the set-aside portion of the solicitation, award of the set-aside portion will be made utilizing Standard Form 26. The offers obtained and the award utilized shall reference and include the same data indicated in paragraphs (ii) and (iii) above. Also, the award shall reference in Block 26 of Standard Form 26, the applicable solicitation and the contractor's written offer, and copies of the solicitation and offer shall be attached. The Standard Form 26 shall be signed by the contracting officer but need not be signed by the contractor. The contractor's signature on the attached offer will be deemed sufficient. For purposes of Subpart 204.6, the non-set-aside and set-aside portions shall be reported separately.

(c) *Withdrawal of set-asides.* If, prior to the award of a contract involving a labor surplus set-aside, the contracting officer considers that the set-aside is detrimental to the public interest, e.g., because of unreasonable prices, the contracting officer shall withdraw the set-aside and complete the acquisition by sealed bidding or negotiation as appropriate in accordance with existing regulations. A signed memorandum setting forth the basis of the withdrawal of any set-aside shall be made and retained.

#### **220.7004 Subcontracting with labor surplus-area concerns.**

##### *(a) General policy.*

(1) It is the policy of the Government to promote equitable opportunities for labor surplus area concerns to compete for defense subcontracts and to encourage placement of subcontracts with concerns which will perform such contracts substantially in labor surplus areas in the order of priority described in 220.7001 where this can be done, consistent with efficient performance of contracts, at prices no higher than are obtainable elsewhere.

(2) To more effectively carry out the Government's policy objectives stated in (a) above, prime contractors and subcontractors having labor surplus area subcontracting programs must be informed of (i) the Government's evaluation of their efforts in carrying out an effective labor surplus area subcontracting program, (ii) any specific

noted deficiencies in their Labor Surplus Area Subcontracting Programs, and (iii) any areas of outstanding achievement where they may have exceeded contractual requirements. To motivate a contractor to improve its program, the contractor should be advised in general terms as to the type of actions which will result in a reward, penalty, or no impact on profit or fee actions. Any evaluation and remarks to the contractor which has exceeded contractual requirements, must be documented to furnish a basis for evaluation in connection with future awards.

(b) *Labor surplus area subcontracting program.* The Government's labor surplus area subcontracting program requires Government prime contractors to assume an affirmative obligation with respect to subcontracting with labor surplus area concerns. These obligations are in addition to those required by the minority business enterprise subcontracting program and the small business subcontracting program, FAR Subpart 19.7. In contracts which range from \$25,000 to \$500,000, the contractor undertakes the simple obligation of using its best efforts to place subcontracts with concerns which will perform such subcontracts substantially in labor surplus areas where this can be done, consistent with the efficient performance of the contract, at prices no higher than are obtainable elsewhere. This undertaking is set forth in the contract clause prescribed in 220.7004(c)(1). In contracts which may exceed \$500,000, the contractor is required, pursuant to the clause required by 220.7004(c)(2) to undertake a number of specific responsibilities designed to ensure achievement of the objectives referred to above and to impose similar responsibilities on major subcontractors.

##### *(c) Required clauses.*

(1) The clause at FAR 52.220-3, Utilization of Labor Surplus Area Concerns, shall be inserted in all contracts which may exceed \$25,000, except:

(i) Contracts with foreign contractors which, including all subcontracts thereunder, are to be performed entirely outside the United States, its possessions, Puerto Rico, and the Trust Territory of the Pacific Islands;

(ii) Contracts for services which are personal in nature;

(iii) Contracts for construction; and

(iv) Contracts with the petroleum and petroleum products industry.

(2) The clause at FAR 52.220-4, Labor Surplus Area Subcontracting Program, shall be included in all contracts which may exceed \$500,000, but which contain

the clause required by (a) above and which, in the opinion of the purchasing activity, offer substantial subcontracting possibilities. Prime contractors who are to be awarded contracts that do not exceed \$500,000, which in the opinion of the purchasing activity offer substantial subcontracting possibilities, shall be urged to accept the clause.

#### 222.7005 Depressed industries.

(a) *General.* When an entire industry is depressed, the Director of the Federal Emergency Management Agency (FEMA) may, under Defense Manpower Policy No. 4, establish appropriate measures on an industrywide, rather than on an area, basis. Designations of such industries are made by the FEMA and such industries will be given special treatment as specified therein.

(b) *Petroleum and petroleum products industry.* (Notification no. 58). There shall be no labor surplus area set-asides in this industry.

### PART 222—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 222.1—Basic Labor Policies

##### 222.101 Labor relations.

###### 222.101-1 General.

(S-70) Authorization shall be obtained from Departmental headquarters prior to initiating any contact on labor relation matters with a national office of any labor organization, Government department, agency or other governmental organization and shall promptly notify such headquarters of each contact by the national office of any of these organizations.

(S-71) All problems arising out of the industrial labor relations of contractors and all communications with contractors, labor organizations or Federal agencies relative thereto shall be handled in accordance with the procedures prescribed in this Section. Industrial security matters concerning contractor employees are governed by the DoD Industrial Security Regulation 5220.22R and the DoD Industrial Security Manual 5220.22M.

(S-72) Approval of the Office of the Deputy Assistant Secretary of Defense (Production Support) will be obtained on major policies relating to all labor relations matters. Recommendations for plant seizure or injunctive action relating to potential or actual work stoppages and resolution of inter-service

disagreements are examples of major policy actions.

(S-73) [Reserved]

(S-74) Questions involving FAR Part 22 or other contractor labor relations matters may be addressed to the appropriate departmental/agency headquarters labor advisor:

For the Army: Assistant Secretary of the Army (RDA), Attention: Labor Advisor

For the Navy: Office of the Assistant Secretary of the Navy (Shipbuilding and Logistics), OASNS(S&L), CBM-CM

For the Air Force: Headquarters, United States Air Force/RDC-LA, Attention: Special Assistant for Labor Affairs

For the DLA: Headquarters, Defense Logistics Agency; For all matters excepting strikes and disputes—Executive Directorate Contracting, Attention: DLA-PL; For matters involving strikes and disputes—Executive Director Contract Management, Attention: DLA-AP

For the DCA: Headquarters, Defense Communications Agency, Attention: Counsel

For the DMA: Headquarters, Defense Mapping Agency, Attention: Staff Director of Logistics

For the DNA: Headquarters, Defense Nuclear Agency, Attention: Deputy Director of Operations and Administration

For the NSA: Headquarters, National Security Agency, Attention: Director of Procurement

##### 222.101-2 Contract pricing and administration.

(S-70) Nothing in FAR 22.101-1 should be construed to relieve a contracting office from the responsibility to achieve efficient contract pricing and administration.

(S-71) Inspection personnel in the discharge of their duties, consistent with the policy of FAR 22.101-1(b), shall refrain from taking or expressing a position upon the merits of any dispute between labor and private management.

##### 222.101-3 Reporting Labor Disputes.

When an interference is likely to occur, the CAO shall notify the contracting offices, their Heads of Contracting Activities and their Departmental headquarters labor relations office (see listing at 222.101-1(74)). Further dissemination of labor dispute information shall be made by the CAO as requested by the Departmental headquarters labor relations offices. Labor disputes should be reported on DD Form 1507, Work Stoppage Report. An initial report should be submitted when a work stoppage due to a labor dispute is imminent or when such work stoppage occurs and thereafter when a significant change occurs in the dispute situation. This reporting requirement is assigned RCS DD I&L (AR) 1153 (see 253.303-70-DD-1507).

##### 222.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) It is the policy of the Department of Defense with respect to the movement of items from facilities affected by work stoppages to avoid the use of force or the appearance of force and to prevent the occurrence of incidents which will detrimentally affect relations with labor and management.

(b) Materials which the contractor is unable to deliver because of a work stoppage at the plant, and the delivery of which is urgent and critical to an important program, may be obtained in accordance with procedures set forth below:

(1) The contracting officer, upon the direction of the Departmental Headquarters Labor Relations Office (see listing at 222.101-1(S-74)), shall furnish a written request for removal of the material to Contract Administration Office (CAO) having cognizance over the plant. The Commander of the cognizant CAO, or representative, or the Headquarters Labor Relations Advisor shall attempt to work out an arrangement agreeable to both management and the labor representatives involved for shipment by normal means of urgently required material. Prior to making any removal, the Departmental Headquarters Labor Relations Office will solicit the opinion of the National Office of the Federal Mediation and Conciliation Service or other appropriate mediation agency as to the effect the movement of items would have on negotiations. The contracting officer's request will include the following:

(i) A statement as to the urgency and criticality of the system, subsystem or item needed;

(ii) Description of items to be moved (nature of item, amount, approximate weight and cubic feet, contract number, item number etc.);

(iii) Mode of transportation by which items are to be moved if different from contract and whether by Government or commercial bill of lading; and

(iv) Destination of material if different than contract.

(2) If an arrangement in accord with (i) cannot be made, the Commander of the CAO or representative, after obtaining approval from the Departmental Headquarters Labor Relations Office, may seek the concurrence of parties to the dispute to permit movement of the required material by military vehicles with military personnel to the extent needed. On receipt of such concurrences, the Commander of the CAO may proceed to

make necessary arrangements to move the material.

(3) If satisfactory arrangements under (i) and (ii) cannot be made, the matter shall be referred to the Departmental Headquarters Labor Relations Office with the information required by 222.101-70(b). If that office is unsuccessful in obtaining the voluntary concurrences of the parties for movement of the material involved and further action to obtain the material is deemed necessary, the matter shall be referred to the DASD(A&L)(PS).

(4) Upon review and verification that the material is urgently or critically needed and cannot be moved with the consent of the parties, the DASD(A&L)(PS) may request the Secretary of the Department to order removal of the material from the plant or plants involved.

#### 222.101-70 Impact of labor disputes on defense programs.

(a) Each Department shall determine the degree of impact of potential or actual labor disputes on its own programs and requirements, considering among others the following factors:

(1) Whether the dispute involves a product, project (including construction) or service which must be obtained in order to meet schedules of urgently needed military programs or requirements; or

(2) Whether alternative sources of supply for the product, project, or service involved are reasonably available to fulfill the requirement or program in time to maintain essential military schedules.

(b) Within each department, the contracting activity involved shall obtain and develop data reflecting the impact of a dispute on requirements and programs. Upon determining the impact, the Head of the Contracting Activity shall submit through appropriate channels a report of findings, together with recommendations, to the headquarters labor relations office originally notified pursuant to FAR 22.101-3. Such report shall be in narrative form and shall include the following information:

(1) Location of dispute and name of contractor or subcontractor involved;

(2) A statement indicating the degree of impact, relating specific items or construction involved to the programs or requirements affected;

(3) Identity of alternate sources available to furnish supply or service within the time required; and

(4) A description of any action taken to reduce impact.

(c) Reports of impact shall be made to the Office of the Deputy Assistant Secretary of Defense (A&L)(PS).

(1) Upon specific request; or

(2) When considered by the Department to be of sufficient urgency to warrant the attention of the DASD(A&L)(PS).

(d) Report submitted in accordance with (c) above shall be developed by the headquarters labor relations office concerned and shall cover the following areas of fact, as appropriate:

(1) *Description of military program, project, or service*—Identify item, project, or service which will be or is being affected by the work stoppage, describing its normal use and current functions in combat, combat support, or deterrent operations. For components or raw materials identify the end item(s) for which used.

(2) *Requirements and assets*—State requirements and assets in appropriate detail in terms commonly used by the DoD component.

(i) For *production programs* include requirements for each using military service. Where applicable, state in detail production schedules, inventory objectives, assets against these objectives, and critical shortages. For spares and highly expendable items, such as ground and air ammunition, show usage (consumption) rates and assets in absolute terms and in terms of daily, weekly, or monthly supplies. For components, include requirements for spares.

(ii) For *projects*, describe the potential adverse effects of a delay in meeting schedules and explain how a security disadvantage would result from such a delay. Attention should be given to feature any relative loss in balance of strength vis-a-vis potential enemies' capabilities.

(iii) For *services*, describe how a loss or interruption affects ability to support defense operations in terms of traffic requirements, assets, testing programs, etc.

(3) *Possible measures to minimize strike impact*—Describe:

(i) Capabilities, if any, to substitute items or to use alternate sources. (Note how many other facilities are available and the relative capabilities of such facilities in meeting total requirements.);

(ii) How much time would be required to replace the loss of the facilities or service affected by a work stoppage; and

(iii) Feasibility of transfer of assets from theater to theater to relieve deficits in some areas of urgency.

(4) *Conclusion: Impact on operations of a 15-30, of a 30-60, and of a 60-90 day work stoppage*—Degree of criticality of

a program, project, or service resulting from a work stoppage will be projected on a calendar basis, indicating the increased impact, if any, as the stoppage lengthens. Criticality is measured by the time required for the work stoppage to have an effect on operational capability. This time must be stated in terms of days.

#### 222.101-71 Acquisition of stevedoring services during labor disputes.

When stevedoring services are furnished by a contractor to a Department, and the performance under the contract, although urgently required, is delayed through a labor dispute, the following procedures shall be utilized in the order of priority listed. Each successive procedure shall be used only when the preceding steps are inadequate.

(a) An attempt shall be made to have management and labor voluntarily agree to exempt military supplies from the labor dispute by continuing the movement of such material.

(b) Vessels shall be diverted to alternate ports able to provide necessary stevedoring services.

(c) Consideration shall be given to contracting with reliable alternative sources of supply within the stevedoring industry.

(d) Civil service stevedores shall be utilized to perform the work therefor performed by contract stevedores.

(e) Military personnel shall be utilized to handle the cargo which was being handled by contract stevedores prior to the labor dispute.

(f) When the exigencies of a situation require deviation from the procedures outlined above, the Departmental headquarters labor advisor (see listing at 222.101-1(S-74)) shall be promptly notified.

#### 222.102 Federal and State labor requirements.

##### 222.102-70 Applications by contractors for relaxation of requirements.

(a) Departments shall not initiate applications of any kind for suspension or relaxation of labor requirements without prior coordination of the Departmental headquarters labor advisor (see listing at 222.101-1(S-74)). They may, however, support such applications by contractors or suppliers when all of the following circumstances and conditions have been met:

(1) The interested contractor or supplier has filed his application for relaxation of the laws, orders or regulations involved with the appropriate Governmental official charged with the enforcement of such

labor requirements applicable to the contract involved;

(2) The required products or services are in short supply and unless the application is granted, production schedules for critically needed military material cannot be met;

(3) There is no alternative source of supply reasonably available to furnish the products or services within the period of time delivery is required;

(4) There is no practicable possibility of taking action (such as recruiting, training, and more effective utilization of manpower) as an alternative to relaxation of applicable Governmental labor requirements;

(5) The apparent supply of labor, and in particular of critical skills, is limited, and it is not practicable to set up new production lines or to use additional facilities as an alternative to the relief requested; and

(6) The granting of the application will not result in an excessive increase in hours or work, an unreasonable curtailment of rest and lunch periods, an undesirable impairment of working conditions, or otherwise adversely affect the productivity of the facility involved.

(b) Requests for authority to support an application on behalf of a contractor or supplier shall be submitted to the Departmental headquarters labor advisor (see listing at 222.101-1(S-74)). Such requests shall contain the following information:

(1) The facilities and services involved and affected;

(2) Provision(s) of law which require relaxation;

(3) Criticality or relative scarcity of the material;

(4) Circumstances necessitating the relaxation (for example, a shortage in the local supply of skilled labor);

(5) Remedial action being taken by the manufacturer (e.g., training, recruiting, more effective utilization of manpower);

(6) The most limited relaxation of the requirement necessary for completion of the specific work; and

(7) The approximate period of time required for completion of the work.

(c) Consistent with the limitations of security and the foregoing requirements, contract information may be furnished to the appropriate Governmental official, upon request, in connection with an application of a contractor or supplier for relaxation of a labor requirement as to the execution of a contract in pursuance of a military acquisition program.

## 222.103 Overtime.

### 222.103-4 Approvals.

The Deputy Assistant Secretary (Acquisition), Office of the Assistant Secretary of the Army (Research Development and Acquisition), for the Army; the Office of the Assistant Secretary of the Navy (Shipbuilding and Logistics), Deputy Director, Contracts & Business Management, for the Navy; the Director of Contracting and Manufacturing Policy, Headquarters, USAF, for the Air Force; the Executive Director for Contracting, for the Defense Logistics Agency; the Director of Procurement, for the National Security Agency; the Assistant to the Director for Administration, for the Defense Communications Agency; the Chief, Office of Procurement, for the Defense Nuclear Agency; and the Staff Director of Logistics, for the Defense Mapping Agency; are authorized, without power of delegation, to designate without power of redesignation, officers and civilian officials for the purpose of approving overtime premiums at Government expense. Such approval may be for an individual contract, project, or program, or for a plant, division, or company, as most practicable, and shall ordinarily be prospective, but may be retroactive when justified by the circumstances. When two or more contracting offices have current contracts at a single facility, and the approval of overtime by one contracting office will affect the performance or cost of contracts of another, the approving official will obtain the concurrence of other appropriate approving officials and seek agreement as to the contracts under which overtime premiums will be approved. If the approving officials do not agree within a reasonable time as to the action to be taken, a decision shall be obtained through normal channels. Ordinarily, in the absence of evidence to the contrary, a contracting office may rely on the contractor's statement that such approval will not affect the performance, or payments in connection with any contract of another contracting office.

## Subpart 222.4—Labor Standards for Contracts Involving Construction

This Subpart has been reserved pending development of appropriate coverage in FAR Subpart 22.4 to reflect recent changes in Department of Labor Regulations.

## Subpart 222.6—Walsh-Healey Public Contracts Act

### 222.604 Exemptions.

#### 222.604-2 Regulatory exemptions.

(c) In addition to the requirements contained in FAR 22.604-2(c) regarding head of agency requests to the Secretary of Labor for exemption of contracts or classes of contracts from any or all stipulations of the Walsh-Healey Public Contracts Act, all applications for such exemptions shall (1) contain pertinent data (including a statement of justification) and recommendation and (2) be submitted through contract channels to the departmental headquarters labor relations advisor (see listing at 222.101-1(S-74)).

#### 222.609 Regional jurisdictions of the Department of Labor, Wage and Hour Division.

In contrast to FAR 22.609, the regional office locations set forth below contain both street addresses and telephone numbers.

(a) *Boston Region*—For the States of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, and Connecticut: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 1612C, John F. Kennedy Federal Building, Government Center, Boston, MA 02203 (telephone: 617-223-2035).

(b) *New York Region*—For the States of New York and New Jersey and for Puerto Rico and the Virgin Islands: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 1515 Broadway, New York, NY 10036 (telephone: 212-971-5451).

(c) *Philadelphia Region*—For the States of Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 704C, 1317 Filbert Street, Philadelphia, PA 19107 (telephone: 215-597-9633).

(d) *Atlanta Region*—For the States of Florida, Georgia, North Carolina, South Carolina, Tennessee, Alabama, Kentucky, and Mississippi: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 331, 1371 Peachtree Street, NE, Atlanta, GA 30309 (telephone: 404-526-5801).

(e) *Chicago Region*—For the States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, U.S. Courthouse and Federal

Office Building, Room 742, 219 South Dearborn Street, Chicago, IL 60604 (telephone: 312-353-7280).

(f) *Dallas Region*—For the States of Texas, New Mexico, Oklahoma, Arkansas, and Louisiana: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 13F12, 1100 Commerce Street, Dallas, TX 75202 (telephone: 214-749-2037).

(g) *Kansas City Region*—For the States of Missouri, Kansas, Nebraska, and Iowa: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 2000, Federal Office Building, 911 Walnut Street, Kansas City, MO 64102 (telephone: 816-374-5384).

(h) *Denver Region*—For the States of Colorado, North Dakota, South Dakota, Utah, Wyoming, and Montana: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 246, 232 New Customhouse, 721 19th Street, Denver, CO 80202 (telephone: 303-837-4613).

(i) *San Francisco Region*—For the States of California, Nevada, Arizona, and Hawaii, and for Guam, and various Pacific Islands: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 450 Golden Gate Avenue, Room 10431, San Francisco, CA 94102 (telephone: 415-556-1318).

(j) *Seattle Region*—For the States of Washington, Oregon, Idaho, and Alaska: Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 2008 Smith Tower, 506 Second Avenue, Seattle, WA 98104 (telephone: 206-442-1536).

## Subpart 222.8—Equal Employment Opportunity

### 222.804 Affirmative action programs.

#### 222.804-2 Construction.

(b) Requests for instructions shall be forwarded through contracting channels to: Labor Advisor, OASA(RDA), for the Army; the cognizant field office of the Naval Facilities Engineering Command, for the Navy; Director of Contracting and Manufacturing Policy, Headquarters USAF, for the Air Force; Executive Director for Contracting, for the Defense Logistics Agency; Director of Procurement, for the National Security Agency; the Counsel, for the Defense Communications Agency; Director, Acquisition Management, for the Defense Nuclear Agency; Staff Director of Logistics, for the Defense Mapping Agency; and the Assistant Director for Administrative Services, for the Defense Civil Preparedness Agency.

### 222.805 Procedures.

(a)(2) A listing of Department of Labor regional offices can be found at 222.609 (in using the listing, replace "Wage and Hour Division" with "Office of Federal Contract Compliance Programs").

### 222.806 Inquiries.

(b) Matters requiring the attention of OFCCP, Washington, DC Headquarters shall be forwarded to the departmental labor advisor (see listing at 222.101-1(S-74)) for referral to the Director, OFCCP.

### 222.807 Exemptions.

(c) The contracting officer's justification for exemption shall be submitted through appropriate contracting channels to the departmental labor advisor (see listing at 222.101-1(S-74)) for departmental coordination and submission, if favorably endorsed, to the Deputy Assistant Secretary of Defense (Production Support) (DASD(A&L)(PS)). If the request is submitted under FAR 22.807(a)(1), the DASD(A&L)(PS) shall forward it to the Secretary of Defense for granting of the exemption, and if the exemption is granted, shall notify the Director, OFCCP within 30 days of such action. If the request is submitted under FAR 22.807(a)(2) or FAR 22.807(b)(5), the DASD(A&L)(PS) shall forward it to the Director, OFCCP.

## Subpart 222.10—Service Contract Act of 1965

### 222.1003 Applicability.

(e) *Requests for determinations and exemptions.*

(1) The contracting officer shall direct requests for determination of applicability of the Act or determination of the applicability or appropriateness of Department of Labor Wage determinations to the departmental labor advisor (see listing at 222.101-1(S-74)).

(2) The contracting officer shall submit in writing requests for exemption from the Act through contracting channels, as appropriate, to the departmental labor advisor (see 222.101-1(S-74)). The labor advisor shall effect necessary departmental coordination and submit the request, if endorsed, to the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210.

### 222.1006 Clauses for contracts over \$2,500.

(S-70) *Potential Application Clause.* The contracting officer shall insert the clause at 252.222-7000, Potential Application of the Service Contract Act, As Amended (Fixed Price), (SEP 1979) in

solicitations and contracts for overhaul and modification of equipment, which are considered by the contracting office to be subject to the Walsh-Healey Public Contracts Act rather than the Service Contract Act, as amended. In paragraph (c) of the clause, "60 days" may be substituted for "30 days".

(S-71) *Minimum Wages and Fringe Benefits.* The contracting shall insert the clause at 252.222-7001, Service Contract Act (SCA) Minimum Wages and Fringe Benefits, in solicitations and contracts when:

(1) The clause at FAR 52.222-41 applies;

(2) The contract resulting from this solicitation succeeds an ongoing contract for substantially the same services;

(3) The incumbent contractor has negotiated or is negotiating a CBA with some or all of its service employees; and

(4) All applicable Department of Labor wage determinations have been requested but not received.

### 222.1007 Notice of intent to make a service contract.

(e) Requests, other than routine requests to check the status of the submitted Notice of Intention to Make a Service Contract and Response to Notice (SF-98/98(a)), to the Department of Labor, Washington, DC headquarters are not authorized. Other-than-routine requests shall be made through the departmental labor advisor (see listing at 222.101-1(S-74)) who, if the request is justified, shall contact cognizant Department of Labor headquarters officials regarding the request.

(S-70) (1) If the SCA wage determination requested in accordance with FAR 22.1007(a) is not received in time for inclusion in the solicitation, and absent an incumbent contractor union agreement, the contracting officer should proceed using the latest wage determination included in the existing contract, if any. If a new wage determination is subsequently received 10 or more days prior to the opening of bids or the date established for the initial receipt of proposals, the solicitation must be amended accordingly. However, if a new wage determination is received less than 10 days before the opening of bids or the date established for the initial receipt of proposals, it shall be included in the solicitation only when there is a reasonable time to notify offerors thereof.

(2) In those cases involving an incumbent contractor operating under a collective bargaining agreement, the wage determination in the incumbent's

contract shall not be included in any solicitation that must be released without a new SCA wage determination. Instead, using the solicitation provisions as prescribed at 222.1006(S-71), offerors shall be informed that—

(i) The economic terms of such agreement(s) will apply to the contract and should be considered in developing an offer; however,

(ii) Pursuant to Department of Labor Regulations at 29 CFR 4.1c, and subject to the conditions set forth in FAR 22.1007(f) and 22.1008-1, the economic terms of any agreement entered into subsequent to this solicitation might apply to the contract.

(3) The contracting officer shall notify, in writing, the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210, of each case when compelled to proceed without a new wage determination due to a delayed response from the Department of Labor. An information copy of each such notice shall be forwarded to the appropriate departmental labor advisor (see 222.101-1(S-74)).

#### **222.1008 Wage determinations and collective bargaining agreements.**

##### **222.1008-1 Before award.**

(a) Solicitations and contracts for more than \$2,500 shall contain an attachment (wage determination or appropriate revisions thereto) issued by the Administrator in response to the notice required under FAR 22.1007(a), setting forth the minimum wages and fringe benefits for service employees to be employed thereunder. However, wage determinations and revisions thereto shall not apply:

(1) Where no collective bargaining agreement exists and wage determinations or revisions are received less than 10 days before the opening of bids or date established for the initial receipt of proposals, unless the contracting officer finds that there is a reasonable time to notify bidders or offerors thereof; or

(2) Where a collective bargaining agreement does exist and (i) the contracting agency has received notice of the existence thereof less than 10 days before bid opening or commencement of performance of a negotiated contract, option, or contract extension, and (ii) the contracting officer determines that there is not reasonable time to incorporate a new wage determination in the solicitation, and (iii) the notices required by FAR 22.1007 (a) and (f) have been given.

#### **222.1009 Notice of award.**

Two copies of SF 99 shall be prepared for contracts of \$2,500 or more but less than \$25,000 containing the clause in FAR 52.222-41; for the initial order (if less than \$25,000) under an indefinite-type contract or basic ordering agreement containing the clause in FAR 52.222-41; and for the initial purchase (if less than \$25,000) under a blanket purchase agreement containing the clause in FAR 52.222-41. The address for the Department of Labor office cited is Washington, DC 20210.

(S-70) *Individual Procurement Action Report (DD Form 350)*. The contracting officer shall not report to the Department of Labor awards of service contracts of \$25,000 or more containing the clause in FAR 52.222-41 and initial orders/calls of \$25,000 or more under indefinite delivery-type contracts, basic ordering agreements, and blanket purchase agreements containing the clause in FAR 52.222-41. SF 99 information pertinent to such contracts and agreements is contained in DD Form 350 Data Input which is accessible to the Department of Labor via the Federal Procurement Data System.

#### **222.1011 Hearings.**

(a) The contracting officer shall submit a request for a hearing to the departmental labor advisor (see listing at 222.101-1(S-74)) who shall effect necessary departmental coordination and forward the request, if endorsed, to the Department of Labor.

#### **222.1012 Withholding of contract payments.**

Generally, sums withheld shall be forwarded immediately to the Department of Labor for payment to employees unless otherwise directed by the Department of Labor.

#### **Subpart 222.13—Special Disabled and Vietnam Era Veterans**

##### **222.1303 Waivers.**

(c) The contracting officer shall submit a request for waiver under FAR 22.1303 (a) and (b) via appropriate contracting channels to the departmental or agency headquarters contractor labor relations advisor (see 222.101-1(S-74)) for listing of advisors). If the waiver request is justified, the advisor shall endorse the request and forward it to the OASD(A&L)(P) for waiver by the Secretary of Defense. Only the Secretary of Defense may make waivers under FAR 22.1303.

##### **222.1306 Complaint procedures.**

Each complaint received shall be forwarded by the contracting officer as indicated in FAR 22.1306. The

contracting officer shall notify the complainant of such referral. The contractor in question shall not be advised in any manner or for any reason of the complainant's name, the nature of the complaint, or the fact that the complaint was received.

#### **Subpart 222.14—Employment of the Handicapped**

##### **222.1403 Waivers.**

(c) The contracting officer shall submit a request for waiver under FAR 22.1403 (a) and (b) via appropriate contracting channels to the departmental or agency headquarters contractor labor relations advisor (see 222.101-1(S-74) for listing of advisors). If the waiver request is justified, the advisor shall endorse the request and forward it to the OASD(A&L)(P) for waiver by the Secretary of Defense. Only the Secretary of Defense may make waiver under FAR 22.1403.

##### **222.1404 Department of Labor notices.**

To assist the contracting officer in obtaining appropriate notices to be furnished the contractor, a listing of Department of Labor regional offices is located at 222.609 (for this purpose, replace "Wage and Hour Division" with "Office of Federal Contract Compliance Programs").

##### **222.1406 Complaint procedures.**

Each complaint received shall be forwarded by the contracting officer as indicated in FAR 12.1406 (see 222.609 for listing of Department of Labor regional/area offices). The contracting officer shall notify the complainant of such referral. The contractor in question shall not be advised in any manner or for any reason of the complainant's name, the nature of the complaint, or the fact that the complaint was received.

#### **Subpart 222.70—Safety and Health Regulations for Shipyard and Related Employment**

##### **222.7001 Safety and health regulations.**

The Secretary of Labor has promulgated safety and health regulations for shipyard and related employment pursuant to the authority of Pub. L. 85-742, 72 Stat. 835 (approved August 23, 1958) amending section 41 of the Longshoremen's and Harbor Worker's Compensation Act (33 U.S.C. 941). These regulations are set forth in Title 29, Code of Federal Regulations, Subtitle B, Part 1915.

##### **222.7002 Applicability.**

These regulations apply to ship repair and shipbuilding or related work, as

defined therein, performed within the Federal maritime jurisdiction on the navigable waters of the United States, including any dry dock or marine railway.

#### 222.7003 Contract clause.

The Master Agreement for Repair and Alteration of Vessels includes a clause entitled "U.S. Department of Labor Safety and Health Regulations for Ship Repairing" directing the attention of the contractor to the applicability of these regulations. Similar clauses should be included in shipbuilding and ship conversion contracts.

#### 222.7004 Administration and enforcement.

The responsibility for compliance with the U.S. Department of Labor Regulations is placed upon employers, any of whose employees are engaged in any ship repair, shipbuilding, or related employment aboard any vessel upon the navigable waters of the United States, including any dry dock or marine railway. Consequently, prime contractors or subcontractors or both may be responsible for compliance with these regulations. Insofar as the Government is concerned, the responsibility for the administration and enforcement of these regulations is with the U.S. Department of Labor. Contractors or employees who inquire concerning applicability or interpretation of the foregoing regulations shall be advised that rulings concerning such matters fall within the jurisdiction of the U.S. Department of Labor and shall be given the address of the appropriate field office of the Bureau of Labor Standards of the U.S. Department of Labor.

#### Subpart 222.71—Fair Labor Standards Act of 1938

##### 222.7101 Basic statute.

The Fair Labor Standards Act of 1938 (Act of June 30, 1938; 29 U.S.C. 201-219), as amended, provides for the establishment of minimum wage and maximum hour standards, creates a Wage and Hour Division in the Department of Labor for purposes of interpretation and enforcement (including investigations and inspections of Government contractors), and prohibits oppressive child labor. Said Act applies to all employees, unless otherwise exempted, who are engaged in (a) interstate commerce or (b) any closely related process or occupation essential to such production.

##### 222.7102 Suits against government contractors.

Payments made pursuant to the provisions of the Fair Labor Standards

Act are usually reimbursable under cost or cost-plus-a-fixed-fee contracts. Consequently, each Department has a direct interest in claims and suits under said Act which are made or brought in connection with such contracts.

Procedures have been established, by agreement between the Department of Justice and the Departments governing the defense of Fair Labor Standards Act suits. These procedures in general contemplate the defense of Fair Labor Standards Act suits by private counsel employed by the contractor, the employment of whom is approved by the Department concerned. These procedures must be followed if contractors are to be reimbursed for the amount of any judgment under said Act, or for any litigation expenses (including the reasonable fees of such private counsel).

##### 222.7103 Rulings on applicability or interpretation.

Contractors or contractor employees who inquire concerning applicability or interpretation of the Fair Labor Standards Act shall be advised that rulings concerning such matters fall within the jurisdiction of the Department of Labor and shall be given the address of the appropriate Regional Director of the Wage and Hour and Public Contracts Divisions of the Department of Labor.

#### Subpart 222.72—Section 8078, 1986 Defense Appropriations Act—Restrictions on the Employment of Personnel for Work on Construction/Service Contracts in Alaska and Hawaii

##### 222.7200 Policy.

(a) Except as provided in (b) and (c) below, Section 8078 of the 1986 Defense Appropriations Act requires that notwithstanding any other provision of law, every contract awarded during FY 1986 calling for construction or services to be performed in whole or in part within the State of Alaska or the State of Hawaii shall include a provision requiring the contractor to employ, for the purpose of performing that portion of the contract work within the particular state, individuals who are residents of that state, and who, in the case of any craft or trade, possess or would be able to acquire promptly the necessary skills to perform the contract.

(b) This section shall not apply at any time during FY 1986 when the unemployment rate in Alaska is not in excess of the national average rate of unemployment as determined by the Secretary of Labor.

(c) This section shall not apply to contracts to be performed in whole or in

part within the State of Hawaii unless in FY 1986 the unemployment rate in Hawaii is in excess of the national average rate of unemployment as determined by the Secretary of Labor.

##### 222.7201 Waivers.

This section may be waived by the Secretary of Defense, the Deputy Secretary of Defense, the Assistant Secretary of Defense for Acquisition and Logistics, and any Secretary, Undersecretary, or Assistant Secretary of the Army, Navy, and Air Force, in the interest of national security. Requests for waiver shall be processed in accordance with Departmental or agency procedures.

##### 222.7202 Contract Clause.

The contracting officer shall insert the clause of 252.222-7002, Restrictions on Employment of Personnel, in all solicitations and contracts in accordance with 222.7200.

#### PART 223—ENVIRONMENT, CONSERVATION, AND OCCUPATIONAL SAFETY

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 223.3—Hazardous Material Identification and Material Safety Data

##### 223.303 Contract clause.

(S-70) The contracting officer shall insert the clause at 252.223-7000, Notice of Radioactive Materials, in all contracts for items, components thereof, and materials which are radioactive in which the radioactivity per gram is greater than 0.002 microcuries. Such contracts include, but are not limited to, contracts for aircraft, ammunition, missiles, vehicles, electronic tubes, instrument panel gauges, compasses and identification markers.

#### Subpart 223.70—Safety Precautions for Ammunition and Explosives

##### 223.7001 Definition.

The term "ammunition and explosives", as used in this subpart, means liquid and solid propellants and explosives, pyrotechnics, incendiaries and smokes in any of the following: bulk form, ammunition, rockets, missiles, warheads, devices, and components thereof, except for wholly inert items.

##### 223.7002 Policy and contract clauses.

(a) The requirements of DoD 4145.26-M, "DoD Contractors' Safety Manual for Ammunition and Explosives", are to be applied to all contracts involving ammunition or explosives. To

accomplish this policy, all solicitations/requests for quotations, and resulting contracts involving development, testing, research, manufacturing, handling, loading, assembling, packaging, storage, transportation, renovation, demilitarization, modification, repair, disposal, inspection, or other use of ammunition and explosives shall include, in its entirety, the clause set forth in 252.223-7001, except as noted below:

(i) The clause is not to be included in contracts solely because of inert components containing no explosives, propellants, or pyrotechnics.

(ii) The clause is not to be included in contracts which are solely for flammable liquids, acids, oxidizers, powdered metals, or other materials having fire or explosive characteristics. However, the clause shall be included in contracts which require the use or incorporation of such materials for initiation, propulsion, or detonation as an integral or component part of an explosive, an ammunition or explosive end item, or a weapon system.

(iii) When work is to be performed on a Government-owned installation, ammunition and explosives regulations of the DoD Component or installation for handling ammunition and explosives may be used to supplement or substitute for DoD 4145.26-M (the manual). The regulations used to supplement or substitute for the manual must be cited in the contract.

(b) The purpose of incorporating the DoD Manual into the contract is to minimize the potential for mishaps that could interrupt DoD operations, delay project/product completion dates, adversely impact upon DoD production base or capabilities, damage or destroy DoD-owned material/equipment, or cause injury to DoD personnel.

(c) The clause at 252.223-7002 shall be inserted in all solicitations and contracts containing the clause at 252.223-7001.

#### 223.7003 Preaward considerations.

(a) The contracting officer shall obtain a preaward ammunition and explosives safety survey before awarding any contract (including purchase orders) involving ammunition and explosives. When the prospective contractor proposes subcontracting any ammunition and explosives work, the preaward safety survey will also include the subcontractor(s) facility.

(b) Omission of the clause from solicitations and contracts referred to in 223.7002, or waiver of mandatory requirements of the manual prior to contract award, must be approved by the HCA or designee. When mandatory requirements of the manual are to be

waived prior to award, the specific requirements to be waived must be set forth in the solicitation or by modification thereto. When requested deviations from mandatory requirements of the manual are rejected by the HCA or designee, but the prospective contractor proposes corrective action acceptable for compliance, then the contractor's proposed corrective actions must be set forth in the schedule of the resulting contract. All requested waivers, deviations, or omissions of the clause must be reviewed by safety personnel responsible for ammunition and explosives safety prior to forwarding for HCA or designee approval.

(c) In contracts involving shipment of ammunition and explosives, applicable Department of Transportation (DOT)/Military Traffic Management Command (MTMC) requirements and other needed transportation, packaging, marking, and labeling requirements will be addressed within the schedule of the contract.

(d) The contracting office will include instructions within the contract concerning final disposition of excess (to include defective/reject) Government-Furnished Material (GFM) containing ammunition and explosives.

#### 223.7004 Postaward considerations.

(a) Compliance with the standards required by the clause is the responsibility of the contractor (see 242.302(a)(39)). Contract administration personnel have the responsibility to verify that these contract requirements are being implemented in a manner which will tend to reduce or eliminate the probability of a mishap occurrence to the maximum extent practicable. As provided in the clause, the standards of the manual are to be applied only to the contractor's operations relating or exposed to ammunition and explosives.

(b) The contracting officer will review contractor requests for waiver of contractual safety standards and submissions for site plan modification or construction review. The manual requires the contractor to submit these requests through the ACO. If the request for review does not include the ACO review and recommendation, coordination with the ACO or return of the submission to the ACO is required. The contracting officer must also obtain a review and recommendation from the appropriate servicing safety department responsible for ammunition and explosives safety. The approval/disapproval determination by the contracting officer should be made to the contractor, through the ACO, as soon as practicable.

(c) *Subcontracts.* (1) The clause at 252.223-7001 requires the contractor to notify the contracting officer prior to placing subcontracts for ammunition and explosives. When notifications are received, the contracting officer should, in coordination with safety personnel, request supporting contract administration in accordance with FAR 42.204, and should normally request supporting administration when the nature of the subcontract work potentially endangers Government property, Government personnel, production capability or contract completion.

(2) When a preaward safety survey identifies areas in which the subcontractor is in noncompliance with the manual and those noncompliances could be corrected prior to the starting up of production, the contracting officer shall require a preoperations survey to verify that the corrections have been made.

(3) When postaward safety reviews by the Government uncover safety deficiencies in the subcontractor's operation (whether or not they are immediately corrected or correctable), the cognizant ACO for the subcontractor shall be informed. The ACO cognizant of the subcontractor shall immediately notify the ACO cognizant of the prime contractor, who shall formally notify the prime contractor of the subcontractor deficiencies requiring correction. In the event of critical safety deficiencies, the foregoing notifications shall be accomplished by the most expeditious means available.

### PART 224—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 224.1—Protection of Individual Privacy

##### 224.102 General.

(a)(1) The Act applies to systems of records on individuals when, for example:

(i) Determinations on benefits are made by Federal agencies;

(ii) Records are maintained for administrative functions of the Federal agency such as personnel, payroll, etc.; or

(iii) Health records are maintained by an outside contractor engaged to provide health services to agency personnel.

(2) The Act does not apply to systems of records on individuals when:

(i) Records are maintained by the contractor on individuals whom the contractor employs in the process of providing goods and services to the Federal Government;

(ii) An agency contracts with a state or private educational organization to provide training, and the records generated on contract students pursuant to their attendance (admission forms, grade reports) are similar to those maintained on other students and are commingled with their records on other students.

#### 224.103 Procedures.

(b)(2) Implementation of the requirements of the Privacy Act is located in DoD Directive 5400.11 (see Appendix P).

#### Subpart 224.2—Freedom of Information Act

#### 224.202 Policy.

Implementation of the requirements of the Freedom of Information Act is located in DoD Directive 5400.7 and DoD Regulation 5400.7-R (see Appendix L).

### PART 225—FOREIGN ACQUISITION

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### 225.000 Scope of Part.

This part supplements FAR Part 25 and provides special guidance (including pricing guidance) for Military Assistance Program acquisitions and Foreign Military Sales; procedures to promote liaison with overseas activities and compliance with government-to-government agreements for acquisition from foreign contractors; and procedures for the solicitation and evaluation of offers of defense equipment which are qualifying country end products.

#### 225.001 Definitions.

As used through this part, the words and terms defined in this paragraph shall have the meanings set forth below, unless a different definition is prescribed for a specific subpart.

"Defense cooperation agreement country end product" means an item listed in the defense cooperation country agreement and produced in that country.

"A defense cooperation country" is a foreign country which has a defense cooperation agreement and for which a Determination and Findings (D&F) was made by the Secretary of Defense waiving the Buy American Act restrictions for a list of mutually agreed items. These countries are listed at 225.7501.

"Defense cooperation country offer" means an offer of a defense cooperation country end product, including transportation to destination.

"Defense equipment" means any equipment, item of supply, component, or end product purchased by the Department of Defense.

"Domestic concern" means an incorporated concern incorporated in the United States or an unincorporated concern having its principal place of business in the United States. (In the context of this part, "concern" refers to a prospective or actual contractor. Thus, a contract with a foreign subsidiary or foreign branch or business office of a U.S. corporation would not be a contract with a domestic concern. Conversely, a contract executed by a foreign salesman or agent on behalf of a domestic concern would nevertheless be a contract with a domestic concern since the basic contractual and legal responsibility resides with the domestic concern.)

"Domestic end product" means (i) an unmanufactured end product which has been mined or produced in the United States; or (ii) an end product manufactured in the United States if the cost of its qualifying country components and its components which are mined, produced, or manufactured in the United States exceeds 50% of the cost of all its components. The cost of components shall include transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate may be issued). A component shall be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind (i) determined by the Government to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality; or (ii) as to which the Secretary concerned has determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act (FAR 25.102(a)(3)).

"FMS/Offset arrangement country offer" means an offer of a FMS/Offset arrangement country end product, including transportation to destination.

"FMS/Offset arrangement country" is a foreign country which has an offset arrangement negotiated in conjunction with a Foreign Military Sale and which arrangement provides for obtaining a waiver of the Buy American Act restrictions on a case-by-case basis. These countries are listed at 225.7310(a).

"FMS/Offset arrangement country end product" means (i) an unmanufactured end product mined or produced in a FMS/Offset arrangement country; or (ii) an end product manufactured in a FMS/Offset arrangement country if the cost of its qualifying country components and its components which are mined, produced, or manufactured in the United States exceeds 50% of the cost of all its components. The cost of components shall include transportation costs to the place of incorporation into the end product and any duty, whether or not duty is in fact paid.

"Foreign concern" means a concern that is not a domestic concern.

"Participating country" is a NATO country which has a Memorandum of Understanding (MOU) or similar agreement with the U.S., and for which a blanket D&F was made by the Secretary of Defense waiving the Buy American Act restrictions. These countries are listed at 225.7401.

"Participating country end product" means (i) an unmanufactured end product mined or produced in a participating country; or (ii) an end product manufactured in a participating country if the cost of its qualifying country components and its components mined, produced, or manufactured in the United States exceeds 50% of the cost of all its components. The cost of components shall include transportation to the place of incorporation into the end product and any duty, whether or not duty is in fact paid.

"Participating country offer" means an offer of a participating country end product, including transportation to destination.

"Qualifying country" means any country defined as a defense cooperation country, a FMS/Offset arrangement country, or a participating country.

"Qualifying country component" means (i) an item mined, produced, or manufactured in a participating country or in a FMS/Offset arrangement country when the applicable D&F has been made waiving the Buy American Act restrictions; or (ii) any item listed in a defense cooperation country agreement.

"Qualifying country end product" means (i) a participating country end product; (ii) a FMS/Offset arrangement country end product when the applicable D&F has been made waiving the Buy American Act restrictions; or (iii) a defense cooperation country agreement listed item.

"Qualifying country offer" means an offer of a qualifying country end

product, including transportation to destination.

"Source" (when restricted by such words as foreign, domestic, qualifying country, etc.) refers to the actual manufacturer or producer of the end product or component (product may encompass a report).

"United States" means the States, the District of Columbia, Puerto Rico, and possessions. It does not include leased bases or trust territories.

#### Subpart 225.1—Buy American Act—Supplies

##### 225.102 Policy.

(S-70) *Buy American Act requirements.* Except as provided in this section, the Buy American Act requires that in the acquisition of supplies, only domestic end products shall be acquired for public use in the United States. In determining whether an end product is a domestic end product, only the end product and its components shall be considered. The act and its implementation by E.O. 10582 and the Balance of Payments Program require the use of evaluation factors specified in 225.105.

(1) *Use outside the United States.* The restrictions of the Buy American Act do not apply to articles, materials, or supplies for use outside the United States. However, the Balance of Payments Program is not so restricted. In order to uniformly implement the Balance of Payments Program worldwide, the preferences and procedures of the Buy American Act for soliciting and awarding contracts for supplies and applicable services have been extended as a matter of policy to acquisition of supplies and applicable services for use outside the United States.

(2) *Unreasonable cost or inconsistency with the public interest.* The restrictions of the Buy American Act and the Balance of Payments Program do not apply when it is determined by the Secretary concerned that the cost of a domestic end product would be unreasonable, or that acquisition of a domestic end product would be inconsistent with the public interest.

(3) *Nonavailability in the United States.* The Buy American Act does not apply to (i) end products of a class or kind which the Government has determined are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality; or (ii) components of end products manufactured in the United States or a qualifying country if

the component is of a class or kind determined by the Government to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality. Certain items determined to be exempt under these exceptions are set forth in FAR 25.108(d)(1).

(4) *Commissary resale.* The provisions of the Buy American Act do not apply to supplies purchased specifically for commissary resale. However, nonsubsistence items of foreign origin purchased for resale in domestic commissaries must meet the evaluation criteria in this subpart.

(S-71) A nonavailability determination is not required for end products or components listed in (S-72) below or in FAR 25.108(d)(1). Otherwise, acquisitions of foreign end products or components on the basis of nonavailability shall be made only after a determination of nonavailability has been made and the acquisition is approved:

(1) At a level above the contracting officer, if the amount involved is estimated not to exceed \$25,000;

(2) By the chief of the contracting office concerned, if the acquisition is estimated not to exceed \$250,000;

(3) By the head of the contracting activity (HCA) or his immediate deputy, or in the case of the Defense Advanced Research Projects Agency (DARPA), the Director, DARPA, if the acquisition is estimated not to exceed \$2 million; or

(4) By the Secretary of the Department concerned, or his designee at a level no lower than an HCA, if the acquisition is estimated to exceed \$2 million.

In making such determination, and granting such approval, the feasibility of foregoing the requirement or providing a U.S. substitute shall be considered.

(S-72) Acquisitions in the following categories may be made without determinations or approvals otherwise required by this subsection.

(1) Spare and replacement parts, if the acquisition must be restricted to the original manufacturer or his supplier.

(2) Foreign drugs by the Defense Personnel Support Center when the Chief of the Division of Technical Operations, Directorate of Medical Materiel, has determined that only the requested foreign drug will fulfill the requirements.

(S-73) *Balance of payments program requirements.* The 50% evaluation factor in favor of domestic offers, implemented in 225.105, is an interim measure designed to alleviate the impact of DoD expenditures on the Nation's balance of international payments. The Department

of Defense does not expect to use the 50% factor beyond the time when the U.S. balance of payments deficit is corrected.

(1) Although the evaluation procedures in 225.105 reduce overseas dollar expenditures resulting from defense acquisition at an acceptable increase in budgetary costs, this result is an average and overall result rather than one precisely obtained in each case. This is so because, both under the Buy American Act and as a matter of administrative practicability, items are classified absolutely as "foreign" or "domestic" and varying degrees within each class are not recognized. However, deviations (see FAR Subpart 1.4) from the evaluation procedures of 225.105 should be considered for acquisitions over \$250,000 when it is anticipated that the low domestic offer will involve relatively substantial foreign expenditures or that the low foreign offer will involve relatively substantial domestic expenditures. Any request for such a deviation should be made sufficiently in advance of solicitation to permit the solicitation to describe the evaluation procedure that will be used. Such deviations require the advance approval of the Assistant Secretary of Defense (Acquisition and Logistics)(ASD(A&L)) or his designee.

##### 225.103 Agreements with certain foreign governments.

(See Subparts 225.73, 225.74, and 225.75.)

##### 225.105 Evaluating offers.

In lieu of the procedures set forth in FAR 25.105, the following procedures are applicable to the Department of Defense.

(S-70) In accordance with the Buy American Act, the Secretary of Defense has determined that where the procedures in (S-71) below result in the acquisition of foreign end products, the acquisition of domestic end products would be (i) unreasonable in cost or (ii) inconsistent with the public interest.

(S-71) Except as provided in this subparagraph (S-71) and in (S-73) and (S-74) below, offers shall be evaluated so as to give preference to domestic offers as follows:

(1) Each nonqualifying country offer of defense equipment (but see exception (ii) below) shall be adjusted for purposes of evaluation either by excluding any duty from the nonqualifying country offer and adding 50% of the offer (exclusive of duty) to the remainder, or by adding to the nonqualifying country offer (inclusive of duty) a factor of 6% of that offer,

whichever results in the greater evaluated price, except that a 12% factor shall be used instead of the 6% factor if (i) the firm submitting the low acceptable domestic offer is a small business concern, or a labor surplus area concern, or both; (ii) small purchase procedures are not used; and (iii) any contract award to a domestic concern which would result from applying the 12% factor, but which would not result from applying the 6% or 50% factor, would not exceed \$100,000. If an award for more than \$100,000 would be made to a domestic concern if the 12% factor is applied, but would not be made if the 6% factor or 50% factor is applied, the matter shall be submitted to the Secretary of the Department concerned for decision as to whether the award to the small business or labor surplus area concern would involve unreasonable cost or inconsistency with the public interest. If the foregoing procedure results in a tie between a nonqualifying country offer, as evaluated, and a domestic offer, award shall be made on the latter. In other instances, use the tiebreaking procedures in 214.407-6. When more than one line item is offered in response to a solicitation, the appropriate factor shall be applied on an item-by-item basis, except that the factor may be applied to any group of items as to which the solicitation specifically provides that award may be made on a particular group of items.

(2) In the event that a domestic offer, a qualifying country offer, and a nonqualifying country offer compete for defense equipment, the qualifying country offer shall be evaluated without applying the price differentials of this paragraph, whereas the nonqualifying country offer shall be subject to the price differentials (see Example E below). However, in the event the low domestic offer exceeds the evaluated price of the nonqualifying country offer, all foreign offers shall be evaluated as if no domestic offer was submitted (see Example F below). In the event a qualifying country offer competes against a nonqualifying country offer and no domestic offer is submitted, they shall be evaluated on an equal basis (see Example G below).

(S-72) The following examples illustrate how the procedure in (S-71) above should be applied. Throughout these examples, "domestic offer—large" means a domestic offer which is not from a small business or labor surplus area concern; "domestic offer—small" means a domestic offer which is from either a small business concern or a labor surplus area concern, or both.

#### Example A

Nonqualifying Country Offer, including  
duty of \$4,500.....\$14,500  
Domestic Offer—Large.....15,100  
Domestic Offer—Small.....15,110

*Award on Domestic Offer—Large.*  
Domestic Offer—Small is out because it is not the low acceptable domestic offer. Nonqualifying Country Offer, if adjusted by the 50% factor, would be \$14,500 less \$4,500 duty (i.e., \$10,000), plus 50% of \$10,000 (i.e., \$5,000), or \$15,000; but if adjusted by the 6% factor, it would be \$14,500 plus 6% of \$14,500 (i.e., \$870), or \$15,370; therefore, the 6% factor is added, and the Domestic Offer—Large is the low evaluated offer.

#### Example B

Nonqualifying Country Offer, including  
duty of \$2,000.....\$12,000  
Domestic Offer—Large.....15,000

*Award on Domestic Offer—Large.*  
Nonqualifying Country Offer, adjusted by 50% factor, is \$15,000; adjusted by 6% factor, it is \$12,720. Therefore, Nonqualifying Country Offer is evaluated at \$15,000, resulting in a tie and consequent award on the Domestic Offer—Large.

#### Example C

Nonqualifying Country Offer, including  
duty of \$3,500.....\$13,500  
Domestic Offer—Large.....17,000  
Domestic Offer—Small.....15,100

*Award on Domestic Offer—Small.*  
Nonqualifying Country Offer, adjusted by 50% factor is \$15,000; adjusted by 12% factor, it is \$15,120. Therefore, it is evaluated at \$15,120, resulting in award on the Domestic Offer—Small.

#### Example D

Nonqualifying Country Offer, including  
duty of \$70,000.....\$270,000  
Domestic Offer—Large.....310,000  
Domestic Offer—Small.....302,000

*Submit the case to the Secretary of the Department concerned.*  
Nonqualifying Country Offer, adjusted by 50% factor is \$300,000; adjusted by 12% factor, it is \$302,400; adjusted by 6% factor, it is \$286,200. Therefore, Domestic Offer—Small is in line for possible award only because of the bidder's small business or labor surplus area status. But since the contract award would exceed \$100,000, the matter requires Secretarial decision.

#### Example E

Nonqualifying Country Offer, including  
duty of \$2,000.....\$8,000  
Domestic Offer—Large.....10,500  
Domestic Offer—Small.....8,900  
Qualifying Country Offer.....8,800

*Award on Qualifying Country Offer.*  
Nonqualifying Country Offer, adjusted by 50% factor is \$9,000; adjusted by 12%

factor it is \$8,960. Therefore, it is evaluated at \$9,000. The qualifying country offer receives the award because it is evaluated without adjustment and is the lowest offer.

#### Example F

Nonqualifying Country Offer, including  
duty of \$2,000.....\$8,000  
Domestic Offer—Large.....10,000  
Domestic Offer—Small.....9,500  
Qualifying Country Offer.....8,800

*Award on Nonqualifying Country Offer.* Nonqualifying Country Offer, adjusted by 50% factor is \$9,000; adjusted by 12% factor it is \$8,960. Therefore, it is evaluated at \$9,000 which is still lower than both domestic offers. Accordingly, the qualifying and nonqualifying country offers are evaluated on an equal basis as if the domestic offers had never been submitted, and the award is made on the nonqualifying country offer.

#### Example G

Nonqualifying Country Offer.....\$10,000  
Qualifying Country Offer.....11,500

*Award on Nonqualifying Country Offer.* Since there is no domestic offer, the nonqualifying country and qualifying country offers are evaluated on an equal basis, and the award is made on the nonqualifying country offer.

(S-73) When a qualifying country offer is received for defense equipment listed in 225.7405 or FAR 8.203, rejection of that offer in the interest of protecting the domestic mobilization base is required, except when the quantity for which the offer is made has been identified as a quantity in excess of that required to maintain the U.S. defense mobilization base for those items. In those instances when it has been determined prior to solicitation that the item is not to be supplied from any foreign source, offerors shall be so notified in the solicitation. When rejection of a qualifying country offer is contemplated for reasons of national interest or for mobilization base considerations and the defense equipment involved is not listed in 225.7405 or FAR 8.203, a copy of the proposed decision shall be forwarded to OASD(A&L)(P) (International Acquisition), 10 working days in advance of issuance of the rejection.

(S-74) When proposed awards are submitted for Secretarial decision pursuant to (S-71) above, each submission shall include a copy of each offer being considered for award, the date the offer expires, including extensions, a copy of the abstract of bids or proposals, and a statement justifying the proposed awards. Submissions should be forwarded to

allow 21 days for processing and Secretarial consideration, unless the nature of the item or market conditions indicate the need for processing in a shorter time.

(S-75) When performing the evaluation in (S-71) above for items for civil works activities, offers of qualifying country end products shall not be subject to the 50% evaluation factor of the Balance of Payments Program, but shall be subject to the 6% and 12% evaluation factors of the Buy American Act, unless a specific waiver of the Buy American Act is otherwise obtained for that acquisition through the procedures of this subpart.

#### 225.107 Acquisition from or through other government agencies.

Balance of Payments evaluation procedures are not applicable to transactions described in FAR 25.107 (a), (b) and (c).

(S-70) Defense activities have the responsibility for compliance with the Buy American Act and Balance of Payments evaluation procedures when they purchase a foreign end item from (1) a mandatory Federal Supply Schedule which includes a domestic end product; or (2) a nonmandatory Federal Supply Schedule.

(S-71) Defense activities purchasing items of equipment and supplies for civil works projects for use in the United States by civil agencies or departments shall not apply the Balance of Payments Program 50% evaluation factor when evaluating offers; only the evaluation factors of the Buy American Act, as implemented by Executive Order 10582, dated 17 December 1954, shall be applied.

(S-72) In the case of coordinated acquisition under Part 8, compliance with the Buy American Act and Balance of Payments evaluation procedures is the responsibility of the Contracting Department, except when the Requiring Department specifies a foreign end product; in which case, the determination that a domestic end product is not available, including consideration of foregoing the acquisition or providing a U.S. substitute, shall be the responsibility of the Requiring Department.

#### 225.108 Excepted articles, materials, and supplies.

(a) Pursuant to the Buy American Act, it has been determined that the articles, materials, and supplies listed in FAR 25.108(d)(1) and below, when purchased as end items or components, are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial

quantities of a satisfactory quality. When required to be incorporated into (i) an end product or construction material manufactured in the United States, or (ii) a qualifying country end product or construction material, these items or components may be regarded as being of domestic origin. (For construction material, see FAR 25.2.)

(d)(1) *Sperm oil.*

(d)(S-70) *Scrap.* Scrap generated in, collected in, and prepared for processing in the United States, shall be considered as of domestic origin.

#### 225.109 Solicitation provisions and contract clauses.

(a)(S-70) The provision at 252.225-7000, Buy American-Balance of Payments Program Certificate, shall be used in lieu of the provisions at FAR 52.225-1, Buy American Certificate, and FAR 52.225-6, Balance of Payments Program Certificate, and shall be inserted in any solicitation which includes the clause at 252.225-7001.

(a)(S-71) For small purchases using DD Form 1155, the provision at 252.225-7000 shall be used with the clause, Foreign Supplies, on DD Form 1155r. When so used, the provision may be modified by inserting a period after "... products" in subparagraphs (b)(i), (b)(ii), and (b)(iii) and then deleting the balance of the respective sentences.

(b) When quotations are obtained orally, vendors shall be informed that only domestic and qualifying country end products shall be acceptable, other than those items which have been excepted either on a blanket or an individual basis, or the price of the offered foreign end product meets the evaluation criteria in 225.105.

(d)(S-70) The clause at 252.225-7001, Buy American Act and Balance of Payments Program, shall be used in lieu of the clauses at FAR 52.225-3, Buy American Act-Supplies, and FAR 52.225-7, Balance of Payments Program. The contracting officer shall insert the clause at 252.225-7001 in all solicitations and contracts (i) not utilizing small purchase procedures, (ii) which do not contain the clause at 252.225-7006, and (iii) for supplies and for services, which services require the furnishing of supplies (e.g., the leasing of equipment), except as cited in 225.302(S-72)(1).

(d)(S-71) For small purchases using DD Form 1155, the clause at 252.225-7001 may be inserted in lieu of the clause, Foreign Supplies, on DD Form 1155r.

(d)(S-72) The contracting officer shall insert the clause at 252.225-7002, Qualifying Country Sources as Subcontractors, whenever the clause at

252.225-7001 or the clause 252.225-7006 is used in the solicitation or contract.

#### (S-70) Solicitation of offers.

Solicitations shall state that the specific information as to articles, materials, and supplies excepted from these procedures (see 225.108(d)(1)) is available to prospective contractors upon request. When only domestic end products are acceptable, the solicitation shall so state.

#### Subpart 225.2—Buy American Act—Construction Materials

##### 225.202 Policy.

(a)(1) and (2) The restrictions of the Buy American Act do not apply when it is determined by the Secretary concerned that the use of a particular domestic construction material would (i) unreasonably increase the cost, or (ii) be impracticable. When proposed awards are submitted for approval, each submission shall include a description of the materials, including unit and quantity, estimated costs, location of the construction project, name and address of the proposed contractor, and a detailed justification of the impracticability of using domestic materials. Submissions shall allow 21 days for processing, unless the nature of the item or market conditions indicate the need for processing in a shorter time.

(a)(3) The Buy American Act does not apply to articles, materials, and supplies of a class or kind determined to be not mined, produced or manufactured in the United States in sufficient and reasonably available quantities and of a satisfactory quality. Certain construction materials determined to be exempt under this exception are set forth in FAR 25.108(d)(1). Purchase of nondomestic construction material on the basis of "nonavailability," when the material is not listed in FAR 25.108(d)(1), shall be made only if the determination for the purchase and use of such material is approved by:

(i) The Secretary of the Department concerned, if the cost of such materials is estimated to exceed \$100,000;

(ii) The Head of the Contracting Activity or his immediate deputy, if the cost of such materials is estimated not to exceed \$100,000;

(iii) The principal staff officer responsible for procurement within the contracting activity (or, in the Air Force, within the major air command), concerned, if the cost of such materials is estimated not to exceed \$10,000; or

(iv) An official at a level above the contracting officer, if the cost of such materials is estimated not to exceed \$2,500. Before granting such approval or

making such determination, the feasibility of foregoing the requirement or providing a United States substitute shall be considered. When proposed awards are submitted for approval, each submission shall include a description of the materials, including unit and quantity, estimated costs, location of the construction project, name and address of the proposed contractor, and a detailed justification of the impracticability of using domestic materials. Submissions shall allow 21 days for processing, unless the nature of the item or market conditions indicate the need for processing in a shorter time.

(S-70) *Panamanian materials for use in the Canal Zone.* In accordance with the Memorandum of Understanding ancillary to the Treaty with the Republic of Panama, signed 25 January 1955, articles, materials, and supplies that are mined, produced, or manufactured in Panama and are purchased for use in the Canal Zone are excepted from the Buy American Act.

#### 225.205 Solicitation provision and contract clause.

(S-70) *Nondomestic construction material.* When a determination has been made that certain construction materials may be used without regard to The Buy American Act, the clause at 252.225-7003, Nondomestic Construction Materials, shall be included in the contract by the contracting officer, and the excepted item shall be listed therein. When this clause is used, the contracting officer shall place in the contract file a copy of the signed approval, and a copy thereof shall be available for public inspection.

#### Subpart 225.3—Balance of Payments Program

##### 225.300 Scope of subpart.

This subpart implements the Department of Defense Balance of Payments Program with respect to all acquisitions of (a) services which require the furnishing of end items (e.g., leasing of equipment) and supplies required for use outside the United States, except petroleum and Military Assistance Program acquisitions (see 225.72); and (b) scientific and technical knowledge, resulting in dollar expenditures outside the United States and Canada. However, the exception regarding Military Assistance Program acquisitions does not apply to 225.370. Defense requirements as to the use of U.S. Flag vessels, which effect the Balance of Payments Program, are set forth in FAR 47.5.

##### 225.302 Policy.

(a) It is the policy of the Department of Defense to implement the Balance of Payments Program using evaluation procedures similar to those which implement the Buy American Act.

(S-70) *Prohibition against fragmenting acquisitions.* As to those provisions of this subpart which state dollar limitations below which exceptions permitting the purchase of foreign items may be made if certain conditions are satisfied, requirements aggregating more than any such limitations shall not be broken into separate purchases which are less than such limitations merely for the purpose of allowing such exceptions.

(S-71) *Real property construction, repair, and maintenance.*

(1) Contracts for construction, repair, and maintenance of real property outside the United States will, to the extent required by DoD Directive, specify that U.S. materials will be used, or that Government materials and equipment will be furnished, only when the cost of the U.S. items (including costs associated with transportation and handling) does not exceed the cost of acceptable foreign items plus 50 percent. A differential greater than 50 percent may be used when specifically authorized in accordance with departmental procedures.

(2) The evaluation referred to in (1) above is normally accomplished in the estimating process prior to solicitation for award of a real property construction, repair or maintenance contract. This paragraph does not apply to direct contracts for acquisition of construction materials and equipment for use outside the United States. The procedures of 225.303 shall be used for such acquisitions (also see 225.302(S-73)).

(S-72) *Exceptions.*

(1) Acquisitions of end products (including construction materials) and applicable services for use outside the United States should be made in the following cases without regard to the origin of the end products. In these cases, the provision at 252.225-7000 and the clauses at 252.225-7001 and 252.225-7002 shall not be used.

(i) *Treaty or executive agreement*—acquisitions required to be made from indigenous sources pursuant to a treaty or executive agreement between governments.

(ii) *Small purchases*—acquisitions by contracting officers located outside the United States, which are estimated not to exceed \$25,000 in foreign cost.

(iii) *Perishable subsistence*—acquisitions of perishable subsistence items when it is determined that

delivery from the United States would destroy or significantly impair their quality at the point of consumption. The determination shall be made prior to acquisition by the individuals designated in (2)(i) below or their immediate deputies, except that this authority may be redelegated for acquisitions estimated not to exceed \$500,000 in foreign cost. A determination is not required for the acquisition of perishable subsistence items for commissary resale.

(iv) *Panamanian products used in Panama*—acquisitions of articles, materials or supplies that are mined, produced, or manufactured in Panama when acquired by, and for use of, U.S. Forces in Panama.

(v) *Services*—Services which do not primarily involve the acquisition of equipment or supplies.

(vi) *Certain food items*—acquisition of bananas, tea, coffee, spices, herbs, sugar, cocoa, cream of tartar, tapioca, and coconut.

(vii) *Miscellaneous*—acquisition of the requirements listed below. *Provided*, they do not duplicate or replace an existing organic service capability.

(A) All items on the list at FAR 25.108(d)(1);

(B) Utilities, including gas, water, electricity, steam, sewage, refuse collection and disposal;

(C) Maintenance and repair of, and acquisition of spare parts for, foreign-manufactured vehicles, equipment, machinery and system; *Provided*, in the case of parts, That this exception applies only if the acquisition must be restricted to the original manufacturer or its supplier in accordance with DoD Standardization policy (see DoD 4120.3);

(D) Industrial gases;

(E) Brand drugs specified by the Defense Medical Materiel Board;

(F) The following bulk construction materials: sand, gravel and other soil materials, stone, concrete masonry units; and fired brick;

(G) Overhaul and repair of vessels, aircraft, and vehicles which are homeported/stationed/deployed overseas and which, because of their operating commitments, cannot return to the United States or to U.S.-operated repair facilities;

(H) Ice (wet or dry);

(I) Books, pamphlets, newspapers, magazines, periodicals, and printed briefs and films not printed in the United States and for which there are no substitutes of U.S. origin which are intended for use in the Department of Defense Overseas Dependents Schools; and

(j) Ready-mixed asphalt and portland cement concrete; *Provided*, That foreign cost is estimated not to exceed \$10,000.

(viii) *Excess and near-excess foreign currencies*—acquisitions made with excess or near-excess foreign currencies when acquisition costs are in accordance with 225.7604.

(ix) *Commissary resale*—purchases of subsistence items of foreign origin which are intended for resale in overseas commissary stores.

(x) *Nonavailability in the United States*—acquisitions as to which it is determined in advance by the individuals designated in (2) below that (A) the requirements can only be filled by foreign end products because U.S. end products are not available *per se*, or are not available within the time required to meet urgent military requirements directly related to maintaining combat capability, the health and safety of DoD personnel, or to protect property, and (B) that it is not feasible to forego filling the requirements or to provide a U.S. substitute for it. This authority is not intended for use in making repetitive supply acquisitions or acquisitions of total annual supply requirements of items available in the United States but not available within the time required.

(xi) *Unreasonable cost*—acquisitions, other than those covered in (i) through (x) above where United States end products or services are available and the difference between the domestic cost and the foreign cost exceeds 50% of the foreign cost, if so determined in advance by the individuals designated in (2) below.

(2) The individuals listed below, and their immediate deputies are designated to make the determinations required by (1) (iii), (x), and (xi) above.

(i) For acquisitions estimated not to exceed \$2 million in foreign cost, except that this authority may be redelegated to other individuals specifically designated for this purpose for acquisitions estimated not to exceed \$500,000:

#### Department of the Army—

Deputy Chief of Staff for Procurement and Production, U.S. Army Materiel Command; Commander in Chief, U.S. Army, Europe; and DCSLOG, U.S. Army, Europe; Commander, Eighth U.S. Army; and Chief of Staff, Eighth U.S. Army; Commander, Corps of Engineers Command; Commander, U.S. Army, Japan; Commander, U.S. Army Medical Research and Development Command; Commander, U.S. Army Forces Command.

#### Department of the Navy—

Commander-in-Chief, U.S. Naval Forces, Europe; Commander, U.S. Naval Forces, Japan; Commander, U.S. Naval Forces, Philippines;

OASNS(S&L), CBM;

Commander-in-Chief, U.S. Atlantic Fleet; Commander, Naval Logistics Command, Pacific Fleet;

Commander, Military Sealift Command (MSC);

Commandant, U.S. Marine Corps; Commander, Naval Facilities Engineering Command;

Commanding General, III Marine Amphibious Force.

#### Department of the Air Force—

Commander, U.S. Air Forces in Europe; Commander, Pacific Air Force;

Commander, Military Airlift Command (MAC);

Commander, Air Force Logistics Command; Commander, Air Force Systems Command;

Commander, Strategic Air Command;

Commander, Tactical Air Command;

Commander, Air Force Communications Command;

Commander, Space Command.

#### Defense Logistics Agency—

Executive Director, Contracting.

#### Defense Communications Agency—

Director.

(ii) For acquisitions estimated to exceed \$2 million in foreign cost—Secretary of the Department concerned.

(3) Acquisition of scientific and technical knowledge resulting in expenditures outside the United States and Canada shall be made only in the following cases:

(i) Those set forth in (1) (i), (ii), and (viii) above;

(ii) When it is determined in advance, by the individuals designated in (4) below, that the requirement can only be filled by foreign end products or services and that it is not feasible to forego filling the requirement or to provide a U.S. substitute for it; and

(iii) Acquisitions other than those covered in (i) and (ii) above when U.S. end products or services are available, and the difference between the domestic cost and the foreign cost exceeds 50% of the foreign cost as determined by the individuals designated in (4) below. Whenever practicable, such acquisitions shall be made on a cost-sharing basis or other arrangement designed to limit any adverse effect on the balance of payments. Policy questions concerning such arrangements should be directed to the Assistant Secretary of Defense (Acquisition and Logistics).

(4) The individuals listed below and their immediate deputies are designated to make the determinations required by (3) (ii) and (iii) above.

(i) For acquisitions estimated not to exceed \$2 million in foreign cost, except that this authority may be redelegated to individuals specifically designated for this purpose for acquisitions estimated not to exceed \$100,000:

#### Department of the Army—

Commanding General, Army Materiel Development and Readiness Command; Commander, Corps of Engineers Command; Surgeon General, Army Medical Corps; Chief of Research, Development and Acquisition;

#### Department of the Navy—

Chief of Naval Research; Commander, Naval Air Systems Command; Commander Naval Electronics Systems Command; Commander, Naval Sea Systems Command; Chief, Bureau of Medicine and Surgery; Commander, Naval Supply Systems Command; Chief of Naval Development; Oceanographer of the Navy; Commander, Naval Facilities Engineering Command; Military Sealift Command; DC/S Installations and Logistics Department Headquarters, U.S. Marine Corps;

#### Department of the Air Force—

Commander, Air Force Systems Command; Commander, Air Force Logistics Command;

#### Defense Agencies—

Director, Advance Research Projects Agency; Director, Defense Nuclear Agency; Director, Defense Communications Agency; Director, Defense Intelligence Agency.

(ii) For acquisitions estimated to exceed \$2 million in foreign cost—Secretary of the Department concerned, or the Assistant Secretary of Defense (Acquisition and Logistics) in the case of agencies set forth in (4) (i).

(5) Complete documentation justifying acquisitions under (1) and (3) above shall be prepared except for acquisitions made pursuant to (1) (ii) and (1) (vi). Such documentation shall be prepared by requiring activities, furnished in requests for determination submitted to the individuals listed in (2) and (4) above, and included in the contract file.

(S-73) *Construction materials*. Purchase of materials, equipment, and supplies for construction overseas shall generally be the responsibility of the contractor performing the work; but where necessary to comply with foreign law, or to avoid taxation, or to obtain other advantages, purchase may be by the United States. Contracting Officers shall consider savings that may be obtained by exemptions from import and other taxes and, to the extent economical, shall take advantage of tax exemptions available under existing agreements. See 229.402-70. In specifying materials, supplies, and equipment for construction in foreign countries, contracting officers shall make maximum use of foreign currencies available for the project, shall encourage the use of American

materials, equipment, and supplies and shall obtain the maximum feasible competition from indigenous, other foreign and American suppliers.

#### 225.303 Procedures.

Except as provided in 225.302(a)(S-72), proposed acquisitions of supplies and applicable services for use outside the United States shall be accomplished in accordance with the evaluation procedures in (b) below.

(a) *Solicitation of offers.* When quotations are obtained orally, vendors shall be informed that only domestic and qualifying country end products shall be acceptable other than those items which have been excepted either on a blanket or an individual basis or the price for the nonqualifying country end item meets the evaluation criteria in (b) below. When only domestic end products are acceptable, the solicitation shall so state.

#### (b) Evaluation.

(1) In accordance with the Balance of Payments Program, when these procedures result in the acquisition of foreign end products, the acquisition of domestic end products is deemed unreasonable in cost or inconsistent with the public interest. Except as provided herein and in 225.105, offers shall be evaluated so as to give preference to domestic offers as follows:

(i) Each nonqualifying country offer of defense equipment (but see exception in (ii) below) shall be adjusted for purposes of evaluation by increasing such offer by 50%. If the foregoing procedure results in a tie between a nonqualifying country offer, as evaluated, and a domestic offer, award shall be made on the latter. In all other instances, use the tie-breaking procedures in FAR 14.407-6.

(ii) In the event that a domestic offer, a qualifying country offer, and a nonqualifying country offer compete for defense equipment, the qualifying country offer shall be evaluated without applying the price differentials of this paragraph, whereas the nonqualifying country offer shall be subjected to the price differentials (see Example A below). However, in the event the low domestic offer exceeds the evaluated price of the nonqualifying country offer, all foreign offers shall be evaluated as if no domestic offer was submitted (see Example B below). In the event a qualifying country offer competes against a nonqualifying country offer and no domestic offer is submitted, they shall be evaluated on an equal basis (see Example C below).

(2) The following examples illustrate how the procedure in (1) above should be applied.

#### Example A

Nonqualifying Country Offer.....	\$6,000
Domestic Offer.....	8,900
Qualifying Country Offer.....	8,800

*Award on qualifying country offer.* The nonqualifying country offer, adjusted by 50% factor is \$9,000. The qualifying country offer receives the award because it is evaluated without adjustment and is the lowest offer.

#### Example B

Nonqualifying Country Offer.....	\$6,000
Domestic Offer.....	9,500
Qualifying Country Offer.....	8,800

*Award on nonqualifying country offer.* Nonqualifying country offer, adjusted by 50% factor is \$9,000. It is still lower than the domestic offer. Accordingly, the qualifying and nonqualifying country offers are evaluated on an equal basis as if the domestic offer had never been submitted and the award is made on the nonqualifying country offer.

#### Example C

Nonqualifying Country Offer.....	\$10,000
Qualifying Country Offer.....	11,500

*Award on nonqualifying country offer.* Since there is no domestic offer, the nonqualifying country and qualifying country offers are evaluated on an equal basis, and the award is made on the nonqualifying country offer.

#### 225.304 Excess and near-excess foreign currencies.

(See Subpart 225.76.)

#### 225.305 Solicitation provision and contract clauses.

(c) *Clauses.* The contracting officer shall insert the clause at 252.225-7004, Identification of Expenditures in the United States, under the conditions set forth at 225.370 (see 225.109 for use of clauses at 252.225-7000, 7001, and 7002).

#### 225.370 Identification of expenditures in the United States.

DoD balance of payment reporting instructions require the reporting of the amount of acquisitions of U.S. end products and services accomplished under these regulations. The following provisions are designed to facilitate such reporting by cognizant accounting and disbursing officers. In implementing these provisions, it is essential that there be appropriate liaison between acquisition, accounting, and disbursing personnel at each activity involved.

(a) Except as provided in (b) below, the clause at 252.225-7004, Identification of Expenditures in the United States, shall be included in each contract in excess of \$25,000 that—

(1) Requires the contractor to furnish U.S. end products, except that the clause

in 252.225-7004 is not required if the contractor is a domestic concern and the Government will take title to the end products within the United States; or

(2) In the case of a contract for construction, repair or maintenance of real property, or for services, to be performed outside the United States, either—

(i) Requires the contractor to acquire specified materials, equipment, or services from U.S. sources (whether or not the contractor is a domestic concern), or

(ii) Is with a contractor who is a domestic concern (whether or not specified items must be acquired from U.S. sources).

(b) In lieu of the clause specified at (a) above, the following statement may be placed prominently on the face of each such contract, where the contracting officer considers that greater accuracy will be achieved or that inclusion of the contract clause is impracticable:

U.S. Expenditures for:  
U.S. end products—\_\_\_\_\_% of each invoice.  
U.S. services—\_\_\_\_\_% of each invoice.  
Transportation on U.S. carriers—\_\_\_\_\_% of each invoice.  
(See DoD FAR Supplement 252.225-7004 for definitions.)

(c) Contracts and purchase orders of \$25,000 or less, which otherwise meet the criteria in (a) above for including the clause at 252.225-7004, shall have the statement in (b) above placed prominently on their face.

#### Subpart 225.4—Purchases Under the Trade Agreements Act of 1979

##### 225.401 Definitions.

"Eligible product" means a designated or Caribbean Basin country end product listed at 225.403(S-70).

##### 225.402 Policy.

(b) There shall be no purchase of a foreign end product listed in 225.403(S-70) with a total value at or above that specified in the FAR which is not a designated or Caribbean Basin country end product except as provided below:

(1) National interest exceptions must be approved on a case-by-case basis. An exception request with supporting rationale shall be submitted in accordance with Departmental procedures to DASD(A&L)(P) or designee.

(2) End products from countries listed at 225.7310(a) and 225.7401, and from countries at 225.75 are limited to those items listed on appropriate annexes.

**225.403 Exceptions.**

(d) This exception includes purchases from foreign sources where prohibited by the Department of Defense Annual Appropriations Act (see 225.7002). The products listed at 225.403(S-70) generally do not come under this exception, but in the event a Department considers an individual acquisition of such a listed product to be a purchase "indispensable for national security or national defense purposes," and appropriate for exclusion from the provisions of this subpart, a request with supporting rationale shall be submitted in accordance with Departmental procedures for approval by DASD(A&L)(P) or designee.

(S-70) *List of eligible products.* The following list is arranged according to Federal Supply Classifications. If an item is not within an FSC listed below, FAR Subpart 25.4 does not apply. As noted in FAR 25.401, Caribbean Basin country end products are limited to those which are eligible for duty-free treatment under 19 U.S.C. 2703(b). The list below of eligible products has been annotated to indicate those products which are eligible for designated countries, but are not presently eligible for Caribbean Basin countries due to this limitation. (Note: Most of the excluded product categories for Caribbean Basin countries mentioned in FAR 25.401 are not mentioned below, such as textiles, apparel articles, flat goods, footwear, handbags, work gloves, leather wearing apparel, and tuna, because these products do not fall into any of the eligible product categories due to other restrictions on foreign purchases.)

**FSC Category/Description**

- 22 Railway equipment
- 23 Motor vehicles, trailers, and cycles (except 2350 and buses under 2310)
- 24 Tractors
- 25 Vehicular equipment components
- 26 Tires and tubes
- 29 Engine accessories
- 30 Mechanical power transmission equipment
- 32 Woodworking machinery and equipment
- 34 Metalworking machinery (except 3408, 3410-3419, 3426, 3433, 3441-3443, 3446, 3448, 3449, 3460, 3461)
- 35 Service and trade equipment
- 36 Special industry machinery (except 3690)
- 37 Agricultural machinery and equipment
- 38 Construction, mining, excavating, and highway maintenance equipment
- 39 Materials handling equipment
- 40 Rope, cable, chain and fittings

- 41 Refrigeration and air conditioning equipment
- 42 Fire fighting, rescue and safety equipment
- 43 Pumps and compressors
- 44 Furnace, steam plant and drying equipment (except 4470)
- 45 Plumbing, heating and sanitation equipment
- 46 Water purification and sewage treatment equipment
- 47 Pipe, tubing, hose and fittings
- 48 Valves
- 49 Maintenance and repair shop equipment (except 4920-4927, 4931-4935, 4960)
- 52 Measuring tools
- 53 Hardware and abrasives
- 54 Prefabricated structures and scaffolding
- 55 Lumber, millwork, plywood and veneer
- 56 Construction and building materials
- 61 Electric wire, and power and distribution equipment
- 62 Lighting fixtures and lamps
- 63 Alarm and signal systems
- 65 Medical, dental, and veterinary equipment and supplies
- 66 Instruments and laboratory equipment (except aircraft clocks under 6645)—See FAR 25.401 exclusion of certain watches and watch parts for certain Caribbean Basin countries
- 67 Photographic equipment
- 68 Chemicals and chemical products
- 69 Training aids and devices
- 70 General purpose ADPE, software, supplies and support equipment
- 71 Furniture
- 72 Household and commercial furnishings and appliances
- 73 Food preparation and serving equipment
- 74 Office machines, visible record equipment and ADP equipment
- 75 Office supplies and devices
- 76 Books, maps, and other publications
- 77 Musical instruments, phonographs, and home type radios
- 78 Recreational and athletic equipment
- 79 Cleaning equipment and supplies
- 80 Brushes, paints, sealers and adhesives
- 81 Containers, packaging and packing supplies (except 8140)
- 8460 Luggage—See FAR 25.401 for exclusion of luggage for Caribbean Basin countries
- 85 Toiletries
- 87 Agricultural supplies
- 88 Live animals
- 91 Fuels, lubricants, oils and waxes—See FAR 25.401 for exclusion for Caribbean Basin countries
- 93 Nonmetallic fabricated materials
- 94 Nonmetallic crude materials

- 96 Ores, minerals and their primary products
- 99 Miscellaneous

**225.404 Labor surplus area set-asides.**

(See 252.220-7000 and 252.220-7001.)

**225.405 Procedures.**

(d) This requirement does not apply to offshore procurements or to Defense Fuel Supply Center post, camp, or station overseas requirements. (See 225.501.)

**225.407 Solicitation provision and contract clause.**

(a)(1) The provision, Buy American-Trade Agreements-Balance of Payments Program Certificate, at 252.225-7005, shall be used in all solicitations in which the Buy American Act, Trade Agreements Act, and the Balance of Payments Program clause at 252.225-7006 is used. This provision is to be used in lieu of that at FAR 52.225-8.

(a)(2) The clause at 252.225-7006, Buy American Act, Trade Agreements Act, and the Balance of Payments Program, shall be used in lieu of the clause at FAR 52.225-9 and shall be inserted along with the clause at 252.225-7002, Qualifying Country Sources as Subcontractors, in all solicitations and contracts subject to the Trade Agreements Act. The clause at 252.225-7006 may also be used in lieu of the clause at 252.225-7001.

**Subpart 225.5—Payment in Local Foreign Currency****225.501 Policy.**

(a) Offshore contracts with local firms will be priced and paid in local currency unless (i) there exists a Status of Forces Agreement providing for payment in U.S. currency; or (ii) the use of local currency is determined to be inequitable, and the use of U.S. currency is authorized at a level above the contracting officer. An example of a situation where pricing and paying in dollars may be appropriate or necessary would be a contract requiring significant purchases in the United States (see 225.76).

**Subpart 225.6—Customs and Duties****225.600 Scope of subpart.**

This subpart sets forth policies and procedures for excepting from import duty certain supplies that are imported into the United States in connection with Defense contracts. Ordinarily, duty is payable for the importation of non-Defense supplies obtained outside the United States. Two exceptions to this rule are available to the Department of

Defense: "Emergency purchases of war materials abroad" by a Military Department may be imported duty-free pursuant to Schedule 8, Part 3, Item No. 832.00, Tariff Schedules of the United States; and certain supplies (not including equipment) for vessels or aircraft operated by the United States may be imported duty-free pursuant to 19 U.S.C. 1309. This subpart prescribes the uses and limits of these two exceptions. This subpart does not deal with or affect the evaluation of offers of foreign supplies as set forth elsewhere in Part 225. Although the procedures of this subpart may require or permit duty-free entry to be accorded foreign supplies in a given case, this in itself neither precludes nor requires the inclusion of duty in evaluating an offer of such supplies.

#### 225.601 Definitions.

Emergency Purchase of War Material means any acquisition of foreign supplies if:

- (1) The supplies comprise—
  - (i) Weapons, munitions, aircraft, vessels, or boats;
  - (ii) Agricultural, industrial, or other supplies used in the prosecution of war or for the national defense; or
  - (iii) Supplies, including components or equipment, necessary for the manufacture, production, processing, repair, servicing, or operation of supplies within (i) or (ii) above; and
- (2) The acquisition—
  - (i) Is made in time of war or during a national emergency;
  - (ii) Is made because of a shortage of domestic supply, pursuant to a decision that the supplies are necessary for the adequate maintenance of the Armed Services;
  - (iii) Is made for the use of U.S. forces abroad or U.S. vessels in foreign waters; or
  - (iv) Consists of captured enemy war material, materials requisitioned by U.S. forces abroad, or materials rebuilt from other materials owned by, or turned over to U.S. forces, or materials loaned or given to a Military Department of the U.S. Government under exchange agreements with foreign governments.

#### 225.602 Policy.

The issuance of duty-free entry certificates in appropriate situations will result in important savings to military appropriations. Such certificates must be limited to carefully selected situations so that they do not result in unanticipated profits to contractors, especially under fixed-price-type contracts, and involve the Government in administrative expenses outweighing any possible savings to military

appropriations. It is DoD policy to use duty-free entry certificates whenever there is *reasonable assurance* that advantages in the form of savings to military appropriations will outweigh the administrative and other costs of processing duty-free entry certificates and of maintaining controls to verify that a full benefit of the certificates inures to the Government. As a rule, a contractor which has been awarded a fixed-price-type contract based on providing a domestic end product or component cannot subsequently furnish a foreign end product or component (including a qualifying country end product or component) and receive a duty-free entry certificate in accordance with FAR 52.225-10 or 252.225-7008 of this supplement without an appropriate reduction in contract price.

#### 225.603 Procedures.

##### (a) General.

(1) To assure that the policy of 225.602 is carried out for emergency purchases of war materials abroad, the clauses at FAR 52.225-10 and 252.225-7014 of this supplement shall be used in each negotiated contract in excess of \$100,000. Notwithstanding this dollar limit, the clauses may be inserted in any other negotiated contract when the contracting officer determines that to do so would further the policy in 225.602 and would be consistent with the limitations in (4) below, and in any such case the dollar figure in paragraphs (b)(1) and (i)(2) of the clause in FAR 52.225-10 may be reduced appropriately.

(2) When the clause at FAR 52.225-10 is used, the contracting officer shall insert the solicitation provision at 252.225-7007.

(3) In order to provide for duty-free entry for foreign supplies as required by various Memoranda of Understanding between the Department of Defense and allied nations and as required to fully implement the Trade Agreements Act, a clause entitled Duty-Free Entry—Qualifying Country End Products and Supplies is used in most DoD contracts (see 225.605).

(4) Duty-free entry certificates shall be issued as required by contracts containing any of the contract clauses described in 225.605. Consistent with 225.602, duty-free entry certificates may also be issued in connection with any other contract for an "emergency purchase of war material" (i.e. one not containing an appropriate clause) that falls within one of the following categories:

- (i) Direct purchases of foreign supplies under a DoD prime contract regardless of whether title passes at point of origin or at destination in the United States;

*Provided*, the contract states that the final price is exclusive of duty;

(ii) Purchases of foreign supplies by a domestic prime contractor under a cost-reimbursement type contract or by a cost-reimbursement type subcontractor (where no fixed-price prime or fixed-price subcontract intervenes between the purchaser and the Government), regardless of whether title passes at point of origin or at destination in the United States. If a fixed-price prime or fixed-price subcontract intervenes, the criteria stated in (iii) below should be followed; and

(iii) Purchases of foreign supplies by a fixed-price domestic prime contractor, a fixed-price subcontractor, or a cost-type subcontractor where a fixed-price prime contract, or fixed-price subcontract intervenes; *Provided*, (A) the fixed-price prime contract and, where applicable, fixed-price subcontract prices are, or are amended to be, exclusive of duty; (B) the prime contractor and, where applicable, the subcontractors concerned certify that the supplies so purchased are to be delivered to the Government or incorporated in Government-owned property or in an end product to be furnished to the Government, and that the duty will be paid if such supplies or any portion thereof are utilized for other than the performance of the Government contract or disposed of other than for the benefit of the Government in accordance with the contract terms; and (C) such acquisition abroad is authorized by the terms of the contract, the applicable subcontract, or by the contracting officer. In any case, the procedures required by the clauses prescribed in 225.605 shall be followed to the extent practicable.

(5) When the clauses cited at 225.605 are used, the Contracting Officer shall list in the contract the name and address of the CAO administering the contract and its activity address number (Appendix N of this supplement) in paragraph (d) of the clause at 252.225-7014 or paragraph (k) of the clause at 252.225-7008.

##### (b) Formal entry and release.

(1) *CAO responsibilities.* Contracting Officer assigned to administer the contract must assure that prime contractors are aware of and understand the clause requirements which are summarized below. Contractors should understand that failure by them or their subcontractors to include the data required by the clause will result in the shipment being treated as a shipment without benefit of free entry under Schedule 8, Part 3, Item No. 832.00, Tariff Schedules of the United States.

(i) Written notice from the contractor or any tier subcontractor to the CAO immediately upon award to a foreign supplier. The notice includes:

- (A) Prime contract number plus delivery order number, if applicable;
- (B) Total dollar value of the prime contract or delivery order;
- (C) Expiration date of the prime contract or delivery order;
- (D) Foreign supplier name;
- (E) Number of the subcontract/purchase order for foreign supplies;
- (F) Total dollar value of the subcontract for foreign supplies;
- (G) Expiration date of the subcontract for foreign supplies;

(H) List of items purchased; and  
(I) Contractor certification by the purchaser of foreign supplies that supplies to be entered duty-free are intended to be delivered to the Government or incorporated in the end item delivered under the contract.

(ii) Contractor and subcontractor responsibilities to instruct foreign supplier regarding shipping document information including the Activity Address Number as set forth by the clause and as listed in Appendix N.

(iii) Contractor duties to prepare and submit to the District Director of Customs all customs forms required to enter foreign purchased supplies in the United States, its possessions, or Puerto Rico for shipments other than to a military installation in the United States.

(iv) Understanding of the flow down provision of clauses.

(v) Procedure for adjustment to prime contract price with regard to duty not previously excluded (see 225.602).

(2) *Duty-free entry entitlements.* Upon receipt of the required notice of purchase of foreign supplies from the prime contractor or any tier subcontractor, the contracting officer administering the prime contract will verify the duty-free entitlement of goods to be entered under the contract. A review of the prime contract should ensure foreign supplies (quantity and price) identified in the notice are required for the performance of the contract.

(3) *Adjustment to prime contract price.* When notification is received from the contractor by the administrative contracting officer indicating that a foreign purchase is being placed that was not identified at the time of the prime contract award, a reduction to the prime contract price may be required in accordance with the Duty-Free Entry clause at FAR 52.224-10, the Duty-Free Entry—Qualifying Country End Products and Supplies clause at 252.225-7008 or pursuant to 225.603(a)(4) of this supplement. After

determining the amount of duty that would be payable if duty-free entry certificates were not issued, an equitable adjustment to the prime contract price shall be made unless otherwise approved by the procuring contracting officer. Unless retained in accordance with 242.203, the authority to negotiate and issue such modifications reducing the contract price has been delegated to the ACO in accordance with 242.203(a)(S-74). After determining the price of foreign supplies exclusive of duty, the contracting officer administering the contract shall advise the contractor that that amount will be the maximum dollar value of supplies for which duty-free entry certificates will be issued.

(4) *Data required by DCASR New York.*

(i) Within 20 days of receipt of the notification of purchase of foreign supplies, ACOs will forward the following information to DCASR New York in the format shown below:

TO: Commander  
DCASR New York  
ATTN: Customs Function  
201 Varick Street  
New York, NY 10014

A contractor notification of the purchase of foreign supplies has been received in accordance with FAR 52.225-10 and 52.225-7014 of the DoD FAR Supplement or 252.225-7008 of the Supplement. Verification has been made that foreign supplies are required for the performance of the contract. If required, prime contract price has been or will be adjusted in accordance with 225.603(b)(3) of the DoD FAR Supplement.

In accordance with 225.603(b)(4) of the Supplement, the following information is provided:

Prime Contractor Name:

Prime Contract Number plus Delivery Order

Number, if applicable:

Total Dollar Value of the Prime Contract or Delivery Order:

Expiration Date of the Prime Contract or Delivery Order:

Foreign Supplier Name:

Number of the Subcontract/Purchase Order for

Foreign Supplies:

Total Dollar Value of the Subcontract for Foreign Supplies:

Expiration Date of the Subcontract for Foreign Supplies:

CAO Activity Address Number (Appendix N of the DoD FAR Supplement):

Signature:

Title:

(ii) If a contract modification results in a change to any data previously furnished to DCASR New York to verify duty-free entitlement, a revised notification of the changed data shall be forwarded to DCASR New York.

(3) *Customs forms and duty-free entry certificates.*

(i) *Execution of duty-free entry certificates.* The responsibility for issuing duty-free entry certificates for foreign supplies purchased under a DoD contract or subcontract rests with the Transportation Officer, DCASR New York. Upon receipt of import documentation for incoming shipments from the contractor, his agent, or the U.S. Customs Service, the Transportation Office, DCASR New York will verify the duty-free entitlement and execute the duty-free entry certificate.

(ii) *Customs import documentation.* Upon arrival of foreign supplies at ports of entry, the consignee, generally the contractor or his agent (import broker) for shipments to other than a military installation, will file U.S. Customs Form 7501, 7501A, or 7506 and U.S. Customs Form 3461, with the District Director of Customs.

(6) *Immediate entry and release.* Immediate release permits, executed on Customs Forms 3461 (Application for Special Permit for Delivery of Perishable and Other Articles, Immediate Delivery of Which is Necessary), entitle all shipments qualifying as "emergency purchase" of war material abroad to be released immediately by the District Directors of Customs at the various ports of entry, prior to and pending the filing of Customs Forms 7501, 7501A, or 7506 and a duty-free entry certificate. The existence of an immediate release permit on file at a port of entry does not dispense with the necessity of filing Customs Forms 7501, 7501A, or 7506 and appropriate duty-free entry certificates. Each Department designates the individuals responsible for issuance of Immediate Release Permits.

225.604 *Exempted supplies.*

(b) *Supplies for vessels or aircraft operated by the United States.*

(1) Subject to the considerations set forth in FAR 25.605, a duty-free entry certificate may be issued when "certain supplies (not including equipment)" are purchased for vessels or aircraft operated by the United States. As used in this paragraph, the term "certain supplies (not including equipment)" includes articles known as "stores", such as food, medicines and toiletries, and, in addition, all consumable articles necessary and appropriate for the propulsion, operation, and maintenance of the vessel or aircraft, such as fuel, oil, gasoline, grease, paint, cleansing compounds, solvents, wiping rags, and polishes. It does not include portable articles necessary and appropriate for

the navigation, operation or maintenance of vessel or aircraft and for the comfort and safety of the persons on board, such as rope, bolts and nuts, bedding, china and cutlery, which are included in the term "equipment." The procedures to be followed in the issuance of such certificates shall be prescribed by the respective Departments.

(2) The duty-free entry certificate referred to in this paragraph shall be printed, stamped, or typed on the face of Customs Form 7501, or attached thereto, and shall be executed by a duly designated officer or civilian official of the appropriate Department in the following form:

(Date) \_\_\_\_\_

I certify that the acquisition of this material constituted a purchase of supplies by the United States for vessels or aircraft operated by the United States, and is admissible free of duty pursuant to 19 U.S.C. 1309.

(Name) \_\_\_\_\_

(Title) \_\_\_\_\_

(Organization) \_\_\_\_\_

#### 225.605 Contract clause.

(a) When the contract is required to contain the clause at FAR 52.225-10, the contracting officer shall include the clause at 252.225-7014 and the provision at 252.225-7007 of this Supplement. Notwithstanding FAR 25.605, the clauses shall only be used within the limits contained at 225.603(a) of this supplement.

(S-70) *Duty-free entry—qualifying country end products and components.* The clause at 252.225-7008 shall be inserted in all contracts for supplies and in all contracts for services involving the furnishing of supplies, except that it need not be inserted when simplified small purchase procedures are used or in contracts for supplies exclusively for use outside the United States.

#### Subpart 225.7—Restrictions on Certain Foreign Purchases

##### 225.703 Exceptions.

(b) For other than small purchases, an exception shall be approved by the Secretary of the Department concerned. Before granting an exception for other than small purchases, the Secretary concerned shall obtain the advice of the Assistant Secretary of Defense (International Security Affairs); however, such advice is not required for emergency purchases, or where supplies are not available from any other source and substitute supplies are not acceptable.

#### Subpart 225.8—International Agreements and Coordination

##### 225.800 Scope of subpart.

This subpart concerns the applicability of international agreements other than those in Subparts 225.73, 225.74, 225.75, and coordination with overseas commands and activities in purchasing from foreign sources.

##### 225.801 International agreements.

Treaties and international agreements in effect between the United States and governments receiving military and economic aid under the Foreign Assistance Act of 1961, affect acquisition in foreign countries. Copies of international agreements are filed with the United States European Command covering existing agreements in the United Kingdom of Great Britain and Northern Ireland, Western European countries, North Africa, and in the Middle East. Agreements with countries in the Pacific and Far East are filed with the United States Pacific Command (CINCPAC). Military Assistance Advisory Groups, Naval Missions, and Joint United States Military Aid Groups normally have copies of the agreements applicable to the countries concerned.

##### 225.870 Coordination with overseas commands and activities.

When it has been determined that an acquisition will be made from a foreign contractor, overseas contracting offices shall be utilized to the maximum practical extent. Contracting offices not within the command jurisdiction of a unified or specified command, anticipating placement of contracts with foreign contractors, shall maintain liaison with the appropriate component commander during preaward negotiations and postaward administration. When an acquisition may result in a requirement for logistic support of contractor employees or additional Government employees in an overseas location, in support of US or FMS requirements, the contracting officer shall obtain advance approval from the appropriate component commander of the types of logistic support needed and of the costs associated with it. The contract file shall include documentation reflecting specific advance approval for such commitment from the appropriate component commander.

#### Subpart 225.9—Omission of the Examination of Records Clause

##### 225.903 Conditions for omission.

(b) A determination of the Secretary under FAR 25.903(a)(2) does not require

the concurrence of the Comptroller General or his designee. However, when a determination is the basis for exclusion of the Examination of Records by Comptroller General clause, the statute requires that a written report be furnished to the Congress. This report, which shall explain the reasons for the determination, shall be submitted in triplicate by the Department of Defense component concerned, to the Director for Information Operations and Reports, Washington Headquarters Services, Washington, DC 20301 (see also 225.7203).

##### 225.904 Determination and findings.

Request for determination and findings for exclusion ordinarily will be initiated by the contracting officer. The report shall consist of a letter submitted through normal acquisition channels, addressed to the Secretary, setting forth all the facts necessary to arrive at an appropriate determination and findings.

#### Subpart 225.70—Appropriations Act Restrictions

##### 225.7000 Scope of subpart.

This subpart implements the Defense Appropriations Act restriction on the availability of appropriated funds for the acquisition of any article of food, clothing, cotton, wool, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric, specialty metals, or hand or measuring tools. However, reference should be made to the current Department of Defense Appropriations Act as a check on the current applicability of such restriction. This subpart also implements the restriction on acquisition of foreign buses contained in section 404 of Pub. L. 90-500 (see 225.7006), the restriction on R&D contracting with foreign sources contained in section 744 of Pub. L. 92-570 (see 225.7007), the restriction for the construction of major components of the hull or superstructure of any naval vessel or the construction of any naval vessel in foreign shipyards (see 225.7005), and the restriction on acquisition of manual typewriters which were manufactured by facilities located within states which are signatories of the Warsaw Pact (see 225.7004). Nothing herein shall affect the applicability of the Buy American Act or the Balance of Payments Program.

##### 225.7001 Definitions.

As used in this subpart, the following terms have the meaning set forth below.

"Hand or Measuring Tools", means those tools listed in Federal Supply Classification 51 and 52 respectively.

"Possessions", as used in the phrase "United States or its possessions," includes Puerto Rico.

"United States" means the States and the District of Columbia.

"Specialty metals" means:

(a) Steels where the maximum alloy content exceeds one or more of the following limits: manganese, 1.65%; silicon, 0.60%; or copper, 0.60%; or which contains more than 0.25% of any of the following elements: aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, or vanadium;

(b) Metal alloys consisting of nickel, iron-nickel and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10%;

(c) Titanium and titanium alloys; or

(d) Zirconium and zirconium base alloys.

#### 225.7002 Restriction on food, clothing, fabrics, and specialty metals.

Except as provided in (a) below, contracting activities shall not acquire supplies consisting in whole or in part of any food, clothing, cotton, wool, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric, or coated synthetic fabric, which have not been grown or produced in the United States or its possessions; or specialty metals, including stainless steel flatware which have not been melted in steel manufacturing facilities located within the United States or its possessions, but this does not restrict the acquisition of cotton or wool reprocessed or reused in the United States or its possessions or of foods manufactured or processed in the United States or its possessions.

(a) *Exceptions.* The following exceptions apply:

(1) Acquisitions outside the United States in support of combat operations;

(2) Acquisitions by vessels in foreign waters;

(3) Emergency acquisitions or acquisitions of perishable foods by establishments located outside the United States for the personnel attached thereto;

(4) Acquisitions of those supplies listed in FAR 25.108(d)(1) as to which the list does not make this subpart expressly applicable;

(5) Small purchases (for the purpose of this exception, a small purchase shall mean an acquisition action, as distinguished from a single line item, involving a total dollar amount not in excess of \$10,000);

(6) Acquisitions of end items

incidentally incorporating cotton or wool, of which the estimated value is not more than 10% of the total price of the end item; *Provided*, That the estimated value does not exceed \$10,000 or 3% of the total price of the end item, whichever is greater;

(7) Any articles of food or clothing or any form of cotton, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric, coated synthetic fabric, or wool, as to which the Secretary concerned has determined that a satisfactory quality and sufficient quantity grown or produced in the United States or its possessions cannot be acquired as and when needed at U.S. market prices.

(8) Supplies purchased specifically for commissary resale (see 225.102(70)(4));

(9) Purchases of specialty metals or any item incorporating specialty metals, as to which the Secretary concerned or his authorized designee has determined that a satisfactory quality and sufficient quantity melted in the United States or its possessions cannot be acquired as and when needed at U.S. market prices;

(10) Purchases of specialty metals below the prime contract level for programs other than those for aircraft, missile and space systems, ships, tank-automotive, weapons, and ammunition; and

(11) Purchases of specialty metals or chemical warfare protective clothing when such purchases are necessary to comply with agreements with foreign governments requiring the United States to purchase supplies from foreign sources for the purposes of offsetting sales made by the U.S. Government or U.S. firms under approved programs serving defense requirements, or when such acquisition is in furtherance of an agreement with a qualifying country.

(b) *Preference for certain domestic commodities.* The contracting officer shall insert the clause at 252.225-7009, Preference for Certain Domestic Commodities, in all solicitations expected to have, and all small purchases and contracts which do have, a value of \$10,000 or more.

(c) *Preference for domestic wool.*

(1) The Secretaries have determined that to the extent that application of the procedures in this subparagraph results in the acquisition of any articles of wool (except mohair) not grown, reprocessed, reused, or produced in the United States or its possessions, a satisfactory quality and sufficient quantity of such articles grown, reprocessed, reused, or produced in the United States or its possessions cannot be acquired as and when needed at U.S. market prices.

(2) Offers for supplies of which wool is a part will be solicited on the following alternative bases:

(i) Manufactured in the United States or its possessions from domestic wool;

(ii) Manufactured in the United States or its possessions from foreign wool; and

(iii) Manufactured in the United States or its possessions from a blend of (percent) domestic wool and (percent) foreign wool.

(3) For each solicitation for supplies of which wool is a component part or end product, the contracting officer will insert the clause at 252.225-7010, Domestic Wool Preference. The evaluation factor will be computed in accordance with (6) below, and the amount of the factor will be inserted in place of the blank in (c) of the provision at 252.225-7010.

(4) If, on the date of opening of offers, the average market price of domestic wool of usable grades is no more than 10% above the average of the prices of representative types and grades of domestic wools in the wool category that includes the wool required by the specifications (see (6) below), which prices reflect the current incentive price as established by the Secretary of Agriculture, and if reasonable offers have been received for the advertised quantity offering 100% domestic wools, the contract will be awarded for domestically produced articles using 100% domestic wools, and the procedure set forth in (5) and (6) below will be disregarded.

(5) In the evaluation of offers under this subpart, an evaluation factor computed in accordance with (6) below will be added to that portion of the offered price that represents foreign wool to be furnished or used in performance of the contract, and award will be made accordingly. In the event that tie offers result from such evaluation, award will be made to the offeror proposing to furnish or use the most domestic wool.

(6) The evaluation factor to be used under (5) above will be 10% of the average of the following prices of representative types and grades of domestic wools within that one of the following categories which includes the wool required by the specifications. (The following prices reflect the current incentive price of \$0.62 per pound grease basis converted to grade and type clean basis.)

Representative type and grade	Price clean basis per pound (dollars)
<b>Group 1—Grades 60's and finer</b>	
Category 1—Staple, Average and Good French Combing (worsted type)	
The average of the following grades:	
Territory Original Bag Wool: Average and Good French Combing, 64's and finer	1.7748
Graded Territory and Texas Wool: Staple and Good French Combing, One-Half Blood, 60's/62's	1.6946
Graded Fleece Wool:	
Staple and Good French Combing, 64's and finer	1.7862
Staple and Good French Combing, One-Half Blood, 60's/62's	1.6259
Category 2—Short Average and Good French Combing and Clothing (woolen type)	
The average of the following grades:	
Territory Original Bag Wool: Short, French Combing and Clothing, fine (64's, not to exceed 15% of 60's/62's)	1.5801
Graded Territory and Texas Wool: Average and Good French Combing, One-Half Blood, 60's and 62's	1.6145
Graded Fleece Wool:	
Average and Good French Combing, 64's and finer	1.7061
Average and Good French Combing, One-Half Blood, 60's/62's	1.5343
<b>Group 2—Grades 50's-60's</b>	
Category 3—Staple and Good French Combing (worsted)	
The average of the following grades:	
Graded Territory and Texas Wool:	
Staple and Good French Combing, Three-Eighths Blood, 56's/58's	1.3646
Staple and Good French Combing, 50's/48's, One-Quarter Blood	1.3397
Graded Fleece Wool:	
Staple and Good French Combing, Three-Eighths Blood, 56's/58's	1.3626
Staple and Good French Combing, 50's/48's, One-Quarter Blood	1.2710
Category 4—Average French Combing (woolen type)	
The average of the following grades:	
Graded Territory and Texas Wool:	
Average French Combing, Three-Eighths Blood, 56's/58's	1.3053
Average French Combing, 50's/48's, One-Quarter Blood	1.2023
Graded Fleece Wool:	
Average French Combing, Three-Eighths Blood 56's/58's	1.2137
Average French Combing, 50's/48's, One-Quarter Blood	1.0878
<b>Group 3—Grades Below 50's</b>	
Category 5—Staple and Good French	
The average of the following grades:	
Graded Fleece Wool:	
Low One-Quarter Blood, 46's, 4 inches or more in length	1.1565
Common and Braid, 44's/36's, 5 inches or more in length	1.0763

(7) See Subpart 225.76 for procedures for using U.S.-owned foreign currency for payment of contracts for foreign-end products.

(d) *Preference for domestic specialty metals.*

(1) The contracting officer shall insert the clause at 252.225-7011, Preference for Domestic Specialty Metals (Major Programs), in all solicitations and contracts over \$10,000 that call for the delivery to the Government of an article

containing specialty metals within the following six major classes of programs: aircraft, missile and space systems, ships, tank-automotive, weapons, and ammunition.

(2) The contracting officer shall insert the clause at 252.225-7012, Preference For Domestic Specialty Metals, in all solicitations and contracts over \$10,000, other than those covered by the clause in (d)(1) above, calling for the delivery of an article that contains specialty metals.

#### 225.7003 Restriction on domestic hand or measuring tools.

Public Law 97-377 and subsequent laws appropriating funds for the Department of Defense have provided restrictions on the acquisition of hand or measuring tools. The contracting officer shall insert the clause at 252.225-7013, Preference for Domestic Hand or Measuring Tools, in all small purchases of \$10,000 or more and in all contracts calling for delivery of hand or measuring tools.

#### 225.7004 Restriction on sources for manual typewriters.

Public Law 97-377 provides that none of the funds available to the Department of Defense shall be available for the procurement of manual typewriters which were manufactured by facilities located within States which are Signatories to the Warsaw Pact.

#### 225.7005 Restriction on the hull and superstructure of naval vessels.

Each year the Department of Defense Appropriations Authorization Act contains the Burns-Tollefson Amendment which reads:

*Provided*, That none of the funds herein provided for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign shipyards for the construction of major components of the hull or superstructure of such vessel: *Provided further*, That none of the funds herein provided shall be used for the construction of any naval vessel in foreign shipyards.

This Amendment is incorporated into the Department of Defense Appropriations Act each year and is located under "Shipbuilding and Conversion, Navy".

#### 225.7006 Restriction on acquisition of foreign buses.

(a) Section 404 of the Act of September 20, 1968 (Pub. L. 90-500), the Department of Defense Appropriation Authorization Act for Fiscal Year 1969, provides that:

No funds authorized for appropriation for the use of the Armed Forces of the United States under the provisions of this Act or the

provisions of any other law shall be available for the purchase, lease, rental, or other acquisition of multipassenger motor vehicles (buses) other than multipassenger motor vehicles (buses) manufactured in the United States, except as may be authorized by regulations promulgated by the Secretary of Defense solely to insure that compliance with this prohibition will not result in either an uneconomical procurement action or one which would adversely affect the national interests of the United States.

(b) The objective of this statutory provision is to assure that only buses manufactured in the United States shall be used to satisfy requirements of United States Armed Forces located throughout the world for bus transportation, where such buses are available and where their use would not be uneconomical or contrary to the national interests of the United States. It should be applied whether the buses are purchased, leased, rented, or made available under contracts for transportation services. The use of foreign manufactured buses is authorized where the Head of the Contracting Activity determines that the use of U.S.-manufactured buses would be uneconomical or would adversely affect the national interests of the United States. However, foreign buses may be acquired without such determination in the following circumstances:

(1) When U.S.-manufactured buses are not available in time to satisfy requirements which cannot be postponed, foreign-manufactured buses may be used for a temporary period of time but not to exceed the lead time required for acquisition and delivery of U.S.-manufactured buses.

(2) When the requirement for buses is of a temporary nature to meet a special but nonrecurring requirement or where a recurring requirement is sporadic and infrequent, foreign-manufactured buses may be used for the temporary periods of time not to exceed the period of time needed to meet the nonrecurring or the recurring infrequent requirement.

(3) When foreign-manufactured buses are made available at no direct or indirect acquisition cost to the U.S. Government, foreign-manufactured buses may be used.

#### 225.7007 Restriction on R&D contracting with foreign sources.

(a) Section 744 of the Defense Appropriations Act for FY 1973 (Pub. L. 92-570) provides that no funds appropriated for the Department of Defense are available for entering into any contract or agreement with any foreign corporation, organization, person, or other entity for the

performance of research and development in connection with any weapon system or other military equipment for the Department of Defense when there is a U.S. corporation, organization, person, or other entity equally competent to carry out such research and development and willing to do so at a lower cost.

(b) The above provision does not change the rules for the selection of research and development contractors set forth in FAR Part 35. However, when a U.S. and a foreign source are considered equally competent, the contracting officer will make a determination as to which of the sources will provide the services required at the lowest estimated cost to the Government.

#### Subpart 225.71—Canadian Purchases

##### 225.7101 Mutual Canadian-American interests.

(a) Because of the close geographical proximity of the United States and Canada, and because of the mutual interest of both nations in the defense of North America, various steps have been taken during and since World War II to coordinate their economic efforts in the common defense, so as to achieve:

- (1) Greater integration of military production;
- (2) Greater standardization of military equipment;
- (3) Wider dispersal of production facilities;
- (4) Establishment of supplemental sources of supply; and
- (5) Greater flow of defense supplies and equipment between the two countries.

Accordingly, it is DoD policy to seek the best possible coordination of the materiel programs of Canada and the United States and to assure Canada a fair opportunity to share in the production of military equipment and materiel involving programs of mutual interest to Canada and the United States and in the research and development connected therewith. Accomplishment of these purposes requires (i) the exemption of the restrictions of the Balance of Payment Program and the Buy American Act with respect to acquisitions for public use of supplies mined, produced, or manufactured in Canada in the manner prescribed in Subparts 225.1 and 225.3; and (ii) the Canadian Commercial Corporation, in placing contracts with Canadian or U.S. concerns, to insert suitable provisions in such contracts, obtaining for the Department of Defense the same production rights, data and information that the Department of Defense would

obtain for itself pursuant to the FAR and this supplement if the Department were placing the contracts with U.S. concerns.

##### 225.7102 Agreement with the Government of Canada.

(a) The agreement, dated 27 July 1956, as amended 17 December 1956, 31 May 1957, 6 January 1961, and 15 October 1962, between the Department of Defence Production (Canada) and the Department of Defense (see Appendix T Subpart 2), sets forth policies and provides for the implementation of procedures with respect to all contracts for supplies and services placed with the Canadian Commercial Corporation (an agency of the Government of Canada) on or after 1 October 1956.

(b) Subsequent to the execution of the agreement referred to in (a) above, the reorganization of the Canadian Government's departments and agencies vested the contracting authority of the former Canadian Department of Defence Production in the Department of Supply and Services. Pursuant to that reorganization, the authority of the Department of Defence Production to enter into cooperative development projects under the Memorandum of Understanding (see Appendix T) is vested in the Canadian Department of Industry, Trade and Commerce.

(c) This agreement and associated enabling provisions permit Canadian firms, including Canadian Crown corporations, a fair opportunity to participate in the production of defense equipment and materiel involving defense programs of interest to both nations.

(d) A contract with a supplier or contractor located in Canada should normally be made with and administered through the Canadian Commercial Corporation. (See 225.7104(b).)

(e) In connection with contracts placed with the Canadian Commercial Corporation, the Department of Supply and Services (Canada) provides without charge to the Defense Departments and Agencies, among other things, such contract administration services as cost and pricing analysis, industrial security, accountability and disposal of Government property, production expediting, compliance with Canadian labor laws, processing of termination claims and disposal of termination inventory, customs documentation, processing of disputes and appeals, and such other related contract administration functions as may be required with respect to the Canadian Commercial Corporation contract with the Canadian supplier. Additionally, in connection with such contracts, audits,

when required, are performed by the Audit Services Bureau, Department of Supply and Services (Canada), and the Department of National Defence (Canada) provides inspection personnel, services and facilities, at no charge to the Defense Departments and Agencies.

##### 225.7103 Guarantee by Canadian Government.

The Canadian Government guarantees to the U.S. Government all commitments, obligations, and covenants of the Canadian Commercial Corporation in connection with any contract or order issued to said Corporation by any contracting activity of the U.S. Government. The Canadian Government has likewise waived notice of any change or modification which may be made from time to time in these commitments, obligations, or covenants.

##### 225.7104 Procedures for Canadian Purchases.

###### (a) Bidding Procedures.

###### (1) Solicitation of Canadian firms.

(i) Except as provided in (ii) below, Canadian firms shall be included on bidders mailing lists and comparable source lists only upon request by the Canadian Commercial Corporation. Such requests shall be forwarded by the Canadian Commercial Corporation to the activity having acquisition responsibility for the supplies or services involved.

(ii) Canadian planned producers under the Industrial Readiness Planning Program shall be included on bidders mailing lists for their planned items (see FAR 14.205-1).

(iii) Solicitations shall be sent directly to Canadian firms appearing on the appropriate bidders mailing lists. A complete copy of the solicitation and a listing of Canadian firms solicited shall be sent to the Canadian Commercial Corporation, Export Supply Centre, Ottawa, Ontario, K1A-0S6, Canada.

(iv) Upon request by the Canadian Commercial Corporation, solicitations shall be furnished to it even though no Canadian firms were solicited.

(v) Small purchases (see FAR Part 13) normally should be handled directly with Canadian firms and not through the Canadian Commercial Corporation.

###### (2) Submission of offers.

(i) As indicated in 225.7104(b) below, the Canadian Commercial Corporation should normally be the prime contractor. In order to indicate its acceptance of offers by individual Canadian companies, the Canadian Commercial Corporation issues a letter supporting the Canadian offer and containing the following information: name of the

Canadian offeror; confirmation and endorsement of the offer in the name of the Canadian Commercial Corporation; and a statement that the Corporation shall subcontract 100% with the offeror.

(ii) When a Canadian offer cannot be processed through the Canadian Commercial Corporation in time to meet the bid-opening requirement or the closing date for receipt of proposals, the Corporation is authorized to permit Canadian firms to submit offers directly; *Provided*, That the Canadian offer and the Canadian Commercial Corporation endorsement are both received by the contracting officer prior to bid opening or the closing date for receipt of proposals.

(iii) All sealed bids shall be submitted by the Canadian Commercial Corporation in terms of U.S. currency. Contracts placed as a result of such sealed bidding shall not be subject to adjustment for losses or gains resulting from fluctuation in exchange rates.

(iv) All offers and quotations submitted by the Canadian Commercial Corporation, except those in which competition is obtained, shall be in terms of Canadian currency. However, the Corporation may, at the time of submitting the offer, elect to quote and receive payment in terms of U.S. currency; in which event, contracts arising therefrom shall provide for payment in U.S. currency and shall not be subject to adjustment for losses or gains resulting from fluctuation in exchange rates.

**(b) Contracting procedures.**

(1) Individual contracts covering purchases from suppliers located in Canada, except as noted in (2) below, shall be made with the Canadian Commercial Corporation, which has offices located at the Export Supply Centre, 11 Laurier Avenue, Hull, Quebec, Canada (mail address—Canadian Commercial Corporation, Export Supply Centre, Ottawa, Ontario, K1A-0S6 Canada), and at 2450 Massachusetts Avenue, NW., Washington, DC 20008. Contracts should normally be awarded to and administered through the Export Supply Centre Office in Hull, and all payments under such contracts awarded to the Canadian Commercial Corporation shall be made to that office. Under contracts with the Canadian Commercial Corporation, direct communication with the Canadian supplier is authorized and encouraged in connection with all technical aspects of the contract; *Provided*, however, that the approval of the Corporation shall be obtained on any matters involving changes to the contract.

(2) The general policy in (1) above need not be followed for negotiated purchases for experimental, developmental, or research work unless the contract is for a project under the Defense Development Sharing Program; purchases of unusual or compelling urgency; small purchases; or purchases made by U.S. Defense activities located in the Dominion of Canada.

(3) Prices in the contracts shall identify the type of currency; i.e., United States or Canadian. When contracts provide for payment in Canadian currency, the contract price shall be quoted in terms of Canadian dollars and shall identify the amount by the initials CN; e.g., \$1,647.23CN. The contract shall clearly indicate on its face the US/Canadian conversion rate at the time of award and the US dollar equivalent of the Canadian dollar contract amount.

**(c) Administration procedures.**

(1) The following policy and procedures are applicable only to cost-reimbursement type contracts with Canadian contractors:

(i) On contracts with the Canadian Commercial Corporation (CCC), audits are automatically arranged by the Department of Supplies and Services (DSS) Canada (see 225.7102). Audit reports are furnished to DSS. Upon advice from DSS, the CCC will certify the invoice and forward it with Standard Form 1034 (Public Voucher) to the ACO for further processing (see 242.803(a)) and transmittal to the disbursing officer.

(ii) On contracts placed directly with Canadian firms, audits are requested by the ACO from the Audit Services Bureau (ASB), Ottawa, Ontario, Canada. Invoices are approved by the ASB/DSS auditor on a provisional basis pending completion of the contract and final audit. These invoices, accompanied by Standard Form 1034 (Public Voucher) are forwarded to the ACO for further processing (see 242.803(a)) and transmittal to the disbursing officer. Periodic advisory audit reports are furnished directly to the ACO.

(d) *Termination procedures.* The Canadian Commercial Corporation will continue to administer contracts that may be terminated by the U.S. contracting officer and settle all Canadian subcontracts in accordance with the policies, practices, and procedures of the Canadian Government in the termination and settlement of Department of Defence Production (Canada) contracts. The U.S. agency administering the contract with the Canadian Commercial Corporation shall render such services as are required by the Canadian Commercial Corporation with respect to settlement of any

subcontracts placed in the United States, including disposal of inventory. The settlement of such U.S. subcontracts shall be in accordance with this regulation.

**(e) Acceptance of Canadian supplies.**

Under f.o.b.-origin contracts with the Canadian Commercial Corporation where inspection has been performed by the Department of National Defence (Canada), pursuant to paragraph 6 of the Letter of Agreement (see Appendix T), acceptance of supplies or services which are in accordance with the terms of the contract, shall be made by the Department of National Defence (Canada) on behalf of the Defense Departments and Agencies. Signing of the acceptance certificate on the applicable United States Department of Defense inspection and acceptance form shall be considered satisfactory evidence for payment purposes.

(f) *Industrial security.* Industrial Security for Canada shall be in accordance with 225.7403(d) and pursuant to the United States-Canada Industrial Security Agreement of 31 March 1952, as amended.

**225.7105 Contract administration.**

(a) When services are requested from the Defense Contract Administration Services on contracts to be performed in Canada, the request shall be directed to:

Defense Logistics Agency, Defense Contract Administration Services, Management Area, Ottawa, 365 Laurier Avenue West, Ottawa, Ontario, Canada, K1A 0S5

(b) When contract administration is performed in Canada by Defense Contract Administration Services, the paying office activity to be named in the contract for disbursement of DoD funds (DoD Department Code: 17—Navy; 21—Army; 57—Air Force; 97—All other DoD Components), whether payment is in Canadian or U.S. dollars, shall be:

Disbursing Office, Defense Contract Administration Services Region, Cleveland, 1240 East 9th Street, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

**Subpart 225.72—Military Assistance Program Acquisitions**

**225.7200 Scope of subpart.**

This subpart implements the Military Assistance Program portion of the Foreign Assistance Act of 1961 (section 604, 22 U.S.C. 2354) and the policies set forth in the President's Determination under section 604(a) of the said act (Memorandum of October 18, 1961) and in Executive Order 10973 dated 3 November 1961.

**225.7201 Statutory requirements.**

(a) Section 604(a) of the Foreign Assistance Act of 1961, as implemented, provides that funds made available under the Act shall not be used for acquisition outside the United States except:

(1) To acquire items required for military assistance which are not produced in the United States;

(2) To make local purchases for administrative purposes;

(3) To use local currency available for military assistance purposes; or

(4) Where the Assistant Secretary of Defense (ISA) certifies that exclusion of acquisition outside the United States would seriously impede attainment of Military Assistance Program objectives.

(b) Where a MAP order involves acquisition covered by a certification issued in accordance with (a)(4) above, the Director of Military Assistance, Office of the Assistant Secretary of Defense (International Security Affairs), will specify in the order that the Military Department is authorized to contract offshore.

**225.7202 Procedures.**

The following procedures apply to all contracts for the Military Assistance Program (other than those excepted pursuant to 225.7201) citing funds authorized by the Foreign Assistance Act of 1961, or citing funds made available under Department of Defense Appropriation Acts when it is known at the time of acquisition that the items being acquired are to fill existing Military Assistance Program orders and that DoD appropriations are to be reimbursed from Foreign Assistance Act funds. The requirements of this paragraph do not apply to issues from DoD inventories or to replenishment of such inventories.

(a) *Method of purchase.* Acquisition for the Military Assistance Program shall be restricted to domestic concerns and to U.S. end products as defined in 252.225-7016. The Foreign Assistance Act of 1961 shall not be used as authority to contract without full-and-open competition under 10 U.S.C. 2304(c)(5).

(b) *Certificate.* When the acquisition is solely to fill existing Military Assistance Program orders, the solicitation shall so state. When the acquisition consists of both Military Assistance Program items and Non-Military Assistance Program items, the solicitation shall clearly designate the Military Assistance Program items. In either instance, the solicitation shall require that each offer for end products include either the certificate at 252.225-

7000 or the certificate at 252.225-7005 and the certificate at 252.225-7015.

**225.7203 Exemptions from examination of records requirement.**

(a) *General.* Military Assistance Program purchases authorized to be made outside the United States under the Foreign Military Sales Act of 1968, as amended, and the Arms Export Control Act of 1976, as amended, are exempt (Executive Order No. 11223, dated 12 May 1965) from the requirement for examination of records by the Comptroller General (10 U.S.C. 2313(b) and section 3(b), Pub. L. 85-804) in the following circumstances:

(1) Contracts with foreign contractors (including foreign governments) to be performed outside the United States; and

(2) Contracts, and amendments and modifications thereof, entered into pursuant to Pub. L. 85-804 (see FAR Part 50). *Provided*, That the Department concerned shall make a determination that it is impracticable to include the Examination of Records clause or to obtain compliance therewith; such determinations may be made by any officer or official authorized to approve contracts, and amendments and modifications thereof, pursuant to FAR Part 50.

(b) Notwithstanding the exemptions permitted above, the contracting officer, where practicable, shall include the Examination of Records clause in contracts covered in (a)(1) above.

**225.7204 Department of Defense audit and records.**

Contracts exempted under 225.7203(a)(1) from the requirement for examination of records by the Comptroller General shall nevertheless include the clause at FAR 52.214-26, Audit—Sealed Bidding or at FAR 52.215-2, Audit—Negotiation, as appropriate, in accordance with the requirements of that paragraph.

**225.7205 Contract provision and clause.**

(a) The provision at 252.225-7015, United States Products Certificate (Military Assistance Program), shall be inserted in all solicitations which, in whole or in part, are subject to this subpart 225.72 under the conditions at 225.7202(b).

(b) The clause at 252.225-7016, United States Products (Military Assistance Program), shall be inserted by the contracting officer in all solicitations and contracts which call for end products which, in whole or in part, are subject to this Subpart 225.72, unless excepted pursuant to 225.7201 and in all

solicitations which include the provision at 252.225-7015.

**Subpart 225.73—Acquisitions for Foreign Military Sales****225.7300 Scope of subpart.**

This subpart sets forth policies and procedures applicable to acquisitions made for the purpose of Foreign Military Sales (FMS) pursuant to the Arms Export Control Act. It does not apply to Foreign Military Sales made from inventories or stocks, to acquisitions for replenishment of inventories or stocks, or acquisitions made under DoD Cooperative Logistic Supply Support Arrangements. An FMS Agreement is an accepted Letter of Offer and Acceptance which is the document by which the U.S. Government agrees to sell defense articles and services to a foreign government or international organization.

**225.7301 Applicable statutory provisions.**

(a) *Contract authorization.*

(1) Pursuant to section 22 of the Arms Export Control Act (Pub. L. 90-629, as amended), the Department of Defense is authorized to enter into contracts for purposes of resale to foreign countries or international organizations.

(2) The Act provides in part that:

(i) The President may, without requirement for charge to any appropriation or contract authorization otherwise provided, enter into contracts for the acquisition of defense articles or defense services for sale for U.S. dollars to any foreign country or international organization if such country or international organization provides the U.S. Government with a dependable undertaking (A) to pay the full amount of such contract which will assure the U.S. Government against any loss on the contract; and (B) to make funds available in such amounts and at such times as may be required to meet the payments required by the contract and any damages and costs that may accrue from the cancellation of such contract, in advance of the time such payments, damages, or costs are due. Interest shall be charged on any net amount by which any such country or international organization is in arrears under all of its outstanding unliquidated dependable undertakings, considered collectively. The rate of interest charged shall be a rate not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding short-term obligations of the United States as of the last day of the month preceding the net

arrears and shall be computed from the date of net arrears.

(ii) The President may, if he determines it to be in the national interest, issue letters of offer under section 22 of the Arms Export Control Act, as amended, which provides for billing upon delivery of the defense article or rendering of the defense service and for payment within 120 days after the date of billing. This authority may be exercised, however, only if the President also determines that the emergency requirements of the purchaser for acquisition of such defense articles and services exceed the ready availability to the purchaser of funds sufficient to make payments on a dependable undertaking basis and submits both determinations to the Congress together with a special emergency request for authorization and appropriation of additional funds to finance such purchases under this Act.

(b) *Commercial availability.* DoD policies and procedures with respect to commercial availability are contained in the Military Assistance and Sales Manual (DoD Manual 5105.38-M), Part III, Chapter H, entitled *Commercial Availability*, published by the Defense Security Assistance Agency. (See DoD Manual 5105.38-M.)

#### 225.7302 Applicability.

The FAR and this supplement shall apply to all purchases and contracts made by the Department of Defense in support of Foreign Military Sales.

#### 225.7303 Preparation of DoD offer and acceptance, DD Form 1513.

(a) DD Form 1513 lists the items and/or services, estimated costs, the terms and conditions of sale, and provides for the foreign government's signature to indicate acceptance.

##### (b) *Procedures.*

(1) In connection with each Foreign Military Sale expected to involve a contract in excess of \$10,000 which cannot be placed on the basis of price competition (as, for example, when the foreign customer has designated only one source as acceptable), before the Department of Defense furnishes prices for information purposes to potential foreign customers, prices, delivery and other relevant information shall be requested from the prospective source, and such request shall state that it is for information for the purpose of a potential Foreign Military Sale and shall identify the customer.

(2) As a general rule on FMS programs requiring new acquisitions, the contracting officer should participate in the preparation of Price and Availability Data to support the tendering of the DoD

Offer and Acceptance (DD Form 1513) by the U.S. Government to foreign countries and international organizations. In addition to the identification and review of sales commissions and fees, the contracting officer shall request contractors to identify in advance of the DoD Offer and Acceptance any unusual provisions or deviations, particularly those proposed for the contract which could affect the prices quoted. Such unusual contractual requirements shall also be identified in the submittal of the price and availability data to the Departmental activity responsible for providing the DoD Offer and Acceptance to the foreign country. If the Departmental activity expands, modifies or does not accept such requirements, the contractor shall be advised prior to the submission of the offer to the foreign country.

(3) Whenever applicable, the contracting officer shall request contractors to identify any anticipated logistic support necessary in order to perform the contract.

#### 225.7304 Pricing acquisitions for foreign military sales.

(a) *General.* When the Department of Defense undertakes purchasing for sale to a foreign country which has committed itself to bear the cost of the acquisition, the Department of Defense assumes responsibility to see to it that no more than a fair price is paid for the acquisition. Accordingly, FMS contracts shall be priced on the same principles and with the same care as are used in pricing normal defense contracts. This does not mean that prices of normal defense contracts for an item are automatically applicable to FMS contracts for the same item. On the contrary, application to FMS contracts of the pricing principles established by FAR Part 15 and FAR Part 31 may require pricing results that differ from normal defense contract prices for the same item because certain kinds of costs may reasonably and allocably arise in different amounts for the former than for the latter. In this regard, known FMS requirements shall be separately identified in solicitations.

(b) *Commercial sales to foreign customers.* If the contractor has made sales of an item to foreign customers under comparable conditions, including quantity and delivery, the pricing of FMS contracts shall be in accordance with FAR Part 15.

(c) *Cost of doing business with a foreign government or an international organization.*

(1) In pricing FMS contracts, where non-U.S. Government prices as

described in (b) do not exist, recognition should be given to costs of doing business with a foreign government or international organization (even though the form of the transaction is a defense purchase for the purpose of FMS) whenever comparable costs of doing business with the United States would be recognized in pricing normal defense contracts. Thus, recognition should be given to reasonable and allocable costs, even though such costs might not be recognized in the same amounts in pricing normal defense contracts. Examples of such costs include, but are not limited to, the following:

(i) Selling expenses (not otherwise limited by FAR Part 31); e.g.: organizations;

(A) Maintaining international sales and service organizations;

(B) Sales commissions and fees in accordance with FAR Subpart 3.4;

(C) Sales promotions, demonstrations, and related travel for the purposes of sales to foreign governments; however, such costs shall not be recovered against U.S. Government contracts for U.S. Government requirements. These expenses may be recovered; *Provided*, That when required by paragraph 123.16 of the International Traffic in Arms Regulations (ITAR) (22 CFR Part 121), such promotion or demonstration has received U.S. Government approval.

(D) Configuration studies and related technical services undertaken as a direct selling effort to a foreign country.

(ii) Product support and postdelivery service expenses; e.g.:

(A) Operations or maintenance training, training or tactics films, manuals, or other related data;

(B) Technical field services provided in a foreign country related to accident investigations, weapon system problems, operations/tactics enhancement, and related travel to foreign countries.

(iii) Costs associated with the implementation of DoD offset arrangements.

(iv) Costs that are the subject of advance understanding, in accordance with the appropriate provisions of FAR Part 31, or where the advance understanding places a limit on the amounts of cost that will be recognized allowable in defense contract pricing, and the understanding contemplated that it will apply only to DoD contracts for the U.S. Government's own requirements (as distinguished from contracts for FMS).

(2) Costs that are not allowable under FAR Part 31 are not allowable in pricing FMS contracts.

(3) The provisions of Section 203, Pub. L. 91-441, do not apply to contracts for Foreign Military Sales. Therefore, the ceiling limitations or the formula constraints on bid and proposal (B&P) costs incorporated in Part 231, and on independent research and development (IR&D) costs incorporated in Part 231 shall not be applicable to contracts for Foreign Military Sales. IR&D and B&P costs allowed on contracts for Foreign Military Sales shall be limited to their allocable share of the total expenditures. In pricing contracts for Foreign Military Sales, the best estimate of reasonable costs shall be used in forward pricing. Actual expenditures, to the extent that they are reasonable, shall be used in determining final cost.

(4) Pursuant to section 21(e)(1)(A) of the Arms Export Control Act, as amended, the United States shall make appropriate charges for administrative services in order to recover the estimated cost of administration of sales made under the Arms Export Control Act.

(d) *Government-to-government agreements.* In the event a government-to-government agreement between the United States and a foreign government, for the sale, coproduction, or cooperative logistic support of a specifically defined weapon system, major end item or support item, contains language in conflict with the provisions of (a) through (c) above, the language of the government-to-government agreement shall prevail.

#### 225.7305 Sales commissions and contingent fees on foreign military sales.

(a) *Scope.* This section provides policies and procedures for determining the applicability and allowability of sales commissions and contingent fees on FMS purchases. It supplements the policies contained in 225.7304(c)(1)(i), FAR Part 31, and FAR Subpart 3.4.

(b) *Policy.* Sales commissions and contingent fees are allowable under defense contracts; provided that, in accordance with FAR Part 31 and FAR Subpart 3.4, the commissions or fees are paid to a bona fide employee or a bona fide established commercial or selling agency maintained by the prospective contractor (hereinafter referred to as contractor) for the purpose of securing business (but see 225.7305(f)). For FMS, it is extremely difficult for the Department of Defense to verify the services rendered or the value of services by bona fide employees or bona fide established commercial or selling agencies. Therefore, it is the policy of the Department of Defense that the allowable cost of sales commissions and contingent fees (as defined in FAR

Subpart 3.4) anticipated to be included in FMS contracts is limited to \$50,000, and such fees or commissions shall be made known to the purchasing government prior to or in conjunction with the submission of the DoD Offer and Acceptance (DD Form 1513) to that government.

#### (c) *DoD offer and acceptance procedures.*

(1) In submitting an Offer and Acceptance to a foreign government which is known to contain a sales commission or fee, the Department of Defense will include:

(i) The name and address of the sales representative;

(ii) The estimate of the proposed fee, along with a statement as to the percentage of sale involved if such fee is based on a percentage of the sale price; and

(iii) A statement indicating one of the following, whichever is applicable:

(A) Appropriate officials within the U.S. Department of Defense consider the fee to be fair and reasonable;

(B) In the event only a portion of the proposed fee is considered fair and reasonable, a statement to this effect, together with the rationale therefor; or

(C) The U.S. Department of Defense cannot determine reasonableness of the proposed fee.

The notification in the Offer and Acceptance may also include the contractor's explanation of or justification for the proposed charge, together with any other data which may be requested by the purchasing government.

(2) The Offer and Acceptance also will include a statement to the effect that acceptance of the offer by the purchasing government, after receipt of the appropriate notification outlined above, will constitute that government's approval of the sales commission or fee involved. No fee shall be accepted by the Department of Defense if disapproved by the purchasing government.

(3) There may be occasions, as when FMS requirements are to be fulfilled by competitive acquisitions, when it is not possible to determine prior to presentation of the Offer and Acceptance whether or not the price to be paid for material or services will include sales commissions and fees. In such cases, the purchasing government will be notified (by DoD officials responsible for presentation of the Offer and Acceptance) as soon as possible if subsequent contract negotiations indicate that a sales representative's charges will be claimed by the contractor. This notification will include

the information outlined in (1) above, along with an indication that the Department of Defense will determine whether or not to accept such costs as a valid charge to the contract, unless contrary notification is received from the purchasing government within 30 days of the date of the notification.

(4) If in making the determination required by FAR Subpart 3.4 and (d)(3), the responsible contracting official determines that a sales representative is not bona fide for reasons other than reasonableness of fee, no Offer and Acceptance will be tendered pending withdrawal by the prospective contractor of the fee for such sales representative from his proposal.

#### (d) *Applicability and allowability of sales commissions or fees.*

(1) When a contracting officer is requested to obtain price and availability data from a contractor to support the tendering of an Offer and Acceptance, he shall require the contractor to identify the amount of any sales commissions or fees. Allowable costs for sales commissions or fees applicable to contracts for FMS shall not exceed \$50,000 per contract (including all modifications and subcontracts thereto) for each foreign customer served by that contract. Although commissions and fees may be less than \$50,000 per contract, all such commissions and fees must be justified and supported, based on the criteria in (2) below. If deviations to this policy are considered necessary, FAR 1.4 shall apply. In addition, sales commissions or fees shall not be allowed for follow-on spares provided under DoD Cooperative Logistic Supply Support Arrangements.

(2) In order to provide the appropriate notice and advice regarding sales commissions and fees to a foreign government at the time an Offer and Acceptance is submitted, the contracting officer, except with respect to those contracts excluded in FAR Subpart 3.4, shall:

(i) Require the contractor to submit a Contractor's Statement of Contingent or Other Fees (Standard Form 119) (including any such fees claimed by subcontractors);

(ii) Determine under FAR Subpart 3.4 whether a bona fide employee or agency relationship exists (for the purposes of FMS, the definition in FAR Subpart 3.4 of improper influence also extends to officials of the foreign government);

(iii) Require the contractor to submit a breakdown of the fee related to the services performed by the sales representative. Even though a bona fide employee or agency relationship is determined to exist, the basic test of

reasonableness for the purposes of making the statement required by 225.7305(c)(1)(iii) is an assessment of the services provided, or to be provided, compared to the amount of the fee. In addition to the fee breakdown of services, a comparative analysis may be made of the proposed fee/commission with recent payment for comparable services under commercial sales (non-FMS) of the same or similar items, and sales commissions and fees allowed on previous FMS sales of comparable scope and dollar amounts. In analyzing the fee, consideration should be given to whether the sale is the initial or follow-on sale because the effort for follow-on sales of additional quantities, spares and support equipment would not normally be as great as the effort for the initial sale.

(3) The PCO shall make a determination with respect to a bona fide employee or agency relationship and reasonableness of the commission or fee (i.e., one of the 225.7305(c)(1)(iii) fee statements), subject to the approval of the chief of the contracting office.

(e) *Contracting procedures relating to sales, commissions and fees.* If, after notification by DoD officials responsible for presentation of the Offer and Acceptance to a foreign government as required by (c) above, the foreign government disapproves the fee, or a portion of the fee, the contracting officer shall notify the prospective contractor and request withdrawal of the fee for the sales representative from the proposal. Should the contractor refuse to withdraw the fee, the Department of Defense will notify the foreign government that the Department of Defense is unable to purchase the items or services from that contractor.

(f) *Special country requests with respect to sales commissions and fees.* Pursuant to DoD Manual 5105.38-M (Military Assistance and Sales Manual), Letters of Offer and Acceptance for requirements for the governments of Australia, Taiwan, Egypt, Greece, Iran, Israel, Japan, Jordan, Republic of Korea, Kuwait, Pakistan, Philippines, Saudi Arabia, Turkey, Thailand, United Arab Emirates, or Venezuela (Air Force) are required to provide that all U.S. Government contracts resulting from the Letters of Offer shall prohibit the payment of sales commission and fee unless such payments have been identified and payment thereof approved in writing by the government involved before contract award. Therefore, the contracting officer shall on behalf of these purchasers, insert the clause at 252.225-7017, Limitation of Sales Commissions and Fees for Foreign

Governments, in all solicitations and contracts for FMS requirements unless such payment has been approved.

#### 225.7306 Recovery of nonrecurring costs.

(a) *Policy.* It is the policy of the Department of Defense to recover a fair share of its investment in nonrecurring costs related to defense products, and/or a fair price for its contribution to the development of related technology, when such products are sold and when technology relating to the manufacture of the products is sold or licensed to a foreign government, international organization, foreign commercial firm, or domestic organization. Furthermore, in selected cases, it is DoD policy to recover, on behalf of a foreign government or international organization, a fair share of the nonrecurring costs for a special feature or product paid by the foreign government or international organization under a foreign military sales case when subsequent customers purchase the same specialized feature.

##### (b) *Applicability.*

(1) This policy applies to those products and technologies for which investment costs equal or exceed \$5 million for any of the following:

(i) Nonrecurring research, development, test, and evaluation (RDT&E) costs to develop defense products and related technology. The determination of RDT&E costs shall be based upon the current and predecessor models of an item or equipment.

(ii) Nonrecurring production costs.

(iii) RDT&E and nonrecurring production costs for special features under a foreign military sale, when requested by the FMS customer and agreed to by the U.S. Government.

(2) In the event an end item contains one or more components which individually meet the above thresholds, recoupment will be made on a component when sold separately.

(3) In the case of product sales, if the dollar threshold is met for either nonrecurring RDT&E or production costs, recoupment for both categories of investment costs will be charged.

(c) *Procedures.* Charges shall be computed and assessed by the DoD officials responsible for presentation of the DD Form 1513. Such charges shall not be included in the contractor's proposed price.

#### 225.7307 Source selection.

(a) Purchases for FMS customers shall be implemented under normal acquisition and contract management procedures set forth in the FAR and this supplement, and other directives. However, the FMS customer may

request that a defense article or defense service be obtained from a particular prime source. In such cases, FAR 6.302-4 provides authority to contract without full-and-open competition. The FMS customer may also request that a subcontract be placed with a particular firm. The contracting officer shall honor such requests from the FMS customer only as specified in the Letter of Agreement or other written direction by the military sales organization.

(b) Representatives of the FMS customer shall not be permitted to direct the deletion of names of firms from bidders mailing lists or slates of proposed A-E firms. They may, however, suggest that certain firms be included. Contracting offices shall not accept directions from the FMS customer as to source selection decisions or contract terms (other than the special contract provisions and warranties referred to in Condition A.2 of the DD Form 1513), nor shall the FMS customer be permitted to interfere with a prime contractor's placement of his subcontracts. Requests by the FMS customer for rejection of any bid or proposal shall not be honored unless the rejection is justified on the basis of reasons which would be sufficient in the case of a purchase by the Department of Defense to meet its own needs.

#### 225.7308 Limitation of Liability.

In acquisitions for FMS, the foreign purchaser shall be advised that the appropriate Liability clause(s) (see FAR Subpart 46.8) is included in the FMS contract (see Condition C on the DD Form 1513). If the foreign customer does not agree to assume the risk for loss or damage as provided in the clause(s) and objects to the inclusion of such clause(s) in the Offer and Acceptance, the contractor shall be so advised. The costs of necessary insurance, if any, to be obtained by the contractor to cover such risk of loss or damage shall be considered in establishing the FMS contract price of such items.

#### 225.7309 Exercise of options for foreign military sales.

Exercising an option to satisfy an FMS requirement may introduce the need to consider changes to costs and profit attributable to pricing differences between U.S. and FMS contract requirements. Such consideration may also be necessary if the option is already identified for FMS but it is exercised for country B requirements instead of the country A requirements to which it was priced. In order to provide for and better permit the inclusion of priced options in the contract and their

subsequent exercise for FMS requirements whether or not the specifics are fully known at the time of award, the contracting officer should consider the use of the clauses prescribed at 217.207(S-70).

**225.7310 Implementation of offset arrangements negotiated pursuant to foreign military sales agreements.**

(a) *Scope.* This section sets forth policies and procedures concerned with the fulfillment of Department of Defense offset arrangements negotiated pursuant to an FMS agreement. An "FMS/offset arrangement" is that which is negotiated pursuant to an FMS agreement wherein the Department of Defense agrees to place on a contractual basis and consistent with the guidance in 225.7310(b)(2), a certain percentage of the FMS agreement dollar value or a stated dollar objective in that country with which the FMS agreement has been negotiated. The purpose of an FMS/offset arrangement is to fulfill commitments negotiated pursuant to an FMS agreement. Australia, Belgium, Denmark, Netherlands, Norway, and Switzerland have FMS/offset arrangements negotiated pursuant to FMS agreements. However, Belgium, Denmark, Netherlands, and Norway are also participating NATO countries and are accorded preferences under Subpart 225.74.

(b) *General.*

(1) Since May 4, 1978, it has been DoD policy not to enter into government-to-government offset agreements because of the inherent difficulties in negotiating and implementing such arrangements. Exceptions to this policy must be approved by the Secretary of Defense or his Deputy and will only be made when there is no feasible alternative to ensure the successful completion of FMS transactions considered to be of significant importance to the national security interests of the United States.

(2) When authorized, offset provisions typically require the Military Departments or U.S. prime contractors, or both, to identify items for which foreign sources may obtain contracts up to a specified offset level and in accordance with the terms and conditions of the particular DoD offset agreement. Normally, FMS/offset arrangements should be negotiated prior to the FMS agreement Offer and Acceptance in order that the Department of Defense and its prime contractors will have an opportunity to assess in advance the DoD's or contractor's ability to fulfill the FMS/offset arrangement, and include in the offer those DoD and contractor costs associated with such arrangements.

(3) If an exception is granted pursuant to paragraph (1) above, the policy of the Department of Defense is that the domestic concerns involved in the FMS and the foreign customer will make suitable arrangements to fulfill an FMS/offset arrangement. Only if it is determined that the FMS/offset arrangement cannot be fulfilled in this fashion will the Department of Defense seek to fulfill the offset commitments through other defense purchases. When practical, the U.S. prime contractor shall be contacted and coordination obtained prior to the Government's committing the U.S. prime contractor's participation.

(4) The Defense Security Assistance Agency (DSAA) acts as the focal point within the Executive Branch for interagency coordination on offset policy in consultation with the Office of the Assistant Secretary of Defense (International Security Affairs), from which DSAA derives overall policy guidance. The Office of the Assistant Secretary of Defense (Acquisition and Logistics) (OASD(A&L)) is responsible for matters pertaining to the fulfillment of the offset portion of FMS agreements. General information regarding the existence of FMS/offset arrangements with particular countries or implementation of such arrangements may be obtained by submitting inquiries through the Departments to the Director for International Acquisition, OASD(A&L)(P)(IA).

(c) *Procedures.*

(1) Whenever an FMS agreement involves a single major weapon system, the Department responsible for acquisition of the weapons system will be responsible for managing any resulting FMS/offset arrangement. If an FMS agreement involves the sale of items from two or more Departments, OASD(A&L) may either direct that one Department be responsible for coordinating the implementation of the FMS/offset arrangement, or apportion responsibility for managing the offset program among two or more Departments. Such management includes (i) the development of special contractual provisions consistent with (4) below; (ii) the consideration of other DoD contract items for competition by foreign sources (to the extent other defense purchasing is involved or becomes necessary); and (iii) the obtaining of appropriate exemptions by the Secretary of the purchasing Department concerned from the Buy American Act under FAR 25.102, the Balance of Payments Program, duty and other applicable acquisition restrictions on a purchase-by-purchase basis of defense equipment. (See sample Determination and Findings set forth in

(2)(i) below for the exemption of the Buy American Act.) Even though a Military Department or Defense Agency is not responsible for the management of a certain FMS/offset arrangement, it will consider, for competitive acquisitions, offers of defense equipment from FMS/offset arrangement country sources.

(2) Solicitation of FMS/offset arrangement country sources shall be accomplished using procedures like those set forth in 225.7403(a)(1) for participating countries (see also 225.402(b)). When soliciting sources outside the United States, international air mail shall be utilized where security classification permits. See 214.202-1, FAR 14.209-1, and FAR 15.408(c). For the purpose of evaluating an FMS/offset arrangement country offer, it shall be treated as if it were a participating country offer and evaluated in accordance with 225.7403(a)(3). If after such evaluation, it is clear that the FMS/offset arrangement country offer is low or otherwise eligible for award, the contracting officer shall request from the Secretary of the Department concerned the appropriate exemptions for the acquisition as set forth in (2)(i) below. The list set forth at 225.7405 shall also apply to FMS/offset arrangement countries as shall 225.402(b).

(i) To obtain an exemption, under FAR 25.102, of the Buy American Act, the contracting officer shall process a Determination and Findings for the signature of the Secretary of the Department or Agency concerned. The Determination and Findings shall be substantially as follows for end items, or modified as necessary for components.

**Service or Agency Exemption of the Buy American Act (41 U.S.C. 101a-d) Determination and Findings**

Upon the basis of the following findings and determination which I hereby make in accordance with the provisions of FAR 25.102, acquisition of an (FMS/offset arrangement country) (describe item) may be made as provided below.

**Findings**

1. The (Contracting Activity) proposes to purchase \_\_\_\_\_, under contract number \_\_\_\_\_, mined, produced or manufactured in (country of origin). The total estimated cost of this acquisition is \_\_\_\_\_.

2. The United States Government (USG) and the Government of \_\_\_\_\_ have entered into an FMS/offset arrangement whereby the Government of \_\_\_\_\_ will purchase US defense articles and services and the USG, through the Department of Defense (DoD), if necessary, will offer potential DoD requirements suitable for purchases of (FMS/offset arrangement country) defense items.

3. The Agreement provides that competitive offers of (FMS/offset

arrangement country) end products will be evaluated by the Department of Defense without imposing any price differential under the Buy American Act or Balance of Payments Program and without taking applicable U.S. customs and duties into consideration so that (FMS/offset arrangement country) items may better compete, for sales of defense equipment to the Department of Defense. In addition, the Agreement stipulates that acquisitions of (FMS/offset arrangement country) items must fully satisfy Department of Defense requirements for performance, quality, and delivery and shall cost the Department of Defense no more than would comparable U.S. source or other foreign source defense equipment eligible for award.

4. In order to achieve the above objectives, the solicitation contained the Buy American Act and Balance of Payments Program clause, 252.225-7001, or the Buy American Act, Trade Agreements Act, and the Balance of Payments Program clause, 252.225-7006 which state that an exemption from the application of the Buy American Act may be granted by the Secretary of the Department concerned. Offers were solicited from other sources and the offer received for an (FMS/offset arrangement country end item) is found to be acceptable.

#### Determination

Pursuant to the Buy American Act (41 U.S.C. 10a-d), I hereby determine that it is inconsistent with the public interest to apply the restrictions of the Buy American Act to the proposed offer.

(Date)

(Secretary of Department)

(3) To assure that the policy of 225.602 is carried out regarding the issuance of duty-free entry certificates, the contracting officer shall include the clauses at FAR 52.225-10, Duty-Free Entry, and 252.225-7007, Supplies to be Accorded Duty-Free Entry, in contracts which either contribute, or anticipate to contribute, to the fulfillment of an FMS/offset arrangement.

(4) The clause set forth at 252.225-7018, Offset Arrangement, shall be used in a contract when the domestic concern involved in the Foreign Military Sale has accepted responsibility for accomplishing any portion of an FMS/offset arrangement. (Paragraph (a) of the clause should be modified as necessary to state any special terms and conditions of the FMS/offset arrangement, such as competitive prices or otherwise, period of offset accomplishment, special type or nature of offset required, and so forth.)

(5) When an FMS/offset arrangement program is structured to provide offset potential on a number of DoD purchases, as opposed to only within the prime FMS contracts, DoD solicitations which contemplate proposals of FMS/

offset arrangement country end products should indicate that the price evaluation of offers will be accomplished without the application of the Buy American Act or the Balance of Payments Program differentials or duty, which would otherwise be applied to the price evaluation in accordance with other paragraphs of this Part 225. If on the basis of such evaluation, an offeror proposing an end product from an FMS/offset arrangement country source is low, the matter will be forwarded to the Secretary of the Department for consideration as to whether it would be in the public interest to exempt the end product from the restrictions of the Buy American Act (see FAR 25.102) and the Balance of Payments Program regulations. FMS/offset arrangement country sources, in competing for DoD purchases under a DoD FMS/offset program, must be responsive to the terms and conditions of DoD solicitations unless otherwise specifically provided for in the FMS/offset arrangement with the FMS/offset arrangement country. DoD contracting activities must also comply with all other laws and regulations governing foreign purchases, such as security restrictions and disclosure of information to foreign nationals.

(6) In a general FMS/offset arrangement which contemplates foreign competition with U.S. sources for defense contracts (as opposed to one structured to be accomplished within the FMS prime contracts for that sale), the preferable procedure is to require the foreign government to propose, from time to time, specific defense-related items which appear susceptible to competition by companies in that country. When such proposals are made, the foreign government will include the names and addresses of the foreign sources which that foreign government considers qualified to perform the work. However, in order to ensure fulfillment of the FMS/offset arrangement within the specified time limits, the Departments are also expected to exercise initiative in seeking out items which might be suitable for such foreign competition and in making arrangements through the foreign government, if necessary, to identify suitable sources.

(d) *Quality Assurance Agreement with Australia.* The Department of Defense of the United States and the Department of Defense of Australia have agreed to provide to each other, quality assurance services upon request for all contracts involving defense supplies and services in accordance with the terms of the Details of Agreement (D of A), Mutual Acceptance

of Government Quality Assurance. (See Appendix T-101.1 and 246.406(73).)

#### 225.7311 Use of Government production and research property on work for foreign governments or international organizations.

See 245.405.

#### 225.7312 Exclusionary policies and practices of foreign governments.

All contracts for the purchase of goods or services for Military Assistance Programs (MAP), International Military Educational Training (IMET), and Foreign Military Sales (FMS) shall include the clause in 52.225-7019, Exclusionary Policies and Practices of Foreign Governments.

#### 225.7313 Nonapplicability of rates under 49 U.S.C. section 10721 (formerly "Section 22 Rates").

(See FAR 47.104-2.)

#### 225.7314 Specific FMS/offset agreements.

Specific FMS/offset agreements are included in Appendix T, Subpart 1.

#### Subpart 225.74—Purchases From NATO Participating Country Sources

##### 225.7400 Scope of subpart.

This subpart implements the Memoranda of Understanding (MOU) between the United States and participating countries.

##### 225.7401 Policy.

In order to increase the defense capabilities of NATO through more efficient cooperation in the field of research and development, production, and acquisition of defense equipment, the United States has entered into Memoranda of Understanding with Canada, the Federal Republic of Germany, the Government of Italy, the United Kingdom of Great Britain and Northern Ireland (U.K.), the Government of Norway, the Kingdom of the Netherlands, the Government of Portugal, the Government of Belgium, the Government of Denmark, the Government of France, the Government of Turkey, the Government of the Grand Duchy of Luxembourg, and the Government of Spain. The objective of each MOU is to facilitate the defense of North America and Europe so as to achieve:

(a) Greater cooperation in research, development, acquisition, and production;

(b) The most rational use of their respective industrial, economic, and technological resources;

(c) The greatest attainable military capability at the lowest possible cost; and

(d) Greater standardization and interoperability of their weapon systems. Accordingly, it is DoD policy to seek the best possible coordination of the materiel programs between the participating countries and the United States and to ensure that sources from participating countries are provided every opportunity to compete on a fair and equal basis with U.S. sources for research and development and for production contracts consistent with 225.7402(b). Accomplishment of this policy requires exemption of foreign acquisition restrictions with respect to all items of defense equipment from participating countries. (See also 225.402(b).)

#### **225.7402 MOUs with NATO participating countries.**

(a) The MOUs set forth acquisition policies with respect to defense equipment from sources in participating countries.

(b) *Applicability.* This subpart applies except where restricted by (1) provisions of U.S. National Disclosure Policy (NDP), DoD Directive 5230.11; (2) U.S. defense mobilization base requirements as specified in 208.73, 208.74, and 208.75; (3) U.S. laws or regulations (e.g., the annual DoD Appropriations Act (225.70); and (4) U.S. Industrial Security Requirements.

#### **225.7403 Procedures for purchases from participating countries**

(a) *Solicitation procedures.*

(1) *Solicitation of sources in participating countries.*

(i) Participating country sources shall be included on bidders mailing lists and comparable source lists upon request by such sources in accordance with the procedures in FAR 14.205. Requests of this nature should be forwarded by participating country sources to the activity having acquisition responsibility for the supplies involved.

(ii) The normal criteria for soliciting and making awards under FAR Part 19 for small business concerns and FAR Part 20 for labor surplus area firms shall be utilized without regard to the fact that there are potential participating country sources for the end product, except items developed under the U.S./Canadian Development Sharing Program. Offers of a foreign end product shall not be considered on any acquisition, or part thereof, identified for the exclusive participation for such firms.

(iii) Solicitations shall be sent directly to participating country sources appearing on the appropriate bidders mailing list except when restricted by

225.105, 225.7402(b), 225.7405 and (ii) above. In addition, Canadian sources shall also be solicited through the Canadian Commercial Corporation in accordance with 225.7104. When solicitation destinations are outside the United States, international air mail shall be utilized where security classification permits (see FAR 14.202 and FAR 14.203).

(iv) Upon request, solicitations shall be furnished to the embassy or other designated place or representative of the participating country.

(v) If unusual technical or security requirements would preclude the acquisition of otherwise acceptable defense equipment from participating country sources, the need for such requirements should be specifically reviewed. Under no circumstances will unusual technical or security requirements be imposed solely for the purpose of precluding the acquisition of defense equipment from participating countries.

(vi) Participating country sources shall not be automatically excluded from submitting offers because their supplies have not been tested and evaluated by a Department. Departments which find it necessary to limit solicitations to sources whose items have been service tested and evaluated by the department shall make provision for considering supplies from participating country sources which have been tested and accepted by the participating country for service use, subject to U.S. confirmatory test, if necessary. Where it appears that these provisions might adversely delay service programs, the concurrence of the Department of Defense Acquisition Executive, USDRE, shall be obtained prior to exclusion of the participating country item from consideration. Sufficiency of participating country service testing should be considered on a case-by-case basis. When confirmatory tests of participating country end products are deemed necessary by the department, U.S. test and evaluation standards, policies, and procedures shall apply.

(vii) Subject to 225.7402(b), industry representatives from a participating country shall be permitted to attend symposia, program briefings, prebid conferences (FAR 14.207 and FAR 15.409), and like meetings which address U.S. defense equipment needs and requirements. When practical, these meetings should be structured so as to allow attendance by representatives of participating country concerns.

(2) *Submission of offers.* Participating country sources competing for DoD requirements must be responsive to the

terms and conditions of DoD solicitations.

(3) *Evaluation of offers from participating country sources.*

(i) In furtherance of the objectives set forth in 225.7401, the Secretary of Defense has determined that it is inconsistent with the public interest to apply the restrictions of the Buy American Act and the Balance of Payments Program with respect to acquisition of defense equipment (for items for civil works activities, see 225.105(S-75)) which is mined, produced, or manufactured in a participating country.

(ii) In accordance with the above, offers of participating country end products shall be evaluated without the application of the price differentials normally applied pursuant to the Buy American Act and Balance of Payments Program requirements contained in 225.105 and subpart 225.3. This exemption shall further include the following consideration: In the event that a domestic offer, a participating country offer, and a nonqualifying country offer compete for defense equipment, the participating country offer shall be evaluated without applying the price differentials of 225.105, whereas the nonqualifying country offer shall be subjected to the price differentials. (See 225.105(S-72), Example E.) However, in the event that the low domestic offer exceeds the evaluated price of the nonqualifying country offer, all foreign offers shall be evaluated as if no domestic offer was submitted. (See 225.105(S-72), Example F.) In the event that a participating country offer competes against a nonqualifying country offer and no domestic offer is submitted, the participating country offer shall be evaluated on an equal basis with the nonqualifying country offer. (See 225.105(S-72), Example G.) Participating countries are listed at 225.7401.

(iii) As to any end product that is manufactured in the United States, all components from participating countries are treated as components mined, produced, or manufactured in the United States for the purpose of determining whether the end product is a domestic source end product.

(iv) In keeping with the policy to enhance cooperation with the participating countries, U.S. duty-free entry shall be accorded supplies from participating countries by the issuance of duty-free entry certificates. Offers of defense equipment from participating country sources shall be evaluated without application of duty. Such duty-free entry shall be accorded whenever

such supplies are acquired at a prime contract or at a subcontract level. (See also 225.602 for postaward circumstances of fixed-price type contracts.) The resulting contract shall include the appropriate clause(s) referenced in 225.605.

(v) If, when evaluated in accordance with the above, an offer of a participating country end product is determined to be from the lowest, responsive, responsible offeror, the cognizant contracting officer shall normally proceed to make award to that offeror. However, there is no restriction on the authority or responsibility of the cognizant Secretary to restrict acquisitions to domestic sources or reject an otherwise acceptable offer from a participating country source in those instances where such restriction or rejection is considered necessary for reasons of the national defense.

(b) *Subcontracting with participating country sources.* In reviewing prime contractor subcontracting procedures, the contracting officer shall assure that the prime contract does not preclude participating country sources from competing for subcontracts, except when restricted by national security interest reasons or mobilization base considerations.

(c) *Required clause.* As prescribed at 225.109(d)(S-72), the clause at 252.225-7002, Qualifying Country Sources as Subcontractors, shall be inserted in solicitations and contracts.

(d) *Industrial security for participating countries.* Required procedures designed to safeguard classified defense information which may be necessary for the performance of contracts awarded to participating country sources are set forth in the DoD Industrial Security Regulation DoD 5220.22-R (implemented for the Army by AR 380131; for the Navy by OPNAV Instruction 5540.8E; for the Air Force by AFR 205-4; for the Defense Logistics Agency by DLA 8500.1; for the Defense Communications Agency by DCA Inst. 240-50-7; and for the Defense Mapping Agency by DMA Inst. 5520.22).

#### 225.7404 Contract administration.

When contract administration services are requested on contracts to be performed in participating countries, except Canada, the request should be directed to the cognizant activity in accordance with DoD 4105.59-H, section II, Part 2 (DoD Directory of Contract Administration Services Components). Contract administration services required with respect to DoD subcontracts placed by participating country sources, except Canada, in the United States will be arranged by the

cognizant activity in accordance with DoD 4105.59H, section II, Part 2 (DoD Directory of Contract Administration Services Components).

#### 225.7405 List of excluded items.

The policies and procedures of this subpart do not apply to offers of the following items of defense equipment unless the quantity being acquired is greater than that required to maintain the U.S. defense mobilization base. This restriction does not apply to Canadian Planned Producers. Items may be added to or deleted from the list from time to time. Information concerning this list may be obtained from OASD(A&L)(IR). (See also Subparts 208.73, 208.74, and 208.75.)

**225.7406 Specific reciprocal memoranda of understanding with NATO participating countries.**

Specific reciprocal memoranda of understanding with NATO participating countries are included in Appendix T, Subpart 2.

**Subpart 225.75—Purchases From Defense Cooperation Country Sources****225.7500 Scope of subpart.**

This subpart implements the defense cooperation agreements made by the United States pursuant to other than Foreign Military Sales agreements.

**225.7501 Policy.**

In order to increase their respective defense capabilities through more efficient cooperation in the research and development, production, and

acquisition of defense equipment, the United States and the Governments of Israel and Egypt have entered into a defense cooperation agreement. The purpose of this agreement is to promote the most cost-effective and rational use of defense appropriations of the United States and the defense cooperation country. Accordingly, it is Department of Defense policy to achieve the best possible coordination of the materiel programs between such countries and the United States and to ensure that sources in defense cooperation countries are provided the opportunity to compete on a fair and equal basis with U.S. sources for selected research and development, production and service contracts subject to the restrictions of 225.7402(b). Accomplishment of this policy requires the exemption of certain Buy National laws and foreign acquisition restrictions with respect to selected defense equipment purchased from defense cooperation country sources. For the purposes of solicitation and evaluation of such selected defense equipment, offers of defense cooperation country end products shall be treated as if they were participating country end products, except as provided in 225.402(b).

**225.7502 Procedures.**

(a) *Solicitation procedures.* Defense cooperation country sources shall be solicited as if they were sources from participating countries. The procedures set forth at 225.7403(a)(1) shall apply.

(b) *Submission of offers.* Defense cooperation country sources competing for DoD requirements must be responsive to the terms and conditions of DoD solicitations. The Buy American Act and the Balance of Payments Program restrictions are waived only for items listed in appropriate annexes to the agreements with the defense cooperation country. However, the absence of an item from the defense equipment list is without prejudice to the authority of the Secretary to determine in any individual case that application of the restrictions to that item would be inconsistent with the public interest. Copies of these lists may be obtained from the Director for International Acquisition, ODASD(P).

(c) *Evaluation procedures.* Defense cooperation country offers shall be evaluated as if they were participating country offers. The procedures set forth at 225.7403(a)(3)(ii) shall apply.

(d) *Other procedures.* Contracting procedures, industrial security procedures and contract administration procedures for defense cooperation country sources shall be conducted as if they were sources from participating

countries. The procedures and policies set forth at 225.7403(c), 225.7404, and 225.7405, and throughout this regulation shall apply.

**225.7503 Specific memoranda of understanding with defense cooperation countries.**

Specific memoranda of understanding with the Defense cooperation countries are included in Appendix T, Subpart 3.

**Subpart 225.76—Use of U.S.-Owned Foreign Currency for Payments****225.7600 Scope of subpart.**

This subpart implements the Government's policy that U.S.-owned foreign currency be used when feasible in payment of purchases in foreign countries.

(a) This subpart applies to acquisitions of supplies, services, or construction for use outside the United States.

(b) This subpart does not apply to acquisitions (1) funded from Special Foreign Currency Program Appropriations; or (2) made under Subpart 225.1.

**225.7601 Definitions.**

As used in this subpart, the following terms have the meanings set forth below:

"Excess Foreign Currency" means currency that has been determined by the Department of the Treasury to be in excess of foreseeable requirements of the U.S. Government. Countries in which the United States owns excess foreign currency are listed in 225.7607(a).

"Near-Excess Foreign Currency" means currency that has been determined by the Department of the Treasury to be above the immediate requirements of the U.S. Government. Countries in which the United States owns near-excess foreign currency are listed in 225.7607(b).

"U.S. Dollar Content" means the U.S. dollar cost to an offeror for domestic source end products or services (including costs of transportation furnished by U.S. flag carriers) imported directly from the United States and to be used in performance of a contract, as certified by the offeror.

"U.S.-Owned Foreign Currency" means currency of a foreign country which currency is:

(a) Owned by the United States;

(b) Determined excess or near-excess by the United States Department of the Treasury;

(c) Available in the country of issuance to pay obligations of the United States within that country; and

(d) Disbursed by the United States Treasury Disbursing Officer in the country concerned, either directly to the contractor or to the military disbursing officer, as appropriate.

#### 225.7602 Procedures.

(a) Except as provided in (c) below, when supplies, services, or construction for use outside the United States are to be purchased, the solicitation shall contain the provision in 252.225-7020, Option to Award and Pay in United States Owned Foreign Currency, when it can reasonably be expected that (1) contracts will be performed in whole or in part in a country in which there is U.S.-owned foreign currency; or (2) a contractor (domestic or foreign) may be willing to accept U.S.-owned foreign currency in payment in whole or in part.

(b) Failure to state a price in U.S.-owned foreign currency, either in whole or in part, shall not in itself cause an offer to be considered nonresponsive to a solicitation.

(c) Requests for quotations for purchases described under small purchase procedures for delivery within a country in which there is U.S.-owned foreign currency shall be limited to be the local trade area of that country; and, to the extent feasible within the criteria in 225.7606, shall require quotations to be stated only in the U.S.-owned foreign currency of that country.

#### 225.7603 Evaluating offers.

(a) *Conversion for evaluation purposes.* For purposes of evaluation, offers expressed in whole or in part in U.S.-owned foreign currency shall be converted to show their equivalency in U.S. dollars at the rate of exchange used by U.S. disbursing officers for such currency on the date set for receipt of offers.

(b) *Excess foreign currency offers.* Subject to (d) below and to the award limitations in 225.7604, reference for acceptance of offers in excess foreign currency or in combinations of excess foreign currency and U.S. dollars shall be in the following order, even though the offer preferred may not be the lowest in price:

(1) The lowest responsive offer in whole in an excess foreign currency. If equal low offers are received and one or more contain a U.S. dollar content which is not required to be paid in U.S. dollars, that offer which contains the greatest U.S. dollar content shall be preferred.

(2) When the only responsive offers in excess foreign currency also contain a U.S. dollar content for which payment in U.S. dollars is required and is limited to

that content, that offer which results in the lowest expenditure of U.S. dollars.

(3) When the only responsive offers in excess foreign currency also require payment in part in U.S. dollars which are not limited to the U.S. dollar content, that offer which results in the lowest expenditure of U.S. dollars. If equal low offers are received and one or more contain a U.S. dollar content and others contain no U.S. dollar content, that offer which contains the greatest U.S. dollar content shall be preferred.

(4) When responsive offers in combinations described in (2) and (3) above are received, the lowest offer evaluated under (2) above.

(5) When responsive offers are received in U.S. dollars only, the lowest such offer. If equal low offers are received and one or more contain a U.S. dollar content, that offer which contains the greatest U.S. dollar content shall be preferred.

(c) *Near-excess foreign currency offers.* The lowest responsive offer in whole or in part in a near-excess foreign

currency which does not exceed the lowest responsive offer in U.S. dollars shall be preferred over the U.S. dollar offer. Offers in excess foreign currency shall always be preferred over offers in near-excess foreign currency.

(d) *Consideration of combination offers.* When responsive offers received include some which are priced only in U.S. dollars and others in combinations of U.S. dollars and excess or near-excess foreign currency, a combination offer shall not be considered for award if the U.S. dollar amount of that offer exceeds the dollar amount of the lowest responsive offer in U.S. dollars only.

(e) *Evaluation table.* The following table illustrates the evaluation of offers received in whole in excess foreign currency, in combinations of excess foreign currency and U.S. dollars, and in U.S. dollars only.

#### Evaluation Table

Offers received are priced in U.S. dollars and "X" Country's rupees. Applicable exchange rate assumed for this table is 3 rupees equal 1 dollar.

Offers	In excess currency only	In combination excess currency—U.S. dollars	In U.S. dollars only	In U.S. dollars as converted (see 25.7603(a))	U.S. dollars content	Preference	
						For award	See footnote
1	36OR			\$120 (\$20 + \$80)	0	1	3
2		60R + \$80		\$100 (\$6 + \$95)	0	6	4
3		18R + \$95		\$101 (\$20 + \$90)	0	None	4
4		60R + \$90		\$110	0	7	4
5			\$94	\$94	0	9	5
6	45OR			\$150 (\$20 + \$90)	\$50	2	3
7		60R + \$90		\$110	\$90	4	4
8			\$94	\$94	\$50	8	5
9	45OR			\$150 (\$20 + \$80)	0	3	3
10		60R + \$80		\$100	\$50	5	4

#### Notes to Evaluation Table:

- All offers are assumed to be responsive.
- The lowest offer in U.S. dollars only is \$94. Therefore, \$141 (\$94.00 plus \$47) is the maximum amount for which the contracting officer has authority to award without referral under 225.7604(b).
- Offers 1, 6, and 9 are entirely in excess foreign currency and are given first consideration. Offer 1, being the lowest, is preferred for award. In the absence of Offer 1, Offer 6 would be preferred because it contains a U.S. dollar content of \$50. In the absence of Offers 1 and 6, Offer 9 would be preferred. In accepting Offer 1, 6, or 9, the DoD Appropriation would be charged \$94 (see 225.7604(a)). Before Offer 6 or 9 could be accepted, they would require referral under 225.7604(b).
- Offers 2, 3, 4, 7, and 10 are combination offers and would be given consideration in the absence of Offers 1, 6, and 9, or in the absence of Offer 1 and in case Offers 6 and 9 were not approved by higher authority after referral under 225.7604(b). Offer 7 would be preferred over Offers 2, 3, 4, and 10 because it contains a U.S. dollar content and the part to be paid in U.S. dollars is limited to that content. In the absence of Offer 7, Offer 10 would be preferred over Offers 2, 3, and 4 because it contains a U.S. dollar content of \$50, and, although the part to be paid in U.S. dollars is more than that content, it would result in the least expenditure of U.S. dollars. In the absence of Offers 7 and 10, Offer 2 would be preferred over Offers 3 and 4 because it would result in the least expenditure of United States dollars. In the absence of Offers 2, 7, and 10, Offer 4 would be preferred. Offer 3 could not be considered for award because the U.S. dollar amount (\$95) exceeds the lowest offer in U.S. dollars (\$94) (see 225.7603(d)).
- Offers 5 and 8 are entirely in U.S. dollars and would be given consideration in the absence of all other offers or in the absence of all other offers except 6 and 9 and in case those offers were not approved by higher authority after referral under 225.7604(b). Offer 8 would be preferred to Offer 5 because it contains a U.S. dollar content of \$50.

#### 225.7604 Awards.

(a) *Basis.* Award shall be made in accordance with (b) and (c) below. When unreasonable overpricing in relation to the U.S. dollar cost or the normal local foreign currency cost to non-DoD users of the same or similar

items exists, the proposed acquisition shall be referred to higher authority.

(b) *Awards by the contracting officer.* The contracting officer shall have authority to award contracts as follows:

(1) To the offeror submitting the lowest responsive offer in whole or in part in excess foreign currency when

that offer does not exceed the lowest responsive offer in U.S. dollars by more than 50% and the lowest responsive offer in U.S. dollars does not exceed \$50,000; (Note: The cost to the DoD Appropriation shall be the lowest responsive offer in U.S. dollars. The additional cost will be assumed by the Department of the Treasury.)

(2) To the offeror submitting the lowest responsive offer in whole or in part in near-excess foreign currency, when that offer does not exceed the lowest responsive offer in U.S. dollars;

(3) To the offeror submitting the lowest responsive offer entirely in U.S. dollars; Provided, That payment in U.S. dollars is authorized under 225.7606.

(c) Awards requiring approval by higher authority.

(1) The contracting officer shall refer the proposed acquisition to the appropriate official listed in (3) below when:

(i) The lowest responsive offer in excess foreign currency exceeds the lowest responsive U.S. dollar offer by more than 50%, regardless of the U.S. dollar cost of the contract;

(ii) The lowest responsive U.S. dollar offer exceeds \$50,000; or

(iii) The lowest responsive offer in near-excess foreign currency exceeds the lowest responsive offer in U.S. dollars.

(2) The contracting officer shall refer the case expeditiously describing, as a minimum, the acquisition involved; the number of offers received in each currency category; the lowest responsive offer in U.S. dollars; the date or dates the offers will expire; and recommending the offer, if any, that should be accepted.

(3) The Secretaries of the Military Departments, the Assistant Secretary of Defense (Acquisition and Logistics), the Directors of Defense Agencies, and the Assistant Secretary of Defense (Comptroller), or their designees, shall determine whether a proposed acquisition described in (a) above shall be made payable in U.S.-owned foreign currency or in U.S. dollars.

#### 225.7605 Determinations of nonfeasibility and contract certifications.

(a) At the time of award, the contracting officer shall determine whether payment in U.S.-owned foreign currency is feasible.

(b) When the contracting officer determines that it is not feasible under one of the criteria in 225.7606 to use U.S.-owned foreign currency for payment of a contract, he shall execute a Contract Certification in the following format.

#### Contract Certification

I hereby certify that it is not feasible to make payment under this contract in the country of \_\_\_\_\_ in the amount of \$\_\_\_\_\_ from U.S.-owned foreign currency for the reason stated. (Cite the applicable criterion.)

(Signature) \_\_\_\_\_

(Typed Name and Title of Contracting Officer) \_\_\_\_\_

(c) When U.S.-owned foreign currency and U.S. dollars are combined for payment of a contract, the dollar amount shown in the Contract Certification shall be that amount which is to be paid in U.S. dollars.

(d) The original and one copy of each Contract Certification shall be furnished to the disbursing officer designated to make payments under the contract; and one signed copy shall be filed with the contract. Other distribution may be made in accordance with Departmental instructions.

#### 225.7606 Criteria for nonfeasibility determinations.

The following criteria shall be used in determining that payment of contracts in whole or in part in U.S.-owned foreign currency is not feasible:

(a) The Department of the Treasury is not holding excess or near-excess foreign currency in the country concerned.

(b) The contract is to be awarded in a foreign country where there is U.S.-owned foreign currency but where a treaty, executive agreement, or law of the country concerned requires payments to be made in U.S. dollars.

(c) Responsive offers require payment in U.S. dollars in whole or in part.

(d) The only responsive offers received require payment entirely in U.S. dollars.

(e) The acquisition is for a compelling need and of such urgency that serious injury to the U.S. Government would likely be incurred if payment in excess or near-excess foreign currency were to be insisted upon.

(f) Offers in excess or near-excess foreign currency were unreasonably overpriced in relation to the U.S. dollar cost or the normal local foreign currency cost to non-Department of Defense users of the same or similar items or services and payment in United States dollars has been authorized by the proper authority under 225.7604(c)(3).

#### 225.7607 Excess and near-excess foreign currency countries.

(a) The Department of the Treasury holds excess foreign currency in the following countries.

Country	Currency
Burma.....	Kyat.
Guinea.....	Franc.
India.....	Rupee.
Pakistan.....	Rupee.
Poland.....	Zloty.

(b) The Department of the Treasury holds near-excess foreign currency in the following countries.

Country	Currency
Taiwan.....	Taiwan Dollar.
Yugoslavia.....	Dinar.

(c) Changes in the currency position of the countries in which excess and near-excess foreign currency is held are disseminated periodically by the Departments to their disbursing officers.

#### 225.7608 Contracts with domestic concerns.

The clause in 252.225-7021, Acquisition and Use of Excess and Near-Excess Currency, shall be included in any contract with a domestic concern when the contracting officer anticipates the contract will be performed in any U.S.-owned foreign currency country.

#### Subpart 225.77—Procurements Involving Work To Be Performed in Foreign Countries by United States Contractors

##### 225.7700 Scope of subpart.

This subpart provides policy and procedure regarding procurements involving work to be performed in foreign countries by United States contractors.

##### 225.7701 Policy.

When a contract which requires work to be performed in a foreign country by personnel of the United States or third country national contractor is contemplated by a purchasing activity not within the command jurisdiction of the unified or specified command involved, coordination shall be effected with the appropriate senior component commander in the country involved. In the event there is no such component command in the country, or the procurement does not pertain to a component command, this action shall be effected through either the unified commander, the unified command representative, or the designated commanding officer of the unified command for that country. Such coordination shall be effected as early as possible, preferably prior to the issuance of the solicitation, but in any event prior to award of a contract. When such coordination is initiated

prior to, or at the time of solicitation, the notification should include a copy of the solicitation, and as much of the information listed in (b) as is then available.

#### 225.7702 Procedures.

(a) The contracting officer shall request the following information from the overseas Commander:

- (1) The applicability of any international agreements to the requirement being procured;
- (2) Security requirements applicable to the area concerned;
- (3) Standards of conduct required to be observed by the prospective contractor and his employees, and any action that may be taken against them in the event required standards are not maintained; and

(4) Requirements pertaining to the use of foreign currencies, including applicability of United States holdings of excess foreign currencies.

(b) The contracting officer shall furnish the overseas Commander the following information prior to any contract performance:

- (1) Any contractor logistical support desired in support of US or FMS requirements;
- (2) Contract performance period and estimated contract value;
- (3) Number and nationality of contractor employees and date of planned arrival of contractor personnel;
- (4) Contract security requirements; and
- (5) Other pertinent information to effect complete coordination and cooperation.

(c) Approvals and documentation of the contract file shall be as indicated in 225.870.

(d) In accordance with 229.402-70, the contracting officer shall, at the time of negotiation of a contract that is to be performed in a country or area listed in 229.101-10(c), obtain from the appropriate Designated Commanding Officer detailed information concerning the taxes and duties from which the Government of the United States is exempt under the provisions of applicable international agreements or foreign law.

#### PART 227—PATENTS, DATA, AND COPYRIGHTS

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, DoD FAR Supplement 201.301.

#### Subpart 227.3—Patent Rights Under Government Contracts

##### 227.304-1 General.

Interim and final invention reports and notification of all subcontracts for experimental, developmental, or research work (FAR 27.304-1(d)(ii)) may be submitted on DD Form 882.

##### 227.304-4 Subcontracts.

The contracting officer shall insert the clause at 252.227-7034, Patents-Subcontracts, in solicitations and contracts containing the clause at FAR 52.227-11, Patent Rights-Retention by the Contractor (Short Form).

#### Subpart 227.4—Technical Data, Other Data, Computer Software, and Copyrights

##### 227.400 Scope of subpart.

(a) This subpart sets forth the Department of Defense policies, procedures, implementing instructions, solicitation provisions, and contract clauses relating to rights in technical data, other data, computer software, and copyrights as well as to requirements for the acquisition of technical data and computer software. This subpart also sets forth policies, procedures, implementing instructions, solicitation provisions, and contract clauses pertaining to data, copyrights, and restricted designs unique to the acquisition of construction and architect-engineer services.

(b) Specific information concerning requirements for the acquisition of computer software is found in DoD Directive 5000.19-L, Volume II, "Acquisition Management Systems and Data Requirements Control List".

(c) This subpart does not encompass rights in computer software acquired under GSA authorized ADP Schedule Pricelist contracts. Such rights are governed by the terms of the GSA contracts.

##### 227.401 Definitions.

"Commercial computer software", as used in this subpart, means computer software which is used regularly for other than Government purposes and is sold, licensed, or leased in significant quantities to the general public at established market or catalog prices.

"Computer", as used in this subpart, means a data processing device capable of accepting data, performing prescribed operations on the data, and supplying the results of these operations; for example, a device that operates on discrete data by performing arithmetic and logic processes on the data, or a device that operates on analog data by

performing physical processes on the data.

"Computer data base", as used in this subpart, means a collection of data in a form capable of being processed and operated on by a computer.

"Computer program", as used in this subpart, means a series of instructions or statements in a form acceptable to a computer, designed to cause the computer to execute an operation or operations. Computer programs include operating systems, assemblers, compilers, interpreters, data management systems, utility programs, sort-merge programs, and ADPE maintenance/diagnostic programs, as well as applications programs such as payroll, inventory control, and engineering analysis programs. Computer programs may be either machine-dependent or machine-independent, and may be general-purpose in nature or be designed to satisfy the requirements of a particular user.

"Computer software", as used in this subpart, means computer programs and computer data bases.

"Computer software documentation", as used in this subpart, means technical data, including computer listings and printouts, in human-readable form which (a) documents the design or details of computer software, (b) explains the capabilities of the software, or (c) provides operating instructions for using the software to obtain desired results from a computer.

"Data", as used in this subpart, means recorded information, regardless of form or characteristic.

"License rights", as used in this subpart (SBIR program contracts only), means rights to use, duplicate, or disclose technical data or computer software, in whole or in part and in any manner, for Government purposes only, and to have or permit others to do so for Government purposes only. License rights do not grant to the Government the right to have or permit others to use technical data or computer software for commercial purposes.

"Limited rights", as used in this subpart, means rights to use, duplicate, or disclose technical data in whole or in part, by or for the Government, with the express limitation that such technical data shall not, without the written permission of the party furnishing such technical data, be (a) released or disclosed in whole or in part outside the Government, (b) used in whole or in part by the Government for manufacture, or in the case of computer software documentation, for reproduction of the computer software, or (c) used by a

party other than the Government, except for:

(1) Emergency repair or overhaul work only, by or for the Government, where the item or process concerned is not otherwise reasonably available to enable timely performance of the work, provided that the release or disclosure thereof outside the Government shall be made subject to a prohibition against further use, release or disclosure; or

(2) Release to a foreign government, as the interest of the United States may require, only for information or evaluation within such government or for emergency repair or overhaul work by or for such government under the conditions of (1) above.

"Limited rights", as used in this subpart (SBIR program contracts only), means rights to use, duplicate, or disclose technical data, in whole or in part, by or for the Government, with the express limitation that such technical data shall not, without the written permission of the party furnishing such technical data, be (a) released or disclosed in whole or in part outside the Government, (b) used in whole or in part by the Government for manufacture, or in the case of computer software documentation, for preparing the same or similar computer software, or (c) used by a party other than the Government.

"Restricted rights", as used in this subpart, means rights that apply only to computer software, and include, as a minimum, the right to—

(a) Use computer software with the computer for which or with which it was acquired, including use at any Government installation to which the computer may be transferred by the Government;

(b) Use computer software with a backup computer if the computer for which or with which it was acquired is inoperative;

(c) Copy computer programs for safekeeping (archives) or backup purposes; and

(d) Modify computer software, or combine it with other software, subject to the provision that those portions of the derivative software incorporating restricted rights software are subject to the same restricted rights.

In addition, restricted rights include any other specific rights not inconsistent with the minimum rights in (a)-(d) above that are listed or described in a contract or described in a license or agreement made a part of a contract.

"Technical data", as used in this subpart, means recorded information, regardless of form or characteristic, of a scientific or technical nature. It may, for example, document research, experimental, developmental, or

engineering work; or be usable or used to define a design or process or to acquire, produce, support, maintain, or operate materiel. The data may be graphic or pictorial delineations in media such as drawings or photographs; text in specifications or related performance or design type documents; or computer printouts. Examples of technical data include research and engineering data, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications and related information, and computer software documentation. Technical data does not include computer software or financial, administrative, cost and pricing, and management data, or other information incidental to contract administration.

"Technical data", as used in this subpart (SBIR program contracts only), means recorded information, regardless of form or characteristic, of a scientific or technical nature. Examples of technical data include research and engineering data, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications and related information, and computer software documentation. Technical data does not include computer software or financial, administrative, cost and pricing, and management data, or other information incidental to contract administration.

"Unlimited rights", as used in this subpart, means rights to use, duplicate, or disclose technical data or computer software in whole or in part, in any manner and for any purpose whatsoever, and to have or permit others to do so.

#### 227.402 Copyrights.

(a) In general, the copyright law gives an owner of copyright the exclusive rights to—

(1) Reproduce the copyrighted work in copies or phonorecords;

(2) Prepare derivative works;

(3) Distribute copies or phonorecords to the public;

(4) Perform the copyrighted work publicly; and

(5) Display the copyrighted work publicly.

(b) In view of the exclusive rights in subparagraphs (1)-(5) above, any technical data, other data, or computer software that is protected under the copyright law is not in the public domain, even though it may have been published, because acts inconsistent with these rights may not be exercised without a license from the copyright owner.

(c) Department of Defense policy affords the contractor ownership of copyright in any work of authorship first prepared, produced, originated, developed, or generated under a contract, unless the work is designated a "special work" in which case ownership and control of the work is retained by the Government and the contractor is precluded by the terms of the contract from asserting any rights or claim to copyright in the work. Department of Defense policy also requires that the contractor grant to the Government and authorize the Government to grant to others a nonexclusive, paid-up, worldwide license for Government purposes in any work of authorship (other than a "special work") first prepared, produced, originated, developed, or generated and, in addition, requires that the contractor grant to the Government and authorize the Government to grant to others the same license in any work of authorship acquired by the Government under the contract (not first prepared) in which the copyright is owned by the contractor.

(d) Under the clause at 252.227-7013, Rights in Technical Data and Computer Software, the contractor grants to the Government and authorizes the Government to grant to others a nonexclusive, paid-up, worldwide license for Government purposes, under any copyright owned by the contractor in any technical data or computer software prepared for or acquired by the Government under the contract. Under the clause at 252.227-7020, Rights in Data—Special Works, any work first produced in the performance of the contract becomes the sole property of the Government, and the contractor agrees not to assert any rights or establish any claim to copyright in such work. Under this clause, the contractor similarly grants to the Government and authorizes the Government to grant to others a nonexclusive, paid-up, worldwide license for Government purposes in any portion of a work which is not first produced in the performance of the contract but in which copyright is owned by the contractor and which is incorporated in the work furnished under the contract.

(e) Under both of these clauses at 252.227-7013 and 252.227-7020, unless written approval of the contracting officer is obtained, the contractor also agrees not to include in any work prepared, produced, originated, developed, generated, or acquired under the contract, any work of authorship in which copyright is not owned by the contractor without acquiring for the Government and those acting by or on

behalf of the Government a nonexclusive, paid-up, worldwide license for Government purposes in the copyrighted work.

#### 227.403 Acquisition of rights in technical data.

##### 227.403-1 Background.

(a) *Government's interest in technical data.* The Government has extensive needs for many kinds of technical data. Its needs may well exceed those of private commercial customers. For defense purposes, millions of separate equipment and supply items, ranging from standard to unique types, must be acquired, operated, and maintained, often at points remote from the source of supply. Functions requiring varied kinds of technical data include training of personnel, overhaul and repair, cataloging, standardization, inspection and quality control, packaging, and logistics operations. Technical data resulting from research and development contracts must be obtained, organized and disseminated to many different users. Finally, the Government must make technical data widely available in the form of contract specifications in order to obtain competition among its suppliers, and thus further economy in Government acquisition.

(b) *Contractor's interest in technical data.* Commercial organizations have a valid economic interest in technical data pertaining to items, components, or processes which they have developed at their own expense. Such technical data is often closely held because its disclosure to competitors could jeopardize the competitive advantage it was developed to provide. Public disclosure of such technical data can cause serious economic hardship to the originating company.

##### (c) *The balancing of interests.*

(1) It is apparent that there is no necessary correlation between the Government's need for technical data and its contractors' economic interest therein. However, in balancing the Government's requirements for technical data against the contractor's interest in protecting its technical data, it should be recognized that there may be a considerable identity of interest. This is particularly true in the case of innovative contractors who can best be encouraged to develop at private expense items of military usefulness where their rights in such items are scrupulously protected.

(2) It is equally important that the Government foster successful contractual relationships and encourage a ready flow of data essential to

Government needs by confining its acquisitions of technical data to cases of actual need. Certainly the Government must not be barred from bargaining and contracting to obtain such technical data as it needs, even though that technical data may normally not be disclosed in commercial practice. Moreover, when the Government pays for research and development work which produces new knowledge, products, or processes, it has an obligation to foster technological progress through wide dissemination of the new and useful information derived from such work and where practicable to provide competitive opportunities for supplying the new products and utilizing the new processes.

(3) At the same time, acquiring, maintaining, storing, retrieving, and distributing technical data in the vast quantities generated by modern technology is costly and burdensome for the Government. For this reason alone, it would be necessary to control closely the extent and nature of technical data acquisition. Such control is also necessary to ensure Government respect for its contractors' economic interest in technical data relating to their privately developed items. The policies and procedures of this subsection are framed in the light of these considerations.

##### 227.403-2 Policy.

##### (a) *General.*

(1) It is the policy of the Department of Defense to acquire only such technical data rights as are essential to meet Government needs.

(2) In deciding whether to acquire technical data for future acquisitions so that all such acquisitions can be made on a competitive basis to the maximum practicable extent, the provisions of this section shall govern.

(b) *Unlimited rights technical data.* Technical data in the following categories shall be acquired with unlimited rights:

(1) Technical data resulting directly from performance of experimental, developmental, or research work which was specified as an element of performance in a Government contract or subcontract;

(2) Technical data necessary to enable others to manufacture end-items, components and modifications, or to enable them to perform processes, when the end-items, components, modifications or processes have been, or are being, developed under Government contracts or subcontracts in which experimental, developmental or research work was specified as an element of contract performance, except technical data pertaining to items,

components or processes developed at private expense;

(3) Technical data prepared or required to be delivered under any Government contract or subcontract and constituting corrections or changes to Government-furnished data;

(4) Technical data pertaining to end-items, components or processes, prepared or required to be delivered under any Government contract or subcontract, for the purpose of identifying sources, size, configuration, mating and attachment characteristics, functional characteristics and performance requirements ("form, fit and function" data, e.g., specification control drawings, catalog sheets, envelope drawings, etc.);

(5) Manuals or instructional materials prepared or required to be delivered under a Government contract or subcontract for installation, operation, maintenance or training purposes; and

(6) Technical data which is in the public domain or has been or is normally released or disclosed by the contractor or subcontractor without restriction on further disclosure. "In the public domain" means available to the public without copyright or other restriction of any kind.

##### (c) *Limited rights technical data.*

(1) Except as provided in paragraph (b) above, unpublished technical data pertaining to items, components or processes developed at private expense will be acquired with limited rights; *Provided*, that the data is identified as limited rights data in accordance with subparagraph (b)(2) of the clause at 252.227-7013, Rights in Technical Data and Computer Software. Unpublished, as applied to technical data and computer software documentation, means that which has not been released to the public nor been furnished to others without restriction on further use or disclosure.

(2) It should be clearly understood that the above statement of policy is a recital of rights to be acquired in technical data. Neither the foregoing statement of technical data rights policy, nor its implementing subparagraphs (b) (1) and (2) of the clause at 252.227-7013, Rights in Technical Data and Computer Software, establishes technical data requirements for a particular contract. It should also be noted that technical data pertaining to items, components or processes developed at private expense may be called for, required, or otherwise furnished under subparagraphs (b) (1), (3), (4), (5), and (6) above and, as such, it will be acquired with unlimited rights. Contract clauses and the schedule establish the form and type of technical

data to be furnished; the categories into which such technical data fall, determine the rights to be obtained by the Government to use or publish such technical data.

(d) *Predetermination of Rights in Technical Data.*

(1)(i) When the Government needs technical data with unlimited rights, any data which the offeror intends to deliver with limited rights pursuant to paragraph (c) above should be identified prior to contract award, if feasible, and an agreement with respect thereto shall be incorporated in the contract. This procedure is called predetermination of rights in technical data.

(ii) The procedure may be initiated by the contracting officer or an offeror during the negotiation of a negotiated contract. In order to be productive, the procedure should apply only to that technical data for which rights may practicably be identified. Although the agreement may also cover technical data to be delivered with unlimited rights, in no case shall the procedure be used to require the contractor to furnish, with unlimited rights, technical data which it is entitled to furnish with limited rights under the policy in paragraph (c) above. The contracting officer shall consult counsel as fully as possible in determining whether to use the procedure and in connection with the various steps of the procedure.

(2) Any agreements reached shall be incorporated in the Schedule of the contract directly or by reference and shall describe specifically the technical data which may be furnished with limited rights pursuant to paragraph (c) above. The contracting officer may, however, review the technical data asserted to be limited rights data to determine whether to invoke the procedures of paragraph (f) below to negotiate to purchase unlimited rights in any of the technical data, or adopt some alternative such as to—

(i) Delete or modify the requirement for the technical data in which the Government would need unlimited rights if it were ordered; or

(ii) Modify the specifications so as not to require or permit the use of the item, component or process covered by the limited rights data; or

(iii) Include a contractual option to acquire unlimited rights.

(3) When the predetermination of rights in technical data procedure is to be used, include the provision at 252.227-7014, *Predetermination of Rights in Technical Data*, in the Request for Proposals.

(4) If completion of predetermination proves impracticable before award or if contractual requirements relating to

design or technical data items are changed during the course of a contract, an appropriate provision shall be included in the contract, requiring the contractor to complete the identification of limited rights with respect to that technical data listed in the solicitation for which predetermination was proposed, or to identify limited rights technical data relating to the changed requirements.

(e) *Subcontracts.* It is the policy of the Department of Defense that prime contractors and higher-tier subcontractors shall not use their power to award subcontracts as economic leverage to acquire rights in the technical data of their subcontractors for themselves. Accordingly, a subcontractor who would have the right pursuant to paragraph (c) above to furnish technical data with limited rights, may furnish such limited rights data directly to the Government rather than through the prime contractor.

(f) *Specific acquisition of unlimited rights in technical data.*

(1) Notwithstanding paragraph (c) above or any other provision of this subsection the Government may acquire unlimited rights in any limited rights technical data by means of negotiation with an individual contractor or subcontractor, or as a part of a competition among several contractors or subcontractors. Such individual negotiation or competition may be conducted either by the Government, or upon Government request by the prime contractor or higher-tier subcontractor. Such unlimited rights in technical data shall be stated in the contract schedule as a separate item and shall be separately priced. Unlimited rights in technical data shall not be acquired under this paragraph unless it is determined after a finding upon a documented record that—

(i) There is a clear need for repurchase of the item, component, or process to which the technical data pertains;

(ii) There is no suitable item, component or process of alternate design or availability;

(iii) The item or component can be manufactured or the process performed through the use of such technical data by other competent manufacturers, without the need for additional technical data which cannot be purchased reasonably or is not readily obtained by other economic means; and
